Congressional Record

PROCEEDINGS AND DEBATES OF THE 97th CONGRESS, SECOND SESSION

SENATE—*Thursday, December 9, 1982*

(Legislative day of Tuesday, November 30, 1982)

The Senate met at 9:45 a.m., on the expiration of the recess, and was called to order by the President pro tempore (Mr. THURMOND).

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

Father in Heaven, we commend to Thee one of our Official Reporters of Debates, Bill Mohr, in the sudden and unexpected loss of his wife last night.

Our loving Heavenly Father, we pray for all who are hurting. We commend to Thee those who are ill and ask for their rapid, complete recovery. May they experience the healing touch of the "Great Physician." We remember those who are discouraged and frustrated and ask that they be given relief and hope. We pray for those suffering emotional pain that they may be given Thy peace.

As Christmas approaches and troubles are magnified, we ask for Thy gracious intervention in those having financial difficulty—for the unemployed—for fathers and mothers who face the holidays with no provision for their children. There are homes where the family is at war. We ask for reconciliation and the peace of God.

Father in Heaven, as the Senators struggle with stubborn issues, give them wisdom to distinguish between the substantial and the superficial. Help them to use their time with the greatest profit. Let Thy grace and love fill the hearts and the homes of all who are part of this great family. Through Jesus Christ, our Lord. Amen.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The acting majority leader is recognized.

ORDER FOR THE TRANSACTION OF ROUTINE MORNING BUSINESS

Mr. STEVENS. Mr. President, I ask unanimous consent that, following the recognition of the two leaders under the standing order, there be a period for the transaction of routine morning business not to exceed 30 minutes, during which Senators may speak therein for not to exceed 5 minutes each.

The PRESIDENT pro tempore. Without objection, it is so ordered.

EISENHOWER ANNIVERSARY DINNER

Mr. STEVENS. Mr. President, my service in the Department of Interior under the Eisenhower administration is an experience that will be with me for the rest of my life. The knowledge and friends I gained during those years have been the basis of my experience in public service.

On October 14 of this year, a reunion of the old guard the Eisenhower guard—was held here in Washington, D.C. Over 1,000 of those who served in the Eisenhower administration attended the anniversary dinner. During the course of the dinner, remarks were delivered by an old friend—a person I consider to be a valued colleague—Dr. William Bragg Ewald, Jr. Bill's words brought back memories of the dedication we all shared toward the goal of American peace, prosperity, and independence.

I would like to share with the Senate the words of Dr. Ewald. I ask unanimous consent that his remarks—the remarks of the biographer, incidentally, of Dwight David Eisenhower—be printed in the RECORD.

There being no objection, the remarks were ordered to be printed in the RECORD, as follows:

REMARKS OF DR. WILLIAM BRAGG EWALD, JR.

It is an unutterable pleasure and an unutterable honor to speak to this audience, which includes so many beloved friends of so many years.

As Governor Adams said when I walked into his office up at Loon Mountain after many years in which I hadn't seen him: "OK, let's get to work."

No shooting war.

No lives lost.

No territory surrendered to aggression.

The consumer price index going up at an annual average rate of 1.4 percent.

Real GNP increasing 47 percent over an 8-year span.

I don't have to tell you, of all people, what years I'm talking about.

Because in loyalty and devotion and service, you helped shape them.

As Arthur Burns said the last time we met here, "Those were good years."

Years, in his wonderful metaphor, of "Eisenhower weather."

He never forgot the first time he saw Dwight Eisenhower, as he joined his fellow faculty members for Ike's inauguration as president of Columbia.

The day had been threatening. The procession approached the place where Burns was waiting. The clouds parted, the sun burst out. And Eisenhower turned to Arthur with that great grin and quipped: "Eisenhower weather."

The Supreme Commander had it on D-Day in 1944, when the blinding storms over the English channel subsided for 36 hours to permit the invasion.

He had it at his second inaugural as President in 1956, on that bleak January afternoon when, once again, the clouds divided and the sun came out, and he spoke of the winds of change sweeping the earth.

And he had it at the funeral.

It was not a gloomy funeral, as many of us remember on what was our first reunion after his death.

No sad songs for him: just that magnificent Scottish setting of the 23rd psalm, "Onward Christian Soldiers", and that heroic Bach chorale prelude, "Wir Glauben All'."

It was a happy day. Like St. Paul, he might have said at the end of a long life: "I have fought a good fight. I have finished my course. I have kept the faith."

Sure, he had made some mistakes: the removal of the Marshall paragraph in 1952; the decision in 1956 not to speed up the launching of an earth satellite and thus beat out the Russians' Sputnik; the scheduling of the U-2 flight on the eve of the Paris summit conference in 1960.

He wasn't perfect.

Who is?

● This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

The plain fact is that in the past half century, since October 24, 1929, when the stock market crashed and since September 18, 1931, when the Japanese invaded Manchuria, we've had few years indeed without one of three things: a shooting war; a deep depression; or murderous inflation.

Except the Eisenhower years.

Not bad.

Now, all these things being true, why?

Why have the myths—the myriad myths—persisted? Including that unspeakable myth concocted by the Select Committee on Intelligence chaired by Senator Frank Church that Ike ordered the assassination of Patrice Lumumba in the Congo.

He didn't order Lumumba's assassination.

He didn't order anybody's assassination.

He hated the very thought of assassination.

I've laid out the facts on all this—facts that start where the Church committee left off—and I wish to God people would stop parroting the myth and pay those facts some attention.

The biggest myth—the myth of the golfing president, the do-nothing president, the know-nothing president—that myth is silly on the face of it as every one in this room knows.

But the myth persisted.

Then two things happened: Vietnam and inflation.

In 1963, as we were going to press with "Mandate for Change," Eisenhower did what he usually did with long chapters—chopped and chopped and chopped. He chopped and chopped away at the chapter on the 1954 Indochina war. It was ancient history. Who would want to read about it? So he cut page after page of commentary on the folly of sending unilaterally, without allies, American forces into the jungles of Southeast Asia.

A few years later, when we were unilaterally engaged in the folly of sending American ground forces by the hundreds of thousands into the jungles of Southeast Asia, the wisdom of that 1954 Ike decision struck like lightning and started people thinking.

Next, inflation.

Ike worried when it edged up past two per cent. He gave us three balanced budgets.

And nobody cared. Until inflation skyrocketed into double digits.

And we realized that those three Eisenhower balanced budgets were three of the five we've had in more than thirty years.

Another thing happened: the record started unfolding.

First, the Ann Whitman files, which the President took with him to Gettysburg, and drew on heavily for "Mandate for Change" and "Waging Peace;" and which are now being opened for research.

Then the diaries of Bern Shanley, C. D. Jackson, and Jim Hagerty.

And I can tell you that when the voluminous minutes of the meetings of the National Security Council are opened, they will fill out with overwhelming evidence a portrait of Eisenhower at work, quick of intellect, decisive, wrestling with the most intractable problems in the world.

So here we stand, with this historical legacy.

Is this what brings us together tonight?

Great as it is, I believe the answer is no.

Because every President has two legacies: a historical legacy—what he did; and a biographical legacy—what he himself was.

And the biography determines the history.

Lyndon Johnson wanted history to remember him for the Great Society. He will be remembered for Vietnam.

Richard Nixon wanted history to remember him for reshaping the geopolitical structure of this planet. He will be remembered for Watergate.

And the fault in both instances was not in the stars, but in the men themselves—something down there inside, in the flesh, the bone, the nervous system.

The conduct of the presidency is not a science. The conduct of the presidency is an art—an art that turns on what lies in the mind and heart and soul of the man in the Oval Office.

On February 12, 1959, Carl Sandburg addressed a joint session of Congress on the 150th anniversary of the birth of Abraham Lincoln. And with his first sentence a rare hush fell over the hall. This is what he said: "Not often in the story of mankind does a man arrive on earth who is both steel and velvet, who is as hard as rock and soft as drifting fog, who holds in his heart and mind the paradox of terrible storm and peace unspeakable and perfect."

Nothing about Lincoln's legislation, nothing about the Civil War. Only words about steel and velvet, rock and fog, storm and pure peace; the interior landscape of the soul of the man—an incredible man.

At the center of the wheel there is a point—a theoretical point—that does not turn—what T. S. Eliot called the "still center of the turning world:" a point infinitely small, perpetually still.

This image leaped alive one afternoon several years back when I went to interview Ed McCabe. I'd gone to see Ed about Ike's labor legislation. But then he began to reminisce, to wander into other fields of memory. And he recalled that July afternoon in 1958 in the cabinet room when Eisenhower told the congressional leaders he was sending U.S. Marines into Lebanon.

The congressmen drew in their breath with audible apprehension.

And then Ed, who was sitting behind the President, looked at him, and what he saw was this: one big hand draped over the arm of a chair, a hand relaxed, with no sweating palm, no agitation, no nervousness.

Eisenhower had outsized hands—hands good for kneading pie dough or firing a gun—hands with knuckles broken years earlier in football and boxing (the only hands I've ever seen comparable were those of Gene Tunney), yet hands which could, incredibly, make swift, tiny, impeccably accurate editings in the margins of a typed text.

I never forgot that image. And as I thought about it, a pattern—a pattern of parallels—began to form, from many sources:

Bill Robinson's diary account of his first meeting with Eisenhower during the Battle of the Bulge—a meeting in which everyone at SHAEF headquarters was going crazy, and only Ike was calm;

The picture of Ike out on the White House lawn during the 1956 Suez crisis, with the looming possibility of World War III; banging one golf ball after another, grinding his teeth and cussing to himself about the perfidy of his old friends the British and the French;

The memory of that Gettysburg day in 1962 during the Kennedy Cuban missile crisis when Eisenhower suddenly left our editing session, took a briefing call from the White House, and returned with the buoyant exclamation: "Boy, that was good news," reflecting, "You know, most of the worst things you expect to happen never do happen;"

And that almost unbearable moment in the midst of his final illness at Walter Reed, several months before the end, when, as nationwide TV news reported the physicians' fear that he probably wouldn't live through the night, I spoke with John over the phone and he confirmed that stark prognosis and then added: "The only person who is not gloomy around here is Dad. He's kidding with the nurses and still having a great time."

The pattern formed—formed around that central image of that Lebanon afternoon: the image of wheeling power: of the planet-shaking movement of ships and troops and planes—a thousand SAC aircraft bombed and ready—the greatest emergency deployment of military force in our peacetime history—a supreme demonstration of the Eisenhower principle that he would enunciate again and again, eyes flashing, riveting the listener: "Look, when you appeal to force, there's just one thing you must never do—that's lose. There's no such thing as a little force. When you use it, you use it overwhelmingly."

And at the center of all that wheeling motion—at the still center of this turning world—that single hand: no sweating palm, calm, relaxed: the symbol of a man four-square in heart and hand and mind: A man of command and objectivity and courage and control.

Not often in the story of mankind does a man arrive on earth of steel and velvet and peace unspeakable and perfect.

Something like that resided in the mind and heart and soul of Dwight Eisenhower.

In the midst of many threatening clouds it brought us a beautiful golden season of Eisenhower weather.

For what he did, and above all for what he was, we thank God from the bottom of our hearts tonight.

Mr. STEVENS. Mr. President, I reserve the remainder of my time.

RECOGNITION OF THE MINORITY LEADER

The PRESIDENT pro tempore. The Democratic leader is recognized.

Mr. ROBERT C. BYRD. Mr. President, if any Senator on my side desires time, I am prepared to yield time.

Mr. President, I suggest the absence of a quorum with the time to be charged against my time under the standing order.

The PRESIDING OFFICER (Mr. STEVENS). The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. PROXMIRE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SPECTER). Without objection, it is so ordered.

Mr. PROXMIRE. Mr. President, I understand we are in the minority leader's time. I ask that we move to morning business, which the acting majority leader had requested.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business not to exceed 30

minutes. The time of the majority leader will be reserved.

HATFIELD MASTERFUL PERFORMANCE ON THE NUCLEAR FREEZE

Mr. PROXMIRE. Mr. President, last Sunday our colleague, Senator MARK HATFIELD, appeared on "Meet the Press." His responses were so timely and express so eloquently the views of those who favor a nuclear freeze, that I want to call them to the attention of all Members of the Congress.

Several of Senator HATFIELD's responses should be called to the special attention of all who are concerned about the nuclear arms race. First, in an analogy that should haunt all of us, he called the nuclear arsenals of the United States and the Soviet Union like: "two men standing in a room armpit high in gasoline. One man has seven matches, the other man has eight matches. Someone comes along and says, 'You ought to have 9 and you ought to have 10 matches.' It is just such an overkill today that we have in our arsenal."

Second, Senator HATFIELD provided a thougthful perspective on true national security. He said:

National security of this Nation is composed of more than just hardware. I do not think any President since Dwight Eisenhower has had the full understanding of what constitutes national security. And that is that the health of the people, the housing of the people, the productivity of the people, all of these are important factors in our security. And as long as we pursue the expenditure direction we are moving on to the imbalance of other needs of our national security.

Third, when asked if President Reagan is right in arguing that we have been falling behind the Soviet Union and that we need new nuclear weapons like the MX to catch up, Senator HATFIELD replied:

In some areas they may be a little ahead; in some areas, we may be a little ahead. As compared between the Warsaw Pact countries and the Soviet Union on the one hand and the NATO Allies and the United States on the other hand, in the last decade we have outspent the Soviet Union and the Warsaw Pact countries by $300 billion. Seventy five percent of the Soviet missiles are landbased, fixed target, while about 250 of ours are. We have a more flexible missile system. We have a more accurate missile system. We have more qualitative factors that offset some of the quantitative analysis. All in all I think we would have to admit that we are roughly equivalent. This is a golden moment, therefore, in history to seize an opportunity to get some true arms control. And the bottom line on this again is simply when we ask the Joint Chiefs of Staff, "Would you trade our arsenal for the Soviet arsenal?" We do not get an affirmative answer.

Mr. President, I ask unanimous consent that the entire transcript of the Hatfield appearance on "Meet the Press" be printed in the RECORD at this point.

There being no objection, the transcript was ordered to be printed in the RECORD, as follows:

MEET THE PRESS

(Produced by Betty Cole Dukert, Live/Washington, D.C., Sunday, Dec. 5, 1982)

Guest: Senator Mark O. Hatfield, Chairman, Appropriations Committee; moderator and executive producer: Bill Monroe, NBC News; panel: John Dancy, NBC News; Michael Getler, Washington Post; Clare Crawford-Mason, People Magazine; Nick Thimmesch, Los Angeles Times Syndicate.[1]

Mr. MONROE. Our guest today on "Meet the Press" is Senator Mark Hatfield, Republican of Oregon. A former Governor of Oregon, Senator Hatfield is Chairman of the powerful Appropriations Committee. He is sponsoring jointly with Senator Kennedy a resolution calling on the United States and the Soviet Union to freeze their development of nuclear weapons.

Our reporters today are Nick Thimmesch, of the Los Angeles Times Syndicate; Clare Crawford-Mason, of People; Michael Getler, of The Washington Post; and to open the questioning , John Dancy, of NBC News.

Mr. DANCY. Senator, unemployment in this country as of the reported figures on Friday was 10.8 percent. That means at least 12 million people in the country out of work. Do you think that Republicans in the Senate should now join with Democrats in sponsoring some sort of jobs bill over and above the highway bill that the President has been talking about?

Senator HATFIELD. I believe there's no question that this is a bipartisan concern and therefore there ought to be a bipartisan effort to address basically the unemployment problem. If the Democrats of the House carry through with their proposal to add another five billion in someway or another, in addition to the gasoline tax, obviously if the Senate Republicans hold to their present situation, we would go to conference with zero from the Senate and five billion from the House. Normally, in conferences, you split the difference. So I think that there's going to be some jobs bill over and above the five billion proposed by the President in the gasoline tax.

Mr. DANCY. So you're talking about in the lame duck session then.

Senator HATFIELD. I'm talking about in the lame duck session because I am convinced that the continuing resolution will become that vehicle.

Mr. DANCY. Let's talk about next year in the regular session. Now do you think it's time for the President to drop his insistence on a third year tax cut in order to put that money into some sort of additional jobs bill?

Senator HATFIELD. I believe that we have to look at the dilemma we're in and that is these rising deficits and their impact upon many facets of the American economy. Just as an example, the government will probably go into the money market and borrow some 200 billion dollars in this coming year. That will now represent about 70 percent of the savings pool as contrasted to the government borrowing about 30 percent of the savings poll in 1981. So we have to stop that trend, not just to get a so-called balanced budget, but to really get the economy turned around.

So it seems to me that when we look at the fact that through the tax bill, reduction bill, we eroded the tax base by some 750 billion dollars in a four-year period, that we have to do something to address that part of the budget problem. Namely, what about revenues? We talk about reducing spending. That's very important. We must continue to try to do that. But that is not going to turn the economy around alone. We've got to address the question of revenues and the loss of revenues.

Now I would like to see the President consider postponing or phasing-in the third year tax reduction in order to preserve that revenues base that has been so deeply eroded. And in addition to that, I'd like to see some of the reforms put into the tax bill and the tax laws to close those loopholes. Because, frankly, if everyone who owed the government taxes paid those taxes, we would have far less of a deficit today. But there are many millionaire individuals and large corporations who are escaping taxes because of the multitudinous loopholes.

Mr. MONROE. Thank you, Senator. We'll be back with more questions for Senator Mark Hatfield.

(Announcements.)

Mr. MONROE. Our guest on Meet the Press, Senator Mark Hatfield. Mr. Getler?

Mr. GETLER. Senator, your Committee last week added about $475 million extra in military and economic aid to Israel beyond the roughly two billion dollars requested. The Administration opposes this, claiming it would appear as a reward for Israeli behavior in Lebanon and jeopardize relations with other countries, and perhaps impede the peace process.

Could you tell us why your Committee added this and what does it say about the supposed reduction of public support in this country for the Begin Government?

Senator HATFIELD. The Committee attempted to re-configure the actual total package to make it more traditional between the forgiveness of loans and the additional money for new military sales.

There's also strong support for Israel in the Senate of the United States, and I think the Committee was responding to that, in part. Mr. Philip Habib had made a telephone call directly to me, as did Mr. Clark, of the White House, urging that we cut those figures back on the very basis that you have outline in your question.

The simple proposition was that there is no House bill for 1983 on foreign operations, in which this is incorporated. And we were trying to complete the appropriations process on the Senate side. We did not have a vote because the votes were simply not there to strike it in conforming with the Administration's request. And so, there will be no bill. This issue may reappear on the continuing resolution. But it was the best judgment on the part of the State Department, myself and others who were concerned about this not to raise it in order to get a recorded vote, because there's not going to be a bill anyway.

Mr. GETLER. If I could turn you to another controversial vote that occurred in the Congress last week. Your counterpart committee in the House voted 26 to 26, and thereby approved the production of the new MX missile and the dense pack deployment plan. As you know, there are powerful opponents to this in the Senate. How do you think that this program is going to fare ultimately on the floor of the Senate?

[1] This is a rush transcript provided for the information and convenience of the press. Accuracy is not guaranteed. In case of doubt, please check with "Meet the Press."

Senator HATFIELD. If I were to put a dollar on the table it would be on the side of defeating the MX missile. I believe there is a likelihood that that will happen in the lame duck session. And I say that because we are so recently removed from the election campaign of 1982. And I think throughout this country not only did the nuclear freeze movement and all the votes that people cast on that issue communicate a message on the nuclear freeze issue. But I think beyond it, people were saying to the Congress and to the Administration we want a better balance between the military and non-military functions or spending of the government. We feel there are a lot of factors here we're neglecting—job development, energy conservation, reconstruction of our infrastructure, all of these factors that really constitute part of our defense anyway. And so I think that message, having come through so recently, there's a lot of likelihood that we'll defeat the MX missile in the Senate, if they don't on the House floor.

Mr. GETLER. On the freeze, President Reagan has claimed—I know you're one of—you and Senator Kennedy, as Mr. Monroe mentioned, are one of the original supporters of the resolution, but President Reagan has claimed that the peace movement and the nuclear weapons free movement are being manipulated by foreign powers, including the Soviet KGB, at least to some extent.

To what, if any, extent do you believe this?

Senator HATFIELD. Well, I think it's an unfortunate comment made by the President because it tends to divert the attention from the substantive question. I can say that as one who has been involved in the leadership of this program or this movement for quite some time—and by the way, we were not initiating an idea when Senator Kennedy and I introduced this. We were responding more to what has already within the public, through town halls or New England and county court commissions and city halls that were discussing this issue. It's a global movement, as well. But I have never found anyone who identified or could be identified in the leadership roles as representing the Soviet cause. These are deeply concerned Americans, deeply concerned about being moved to the edge of the abyss of potential global annihilation. And I think that is a very preeminent concern—survivial Survival. It's not a question of a weapons system versus another weapons systems. It is that we have such an arsenal now. It's equivalent to two men standing in a room armpit high in gasoline. One man has seven matches, the other man has eight matches. Someone comes along and says, you ought to have nine and you ought to have ten matches. It's such an overkill today that we have in our arsenal, that people are deeply concerned that this is causing further unemployment and economic distress by pursuing these weapons systems.

Mr. MONROE. Ms. Crawford-Mason?

Ms. CRAWFORD-MASON. Do you think the nuclear freeze issue is going to be the dominant political issue in America in the next several years?

Senator HATFIELD. I think it was an overriding issue in a number of the elections this year. When you consider that ten out of eleven states had referendums and they voted in support of it, many counties, city councils everywhere from Charlotte, North Carolina to the State of Oregon; from moderate, liberal, conservative, Democrat, Republican, all sections of this country, all persuasions have moved ahead on support of this issue. I think it's going to be with us. It's going to continue and I think you're going to see it even stronger than it was in the 1982 election.

Ms. CRAWFORD-MASON. Now you mentioned in the '82 election some of your Republicans colleagues and the message. A lot of your Republican colleagues had a very close call. There are going to be 19 Republican Senators up for re-election in 1984. How is this going to affect—including yourself. How is this going to affect their relationship with the President? Are they going to try to distance themselves from him? Are they going to be a rubber stamp?

Senator HATFIELD. I have hope that in the period between now and 1984 that the Administration and the Congress will have been able to resolve some of this apparent difference that exists on this issue, because I think we have to look at the total package. We're looking at national security of this nation and it's composed of more than just hardware. Too long a time—in fact, I don't think any President since Dwight Eisenhower has had the full understanding of what constitutes national security. And that is that the health of the people, the housing of the people, the productivity of the people, all of these are important factors in our security. And as long as we pursue the expenditure direction we're moving on to the imbalance of other needs of our national security—these that I've enumerated—I think more and more there's going to be public pressure to—to change this direction, to change these priorities, and I can't help but think the Administration hears those voices as well as the people who are going to be out there running, and especially if the President is a candidate for re-election. He has to face that same constituency, that same electorate on a broader basis. And I think that he has some very politically astute people around him and there will have to be some modifications of that position.

Mr. MONROE. Mr. Thimmesch?

Mr. THIMMESCH. Senator, on the lame duck session, you were originally quoted as saying that no more than four of the ten appropriations bills would be dealt with. Are you still saying that and what's this session going to accomplish before the Christmas holiday break? Just some more continuing resolutions?

Senator HATFIELD. There's no question we're going to have another continuing resolution, probably extending the present deadline of December the 17th to sometime in the Spring, perhaps March. I'm still hopeful that we can pass four to five or six, at the most, and I think it's going to be closer to four appropriation bills. That means we will have to come back in January and re-pass even those that either house had passed in the meantime during this session.

The whole process—this is indicative of the problem we have with the whole appropriations process. Remember, last year it was June before we got a Budget Resolution. Then we had to have a reconciliation. Then we had to have a tax bill. Then we had to have an urgent supplemental. And it was September before we got into the actual appropriating process for 1983. Then we had to stop the last two weeks of September to create a continuing resolution. So the whole process has really tended to bog down, rather to be expedited after we passed the budget act.

Mr. THIMMESCH. Was the President wise to call this special session?

Senator HATFIELD. The President had no choice, because when we put a deadline for the expiration of the continuing resolution on the 17th of December, we couldn't let the government just bog down and stop acting between the 17th of December and when we reconvened in January in the new session.

Mr. THIMMESCH. But do you get really quality legislation out of a session like this?

Senator HATFIELD. Well, I personally have never felt that the overall ranking of an action of a lame duck session deserved more than a C minus, but perhaps we can get up to a c this time.

Mr. MONROE. Senator, how do you answer President Reagan's arguments offered to the American people a week or so ago with charts showing that we're falling way behind the Soviets in defense spending, in intermediate missiles, in long range missiles, in bombers. Aren't those powerful arguments to the effect that we need this new MX, or as he calls it, peacekeeper missile?

Senator HATFIELD. There's no question the President made a very persuasive presentation to the American public and I think you can make an argument. I think the President can make an argument to some degree. But let me say I think there are limitations to his argument.

Number one, there are assymmetries when you compare the Russian system with assymmetries to our systems. In some areas, they may be a little ahead; in some areas, we may be a little ahead. Let us bear in mind that when you begin to compare percentages of GNP, you're into real deep water because are you comparing rubles with rubles or rubles with dollars; are you comparing a conscripted army and the cost of a conscripted army with a volunteer army. There are a lot of differences here that you cannot put out on a straight quantitative analysis. And don't forget the bottom line is, as compared between the Warsaw Pact countries and the Soviet Union on one hand, and the NATO allies and the United States on the other hand, in the last decade we have outspent the Soviet Union and the Warsaw Pact countries by $300 billion. Now that's measuring it by dollars. But don't forget the qualitative factor. Seventy-five percent of the Soviet missiles are landbased, fixed target, while about 25 percent of ours are. We have a more qualitative factors that offset some of the quantitative analysis.

All in all, I think we would have to admit that we are roughly equivalent. This is a golden moment therefore in history to seize an opportunity to get some true arms control. And the bottom line on this again is simply when we ask the Joint Chiefs of Staff would you trade our arsenal for the Soviet arsenal, we do not get an affirmative answer.

Mr. MONROE. Mr. Dancy?

Mr. DANCY. Senator, on the way back from—from Central America last night, the President said that he favored resuming aid, military aid to Guatemala now that the country is—says it's planning to have free elections. How would you feel about that?

Senator HATFIELD. I would oppose it. I think where you introduce instruments of violence, military weaponry in an area that has such overwhelming social problems, where people are hungry, where people are illiterate. Those are the causes of violence. That's the seedbed for war.

Let me give you an example. In El Salvador, 40 percent of the deaths by natural causes happening today in El Salvador in

the rural areas is happening to children five years or under, who are dying from malnutrition and starvation. Now no matter how many arms you introduce into that scene, you're not correcting the real fueling of the fire of the insurgency; namely the kind of maldistribution of resources and the human needs that are not being met. We're the largest arms peddler in the world today. We're sending arms to countries which do not even have a subsistence agriculture base. I think there's really an ethical, moral question here. Are we really using our resources in the best cause of humanity. What kind of an America are we really trying to project? An America of compassion and concern for people or of one so Maginot Line mentality that we think all solutions to all problems are going to be found by the measurement of megatons and more bombs and more killing.

Mr. DANCY. Senator, I talked with one of your colleagues this past week who said flatly that the C.I.A. is running our foreign policy in Honduras. Do you believe that? And if you believe it, how is that going to affect further aid requests for Central America?

Senator HATFIELD. I understand by one of the national press that we have a 150 C.I.A. people today in Honduras. But I have no direct information on that. I'm only saying that there is evidence that we have political involvements there through C.I.A. and through other channels that I think again, to answer your question, is—is the wrong approach. We're not dealing with the causes of the problem. We're only dealing with the manifestations and in time, it'll cause more embarrassment to the United States than influence that we hope to gain.

Mr. MONROE. Mr. Getler?

Mr. GETLER. Senator, is there a feeling amongst you and your colleagues that the—whatever intelligence operations are being supported in Central America are getting out of control, or at least have the possibility of getting out of control?

Senator HATFIELD. I have no—have not had conversation with a collective group of my colleagues on this matter. Individually one-to-one, there are some of us who are deeply concerned about this. We go back and re-read our history and remember our history where we had been deeply embarrassed in Chile and we have been deeply embarrassed at other times by the covert actions that really went beyond oftentimes the—perhaps the instructions or even the intent of the foreign policy.

When we begin to base our foreign policy on covert actions, it seems to me there's a place for intelligence, but not—foreign policy should not be based on that. It should be based in the open arena where we're dealing with the specific issues and the causes of the problem we're trying to solve.

Mr. GETLER. Senator, the President has said that the Russians are negotiating seriously in Geneva on reducing strategic nuclear arms and that he is also serious about wanting such as agreement. Yet, there are probably forces who don't want an agreement. Do you believe that this Administration really does want a strategic arms agreement with the Soviets and is capable of getting one?

Senator HATFIELD. I think there's no question that President Reagan is sincerely and dedicated to the proposition of trying to reduce the causes of war, the potential of war. Now I would perhaps differ in terms of the methods or the mechanics, but not in the objective. I think his objective, and my objective, and those who feel as I do are precisely the same.

I do feel that when we consider that we are oftentimes trying to negotiate theatre weapons, and then in another forum we're trying to negotiate strategic weapons and various other ways of which we approach piecemeal, that we're not really going to get the product that we should be after. And that is looking at the totality of the arsenal, negotiating toward the totality reduction after we get a freeze, and then secondly to parallel those negotiations with the very obvious political questions that are not always as evident in the weapons negotiation.

In other words, we should be carrying on parallel negotiations. And thirdly, we ought to be doing like we did in the case of the hostages, American hostages in Iran. I believe we have never quite caught the significance of world public opinion in bringing it to bear on some of these issues and policies. If we were sending people around to the capitals of the world, if we were holding national conferences on nuclear freeze and arms control, I think we would have there again an opportunity to bring to bear upon this whole effort to—to inspire the Soviet Union, to inspire the United States to really get down to the business of getting something done.

Let us utilize, mobilize all these forces toward this objective.

Mr. MONROE. We have less than three minutes. Ms. Crawford-Mason?

Ms. CRAWFORD-MASON. Yes. You've been a spokesman here today for feeding the hungry and cutting money for arms. Has a balancing act between your commitment to ethics and political compromise gotten more difficult now that you're a member of the Republican majority?

Senator HATFIELD. There's no question that when you become a part of the majority you have to demonstrate the capability to act like a majority and to govern. Naturally, some of my—I suppose some of my views have had to be at least submerged for the purpose of getting the whole job done or getting some part of the job done. That does not mean I have yielded at all on my convictions. I've raised my voice in the councils of the party, in the councils of leadership. I pursue these with all the vigor I can. But when you have the greater responsibilities of chairmanship you have to—your timeframe, if nothing else, is restricted.

But let me point out, because you've raised this question. A lot of these issues that we are dealing with today—namely, economic, political and social—are basically spiritual issues that demand some kind of an ethical response. And I think there again we're neglecting the opportunities to bring to bear another powerful force of this nation, rather than just letting this nation become looked upon as strictly a materialistic, secular-type of nation.

Mr. MONROE. Mr. Thimmesch?

Mr. THIMMESCH. Senator, this election left the Senate with the same balance of Republicans in the majority. But do you see the Senate giving the President the same kind of support he's had in the past two years? Do you see any change in mood up there among, even your own Republicans?

Senator HATFIELD. I think the support's going to be of a different character. I think the first two years everyone's view was let's give the President and his economic gameplan—it's the only one in town—give it a chance. Vote for it, even though some of us held our nose on certain parts of it and voted aye. But at least it was an attempt on the part of the President to bring to bear, focus on issues that had not been really looked upon, and that these issues had been accumulating over the last fifty years. Not to look back to put the blame, but to understand it.

Long before we had President Reagan and David Stockman, we had inflation problems, we had unemployment problems, we had all these economic problems we're dealing with today. President Reagan is the man who put the focus on some of these problems and said I believe this gameplan will work.

Some of us are concerned about how—how successful it has been. And therefore, I think you're going to find more people looking for modifications, and thereby it'll be interpreted perhaps as less support, but really it's an attempt to resolve these differences, not have confrontation, but work with the President to get a better result from the gameplan.

Mr. THIMMESCH. Do you see some presidential vetoes coming up, especially on social legislation?

Senator HATFIELD. Yes. Yes, I do, perhaps, but I hope Mr. Stockman and the rest of us can resolve those before we get to the veto. I don't want to go through the supplemental experience again where we had to override the President's veto.

Mr. MONROE. Thank you, Senator, for being with us today on Meet the Press. I'll be back in a minute with a word about next weeks' guest.

(Announcements.)

Mr. MONROE. Next Sunday on Meet the Press our guest will be President Zia, of Pakistan, who will be visiting this country.

ABUSES IN UGANDA REINFORCE NEED FOR THE CONVENTION

Mr. PROXIMRE. Mr. President, on August 27, 1,200 prisoners from Luzira Upper Prison, near Kampala, were released after some months in the custody of the Ugandan State Police. Among these detainees were many political prisoners, including Ambrose Okullo, a former Deputy Minister for Cooperatives and Marketing, and John Kaliisa, a former Ambassador. These releases were a promising sign from a nation that had precious little, in the area of human rights, to be optimistic about and many hoped that Uganda, terrorized for so long under Gen. Idi Amin, had finally placed itself on the road to recovery. Up to that point, the government of Dr. A. Milton Obote was most notable for the arbitrary arrests, systematic torture of prisoners, and extrajudicial executions that occurred so overtly under its rule. With such a dismal past record on human rights, this sudden act of magnanimity, on the 20th anniversary of their nation's independence, sparked new hope that Uganda's return to normalcy was finally under way.

Regrettably, recent testimony from people with Uganda, compiled by Amnesty International and other human rights groups, indicates that optimism was premature to say the least. Last week I brought to your attention Amnesty International's latest report,

"Human Rights Violations in Uganda: Extrajudicial Executions, Torture, and Political Imprisonment," which documents many of the atrocities that are being carried out by agents of the Ugandan Government. These descriptions of senseless cruelty and inhumanity rival even those of Idi Amin's squads and the hopes that many had for the once idealistic Obote government have largely been deflated.

Most of the systematic torture of prisoners seems to be occurring in the Makindye and Kireka military barracks. While accounts of torture have been reported at most major prisons and interrogation centers, these buildings are arranged into a series of progressively worse stages of internment. As if by assembly line, detainees are brought in and out of torture chambers and brought closer and closer to their individual breaking points.

The Makindye barracks, for instance, are principally divided into three cell blocks: "Quarter-Guard," "Bone," and "Go-down." These three rooms were designed to hold roughly 20 prisoners each, although the Ugandan police can usually pack 600 prisoners, or 10 times the maximum occupancy, into the chambers. At "Quarter-Guard" prisoners are welcomed to Makindye with scenes of dead bodies and sporadic, sometimes lethal, violence by the guards. They are interrogated, usually tortured, and those that survive are deposited in either "Bone" or "Go-down." As one prisoner told the French magazine Le Monde, "The only apparent purpose of 'Bone' and 'Go-down' was to let the detainees die." Tragically, it appears that prisoners left in these two chambers often do just that and one Kampala businessman testified that while he was in "Go-down" as many as 9 people died a day in a cell of 200.

The hellish scenes depicted in these testimonies leave little question as to the true character of the Obote regime. Starvation, mutilation, rape, and sexual torture are all common methods of interrogation and the only limitation placed on the excesses of the secret police is the individual's physical constitution and endurance. At prisons like Makindye, detainees are moved in and out of these scenes of extreme brutality and depravation until they either succumb to the conditions or are fortunate enough to have money to buy their way out. The assembly line nevertheless continues to operate day and night with the same streamline efficiency and lack of utility that characterized the Amin period.

The question that remains is, How long will this machines' appetite for victims be satisfied with just those individuals collected through arbitrary arrests by the police? How long until, like Amin, the Government singles out a particular tribe or people to be processed and consumed? We have seen machines like this before and are painfully familiar with their self-propelling nature. It is because of this nature that the world needs the Genocide Convention so badly, a document still waiting for this body's final advice and approval. The convention is a contemporary approach to an ancient crime and deserves this Nation's participation.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

(During the call of the roll Mr. D'AMATO assumed the chair.)

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. NICKLES). Without objection, it is so ordered.

EXTENSION OF TIME FOR ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, I ask unanimous consent that the time for the transaction of routine morning business be extended until not past 11:30 a.m. today under the same terms and conditions as previously ordered.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

The majority leader is recognized.

Mr. BAKER. Mr. President, the reason for extending the time is so that we can obtain the presence of Senators to manage the next measure. We have not yet fully cleared any of the items that were identified yesterday to take up. It looks like the California utilities bill is the most likely prospect. As soon as Senator DOLE, who is chairman of the jurisdictional subcommittee, reaches the floor and we can confer with the minority leader, it would be my intention to ask the Senate to go to that measure.

I might say, President, that the schedule today remains uncertain partly because the highway bill was not reported from the Finance Committee in time to appear on the RECORD today.

I would still like to reach that measure today, but, in all frankness, I have serious doubts that I will be able to do so.

In view of that displacement of the primary business of today, we will have to confer a little further and see what is going to happen next. The next 20 minutes will be used to try to accomplish that, but Senators should be on notice that it is likely that the next order of business will be the California utilities measure.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

Mr. BAKER. Mr. President, is there further morning business?

The PRESIDING OFFICER. Is there further morning business? If not, morning business is closed.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, I have a unanimous-consent request to make.

The PRESIDING OFFICER. The Senator will state the request.

RADIO MARTI

Mr. BAKER. Mr. President, I ask unanimous consent that if and when the Senate proceeds to another matter, that the Radio Marti bill be temporarily laid aside and recur as the pending business after the disposition of such matter, that the Senator from Nebraska (Mr. ZORINSKY) be first recognized, and that any interruption in his presentation not be considered as a second speech for the purpose of the two-speech rule.

Mr. METZENBAUM. Objection.

The PRESIDING OFFICER. Objection is heard.

Mr. BAKER. Mr. President, I am doing this as a convenience to the Senator from Nebraska. The alternative, I might say to my friend from Ohio, is simply to move the consideration of the next item of business. If that motion succeeds, it would displace the motion to waive with regard to Radio Marti. Maybe that is the result that many wish. I was simply trying to accommodate the desires of other Senators and thought I had not prejudiced anybody else.

If the motion succeeds and if we do proceed to the consideration of the California utilities bill, as I hope we will, without this unanimous-consent agreement Radio Marti will be back on the calendar. That does not preclude me from moving to waive the budget act again. If the request is granted, it would provide simply that the Senator from Nebraska would be first recognized and have his right protected when it recurs as the pending business. I am prepared to proceed either way. If the Senator feels that he must object to that, of course, that is another matter.

Mr. METZENBAUM. will the majority leader yield for a question?

Mr. BAKER. Yes.

Mr. METZENBAUM. Do I understand correctly that the request refers only to the right of the Senator from Nebraska to be recognized and that the motion does not carry with it the matter of laying aside Radio Marti?

Mr. BAKER. Let me reply in this way, Mr. President. Technically speaking, Radio Marti is not before the Senate. What is before the Senate is my motion to waive the provisions of section 402(a) of the Budget Act coincident to the consideration of Radio Marti.

Mr. President, the only way that we can protect the right of the Senator from Nebraska to be recognized, if and when we return to consideration of the motion to waive the provisions of the Budget Act, would be by unanimous consent. Otherwise, I am perfectly free to make that motion regardless. The measure is not now before the Senate. The motion is before the Senate at this time.

Mr. ROBERT C. BYRD. Mr. President, will the majority leader yield?

Mr. BAKER. Yes.

Mr. ROBERT C. BYRD. Mr. President, the motion to waive the provisions of the Budget Act is a privileged matter. That motion would not be displaced by calling up an unprivileged bill, I believe.

Mr. BAKER. I believe that is right.

The motion to proceed to Radio Marti itself is not a privileged matter. But the motion before us now, the motion to waive the provisions of the Budget Act, is privileged, because I understand that the Budget Act is privileged.

Mr. ROBERT C. BYRD. That is my understanding.

Mr. BAKER. Mr. President, may I inquire of the Chair, is that the understanding of the Chair?

Mr. METZENBAUM. If it is the understanding of the Chair, would he be good enough to state what that understanding is so each of us may be fully apprised?

The PRESIDING OFFICER. The motion to proceed to a privileged or nonprivileged matter would displace this motion.

Mr. ROBERT C. BYRD. Would displace a privileged motion to waive?

Mr. BAKER. Mr. President, I think I should perhaps restate the inquiry.

The dialog that the Senator from West Virginia and I had was on the basis of whether or not the motion to waive the provisions of the Budget Act—which is privileged by reason of the privileged status of the budget waiver—would displace a motion to proceed to a nonprivileged matter or whether it would temporarily suspend that. It is my understanding that a motion to proceed to a nonprivileged matter would not displace the present motion, which is to waive the provisions of the Budget Act, rather, it would temporarily lay it aside.

The PRESIDING OFFICER. It is the understanding of the Chair that the motion to proceed to either a privileged or nonprivileged matter would displace the motion to proceed to the budget.

Mr. BAKER. I understand it would displace it if the motion succeeds. The question is, what happens to it? Does it recur then after the disposition of that matter?

Mr. President, it really is an academic issue, because it is a privileged motion. I can make it at any time. None of the rights are prejudiced. Therefore, there is no good purpose that I see in spending the time of the Senate at this time in pursuing the unanimous-consent request.

Let me say instead, on my own responsibility, to the Senator from Nebraska that I shall not try to proceed to the budget waiver or Radio Marti without giving him and the minority leader ample advance notice so he is not taken by surprise.

I say for the benefit of those who may be listening, including Members on both sides who have a strong interest in Radio Marti, that it remains my intention to attempt to proceed to that matter again before we conclude this session of the 97th Congress.

With that, Mr. President, there is no unanimous-consent request. I withdraw such a request.

I am prepared now, Mr. President, to ask the Senate to proceed to the consideration of——

Mr. ZORINSKY. Will the majority leader yield for one moment?

Mr. BAKER. Yes.

Mr. ZORINSKY. I should like to ask unanimous consent that I be rerecognized first to resume when the question of the budget waiver on Radio Marti is again before the Senate.

Mr. METZENBUAM. Objection.

The PRESIDING OFFICER. Objection is heard.

Mr. BAKER. Mr. President, I have no way to deal with that other than to assure the Senator that when I make that motion, I shall make sure the Senator has ample notice and is on the floor. I rather expect that he would be recognized shortly after the motion is made.

Mr. ZORINSKY. I thank the majority leader.

Mr. BAKER. Mr. President, I ask unanimous consent that I may withdraw—have the yeas and nays been ordered on the motion waive the provisions of the Budget Act?

The PRESIDING OFFICER (Mr. SIMPSON). They have been ordered.

Mr. BAKER. Mr. President, I ask unanimous consent that the yeas and nays be vitiated.

Mr. METZENBAUM. Objection.

The PRESIDING OFFICER. Objection is heard.

Mr. BAKER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

NORMALIZATION METHOD FOR PUBLIC UTILITY PROPERTY

Mr. BAKER. Mr. President, I move that the Senate proceed to the consideration of Calendar Order No. 933, H.R. 1524.

Mr. BUMPERS. Mr. President——

The PRESIDING OFFICER. The question is on the motion.

Mr. BUMPERS. Mr. President, I want to address the motion to proceed to take up this bill.

The PRESIDING OFFICER. The Senator from Arkansas.

Mr. BUMPERS. First of all, Mr. President, this bill deals with some subject matter—incidentally, if the Senators want to go to lunch, by all means they should proceed, because I am going to discuss this for a few moments.

Mr. ROBERT C. BYRD. Will the distinguished Senator yield?

Mr. BUMPERS. Without losing my right to the floor.

Mr. ROBERT C. BYRD. Yes.

Mr. President, I just want the RECORD to be clarified for future understanding.

Now that the motion has been made to proceed to another matter, what happens to the previous motion to waive? We cannot have two motions to proceed pending at the same time.

The PRESIDING OFFICER. The motion to waive will be displaced, if the motion to proceed is agreed to, I advise the minority leader.

Mr. ROBERT C. BYRD. So the majority leader will have to renew that motion at such time as he may want to bring that up.

The PRESIDING OFFICER. The Senator is correct.

Mr. BUMPERS. A parliamentary inquiry, Mr. President.

The PRESIDING OFFICER. The Senator will state it.

Mr. BUMPERS. The motion to waive the provisions of the Budget Act was the pending business prior to the motion to take up the so-called California utilities bill. The Chair has just stated that that motion is simply displaced by a subsequent motion. The question is, if we had been on the Radio Marti bill itself, it could not have been set aside until the motion to proceed to this bill had been granted, is that not correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. BUMPERS. Is that same thing not true of the privileged motion to take up the budget waiver?

The PRESIDING OFFICER. What was pending was not a motion to proceed to the budget waiver. It was a motion to waive that appropriate section of the Congressional Budget Act.

Mr. BUMPERS. In any event, my question is, that cannot be set aside, can it, until the present motion is disposed of?

The PRESIDING OFFICER. It will not be displaced until this motion is agreed to.

Mr. BUMPERS. So at such time as the majority leader may prevail on the existing motion, once the vote is taken on that, say, the motion to take it up is approved by the Senate, do we automatically go back then to the motion to waive the budget or would we proceed then to this bill?

The PRESIDING OFFICER. I will delay that response until the Parliamentarian has made an inquiry.

Mr. BUMPERS. Mr. President, as most Members of this body know, we are going to talk about this bill for a while.

Mr. ROBERT C. BYRD. Mr. President, will the Senator indulge me one further moment? I have no particular interest one way or the other at the moment in the matter in which the Senator is discussing.

Mr. BUMPERS. I am happy to yield.

Mr. ROBERT C. BYRD. I am a little troubled by what is developing on these motions. I am not talking about the subject matter, but I am a little troubled that a motion can be pending before the Senate and another motion can be made without the withdrawal of the previous motion and that the Senate will proceed to act on the second motion. This bothers me. Perhaps this is a legitimate procedure, but I would like to have some clarification of this. We could have any number of motions, before the Senate, if that is the case. I had always thought only one motion could be pending at a given time.

I am not trying to take the side of the majority leader or oppose him or take any side other than I would want a clarification of this. There was a motion before the Senate. It had not been acted upon. The majority leader made a second motion. Does he or does he not have to withdraw the previous motion before making the second motion?

Mr. BAKER addressed the Chair.

The PRESIDING OFFICER. The majority leader.

Mr. BAKER. Mr. President, I thank the minority leader for his statement, and I understand his concern.

Let me express my view of the situation as I perceive it. Perhaps we can make a further parliamentary inquiry.

At the time we attempted to move to the California utilities bill, there was pending before the Senate a motion by me to waive the provisions of the Budget Act.

The PRESIDING OFFICER. The leader is correct.

Mr. BAKER. That motion had not been disposed of. However, had the Senate had before it the bill itself, that is, Radio Marti, it is clear that a motion to proceed to another bill would have been in order; it would have displaced it and taken it back to the calendar, absent unanimous consent. It seems to me only logical then that a motion to proceed to another matter would equally displace a motion that was then pending before the Senate dealing with another piece of legislation. They are both concerned with the same subject matter. A motion to waive the provisions of the Budget Act is a substantial action by the Senate. it is not a procedural motion. It is an action mandated by statute, permitted by statute, created by statute.

It would be my view, Mr. President, that a motion to move to another piece of legislation, then would be in the same category as to attempt to displace a pending piece of legislation which clearly is in order.

So, Mr. President, let me frame the parliamentary inquiry in this way: Is a motion to proceed to an item on the legislation calendar, specifically Calendar Order No. 933, H.R. 1524, in order at a time when a motion to waive a provision of the Budget Act was then pending before the Senate and remained undisposed of?

The PRESIDING OFFICER. It would be in order since the motion to waive is not a motion to proceed.

Mr. BAKER. I thank the Chair.

Mr. President, the motion is debatable, is it not?

The PRESIDING OFFICER. It is debatable.

Mr. BAKER. And the motion before the Senate at this time is my motion to proceed to the consideration of H.R. 1524, the California utilities bill?

The PRESIDING OFFICER. That is the motion. The Senator is correct.

Mr. BAKER. I thank the Chair.

Mr. ROBERT C. BYRD. Will the Senator yield to me?

Mr. BUMPERS. Without losing my right to the floor.

Mr. ROBERT C. BYRD. What happens to the motion to waive? Is it just temporarily suspended until action on the pending motion is disposed of?

The PRESIDING OFFICER. The motion to waive is a privileged matter. If the motion to proceed during a privileged or nonprivileged matter is agreed to, then the motion to waive would be displaced. If this motion to proceed should be withdrawn, then the question would recur on the motion to waive.

Mr. ROBERT C. BYRD. In the meantime, if the majority leader should move to adjourn, what happens to the motion to waive?

The PRESIDING OFFICER. The motion to proceed would fall. The motion to waive would not fall.

Mr. ROBERT C. BYRD. I thank the Chair.

The PRESIDING OFFICER. And in fact at that point would be the unfinished business.

Mr. BAKER. Mr. President, I ask unanimous consent that the Senator from Arkansas may yield to me without losing his right to the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, I have in hand an unrelated matter but it appears to be cleared on both sides of the aisle. I inquire of the minority leader if he is prepared for me to put this request to limit time for debate on S. 2411, Calendar No. 857, at this time?

Mr. ROBERT C. BYRD. Yes, with the indulgence of the Senator from Arkansas.

TIME AGREEMENT ON S. 2411

Mr. BAKER. Mr. President, I ask unanimous consent that when the Senate turns to the consideration of Calendar Order 857, S. 2411, the bill to amend the Omnibus Crime Control and Safe Streets Act, it be considered under the following time agreement:

One hour on the bill to be equally divided between the chairman of the Judiciary Committee and the ranking minority member or their designees;

Thirty minutes under the control of the Senator from North Carolina (Mr. EAST);

Five minutes on an amendment——

Mr. ROBERT C. BYRD. Excuse me. That 30 minutes under the control of, is that merely for debate?

Mr. BAKER. For debate.

Mr. ROBERT C. BYRD. That is not for amendments or motions?

Mr. BAKER. Debate only.

Mr. ROBERT C. BYRD. All right.

Mr. BAKER. Five minutes on an amendment to be offered by the Senator from Pennsylvania (Mr. SPECTER) dealing with clarifying and technical changes;

Five minutes on an amendment to be offered by the Senator from Pennsylvania (Mr. SPECTER) dealing with overall organizational changes and changing PSOB program;

Five minutes on an amendment to be offered by the Senator from Alabama (Mr. HEFLIN) dealing with the State Justice Institute Act;

Twenty minutes on an amendment to be offered by the Senator from Pennsylvania (Mr. SPECTER) dealing with restructuring the NIJ and BJS;

Ten minutes on an amendment to be offered by the Senator from South Carolina (Mr. THURMOND) dealing with title 18 protection for certain individ-

uals within the intelligence community, identical to S. 2552, passed Senate on October 1, 1982;

Five minutes on an amendment to be offered by the Senator from North Carolina (Mr. EAST) dealing with the Marihuana Cultivation on Federal Lands Crime Act;

Five minutes on an amendment to be offered by the Senator from West Virginia (Mr. ROBERT C. BYRD) dealing with a realinement of the Federal Judicial Districts in West Virginia;

Ten minutes on an amendment to be offered by the Senator from Kansas (Mr. DOLE) dealing with interstate exchange of criminal information;

That no other amendments not already reported as part of this bill be in order;

Five minutes on any debatable motions, appeals, or points of order, if so submitted to the Senate.

And that the agreement be in the usual form.

Mr. ROBERT C. BYRD. Mr. President, reserving the right to object, the last clause would be with regard to the control and division of time inasmuch as the——

Mr. BAKER. Amendments also, since I believe we provided no other amendments would be in order.

Mr. ROBERT C. BYRD. Yes; the Senator is ruling out any second-degree amendments by that portion?

Mr. BAKER. Yes; I think that would be fair.

Mr. ROBERT C. BYRD. The usual form would not necessarily affect germaneness because the Senator has specified all amendments that would be allowed.

Mr. BAKER. Yes, Mr. President.

Mr. ROBERT C. BYRD. It would only have to do with the division and control of the time.

Mr. BAKER. Mr. President, the four corners of the agreement would provide, I believe, that no other amendment would be in order, including second-degree amendments, and the usual form which might carry with it a prohibition against nongermane amendments is by implication included in this since we have identified the only amendments that can be dealt with.

Mr. ROBERT C. BYRD. The reason I asked, there was some question as to the division and control of the time, and I was explaining for the RECORD that that statement takes care of that.

Mr. BAKER. It does include that, yes, I agree with the minority leader, and I thank him for his observation.

Mr. ROBERT C. BYRD. Mr. President, I have no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. I thank the Chair and I thank the Senator from Arkansas for permitting me to put the request at this time.

NORMALIZATION METHOD FOR PUBLIC UTILITY PROPERTY—H.R. 1524

Mr. BUMPERS. Mr. President, the motion now pending is to take up a bill commonly referred to as the California utilities bill. I am not completely familiar with it, but I know that a lot of utilities want it. I am advised that the bill is not particularly offensive to any of my beliefs, but the bill has an amendment attached to it by the Finance Committee which shortens the holding period for capital gains, and I do feel very strongly about that.

Before talking about the capital gains rate or the holding period necessary to qualify for that great tax rate on income, I must say that this is not the kind of substantive legislation that we should be dealing with in a lame-duck session.

The President said he wanted a lameduck session to take up appropriations bills. We will have been here 2 weeks tomorrow and so far we have passed only the District of Columbia appropriations bill.

The House of Representatives is dealing with the defense appropriations bill, but it is very doubtful that bill is going anyplace, and that we are going to wind up with a continuing resolution while we vote on the MX, aircraft carriers, and the B-1 bomber, on the defense appropriations bill. The chances of that bill getting through the Senate to conference and back for final passage is almost zero. So we will have to vote on those issues all over again when the continuing resolution comes through.

If we really believe that we should honor the President's request to pass these appropriation bills—and I am one that does—I cannot understand why we should waste time on measures that are not relevant to the reason we came back and indeed which merely provide a Christmas tree for some bad legislation. I cannot understand why we are dealing with that kind of legislation. It is not what the American people have a right to expect of us.

I am not opposed to the so-called California utilities bill. Based on what people have told me, it grants relief to many people and maybe deservedly so.

However, the amendment that is objectionable grants substantial relief to people by flying in the face of the fairness in our tax system. Also, it certainly is highly questionable in the context of the President's economic philosophy about true investment.

Consider what this amendment will do. First, consider the history of the capital gains tax.

In 1975, if you held an asset for 6 months and sold it for a gain and if you were in a high tax category, the maximum rate you had to pay on that gain was 48 percent. If you sold it in less time than that, however, and recognized a gain, then you had to pay about 70 percent. That assumes you are one of the wealthier people in the country who paid the 70-percent top tax rate which we had for years, and years, and years. Last year, under the Economic Guaranteed Depression Act of 1981, we reduced the maximum income rate to 50 percent, thereby reducing the rate on capital gains to 20 percent.

This 20-percent maximum results from actions in 1978 following the sponsorship and hard work of the then Senator from Wyoming, Clifford Hansen. He shepherded a bill that reduced the old maximum capital gains rate of 48 to 28 percent. In doing so, he also made a commitment to the Senate and to those of you who voted for it. He said:

> If you will vote to reduce the capital gains rate from 48 to 28 percent, I will agree to extend the holding period necessary to get that rate from 6 months to 1 year.

So if you want to go buy some stock or you want to buy a piece of real estate, to qualify for this nearly 50-percent reduction in your capital gains rate in the future, you had to hold an asset for a year instead of 6 months.

I thought that was a fair tradeoff at the time. I thoght 70 percent was too high for ordinary income and I thought 48 percent was pretty high on capital gains, so it seemed to be a suitable tradeoff.

Afterward, President Reagan, campaigned on the proposition, and argued after he was President, that what the country needs is true investment. The whole theory of supply side economics was that we were going to cut people's taxes, so they would save money and create a tremendous pool of capital for investment. There would be so much of it that business could not possibly absorb it all and, therefore, interest rates would fall. Then business would borrow all the more to retool their plants and build new ones, and "There would be jobs, jobs, and more jobs for everybody."

The crux of the tax cut was for people to save their tax cut to create this tremendous pool of money.

In all fairness, the saving rate has gone up very significantly in the last 12 months because people are scared to death. They are not saving their money because they had this big excess to save from the tax cut. They are saving because they are frightened out of their hides.

The other thing the Economic Guaranteed Depression Act of 1981 did was to cut this capital gains rate still further.

When we reduced the rate of income tax to 50 percent, that, in conjunction with the 60-percent exclusion for capital gains, automatically meant that, in the future, if you held an asset for 1 year or more, you no longer were

going to pay the 28 percent that we had just cut it to in 1978. In the future it would be 20 percent.

I have done a lot of things that I am very happy and proud of since I have been in the Senate. I have done a few that I wish I could do over, cast a few votes that I might change. The one vote I cast that I guess I am as proud of as any since I have been here was against that tax bill last summer.

For me to believe that you could cut taxes $750 billion over a 5-year period, spend an additional $1.6 trillion on defense in the same period of time and balance the budget would have made me repudiate everything my dear late estimable second-grade arithmetic teacher taught me. I loved her and I thought I would be betraying her. So I voted against that tax bill.

One of the primary reasons I voted against it was that 35 percent of the benefits went to the wealthiest 4 percent of the people in this country.

You know, one of the most dangerous things this country faces right now is the deepening cynicism of the people toward their Government and their elected officials, and we keep doing things that are unforgiveable. We keep doing things that just exacerbate this cynicism and hasten the day that Thomas Jefferson warned us about, that our democracy could only last with the consent of the governed.

One of the healthy things, incidentally, about the election on November 2, 1982, was that we finally reversed the downward trends in voting participation in this country. In 1978—and you always use off-election years in talking about this issue—only 38 percent of the people eligible to vote in this country chose to do so, and that was a continuation of a trend that began in 1962. Ever since 1962 at every off-election year fewer and fewer people in America were participating in the most important thing in their lives; namely, voting.

Well, 1982, for reasons which are still not clear to me or to political analysts, we upped the percentage of people who are eligible to vote from 38 percent to 41 percent, and I think that is very healthy.

I scarcely make a speech these days without warning people that that was the most dangerous trend in America. When people shun their government and refuse to participate, they are leaving it to fewer and fewer people, and oftentimes they are giving somebody twice the vote.

If you do not vote, that is making somebody else's vote count for twice as much. You might as well give somebody two votes when you stay home.

What people must be made to understand is that when they give somebody else their votes they may be giving it to some zealot with whom they fervently and strongly disagree.

Adolf Hitler was never elected in a popular election. He was never chosen by the people of Germany as their leader, and the only reason he was able to usurp power was because of the lethargy, the indolence, the indifference of some people who thought they had it made or that it really did not matter. They sat by out of both fear and indifference and allowed it to happen.

Thomas Jefferson warned 205 years ago that this was always a danger to our system, and that is the reason we often refer to our system as a participatory democracy. If people do not participate, then it is no longer a participatory democracy, and very shortly it will not even be a democracy.

I think one of the reasons, from my analysis, why more people voted in 1982 is because they were afraid, they were frightened, for the future of the country; and apprehensions in this country right now run almost as deep as they did in 1933 when Franklin Roosevelt soothed the people of this country with statements such as, "We have nothing to fear but fear itself," and he went on to say, "The time has come to speak boldly and frankly." He made people realize those were dark days, but in one sense it was a wonderful time because we could turn to ourselves and, with the kind of leader that Franklin Roosevelt was, solve the problems.

Many nations of the Earth have our problems or even worse, which they cannot solve. The reason they are not solvable is that they do not have the natural resources, they do not have the educational institutions, and they do not have the freedom that we have.

I think a lot of people voted for Ronald Reagan in 1980 believing things could get no worse. They voted for him, and things got worse. I think a lot of people in 1982 had to reconsider, and they decided that we still needed an additional change.

Involved in that decision, and in the greater voter turnout is that they thought that little, simple element of fairness was being trampled on. You can call it demagoguery, you can call it whatever you want to, but I could not agree with them more. I said it in every speech I had an opportunity to say it in, that the basic error of this administration is its indifference to that little, simple quality of fairness which is absolutely essential to our survival.

The tax bill we passed last summer proved to people that we have lost our sense of fairness.

I grew up being poor. It was not so bad to be poor when I was because everybody was. In fact, my father was a local merchant and, comparatively speaking, in the little town of Charleston, Ark., we were infinitely better off than 90 percent of the other people.

As I said, being poor involved no stigma, because everybody was poor.

Incidentally, I never denigrate Franklin Roosevelt and say he is the cause of all of our problems today. Some of my Democratic colleagues are afraid to mention Franklin Roosevelt, but he saved Charleston, Ark. My father was lucky to sell a battery radio or a kerosene refrigerator. As a matter of fact, we sold iceboxes, and, in those days, the iceman came twice a week and left 50 to 75 pounds of ice in your house until Franklin Roosevelt decided to put electrical power all along rural America. We put people to work under WPA, which was the first CETA project in this country. And men stopped men in my city who wanted to vote and wanted to work, and they were allowed to work for $21 a month.

The hair gets a little stiff on the back of my neck when I hear people deplore the jobs bill. The only people who criticize jobs bills have jobs. They are not confronted with a wife and children wondering where the next meal is coming from, the are not wondering how on Earth they are going to educate those children so they will have any kind, any semblance, of a chance in this world.

Well, what can be more demeaning than to be an able-bodied man who wants a job and cannot find one? It is the most degrading thing that can happen to anybody. The President talked about family values during the campaign. What is more devastating to family values that to force a family apart because of money and because they cannot even feed themselves?

Well, people in my State make a median family income of $16,000 to $17,000 a year. That means half the people in my State make over $16,000 a year and half of them make less than that.

And so this tax bill came along last year and they all said, "Isn't this wonderful? This is just great. They are going to cut our taxes." And that family of four got about $150 tax cut the first year, and they got about a $220 tax cut the second year. And over the 3-year period, if we go ahead and implement the third year next July 1, they will have received the magnificent sum of about $280 a year in tax savings.

A person making $100,000 a year, however, saves $6,000—20 times as much as some of the best of people in my State get—$6,000 a year to those who make $100,000 a year and about $280 to the middle class in the State of Arkansas. Why, it is not even enough to pay the increase in their utility bills.

Naturally, people said, "Tax cuts are fine, but I didn't feel mine; could hardly find it." They certainly were not going to save it; there was not anything there to save. There was not

enough to even talk about unless you happen to make over $50,000 a year, in which case it began to make a difference.

I heard one Senator on the floor of the Senate say, "Thank you, President Reagan. That means $80,000 a year to me and about $300 to my constituents." Another Senator said, "I have recomputed my taxes. It means about $40,000 a year to me and about $300 to my constituents. Thank you, President Reagan."

So, in 1982, people were not saying they do not like President Reagan. Most people like him personally. They find him to be an engaging man. They are very terribly troubled, however, by his economic philosophy, which they perceive to be unfair to about 90 to 95 percent of the people in the country. In that context, we have a little old bill that is euphemistically called the California utilities bill. Yet, there is a little old amendment attached to that bill. Now the House last year and this year refused to accept that same amendment. I do not know what Chairman ROSTENKOWSKI's view on the amendment will be this time. Maybe he is prepared to accept it. I do not know, but I am not.

In all probability, if there were an up or down vote here on this bill, it would pass by a big margin. And if I were to just offer an amendment to strike the odious and offensive part of this bill, it would probably be defeated.

I am at a loss to understand how anybody in this body could accept this capital gains amendment, and say at the same time that they thought it would help our problems in trying to balance the budget: even on the Democratic side, how could they go home and tell their constitutents that the problem is fairness? This amendment means another $200 million for the wealthiest people in the country.

You see it is difficult for people like me to talk about the wealthy because it sounds demagogic. I do not have a thing in the world against the wealthy. I have been trying to join them all my life. Most of the sensible and thoughful wealthy people I talk to say that they thought that orgy of tax cutting last summer was devastating.

There are some who like it. If money is your goal in this world, if you think that everything hinges around your own little private nest, and if it does not matter how well the rest of the country fares, then you may think it is fine.

I am one who believes, as Hubert Humphrey believed, that this is not ever going to be a good place for any of us to live until it is a good place for all of us to live. You may be called a liberal for believing that. You get tagged all across this country as a liberal for defending the Constitution of the United States. What kind of nonsense is that?

Incidentally, on some of these so-called social issues some people would just, by whim, amend the Constitution with a simple majority vote of Congress.

I have never thought of myself as being a liberal or a conservative, either one. It always depends on what you are talking about. I believe that Sodom and Gomorrah were not destroyed because of sensuality or sexuality. Sodom and Gomorrah were destroyed because they would not extend a piece of bread in their right hand to starving people.

This amendment is no big deal—$200 million—the way we dole money out around here. What difference does it make? Two-hundred million dollars, just bagatelle, a farthing.

I sometimes ask myself: "Why are you wasting all the Senate's time and why are you so adamant about a little old thing like this?" Well, you know my mother and father taught me that those little old things add up.

Do you know another reason the people of the country do not like their elected officials? And I do not think the American people even know this. I think it is something in their native intelligence that tells them. They do not articulate it, but I think one of the reasons they do not like politicians is they get the feeling like they are bought and sold by special interest groups.

Somebody said to me one time, "Senator BUMPERS, I cannot believe you let that happen." I replied, "I cannot either, except the oil companies just happen to have a little more clout in the U.S. Senate than I have."

I have nothing against oil companies. I just want them to be fair with the American people. I want fair treatment for my people in exchange.

I know that these people who contribute $5,000 to candidates through their PAC's want good government, but I also know what their interpretation of good government is sometimes.

Their interpretation of good government is to pass this little old tax bill.

If you will pardon the digression, when I was Governor of my State and people came to my office and said, "Governor, we have a little old bill up there"—the one you promise you will sign in advance if they put it on your desk—"and that little old bill does not do nothing," that is when I started buttoning my hip pocket because I knew somebody was going to get run off the dome of the capital.

"Here is a little old bill that doesn't do nothing."

The people with these bills are the ones who may have spent over a billion in the last election. An individual can only give $1,000, so they belong to a group that has a PAC, which give them five times as much clout with a candidate than if they gave as an individual. I am sad to say that I voted for the law which permitted the proliferation of these PAC's. The mother's milk of politics has always been money, and it always will be until we address the issue in a much more serious way than we have been willing to do so far.

Still, that is not as insidious as our conduct. What we do is to entertain all these diverse interest groups who want this little tax bill and that little regulatory assistance. We put all those hundreds of diverse interests together, and they sail through here just like the California utilities bill. We go home and pretend to our constituents that all those widely ranging, diverse interest groups somehow represent the collective good of this Nation. They do not.

I know that one man's tax loophole is another man's gain. Who wants this little old bill that the majority leader has moved to take up? A lot of people. I would like to have it myself. I have some stocks that I have not held a year yet. If this bill passes I may sell my stock because I have had it over 6 months. That is going to mean a large tax difference because I have a good gain in this stock. If you will do this for me, I can get a 20-percent rate instead of a 50-percent rate. But after you do that for me, what have you done for the country? What economically redeeming value does the country get by reducing the holding period on a capital asset from 1 year to 6 months?

Cliff Hansen made a solemn promise to this body that when we cut the rate from 48 percent to 28 percent, we were going to make people hold their assets longer because it is a maxim of investment that the longer you are willing to hold the stock, the truer the investment is.

And while this will cost the U.S. Government $200 million annually, it may even cost the New York Stock Exchange more, because there will be so much stock traded they will have to buy another $200 million worth of computers.

They can handle 120 million or maybe 200 million shares a day, they are going to get a chance to prove it if this bill passes.

My question to the sponsors of this amendment, to the sponsors of this bill, is what do we get out of it? What does the country get out of it?

This morning I picked up the Washington Post and I saw where an economist in the Office of Management and Budget says that at the rate we are going our deficits could be $150 billion in 1988 and every year thereafter.

Do you understand, that is considered to be a reduction from what it is likely to be in 1983 and 1984?

I cannot understand our President's seeming indifference to budget deficits. They have been an absolute obsession with him during entire adult Republican life. Suddenly, however, we are planning to increase the national debt from $1 trillion, which took us 205 years to accumulate. We are planning to increase it 100 percent in about 6 years, and the same people who have always told me how destructive this was economically and what it was going to do to our country and our economy seem to be indifferent to it. You have an absolute reversal of roles right here in the Senate. Everybody on that side of the aisle could talk of nothing else but the deficit from the time I came to the Senate in 1975 until 1981, and people on this side would talk about it tongue in cheek. Now the people on this side are serious about it, and I cannot hear anything from the other side, except continuing the same unfair tax policies that have gotten us where we are right now.

The business community in this country used to be great contributors to the revenues. Let me say this: I believe in the business community of this country. They are innovative; they are progressive. Yet, I get exasperated knowing, for example, the business community in Japan contributes a lot more to the budget than business does in this country.

In 1948, corporations in this country contributed 23.2 percent of all the revenues collected by the Treasury. In 1969, that had dropped 3.3 percent, to 21.8 percent. By 1980, it had dropped to 12.4 percent. A study by the Citizens For Tax Justice (March 3, 1982) shows that the corporate tax in this country will produce 7.1 percent of all the revenues collected in 1987.

The truth is we will be lucky to collect 7 percent of all of our revenues in 1982.

We want people to save their money, of course, and that highlights another curious thing about the administration's economic philosophy. If you will recall, when we first started talking about the tax cut, the President said people were going to save their money. By the time the second part of the tax cut got around, this past July, the President and Don Regan said, "They are going to spend it. It is going to be our salvation." That made them pure Keynesians. We were going to spend our way out of the depression.

Even recently the President said, "In order to really get the economy going, I am for moving the tax cut for 1983 up to January 1."

Happily, cooler heads prevailed and those cooler heads were found in the form of HOWARD BAKER in the Senate and BOB MICHEL in the House, who went to see the President and said, "Mr. President, you cannot do this. You cannot move this tax cut up to January 1. All you are going to be doing is exacerbating the deficit which we are trying to cure."

The President, without ever publicly saying so, I assume, has backed off the whole idea. Yet, think about what a 180-degree reversal we have had in the whole economic philosophy of the country—now urging people not to save their tax cut, but spend it and help the economy get going.

Mr. President, who would get this $200 million? It goes to some of the very wealthiest people in the country, and it would even detract from true investment. It would encourage not true investment but speculation.

The computers will be spinning with stock sales between now and December 31, as everybody tries to sell and take advantage of that new gains rate on everything they have held between 6 months and 1 year. It is my personal belief that a lot of the stockbrokers of this country will indeed reap a big windfall but, again, the American people will lose.

So my colleagues will not think I am being dishonest with them about this, I should mention there are 34 million people in the United States who hold stock. That is 13 to 14 percent of all the people in this country. They are not all wealthy. I own stock, too, and I am not wealthy. So there will be relief for some people who are not necessarily rich. Still it will grant relief to many people who do not really need it, whereas there are millions and millions of people—12 million to be precise—who are out of work. Even at that, some people criticize a job bill to help those people get some employment and some dignity that goes with honest work.

Mr. President, I hope that two things will happen. No. 1, I hope that the majority leader will decide to pull down the motion to proceed to the consideration of this bill, or I hope he will at least agree to strip off the offensive part of it, at which time it might be a suitable subject. I still do not understand why bills like this have to wait for the lameduck session. It seems to me that this is not an important matter that really requires immediate attention.

Mr. President, I ask unanimous consent that I may suggest the absence of a quorum without my losing my right to the floor; that this not be considered the end of a speech for the purposes of the two-speech rule; and that I be rerecognized at the end of the quorum call.

The PRESIDING OFFICER (Mr. DENTON). The Chair, in his capacity as the Senator from Alabama, has to register an objection.

Mr. BUMPERS. Mr. President, since the Chair is obviously enjoying this speech, I hope he will also enjoy a dissertation from the National Tax Journal of 1968 dealing with this subject. This is an article called "The Six-month Holding Period for Capital Gains: An Empirical Analysis of Its Effect on the Timing of Gains." It is by J. Eric Fredland, John A. Gray, and Emil M. Sunley, Jr.

INTRODUCTION

Harley M. Hinrichs in the September 1963 issue of the National Tax Journal measured the responsiveness of investors to differentials in capital gains tax rates. He based his analysis on data in a supplemental report to the Statistics of Income, 1959. Due to the limitations of the data, Hinrichs was forced to make the heroic assumption that short term gains were all or mostly in securities.

Incidentally, I am finding this kind of enjoyable, too. I have not read this before.

The analysis was further limited because the published data did not give a breakdown of the realization of gains and losses by length of period held. This paper extends the empirical analysis of the effect of the six month holding period by analyzing the more comprehensive data in a supplemental report to the Statistics of Income, 1962.

We focus mainly on the capital gains realized on corporate stocks. Table I indicates that corporate stocks are the most important class of capital assets subject to capital gains tax treatment, accounting for $7.1 billion of gross capital gains or 41 per cent of the total gross capital gains of $17.3 billion realized in 1962. This paper also gives brief consideration to the pattern of realizations of "other" securities, real estate, and livestock.

That is how much was realized by capital gains on that class.

TABLE I.—*Capital gains realized by asset class, 1962*

Asset class:	*Millions*
Corporate stocks	$7,138
Other securities	118
Real estate	2,763
Livestock	751
Total, selected asset classes	10,770
Total, all asset classes	17,293

Source: U.S. Treasury Department, Internal Revenue Service, Statistics of Income, 1962, Supplemental Report, Sales of Capital Assets Reported on Individual Income Tax Returns (Washington, 1966).

If there were $17 billion worth of capital assets realized in 1962, I shudder to think what it would be in 1982.

Section I outlines the salient features $10,000 to $50,000; $50,000 to $100,000; of the tax treatment of capital gains in 1962 which relate to the empirical analysis of this paper and demonstrates that there is a considerable incentive to realize long rather than short term gains. Section II presents empirical evidence which confirms that investors do respond to this incentive. An estimate is made of the tax savings achieved in 1962 by postponing the realization of gains on corporate stock. Section III estimates the increased tax revenue which would result if the holding period were lengthened to twelve months. Section IV summarizes the findings and presents the conclusions.

I. SALIENT FEATURES OF THE TAX TREATMENT OF CAPITAL GAINS IN 1962

Gains accruing on capital assets are taxed when they are realized. Gains realized on the sale of capital assets held less than six months are taxed as ordinary income, and

thus, in 1962, at rates between 20 and 91 per cent. Gains on assets held longer than six months, called long term gains, are included in Adjusted Gross Income (AGI) only to the extent of 50 per cent. In turn, these included long term gains are subject to tax rates on ordinary income, up to a maximum of 50 per cent. This preferential treatment results in effective tax rates on long term capital gains of one half the tax rates on ordinary income with a maximum rate of 25 per cent. Table II presents the differential between short and long term marginal tax rates by AGI Class as estimated by Hinrichs. This differential increases markedly as AGI increases.

The differential between short and long term marginal tax rates creates an incentive to achieve significant tax savings by realizing long rather than short term capital gains. Our hypothesis is that investors respond to this incentive by postponing the sale of appreciated capital assets which might otherwise have been sold in the first six months until at least the seventh month.

These investors are said to be locked-in. They are reluctant to sell an appreciated asset because the tax liability can be reduced by waiting until the asset has been held at least seven months. We expect that the locked-in effect will be greater for the investors in the higher AGI classes due to the larger differential between short and long term marginal tax rates.

Mr. President, there is a chart provided here, concerning who in 1962 received the most benefit out of the capital gains rate. Of the total, about $50 billion of capital gains was in incomes of over $10,000.

In 1962, a $10,000 income was about comparable to $30,000 today.

II. AN ANALYSIS OF THE EFFECT OF THE 6-MONTH HOLDING PERIOD ON THE TIMING OF GAINS

To establish the existence of the six month locked-in effect, we have examined the distribution by month of gross capital gains realized during the first year. We have focused on the realizations in the first year because we believe that the six month locked-in effect will mainly manifest itself in the second six months and because we want to abstract from factors affecting the realization of gains in later years.

A. EMPIRICAL EVIDENCE FOR CORPORATE STOCK TRANSACTIONS

The distribution of gross gains from corporate stock transactions realized in the first year of holding is given in Table III. Both the monthly distribution of first year gross gains and the percentage distribution of these gains are given for AGI classes of under $10,000; $10,000 to $50,000; $50,000 to $100,000; $100,000 or more; and nontaxable returns.

The figures in Table III indicate that taxpayers in higher tax brackets postpone their gain beyond the sixth month to a much greater extent than taxpayers in lower brackets. Taxpayers with AGI less than $10,000 realized 54.1 per cent of their first year gains in the first six months, those with AGI between $10,000 and $50,000 realized 45.5 per cent, those with AGI between $50,000 and $100,000 realized 33.4 per cent, while those with AGI above $100,000 realized only 20.4 per cent in the first six months. Those with nontaxable returns realized 57.2 per cent of the first year gains in the first six months.

Mr. President, I think that point deserves a little elaboration, because in those days $10,000 to $50,000 was a lot of money. The people who held stocks, for example, and who were making $10,000, did not have a high tax rate. They had little incentive to hold stocks. They were not going to pay any more tax if they held onto a stock than they were if they sold it. There was then, and there is today, a much faster turnover of stocks among lower income categories.

For example, if you make $30,000 a year in this country right now and you have three or four dependents, your top tax rate is probably not going to be over 25, 30 percent at the most. So you are not fighting to avoid a 50-percent rate in order to get a 20-percent rate. You are usually fighting the difference between a 20-percent rate and the 25-percent rate. To those people, it does not make much difference when they sell; their tax rate is going to be pretty much the same and so there will be a much faster turnover.

The monthly percentage distribution of gross gains over the first year, given in Table III, is more easily seen when plotted by month for each AGI class in Figure 1. Each AGI class shows the same general pattern of distribution of gains Gains are high in the first month, fall steadily until the fifth month, rise slightly in the sixth month, then jump suddenly in the seventh month (the month in which gains become subject to taxation at reduced long term capital gains rates). Gains fall somewhat in the eighth month and then level off in the ninth, tenth, eleventh, and twelfth months at a volume well above that achieved in the months immediately preceding the seventh month.

There are three striking aspects to this distribution of gains. First is the consistent general pattern displayed by all income classes. Second is the marked rise in gains realized in the seventh month and the fact that the proportion realized in the seventh month increases as AGI increases. Third is the consistent downward displacement in the pattern in the first six months and the consistent upward displacement in the second six months in moving from low to high AGI classes.

These aspects of the monthly distribution of gains suggest that investors respond to the differnce in marginal tax rates between short and long term capital gains. We conclude that a six month locked-in effect for corporate stock transactions does exist, and that this lock-in is stronger for higher income taxpayers.

To sustain our conclusion of the existence of a lock-in resulting from investor response to the difference in marginal tax rates it is necessary to explain why the distribution of gains for nontaxable returns follows the same general pattern, with the same sharp jump in gains realized in the seventh month. At first thought, one might expect nontaxable persons not to be subject to a lock-in. Indeed, the nontaxable group includes those who throughout the full year *knew* they would have insufficient income or sufficient exclusions, exemptions or deductions to make them nontaxable (i.e., those who *expected* to be nontaxable). For these people the marginal tax rates on both short and long term gains are zero, there is no difference in marginal tax rates, and therefore no lock-in. However, the nontaxable group also includes those who at least for a part of the year *expected* to be taxable (or were uncertain that they would be nontaxable) but ended up nontaxable at the end of the year. As long as these people expected to be taxable (or were uncertain about being nontaxable) they would make portfolio decisions on the basis of the expected difference in marginal tax rates and, therefore, would respond as if subject to the six month lock-in. These nontaxable investors would postpone realization of gains until the seventh or later month. Even nontaxable individuals who at the time of a portfolio decision *expected* to be nontaxable at the year end may delay realization of gains beyond the sixth month if they are uncertain of their expectation. Finally the category includes those investors who have achieved nontaxable status by posponing the realization of gains until the lonterm. For example, an investor with $25,000 of examptions and deductions and capital gains as his only source of income would end the year with $25,000 of taxable income if he took $50,000 of short terms gains. He would end the year with no taxable income if he delayed realization of these gains until the seventh month.

All these considerations suggest that it is quite reasonable to expect some nontaxable individuals to be subject to the six month lock-in. This explanation is consistent with our empirical findings.

B. EMPIRICAL EVIDENCE FOR OTHER ASSET CLASSES

The distribution of gross gains by month and by *AGI* class was investigated for other asset classes for which data were available; real estate (the second largest source of gross long and short term gains in 1962), securities other than corporate stock (i.e., bonds), and livestock.

Both real estate and securities other than corporate stock show the same pattern of distribution of first year gross gains as corporate stock. All *AGI* classes show gains fairly low in the first six months jumping sharply in the seventh month and then falling off in subsequent months, but to a level above that of the first six months. The proportion of gains realized in the seventh month rises as income rises. As with corporate stock, the downward displacement of the pattern of gains in the first six months and upward displacement of the pattern in the second six months is apparent in moving from low to high income classes. For both asset classes the pattern is not as clear as for corporate stock because of the smaller number of returns reporting gross gains in any particular month, and thus the higher sampling variablity attached to each month's figure. Nevertheless the distribution of gross gains by months and by *AGI* suggests that investors responded to the difference in marginal tax rates between short and long term capital gains by postponing realization, and thus the six month lock-in exists for real estate and for securities other than corporate stock.

No lock-in effect could be demonstrated for livestock. Short term capital gains (within the first 12 months) were very small and subject to large sampling variability so that no significant trend of short term gains to gains in the first two years could be established across *AGI* classes.

C. TAX SAVINGS ACHIEVED ON CORPORATE STOCK TRANSACTIONS

Using the evidence presented above for corporate stock transactions, we have made estimates, based on two crucial assumptions, of the tax savings achieved by postponing the realization of gains. First, the gain realized before taxes is assumed not to be affected by postponing the sale until the holding period exceeds six months. It is possible that the price of the stock would rise or fall during the period between when the investor would have sold after holding it less than six months and when he does sell after more than six months. We are assuming that these two possibilities cancel out in the aggregate data.

Second, in the absence of the differential in marginal tax rates between short and long term capital gains, it is assumed that investors would have realized 57.2 per cent of the gains realized in the first year during the first six months. This figure is the per cent of the first year gains actually realized in the first six months reported on returns with no taxable income. If anything, it is a conservative estimate of behavior in the absence of the differential in marginal tax rates. The income tax returns with no taxable income showed a significant jump in realizations in the seventh month. As was pointed out in Section II, some of these nontaxable individuals achieved tax savings by realizing long rather than short term capital gains. We conclude, therefore, that the 57.2 per cent is a conservative estimate for the proportion of the capital gains realized during the first year which would have been realized during the first six months if there were no differential in marginal tax rates between short and long term gains. An assumption of 60 or 65 per cent may well be justified.

The tax saving achieved by investors in each income class by postponing realizations is now easily calculated. The percentage of the realized gains assumed postponed is the difference between 57.2 per cent and the per cent of the gains actually realized in the first six months. The tax saving is the postponed gains times the differential in marginal tax rates. The tax saving is finally presented as a per cent of the taxes which would have been paid on realizations in the first six months if there had been no postponing of realizations. We conclude from Table IV that investors were able to save almost $36 million by delaying realizations of appreciated corporate stock. This tax saving may seem insignificant when compared to the $48 billion raised by the individual income tax in fiscal 1963. However, the tax saving due to postponing realization beyond the sixth month represents 20.4 per cent of the tax which would have been paid if there had been no postponing of realizations. Also, the per cent saved increases with income class. This is due to two reasons. First, the differential marginal tax rate increases with income class. Second, the high income investor responds to this greater incentive by delaying realization on a larger proportion of the gains that in the absence of the marginal tax rate differential would have been realized in the first six months.

III. INCREASED TAX REVENUE IF THE HOLDING PERIOD FOR CORPORATE STOCK WERE LENGTHENED TO 12 MONTHS

This section presents estimates of the increased tax revenue for 1962 which would have resulted if the holding period had been twelve months instead of six months.

First, what are the justifications for a twelve month holding period? The U.S. Treasury Department recommendation in 1951 and President's 1963 Tax Message proposal for a twelve month holding period were based on the distinction between speculation and investment, and the fact that the individual income tax is levied on an annual basis. Each of these arguments warrants brief examination.

To the extent that the distinction between speculation and investment can be made, the difference between the two is related to the length of time an investor expects to hold an asset. Of course, an investor's expectation of the length of time an asset is going to be held may not be fulfilled. Thus the distinction between the two is not sharp. What was planned to be a long term investment may be liquidated in a very short time if market conditions change. Similarly, an asset might be held much longer than originally expected. Still, a one year holding period would tax some speculative activity more heavily than at present.

It has frequently been argued that in absence of an averaging provision for capital-gains, preferential treatment is needed for capital gains to compensate for the "bunching" of income associated with the realization of capital gains. This bunching argument is not valid for realizations in less than one year. Therefore, the one year holding period would be more consistent with the annual basis of the individual income tax.

Opposed to the twelve month holding period it might be argued that such a change would increase the lock-in effect, seriously reducing capital mobility. However, this argument is not convincing on examination. As Heller has pointed out, lengthening the holding period sets up opposing forces. On the one hand, some investors who, under a six month holding period, would have sold between the seventh and the twelfth months would, under a one year holding period, postpone the realization until after the twelfth month. On the other hand, some investors who would have postponed realizations until after the sixth month would not be willing to risk waiting until after twelve months. Therefore, these investors would increase realizations during the first six months.

We present three estimates of the increased tax revenue which would result from lengthening the holding period for corporate stock to twelve months. Our high estimate assumes that there would be no postponing of sales now made in the seventh to twelfth months until the second year. The increase in tax revenue is simply the differential in marginal tax rates given in Table II times the gains realized between the seventh and the twelfth months. This high estimate implies that tax revenue would increase by $111 million, or 56.0 per cent of the tax revenue now collected on first year realizations. The percentage increase in tax liability increases with *AGI* class from a low of 29.8 for the *AGI* class under $10,000 to a high of 123.6 for the *AGI* class $100,000 and over.

Our low estimate of the increase in tax revenue is based on the assumption that under the twelve month holding period realizations for the first year are determined by the following ratio:

(1) Assumed realizations first year and actual realization first two years equals actual realizations first six months and actual realizations first year.

For example, the AGI class $100,000 and above, which realized 20 percent of first year realizations in the first six months are now assumed to realize 20 percent of their first two years realizations in the first year. Under this behavioral assumption the twelve month holding period leads to considerable postponing of realizations until the second year. Table VI gives the calculation of increased tax revenues. The assumed realization of gains is given by (1) above. The difference between the actual first year gains and the assumed first year gains is the realizations postponed to the second year. The net increase in capital gains subject to ordinary income tax rates is the difference between our assumed first year gains and the actual gains the first six months. The increased tax revenue is the increase in short term gains times the differential marginal tax rates. This estimate leads to the conclusion that tax revenues would increase by $50 million or only 45 percent of our high estimate. Again we can express the increased tax revenue as a percent of the revenue now collected on first year realizations. The percentage increase in tax revenue increases with AGI class from 22.3 for the lowest income class to 33.3 for the highest income class.

Our third estimate is based on assumptions designed to reflect the off-setting effects associated with lengthening the holding periods. First, we assume that once the holding period is lengthened, some realizations now made in the seventh to the twelfth months would be realized in the first six months. In particular we assume that 57.2 percent of first year realizations would be made in the first six months. Second, we assume that a proportion of the realizations which would be made in the second six months are now postposed until the second year. The proportions postponed depend on the observed ratio of realizations the first six months to realizations the first year. In particular it is assumed that:

(2) Assumed realizations seventh to twelfth months and .428 first year realizations plus .500 second year realizations equals actual realizations first six months and actual realizations first year.

Table VII gives the calculation of the increased tax revenues under this third set of assumptions. The assumed realized gains for the seventh to twelfth months is calculated from (2). The realized capital gains postponed until the second year is .428 (1.000-.572) times first year realizations minus the assumed realized gains for the seventh to twelfth months. The net increase in realized gains subject to ordinary income tax rates is the actual gains second six months minus the realized gains postponed to the second year. The increased tax revenue is the differential marginal tax rates times the net increase in realized gains subject to ordinary income tax rates. Under these assumptions of offsetting effects, the tax revenue is increased by $89 million. Finally, the increased tax revenue is expressed in Table VII as a percentage of the revenue now collected on the first year realizations.

IV. CONCLUSIONS

1. The differential between short and long term marginal tax rates creates an incentive, which increases with *AGI*, to achieve significant tax savings by realizing long rather than short term gains. Investors do respond to this incentive. There is a marked rise in realized gains on corporate stock in the seventh month and the differences between realizations in the sixth and seventh months increases with *AGI*. We estimate that in 1962 investors in corporate stock

achieved a tax saving of $36 million or 20.4 per cent of the taxes which would have been paid if there had been no postponing of realizations.

2. We conclude from the empirical evidence presented on the timing of gains that the differential between short and long term marginal tax rates has important effects on the mobility of capital in the short run. The six month lock-in effect could be reduced or eliminated by either reducing the tax rates on short term gains or increasing the tax rates on long term gains. We prefer the latter method of eliminating the differential in marginal tax rates on both equity and efficiency grounds.

3. Lengthening the holding period to twelve months would tax some speculative activity more heavily than at present and would be consistent with the annual basis of the individual income tax. We estimate that if the holding period were lengthened to twelve months, the increased tax revenue from corporate stock transactions in 1962 would be between $50 and $111 million.

Now, Mr. President, since there would be that kind of an increase in revenues in 1962, and since the Federal budget and the amount of taxes collected today are about 10 times that high, I cannot understand how we are only going to lose $200 million now. I would guess we were going to lose, under that assumption, between $500 and $600 million.

Furthermore, if you want people to make investments that are truly investments, why not scale the rate according to the time you held it? Instead of just cutting the time period from 1 year to 6 months, why not say, "You get the advantage of the 20-percent rate if you hold it a full year, but the rate goes up 2 percent for each month under that. If you hold it for 11 months, your rate is 22 percent; 10 months your rate is 24 percent."

Now, there might be an incentive for some people who might get in a bind and have to sell periodically. They would not be devastated.

But it does seem to me strange and irrational to be debating on this floor almost simultaneously another little old bitty tax bill that gives the bulk of $200 million a year to the wealthiest people in the country, and simultaneously asking for a 5-cent-per-gallon gasoline tax on everybody.

I have not decided what I am going to do about the gasoline tax. That is pretty devastating to the people in my State, and yet the people in my State enjoy a fairly good transportation system and we do not want to see it lost. We do not want to see it deteriorate.

You know, the other night the President said this will only mean $30 to the averge family. Well, let me do a little calculation for you on that. If you drive your car 20,000 miles a year and you average 1,000 gallons per car, the tax on you is not $30, it is $50, if you average 20 miles per gallon.

Let us assume the husband and wife are both working and they are both having to take their cars to different jobs. She is also driving her car 20,000 miles a year and it averages 20 miles per gallon. That means she is going buy 1,000 gallons of gasoline, and that is $50 for her. So that is a total of $100 for a two-car family. I am not embellishing anything because the national average, fleet average, of gasoline mileage on all cars in America today is below 20 miles per gallon.

So, using that illustration of 20 miles per gallon is not far off the national average. I do a lot better than that on the car I drive to work. I get about 26 miles to the gallon in town and 38 miles to the gallon on the road, but a lot of people cannot buy a high mileage automobile because they cannot afford it. They cannot afford the interest rates. They cannot afford to trade.

This national illustration is instructive, but the impact is worse in Arkansas. Strangely enough, the State of Arkansas is the second biggest user of gasoline per capita in the United States. There is only one State that uses more gasoline per capita than we do.

The people of my State are just as loyal and concerned about the country and what people call infrastructure—I think that is devastating for any politician to use the word "infrastructure." Infrastructure is like a lot of other words; it can mean about anything you want it to mean. But if the people in my State, for example, 25 percent more than the national average, that means the two-car family in my State is going to be asked to pay an additional $125 a year. And we are a poor State. We are the second or third poorest State in the Nation in per capita income.

Mr. President, it is asking a lot for the people of Arkansas, when you figure that the average family there earns about $16,000 to $17,000 a year and their take-home pay is around $12,000. It is a tremendous burden. That same family gets less than that out of the economic tax recovery bill of last summer. If you put $125 tax on the ordinary family in my State, the third year of the tax cut will mean less than that. Then there is the 26-percent increase in their heating bills to go with that. And here we are debating a bill that gives $200 million, most of which goes to the wealthiest people in the country. Just a little old bill that does not do much. Just another illustration of the insensitivity of the people in Congress that further erodes confidence and deepens cynicism about who we really care about here.

Perhaps we ought to debate how we finance campaigns. Maybe that is the real test of whether we are concerned about the American people. Campaigns have gotten so exorbitantly expensive. One thing that was sort of gratifying to me in this last election was that a lot of people who spent a lot of their own money did not win this time.

You know, I do not know how many millionaires there are in this country. My guess is it is one-hundredth of 1 percent of all the people. Yet I read that there are 25 to 30 millionaires in the Senate. That does not sound like a very representative body of the American people. It is a simple fact, however, that money is necessary for elections, and if you do not have it, you must raise it. That is not always easy to do, unless you let people know that they are going to have access to you. And so the people's interests are not always best served here because of the way we finance campaigns.

I have to ask myself: What is behind the move to continue cutting the capital gains rate for the wealthiest people in the country, after we gave them everything but the dome off the Capitol last year? Who is behind this?

We have cut the capital gains rate from 48 percent in 1975 to 28 percent in 1977, to 20 percent in 1981 and now we are cutting the holding penalty from a year to 6 months. I am ready to eliminate the capital gains. Why do we have to have a capital gains? Let us just say if you buy stock and you sell it for a gain, you just pay your tax at ordinary income rates. We are rapidly reaching the point where we are relieving everybody of any tax burden if they happen to be on the upper side of $50,000 to $100,000. If we ever call this bill up, I will offer an amendment to eliminate the capital gains exclusion.

Now I love it when I file my tax return. I usually have some capital gains there. Happily, I will have some capital losses this year, too, to offset the gains.

Mr. President, parliamentary inquiry.

The PRESIDING OFFICER. The Senator from Arkansas will state his parliamentary inquiry.

Mr. BUMPERS. Do I not have the right to speak twice on this motion today without losing my right to the floor?

The PRESIDING OFFICER. The Senator is correct. He may speak twice on any legislative day on any question.

Mr. BUMPERS. Mr. President, I yield the floor.

Mr. METZENBAUM addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. METZENBAUM. Mr. President, this body finds itself in the position that it so often finds itself. We ought to write a book on how to waste time in the U.S. Senate, because that is what this is all about.

We come back here and the President of the United States, contrary to the desires of the leaders of the House and the Senate, asks us to deal with appropriations bills. Do we do that?

No—I guess, so far we dealt with one. I do not think there is any Member of the Senate who is not prepared to deal with the appropriations bills. But instead of that, we have time for everything, every special interest bill that comes down the pike.

Mr. LONG. Will the Senator yield at that point?

Mr. METZENBAUM. Mr. President, I ask unaminous consent, without losing my right to the floor, that I may yield to the Senator from Louisiana.

The PRESIDING OFFICER. The Chair, in his capacity as a Senator from Alabama, must object.

Mr. LONG. Mr. President, the Senator has a right to yield for a question. Will the Senator yield for a question?

Mr. METZENBAUM. I yield to the Senator for a question.

Mr. LONG. Mr. President, I would simply suggest to the Senator that a lot of us came back here to help deal with the essential national problems. But I would ask the Senator, is he under the impression that anybody on this side of the aisle came back here to take up all the cats and dogs that can be found on the calendar by now?

Mr. METZENBAUM. The Senator is 100-percent correct in his question. Nobody came back for that purpose. We came back because we knew that there were problems in this country.

The President of the United States wanted us to come back to deal with problems, and certainly some of them have to do with the appropriations bills. The President has also indicated since then his concern about the MX matter. The President has indicated his concern about a 5-cent tax for the infrastructure. All of those matters are of significance to this Nation.

I know of no Member on this side of the aisle who is unwilling to deal with those major matters.

As the Senator from Louisiana so correctly points out, we are not dealing with those matters. We are dealing with everything except those matters. It is absolutely the fact that I have not heard one word of protest from this side of the aisle to dealing with matters of moment, matters for which we were called back, matters dealing with the economy of the Nation.

Mr. LONG. Will the Senator yield for a further question?

Mr. METZENBAUM. I certainly will.

Mr. LONG. Might I ask the Senator this, is he aware of a growing feeling of discontent on both sides of the aside and a growing desire of all Senators to vote to adjourn sine die, to simply go out of here until the next Congress begins?

Mr. METZENBAUM. I believe we probably should never have been called back. I think many Members on both sides of the aisle think we should not have been called back. But since we were called back, I think that many Members on both sides of the aisle would like to deal with matters of substance, matters of importance to the Nation.

We spent 3½ days wastefully on a bill having to do with some people who were price fixers, who wanted to get relief. The U.S. Senate spent 3½ days on that measure. Now we have spent a lot of time on Radio Marti.

This has nothing to do with the merits of those matters. I am not trying to suggest that one is bad and the other good, whatever. I think we ought to deal with them. I think that the Senator from Louisiana would totally agree with the Senator from Ohio, as well as every other Member of the minority, and I would suspect those of the majority, to either get on with our business or adjourn sine die and come back in January.

Mr. LONG. Will the Senator yield for a further question?

Mr. METZENBAUM. I yield.

Mr. LONG. Does the Senator know of any reason why the gasoline tax increase, a major piece of tax legislation, should not be called up for consideration at this point?

Mr. METZENBAUM. The Senator from Ohio knows of no reason why it should not be called up for consideration at this moment. As a matter of fact, the chairman of the Finance Committee is standing behind the Senator from Louisiana at the moment. He may have some thoughts about bringing that matter to the floor. I am not opposed to bringing it up. I do not think the Senator from Louisiana is. We are ready to proceed with it, as soon as we find out what is in the bill, and be prepared to deal with it, at least on the minority side.

Mr. LONG. Is the Senator aware of the fact that the clock is going to run out on us, that we are not going to have time to consider all the bills that have been reported by the committees, or that will be reported by the committees between now and January?

Mr. METZENBAUM. The Senator from Ohio is aware of the fact that as is so routinely the case, measures get reported in the closing hours and the unimportant ones get called up and the important ones fall by the wayside. I think the Senator from Louisiana and the Senator from Ohio feel that if there is something pressing that the President of the United States feels has to be called up, if he feels that the appropriations bills should be called up, none of us have any real objection to doing so. But I think the Senator from Arkansas has made a very strong case as to this being just another one of those special bills. There is some merit to some portions of the bill. I will not say that there is not.

I want to make it clear that I do not believe that every one of these bills that somebody wants to call up does not have some merit. Some do and some do not. Most of those that I have a strong opposition to, in my opinion, do not.

I would guess there is some merit to this measure they are trying to call up at the moment, but in my opinion there is no merit in calling up anything other than the matters for which we were called back and other matters of major national concern.

Mr. LONG. Will the Senator yield for another question?

Mr. METZENBAUM. I certainly will.

Mr. LONG. In view of the fact that the clock is going to run out on us, and that we are not going to be able to consider all the legislation some Members would like to consider, or at least that the leadership on the majority side would like to consider, would it not make good sense that the items of highest priority should be called up first and the items of lesser priority should be called up last, rather than doing it the other way around?

Mr. METZENBAUM. I would say that that statement is exactly correct. It is right on target. It puts away all the pins. That is exactly where we ought to be. But, unfortunately, we are just spinning wheels, and in the closing hours we are going to be told, "If you do not get it done now, we are going to stay until the 18th, until the 19th, right up until Christmas and maybe New Year's."

Let us get on with the business of the U.S. Senate and let us not try to legislate in the closing hours and try to do it under the pressure of the moment, with people wanting to get away for the Christmas holidays. If there is something that the leadership wants to bring up, I, for one, am prepared to help in every way possible to bring up the major matters for which we were called back. But I think that this kind of activity is actually an insult to the people of the country very probably and certainly an insult to Members of the U.S. Senate, to call us back for these purposes.

I very much appreciate the questions of the very distinguished Senator from Louisiana. He has been long known for his astuteness and knowledge with respect to this body and the leadership of the Nation as well. I think he has seen exactly what the issues are as he always does, and understands and comprehends them very well. He zeros right in on the problem.

I believe that on this matter before us it is wrong for us to be talking about it and wasting our time.

Maybe this is the time, while an attempt is being made to bring this matter up, for us to take a look at what has been happening to the country in the last 2 years, since this particular session of the Senate has taken place.

I think it is a travesty to see what has happened since 1981. In the closing days of 1982 we are here, having been asked to come back, in a postelection session. For what purpose? To take care of every special interest group's bill, every lobbyist's bill.

Why? Why do we not deal with the problems of this country? Why do we not concern ourselves with what is happening out there in America?

It is understandable why the people of this country have a kind of contempt for their political leadership. Today, 4.1 million more people are out of work than when the Republicans took office. The unemployment rate of 10.8 percent is the highest rate since 1940. Two million more Americans are unemployed today than were in January of 1981.

But we deal with a bill called the California utility bill, a bill to reduce the capital tax gain holding period from 12 months to 6 months. What a magnificent idea that is. That is great.

I remember being in this body when people told us, "If you reduce the capital gains tax from 48 percent maximum to 28 percent it is going to stimulate the economy; it is going to cause more money to be invested; it is going to produce more capital for business. It is going to do all those wonderful things."

I want the Members of this body to know that it did not do any of those things.

Then they said, "OK, we did not go far enough. If we just go a bit farther, we are going to cut it to 20 percent. Wow. We are going to have such a wonderful economy after that that you would not believe it."

Now, 26.5 percent of all the blue-collar workers in this country were unemployed in November, one out of every six. That is the highest rate on record.

Well, they told us when we would reduce the capital gains tax, they were going to go back up on the holding period. Somehow that was going to be an offset.

Now we are going to undo it. Now we are going to cut the period.

It seems to me that, around here, anything that cuts the taxes of the rich is offered as a way to stimulate the economy. I would like you to tell that to the 20.2 percent of blacks in this country who were unemployed in September, October, and November—also the highest rate on record. Go out and tell them. Tell them that we are cutting the capital gains tax and we are shortening the period. Let them tell you how pleased they are. Let them tell you that they know that will get them a job back.

Whom are we kidding? We are not kidding them. They know they do not have a check to take home to their families. They know they do not have food to feed their families with. They know they do not have clothes that they can buy for their kids. They know they do not have a home in which to live and if they have it, they are in danger of losing it.

I remember when several women came down from Ohio and they met with the Vice President of the United States over here in the Vice President's office. He was very courteous and he was very gracious. I remember they said to him:

Mr. Vice President, the American dream used to be that we would be able to buy our own home and buy a car, to own our own home, to own a car. Now, Mr. Vice President, the American dream is to be able to keep the home we own and the car we own, because so many Americans are losing their homes and losing their cars.

So what does the U.S. Senate do in this special session? We say that people can have a shorter period within which to hold their stocks and, somehow, that is going to do something—not really very much, but make it a little bit easier for those who wheel and deal in the stock market to transfer their securities and take a profit and take a 20-percent tax instead of a 50-percent tax.

Mr. LONG. Will the Senator yield for a question?

Mr. METZENBAUM. I certainly do yield.

Mr. LONG. Does it not seem somewhat out of keeping with the times that we would be here considering measures for further tax cuts for the rich at a time when we are also being told by the leadership of our Nation, from the highest authority, that we should not consider a bill to provide jobs for poor people who are out of work and who want nothing more than an opportunity to earn an honest dollar?

Would it not seem more appropriate that before we engage in further activities to cut taxes for the rich, we consider a measure to provide a job opportunity for some father or some mother who seeks nothing more than a chance to provide an honestly earned dollar to feed the family of that hardworking person? Would it not seem that it would be appropriate that those who seek work should be considered ahead of those who have vast wealth and simply seek a further tax cut?

Mr. METZENBAUM. As is so often the case, the Senator from Louisiana is, again, right on target. Absolutely. We have no time, according to the leadership, to take up the jobs bill, to really deal with the jobs problems of this country, but we have time to cut the taxes of the rich. What a sad commentary that is.

As a matter of fact, I point out to my friend from Louisiana that there is even another bill here that almost puts the icing on the cake, a small effort being made to push a bankruptcy bill. This is not going to help the bankrupts, but this is going to keep them from going bankrupt if they get this bill through.

Is this not incredible? No time for a jobs bill; highest unemployment rate in I do not know how many years; a record rate for blacks; record rate for blue-collar workers; record rate for teenage workers. No time for a jobs bill, but time to change the tax bill and push an effort to keep these poor blokes who cannot earn a living because they cannot find a job from going bankrupt. It is almost so unbelievable that if you read it in a novel, you would not believe it. But here we are, in the U.S. Senate, this body that is supposed to be the most deliberative body of all bodies of its kind in the world, and what are we talking about? Keeping the poor from going bankrupt, cutting the taxes of the rich, and we do not have time for a jobs bill.

How can we possibly explain that to any rational person? I think the Senator from Louisiana is so much on the target again.

Mr. LONG. Will the Senator yield for a further question?

Mr. METZENBAUM. I certainly do.

Mr. LONG. The Senator is standing here protesting about tax cuts for the rich at this particular moment. Is he not also concerned about the fact that the last time he held the floor at some length, for more than an hour, he was speaking out against an effort to give retroactive relief to people who had violated the antitrust laws? Mind you, not just to amend the law so that in the future they would get a break, but saying that those who had been caught and prosecuted are to be given relief retroactively for crimes already committed? We found time for that bill, to provide retroactive relief for antitrust law violators.

Mr. METZENBAUM. For the price-fixers, we have time to retroactively change the law, although I am happy to say that we have beaten down that effort. We have time for everything if you have the right lobbyist, apparently. But we do not have time for people-oriented issues like getting people back to work in this country.

I am not sure why we do it.

Mr. LONG. May I ask a further question? Is it not strange that we had to work our way past that matter in order to get to this one?

(Mr. GRASSLEY assumed the chair.)

Mr. METZENBAUM. It is strange to me that we went from that one to Radio Marti and now to the California utility bill and the capital gains change, to change the time of the holding period. We have time for everything except what we are supposed to be doing here.

I am afraid that what will happen is that somebody will stand on the floor within the next several days or the

next week and tell us how it is our responsibility to pass this appropriations bill or to pass the defense appropriations bill or to pass some other particular matter that probably will be a matter of merit. But it is time for us to get to those matters of merit now and quit playing with these cats and dogs, with these special interest bills. The sooner we get the message across to the other side of the aisle, I think the better it will be for the Senate, and I am certain the better it will be for the country.

It is regrettable that only the Senator from Louisiana and the Senator from Ohio, who are members of the minority, are here on the floor—although I do now see two members of the majority in the room and I know that a Senator is sitting in the chair.

I hope that some way the message will get back that the minority members of the Senate are prepared to move forward with dispatch on legislation for which we were called back into session or any other matters of major moment, and that certainly would mean a jobs bill.

Mr. LONG. I thank the Senator.

Mr. METZENBAUM. I very much appreciate the further questions of the Senator from Louisiana.

Almost one out of every four unemployed teenagers are now walking the streets of America looking for a job—the highest rate on record. This administration must be proud; it is setting all kinds of records. Up until it came into office, we never had a deficit budget that came anywhere close to approaching $200 billion. It has broken all records in that respect. The last one under the Carter administration was a $59 billion deficit. And why do we have that kind of a deficit? The President goes on television, the President goes across the country and tells people that we have to cut spending. If I have heard once, I have heard a dozen times that we are going to save $15 or $17 or $20 billion by eliminating waste and fraud and abuse, and then the next day's newspaper reports another example of waste and fraud and abuse. I see no evidence whatsoever of any effort along that line.

This administration has been irresponsible in attempting to convince the American people that somehow by cutting and cutting and cutting expenditures of those programs dealing with people that they are going to balance the budget.

Look at what this administration did. It cut the maximum tax from 70 to 50 percent. It cut the capital gains tax from a maximum of 28 to 20 percent. It cut substantially all sorts of estate taxes, totally eliminating some portions of them. And then the administration and the President say the way to have to balance the budget is by cutting further.

I urge the President of the United States to call in his advisers and have them sit down and explain to him what they have really done to America in the last 2 years. Let them explain to him why the budget has not a chance of being balanced. Because you balance the budget on the basis of what comes in as compared to what goes out. And they have cut so much of what comes in that it is almost impossible to balance the budget.

Now the administration is saying, "Oh, no, we have a way to solve the problems of the economy. We are going to cut taxes 10 percent more in 1983. That is somehow going to balance the budget."

The supply-siders are not talking much about supply-side economics anymore and now they are saying we have to see to it that business gets better. First they told us they were going to get business better with supply-side econimics, now they are saying we have to stimulate the economy but they are not explaining how. Nearly 23,000 businesses have failed so far in 1982—small businesses, big businesses—which compares to 15,000 a year ago. Individual bankruptcies have averaged nearly 25,600 per month in the first 6 months of 1982.

Well, this crowd over there has an answer as to how you cut down the number of bankrupticies—not by making it possible for people not to have to go bankrupt but by denying them the right to go bankrupt. What a magnificent approach that is.

Republicans gave us a tax cut which directs most of the benefits to persons earning more than $80,000, while those earning less than $15,000 receive a pittance. It is incredible how much this administration has done for the rich and how much this administration has not done for the poor.

The combination of tax and spending cuts that this administration put into effect means that a household earning $10,000 or less will actually be $220 poorer by 1984 while a family earning $80,000 or more will be realizing a $19,230 increase in income. Republicans have cut funding for Legal Services by 25 percent.

Sure, cut funding for Legal Services. Why should those people who are in trouble have an opportunity to have a lawyer represent them? By doing that, they deprive hundreds of thousands of indigent Americans access to legal aid.

What is happening in that connection? Well, the Senate Republicans and many of the House Republicans are pushing provisions to exempt the Nation's lawyers from the jurisdiction of the Federal Trade Commission. Reagan Republican cuts in medicare will cost the elderly $1.8 billion in additional out-of-pocket expenses on top of the 40 percent they already pay. Simultaneously, the Republicans are pressing to pass the American Medical Association's pet bill to exempt doctors from Federal antitrust laws.

Let me take a moment to address myself to that subject. The Federal Trade Commission is now the only agency of government that has some semblance of responsibility to protect the consumers of this country. Every few months we get some new group that wants to be exempted from the Federal Trade Commission's jurisdiction. The AMA and the ADA—and I do not mean the Americans for Democratic Action, but I mean the American Dental Association—are pushing with all their might to see to it that they be exempted from the FTC regulations—another special interest, cat and dog, that should never be brought to the floor of this Senate. If someone sees fit to push that measure and bring it to the floor of the Senate, I know that the American people are going to want to know about that subject before the Senate acts on it, and I therefore indicate with no reservations whatsoever that if that measure comes to the floor of the Senate, the American people are going to have a number of days to learn what the provision of that measure are and to be apprised of the impact that it will have upon them. It is another one of those cats and dogs that does not belong in this session.

Nearly three-quarters of a million people have had their welfare benefits cut or eliminated by this administration. What do the Republicans do about that? Oh, they have a great answer. They push corporate welfare bills, not individual welfare bills but corporate welfare bills like tax leasing and the timber bailout bill, a bill that would save the timber industry $2 billion by relieving them of their contracts negotiated in good faith with the Federal Government, another one of the cats and dogs, the special interest bills that are waiting to be brought up on the floor of the Senate.

That, too, is a measure that I hope will never see the light of day in this Senate, but should it be brought to this body, it is a matter that I think the American people should understand and understand well, and if it be necessary, that is another one of those measures that I will be prepared to explain to the American people regardless of how long a period of time that might take.

The Republicans eliminated 500,000 persons from the guaranteed student loan program, forcing many into a hopeless job market, while supporting unproductive multibillion-dollar breaks for oil companies. What a wonderful thing to do. Take care of the oil companies and keep young people from having an opportunity to go to college under the guaranteed student loan program.

This administration has been so heartless, so cruel, so indifferent to the concerns of the many and so specially tuned in to the concerns of the few. It bothers me that I do not think the American people understand really what is going on. They understand the unemployment. They understand when they do not have food for their family. They understand when they are in tent camps even in rich States like Texas because they cannot find a job and do not have a home in which to live.

This administration does not understand. The President even objects when television carries coverage about someone who is unemployed and he finds something is wrong with television because it played up the fact that someone was unemployed in some part of our country. Those who are unemployed did not mind hearing it. They wished they did not have to hear it. The fact is, they are living it so they do not have to hear it on television, but at least they feel better if they know that the country is apprised of their condition.

This administration reduced the number of households receiving Federal housing assistance from 220,000 to 75,000, simultaneously increasing the rent for these low-income tenants. Think of it. They cut back on the number of housing facilities that will be made available and then what they do is, they increase the rents for the low-income tenants.

What kind of fairness is that? What kind of equity is that? Oh, I am sorry I mentioned the word "equity." This administration does not think in terms of fairness and equity. This administration thinks in terms of taking care of the affluent, forgetting about the people of this country.

More Americans are in poverty today than in any time since 1967 and the number of poor persons rose 2.6 million during Reagan's first year in office. Meanwhile, what do the Republicans do? They push bills to relieve corporations of their price-fixing liability.

Mr. President, I say to you that this administration should get down to the business for which we were called back, that this administration should deal with the substance of what these proposals are all about and recognize that they do not belong on the agenda.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MOTION TO PROCEED WITHDRAWN

Mr. BAKER. Mr. President, I withdraw my motion to proceed.

The PRESIDING OFFICER. The motion is withdrawn.

Mr. BAKER. I thank the Chair.

BUDGET WAIVER FOR RADIO MARTI

Mr. BAKER. Now, Mr. President, what is the business before the Senate?

The PRESIDING OFFICER. The motion is to waive section 402(a) of the Budget Act, relating to H.R. 5427, and under the procedure the Senator from Nebraska is to be recognized.

The Senator from Nebraska is recognized.

Mr. ZORINSKY. Mr. President, under the precedents of the Senate, I will be happy to yield to the majority leader provided that I am accorded unanimous consent to be recognized first to resume with this question when it is again before the Senate today, tomorrow, or any other day, and that the continuation of my remarks at that time be viewed as an extension of my remarks today and not as a second speech under the two-speech rule.

The PRESIDING OFFICER (Mr. HAYAKAWA). Is there objection? The Chair hears none, and it is so ordered.

Mr. BAKER. Mr. President, I thank the Senator for yielding.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, the distinguished Senator from North Carolina (Mr. EAST) wants to be on the floor. What I am about to do is to ask unanimous consent that the Senate may proceed to the consideration of Calendar Order No. 857, S. 2411, a bill to amend the Omnibus Crime Control and Safe Streets Act of 1968. We have a time agreement on that measure.

I see the distinguished junior Senator from North Carolina is present. If he does not object at this time, I will proceed with that request.

Mr. EAST. I have no objection.

Mr. BAKER. Mr. President, I ask unanimous consent, subject, of course, to the consent granted to the Senator from Nebraska, that the Senate proceed now to the consideration of Calendar Order No. 857, S. 2411.

Mr. ROBERT C. BYRD. Mr. President, reserving the right to object, I will not object. Mr. BIDEN will manage the bill on this side. He has been notified that the bill is coming up. He has conveyed word that the Senate can proceed with the measure and he will be here shortly.

Mr. BAKER. Mr. President, I thank the Senator.

BUDGET ACT WAIVER—S. 2411

Mr. BAKER. Mr. President, before my unanimous-consent request to proceed to S. 2411 is granted, it has been called to my attention that there is a budget waiver to accompany this measure. Let me first ask unanimous consent that the Senate proceed to the consideration of Calendar Order No. 962, Senate Resolution 474, a 402(c) budget waiver in respect to this measure.

Mr. ROBERT C. BYRD. Mr. President, the consent being given, or will be given certainly to proceeding with the measure, I am sure there is no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 474) waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 2411.

There being no objection, the Senate proceeded to consider the resolution.

The resolution was considered and agreed to as follows:

S. RES. 474

Resolved, That pursuant to section 402(c) of the Congressional Budget Act of 1974, the provisions of section 402(a) of such Act are waived with respect to consideration of S. 2411. Such waiver is necessary because S. 2411, as reported, authorizes the enactment of new budget authority beginning in fiscal year 1983, and such bill was not reported on or before May 15, 1982, as required by section 402(a) of the Congressional Budget Act of 1974 for such authorizations.

This waiver of section 402(a) is necessary to permit Senate consideration of S. 2411, a bill to reauthorize the Omnibus Crime Control and Safe Streets Act of 1968 to eliminate the existing office of the Office of Justice Assistance, Research and Statistics (OJARS) and the Law Enforcement Assistance Administration (LEAA). In its place is created the Office of Justice Assistance, which would administer a discretionary grant program. Also included is an emergency assistance program for law enforcement purposes.

A companion bill, H.R. 4481, was passed by the House in February 1982, and has been pending before the Senate Judiciary Committee since that time. The bill, H.R. 4481, although not identical to S. 2411, seeks to amend the Omnibus Crime Control and Safe Streets Act of 1968 to create new authority for funding of national criminal justice programs.

S. 2411 authorizes $125 million annually for the programs provided for under the bill. Some of these funds, approximately $45 million, have been included in the President's fiscal year 1983 budget request. Thus, part of the fiscal 1983 budget contains funds authorized under S. 2411. The balance would have to be appropriated by the Senate prior to the end of this fiscal year. Because no appropriation bill has been passed, the committee does not believe this measure will interfere with or delay either the budgetary or appropriation process of the Senate.

JUSTICE ASSISTANCE ACT OF 1982

Mr. BAKER. Mr. President, I ask unanimous consent that the Senate proceed to the bill S. 2411, Calendar Order No. 857.

Mr. METZENBAUM addressed the Chair.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. METZENBAUM. Mr. President, reserving the right to object, and I do not intend to object, will the majority leader consider, if there are to be votes in connection with this matter, that they be stacked at a time certain?

Mr. BAKER. Mr. President, I do not really know.

I inquire of the distinguished junior Senator from Pennsylvania if he anticipates rollcall votes on this measure.

Mr. SPECTER. Mr. President, I anticipate that there may be a rollcall vote on one of the amendments, perhaps others, and then a rollcall vote on final consideration.

Mr. METZENBAUM. Will the Senator from Pennsylvania object to stacking the votes at this time?

Mr. SPECTER. I will not object.

Mr. BAKER. Until what time?

Mr. METZENBAUM. Until whatever time is convenient for the majority leader and manager of the bill, the minority leader and those concerned.

Mr. BAKER. May I inquire of the Senator from North Carolina if he has any problem with such a request?

Mr. EAST. I have no objection to that, Mr. Leader.

Mr. ROBERT C. BYRD. Mr. President, may I say to my friend from Ohio that it has been cleared on this side for the convenience of Senators also.

Mr. METZENBAUM. Fine. It just occurred to me, because I noticed matters with 5- and 10-minute items. If it is convenient, fine with me, but I wanted to make the suggestion.

Mr. BAKER. Mr. President, let me say to my friend from Ohio that that request would have to be cleared on our side. That will take a little while, so I will pursue that request and have an announcement to make about it a little later in the proceedings.

Mr. METZENBAUM. I thank the majority leader and the minority leader.

The PRESIDING OFFICER. Without objection, it is so ordered. The bill will be stated by title.

The legislative clerk read as follows:

A bill (S. 2411) to amend the Omnibus Crime Control and Safe Streets Act of 1968.

The PRESIDING OFFICER. Is there objection to the present consideration of the bill?

There being no objection, the Senate proceeded to consideration of the bill which had been reported from the Committee on the Judiciary with amendments, as follows:

On page 2, strike line 11, through and including line 16;

On page 2, line 21, strike "and delinquency are", and insert "is";

On page 2, line 22, after "essentially", insert "a";

On page 2, line 22, strike "problems", and insert "problem";

On page 3, line 22, strike "the";

On page 4, line 2, strike "and delinquency";

On page 4, line 5, strike "crime and juvenile delinquency", and insert "justice systems";

On page 4, line 25, strike "amended", and insert "amended to read as follows:";

On page 5, strike line 1, through and including line 22, and insert the following:

"ESTABLISHMENT OF OFFICE OF JUSTICE ASSISTANCE

"SEC. 101. (a) There is established within the Department of Justice under the general authority of the Attorney General an Office of Justice Assistance.

"(b) The Office of Justice Assistance shall be under the direction of a Director who shall be appointed by the President, by and with the advice and consent of the Senate. The President shall nominate a Director and transmit the name of that person to the Senate within ninety days after this Act takes effect and within ninety days after any vacancy in the position of Director occurs.

"(c) The Director may appoint Deputy Directors to assist in the direction of the Office of Justice Assistance and select for employment such employees as are necessary to perform the functions of the Office of Justice Assistance. The Director shall have final authority over all grants, cooperative agreements, and contracts awarded by the Office of Justice Assistance.".

On page 7, line 7, strike "establish", and insert "recognize";

On page 7, line 17, strike "and", and insert a semicolon;

On page 7, line 18, strike "paragraph", and insert "paragraphs";

On page 7, after line 19, insert the following:

"(10) exercise final authority over such other administrative functions as may be necessary to carry out the provisions of this part; and

On page 7, line 20, strike out "(10)", and insert "(11)";

On page 8, line 21, strike "Board", and insert "Committee";

On page 8, line 24, strike "criminal and juvenile";

On page 9, line 1, after "prosecutors", insert "public and";

On page 9, line 4, after "organizations", insert "including those which offer programs of assistance to victims of crime";

On page 9, after line 7, strike "A", through and including line 9;

On page 9, after line 24, insert "Members once appointed, may not be removed prior to the expiration of their term";

On page 12, line 17, strike "there", through and including line 19, and insert the following:

up to $500,000 of funds appropriated for the Administration of the Office of Justice Assistance may be used.".

On page 13, line 5, strike "Bureau", and insert "Institute";

On page 13, line 8, strike "Board", and insert the following:

Board. The Director shall have final authority over such other administrative functions as may be necessary to carry out the provisions of this part.",

On page 13, line 15, strike "and";

On page 13, after line 15, insert "(B) by striking out paragraph (9)";

On page 13, line 17, strike "(B)", and insert "(C)";

On page 13, line 19, strike "F", and insert "F; and";

On page 13, line 20, strike "E" and", and insert "E;",";

On page 13, after line 21, insert the following:

(D) by redesignating paragraphs (10) and (11) as paragraphs (9) and (10), respectively,

(E) by striking out the period at the end of paragraph (10) as redesignated and inserting in lieu thereof "; and", and

(F) by adding at the end of such subsection the following new paragraph:

"(12) provide financial assistance to encourage replication, coordination, and sharing among State and local justice agencies and public and private nonprofit organizations regarding successful programs or projects and useful information resulting from multiyear and short-term research and development activities authorized under this part.", and

On page 14, line 17, strike "(a)", and insert "(a)—";

On page 14, after line 17, insert "(A)";

On page 14, after line 20, insert the following:

(B) by adding at the end thereof the following new sentence: "Members, once appointed, may not be removed prior to the expiration of their term.", and

On page 14, strike line 25;

On page 15, insert "(C)" before line 1;

On page 15, line 5, strike "(3)", and insert "(2)";

On page 15, after line 8, insert "justice assistance";

On page 15, line 9, strike "against crime and delinquency";

On page 16, after "(g)", strike line 1, through and including "to", line 3, and insert "To";

On page 16, after line 3, insert the following:

up to $500,000 of the funds appropriated for administration of the Institute may be used.".

On page 16, line 21, strike "Board", and insert the following:

Board. The Director shall have final authority over such other administrative functions as may be necessary to carry out the provisions of this part.",

On page 17, line 11, strike "818", and insert "716";

On page 17, line 15, strike "G", and", and insert the following:

"G" and redesignating paragraph (17) of such subsection as paragraph (18),

(5) in subsection (c) by adding after paragraph (16) the following new paragraph:

"(17) provide assistance to encourage replication, coordination, and sharing among justice agencies regarding information systems, information policy and statistics;", and

On page 17, line 15, strike "G", and", and "(6)";

On page 18, line 14, strike "(a)", and insert "(a)—"

On page 18, after line 14, insert "(A)";

On page 18, after line 19, insert the following:

(B) by adding after the third sentence the following new sentence: "Members, once ap-

pointed, may not be removed prior to the expiration of their term.",

(C) by striking out "The Chairman shall be provided by the Bureau with at least one full-time staff assistant to assist the Board." and inserting in lieu thereof the following: "The Board shall have staff personnel, appointed by the Chair with the approval of the Board, to assist it in carrying out its responsibilities. The head of each Federal agency shall make available to the Board and staff such information and other assistance as the Board may require to carry out its responsibilities. The Board shall not have any authority to procure any temporary or intermittent services of any personnel under section 3109 of title 5 of the United States Code, or under any other provision of law.", and

On page 19, strike line 14;

On page 19, after line 14, insert "(D)";

On page 19, line 19, strike "(3)", and insert "(2)";

On page 19, line 22, strike "efforts against crime and delinquency", and insert "justice assistance efforts";

On page 20, line 17, after "(g)", strike through and including "to", line 19, and insert "To";

On page 20, after line 19, insert the following:

section up to $500,000 of the funds appropriated for administration of the Bureau may be used.".

On page 21, strike line 5, through and including line 11, and insert the following:

"PURPOSE

"SEC. 401. It is the purpose of this part to provide financial assistance to States, units of government, public and private nonprofit organizations, and neighborhood and community-based groups to replicate programs and projects which have been proven successful in addressing national crime priorities and the functioning of justice systems. Financial awards shall be made to encourage local institutionalization of the program or project.

On page 21, line 22, strike "(a)", through and including "(b)" on page 22, line 2, and insert "(a)";

On page 22, line 1, after "awards", insert "under this part";

On page 22, line 1, after "made", insert the following: "for a period of up to four years.";

On page 22, line 2, strike "to", through and including the period on line 3;

On page 22, after line 2, insert the following:

The Federal share of project or program costs for grants of specific duration shall be in accordance with the following formula:

"(1) Four year grants—not to exceed 90 per centum in the first year, 75 per centum in the second year, 50 per centum in the third year, and 25 per centum in the fourth year.

"(2) Three year grants—not to exceed 75 per centum in the first year, 50 per centum in the second year, and 25 per centum in the third year.

"(3) Two year grants—not to exceed 50 per centum in the first year and 25 per centum in the second year.

"(4) One year grant—not to exceed 50 per centum.

On page 22, strike line 18, through and including line 9 on page 23;

On page 23, line 14, strike "crime", and insert "offenses";

On page 23, line 18, after "Assistance.", insert the following: "In making grants under this part, the Director shall consider geographic distribution in order to benefit all sections of the country.";

On page 23, line 21, strike "consider efforts", and insert "give priority to programs and projects that—";

On page 23, line 23, strike "providing", and insert "provide";

On page 24, line 3, strike "disrupting", and insert "disrupt";

On page 24, line 6, strike "investigating", and insert "investigate";

On page 24, line 6, strike "bringing", and insert "bring";

On page 24, line 10, strike "identifying", and insert "identify";

On page 24, line 10, strike "processing", and insert "process";

On page 24, line 11, strike "the criminal";

On page 24, line 11, strike "System", and insert "systems";

On page 24, beginning on line 11, strike "(including juvenile offenders)";

On page 24, line 14, strike "identifying", and insert "identify";

On page 24, line 14, strike "Implementing", and insert "implement";

On page 24, line 18, strike "providing", and insert "provide";

On page 24, line 21, strike "providing", and insert "provide";

On page 24, line 23, strike "providing", and insert "provide";

On page 25, line 1, strike "providing", and insert "provide";

On page 25, strike lines 3 and 4, and insert the following:

"(11) provide assistance for the development and operation of justice information systems, including management information systems;

On page 25, line 8, strike "providing", and insert "provide";

On page 25, line 11, strike "providing", and insert "provide";

On page 25, line 13, strike "coordinating", and insert "coordinate";

On page 25, line 14, strike "system; and", and insert "system";

On page 25, strike lines 16 and 17, and insert the following:

"(15) providing programs to speed the trial of criminal cases, reform sentencing practices and procedures, improve the efficiency of the jury system, and improve the processing of cases involving the mentally incompetent and pleas of mental incapacity.

On page 26, line 1, after "comment.", insert the following:

In establishing such priorities and criteria, the Director shall specify the amount of assistance available for each national priority initiative selected for replication using Federal assistance.

On page 26, line 19, strike "grant.'.", and insert "grant.";

On page 26, after line 19, insert the following:

"(c) At least 30 per centum of the funds reserved and set aside for this part shall be allocated to private nonprofit organizations and neighborhood and community-based groups for the purposes specified in this part.".

On page 27, line 17, strike "criminal and juvenile", and

On page 27, line 17, after "justice", insert "systems";

On page 30, line 1, after "out", insert "'each";

On page 30, line 2, strike "State", and insert the following:

their needs. In making grants under this part, the Director shall consider geographic distribution in order to benefit all sections of the country.".

On page 30, line 9, insert "(1)";

On page 30, line 11, strike "Assistance'.", and insert the following:

Assistance, and

(2) in the last sentence by striking out "602(1)" and inserting in lieu thereof "502".

On page 30, line 23, strike "3701", and insert "3771";

On page 30, after line 25, insert the following:

"(b) Part G of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3771-3775) is amended by striking out 'Administration' wherever it appears and inserting in lieu thereof 'Office'."

On page 31, line 5, strike "(b)", and insert "(c)";

On page 31, line 25, strike "policy setting, grant making", and insert "policysetting, grantmaking";

On page 33, line 23, after "Assistance,", insert "Office of Juvenile Justice and Delinquency Prevention";

On page 41, beginning on line 5, strike "in violation of section 604 or";

On page 41, line 10, strike "may", and insert "shall";

On page 44, beginning on line 5, strike "for", through and including "$20,000,000" on line 7, and insert the following: "to be appropriated $20,000,000 in part M for emergency assistance";

On page 44, line 8, after "for", insert "each of";

On page 44, line 9, strike "1984", and insert "1983";

On page 44, line 9, strike "1985, and", and insert "1984";

On page 44, line 10, strike "1986", and insert "1985 and September 30, 1986."

On page 48, beginning on line 21, strike "criminal justice".

So as to make the bill read:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Justice Assistance Act of 1982".

DECLARATION AND PURPOSE

SEC. 2. The declaration and purpose contained in title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3701) is amended to read as follows:

"DECLARATION AND PURPOSE

"The Congress finds and declares that the high incidence of crime in the United States is detrimental to the general welfare of the Nation and its citizens, and that criminal justice efforts must be better coordinated and intensified, and made more effective and equitable at all levels.

"Congress further finds that there is an urgent need to encourage basic and applied research, to gather and disseminate accurate and comprehensive justice statistics, and to evaluate methods of preventing and reducing crime.

"Congress further finds that although crime is essentially a local problem that must be dealt with by State and local government, the financial and technical resources of the Federal Government should be made available to assist in the development of innovative and effective National, State, and local efforts.

"Congress further finds that the future welfare of the Nation and the well-being of its citizens depend on the establishment and maintenance of viable and effective justice systems which require systematic and sus-

tained action by Federal, State, and local governments; and continuing efforts at all levels to streamline programs and upgrade the functioning of agencies responsible for planning, implementing, and evaluating efforts to improve justice systems.

"It is, therefore, the declared policy of the Congress to aid in strengthening and improving justice systems by providing assistance with maximum certainty and effectiveness and minimum delay and waste. It is the purpose of this title to authorize funds and technical assistance (1) to be used to strengthen justice systems; (2) to develop and fund new methods and programs to enhance the effectiveness of justice systems; (3) to support the development of National, State, and local priorities and programs to meet the problems confronting justice systems; (4) to reduce court congestion and trial delay; (5) to support community and neighborhood anticrime efforts; (6) to improve and modernize correctional systems and encourage rehabilitation; (7) to encourage the undertaking of promising, innovative projects and programs to combat crime; (8) to encourage research directed toward the improvement of justice systems and new methods for the prevention and reduction of crime and the detection, apprehension, and rehabilitation of criminals; (9) to encourage the collection and analysis of statistical information concerning justice systems and the development and operation of justice information systems; (10) to develop and implement programs assisting victims, jurors, and witnesses; (11) to support law enforcement-related personnel development and training efforts; and (12) to provide emergency Federal financial assistance when necessary to combat a criminal justice disaster.

"It is further the policy of the Congress that the Federal assistance made available under this title not be utilized to reduce the amount of State and local financial support for justice activities below the level of such support prior to the availability of such assistance.".

OFFICE OF JUSTICE ASSISTANCE

SEC. 3. (a) Part A of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711-3713) is amended in the heading to such part by striking out "LAW ENFORCEMENT ASSISTANCE ADMINISTRATION" and inserting in lieu thereof "OFFICE OF JUSTICE ASSISTANCE".

(b) Section 101 of part A of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3711) is amended to read as follows:

"ESTABLISHMENT OF OFFICE OF JUSTICE ASSISTANCE

"SEC. 101. (a) There is established within the Department of Justice under the general authority of the Attorney General an Office of Justice Assistance.

"(b) The Office of Justice Assistance shall be under the direction of a Director who shall be appointed by the President, by and with the advice and consent of the Senate. The President shall nominate a Director and transmit the name of that person to the Senate within ninety days after this Act takes effect and within ninety days after any vacancy in the position of Director occurs.

"(c) The Director may appoint Deputy Directors to assist in the direction of the Office of Justice Assistance and select for employment such employees as are necessary to perform the functions of the Office of Justice Assistance. The Director shall have final authority over all grants, cooperative agreements, and contracts awarded by the Office of Justice Assistance.".

(c) Section 102 of part A of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3712) is amended—

(1) by striking out "Administrator" each place it appears and inserting in lieu thereof "Director",

(2) in paragraph (1) by—

(A) striking out "States and units of local government" and inserting in lieu thereof "applicants", and

(B) striking out "D" and inserting in lieu thereof "D and E",

(3) by amending paragraph (2) to read as follows:

"(2) recognize national priorities for programs and award and allocate funds and technical assistance consistent with parts D and E;",

(4) in paragraph (4) by striking out "Administration" and inserting in lieu thereof "Office of Justice Assistance",

(5) in paragraph (8) by striking out "H" and inserting in lieu thereof "G" and by striking out the final "and",

(6) in paragraph (9) by striking out the period and inserting in lieu thereof a semicolon,

(7) by adding the following new paragraphs at the end thereof:

"(10) exercise final authority over such other administrative functions as may be necessary to carry out the provisions of this part; and

"(11) exercise authority under part M to assist in combatting criminal justice disasters.", and

(8) in the heading for such section by striking out "ADMINISTRATOR" and inserting in lieu thereof "DIRECTOR".

(d) Section 103 of part A of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3713) is amended to read as follows:

"ESTABLISHMENT OF A JUSTICE ASSISTANCE BOARD

"SEC. 103. (a) There is established a Justice Assistance Board (hereafter referred to as the 'Board'). The Board shall consist of—

"(1) fifteen voting members who shall be appointed by the President;

"(2) the Director of the National Institute of Justice, the Director of the Bureau of Justice Statistics, and the Administrator of the Office of Juvenile Justice and Delinquency Prevention, who shall be nonvoting, ex officio members; and

"(3) two nonvoting, coordinating members each from the National Institute of Justice Advisory Board, the Bureau of Justice Statistics Advisory Board, and the National Advisory Committee for Juvenile Justice and Delinquency Prevention.

"(b) Members shall represent the public interest and shall be knowledgeable and experienced in the justice systems; such as law enforcement personnel, prosecutors, public and defense attorneys, judges, court administrators, probation and correctional personnel, researchers and scholars, representatives of public and private nonprofit and voluntary organizations, including those which offer programs of assistance to victims of crime, representatives of neighborhood and community-based groups and representatives of local and State governments.

"(c)(1) Voting members of the Board shall be appointed for three-year terms, except in order to provide for continuity in its operations and to establish staggered groups of vacancies, five members of the initial Board shall be appointed for four-year terms, five members of the initial Board shall be appointed for three-year terms, and five members of the initial Board shall be appointed for two-year terms.

"(2) The initial appointment of members shall be made not later than ninety days after the effective date of this Act. Vacancies among Board members shall be filled within ninety days of the vacancy. Any member appointed to fill a vacancy occurring before the scheduled expiration of a term shall be appointed for the remainder of such term. Members shall be eligible for reappointment, but shall serve consecutively no more than two terms or six years, whichever is less. Members once appointed, may not be removed prior to the expiration of their term.

"(d) The Board shall elect from among its voting members a Chair and Vice Chair. The Board shall select from among its voting members two representatives to serve as nonvoting coordinating members on the National Institute of Justice Advisory Board, two representatives to serve as nonvoting coordinating members on the Bureau of Justice Statistics Advisory Board, and two representatives to serve as nonvoting coordinating members on the National Advisory Committee of Juvenile Justice and Delinquency Prevention.

"(e) The Board shall meet at the call of the Chair, but not less than quarterly. Notice of all Board meetings shall be published. Ten voting members of the Board shall constitute a quorum.

"(f) The Board shall—

"(1) recommend to the Director funding priorities and selection criteria to be used in determining the award and allocation of funds through the Office of Justice Assistance;

"(2) recommend to the Director such policies and program priorities as it deems advisable;

"(3) review and evaluate the activities of the Office of Justice Assistance and make such recommendations to the Director as it considers necessary or appropriate;

"(4) in the event of a vacancy, recommend to the President at least three candidates for the position of Director;

"(5) review and evaluate Federal policies and priorities in justice assistance; and

"(6) coordinate its activities with the National Institute of Justice Advisory Board, the Bureau of Justice Statistics Advisory Board, the National Advisory Committee for Juvenile Justice and Delinquency Prevention, and the Coordinating Council on Juvenile Justice and Delinquency Prevention.

"(g) Beginning January 1, 1983, the Board shall submit an annual report to the President and to the Congress not later than March 31 of each year and may submit such interim reports as it considers advisable to the President and to the Congress. Each annual report shall describe the activities of the Board and shall contain such findings and recommendations as the Board considers necessary or appropriate.

"(h) The Board shall have staff personnel, appointed by the Chair with the approval of the Board, to assist it in carrying out its responsibilities. The head of each Federal agency shall make available to the Board and staff such information and other assistance as it may require to carry out its responsibilities. The Board shall not have any authority to procure any temporary or intermittent services of any personnel under section 3109 of title 5, United States Code, or under any other provision of law.

"(i)(1) Members of the Board shall, while serving on Board business, be entitled to receive compensation at a rate not to exceed the daily rate specified for grade GS-18 of the General Schedule in section 5332 of title 5, United States Code, including traveltime.

"(2) Members of the Board shall be entitled to reimbursement for travel expenses, including per diem in lieu of subsistence, while serving away from their place of residence or regular place of business, in the same manner as the expenses authorized by section 5703 of title 5, United States Code, for persons in the Federal Government service employed intermittently.

"(j) To carry out the provisions of this section up to $500,000 of funds appropriated for the Administration of the Office of Justice Assistance may be used.".

NATIONAL INSTITUTE OF JUSTICE

SEC. 4. (a) Section 202 of part B of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3722) is amended—

(1) in subsection (b)—

(A) by adding after the third sentence the following: "The Director shall select for employment such employees as are necessary to perform the functions of the Institute.", and

(B) by adding at the end thereof the following: "The Director shall also be a nonvoting member of the Justice Assistance Board. The Director shall have final authority over such other administrative functions as may be necessary to carry out the provisions of this part.",

(2) in subsection (c)—

(A) in paragraph (2)(A) by striking out ", including programs authorized by section 103 of this title",

(B) by striking out paragraph (9),

(C) in paragraph (10) by striking out "as national priority grants under part E and discretionary grants under part F; and", and inserting in lieu thereof "under parts D and E;",

(D) by redesignating paragraphs (10) and (11) as paragraphs (9) and (10), respectively,

(E) by striking out the period at the end of paragraph (10) as redesignated and inserting in lieu thereof "; and", and

(F) by adding at the end of such subsection the following new paragraph:

"(12) provide financial assistance to encourage replication, coordination, and sharing among State and local justice agencies and public and private nonprofit organizations regarding successful programs or projects and useful information resulting from multiyear and short-term research and development activities authorized under this part.", and

(3) in subsection (d)(5) by striking out "part H" and inserting in lieu thereof "part G".

(c) Section 204 of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3724) is amended—

(1) in subsection (a)—

(A) in the second sentence by striking out "twenty-one" and inserting in lieu thereof "fifteen",

(B) by adding at the end thereof the following new sentence: "Members, once appointed, may not be removed prior to the expiration of their term.", and

(C) by striking out "The Administrator of the Law Enforcement Assistance Administration," and inserting in lieu thereof "The Director of the Office of Justice Assistance,", and

(2) by adding at the end thereof the following new subsections:

"(f) In order better to coordinate the activities of the Institute with other aspects of the Federal Government's justice assistance efforts—

"(1) the Board shall also include two nonvoting, coordinating members each from the Justice Assistance Board, the Bureau of Justice Statistics Advisory Board, and the National Advisory Committee for Juvenile Justice and Delinquency Prevention, which shall each designate from among its members two such representatives, and

"(2) the Board shall select from among its members two representatives to serve as nonvoting, coordinating members on the Justice Assistance Board, two representatives to serve as nonvoting, coordinating members on the Bureau of Justice Statistics Advisory Board, and two representatives to serve as nonvoting, coordinating members on the National Advisory Committee for Juvenile Justice and Delinquency Prevention.

"(g) To carry out the provisions of this section up to $500,000 of the funds appropriated for administration of the Institute may be used.".

BUREAU OF JUSTICE STATISTICS

SEC. 5. (a) Section 301 of part C of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3731) is amended in the first sentence by adding after "and to support the development" the following: "and operation".

(b) Section 302 of part C of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3732) is amended—

(1) in subsection (b)—

(A) by adding after the third sentence the following: "The Director shall select for employment such employees as are necessary to perform the functions of the Bureau.", and

(B) by adding at the end thereof "The Director shall also be a nonvoting member of the Justice Assistance Board. The Director shall have final authority over such other administrative functions as may be necessary to carry out the provisions of this part.",

(2) in subsection (c)(13) by amending such subsection to read as follows:

"(13) provide financial and technical assistance to States and units of local government relating to development, operation, collection, analysis, or dissemination of justice statistics and development and operation of justice information systems;",

(3) in subsection (c)(16) by amending such subsection to read as follows:

"(16) insure conformance with security and privacy regulations issued pursuant to section 716 and assist in the development of guidelines for statistics, privacy and security, and information policy;",

(4) in subsection (c)(17) by striking out "H" and inserting in lieu thereof "G" and redesignating paragraph (17) of such subsection as paragraph (18),

(5) in subsection (c) by adding after paragraph (16) the following new paragraph:

"(17) provide assistance to encourage replication, coordination, and sharing among justice agencies regarding information systems, information policy and statistics;", and

(6) in subsection (d) by—

(A) striking out the "and" at the end of clause (3),

(B) striking out the period at the end of clause (4) and inserting in lieu thereof "; and", and

(C) adding at the end thereof the following:

"(5) provide assistance to encourage replication, coordination, and sharing among criminal justice agencies regarding information systems, information policy, and statistics.".

(c) Section 304 of part C of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3734) is amended—

(1) in subsection (a)—

(A) in the second sentence by striking out "twenty-one members who shall be appointed by the Attorney General" and inserting in lieu thereof "fifteen members who shall be appointed by the President",

(B) by adding after the third sentence the following new sentence: "Members, once appointed, may not be removed prior to the expiration of their term.",

(C) by striking out "The Chairman shall be provided by the Bureau with at least one full-time staff assistant to assist the Board." and inserting in lieu thereof the following: "The Board shall have staff personnel, appointed by the Chair with the approval of the Board, to assist it in carrying out its responsibilities. The head of each Federal agency shall make available to the Board and staff such information and other assistance as the Board may require to carry out its responsibilities. The Board shall not have any authority to procure any temporary or intermittent services of any personnel under section 3109 of title 5 of the United States Code, or under any other provision of law.", and

(D) by striking out "The Administrator of the Law Enforcement Assistance Administration," and inserting in lieu thereof "The Director of the Office of Justice Assistance,", and

(2) by adding at the end thereof the following new subsections:

"(f) In order better to coordinate the activities of the Bureau with other aspects of the Federal Government's justice assistance efforts—

"(1) the Board shall also include two nonvoting, coordinating members each from the Justice Assistance Board, the National Institute of Justice Advisory Board, and the National Advisory Committee for Juvenile Justice and Delinquency Prevention, which shall each designate from among its members two such representatives, and

"(2) the Board shall select from among its members two representatives to serve as nonvoting, coordinating members on the Justice Assistance Board, two representatives to serve as nonvoting, coordinating members on the National Institute of Justice Advisory Board, and two representatives to serve as nonvoting, coordinating members on the National Advisory Committee for Juvenile Justice and Delinquency Prevention.

"(g) To carry out the provisions of this section up to $500,000 of the funds appropriated for administration of the Bureau may be used.".

NATIONAL PRIORITY IMPLEMENTATION AND REPLICATION PROGRAMS

SEC. 6. Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3741-3745) is amended by striking out part D of title I and inserting in lieu thereof the following:

"PART D—NATIONAL PRIORITY IMPLEMENTATION AND REPLICATION PROGRAMS

"PURPOSE

"SEC. 401. It is the purpose of this part to provide financial assistance to States, units of government, public and private nonprofit organizations, and neighborhood and community-based groups to replicate programs

and projects which have been proven successful in addressing national crime priorities and the functioning of justice systems. Financial awards shall be made to encourage local institutionalization of the program or project.

"FEDERAL SHARE

"SEC. 402. (a) Financial awards under this part shall be made for a period of up to four years. The Federal share of project or program costs for grants of specified duration shall be in accordance with the following formula:

"(1) Four year grants—not to exceed 90 per centum in the first year, 75 per centum in the second year, 50 per centum in the third year, and 25 per centum in the fourth year.

"(2) Three year grants—not to exceed 75 per centum in the first year, 50 per centum in the second year, and 25 per centum in the third year.

"(3) Two year grants—not to exceed 50 per centum in the first year and 25 per centum in the second year.

"(4) One year grant—not to exceed 50 per centum.

"USES

"SEC. 403. (a) The Director of the Office of Justice Assistance is authorized to make grants providing assistance to implement programs and projects that address critical problems of violent and serious offenses and which programs are certified by the Director as having proven a success on the basis of objective, empirical, or statistical information or evaluation in accordance with criteria developed by the Office of Justice Assistance. In making grants under this part, the Director shall consider geographic distribution in order to benefit all sections of the country. The Director shall give priority to programs and projects that—

"(1) provide community and neighborhood programs that enable citizens and police to undertake initiatives to prevent and control neighborhood crime;

"(2) disrupt illicit commerce in stolen goods and property;

"(3) combat arson;

"(4) effectively investigate and bring to trial white-collar crime, organized crime, public corruption crimes, and fraud against the Government;

"(5) identify and process within justice systems persons with a history of serious criminal conduct;

"(6) develop and implement programs which provide assistance (other than compensation) to jurors, witnesses, and victims of crime;

"(7) provide alternatives to pretrial detention, jail, and prison for persons who pose no danger to the community;

"(8) provide programs which identify and meet the needs of drug-dependent offenders;

"(9) provide programs which alleviate prison and jail overcrowding;

"(10) provide training, management, and technical assistance to justice personnel;

"(11) provide assistance for the development and operation of justice information systems, including management information systems;

"(12) provide programs which address the problem of serious and violent offenses committed by juveniles;

"(13) provide programs which address offenses committed against the elderly;

"(14) coordinate the activities of components of the criminal justice system; and

"(15) providing programs to speed the trial of criminal cases, reform sentencing practices and procedures, improve the efficiency of the jury system, and improve the processing of cases involving the mentally incompetent and pleas of mental incapacity.

"(b) The Director of the Office of Justice Assistance shall annually establish funding priorities and selection criteria for assistance after first providing notice and an opportunity for public comment. In establishing such priorities and criteria, the Director shall specify the amount of assistance available for each national priority initiative selected for replication using Federal assistance.

"(c) The National Institute of Justice shall be responsible for objectively evaluating all projects funded under this part.

"APPLICATIONS

"SEC. 404. (a) No grant may be made pursuant to this part unless an application has been submitted to the Director in accordance with criteria established by the Office of Justice Assistance. Awards shall be given to those applicants that most clearly satisfy the funding priorities and selection criteria as established by the Office of Justice Assistance.

"(b) Applications must include a commitment and evidence of ability to fulfill the applicant's share of project or program costs over the term of the grant by cash match and evidence a commitment to continuing the project or program beyond the term of the grant.

"(c) At least 30 per centum of the funds reserved and set aside for this part shall be allocated to private nonprofit organizations and neighborhood and community-based groups for the purposes specified in this part.".

NATIONAL PRIORITY GRANTS

SEC. 7. Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3701 et seq.) is amended by striking out part E.

DISCRETIONARY GRANTS

SEC. 8. (a) Sections 601, 602, and 603 of part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3751-60) is amended to read as follows:

"PART E—DISCRETIONARY GRANTS

"PURPOSE

"SEC. 501. The purpose of this part is to provide additional Federal assistance to States, units of local government, combinations of such units, public and private nonprofit organizations, and neighborhood and community-based groups for the purposes of—

"(1) undertaking educational and training programs for justice systems personnel;

"(2) providing technical assistance directly to—

"(A) recipients of assistance under part D or to the jurisdictions in which such programs and projects are undertaken; and

"(B) jurisdictions that wish to replicate national priority implementation programs but are not receiving assistance under part D; and

"(3) national demonstration programs which, in view of previous research or experience, are likely to prove successful after testing, evaluation, and refinement and are not likely to be funded from other sources.

"(4) The National Institute of Justice shall be responsible for objectively evaluating all projects funded under this part.

"PERCENTAGE OF APPROPRIATION FOR DISCRETIONARY GRANT PROGRAM

"SEC. 502. Of the total amount appropriated for this part in any fiscal year—

"(1) 50 per centum shall be reserved and set aside for this part in a special discretionary fund for use by the Office of Justice Assistance in making grants to carry out the purposes specified in paragraphs (1) and (2) of section 501;

"(2) 50 per centum shall be reserved and set aside for this part in a special discretionary fund for use by the Office of Justice Assistance in making grants to carry out the purpose specified in paragraph (3) of section 501;

"(3) the Federal portion of any grants made under this part may be made in amounts up to 100 per centum of the costs of the program or project; and

"(4) at least 30 per centum of the funds reserved and set aside for this part shall be allocated to private nonprofit organizations and neighborhood and community-based groups for the purposes specified in this part.

"PROCEDURE FOR ESTABLISHING FUNDING AND SELECTION CRITERIA

"SEC. 503. The Director of the Office of Justice Assistance shall annually establish funding priorities and selection criteria for assistance after first providing notice and an opportunity for public comment.".

(b) Section 604 of part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3764) is amended by striking out "Administration" each place it appears and inserting in lieu thereof "Office of Justice Assistance" and by striking out "part" each place it appears and inserting in lieu thereof "title".

(c) Section 605 of part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3765) is amended—

(1) by striking out "Administration" each place it appears and inserting in lieu thereof "Office of Justice Assistance",

(2) by striking out the third sentence, and

(3) by striking out "each type of section 402 eligible jurisdiction" and inserting in lieu thereof "their needs. In making grants under this part, the Director shall consider geographic distribution in order to benefit all sections of the country.".

(d) Section 606 of part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3766) is amended—

(1) by striking out "Administration" each place it appears and inserting in lieu thereof "Office of Justice Assistance", and

(2) in the last sentence by striking out "602(1)" and inserting in lieu thereof "502".

(e) The heading for part F of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3761-3766) is amended by striking out "PART F" and inserting in lieu thereof "PART E".

(f) Part E of title I, as so redesignated, is amended by redesignating sections 604, 605, and 606 as sections 504, 505, and 506, respectively.

TRAINING AND MANPOWER DEVELOPMENT

SEC. 9. (a) Part G of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3771-3775) is amended by redesignating sections 701, 702, 703, 704, and 705 as sections 601, 602, 603, 604, and 605.

(b) Part G of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3771-3775) is amended by striking out "Administration" wherever it appears and inserting in lieu thereof "Office".

(c) The heading for part G of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3771-3775) is amended by striking out "PART G" and inserting in lieu thereof "PART F".

ADMINISTRATIVE PROVISIONS

SEC. 10. (a) Section 801 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781 et seq.) is amended to read as follows:

"ASSISTANT ATTORNEY GENERAL FOR JUSTICE ASSISTANCE

"SEC. 801. (a) There is hereby authorized within the Department of Justice an Assistant Attorney General for Justice Assistance who shall be appointed by the President by and with the advice and consent of the Senate.

"(b) The Assistant Attorney General shall provide staff and services support from the Department of Justice for the Office of Justice Assistance, National Institute of Justice, Bureau of Justice Statistics, and the Office of Juvenile Justice and Delinquency Prevention.

"(c) Nothing in this section shall be construed as limiting the policysetting, grantmaking and management authority of the Director of the Office of Justice Assistance, the Director of the National Institute of Justice, the Director of the Bureau of Justice Statistics or the Administrator of the Office of Juvenile Justice and Delinquency Prevention.".

(b) Section 802 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3782) is amended—

(1) in subsection (a) by striking out "The Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration," and inserting in lieu thereof "The Office of Justice Assistance, the Office of Juvenile Justice and Delinquency Prevention,", and

(2) in subsection (b)—

(A) by striking out "Law Enforcement Assistance Administration" each place it appears and inserting in lieu thereof "Office of Justice Assistance",

(B) by inserting "and the Office of Juvenile Justice and Delinquency Prevention," after "Bureau of Justice Statistics,",

(C) by striking out "parts D, E, and F" and inserting in lieu thereof "parts D and E",

(D) by striking out the second sentence,

(E) by amending the third sentence to read as follows: "In conducting evaluations described in this subsection, the Office of Justice Assistance shall, when practical, compare the effectiveness of programs conducted by similar applicants and different applicants.", and

(F) by striking out "administration" and inserting in lieu thereof "Office of Justice Assistance".

(c) Section 803 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3783) is amended—

(1) by striking out "Law Enforcement Assistance Administration" each place it appears and inserting in lieu thereof "Office of Justice Assistance",

(2) by inserting "the Office of Juvenile Justice and Delinquency Prevention," after "Bureau of Justice Statistics," each place it appears,

(3) in subsection (b) by striking out "State" every place it appears, and

(4) in subsection (c) by striking out "such Administration," and inserting in lieu thereof "the Office of Justice Assistance, Office of Juvenile Justice and Delinquency Prevention,".

(d) Section 804 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3784) is amended—

(1) by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance", and

(2) by inserting after "Bureau of Justice Statistics," the following: "the Office of Juvenile Justice and Delinquency Prevention,".

(e) Section 805 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3785) is amended—

(1) by striking out "Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration," each place it appears and inserting in lieu thereof "Office of Justice Assistance,",

(2) by inserting "the Office of Juvenile Justice and Delinquency Prevention," before "or the National Institute of Justice" each place it appears, and

(3) in subsection (a) by striking out "section 803, 804, or 815(c)(2)(G)" and inserting in lieu thereof "section 703, 704, or 713(c)(2)(G)", and

(4) in subsection (b) by inserting "the Office of Juvenile Justice and Delinquency Prevention" before "or the Bureau of Justice Statistics".

(f) Sections 806 and 807 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3786-3787) are each amended—

(1) by striking out "Office of Justice Assistance, Research, and Statistics,", and

(2) by striking out ", and the Law Enforcement Assistance Administration" and inserting in lieu thereof "the Office of Juvenile Justice and Delinquency Prevention, and the Office of Justice Assistance".

(g) Sections 810 and 811 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3788-3789) are amended—

(1) by striking out "Office of Justice Assistance, Research, and Statistics," each place it appears,

(2) by striking out ", and the Law Enforcement Assistance Administration" and inserting in lieu thereof "the Office of Juvenile Justice and Delinquency Prevention, and the Office of Justice Assistance".

(h) Section 812 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789a) is amended by striking out "Director of the Office of Justice Assistance, Research, and Statistics, the Administrator of the Law Enforcement Assistance Administration," and inserting in lieu thereof "Director of the Office of Justice Assistance, the Administrator of the Office of Juvenile Justice and Delinquency Prevention,".

(i) Section 813 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789b) is amended in subsections (a) and (b)—

(1) by striking out "Office of Justice Assistance, Research, and Statistics" each place it appears and inserting in lieu thereof "Office of Juvenile Justice and Delinquency Prevention", and

(2) by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance".

(j) Section 814 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789c) is amended—

(1) in subsections (a) and (b)—

(A) by striking out "Office of Justice Assistance, Research, and Statistics," and inserting in lieu thereof "Office of Juvenile Justice and Delinquency Prevention,", and

(B) by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance", and

(2) in subsection (c) by striking out "Administration" and inserting in lieu thereof "Office of Justice Assistance".

(k) Section 815 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789d) is amended—

(1) by striking out "Office of Justice Assistance, Research, and Statistics" each place it appears and inserting in lieu thereof "Office of Juvenile Justice and Delinquency Prevention, the National Institute of Justice, the Bureau of Justice Statistics, or the Office of Justice Assistance", and

(2) in subsection (b) by striking out "or the Law Enforcement Assistance Administration" and inserting in lieu thereof "the Office of Juvenile Justice and Delinquency Prevention, or the Office of Justice Assistance".

(l) Section 816 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789e) is amended to read as follows:

"REPORT TO PRESIDENT AND CONGRESS

"SEC. 816. Not later than April 1 of each year, the Director of the Office of Justice Assistance, the Director of the Bureau of Justice Statistics, and the Director of the National Institute of Justice shall each submit a report to the President and to the Congress, on their activities under this title during the preceding fiscal year.".

(m) Section 817 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789f) is amended—

(1) by striking out "Office of Justice, Research, and Statistics" each place it appears and inserting in lieu thereof "Office of Juvenile Justice and Delinquency Prevention, the National Institute of Justice, the Bureau of Justice Statistics, and the Office of Justice Assistance",

(2) in subsection (d) by striking out "section 815(c)" each place it appears and inserting in lieu thereof "section 713(c)", and

(3) in subsection (f)—

(A) by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance", and

(B) by striking out "Administrator" each place it appears and inserting in lieu thereof "Director".

(n) Section 818 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789g) is amended by striking out "Office of Justice Assistance, Research, and Statistics" each place it appears and inserting in lieu thereof "Office of Juvenile Justice and Delinquency Prevention, the National Institute of Justice, the Bureau of Justice Statistics, and the Office of Justice Assistance".

(o) Section 819 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789h) is amended—

(1) by striking out "Office of Justice Assistance, Research, and Statistics," and inserting in lieu thereof "Office of Juvenile Justice and Delinquency Prevention,", and

(2) by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance".

(p) Section 820(a) of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789i(a)) is amended by striking out "Administration" and inserting in lieu thereof "Office of Justice Assistance".

(q) Section 823 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789l) is amended by striking out "Administration" and inserting

in lieu thereof "Office of Justice Assistance".

(r) Section 826 of part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3789o) is amended—

(1) by striking out "council" each place it appears,

(2) by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance", and

(3) by striking out "Administration" each place it appears and inserting in lieu thereof "Office of Justice Assistance".

(s) The heading for part H of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781-3789o) is amended by striking out "PART H" and inserting in lieu thereof "PART G".

(t) Part G, as so redesignated, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781-3789o) is amended by redesignating sections 801, 802, 803, 804, 805, 806, 807, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, and 826 as sections 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, and 724, respectively.

(u) Part G, as so redesignated, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3781-3789o) is amended by striking out sections 808, 809, and 827.

(v) The following is added to part G as section 725 (as redesignated):

"REPAYMENT

"SEC. 725. (a) If Federal financial assistance provided under this part is used by the recipient of such assistance for any purpose other than the purpose for which it is provided, then such recipient shall promptly repay to the United States an amount equal to the value of such assistance.

"(b) The Director shall bring a civil action in an appropriate United States district court to recover any amount required to be repaid under subsection (a).".

DEFINITIONS

SEC. 11. (a) Section 901 of part I of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791) is amended by striking out "Administration" each place it appears and inserting in lieu thereof "Office of Justice Assistance".

(b) Section 901(a)(4) of part I of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791(a)(4)) is amended—

(1) by inserting "renovation, repairs, remodeling," after "acquisition,", and

(2) by striking out ", but does not include renovation, repairs, or remodeling".

(c) Section 901(a)(20) of part I of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791(a)(20)) is amended by striking out "and".

(d) Section 901(a)(21) of part I of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791(a)(21)) is amended by striking out the period and inserting in lieu thereof "; and".

(e) Section 901(a) is amended by adding at the end thereof the following new clause:

"(22) 'public and nonprofit organization' includes youth serving agencies.".

(f) The heading for part I of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791) is amended by striking out "PART I" and inserting in lieu thereof "PART H".

(g) Part H, as so redesignated, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791) is amended by redesignating section 901 as section 801.

FUNDING

SEC. 12. Part J of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3793) is amended to read as follows:

"PART I—FUNDING

"FUNDING

"SEC. 901. (a) There is authorized to be appropriated to carry out the function of the National Institute of Justice $25,000,000 for each of the fiscal years ending September 30, 1983, September 30, 1984, September 30, 1985, and September 30, 1986.

"(b) There is authorized to be appropriated to carry out the functions of the Bureau of Justice Statistics $25,000,000 for each of the fiscal years ending September 30, 1983, September 30, 1984, September 30, 1985, and September 30, 1986.

"(c) There is authorized to be appropriated for part D $20,000,000 for each of the fiscal years ending September 30, 1983, September 30, 1984, September 30, 1985, and September 30, 1986.

"(d) There is authorized to be appropriated for part E $20,000,000 for each of the fiscal years ending September 30, 1983, September 30, 1984, September 30, 1985, and September 30, 1986.

"(e) There is authorized to be appropriated for part F and the educational and training functions of parts D and E $10,000,000 for each of the fiscal years ending September 30, 1983, September 30, 1984, September 30, 1985, and September 30, 1986.

"(f) There is authorized to be appropriated for purposes of administering parts D, E, F, G, and H $5,000,000 for each of the fiscal years ending September 30, 1983, September 30, 1984, September 30, 1985, and September 30, 1986.

"(g) There is authorized to be appropriated $20,000,000 in part M for emergency assistance for each of the fiscal years ending September 30, 1983, September 30, 1984, September 30, 1985, and September 30, 1986.".

CRIMINAL PENALTIES

SEC. 13. (a) Section 1101 of part K of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3795) is amended by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance".

(b) Section 1103 of part K of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3795-3795b) is amended by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance".

(c) The heading for part K of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3795-3795b) is amended by striking out "PART K" and inserting in lieu thereof "PART J".

(d) Part J, as so redesignated, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3795-3795b) is amended by redesignating sections 1101, 1102, and 1103 as sections 1001, 1002, and 1003, respectively.

PUBLIC SAFETY OFFICERS' DEATH BENEFITS

SEC. 14. (a) Sections 1201 and 1204 of part L of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3797-3797c) are amended by striking out "Administration" each place it appears and inserting in lieu thereof "Office of Justice Assistance".

(b) The heading for part L of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3797-3797c) is amended by striking out "PART L" and inserting in lieu thereof "PART K".

(c) Part K, as so redesignated, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3797-3797c) is amended by redesignating sections 1201, 1202, 1203, and 1204 as sections 1101, 1102, 1103, and 1104, respectively.

TRANSITION

SEC. 15. (a) Section 1301 of part M of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3799(a)) is amended—

(1) in subsection (a)—

(A) by striking out "the Office of Justice Assistance, Research, and Statistics or",

(B) by striking out "Law Enforcement Assistance Administration" and inserting in lieu thereof "Office of Justice Assistance", and

(C) by striking out "or the Administrator of the Law Enforcement Assistance Administration" and inserting in lieu thereof "the Administrator of the Office of Juvenile Justice and Delinquency Prevention, or the Director of the Office of Justice Assistance",

(2) by striking out subsection (j), and

(3) by redesignating subsection (k) as subsection (j).

(b) The heading for part M of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3799) is amended by striking out "PART M" and inserting in lieu thereof "PART L".

(c) Part L, as so redesignated, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3799) is amended by redesignating section 1301 as section 1201.

(d) Part L, as so redesignated, of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3797) is amended by adding at the end thereof the following new section:

"TITLE TO PERSONAL PROPERTY

"SEC. 1202. Notwithstanding any other provision of law, title to all expendable and nonexpendable personal property purchased with funds made available under this title shall vest in the criminal justice agency or nonprofit organization that purchased the property if it certifies to the appropriate State criminal justice council, or its successor agency, that it will use the property for criminal justice purposes. If such certification is not made, title to the property shall vest in the State criminal justice council, or its successor agency, which shall seek to have it used for criminal justice purposes elsewhere in the State prior to using it or disposing of it in any other manner.".

EMERGENCY FEDERAL LAW ENFORCEMENT ASSISTANCE

SEC. 16. Title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3771-3775) is amended by adding at the end thereof the following new part:

"PART M—EMERGENCY FEDERAL LAW ENFORCEMENT ASSISTANCE

"APPLICATION

"SEC. 1301. (a) In the event that a crime problem of serious and epidemic proportions exists throughout a State or locality, a State (on behalf of itself or another appropriate unit of government) may submit an application under this section for Federal financial assistance.

"(b) An application for assistance under this section shall be submitted in writing by the chief executive officer of a State to the Director, in a form prescribed by rules issued by the Director. The Director shall, after consultation with the Board of Justice Assistance, and appropriate members of the Federal law enforcement community, approve or disapprove such application. Funds provided under this subsection will be in accordance with selection criteria as established by the Office of Justice Assistance.

"(c) Federal financial assistance may be provided if such assistance is necessary to provide an adequate response to a crime problem described in subsection (a). In determining whether to approve or disapprove an application for assistance under this section, the Director shall consider—

"(1) the nature and extent of the crime problem throughout a State or in any locality,

"(2) the emergency or extraordinary circumstances which produced the problem,

"(3) the availability of State and local resources to resolve the problem,

"(4) the need to avoid unnecessary Federal involvement and intervention in matters primarily of State and local concern, and

"(5) any assistance which the State or other appropriate unit of government has received, or could receive, under any provision of this title.

"DEFINITIONS

"SEC. 1302. For purposes of this part—

"(1) the term 'Federal financial assistance' means funds to provide equipment, training, and personnel,

"(2) the term 'Federal law enforcement community' means the heads of the following departments or agencies:

"(A) the Federal Bureau of Investigation,

"(B) the Drug Enforcement Administration,

"(C) the Criminal Division of the Department of Justice,

"(D) the Internal Revenue Service,

"(E) the Customs Service,

"(F) the Immigration and Naturalization Service,

"(G) the United States Marshals Service,

"(H) the National Park Service,

"(I) the United States Postal Service,

"(J) the Secret Service,

"(K) the Coast Guard,

"(L) the Bureau of Alcohol, Tobacco, and Firearms, and

"(M) other Federal agencies with specific statutory authority to investigate violations of Federal criminal laws, and

"(3) the term 'State' means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, or the Commonwealth of the Northern Mariana Islands.

"LIMITATION ON AUTHORITY

"SEC. 1303. (a) Nothing in this part shall be construed to authorize the Director or the Federal law enforcement community to exercise any direction, supervision, or control over any police force or other criminal justice agency of an applicant for Federal financial assistance.

"(b) No funds provided under this part may be used to supplant State or local funds that would otherwise be made available for such purposes.

"(c) Nothing in this part shall be construed to limit any authority to provide emergency assistance otherwise provided by law.

"REPORT TO CONGRESS

"SEC. 1304. Not later than April 1 of each year, the Director shall submit to the President and the Congress a report describing emergency Federal financial assistance provided under this part during the calendar year preceding the date such report is made.

"ISSUANCE OF RULES

"SEC. 1305. The Director, after consultation with the Justice Assistance Board, appropriate members of the Federal law enforcement community, and with State and local officials, shall issue rules to carry out this part.".

TABLE OF CONTENTS

SEC. 17. The table of contents of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3771-3799) is amended—

(1) by amending the item relating to part A to read as follows:

"PART A—OFFICE OF JUSTICE ASSISTANCE";

(2) by amending the item relating to section 103 to read as follows:

"Sec. 103. Establishment of a Justice Assistance Board.";

and

(3) by amending the items relating to parts D, E, F, G, H, I, J, K, L, and M, to read as follows:

REFERENCES IN OTHER LAWS

SEC. 18. (a) Any reference to the Law Enforcement Assistance Administration, or to the Administrator of the Law Enforcement Assistance Administration, in any law other than this Act and the Omnibus Crime Control and Safe Streets Act of 1968, applicable to activities, functions, powers, and duties that after the date of the enactment of this Act are carried out by the Office of Justice Assistance shall be deemed to be a reference to the Office of Justice Assistance, or to the Director of the Office of Justice Assistance, as the case may be.

(b) Any reference to the Office of Justice Assistance, Research, and Statistics, or to the Director of the Office of Justice Assistance, Research, and Statistics, in any law other than this Act and the Omnibus Crime Control and Safe Streets Act of 1968, applicable to activities, functions, powers, and duties that after the date of the enactment of this Act are carried out by the Bureau of Justice Statistics, the National Institute of Justice, or the Office of Juvenile Justice Delinquency Prevention shall be deemed to be a reference to the Bureau of Justice Statistics, National Institute of Justice, or Office of Juvenile Justice Delinquency Prevention, or to the Director of the Bureau of Justice Statistics, the Director of the National Institute of Justice, or the Administrator of the Office of Juvenile Justice and Delinquency Prevention, as the case may be.

TECHNICAL AMENDMENTS TO OTHER LAWS

SEC. 19. (a) Section 5314 of title 5, United States Code is amended by striking out "Director, Office of Justice Assistance, Research, and Statistics.".

(b) Section 5315 of title 5, United States Code, is amended—

(1) by striking out "Administrator of Law Enforcement Assistance.", and

(2) by adding at the end thereof the following new item:

"Director, Office of Justice Assistance.".

(c) Section 1761(c) of title 18, United States Code, is amended by striking out "Administrator of the Law Enforcement Assistance Administration" and inserting in lieu thereof "Director of the Office of Justice Assistance".

EFFECTIVE DATE

SEC. 20. This Act shall take effect on October 1, 1982.

The amendments were agreed to.

The bill was ordered to be engrossed for a third reading, read the third time, and passed.

Mr. THURMOND addressed the Chair.

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. THURMOND. Mr. President, as the chairman of the Judiciary Committee, I wish to hereby appoint the distinguished Senator from Pennsylvania (Mr. SPECTER) as the manager of this bill on the floor.

Mr. SPECTER addressed the Chair.

The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. Mr. President, I thank the distinguished chairman of the Committee on the Judiciary for appointing me manager. I thank the majority leader for arranging consideration of this bill during a very busy calendar.

This legislative matter, I suggest, is of very substantial importance and worth the time of the Senate during this special session because it will continue a very important aspect of criminal law enforcement in this country developed under the Law Enforcement Assistance Administration.

We have fashioned a more restrictive program which will retain the most important aspects of the former Law Enforcement Assistance Administration under the new Justice Assistance Act. Those include programs dealing with career criminals, with the prosecution management program, with sting operations, and with antiarson proposals among others.

This I suggest, Mr. President, will be a significant step forward toward important legislation to assist State and local law enforcement in our battle against crime. I am particularly gratified to report to my Senate colleagues that a series of meetings and discussions with the administration has culminated in administration support for a comprehensive program of Federal justice assistance, research, and statistics. Through enactment of this measure we will fulfill several recommendations of the Attorney General's Task Force on Violent Crime, including most particularly those calling for Federal assistance to aid in the establishment of programs of proven effectiveness in combating crime in all parts of our country and renewed Federal assistance to develop promising and innovative approaches to fighting crime. These efforts, along with the establishment of a Federal capability to assist States and localities faced with a criminal justice emergency can all be provided for as part of a realistic and comprehensive Federal contribution to stemming the tide of serious and violent crime in this country. Moreover, they will be accomplished without shortchanging the ongoing and equally essential Federal efforts in justice research, statistics, and juvenile justice. Accordingly, we can anticipate without delay a request from the administration for a budget amendment to increase resources within the "justice function" (function 750) by $100 million and a complementary administration request for $100 million in new budget authority to fund these new justice assistance programs in this and subsequent years.

When the Justice Assistance Act of 1982, S. 2411 was introduced on April 21 of this year, along with the distinguished Senator from Delaware (Mr. BIDEN) and the distinguished Senator from Alabama (Mr. HEFLIN), I spoke about the national crime problem and the Federal Government's appropriate role in assisting State and local law enforcement efforts. I am gratified by the prompt and favorable action taken on S. 2411 by the Subcommittees on Criminal Law and Juvenile Justice and by the Committee on the Judiciary.

I thank the distinguished chairman of our committee, Chairman THURMOND, for his assistance in expediting this matter and bringing it to the floor today.

I am also pleased that the distinguished Senator from Maryland (Mr. MATHIAS) and the distinguished Senator from Massachusetts (Mr. KENNEDY) have seen fit to join as cosponsors of this important legislation.

Further, I pay tribute to Congressman WILLIAM HUGHES of New Jersey who has offered similar legislation which has passed the House of Representatives and who has been of enormous assistance, as has the chairman of the House Committee on the Judiciary, Chairman RODINO, in moving forward with the negotiations with the administration which has brought us to the point today where, I think it is safe to say, this legislation can be enacted and will ultimately be signed and be implemented for the important purposes that I have already outlined.

Violent crime is a grave threat to the safety of all Americans. I know that my colleagues in this body share my concern that the Federal Government do all that it can to help combat serious and violent crime in this country and minimize its impact on the law-abiding citizens of our land.

A violent crime—murder, rape, robbery or aggravated assault—was reported in 1981 every 24 seconds. Over the last 5 years, violent crime reports have been rising on an average of 5 percent per year. Since a great deal of crime is never reported, even these startling statistics underestimate the true extent of the crime problem. A 5-percent rate for inflation represents a welcome change for most Americans, a 5-percent interest rate would elicit celebration and stimulation in large segments of our economy, but a 5-percent annual increase in violent crime is intolerable. Violent crime poses a threat to our very way of life.

As we are so often reminded, most crime violates State and local statutes and represents matters for local concern. But while public safety is and must remain primarily the responsibility of local authorities, we can insure that the Federal Government does the most that it can to assist in a coordinated effort against crime at all levels.

The Justice Assistance Act of 1982, S. 2411, gives us the opportunity to increase the Federal Government's contribution to the Nation's law enforcement efforts. Through it we can establish a framework by which the Federal Government will be able to provide the seed money and technical assistance so desperately needed by local authorities to implement anticrime programs that have been proven effective. Career criminal programs, "sting" antifencing operations and arson control programs can effectively combat the threat of crime. The prosecutors' management information system (PROMIS), the integrated criminal apprehension program (ICAP), law enforcement training and court modernization have all been shown to be effective management initiatives that can make a difference to our justice systems. Juvenile restitution and new pride programs and opportunities for the treatment as well as the punishment of drug and alcohol abusers have all been shown to rehabilitate offenders and prevent the destructive cycle of recidivism. Witness assistance and information programs, rape and sexual assault centers and other victim assistance programs lessen the enormous suffering of the innocent victims and bystanders and strengthen their resolve to come forward to join with law enforcement authorities in jailing violent criminals.

These programs work. They and others have been demonstrated to be effective and are now part of arsenals in many localities that were the beneficiaries of early federally subsidized demonstration efforts. Still, upward of 95 percent of localities that could benefit from these programs continue to go without them. The police know about them and the prosecutors understand their worth, but in order to initiate and institutionalize such programs in a local jurisdiction it often

takes a trial period to alert local governmental authorities to their value and create public awareness and demand for continuing local efforts.

The Justice Assistance Act will fulfill the recommendations of the Attorney General's Violent Crime Task Force by providing resources to implement programs of proven effectiveness at the local level and by awarding Federal grants limited to reasonable periods that require both local match and a commitment to continue the program. The national priority implementation and replication program established in a new part D of the act will allow States, units of local government, nonprofit organizations and community-based groups to receive Federal assistance in order to establish programs of proven effectiveness through 1-, 2-, 3-, or 4-year grants. A local match of approximately 50 percent will be required. In the multiyear grants, local institutionalization of the program will be encouraged by increasing the non-Federal contribution to the program over the life of the Federal grant. The programs and projects to be funded are those that address critical problems of violent and serious crime and that are certified by the new Office of Justice Assistance to have been demonstrated effective. In reaching this judgment the office will be aided by the evaluation of the National Institute of Justice and by a citizen advisory board.

In addition, the act fulfills another key task force recommendation by providing special authority to aid State and local governments suffering criminal justice emergencies of overwhelming proportions. The Federal Government must have authority in place and resources at the ready so as not to lose precious time responding in compelling circumstances. The recent wave of child murders in Atlanta; the drug, immigration and crime problems of south Florida are the types of problems that are simply beyond the resources of local and State government. In part M of the act we establish an emergency Federal law enforcement assistance authority to allow the Federal Government to serve as a source of financial assistance of last resort when the Governor of a State requests criminal justice emergency assistance and after consultation with the Federal agencies that make up the Federal law enforcement community. In this, as in all other aspects of the act, we clearly limit the Federal authority in order to prohibit any hint that Federal authorities might gain control over local police forces or other local criminal justice agencies. We all hope that the authority provided by the act for emergency assistance will not be needed, but we cannot afford to await the breakdown of a local criminal justice system following a prison riot or other domestic emergency before we take action.

This act also strengthens our response to several other recommendations of the task force that encouraged Federal training and support programs to be provided to State and local law enforcement agents. Recommendations 10, 11, 44, 45, and 46 were each concerned with providing increased opportunities for Federal training and technical assistance to local law enforcement. This act will provide an additional fund to strengthen our Federal efforts in this regard, both in part F of the act and in the educational and training activities under parts D and E.

Finally, the act will allow the Federal Government to fulfill what is unquestionably its strongest role in assisting local law enforcement by funding the development of new and innovative approaches to fighting crime and providing the research and statistical resources necessary to developing and testing such approaches. The act establishes a new fund and reauthorizes the National Institute of Justice and Bureau of Justice Statistics to undertake these activities. In so doing we fulfill other task force recommendations, which are concerned with these efforts and the collection and analysis of justice information. In light of the inextricable limitations and conflicting demands on State and local resources, we cannot simply rely on them to finance the development, testing and evaluation of new anticrime proposals. Research and development are too costly and too uncertain to be undertaken to any significant extent by a single State or local jurisdiction. On this point the members of the Attorney General's Task Force were in unanimous agreement that:

(T)he Federal Government has a unique responsibility to conduct research on criminal justice issues, to develop creative programs based on research findings, to test and evaluate these programs rigorously, and to demonstrate them in several jurisdictions with varying characteristics to be sure that the programs would be successful if implemented in other jurisdictions.

Having outlined what the act does, let me briefly suggest what it does not do. It does not create a wasteful or bloated bureaucratic structure nor provide enormous funding that can be squandered on fictional hardware, or illusory initiatives. This proposal realizes every economy in our effort to maximize the effectiveness of Federal participation in its proper assistance role.

It does not encroach on the prerogatives of local law enforcement but rather expressly guarantees the sovereignty of State and local law enforcement and explicitly limits the Federal authority involved.

It does not affect the Office of Juvenile Justice and Delinquency Prevention. After careful consideration we have concluded that the special problems of juvenile delinquency are best confronted by a separate and coordinated office. The Juvenile Justice and Delinquency Prevention Act, recently reauthorized through 1984, provides a sound framework for such activities and should be retained. It is my clear understanding from assurances I have received from the administration that the funding of criminal justice assistance activities will not be diverted from the highly successful juvenile justice program. The additional budget authority provided for the Office of Justice Assistance programs—those responding to the task force's recommendations for seed money for programs of proven effectiveness, training, the testing of new crime-fighting initiatives and emergency assistance—will be provided through new budget authority and additional funding in order to increase our efforts in these regards.

In closing I again reiterate my appreciation for the leadership and involvement of the distinguished chairman of the Committee on the Judiciary in this important project. Without his personal attention to this matter and dedication to fighting crime and protecting the public's safety we would not be considering this matter today. I commend him and thank both him and his staff, his Chief Counsel Vinton D. Lide and General Counsel D. Eric Hultman for their fairness and assistance.

Mr. BIDEN. Mr. President, I am very glad to see that the Senate leadership recognizes the need for prompt consideration of the Justice Assistance Act of 1982. It was my feeling when Senator THURMOND and I drafted the major crime legislation for this session, S. 2572, that the Senate passed just before the elections, that a Federal crime package would be incomplete if it ignored the depleted assistance so vitally needed by State and local criminal justice agencies. As I have stated on the Senate floor in the past, the time has come to stop the rhetoric on the crime issue and truly implement a program that will assist criminal justice agencies. With the passage of the major crime package we debated in September and now moving to the consideration of the Justice Assistance Act of 1982, I believe the Senate, for the first time during this Congress, has taken positive action on the crime issue.

Since Senator SPECTER and I first introduced this bill in April 1982, we have worked in a bipartisan manner. It was clear to me in the drafting of this bill that it represented a limited Federal assistance program that would focus on successful concepts and would allow for research and development of new crime-fighting ideas. This was the same concept used in S. 1455,

the National Security and Violent Crime Control Act of 1981 that I offered as chairman of the Democratic Task Force on Crime, and which was endorsed by all the Senators on this side of the aisle. With the passage of this assistance bill and the crime package we acted on in September, all of the major issues endorsed by the Democratic Task Force on Crime will have cleared the Senate in the 97th Congress.

I commend Senator SPECTER for his persistence on moving this legislation forward. There have been very few occasions during this session of Congress when the administration has so dramatically changed from opposition to support of a bill. Clearly, the need to spend money for crime issues should never have been subjected to the whims of the Office of Management and Budget. The dollars included in this authorizing bill are a small token of what actually is needed to do the job. I commend both Senators SPECTER and THURMOND in their apparently successful effort in changing the administration opposition to both this bill and the House bill sponsored by Congressman HUGHES that overwhelmingly passed in the House last February.

NEED FOR THIS PROGRAM

This Nation's crime and drug problem is having a devastating impact on our society and points to a decaying of our social fabric that requires a full commitment by all citizens. Mr. President, just listen to these statistics:

Three in every ten households in America were affected by crimes involving theft or violence last year.

U.S. families are more prone to have a member attacked in a serious violent crime than to have a residential fire or have a family injured in an automobile accident.

Harris and Gallup polls show people believe crime is worse in their neighborhoods with 68 percent saying crime is on the upswing. In 1978, only 48 percent of the people responded in the affirmative to that question.

In another Harris poll, 48 percent of the people feel personally unsafe on the street compared to 40 percent in 1978.

Property lost or damaged annually amounts to more than $8 billion due to burglaries and robberies.

Seventy-five percent of money and property taken by robbers and burglars is never recovered.

Ninety percent of all robberies (548,000 in 1980) result in some form of physical injury.

Burglaries are now occurring at a rate that will affect 1 in 14 homes each year. This results in an invasion of personal privacy that psychologically is often more damaging than the financial loss.

Mr. President, I could go on with these crime statistics but as you know, there is no way to express in words the suffering and fear to victims, family members, and friends, that is represented in each one of those numbers.

We, in this Chamber, have discussed the need for a $253 billion defense authorization budget in fiscal year 1983. The estimated annual expenditure for the entire criminal justice system; Federal, State, and local government only is around $31 billion. That is for everything: Police, judges, probation officer, prosecutors, sheriffs, et cetera. I can certainly support efforts for a strong national defense but what about the domestic threat we all face every day in this country because of crime? We have to make the fight against crime and drugs a higher priority at all levels of government.

Now, this bill, S. 2411, is a good step at the Federal level to again provide Federal assistance to State and local agencies for programs that have proven to be successful.

The Justice Assistance Act of 1982 has been developed with the fullest intention that law enforcement and the operation of criminal justice systems are primarily a State and local responsibility. Ninety-four percent of all violent crimes occur within the local or State criminal law jurisdiction and the Federal Government should avoid possible infringement on the State and local law enforcement responsibilities. Sheer economic limitations preclude the Federal Government from offering assistance funds that would be used to subsidize local or State criminal justice programs.

Too often in the past, under the old LEAA program, assistance money was used to purchase equipment or pay salaries without requiring the States to pay their fair share in matching funds. Also, the former program resembled a scattershot approach with dollars being spread so thin that achievement of success was difficult to measure.

Instead, this bill would take into account the lessons learned from the old LEAA program. Using a modest annual investment of $125 million, this program would enable State and local governments to make criminal justice improvements by implementing effective program approaches in criminal justice operations.

PROGRAMS OF PROVEN EFFECTIVENESS

One of the features of this bill will be funding for programs of proven effectiveness such as: Career criminal prosecution; integrated criminal apprehension program (ICAP); sting; treatment alternatives to street crime (TASC); victim-witness assistance; arson prevention and control; prosecutor's management information system (Promis); violent juvenile offenders program (New Pride); and comprehensive crime prevention, et cetera. We further intend that this program link research and program operation by having the National Institute of Justice be responsible for testing, evaluating, and recommending adjustments in the types of programs to be funded. This will be done with the practitioners' needs in mind. This type of evaluation will be geared to the realities of the day-to-day operations and political constraints that make up the "real world" of police officers and prosecutors. These reports are to be useful documents, not scientific manuscripts which often collect dust on bookshelves. It is our intent that this program be streamlined administratively and avoid a return to previous LEAA mistakes when limited Federal dollars were often spent in an ineffective manner.

TRAINING AND TECHNICAL ASSISTANCE

One provision of this bill calls for the Federal Government to provide grants up to 100 percent of the cost of State and local jurisdiction that request specific training or technical assistance. The intent is to provide the requesting jurisdictions with written material, training workshops, direct onsite technical assistance so that new concepts and programs of proven effectiveness can be started. It will be the responsibility of the requesting jurisdiction to cover the operating and day-to-day costs of the program.

Training and technical assistance will also be available for management problems or specific concerns that may not necessarily entail the development of one of the concepts listed above.

Another program in the bill will be the emergency assistance funding program. When there occurs a crime problem of such a serious or epidemic proportion, such as the Atlanta child murders or the drug-related violence in south Florida, the prompt support by the Federal Government to local and State agencies should be available.

We have carefully written this language to insure that the Federal Government does not needlessly intervene in matters of State and local concern. This program will only be implemented for crime emergencies or extraordinary circumstances and when State and local resources are not geared to expeditiously resolve the problem. In all situations in which these funds are used, primary responsibility for responding to the situation rests with the local or State jurisdiction. These funds are to be used to help coordinate and expedite resolution of crime problems, following the request for assistance by the local jurisdiction.

This proposal represents a very modest authorization of $125 million a year. It is a far cry from the billion-a-year investment that was going into Federal criminal justice assistance only a few years ago. It is important that assistance funds be made available to States and cities, but in a

streamlined and efficient manner. This bill is intended to do just that.

It is clear that those directly involved working in our local and State criminal justice agencies recognize that the Federal Government can play a role in assisting State and local law enforcement. The President's own task force on violent crime recommended in August 1981 that funds be available for implementing demonstration programs of proven effectiveness that require a reasonable match of State and local funds.

Several weeks ago, I spoke to the International Association of Chiefs of Police, and they voiced strong support for this bill. Also, I have received a great deal of mail from many Americans in support of congressional efforts to allocate more money on fighting crime and to block attempts to cut Federal budgets of those agencies most involved in attacking crime and drug problems.

I would hope that my colleagues in Congress and the President have been receiving similar comments from constituents across the country.

Finally, Mr. President, late this summer, Senator THURMOND and I sent out over 12,000 questionnaires to criminal justice professionals across the country asking for their opinions on pending crime legislation. The responses to the questionnaire have been extraordinary with over 4,000 filled-out questionnaires returned so far. Question 3 of the questionnaire read as follows:

> Federal assistance to State and local criminal justice agencies is necessary if we are to find new successful crime-fighting and crime-prevention techniques?

Eight percent responded favorably to this question. This further documents that those patrolling our city streets, prosecuting arrested defendants, and working in our jails and prisons, realize that technical assistance and training is a means to bettering our criminal justice system.

I ask my colleagues to join with Senator SPECTER and myself in passage of the Justice Assistance Act of 1982.

Mr. THURMOND. Mr. President, will the Senator yield me 2½ minutes?

Mr. SPECTER. I am delighted to yield 2½ minutes to the distinguished Senator from South Carolina.

Mr. THURMOND. Mr. President, I rise in support of S. 2411, the Justice Assistance Act of 1982.

This bill, sponsored by the able Senator from Pennsylvania, Mr. SPECTER, is an appropriate and needed response to the crime problem in America. It would authorize $100 million to be used by State and local governments for proven, effective criminal justice programs. It also authorizes $10 million for emergency assistance for such things as the Atlanta child killings, political conventions, and other law enforcement situations where local law enforcement is unable to respond effectively.

This bill is not a revival of the Law Enforcement Assistance Administration as most Senators recall that program. Instead, it is a streamlined, targeted program providing Federal funds for crime-fighting efforts which have in the past proved to be sound, successful, and effective. Administrative assistance is not provided for, thus State and local governments must exhibit a willingness to administer these programs efficiently and effectively.

Mr. President, one of the primary features of the legislation is the organizational restructuring of the present criminal justice assistance components. S. 2411 consolidates the new Office of Justice Assistance, the National Institute of Justice, the Bureau of Justice Statistics, and the Office of Juvenile Justice and Delinquency Prevention under the general policy, control, and direction of an Assistant Attorney General in the Department of Justice. Although the Juvenile Justice program will remain under its separate authorization statute, it will share the administrative and support services with the other agencies.

Mr. President, this is simply an authorization program. Any funds will have to be appropriated next year by the appropriations committees of the Congress.

The administration has indicated its support for this measure and the funding levels authorized by the bill. It is a 4-year program and will be administered under the direction of an Assistant Attorney General in the Department of Justice.

I urge my colleagues to support it.

Mr. President, I might say that considerable work has been done on this bill. There have been conferences held in the White House by White House officials, the Department of Justice, Senator SPECTER, Congressman HUGHES, myself, and others, and we all feel that this bill has been unanimously agreed to now, and we come forth in the Chamber here hoping that we can get this measure passed by the Senate at this time, send it to the House of Representatives, and we hope the House of Representatives will see fit to act on this measure during their short session.

I wish to thank the Senator from Pennsylvania.

Mr. MATHIAS. Mr. President, the topic of violent crime has been on the agenda of the 97th Congress from the very beginning. Talk about crime has filled the air of this Chamber. It has filled the pages of the CONGRESSIONAL RECORD. Anticrime messages have been transmitted and received. Anticrime packages have been assembled, revamped, and disassembled. Anticrime initiatives have been launched, and have run aground. Amidst all this sound and fury, nothing which the Senate has done during this Congress will make a bigger practical contribution to the fight against crime than what it is about to do. The passage of S. 2411, the Justice Assistance Act of 1982, will be one of the most important events of this Congress for the State and local law enforcement, civic, community, and other organizations which are on the front line in the battle to combat the increase in violent crime in America.

The most recent available evidence of the scope of the problem comes from the Bureau of Justice Statistics. Its criminal victimization survey for 1981 tells us that last year crime touched 25 million American households, nearly one in three. It tells us that more of those households had a member robbed than had a member stricken by heart disease or cancer.

S. 2411 is an important step in the direction of providing our States and local communities with the resources which they most need in confronting these appalling facts. Better law enforcement training, funding for promising pilot projects, assistance in duplicating the success of innovative anticrime initiatives—these will be the primary products of the Office of Justice Assistance created by this legislation. These are the tools which can help build effective anticrime programs in more and more communities across this land.

The progress of this legislation has been fitful. Most knowledgeable people have long agreed that it was needed; but many skeptics doubted that it would make it to the Senate floor during the 97th Congress. These skeptics underestimated the prime movers behind this legislation, particularly the junior Senator from Pennsylvania. The persistence, the energy, the creativity, and the flexibility of Senator SPECTER and his staff are the main reasons why the Senate is today considering S. 2411. I am confident that these same attributes will help bring about a speedy and successful conference with the House and the prompt enactment into law of the Justice Assistance Act of 1982.

Mr. EAST. Mr. President, I wish to speak to this question of S. 2411.

I think the thing that most commends one's attention to this measure is the fact that the distinguished junior Senator from Pennsylvania supports it. Beyond that point my enthusiasm for it wanes.

I have the greatest admiration for him, having come into the Senate at the same time he did and knowing of his great work not only here in the Senate but his very distinguished record, I might note, in the State of Pennsylvania as a leader and fighter against crime.

So one does not casually rise to question the good judgment of a man with

such a distinguished record not only in the Senate but also in the State he represents and one could only commend the good people of Pennsylvania for their wisdom in picking Senators.

My concern focuses upon the substance of this legislation for one thing and, second, upon the process by which it is now before this body.

I suppose all Senators are quick to concede that in the tail end of sessions we are often asked to approve measures that we know little or nothing about except that statements are entered into the record and, we are told, they will serve noble causes and worthy ends and they only cost $100 million here and $100 million there, and so life moves on.

Here today, already in the very brief time we have been speaking to this matter, we have heard this bill will fight crime which, of course, naturally means one would automatically be for it regardless of whether one had examined it or not.

Second, we have heard the adjective "innovative." Well, naturally one would always support innovative ideas to fight crime.

We are told this measure will only cost $100 million and, of course, in this day and age of trillion dollar debts, such an amount is hardly worth quibbling over.

The very distinguished Senator from South Carolina, who is chairman of the Judiciary Committee, reports that he and several Members of the House of Representatives consulted with the White House and the Justice Department about this measure and that they all think it is a good idea.

I suppose one might then ask me, "Why, Senator, what is your concern?"

My concern is the Senate has not had hearings on the measure, and the Senate in terms of the individual Members of this Senate have not the slightest idea what they are doing.

We have not had a hearing on this bill, and we have not had any extended deliberation on it.

In fact during the period just prior to our last recess, a frantic effort was made to press it through in a matter of just minutes at the tail end of the session. I resisted the attempt to pass the bill in this fashion and I thought properly so because at some point, if what is called the greatest deliberative body in the world does not deliberate or know what it is doing, then I think we should take the title from ourselves and give it to someone else.

If there is one fundamental attribute of democratic representative government, it is that supposedly this body and the House of Representatives do deliberate matters and that they have some idea as to what they are doing. On this particular measure, candidly, they do not.

They do not know what they are doing because they have had no hearings on this particular bill. There simply has been no extensive deliberation on it.

Let me proceed, Mr. President. The old LEAA bill of 1968 is generally considered—and I suspect the distinguished Senator from Pennsylvania would so concede—to have been a failure. Here is what the former Attorney General, Griffin Bell of Georgia of the Carter administration, said about the old LEAA program. He said that, "It was essentially unmanageable, inefficient and ineffective," and that "an incredible amount of LEAA money had disappeared into overhead and bureaucratic processing."

That is what the former Attorney General said. The general consensus then was that the old LEAA program that first began all this back in 1968 was a failure. It did great violence to notions of federalism; it was expensive; it was bureaucratic, although of course, as always, it was to do noble things in the name of fighting crime and was only to cost $1 million here and $1 million there. We all know that familiar refrain.

Then what happened? We came along, as we often do in this, with the so-called Justice System Improvement Act of 1979, not too long ago, mind you. Oh, boy. Now this one was designed to try to correct the deficiencies in the old LEAA which, it was generally conceded, was an extensive and massive failure.

I would like to note we have had no opportunity to evaluate the effectiveness of the changes that were made under this reform bill. We had no time to evaluate them. Why? First, the time factor. Then, second, the Carter administration—wisely so, as Griffin Bell has already indicated—did not provide the money to continue funding and implementing programs under the bill. That really is the legislative background and history on this thing.

A few little changes have been made in S. 2411. The distinguished Senator from Pennsylvania might say some very substantive changes have been made. But, candidly, until you really deliberate on the bill itself and examine it thoroughly, you run a high risk, in an age supposedly with a need for budgetary restraint, of simply putting old wine in a new bottle and we come back again to drinking out of the Federal budget and out of a well that is dry, dry, dry.

But again, we hear it is only $100 million and, in the name of fighting crime and being innovative and creative and all the usual adjectives, it is a small price to pay.

I simply ask in the short time I have whether, as a matter of the integrity of the deliberative process, this is our finest hour. Are we taking a piece of legislation which nobody knows much about and whose history is a negative one, and simply breathing new life into it by $100 million of funding?

What is my guess as to what will happen with this bill? My guess is the Senate will pass it and pass it overwhelmingly. The House has touched on it, has passed it. It will probably go to conference and the American people will be sent a bill for $100 million on a program that in the private sector could not pass muster.

There it would be sent back for thorough and exhaustive deliberation and testing to make sure it deserves to be resurrected.

So you have, if I might put it this way, Mr. President, a somewhat typical house of cards. You start with what was generally conceded to be a bad bill, the 1968 version; supposedly you reform it in 1979, yet you do not fund it, and because you do not fund it, you never learn whether it would have worked or not. Then a few years later you simply make additional so-called changes and modifications, pump in another $100 million and say, "Now things are all right. We are back to fighting crime."

One problem we certainly do face in this country today is crime. As a result you can get anything, I suppose, in terms of Federal funding if you do it in the name of fighting crime. But that ought not to be. Probably what we really need to do in the United States today is to continue to put that responsibility upon State and local governments. We ought to direct our energies and our attention there. Let them bear the burden, let them bear the responsibility.

We come to a fundamental question here: Are we not returning to business as usual, passing more Federal law, offering more Federal funding, all of it, of course done in the name of a worthy cause, to wit, fighting crime?

If we had had the opportunity for extensive hearings on this particular measure and to have extensive deliberation we might well decide that it was worth proceeding with. But I do not feel we have done that, and I was deeply concerned that in the last period before our recess when there was an attempt to move this thing through in a matter of just minutes—on the last day and evening in fact; that was just a bit too much. I could not accept that, not because I did not have the greatest admiration for the junior Senator from Pennsylvania. I have already indicated that I do because I have seen too much of his fine labor.

The quarrel is not with the Senator, and it might not even ultimately be with the legislation, although at this point, I have profound reservations about it, but it has to do with the small amount of time devoted to con-

sidering it. Hearings, none; deliberation, none.

I remember that earlier this fall, and again with all due respect to the very distinguished junior Senator from Pennsylvania, the career criminal bill went through. That one sounded good. I was the only one in the Senate to vote against it. The Baltimore paper ran an editorial commending me. Why? Because they went ahead and read the thing and, lo and behold, they did not think it was so good either.

What did the career criminal bill do? The career criminal bill essentially provided that if a person had committed three State crimes the third was automatically a Federal offense as well. I think that such a bill raises serious constitutional questions. Can you create a new Federal crime simply out of the fact that three crimes have been committed? You might increase the penalty for a third Federal offense. But to create a Federal crime out of the commission of State crimes—I think any serious student of the Constitution would question that approach. Though I yield to no one in my opposition to crime, I also think that the career criminal bill did some violence to the notions of federalism; there was to be too much power in Washington, and too little emphasis upon State and local responsibility.

Yes, I will admit I am yielding a little bit to the so-called New Federalism. But there are limits to what, frankly, the Federal Government can do, and at some point we need to take that general premise and make it stick. Let the States take the responsibility. Let local government take the responsibility. Let the family take the responsibility. Yes, even make the individual accept the responsibility.

We are always coming up with some sort of new program, untried, untested, no hearings, no deliberation, heavily funded, and we offer rhetoric to the effect, that the new program is innovative and that under it we will be fighting crime. It is almost impossible to resist that line of argument, I concede. No doubt this bill will go through, and with massive support. We have already had the distinguished Senator in here requesting that we stack votes on it. If not, we might have to sit around and study this measure, we might have to know what the amendments dealt with. Whoever heard of such a thing, particularly late in the session, a lameduck session. But we have a bill fighting crime, and we have not the slightest idea what we are doing.

All I am trying to do—I did not filibuster this bill, I took the hold off it—is just to take a few minutes during this lameduck session, in its waning days and weeks and raise a little bit of a protest about this process of moving through legislation where people have no idea either as to what it will really do, or what its legislative history is.

To me it would not matter if this program would not cost $100 million, but that ups the ante. That is a right expensive bill. So I simply would hope, Mr. President, that now and in the future our colleagues, before they resort to this kind of thing, might spend a bit more time examining what we are doing—whether a measure would be a good law, whether the cost would be reasonable; whether it would be consistent with fundamental principles of American federalism and constitutionalism? I do not think that is asking too much, not in the greatest deliberative body in the world.

So it is in that spirit that I express my concern about this measure, Mr. President. I appreciate not only the cooperative spirit that the very distinguished Senator from Pennsylvania has shown in allowing us to put together a time agreement, but also the cooperation of the majority leader and, of course, of the distinguished minority leader in allowing us to air our concerns.

Allow me, Mr. President, if I might, to stop at this point. I would like to make a parliamentary inquiry. How much time do I have remaining of the 30 minutes, Mr. President?

The PRESIDING OFFICER. The Senator has 13 minutes remaining.

Mr. EAST. Thank you, Mr. President. I will cease at this point, reserve the remainder of my time, and allow the distinguished manager of this bill to proceed.

Mr. SPECTER. Mr. President, on a relatively brief basis, I shall respond to the contentions of the distinguished Senator from North Carolina.

When the assertion is made that there have not been hearings on this measure, I would refer the Senator from North Carolina to page 3 of the report which details the hearings both in the Senate and in the House. I would supplement that litany by saying that the Senate Subcommittee on Juvenile Justice, which I chair, held extensive hearings which took up issues raised by the Law Enforcement Assistance Administration and the necessity for aid to State and local governments and similar issues that are related to the specific provisions in the bill.

When the distinguished Senator from North Carolina refers to the procedural steps in challenging the deliberative process, he has raised generalizations which have substantial validity. But he has not dealt at all with any of the substantive programs that are encompassed within this legislation. He has not stated that the prosecutor's management information system, known as Promis, is an ineffectual approach or has been less than highly successful. And it was for that reason it was selected out of the batch of LEAA programs on an authorized activity under this bill.

The distinguished Senator from North Carolina has not questioned the efficacy of the victim-witness assistance program, which is the reason that it has been retained because of its demonstrated success. The distinguished Senator from North Carolina has not questioned the efficiency of the arson control assistance program, which has been used in many parts of the United States and is retained within this bill; nor has he questioned the efficacy of the undercover antifencing program, a sting operation, which has been retained because of its great success.

When the distinguished Senator from North Carolina speaks about this bill not passing muster in the private sector, I would suggest that is only a generalization that does not deal with what this bill seeks to accomplish. I speak not simply based on the experience which I had as an assistant district attorney, as a special assistant attorney general in the Commonwealth of Pennsylvania, and as district attorney of the city of Philadelphia for some 8 years, where we handled more than 30,000 cases a year with 45 criminal courtrooms in operation each day on the court of general criminal jurisdiction and some 2 courts of a municipal court jurisdiction and 8 juvenile courts in operation, where we were able to have detailed experience day in and day out with the assistance of the Federal funding.

My experience is not unique. Testimony has come from prosecuting attorneys from around the country who have been supportive of the carefully selected Federal program which we have put together and are raising today on the floor of the U.S. Senate. Indeed, a companion measure has passed the House overwhelmingly, sponsored by Congressman HUGHES who also has experience as a prosecuting attorney.

When the distinguished Senator from North Carolina refers to the career criminal bill, where he notes his was the sole dissenting vote with some 93 in favor of that bill, and then refers to an editorial in the Baltimore Sun, I must say that I read that editorial somewhat differently from the distinguished Senator from North Carolina if he reads it as a compliment to his position.

I think, on the contrary, the thrust of the Baltimore Sun editorial is in support of the innovative approach—and pardon me if I use that word but I think it is appropriate, because the bill does something which has not been undertaken before and that is it brings the Federal Government in to fight violent street crime in the United States. And it does so in a way which is based on solid jurisdictional prece-

dent, which has been upheld in the Federal courts, that holds under existing statutes that it is a Federal offense for someone to possess a firearm when that individual has been convicted of a State felony.

The career criminal bill uses that underpinning as a jurisdictional base to say that where someone has committed two or more robberies or burglaries and then commits a subsequent robbery or burglary with a firearm, that is a Federal offense. Certainly in the career criminal bill, where you have someone with a firearm having previously committed two or more robberies or burglaries, certainly there is a State felony conviction that comprehends the existing statute. And it is solidly based on court precedent to bring the Federal Government into this very important phase of law enforcement.

It will very much enhance the ability of State prosecutors to move their cases when the career criminals know that if they continue to dodge in the State court and continue to duck and do not enter pleas of guilty where there are solid cases against them that their cases may be taken up in the Federal court where they will face a mandatory minimum of 15 years in jail. That is a very solid program indeed on the merits, which I submit have not been addressed by the distinguished Senator from North Carolina.

When the distinguished Senator from North Carolina raised the objection, as he did, at the end of September that he wanted further time to consider this bill, as was his right, the matter was held over until this special session.

I do commend the distinguished Senator from North Carolina on his diligence and his interest. And I think that it is exemplary and appropriate that all of these matters be subjected to the utmost scrutiny which does make this the deliberative body which it is reputed to be. I think that his comments and his questions have spurred debate here as his comments and questions have spurred analysis overall.

As Chairman THURMOND has pointed out, this matter has been deliberated between Chairman THURMOND and others on the Senate Judiciary Committee and Congressman HUGHES and Counselor to the President, Edwin Meese, and has received very, very careful analysis. I might say, on the career criminal bill, that has been considered by the President himself, because I had occasion to meet at some length in a meeting of some 30 minutes with the President, last year, November of 1981, where he considered the career criminal bill and gave his unqualified endorsement to it.

So that I think that these matters have been subjected to appropriate analysis. I do thank the distinguished Senator from North Carolina for his contribution in bringing up these important considerations and issues.

Mr. BIDEN addressed the Chair.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. BIDEN. Mr. President, before the distinguished Senator from North Carolina came to the U.S. Senate, I should advise him that I was viewed as the strongest critic of LEAA of anyone in the Senate. As a matter of fact, Senator McClellan—a fine, powerful, but, unfortunately, deceased Senator from Arkansas—when he was here, he viewed himself as the father of this legislation and viewed me as an errant stepchild for daring to attack LEAA.

Much of what the Senator from North Carolina said about the particular piece of legislation that Senator SPECTER and I have cosponsored and brought to the floor here would have been extremely applicable 8 years ago to LEAA. It would have made sense. But what this bill is is a distillation of all the legitimate criticism of the LEAA program—the waste and misuse of money and lack of focus. That, in fact, is one of the reasons why the previous attempt to provide State and local government assistance in fighting crime was not as successful as I believe this will be.

This bill, notwithstanding the characterizations of the Senator from North Carolina, is a narrowly focused bill. What we have done is we have taken the best out of the past, those programs which have had and do have a long track record of success, and recognized the needs of State and local governments. State and local governments, unlike other instructions of the Federal Government, not only viewed this as important, but have pled with us for this assistance. They need it very badly.

The Senator from South Carolina, the chairman of the full committee, and I sent out a questionnaire to a number of criminal justice officials—as a matter of fact, 12,000 questionnaires—to criminal justice professionals across the country, asking their opinions about pending crime legislation that the Senator from South Carolina, Senator THURMOND, and I were able to pass through this body prior to our recess.

The response to the questionnaires was extraordinary. There were 4,000 people who have filled in this questionnaire so far. Question 3 of that questionnaire is as follows:

> Federal assistance to State and local criminal justice agencies is necessary if we are to find new successful crime fighting and crime prevention techniques. Do you agree or disagree?

Eighty percent said, "Right on, Senators." They did not quite put it that way. Eighty percent said, "Yes, that help is needed and needed badly." Ninety-four percent of the crime in this country falls within the jurisdiction of State and local law enforcement. They do need help.

An area where the Federal Government can play a stronger role deals with drug enforcement. The fact of the matter is that the drug problem in North Carolina is not a North Carolina drug problem. It is a worldwide drug problem, because most of those drugs came through New York, down across Pennsylvania and Delaware and into North Carolina, or up from Florida. North Carolinian officials have little impact on whether or not it can get through their State or get into their State. Once it is there, it is about five times as difficult to deal with as it is to prevent it from getting there in the first place.

Those so-called career criminals that we are talking about do not know State boundaries, they do not honor State borders. They have become very adept at forum shopping, if you will.

The fact of the matter is that the reason some of those heinous criminals who get arrested in North Carolina may sit at the bottom of the pile and be tried well after the drunk driver in North Carolina and may be out on bail in the meantime is that, prior to Federal help, the prosecutor of North Carolina did not know that that same fellow had raped three women in California, murdered somebody in Pennsylvania, and held up a bank in Delaware. He had no way of knowing that. All the prosecutor of North Carolina knows is he had him on a two-bit charge for larceny of a 1965 Chevy.

One more point. I admire the Senator's defense of the New Federalism and individual responsibility, but I am perplexed at the way he applies it on the floor. He talks about maybe it being about time the family took responsibility, the States took responsibility, and individuals took responsibility. I agree with him. I think it is about time the family would take responsibility for teaching kids how to pray instead of having the Federal Government teach kids how to pray. The Senator does not seem to see anything inconsistent in having the Federal Government pass a constitutional amendment that says, "Pray, brethren, pray, in your public schools." I am not saying that is bad. I am not passing a value judgment. It is a very individual responsibility.

What we are saying here, is, look, if you want to buy into this program we have figured out over the past 10 years the most effective ways to use it, we have identified programs that work, so you can buy in—if, in fact, you want to use it for these programs.

You do not have to. North Carolina does not need to take any of this. Nobody is going to force it down the throat of the Governor of North Caro-

lina or anybody else. The question is whether or not they want to participate in what all their police agencies want, unless I am mistaken. I do not know of any major police agency in North Carolina that does not think this is a good idea. I do not know of any small police agency in North Carolina that does not think this is a good idea.

What we are doing here, unfortunately, is something that is not very significant. Notwithstanding how much Senator SPECTER and I would like to see headlines in tomorrow's papers that say "Specter-Biden bill passes altering criminal justice system for the better," that is not going to happen. What this bill does do is take out what is good about Federal participation, it synthesizes it—to use a shopworn term here in Washington, D.C., it "prioritizes" it. It says, "Let the Federal Government help in a case where, A, there is a proven track record and, B, where the States themselves have a need but not the resources to develop these new programs."

That gets me into the second part and then I shall cease here.

The fact of the matter is that all we are saying in both of those sections in a general sense is why do we not get the best minds of the country working on programmatic approaches that we know deal with problems that every State has—recidivism in the State of North Carolina is just as serious a problem as it is in the State of Delaware. Juvenile delinquency and causes of it, backlog of court cases, how to streamline the system, and all the rest are equally difficult to deal with in one State as another. It seems to me one of the few appropriate roles for the Federal Government in the criminal justice system as it relates to States is dealing with what are acknowledged to be the problems that are the same in every State, from prison overcrowding to recidivism. We need to have a national focus.

It is not unlike the concept of the National Science Foundation. Nobody views that as an intrusion into the State of North Carolina or the State of Delaware. The best minds in the country get together and deal with problems that are national issues that have to be dealt with locally. When they find an answer, it is shared with the State and local governments, industries, et cetera.

It is not unlike the notion that we are trying to see to it that we focus so we do not waste our money on the problems that we know exist. The States have shown us that they exist. They have asked help in a monetary sense for dealing with these.

I remember the first speech I made on assistance to State and local governments. I was able to document the fact that one small town used their LEAA funds to buy riot control gear, the nightsticks and those clear plastic face masks as if they would be in the middle of a riot in downtown Washington, D.C., with a million peace marchers.

There was another town up in the Northeast that bought personnel tank carriers to see to it that they could get back and forth to the scene of the crime without being blown away by, I guss, an F-15 that had been commandeered by the Mafia or somebody.

There was another town where the police officers, in a town with several thousand people, decided they needed those Dick Tracy watches, one of those things they wore on their wrists where they could talk to each other. They thought that was great.

I think this is a fairly streamlined piece of legislation and though I seriously do acknowledge and respect the Senator's right to take issue with this bill, as he did the other bill to which he referred earlier, the career criminal bill—if he will remember, I agreed with him on the career criminal bill until we got some changes to make sure that the State could have the ultimate call on whether or not the Federal Government could decide to get involved in trying a person in Federal court.

I am really not sure he read this as thououghly as he should have, maybe, because there is nothing really wholly new in this. All we do is take the best of what we know has worked.

All we do is take the best of what we know has worked and make it available with, I might add, $100 million. This concerns the Senator; because it is a lot of money. What absolutely appalls me, with the crime rate the way it is, with the crying need of State and local governments and how badly they are strapped, is that we are spending so little money to help our police, we are spending so little money to deal with crime problems. For the entire criminal justice system in the United States of America, including the courts, if I am not mistaken, we expend approximately $32 billion, for it all, and yet we think nothing of authorizing $256 billion for defense. I think our defense is as much at peril from within from the criminal element as it is from the likelihood of us being invaded by the Soviet Union or any other hostile power.

That is not to suggest we should not be spending a lot of money on defense; we should, but I am suggesting that my one lament about this bill is that it is not enough. We should be doing so much more than we are doing now in terms of the overall crime problem. We should be spending so much more of our resources on dealing with the problem than we are now that we should almost in a sense apologize for how insignificant in the total scheme of things this is. What is significant about this is it has eliminated greatly the bad and waste that existed in the former program.

Unfortunately, I suppose anybody can waste money. You could not draw a program so tight that there was no possibility of wasting money. But we see to it under the bill that there are national priorities set out, that there are discretionary programs that certain funding under certain situations where there is a great potential for success—emergency assistance, training and technical assistance for the police operations in States, and an ability for us to put together national statistics and also bring together the best minds to deal with some of the problems that cross State borders.

I hope, when we get the amendments, our colleagues keep that in mind. I sincerely hope that this bill will in fact have the kind of support the Senator from North Carolina predicts it will.

This is not a matter that has been brought up lately. This issue has been debated, the notion has been debated. There have been hearings. When I was ranking member of the criminal law subcommittee, I held a couple days of hearings on this. The Senator from Pennsylvania, who is the prime mover on this matter in this Congress, held hearings. We have had an awful lot said and to say about this legislation.

I yield the floor.

Mr. SPECTER addressed the Chair.

The PRESIDING OFFICER (Mr. DURENBERGER). The Senator from Pennsylvania.

Mr. SPECTER. Mr. President, at this time I ask unanimous consent that the committee amendments be agreed to en bloc and that the bill as thus amended be treated as original text for purpose of further amendment.

Mr. BIDEN. I do not object.

The PRESIDING OFFICER. Is there objection?

Mr. EAST. Mr. President, I am sorry. I wanted to get clarification. On what was the Senator asking unanimous consent?

Mr. SPECTER. I was asking unanimous consent for approval of the committee amendments which have been printed.

Mr. EAST. Yes.

Mr. SPECTER. I do not believe those are controversial.

Mr. EAST. Yes. I have no objection.

The PRESIDING OFFICER. Is there any other objection?

The Chair hears none, and it is so ordered.

UP AMENDMENT NO. 1420

(Purpose: To make certain technical amendments)

Mr. SPECTER. Mr. President, I submit an amendment and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Pennsylvania (Mr. SPECTER) proposes an unprinted amendment numbered 1420.

Mr. SPECTER. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 14, line 6, strike out "(12)" and insert in lieu thereof "(11)".

On page 23, strike out beginning with line 23 through line 22 on page 25 and insert in lieu thereof the following:

"(1) identify and process within justice systems persons with a history of serious criminal conduct;

"(2) provide programs which address the problem of serious and violent offenses committed by juveniles;

"(3) combat arson;

"(4) disrupt illicit commerce in stolen goods and property;

"(5) effectively investigate and bring to trial white-collar crime, organized crime, public corruption crimes, and fraud against the Government;

"(6) provide community and neighborhood programs that enable citizens and police to undertake initiatives to prevent and control neighborhood crime;

"(7) provide programs to speed the trial of criminal cases, reform sentencing practices and procedures, improve the efficiency of the jury system, and improve the processing of cases involving the mentally incompetent and pleas of mental incapacity;

"(8) provide training, management, and technical assistance to justice personnel;

"(9) provide assistance for the development and operation of justice information systems, including management information systems;

"(10) coordinate the activities of components of the criminal justice system;

"(11) develop and implement programs which provide assistance (other than compensation) to jurors, witnesses, and victims of crime;

"(12) provide programs which address offenses committed against the elderly;

"(13) provide programs which identify and meet the needs of drug-dependent offenders;

"(14) provide alternatives to pretrial detention, jail, and prison for persons who pose no danger to the community; and

"(15) provide programs which alleviate prison and jail overcrowding".

On page 26, line 23, strike out the quotation marks and the second period.

On page 26, after line 23, add the following:

"(d) No more than 5 per centum of the total funds reserved and set aside for this part can be allocated within a State.".

On page 44, line 10, strike out the quotation marks and the second period.

On page 44, between lines 10 and 11, add the following:

"(h) There is authorized to be appropriated in each fiscal year such sums as may be necessary to carry out the purposes of part K.".

On page 45, line 9, strike out "(42 U.S.C. 3797-3797 (c))" and insert in lieu thereof "(42 U.S.C. 3796-3796 (c))".

On page 45, lines 13 and 14, strike out "(42 U.S.C. 3797-3797 (c))" and insert in lieu thereof "(42 U.S.C. 3796-3796 (c))".

On page 45, lines 17 and 18, strike out "(42 U.S.C. 3797-3797 (c))" and insert in lieu thereof "(42 U.S.C. 3796-3796 (c))".

On page 52, add after the item for section 601 the following:

"602. Training of prosecuting attorneys.
"603. Training State and local criminal justice personnel.
"604. FBI training of State and local criminal justice personnel.
"605. Criminal justice education program.".

Mr. SPECTER. Mr. President, this amendment accomplishes two improvements suggested by the distinguished Senator from Nevada (Mr. LAXALT) at the time the bill was pending before the Committee on the Judiciary. First, it reorders the list of national crime priorities identified in section 6 of the bill without modifying that list substantively.

I agree with the distinguished Senator from Nevada that those who administer this program should understand that it is our desire that they give priority to serious and repeat offenders of violent crime.

Second, the amendment establishes a cap on the amount recipients within any one State may receive annually from the categorical national priority implementation and replication program. It would institute programs of proven effectiveness in the war against crime. By this device we strengthen the assurances already contained in the bill that no one jurisdiction will benefit inequitably at the expense of those in other States and seek to assure the fair distribution of program funds throughout the Nation.

I thank the Senator from Nevada for these worthwhile suggestions. I move that these amendments be agreed to.

The PRESIDING OFFICER. Does the Senator yield back his time on this amendment?

Mr. SPECTER. On this amendment, I do yield back my time.

The PRESIDING OFFICER. All time having been yielded back, the question is on agreeing to the amendment.

The amendment (UP No. 1420) was agreed to.

Mr. SPECTER. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. BIDEN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UP AMENDMENT NO. 1421

(Purpose: To make certain technical amendments)

Mr. SPECTER. Mr. President, I now send to the desk a set of amendments suggested by the Department of Justice and ask for their immediate consideration en bloc.

The PRESIDING OFFICER. The amendments will be stated.

The bill clerk read as follows:

The Senator from Pennsylvania (Mr. SPECTER) proposes an unprinted amendment numbered 1421.

Mr. SPECTER. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On Page 6, line 3, after "general authority" insert "and policy direction".

On Page 6, line 4, after "Assistance" insert "(hereinafter referred to as the 'Office')".

On page 6, line 6, strike out "a Director" and insert in lieu thereof "an Assistant Attorney General for Justice Assistance (hereinafter referred to as the Assistant Attorney General)".

On page 6, line 8, strike out "a Director" and insert in lieu thereof "an Assistant Attorney General".

On page 6, line 11, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 6, line 12, strike out "Director" and insert in lieu thereof "Attorney General" and strike out "Directors" and insert in lieu thereof "Assistant Attorneys General".

On page 6, line 15, strike out "the Office of Justice Assistance" and insert in lieu thereof "this title".

On page 6, line 16, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 6, lines 17 and 18, strike out "by the Office of Justice Assistance" and insert in lieu thereof "under this title".

On page 6, line 23, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 7, line 22, strike out "part" and insert in lieu thereof "title".

On page 7, line 24, strike out "disasters" and insert in lieu thereof "emergencies".

On page 8, lines 2 and 3, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 8, lines 18 through 20, strike out "each from the National Institute of Justice Advisory Board, the Bureau of Justice Statistics Advisory Board, and" and insert in lieu thereof "from".

On page 10, lines 6 through 10, strike out "National Institute of Justice Advisory Board, two representatives to serve as nonvoting coordinating members on the Bureau of Justice Statistics Advisory Board, and two representatives to serve as nonvoting coordinating members on the".

On page 10, beginning at line 17, strike out through line 13 on page 11, and insert in lieu thereof the following:

"(1) recommend to the Assistant Attorney General such policies and program priorities as it deems advisable;

"(2) review and evaluate the activities carried out under this title and make such recommendations to the Assistant Attorney General as it considers necessary or appropriate;

"(3) review and evaluate Federal policies and priorities in justice assistance; and

"(4) coordinate its activities with the National Advisory Committee for Juvenile Justice and Delinquency Prevention, and the Coordinating Council on Juvenile Justice and Delinquency Prevention.".

On page 14, line 16, strike out "amended" and insert in lieu thereof "stricken.".

On page 14, beginning at line 17, strike out all through line 5 on page 16.

On page 18, line 13, strike out "amended" and insert in lieu thereof "stricken.".

On page 18, beginning on line 14, strike out all through line 21 on page 20.

On page 23, line 11, strike out "Director of the Office of Justice Assistance" and insert in lieu thereof "Assistant Attorney General".

On page 23, line 15, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 23, line 19, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 23, line 20, strike out "Director" and insert in lieu thereof "Office".

On page 25, line 23, strike out "Director of the".

On page 26, line 2, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 26, line 10, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 29, lines 8 and 9, strike out "Director of the Office of Justice Assistance" and insert in lieu thereof "Office".

On page 30, lines 3 and 4, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 31, strike out lines 15 through 23 and insert in lieu thereof the following:

"SEC. 801. (a) The Assistant Attorney General shall provide coordination, staff, and services support for the Office of Justice Assistance, National Institute of Justice, and Bureau of Justice Statistics".

On page 31, line 24, strike out "(c)" and insert in lieu thereof "(b)".

On page 32, lines 1 through 3, strike out "the Director of the Office of Justice Assistance, the Director of the National Institute of Justice, the Director of the Bureau of Justice Statistics or".

On page 32, line 11, insert after "Administration," the following: "the Bureau of Justice Statistics, and the National Institute of Justice are".

On page 32, line 12, strike out the comma and insert in lieu thereof "and".

On page 35, line 24, strike out "Director of the Office of" and insert in lieu thereof "Assistant Attorney General for".

On page 37, line 23, strike out "Director of the Office of" and insert in lieu thereof "Assistant Attorney General for".

On page 38, lines of 20 and 21, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 41, line 10, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 43, line 5, strike out "$25,000,000" and insert in lieu thereof "such sums as are necessary".

On page 43, line 9, strike out "$25,000,000" and insert in lieu thereof "such sums as are necessary".

On page 44, line 7, strike out "$20,000,000" and insert in lieu thereof "such sums as are necessary for the purposes".

On page 45, between lines 20 and 21, add the following:

(d) Section 1102 of part K of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3797b), as redesignated by this section, is amended—

(1) in clause (2) by striking out "or";

(2) in clause (3) by striking out the period and insert in lieu thereof "; or"; and

(3) by adding at the end thereof the following:

"(4) if the public safety officer was performing his duties in a grossly negligent manner at the time of his death.".

(e) Section 1103 of part K of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3797b), as redesignated by this section, is amended by striking out clause (4) and inserting in lieu thereof the following:

"(4) 'intoxication' means a disturbance of mental or physical faculties resulting from the introduction of alcohol into the body as evidenced by—

"(A) a post-mortem blood alcohol level of .20 percent or greater;

"(B) a post-mortem blood alcohol level of at least .15 percent but less than .20 percent, unless the Office receives convincing evidence that the public safety officer was not acting in an intoxicated manner immediately prior to his death;

or resulting from drugs or other substances in the body.".

(f) Part K of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3797-3797c), as redesignated by this section, is further amended by adding at the end thereof the following:

"JURISDICTION

"SEC. 1105. The United States Claims Court shall have exclusive jurisdiction over all actions seeking review of the final decisions of the Office under this part.

"EMERGENCY FEDERAL LAW ENFORCEMENT ASSISTANCE

"SEC. 1106. (a) The Attorney General is authorized to receive from the chief executive of any State a request for designation of a State or local jurisdiction as a law enforcement emergency jurisdiction. Such application shall be submitted in such manner and contain or be accompanied by such information as the Attorney General may prescribe. Such application for designation as a law enforcement emergency jurisdiction shall be evaluated by the Attorney General according to such criteria, and on such terms and conditions as he shall establish and shall publish in the Federal Register prior to the beginning of fiscal year 1984 and revise as necessary thereafter at his discretion.

"(b) The Attorney General shall, in accordance with the criteria established, approve or disapprove such application for designation not later than ten days after receiving such application.

"ASSISTANCE PROVIDED

"SEC. 1107. (a) Upon a finding by the Attorney General that a law enforcement emergency exists in accordance with the provisions of section 601, the Federal law enforcement community is authorized to provide Federal law enforcement assistance for the duration of the emergency. The costs of such assistance in excess of those for which funds are separately authorized and appropriated may be paid by the Office of Justice Assistance from funds appropriated under this part, in accordance with procedures established by the Assistant Attorney General and the heads of the participating Federal law enforcement agencies and with the approval of the Attorney General.

"(b) Upon such finding by the Attorney General, the Assistant Attorney General may provide technical assistance, funds for the lease or rental of specialized equipment and other forms of emergency assistance to the jurisdiction, except that no funds may be used to pay the salaries of local criminal justice personnel or otherwise supplant State or local funds that would in the absence of such Federal funds be made available for law enforcement. The costs of assistance provided under this section shall be paid by the Office of Justice Assistance from funds appropriated under this part. The Federal share of such assistance may be up to 100 per centum of project costs.".

On page 46, strike out lines 1 through 14 and insert in lieu thereof the following:

(A) by adding "(1)" immediately after "(a)"; and

(B) by adding at the end of subsection (a) the following:

"(2) All orders, determinations, rules, regulations, and instructions of the Department of Justice issued pursuant to the Justice System Improvement Act of 1979 which are in effect on the date of the enactment of the Justice Assistance Act of 1982 shall continue in effect according to their terms until modified, terminated, superseded, set aside, or revoked by the President or the Attorney General, the Director of the Bureau of Justice Statistics, the National Institute of Justice, or the Administrator of the Office of Juvenile Justice and Deliquency Prevention, or the Director of the Office of Justice Assistance with respect to their functions under this title or by operation of law."; and

(C) by striking out subsection (j) and inserting in lieu thereof the following:

"(j) The Assistant Attorney General may award new grants, enter into new contracts or cooperative agreements and otherwise obligate unused or reversionary funds previously appropriate for the purposes of parts D, E, and F of this title as in effect on the day before the date of enactment of the Justice Assistance Act of 1983, for purposes consistent with this title.".

On page 51, line 4, strike out "Director" and insert in lieu thereof "Assistant Attorney General".

On page 52, at the end of the table of sections for part add the following:

Sec. 1105. Jurisdiction.

Sec. 1106. Emergency Federal Law Enforcement Assistance.

Sec. 1107. Assistance provided.

On page 53, line 10, strike out "Director of the Office of" and insert in lieu thereof "Assistant Attorney General for".

On page 54, line 17, strike out "Director, Office" and insert in lieu thereof "Assistant Attorney General for".

On page 54, after line 21, add the following:

(c)(1) Section 506 of title 28 of the United States Code is amended by striking out "ten Assistant Attorneys General" and inserting in lieu thereof "eleven Assistant Attorneys General".

(2) Section 5315(19) of title 5 of the United States Code is amended by striking out "(10)" and inserting in lieu thereof "(11)".

Mr. SPECTER. Mr. President, these amendments which I have just offered at the request of the Department of Justice serve to bring within the scope of the House-Senate conference, which I hope will be insuring upon final consideration of this matter, an organizational structure strongly favored by the Department. As the committee report suggests in the section on agency views, the Department has been critical of the management structure embodied in the bill. This packet of amendments along with one other I will next submit satisfies the Department of Justice with regard to the organizing of the Office of Justice Assistance, and National Institute of Jus-

tice and the Bureau of Justice Statistics.

In essence, the Department's suggestions provide for an Office of Justice Assistance to be headed by an Assistant Attorney General rather than by a Presidentially appointed Director who would work with an Assistant Attorney General; the elimination of the NIJ and BJS advisory boards and the establishment of a single, 15-person advisory board on criminal justice, assistance and research statistics; and for placing the Federal emergency law enforcement assistance program more directly under the Attorney General.

Finally, I note that this series of amendments also includes the Department's amendment to redefine exceptions to the public safety officer benefit program.

I might add that although there has been some controversy and some discussion of these issues, we have seen fit to accept the requests of the Department of Justice in these respects. I move that the amendments be agreed to.

The PRESIDING OFFICER. Does the Senator yield back his time?

Mr. SPECTER. Yes; I yield back the remainder of my time applicable to those amendments.

The PRESIDING OFFICER. All time is yielded back on the amendment. The question is on agreeing to the amendment

The amendment (UP No. 1421) was agreed to.

Mr. SPECTER. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. BIDEN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UP AMENDMENT NO. 1422

(Purpose: To make certain technical amendments)

Mr. SPECTER. Mr. President, at this time I send to the desk an additional amendment and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The bill clerk read as follows:

The Senator from Pennsylvania (Mr. SPECTER) proposes an unprinted amendment numbered 1422.

Mr. SPECTER. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, is so ordered.

The amendment is as follows:

On page 13, strike out line * * * and insert in lieu thereof the following:

(1) by striking out subsections (a) and (b) and inserting in lieu thereof:

"(a) There is established within the Office of Justice Assistance a National Institute of Justice (hereinafter referred to in this title as the 'Institute').

"(b) The Institute shall be headed by a Director appointed by the Attorney General. The Director shall have had experience in justice research. The Director shall have authority to make grants, cooperative agreements, and contracts awarded by the Institute. The Director shall not engage in any other employment than that of serving as Director; nor shall the Director hold any office in, or act in any capacity for, any organization, agency, or institution with which the Institute makes any contract or other arrangements under this title.".

On page 16, strike out lines 14 through 24 and insert in lieu thereof the following:

(1) by striking out subsections (a) and (b) and inserting in lieu thereof:

"(a) There is established within the Office of Justice Assistance a Bureau of Justice Statistics (hereinafter referred to in this title as the 'Bureau').

"(b) The Bureau shall be headed by a Director appointed by the Attorney General. The Director shall have had experience in statistical programs. The Director shall have authority to make grants, cooperative agreements, and contracts awarded by the Bureau. The Director shall not engage in any other employment than that of serving as Director; nor shall the Director hold any office in, or act in any capacity for, any organization, agency, or institution with which the Bureau makes any contract or other arrangements under this Act.".

Mr. SPECTER. Mr. President, this final amendment is being proposed also at the request of the Department of Justice. Its adoption will complete the modifications of the bill needed to bring within the scope of the House-Senate conference the management structure the Department strongly supports. In essence, this amendment would place the National Institute of Justice and the Bureau of Justice Statistics within a new Office of Justice Assistance, downgrade the Directors of the Institute and the Bureau from Presidential appointments to those of the Attorney General, and leave final grantmaking authority in the Assistant Attorney General.

I understand that the distinguished Senator from Delaware (Mr. BIDEN) may wish to comment on this amendment at this time.

Mr. BIDEN addressed the Chair.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. BIDEN. Mr. President, I wish to comment on the amendment and oppose it.

Mr. President, I have great concerns that this amendment which would wipe out completely the independence of the crime research and statistics gathering arm of the Federal Government and is different than what we reported out of committee is about to be adopted.

It seems very important that the entity responsible for conducting research into new crime fighting techniques be separate in terms of funding and grantmaking authority so that objective research and evaluation is carried out on those projects and programs funded by the Federal Government.

It is also very important that accurate and objectively collected crime statistics be made available separate and apart from the potential influence and/or direct control of those responsible for administering programs funded to reduce crime.

If we are to know the actual extent of the national crime problem or what really works in fighting crime, we must insure the independence of the National Institute of Justice and Bureau of Justice Statistics.

This is certainly not a very novel consideration. In fact, it is current law and has served as one of the key issues for the entire restructuring of the former LEAA program. It was clear that this was necessary to Congress when the Justice Department Improvement Act of 1979 became law.

I noted earlier in my opening statement that my major criticism of the former LEAA legislation related not merely to the waste that took place within the program but the lack of focus, and one of the purposes that I and others had in getting this proposal separated out, this function separated out, was in order to see to it that we continue to have focus, and I quote from the report on this act. It said:

It is critical that the statistical function be insulated from undue interference, so that the data collected are reliable and objective.

More recently, I cite from the report on H.R. 4481, the House version on justice assistance that was authored and guided through the House so successfully by Congressman HUGHES.

The 1979 act responded to criticisms of the research and statistics projects by establishing the National Institute of Justice and the Bureau of Justice Statistics as independent units within the Department of Justice.

It is also of interest to note that the Attorney General's task force on violent crime in their final report noted in recommendation 51, the following:

The Attorney General should ensure that adequate resources are available for the collection and analysis of statistics on crime, its victims, its perpetrators and all parts of the justice system at all levels of Government. . . .

Also recommendation 53 stated the following:

Attorney General should ensure that adequate resources are available for the research, development, demonstration, and independent evaluation of methods to prevent and reduce serious crime.

Based on these recommendations by the Attorney General's own task force I, for the life of me, cannot understand why they are proposing in this amendment to reduce the independence and authority currently held by the Federal research and statistics agencies.

It is important that the Bureau of Justice Statistics and the National Institute of Justice coordinate and work more closely with the operational grant program, because the research

and statistics they produce are necessary for policy analysis and program development. I believe that recent changes in policy at these agencies has brought their research more in line with the practical needs of criminal justice personnel.

It is essential that we have a strong research and statistic component that is adequately funded and works in unison with the funding and grant making agency so we can begin to find out what works in fighting crime. Research and evaluation must maintain a degree of automony so as to be in a position to objectively tell us what our course of action should be. We must avoid spending limited Federal dollars on programs that do not work. The only way we will know this is if there is good objective data on the success or failure of these programs.

This goes back to a criticism that I think is a justified criticism by the Senator from North Carolina of this whole approach. It is very, very difficult for the agency that is dispensing the money to the States for programs that are I believe good programs to make as objective an evaluation of whether or not they are working on an ongoing basis as an independent outfit that does not have anything to lose, if you will, by making judgment that the program is not working.

That is one of the reasons we separated it out in the first place. And I see nothing to lead one to believe that moving them back under one umbrella again is a good idea and will result in anything other than the same problem we had before we separated this out.

For these reasons and some others which I will not bore the Senate with at this moment, I do not support this amendment, and I will work very hard in conference with the House of Representatives to see that the criminal justice and research statistics remain an important element of our justice assistance program.

I also will not take the Senate's time at this moment to get into a particularly long debate with the Senator from Pennsylvania, however, I do have several questions. Let me read from two portions of the report on the bill that we are voting on today.

One is:

> Over the past 20 years, there has been general agreement about the need for federal involvement in the development of criminal justice research. The purpose of NIJ is to operate a national independent research effort for the purpcses specified in the Act. Congress has determined that if federal justice research, demonstration and evaluation is to play an important role in setting national policy and direction in anticrime and justice systems improvement, then the National Institute of Justice must have the independence and the autonomy needed to carry out its authority.

Another portion from our committee report reads, and I will cease with this:

> During the 1970's several authoritative reports on the Federal role in criminal justice research stressed two primary themes—the need for a balanced program of basic and applied research and the importance of an independent research program. These objectives were explicitly adopted by Congress with the JSIA. The amendments to section 202(b) of JSIA are intended to emphasize this independence by ensuring that the Director's authority over the program includes necessary control over such administrative matters as personnel and budgeting. These are important to effective management of the program.

I can understand making some revisions in the current administrative structure, but what I am worried about is that in addition to the independence the research and statistic agencies will lose if this is adopted, it could also result in the reduction of funding or even elimination of these agencies because we are talking about limited funds. So I am not sure I am prepared to press this to a vote now, but I wish to make it clear in the record I strenuously object to this amendment.

I sum it up, once again by saying they should be independent, so that we have an independent agency that is outside and is able to objectively look in and evaluate as the program is working. If these functions are not insulated there, jobs will be difficult and, second, we would both acknowledge there will be pressure to move the programmatic way rather than on the research and development side, and I fear they may be wiped out.

So for that reason I strongly oppose this amendment.

Mr. SPECTER. Mr. President, I acknowledge the weight of the arguments which have been made by the distinguished Senator from Delaware (Mr. BIDEN).

The amendments, as earlier stated, have been offered at the request of the Department of Justice in an effort to bring as many parties into harmony as possible.

As manager of this bill, the Senator from Pennsylvania has agreed to these amendments, but I do understand the weight of the argument that the Senator from Delaware has made and this is an appropriate matter for consideration in conference. But, in accordance with the arrangements that I have made with the Department of Justice, I will be urging the retention of these amendments in the conference.

At this time, I move the adoption of the amendment.

The PRESIDING OFFICER. Do the Senators yield back their time?

Mr. SPECTER. I do.

Mr. BIDEN. I yield back my time.

The PRESIDING OFFICER. All time having been yielded back, the question is on agreeing to the amendment of the Senator from Pennsylvania.

(Putting the question.)

The PRESIDING OFFICER. The Chair is in doubt.

(Putting the question.)

The PRESIDING OFFICER. The ayes appear to have it.

Mr. EAST. Mr. President, I wish to explain for the record that my purpose in voting "aye" is so that the matter could be resolved in conference. I would not wish to have the record suggest that by this vote of "aye" I am thereby indicating my personal support of particular organizational differences here between the distinguished Senators from Delaware and Pennsylvania.

I do think they raised a very valid point and it needs to be examined with some care. I think the conference committee can do that.

I am simply voting with the Senator from Pennsylvania so that this matter could be resolved in conference.

Mr. SPECTER. I thank the distinguished Senator from North Carolina.

The PRESIDING OFFICER. The question will once again occur on the amendment of the Senator from Pennsylvania.

(Putting the question.)

The PRESIDING OFFICER. The ayes appear to have it. The ayes do have it.

The amendment (UP No. 1422) is agreed to.

Mr. SPECTER. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. EAST. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UP AMENDMENT NO. 1423

(Purpose: To modify the judicial districts of West Virginia, and for other purposes)

Mr. ROBERT C. BYRD. Mr. President, I send to the desk on behalf of myself and Mr. RANDOLPH an amendment and ask it be stated by the clerk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

> The Senator from West Virginia (Mr. ROBERT C. BYRD), for himself and Mr. RANDOLPH, proposes an unprinted amendment numbered 1423.

Mr. ROBERT C. BYRD. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place add the following:

SEC. . Section 129 of title 28, United States Code, is amended—

(1) in subsection (a) by—

(A) striking out ", Wirt, and Wood";

(B) inserting "Braxton," after "Berkeley,";

(C) inserting "Pocahontas" after "Pleasants,"; and

(D) inserting "Webster, and" after "Upshur"; and

(2) in subsection (b) by—

(A) striking out "Braxton,", "Pocahontas," and "Webster,"; and

(B) inserting "Wirt, Wood," after "Wayne,".

SEC. . (a) The existing district judgeship for the Southern District of West Virginia, authorized by section 2 of the Act entitled "An Act to provide for the appointment of additional district and circuit judges and for other purposes", approved October 20, 1978, (92 Stat. 1632; 28 U.S.C. 133 note) shall, as of the date of enactment of this Act, be authorized under section 133 of title 28 of the United States Code as a district judgeship for the Northern District of West Virginia, and the incumbent of that office shall henceforth hold office under section 133, as amended by this Act.

(b) The existing district judgeship for the Northern and Southern Districts of West Virginia shall be authorized as the district judgeship for the Southern District.

SEC. . The table in section 133 of title 28, United States Code, is amended by striking out the following:

"West Virginia:
"Northern..... 1
"Southern..... 3
"Northern and Southern..... 1".

and inserting in lieu thereof the following:

"West Virginia:
"Northern..... 2
"Southern..... 4".

Mr. ROBERT C. BYRD. My colleague will be on the floor shortly and he will want to speak on this subject.

Mr. President, I am offering this amendment on behalf of Senator RANDOLPH and myself to improve and facilitate the administration of justice in the Federal judiciary in my home State of West Virginia. In recent years, the judiciary has been increasingly burdened in West Virginia by several problems which need to be corrected. There is a growing disparity of caseloads between the northern and southern districts. The State still has a "swing" judgeship, in which position Judge Haden must serve though he also serves most ably as the chief judge of the southern district. In addition, there are several counties in each of the districts that would be better included, because of the region's geography, in the State's other district.

In brief, the amendment which I am introducing on behalf of my senior colleague Senator RANDOLPH and myself, would transfer Wood and Wirt Counties to the southern district, with Braxton, Webster, and Pocahontas Counties being shifted to the northern district. The "swing" judge's designation would be eliminated, with Chief Judge Haden being permanently located in the south. Judge Kidd would be transferred from the southern to the northern district, and the temporary judgeship would be abolished.

This change will not cost the Federal Government any additional money.

The southern district will be reduced from four and one-half to four judges, and the northern district will be increased from one and one-half to two.

I urge the passage of this amendment, and I yield to my senior colleague, Senator RANDOLPH, for his comments.

I now yield to my distinguished senior colleague, Mr. RANDOLPH.

Mr. RANDOLPH. Mr. President, I happily join with my fellow West Virginian and our able minority leader of the Senate, in supporting this amendment.

I am a cosponsor of S. 3081, known as the West Virginia Federal Judiciary Improvement Act. I recognize the need for the realinement and the adjustments necessary to improve services and facilitate the administration of justice in the Federal judiciary in our home State of West Virginia.

This amendment proposes a shift in certain counties included in the northern and southern districts of West Virginia to better accommodate the increasing litigation and the disparity of the caseloads between the two districts.

It is important to note that this change will not cost the Federal Government, which is our Government and which belongs to the people, a single additional dollar.

It will serve, as I have said, to facilitate the judicial process and provide a more efficient system for the disposition of the caseload.

Mr. President, this amendment will alleviate a difficult situation that exists in our State of West Virginia, and I have joined, of course, with my colleague in hoping that the Senate, our colleagues, will give it their favorable consideration and approval.

The PRESIDING OFFICER. Who yields time?

Mr. ROBERT C. BYRD. Mr. President, I am ready to yield back the remainder of my time.

Mr. RANDOLPH. I yield back my time.

Mr. THURMOND. Mr. President, we yield back the time on our side.

The PRESIDING OFFICER. All time having been yielded back, the question is on agreeing to the amendment of the Senator from West Virginia.

The amendment (UP No. 1423) was agreed to.

Mr. THURMOND. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. ROBERT C. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UP AMENDMENT NO. 1424

Mr. THURMOND. Mr. President, I send to the desk an amendment and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from South Carolina (Mr. THURMOND) proposes an unprinted amendment numbered 1424.

Mr. THURMOND. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill add the following new section:

SEC. —. Section 1114 of title 18, United States Code, is amended—

(a) by inserting "or attempts to kill" after "kills";

(b) by striking out "while engaged in the performance of his official duties or on account of the performance of his official duties" and inserting in lieu thereof "or any officer or employee of any department or agency within the Intelligence Community (as defined in section 3.4(F) of Executive Order 12333, December 8, 1981, or successor orders) not already covered under the terms of this section"; and

(c) by inserting before the period at the end thereof a comma and the following: "except that any such person who is found guilty of attempted murder shall be imprisoned for not more than twenty years".

SEC. 2. Chapter 51 of title 18, United States Code is amended by adding at the end thereof the following new section:

"§ 1118. Murder, manslaughter, assaults, threats, extortion, or kidnaping of persons given entry into the United States for permanent residence pursuant to section 7 of the Central Intelligence Agency Act of 1949

"(a) Whoever kills or attempts to kill a person given entry into the United States for permanent residence pursuant to the provisions of section 7 of the Central Intelligence Agency Act of 1949 (50 U.S.C. 403h) shall be punished as provided under sections 1111, 1112, and 1113 of this title, except that any such person who is found guilty of murder in the first degree shall be sentenced to imprisonment for life, and any such person who is found guilty of attempted murder shall be imprisoned for not more than twenty years.

"(b) Whoever engages in conduct proscribed by section 112, 878, or 1201 of this title against any person described in subsection (a) shall be punished as provided under those sections.".

SEC. 3. Chapter 51 of title 18, United States Code, is amended by adding at the end thereof the following new section:

"§ 1119. Murder, manslaughter, assaults, threats, extortion or kidnaping of persons present in the United States under intelligence auspices

"(a) Whoever kills or attempts to kill a person certified by the Director of Central Intelligence or his designee to be present in the United States under the auspices of any department or agency within the Intelligence Community (as defined in section 3.4(F) of Executive Order 12333, December 8, 1981, or successor orders) shall be punished as provided under sections 1111, 1112, and 1113 of this title, except that any such person who is found guilty of murder in the first degree shall be sentenced to imprisonment for life, and any such person who is found guilty of attempted murder shall be imprisoned for not more than twenty years.

"(b) Whoever engages in conduct proscribed by section 112, 878, or 1201 of this title against any person described in subsection (a) shall be punished as provided under those sections.".

SEC. 4. The table of sections for chapter 51 of title 18, United States Code, is amended by adding at the end thereof the following new items:

"1118. Murder, manslaughter, assaults, threats, or kidnaping of persons given entry into the United States for permanent residence pursuant to section 7 of the Central Intelligence Agency Act of 1949.

"1119. Murder, manslaughter, assaults, threats, extortion, or kidnaping of persons present in the United States under intelligence auspices.".

Mr. THURMOND. Mr. President, this amendment, which was introduced as an original bill by the able Senator from Delaware (Mr. BIDEN), seeks to close a critical gap in the Federal criminal statutes by making it a Federal crime to murder, manslaughter, or otherwise assault an officer or employee of the intelligence community as well as other specifically mentioned persons of interest to the intelligence community.

It was reported unanimously from the Committee on the Judiciary, and it passed the Senate by a voice vote on October 1, 1982.

The Director of the Central Intelligence Agency, Mr. Casey, has indicated his strong support for this measure.

In order for it to pass this session I am offering it now to this bill, hoping the Senate will see fit to adopt it and that it will go through at this session. I urge my colleagues to adopt this amendment.

Mr. BIDEN. Mr. President, I urge my colleagues to support this amendment. It is identical to a bill which I sponsored together with Senator THURMOND and a number of cosponsors from both sides of the aisle, including the entire membership of the Intelligence Committee.

Essentially, the amendment provides Federal criminal penalties for assaults on intelligence agency employees in the course of their official duties, as well as for assaults on defectors admitted to the United States under CIA auspices and other foreign visitors certified by the Director of Central Intelligence to be present in the United States under CIA auspices.

The amendment has the support of the CIA, the Justice Department, and the administration. It was included in the Intelligence Authorization Act for fiscal year 1982 and the Senate Intelligence Committee reported it as section 510 of S. 1127, the Intelligence Authorization Act for fiscal year 1982, on May 6, 1981. It was then passed by the Senate.

Unfortunately, the House version of the Intelligence Authorization Act for fiscal year 1982 contained no similar provisions: and the conference committee deleted section 510 because the House conferees insisted upon its consideration as separate legislation. Accordingly, this amendment contains the same provisions as section 510 of S. 1127 as passed by the Senate. The intent of these provisions was discussed in the Senate Intelligence Committee report on S. 1127 (S. Rept. No. 97-57, pp. 18-19).

The members of the Intelligence and Judiciary Committees expressed their unanimous view that there is an overriding need to give intelligence personnel the same type of protection against murderous assaults as is afforded by current law to many other types of Government employees. Senior intelligence officials frequently receive threats to their safety, and lower level employees have also been threatened by persons who learn of their intelligence affiliation. However, under present law there is not an adequate basis for Federal criminal investigation or prosecution in cases where there is evidence that an assault will occur in the performance of the employee's official duties.

Congress has an obligation to provide the full protection of Federal law for those who serve our intelligence agencies.

The PRESIDING OFFICER. Do Senators yield back their time?

Mr. BIDEN. I yield back our time.

Mr. THURMOND. I yield back the time.

The PRESIDING OFFICER. All time having been yielded back, the question is on agreeing to the amendment of the Senator from South Carolina.

The amendment (UP No. 1424) was agreed to.

Mr. THURMOND. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. BIDEN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UP AMENDMENT NO. 1425

(Purpose: To prohibit the growing of marihuana on Federal lands and to establish penalties for the violations of these provisions)

Mr. EAST. Mr. President, I have an amendment which I send to the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from North Carolina (Mr. EAST) proposes an unprinted amendment numbered 1425.

Mr. EAST. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Add the following new section at the end of the bill:

SEC. . (a) This section may be cited as the "Marihuana Cultivation on Federal Lands Crime Act of 1982".

(b) Chapter 91 of title 18 of the United States Code is amended by adding at the end thereof the following:

"§ 1864. Prohibition against growing marihuana on Federal lands; penalties.

"It shall be unlawful for any person knowingly or intentionally to plant, grow or cultivate marihuana on Federal lands unless specifically authorized by another provision of Federal law. Any person who violates this section shall be sentenced to a term of imprisonment of not less than one year and not more than fifteen years, and a fine of not less than $10,000 and not more than $15,000,000. Any person who, having previously been convicted of a violation of this section, again violates this section, shall be sentenced to a term of imprisonment of not less than ten years and not more than thirty years and a fine of not less than $100,000 or not more than $30,000,000."

(c) The section analysis of chapter 91 of title 18 of the United States Code is amended by inserting at the end thereof the following item:

"1864. Prohibition against growing marihuana on Federal lands; penalties.".

Mr. EAST. Mr. President, I have 5 minutes to speak to this amendment which, obviously, means my remarks will be brief.

What this amendment does primarily is to greatly increase the penalty for growing marihuana on Federal land. That is the primary thing it does, and I would like to address my principal remarks to that in a moment.

It also makes it very specific under Federal law, which now is somewhat general on the point, that knowingly or intentionally to cultivate marihuana on Federal land would be a Federal crime.

Although it is true Federal law at this time can be so interpreted, it does not clearly deal with the question of cultivation. It comes under the general rubric of manufacturing and possessing, and so forth.

This amendment, of course, would first make it a crime knowingly or intentionally to cultivate or grow marihuana on Federal lands. Senator HAYAKAWA had some hearings before the Committee on Agriculture not long ago indicating this is a growing national problem of considerable magnitude.

The main thing this amendment of mine does is to greatly increase the penalty for doing that, and I would like to explain why, and the rationale is not to be punitive or to engage in some sort of overkill here on the marihuana problem.

Under the current law, the maximum penalty—there is no minimum—is a 15-year imprisonment; the maximum fine—there is no minimum—is $25,000.

This change would establish a minimum where you are knowingly or intentionally cultivating the growing of marihuana on Federal land, and there would be a minimum prison term of 1 year and a maximum of 15 years; and

a minimum of $10,000 fine and a maximum of $15 million.

Now a $15 million fine may seem at first blush to be a very high penalty. The problem, however, is this: there is a report, for example, indicating that in the Ozark National Park in Arkansas, a marihuana crop with a value of $20 million was being grown. What we need under Federal law is a stronger financial disincentive to growing marihuana on Federal land. If your fine is no greater than $25,000, which it is under current law, frankly that is looked upon by the professional marihuana growers as just the cost of doing business. Federal law does not have sufficient fines really to discourage the utilization of Federal lands.

And, I would like to note, not only is the illegal growing of marihuana increasing generally in the country, but it is increasing, Mr. President, particularly on Federal lands. And I would like to bring to your attention two reasons why that is so.

First of all, under current Federal law, where you have private land, it could be confiscated by the Government as a part of the penalty. Of course, the Government cannot do it when the criminal is growing it on Federal land because the land does not belong to the criminal. It belongs to the Federal Government. So that gives incentive to the criminals because often these areas are remote, like national parks. That gives incentive to grow on Federal land. One, it is remote; two, you cannot confiscate the property, needless to say. Third, another great incentive to grow on Federal land is you cannot trace the identity through ownership of the land. So Federal land is a prime spot for the massive marihuana growing in this country, which is illegal. We need to address this problem by taking the financial reward out of it. You simply do not do it with a maximum fine of $25,000 and no minimum.

That is the sum and substance of what this particular amendment would do. It would put a strong financial sting, in terms of a fine, on the growing of marihuana on Federal lands.

I would like to encourage the acceptance of this amendment. I certainly would hope that the conference committee would accept it. I think it would be vital to an overall acceptance of the total bill, if accepted.

That, Mr. President, is my amendment.

I move the adoption of the amendment.

Mr. HUMPHREY. Mr. President, it has become increasingly apparent that the illicit growing of marihuana on Federal lands is a problem of enormous dimensions. Instances of this illegal activity have been documented involving Federal lands—primarily national parks and forests—in all 50 States. The most heavily impacted regions are the Southwestern and Western States, where growing conditions are most favorable and large expanses of land make detection difficult.

The dangers inherent in this situation are both personal and environmental. The growers have organized themselves into hordes of paramilitary guerrillas, arming themselves with sophisticated arsenals including automatic rifles, pipe bombs, hand grenades, mines, shotguns, and fish hooks suspended from trees at eye level. Innocent visitors of national parks, as well as National Park Service personnel, have been confronted and threatened by these individuals in many reported incidents. The environmental hazard stems from the growers' use of arsenic to control rodent damage, the high concentrations of nitrogen used as fertilizer, and the cutting the timber and building of open fires to clear areas for cultivation.

Public lands are particularly attractive for the growing of marihuana primarily for the following reasons: the lands are remote and removed from the scrutiny of large numbers of people; the ownership of the land provides no link to the identity of the grower; and enormous tracts of public lands are located in climatic zones where growing conditions are excellent.

The Federal Government is involved in a comprehensive effort to curb the illicit flow of marihuana from abroad. Largely in response to this effort, the cultivation of "home grown" products has begun to flourish. In recent testimony before the Subcommittee on Forestry, Water Resources, and Environment, the Assistant Administrator for Operations of the Drug Enforcement Administration, Mr. Frank Montasero, stated that "the United States is on the leading edge of a horticultural revolution as it applies to illicit marihuana cultivation." It has been estimated that the market value of the domestic marihuana harvest now exceeds $10 billion annually, which would cause it to be ranked as our Nation's third or fourth most valuable cash crop. Surely no one in the Chamber will dispute that all available resources must be marshaled to bring this underground economy to its knees.

The increasing gravity of this situation has spurred cooperative efforts between the Federal Government and the States. The Drug Enforcement Administration has entered into cooperative eradication and suppression programs with heavily impacted States: five States were served in 1981 and 25 programs are currently underway. DEA encourages State efforts by contributing training, equipment, funding, investigative, and aircraft resources. In the past year, DEA conducted four schools which trained over 100 State and local law enforcement officials in aerial observation techniques, obtaining search warrants, conducting crop raids, and arresting and prosecuting identified growers. Because cultivation is widespread over forbidding mountainous terrain, DEA is currently exploring with State and local officials the possibility of conducting hard-hitting, high-impact eradication operations during the height of the growing season. Borrowing helicopters from the Department of Defense and using Governors' authority to mobilize the National Guard—an initiative exercised successfully this year in Hawaii and Arkansas—are two options under consideration to assist in this effort. Finally, members of the U.S. Forest Service are increasingly being utilized as support personnel under the direction of appropriate Federal, State, and local authorities.

The distinguished Senator from California, Senator HAYAKAWA, who chaired the subcommittee hearings to which I previously alluded, has recommended in remarks before this body that greater manpower and financial resources be committed to bringing cultivation under control, and that we begin immediately to improve our knowledge of the location and quantity of these illegal plants. As chairman of the Subcommittee on Alcoholism and Drug Abuse, I am grateful to Senator HAYAKAWA for his work in this area, and I thank him for reporting his findings and recommendations for the benefit of the next Congress.

My distinguished colleague from North Carolina has ably recognized that there is another dimension of this problem in need of attention, namely the recognition it receives in existing criminal statutes. Senator EAST's amendment establishes the growing of marihuana on Federal lands as a specific criminal offense, and prescribes specific penalties for those convicted. If this Congress, and through us the American people, wish to send a clear and convincing message that we will not tolerate the abuse of our precious public lands by marihuana growers, our abhorrence of this activity must be specified in the Criminal Code. I commend Senator EAST for his leadership on this initiative, and I gladly offer my support of his amendment.

Mr. SPECTER. Mr. President, I think the amendment offered by the distinguished Senator from North Carolina is a good addition to this bill and, as manager, I am pleased to accept it.

The PRESIDING OFFICER. Do the Senators yield back their time?

Mr. SPECTER. I yield back the remainder of my time.

Mr. EAST. I yield back the remainder of my time.

The PRESIDING OFFICER. All time having been yielded back, the question is on agreeing to the amendment of the Senator from North Carolina (Mr. EAST).

The amendment (UP No. 1425) was agreed to.

Mr. SPECTER. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. EAST. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

UP AMENDMENT NO. 1426

(Purpose: To aid State and local governments in strengthening and improving their judicial systems through the creation of a State Justice Institute)

Mr. SPECTER. Mr. President, on behalf of the distinguished Senator from Alabama (Mr. HEFLIN), I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will state the amendment.

The assistant legislative clerk read as follows:

The Senator from Pennsylvania (Mr. SPECTER), on behalf of the Senator from Alabama (Mr. HEFLIN) proposes an unprinted amendment numbered 1426.

Mr. SPECTER. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 55, after line 2, add the following new title:

TITLE II—STATE JUSTICE INSTITUTE

SEC. 201. This title may be cited as the "State Justice Institute Act of 1982".

DEFINITIONS

SEC. 202. As used in this title, the term—

(1) "Institute" means the State Justice Institute;

(2) "Board" means the Board of Directors of the Institute;

(3) "Director" means the Executive Director of the Institute;

(4) "Governor" means the Chief Executive Officer of a State;

(5) "recipient" means any grantee, contractor, or recipient of financial assistance under this title;

(6) "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States; and

(7) "Supreme Court" means the highest appellate court within a State unless, for the purposes of this title, a constitutionally or legislatively established judicial council acts in place of that court.

ESTABLISHMENT OF INSTITUTE; DUTIES

SEC. 203. (a) There is established a private nonprofit corporation which shall be known as the State Justice Institute. The purpose of the Institute shall be to further the development and adoption of improved judicial administration in State courts in the United States. The Institute may be incorporated in the District of Columbia or in any other State. To the extent consistent with the provisions of this title, the Institute shall exercise the powers conferred upon a nonprofit corporation by the laws of the State in which it is incorporated.

(b) The Institute shall—

(1) direct a national program of assistance designed to assure each person ready access to a fair and effective system of justice by providing funds to—

(A) State courts;

(B) national organizations which support and are supported by State courts; and

(C) any other nonprofit organization that will support and achieve the purposes of this title;

(2) foster coordination and cooperation with the Federal judiciary in areas of mutual concern;

(3) make recommendations concerning the proper allocation of responsibility between the State and Federal court systems;

(4) promote recognition of the importance of the separation of powers doctrine to an independent judiciary; and

(5) encourage education for judges and support personnel of State court systems through national and State organizations, including universities.

(c) The Institute shall not duplicate functions adequately performed by existing nonprofit organizations and shall promote, on the part of agencies of State judicial administration, responsibility for success and effectiveness of State court improvement programs supported by Federal funding.

(d) The Institute shall maintain its principal offices in the State in which it is incorporated and shall maintain therein a designated agent to accept service of process for the Institute. Notice to or service upon the agent shall be deemed notice to or service upon the Institute.

(e) The Institute, and any program assisted by the Institute, shall be eligible to be treated as an organization described in section 170(c)(2)(B) of the Internal Revenue Code of 1954 and as an organization described in section 501(c)(3) of the Internal Revenue Code of 1954 which is exempt from taxation under section 501(a) of such Code. If such treatments are conferred in accordance with the provisions of such Code, the Institute, and programs assisted by the Institute, shall be subject to all provisions of such Code relevant to the conduct of organizations exempt from taxation.

(f) The Institute shall afford notice and reasonable opportunity for comment to interested parties prior to issuing rules, regulations, guidelines, and instructions under this title, and it shall publish in the Federal Register, at least thirty days prior to their effective date, all rules, regulations, guidelines, and instructions.

BOARD OF DIRECTORS

SEC. 204. (a)(1) The Institute shall be supervised by a Board of Directors, consisting of eleven voting members to be appointed by the President, by and with the advice and consent of the Senate. The Board shall have both judicial and nonjudicial members, and shall, to the extent practicable, have a membership representing a variety of backgrounds and reflecting participation and interest in the administration of justice.

(2) The Board shall consist of—

(A) six judges, to be appointed in the manner provided in paragraph (3);

(B) one State court administrator, to be appointed in the manner provided in paragraph (3); and

(C) four public members, no more than two of whom shall be of the same political party, to be appointed in the manner provided in paragraph (4).

(3) The President shall appoint six judges and one State court administrator from a list of candidates submitted by the Conference of Chief Justices. The Conference of Chief Justices shall submit a list of at least fourteen individuals, including judges and State court administrators, whom the conference considers best qualified to serve on the Board. The President may reject such list and request another list of individuals. Prior to consulting with or submitting a list to the President, the Conference of Chief Justices shall obtain and consider the recommendations of all interested organizations and individuals concerned with the administration of justice and the objectives of this title.

(4) In addition to those members appointed under paragraph (3), the President shall appoint four members from the public sector to serve on the Board.

(5) The President shall appoint the members under this subsection within sixty days from the date of enactment of this title.

(6) The members of the Board of Directors shall be the incorporators of the Institute and shall determine the State in which the Institute is to be incorporated.

(b)(1) Except as provided in paragraph (2), the term of each voting member of the Board shall be three years. Each member of the Board shall continue to serve until the successor to such member has been appointed and qualified.

(2) Five of the members first appointed by the President shall serve for a term of two years. Any member appointed to serve for an unexpired term arising by virtue of the death, disability, retirement, or resignation of a member shall be appointed only for such unexpired term, but shall be eligible for reappointment.

(3) The term of initial members shall commence from the date of the first meeting of the Board, and the term of each member other than an initial member shall commence from the date of termination of the preceding term.

(c) No member shall be reappointed to more than two consecutive terms immediately following such member's initial term.

(d) Members of the Board shall serve without compensation, but shall be reimbursed for actual and necessary expenses incurred in the performance of their official duties.

(e) The members of the Board shall not, by reason of such membership, be considered officers or employees of the United States.

(f) Each member of the Board shall be entitled to one vote. A simple majority of the membership shall constitute a quorum for the conduct of business. The Board shall act upon the concurrence of a simple majority of the membership present and voting.

(g) The Board shall select from among the voting members of the Board a chairman, the first of whom shall serve for a term of three years. Thereafter, the Board shall annually elect a chairman from among its voting members.

(h) A member of the Board may be removed by a vote of seven members for malfeasance in office, persistent neglect of, or inability to discharge duties, or for any offense involving moral turpitude, but for no other cause.

(i) Regular meetings of the Board shall be held quarterly. Special meetings shall be held from time to time upon the call of the chairman, acting at his own discretion or

pursuant to the petition of any seven members.

(j) All meetings of the Board, any executive committee of the Board, and any council established in connection with this title, shall be open and subject to the requirements and provisions of section 552b of title 5, United States Code, relating to open meetings.

(k) In its direction and supervison of the activities of the Institute, the Board shall—

(1) establish such policies and develop such programs for the Institute as will further achievement of its purpose and performance of its functions;

(2) establish policy and funding priorities and issue rules, regulations, guidelines, and instructions pursuant to such priorities;

(3) appoint and fix the duties of the Executive Director of the Institute, who shall serve at the pleasure of the Board and be a nonvoting ex officio member of the Board;

(4) present to other Government departments, agencies, and instrumentalities whose programs or activities relate to the administration of justice in the State judiciaries of the United States, the recommendations of the Institute for the improvement of such programs or activities;

(5) consider and recommend to both public and private agencies aspects of the operation of the State courts of the United States considered worthy of special study; and

(6) award grants and enter into cooperative agreements or contracts pursuant to this title.

OFFICERS AND EMPLOYEES

SEC. 205. (a)(1) The Director, subject to general policies established by the Board, shall supervise the activities of persons employed by the Institute and may appoint and remove such employees as he determines necessary to carry out the purposes of the Institute. The Director shall be responsible for the executive and administrative operations of the Institute, and shall perform such duties as are delegated to such Director by the Board and the Institute.

(2) No political test or political qualification shall be used in selecting, appointing, promoting, or taking any other personnel action with respect to any officer, agent, or employee of the Institute, or in selecting or monitoring any grantee, contractor, person, or entity receiving financial assistance under this title.

(b) Officers and employees of the Institute shall be compensated at rates determined by the Board, but not in excess of the rate of level V of the Executive Schedule specified in section 5316 of title 5, United States Code.

(c)(1) Except as otherwise specifically provided in this title, the Institute shall not be considered a department, agency, or instrumentality of the Federal Government.

(2) This title does not limit the authority of the Office of Management and Budget to review and submit comments upon the Institute's annual budget request at the time it is transmitted to the Congress.

(d)(1) Except as provided in paragraph (2), officers and employees of the Institute shall not be considered officers or employees of the United States.

(2) Officers and employees of the Institute shall be considered officers and employees of the United States solely for the purposes of the following provisions of title 5, United States Code: Subchapter I of chapter 81 (relating to compensation for work injuries); chapter 83 (relating to civil service retirement); chapter 87 (relating to life insurance); and chapter 89 (relating to health insurance). The Institute shall make contributions under the provisions referred to in this subsection at the same rates applicable to agencies of the Federal Government.

(e) The Institute and its officers and employees shall be subject to the provisions of section 552 of title 5, United States Code, relating to freedom of information.

GRANTS AND CONTRACTS

SEC. 206. (a) The Institute is authorized to award grants and enter into cooperative agreements or contracts, in a manner consistent with subsection (b), in order to—

(1) conduct research, demonstrations, or special projects pertaining to the purposes described in this title, and provide technical assistance and training in support of tests, demonstrations, and special projects;

(2) serve as a clearinghouse and information center, where not otherwise adequately provided, for the preparation, publication, and dissemination of information regarding State judicial systems;

(3) participate in joint projects with other agencies, including the Federal Judicial Center, with respect to the purposes of this title;

(4) evaluate, when appropriate, the programs and projects carried out under this title to determine their impact upon the quality of criminal, civil, and juvenile justice and the extent to which they have met or failed to meet the purposes and policies of this title;

(5) encourage and assist in the furtherance of judicial education;

(6) encourage, assist, and serve in a consulting capacity to State and local justice system agencies in the development, maintenance, and coordination of criminal, civil, and juvenile justice programs and services; and

(7) be responsible for the certification of national programs that are intended to aid and improve State judicial systems.

(b) The Institute is empowered to award grants and enter into cooperative agreements or contracts as follows:

(1) The Institute shall give priority to grants, cooperative agreements, or contracts with—

(A) State and local courts and their agencies,

(B) national nonprofit organizations controlled by, operating in conjunction with, and serving the judicial branches of State governments; and

(C) national nonprofit organizations for the education and training of judges and support personnel of the judicial branch of State governments.

(2) The Institute may, if the objective can better be served thereby, award grants or enter into cooperative agreements or contracts with—

(A) other nonprofit organizations with expertise in judicial administration;

(B) institutions of higher education;

(C) individuals, partnerships, firms, or corporations; and

(D) private agencies with expertise in judicial administration.

(3) Upon application by an appropriate Federal, State, or local agency or institution and if the arrangements to be made by such agency or institution will provide services which could not be provided adequately through nongovernmental arrangements, the Institute may award a grant or enter into a cooperative agreement or contract with a unit of Federal, State, or local government other than a court.

(4) Each application for funding by a State or local court shall be approved by the State's supreme court, or its designated agency or council, which shall receive, administer, and be accountable for all funds awarded by the Institute to such courts.

(c) Funds available pursuant to grants, cooperative agreements, or contracts awarded under this section may be used—

(1) to assist State and local court systems in establishing appropriate procedures for the selection and removal of judges and other court personnel and in determining appropriate levels of compensation;

(2) to support education and training programs for judges and other court personnel, for the performance of their general duties and for specialized functions, and to support national and regional conferences and seminars for the dissemination of information on new developments and innovative techniques;

(3) to conduct research on alternative means for using nonjudicial personnel in court decisionmaking activities, to implement demonstration programs to test innovative approaches, and to conduct evaluations of their effectiveness;

(4) to assist State and local courts in meeting requirements of Federal law applicable to recipients of Federal funds;

(5) to support studies of the appropriateness and efficacy of court organizations and financing structures in particular States, and to enable States to implement plans for improved court organization and finance;

(6) to support State court planning and budgeting staffs and to provide technical assistance in resource allocation and service forecasting techniques;

(7) to support studies of the adequacy of court management systems in State and local courts and to implement and evaluate innovative responses to problems of record management, data processing, court personnel management, reporting and transcription of court proceedings, and juror utilization and management;

(8) to collect and compile statistical data and other information on the work of the courts and on the work of other agencies which relate to and effect the work of courts;

(9) to conduct studies of the causes of trial and appellate court delay in resolving cases, and to establish and evaluate experimental programs for reducing case processing time;

(10) to develop and test methods for measuring the performance of judges and courts and to conduct experiments in the use of such measures to improve their functioning;

(11) to support studies of court rules and procedures, discovery devices, and evidentiary standards, to identify problems with their operation, to devise alternative approaches to better reconcile the requirements of due process with the needs for swift and certain justice, and to test their utility;

(12) to support studies of the outcomes of cases in selected subject matter areas to identify instances in which the substance of justice meted out by the courts diverges from public expectations of fairness, consistency, or equity, to propose alternative approaches to the resolving of cases in problem areas, and to test and evaluate those alternatives;

(13) to support programs to increase court responsiveness to the needs of citizens through citizen education, improvement of court treatment of witnesses, victims, and jurors, and development of procedures for obtaining and using measures of public sat-

isfaction with court processes to improve court performance;

(14) to test and evaluate experimental approaches to providing increased citizen access to justice, including processes which reduce the cost of litigating common grievances and alternative techniques and mechanisms for resolving disputes between citizens; and

(15) to carry out such other programs, consistent with the purposes of this title, as may be deemed appropriate by the Institute.

(d) The Institute shall incorporate in any grant, cooperative agreement, or contract awarded under this section in which a State or local judicial system is the recipient, the requirement that the recipient provide a match, from private or public sources, equal to 25 per centum of the total cost of such grant, cooperative agreement, or contract, except that such requirement may be waived in exceptionally rare circumstances upon the approval of the chief justice of the highest court of the State and a majority of the Board of Directors.

(e) The Institute shall monitor and evaluate, or provide for independent evaluations of, programs supported in whole or in part under this title to insure that the provisions of this title, the bylaws of the Institute, and the applicable rules, regulations, and guidelines promulgated pursuant to this title, are carried out.

(f) The Institute shall provide for an independent study of the financial and technical assistance programs under this title.

LIMITATIONS ON GRANTS AND CONTRACTS

SEC. 207. (a) With respect to grants or contracts made under this title, the Institute shall—

(1) insure that no funds made available to recipients by the Institute shall be used at any time, directly or indirectly, to influence the issuance, amendment, or revocation of any Executive order or similar promulgation by any Federal, State, or local agency, or to undertake to influence the passage or defeat of any legislation by the Congress of the United States, or by any State or local legislative body, or any State proposal by initiative petition, unless a governmental agency, legislative body, a committee, or a member thereof—

(A) requests personnel of the recipients to testify, draft, or review measures or to make representations to such agency, body, committee, or member; or

(B) is considering a measure directly affecting the activities under this title or the recipient or the Institute;

(2) insure all personnel engaged in grant or contract assistance activities supported in whole or in part by the Institute refrain, while so engaged, from any partisan political activity; and

(3) insure that every grantee, contractor, person, or entity receiving financial assistance under this title which files with the Institute a timely application for refunding is provided interim funding necessary to maintain its current level of activities until—

(A) the application for refunding has been approved and funds pursuant thereto received; or

(B) the application for refunding has been finally denied in accordance with section 9 of this title.

(b) No funds made available by the Institute under this title, either by grant or contract, may be used to support or conduct training programs for the purpose of advocating particular nonjudicial public policies or encouraging nonjudicial political activities.

(c) The authorization to enter into contracts or any other obligation under this title shall be effective only to the extent, and in such amounts, as are provided in appropriation Acts.

(d) To insure that funds made available under this title are used to supplement and improve the operation of State courts, rather than to support basic court services, funds shall not be used—

(1) to supplant State or local funds currently supporting a program or activity; or

(2) to construct court facilities or structures, except to remodel existing facilities to demonstrate new architectural or technological techniques, or to provide temporary facilities for new personnel or for personnel involved in a demonstration or experimental program.

RESTRICTIONS ON ACTIVITIES OF THE INSTITUTE

SEC. 208. (a) The Institute shall not—

(1) participate in litigation unless the Institute or a recipient of the Institute is a party, and shall not participate on behalf of any client other than itself;

(2) interfere with the independent nature of any State judicial system nor allow sums to be used for the funding of regular judicial and administrative activities of any State judicial system other than pursuant to the terms of any grant, cooperative agreement, or contract with the Institute, consistent with the requirements of this title; or

(3) undertake to influence the passage or defeat of any legislation by the Congress of the United States or by any State or local legislative body, except that personnel of the Institute may testify or make other appropriate communication—

(A) when formally requested to do so by a legislative body, committee, or a member thereof;

(B) in connection with legislation or appropriations directly affecting the activities of the Institute; or

(C) in connection with legislation or appropriations dealing with improvements in the State judiciary, consistent with the provisions of this title.

(b)(1) The Institute shall have no power to issue any shares of stock, or to declare or pay any dividends.

(2) No part of the income or assets of the Institute shall inure to the benefit of any director, officer, or employee, except as reasonable compensation for services or reimbursement for expenses.

(3) Neither the Institute nor any recipient shall contribute or make available Institute funds or program personnel or equipment to any political party or association, or the campaign of any candidate for public or party office.

(4) The Institute shall not contribute or make available Institute funds or program personnel or equipment for use in advocating or opposing any ballot measure, initiative, or referendum, except those dealing with improvement of the State judiciary, consistent with the purposes of this title.

(c) Officers and employees of the Institute or of recipients shall not at any time intentionally identify the Institute or the recipient with any partisan or nonpartisan political activity associated with a political party or association, or the campaign of any candidate for public or party office.

SPECIAL PROCEDURES

SEC. 209. The Institute shall prescribe procedures to insure that—

(1) financial assistance under this title shall not be suspended unless the grantee, contractor, person, or entity receiving financial assistance under this title has been given reasonable notice and opportunity to show cause why such actions should not be taken; and

(2) financial assistance under this title shall not be terminated, an application for refunding shall not be denied, and a suspension of financial assistance shall not be continued for longer than thirty days, unless the grantee, contractor, person, or entity receiving financial assistance under this title has been afforded reasonable notice and opportunity for a timely, full, and fair hearing, and, when requested, such hearing shall be conducted by an independent hearing examiner. Such hearing shall be held prior to any final decision by the Institute to terminate financial assistance or suspend or deny funding. Hearing examiners shall be appointed by the Institute in accordance with procedures established in regulations promulgated by the Institute.

PRESIDENTIAL COORDINATION

SEC. 210. The President may, to the extent not inconsistent with any other applicable law, direct that appropriate support functions of the Federal Government may be made available to the Institute in carrying out its functions under this title.

RECORDS AND REPORTS

SEC. 211. (a) The Institute is authorized to require such reports as it deems necessary from any grantee, contractor, person, or entity receiving financial assistance under this title regarding activities carried out pursuant to this title.

(b) The Institute is authorized to prescribe the keeping of records with respect to funds provided by grant or contract and shall have access to such records at all reasonable times for the purpose of insuring compliance with the grant or contract or the terms and conditions upon which financial assistance was provided.

(c) Copies of all reports pertinent to the evaluation, inspection, or monitoring of any grantee, contractor, person, or entity receiving financial assistance under this title shall be submitted on a timely basis to such grantee, contractor, or person or entity, and shall be maintained in the principal office of the Institute for a period of at least five years after such evaluation, inspection, or monitoring. Such reports shall be available for public inspection during regular business hours, and copies shall be furnished, upon request, to interested parties upon payment of such reasonable fees as the Institute may establish.

(d) Non-Federal funds received by the Institute, and funds received for projects funded in part by the Institute or by any recipient from a source other than the Institute, shall be accounted for and reported as receipts and disbursements separate and distinct from Federal funds.

AUDITS

SEC. 212. (a)(1) The accounts of the Institute shall be audited annually. Such audits shall be conducted in accordance with generally accepted auditing standards by independent certified public accounts who are certified by a regulatory authority of the jurisdiction in which the audit is undertaken.

(2) The audits shall be conducted at the place or places where the accounts of the Institute are normally kept. All books, accounts, financial records, reports, files, and other papers or property belonging to or in use by the Institute and necessary to facilitate the audits shall be made available to

the person or persons conducting the audits. The full facilities for verifying transactions with the balances and securities held by depositories, fiscal agents, and custodians shall be afforded to any such person.

(3) The report of the annual audit shall be filed with the General Accounting Office and shall be available for public inspection during business hours at the principal office of the Institute.

(b)(1) In addition to the annual audit, the financial transactions of the Institute for any fiscal year during which Federal funds are available to finance any portion of its operations may be audited by the General Accounting Office in accordance with such rules and regulations as may be prescribed by the Comptroller General of the United States.

(2) Any such audit shall be conducted at the place or places where accounts of the Institute are normally kept. The representatives of the Geneal Accounting Office shall have access to all books, accounts, financial records, reports, files, and other papers or property belonging to or in use by the Institute and necessary to facilitate the audit. The full facilities for verifying transactions with the balances and securities held by depositories, fiscal agents, and custodians shall be afforded to such representatives. All such books, accounts, financial records, reports, files, and other papers or property of the Institute shall remain in the possession and custody of the Institute throughout the period beginning on the date such possession or custody commences and ending three years after such date, but the General Accounting Office may require the retention of such books, accounts, financial records, reports, files, and other papers or property for a longer period under section 117(b) of the Accounting and Auditing Act of 1950 (31 U.S.C. 67(b)).

(3) A report of such audit shall be made by the Comptroller General to the Congress and to the Attorney General, together with such recommendations with respect thereto as the Comptroller General deems advisable.

(c)(1) The Institute shall conduct, or require each grantee, contractor, person, or entity receiving financial assistance under this title to provide for, an annual fiscal audit. The report of each such audit shall be maintained for a period of at least five years at the principal office of the Institute.

(2) The Institute shall submit to the Comptroller General of the United States copies of such reports, and the Comptroller General may, in addition, inspect the books, accounts, financial records, files, and other papers or property belonging to or in use by such grantee, contractor, person, or entity, which relate to the disposition or use of funds recived from the Institute. Such audit reports shall be available for public inspection during regular business hours, at the principal office of the Institute.

AUTHORIZATIONS

SEC. 213. There are authorized to be appropriated to carry out the purposes of this title, $20,000,000 for fiscal year 1984, $25,000,000 for fiscal year 1985, and $25,000,000 for fiscal year 1986.

EFFECTIVE DATE

SEC. 214. The provisions of this title shall take effect upon the date of enactment.

Mr. HEFLIN. Mr. President, I rise in support of the State Justice Institute Act, an amendment to S. 2411. As original sponsor of this bill, I encourage this amendment's incorporation into the Justice Assistance Act of 1982.

This amendment will establish the State Justice Institute as a nonprofit corporation to provide technical and financial assistance to further the development and adoption of improvements in the administration of justice in State and local courts throughout the United States.

This concept has passed the Senate previously in the 96th and 97th Congresses. The purpose and objectives of the State Justice Institute is consistent and complements the goals of S. 2411.

I wish to thank my colleagues, especially Chairman STROM THURMOND, Senator JOSEPH BIDEN, Chairman ROBERT DOLE, and Chairman ARLEN SPECTER, for their continued support and able assistance on this most important legislation.

There are several important reasons for the implementation of the State Justice Institute.

First, the role of the judge is generally accepted to be changing. Earlier in this century there was much debate as to whether a judge's function included an obligation to see that cases in their courts moved toward disposition in a regular and efficient manner. Today, however, problems of administration have taken their place alongside problems of adjudication as primary responsibilities of judges. Nearly everyone has come to acknowledge that today's judges have a duty to insure that their cases do not simply languish on the docket, but instead are moved to a conclusion with as much dispatch and economy of time and effort as possible. This shift, along with a heightened interest in continuing legal education generally, has resulted in thousands of judges attending intensive orientations or refresher courses offered by such organizations as the National Judicial College and the American Academy of Judicial Education.

A second reason for providing financial assistance the State courts is the problem of crime in this country. It has long been my belief that if we are to significantly reduce crime, the Federal Government must share the responsibility of improving the administration of justice with State and local governments. The State Justice Institute would be immensely beneficial to State and local governments in their attempts to control crime and in their efforts to streamline the administration of justice once a criminal has been apprehended.

Third, State courts share with the Federal courts the awesome responsibility of enforcing the rights and duties of the Constitution and laws of the United States. However, in recent years the workload of our State courts has significantly increased due to a number of factors, including decisions of the U.S. Supreme Court, wide-reaching social legislation by Congress, and a diversion of cases from the Federal courts. Testimony before the Subcommittee on Jurisprudence and Governmental Relations of the Senate Judiciary Committee revealed that State courts decide approximately 95 percent of all law suits tried.

It is, therefore, appropriate and necessary that the Federal Government provide financial and technical assistance to State courts to help alleviate many of the administrative problems which these actions at the Federal level have caused and aggravated. This legislation would help insure that our State courts remain strong and effective.

The Institute would provide funds to State courts and national organizations which support or are supported by State courts for research and development programs that would be beyond the resources of any single judicial system.

The Institute would not provide funds for hardware, nor for ongoing State court operations, but would spotlight correcting problems and shortcomings of State judiciaries and provide national resources to assist in correcting them.

The Institute may also provide funds for research, demonstration, education, training, technical assistance, clearinghouse and evaluating programs. The establishment of the State Justice Institute to provide financial assistance to the State courts does not remove primary responsibility for maintenance and improvement of State courts from the States themselves.

The State Justice Institute will be supervised by an independent Board of Directors consisting primarily of representatives of State court judiciaries to insure clear congressional recognition of the separation of powers principle in the function of State governments and the constitutional requirement of an independent judiciary which is essential for any program of Federal assistance.

The concept of a State Justice Institute has been endorsed by such organizations as the Conference of Chief Justices, the Appellate Judges Conference, and the American Bar Association.

Mr. President, as a former State supreme court chief justice, I know full well the importance of an independent judiciary. I could not support legislation which infringes on that independence in any way.

It is quite apparent then that the quality of justice in this country is largely determined by the quality of justice dispensed by State courts. We in the Congress should thus be keenly aware of the substantial Federal interest involved in maintaining the quality

of the administration of justice in State courts. In the last Congress, the State Justice Institute Act passed the Senate without dissent.

Therefore, I urge the swift passage and implementation of this crucial amendment to safeguard our judicial system.

Thank you, Mr. President.

Mr. SPECTER. Mr. President, the bill from which this amendment was derived has been cosponsored by the Senator from Montana (Mr. BAUCUS), the Senator from Kansas (Mr. DOLE), the Senator from Arizona (Mr. DECONCINI), the Senator from Nevada (Mr. LAXALT), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Mississippi (Mr. COCHRAN), and the Senator from South Carolina (Mr. THURMOND). It is a well-considered piece of legislation. I move the adoption of the amendment.

The PRESIDING OFFICER. Does the Senator yield back his time?

Mr. SPECTER. Mr. President, I yield back the remainder of my time.

The PRESIDING OFFICER. All time having been yielded back, the question is on agreeing to the amendment offered by the Senator from Pennsylvania (Mr. SPECTER) on behalf of the Senator from Alabama (Mr. HEFLIN).

The amendment (UP No. 1426) was agreed to.

Mr. SPECTER. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. BIDEN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SPECTER. Mr. President, at this time, I ask unanimous consent that letters from various organizations endorsing this bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

COLORADO STATE PATROL,
DEPARTMENT OF HIGHWAYS,
Denver, Colo., November 4, 1982.

Hon. ARLEN SPECTER,
U.S. Senator, Russell Senate Office Building, Washington, D.C.

DEAR SENATOR SPECTER: I wish to offer the support of the Colorado State Patrol and the Colorado State Patrol Academy for your bill, S-2411.

With the demise of LEAA, it is imperative that federal funding be made available for the important job of training law enforcement officers.

I am going to write our State Senators Gary Hart and William Armstrong and urge them also to support this important piece of legislation.

Sincerely,

Col. C. WAYNE KEITH,
Chief.

OFFICE OF PROSECUTION SERVICES,
Montgomery, Ala., November 17, 1982.

Re: S. 2411.

Hon. ARLEN SPECTER,
Russell Senate Office Building, Washington, D.C.

DEAR MR. SPECTER: S. 2411 is important to law enforcement because it would create a new crime control program. Your support is necessary if this critical legislation is to be passed. Alabama District Attorneys respectfully request your support for this bill.

Sincerely,

JOSEPH M. CARLTON, Jr.,
Executive Director.

CALIFORNIA CORRECTIONAL
PEACE OFFICERS ASSOCIATION,
Sacramento, Calif., November 5, 1982.

Hon. JOSEPH BIDEN,
Senate Judiciary Committee, Dirksen Senate Office Building, Washington, D.C.

DEAR SENATOR BIDEN: The California Correctional Peace Officers Association requests your strong support for Senate Bill 2411, commonly referred to as the Justice Assistance Act of 1982.

We are sure you are cognizant of the beneficial aspects of this bill relating to law enforcement activities. I have noted that the bill, S. 2411, authorizes grants providing assistance to implement programs and projects that address the critical problems in the war against crime. CCPOA, representing 7,000 peace officers in the California State Prison and Youth Authority system, is particularly concerned about the current inadequacies of training provided officers who are charged with responsibilities of maintaining law and order within a population of one hundred percent court-certified felons. Senate Bill 2411 would provide funds to increase the training received by these peace officers, which is sorely needed to update the current three weeks training that is currently received. This amount is dismally inadequate to prepare anyone for handling the job they are expected to handle. The result of poor training is staff that are unable to respond to emergencies that eventually get out of hand; hence the "Attica's", the "Santa Fe's", and other riots that cost many, many lives and millions of taxpayer dollars.

Proper training is a key to a properly run law enforcement agency. This perception was underscored by an article that appeared in the American Bar Journal, August 1981. Chief Justice Warren Burger admonished prison administrations to begin to solve prison problems by emphasizing the critical areas of better selection criteria, better training, and better benefits, in an effort to properly select, train and maintain good, able peace officers. While S. 2411 would not affect benefits, it very well could provide the means for establishing improved recruitment criteria and more and better training.

On behalf of the CCPOA I respectfully urge your support for this legislation.

Sincerely,

JEFF THOMPSON,
Executive Director.

STATE OF VERMONT,
OFFICE OF THE ATTORNEY GENERAL,
Montpelier, November 9, 1982.

Re: S. 2411

Hon. HOWARD BAKER,
U.S. Senate, Dirksen Building, Washington, D.C.

DEAR SENATOR BAKER: I understand that S. 2411 was approved by the Senate Judiciary Committee on September 14, and further that the House has adopted similar legislation, H.R. 4481, by a rather overwhelming margin.

As you may know, the National Association of Attorneys General voted its approval of the concepts embodied in these two Bills by resolution in June, 1981. As the Attorney General of a small state, I can tell you that Vermont would benefit greatly from the passage of S. 2411. It would allow us to pursue innovative programs, to increase training for criminal justice personnel, and to provide much needed technical assistance to Vermont communities.

I would hope that the Senate will consider S. 2411 when it returns at the end of the month, especially in light of the overwhelming support expressed so far for this legislation.

Sincerely,

JOHN J. EASTON, Jr.,
Attorney General.

MARSHALL COUNTY
JUVENILE ADVISORY BOARD,
Guntersville, Ala., November 9, 1982.

Hon. ARLEN SPECTER,
Russell Senate Office Building, Washington, D.C. 20510

DEAR SENATOR SPECTER: Senate Bill S. 2411 would establish an important new crime control program. As Chairman of the Juvenile Advisory Board of Marshall County, a 10 member board dedicated to supporting the Juvenile Justice System, I strongly recommend and endorse your action in supporting this bill.

Sincerely,

ROBERT T. GIBBS,
Chairman.

FRATERNAL ORDER OF POLICE,
ILLINOIS STATE LODGE,
Forest Part, Ill., November 10, 1982.

Hon. HOWARD BAKER,
U.S. Senator,
Dirksen Building,
Washington, D.C.

DEAR SENATOR BAKER: On behalf of Illinois State Lodge Fraternal Order of Police, representing over 22,000 working police officers in our state, I am asking you to use all of your influence, before this Congress adjourns, to give consideration to a major piece of legislation still on the Senate calendar.

I specifically refer to S.B. 2411, sponsored by Senator Arlen Spector of Pennsylvania, which in essence creates a successor to LEAA which would provide grants to states and municipalities to fund successful criminal justice programs.

We understand that Senate Bill 2411 replaces LEAA with a new section in the Department of Justice called the Office of Justice Assistance (OJA). The Office of Justice Assistance would be authorized to provide $60 million to states and municipalities for three separate grant programs. All three programs, in my estimation, seem to recodify and, for the sake of brevity, take all that has been accomplished in the past under LEAA and bring it down to three workable programs which would help to continue the fight against crime.

I am sending copies of this letter to our two Senators from Illinois, Alan J. Dixon and Charles H. Percy, asking for their help

to assist you in getting this legislation passed.

Fraternally yours,

RICHARD "DICK" LIS,
President, and
National Vice President.

STATE OF ALABAMA,
DEPARTMENT OF YOUTH SERVICES,
Mt. Meigs, Ala., November 9, 1982.

Hon. ARLEN SPECTER,
Russell Senate Office Building,
Washington, D.C.

DEAR SENATOR SPECTER: I am writing in support of S. 2411 which would create an important new crime control program.

Your recent efforts to secure passage of S. 2411 are commendable. We juvenile justice professionals appreciate your efforts on our behalf and strongly hope that we can count on your continued support when the Senate again takes up S. 2411 after the election recess.

Sincerely,

PEGGY E. GOODWYN,
Youth Services Planning
and Program Administrator.

THE DISTRICT OF COLUMBIA,
Washington, D.C., November 15, 1982.

Hon. ARLEN SPECTER,
Russell Senate Office Building,
Washington, D.C.

DEAR SENATOR SPECTER: The District of Columbia, as the rest of the country, is wrestling with a large crime problem. Your active support of S. 2411 to create a new crime control program was greatly appreciated. I am hopeful that with your continued support when Congress reconvenes we shall see that important program enacted. With the problem of crime so pervasive and complex, it must receive national as well as local priority.

Sincerely,

MARION S. BARRY, Jr.,
Mayor.

STATE OF ALABAMA,
DEPARTMENT OF YOUTH SERVICES,
Mt. Meigs, Ala., November 9, 1982.

Hon. ARLEN SPECTER,
Russell Senate Office Building,
Washington, D.C.

DEAR SENATOR SPECTER: I am writing in support of S. 2411 which would create an important new crime control program.

Your recent efforts to secure passage of S. 2411 are commendable. We juvenile justice professionals appreciate your efforts on our behalf and strongly hope that we can count on your continued support when the Senate again takes up S. 2411 after the election recess.

Sincerely,

GEORGE M. PHYFER,
Executive Director.

GUY L. BURNS,
Birmingham, Ala., November 5, 1982.

Hon. ARLEN SPECTER,
Russell Senate Office Building,
Washington, D.C.

DEAR SENATOR SPECTER: Your efforts to pass Senate Bill S. 2411 are commendable and very much appreciated. We hope we can count on your usual conscientious consideration in passing this important legislation when the Senate convenes.

Respectfully yours,

GUY L. BURNS.

STATE OF ALABAMA,
DISTRICT ATTORNEY,
THIRTY-SECOND JUDICIAL CIRCUIT,
Cullman, Ala., November 17, 1982.

Hon. ARLEN SPECTER,
Russell Senate Office Building,
Washington, D.C.

DEAR SENATOR SPECTER: It is my understanding that Senate Bill 2411, establishing a much needed new criminal control program, will be taken up by Congress when it returns from election recess.

Those of us in law enforcement need this crime control program very badly. Your continued support of this bill will be essential in the enhancement of the over all criminal justice system.

As District Attorney of the Thirty-second Judicial Circuit of Alabama I strongly urge you to continue your support of Senate Bill 2411.

Sincerely yours,

JULIAN BLAND,
District Attorney.

THE VIRGIN ISLANDS OF THE UNITED STATES, OFFICE OF THE GOVERNOR,
St. Thomas, October 20, 1982.

Hon. ARLEN SPECTER,
Russell Senate Office Building,
Washington, D.C.

DEAR SENATOR SPECTER: S. 2411 would create an important new crime control program. Your recent efforts to secure passage of S. 2411 are commendable. I strongly urge you to continue your support for S. 2411 when the Senate again takes it up after the election recess.

Sincerely,

JUAN LUIS, *Governor.*

POLICE TRAINING INSTITUTE,
UNIVERSITY OF ILLINOIS,
Champaign, Ill., November 15, 1982.

Hon. ARLEN SPECTER,
U.S. Senate,
Washington, D.C.

DEAR SENATOR SPECTER: Through the Illinois Local Government Law Enforcement Officers Training Board and the National Association of State Directors of Law Enforcement Training, I have recently become aware of Senate Bill 2411 which is intended to amend the Omnibus Crime Control and Safe Streets Act of 1968.

In reviewing the information I have available, I am of the opinion that it will have a positive impact on the national effort to reduce crime.

I would urge you to support this legislative action.

Sincerely,

CLIFFORD W. VAN METER,
Director.

CHICAGO PATROLMEN'S ASSOCIATION,
Chicago, Ill., November 11, 1982.

Hon. ARLEN SPECTER,
U.S. Senate,
Washington, D.C.

DEAR SENATOR SPECTER: I am writing to you on behalf of the membership of the Chicago Patrolmen's Association, all police officers of the City of Chicago and all law enforcement officers of the State of Illinois, thanking you whole heartedly for your sponsorship of S. 2411, the "Justice Assistance Act of 1982".

The passage of the Omnibus Crime Control and Safe Streets Act of 1968, and subsequent favorable revisions to this Act has greatly benefitted the law enforcement community by providing the necessary funds to implement valuable projects and programs within the administration of criminal justice framework. Great strides and accomplishments have been realized in the areas of juvenile justice, prison overcrowding, crimes against the elderly and most importantly, special and general training for peace officers to ensure competency in administering new programs and projects and to keep abreast of the latest changes in the law and the administration of criminal justice.

I have written to Senators Dixon and Percy of Illinois and Senator Baker of Tennessee fervently urging their support toward the passage of this most important piece of legislation.

Through your sponsorship of S. 2411 you have rendered a great service to all law enforcement officers and to all citizens of the United States.

Very truly yours,

JOSEPH P. PECORARO,
President,
Chicago Patrolmen's Association.

CONFERENCE OF CHIEF JUSTICES,
Monticello, N.Y., October 5, 1982.

Hon. ARLEN SPECTER,
Chairman, Subcommittee on Juvenile Justice, U.S. Senate, Washington, D.C.

DEAR SENATOR SPECTER: I am pleased to forward a resolution by the Conference of Chief Justices in support of S. 2411, the Justices Assistance Act of 1982.

As the resolution indicates, the Conference views S. 2411 as an appropriate and necessary federal response to critical problems facing state and local justice systems.

You also will note that the resolution urges Congress to provide adequate funding in fiscal 1983 and 1984 for the Office of Juvenile Justice and Delinquency Prevention, and for the National Institute of Justice and the Bureau of Justice Statistics.

A similar resolution, adopted by the Conference of State Court Administrators, also is enclosed.

Yours very truly,

HARRY W. SWEGLE,
Washington Liaison.

Enclosure(s).

RESOLUTION ON JUSTICE ASSISTANCE LEGISLATION

Whereas, Juvenile and adult crime continue to pose serious threats to the nation's social, economic, and political well being, and to severely strain the resources of the justice system, and

Whereas, The Conference of Chief Justices, while recognizing that crime is essentially a state and local problem, has supported an appropriate federal role in programs to improve the effectiveness of state and local justice systems, and

Whereas, S. 2411, the Justice Assistance Act of 1982, would continue authority for the National Institute of Justice and the Bureau of Justice Statistics, and establish a limited national discretionary program for training, technical assistance and demostration programs most appropriately funded and administered at the national level, and

Whereas, S. 2411 would assist state court systems individually and nationally in the development and maintenance of information and statistical systems essential to the proper adjudication and administration of their criminal case loads and assist them with other critical problems of the justice system. Now, therefore, be it

Resolved, That the Conference of Chief Justices support the passage of S. 2411, and be it further.

Resolved, That the Conference urges the Congress to provide adequate funding in fiscal 1983 and 1984 for the Office of Juvenile Justice and Delinquency Prevention, and for the National Institute of Justice and the Bureau of Justice Statistics.

Adopted at the 34th Annual Meeting of the Conference of Chief Justices in Jackson Hole, Wyoming on September 18, 1982.

Mr. BAKER. Mr. President, will the Senator from Pennsylvania permit me to interrupt and yield to me for a moment?

Mr. SPECTER. Yes; I yield to the distinguished majority leader.

VISIT TO THE SENATE BY MEMBERS OF THE CANADIAN PARLIAMENT

Mr. BAKER. Mr. President, I am advised by the distinguished senior Senator from New York (Mr. MOYNIHAN) that we have with us a group of Canadian Parliamentarians who are joining us on the floor of the Senate at this time. [Applause.]

RECESS

Mr. BAKER. Mr. President, I ask unanimous consent that the Senate now stand in recess for 1 minute so that we may greet our visitors from Canada.

There being no objection, the Senate, at 4:43 p.m., recessed until 4:46 p.m.; whereupon, the Senate reassembled when called to order by the Presiding Officer (Mr. DURENBERGER).

JUSTICE ASSISTANCE ACT OF 1982

The Senate resumed consideration of the bill.

Mr. SPECTER. Mr. President, I ask unanimous consent that the distinguished Senator from South Carolina (Mr. THURMOND) be added as a cosponsor to S. 2411.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BIDEN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BIDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. THURMOND addressed the Chair.

The PRESIDING OFFICER. The Senator from South Carolina.

UP AMENDMENT NO. 1427

(Purpose: To provide for the establishment of a Commission on the Bicentennial of the Constitution)

Mr. THURMOND. Mr. President, I ask unanimous consent that I may offer an amendment on behalf of the distinguished Senator from Utah (Mr. HATCH) creating a commission to commemorate the bicentennial of the Constitution. This amendment is the same as S. 2671, a bill which unanimously passed the Senate this past October.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. THURMOND. It was also approved by the Judiciary Committee by a voice vote.

Mr. President, because September 17, 1987, is the 200th anniversary of the Constitutional Convention's approval of the great document, we must move expeditiously to provide some Federal involvement in the commemoration of its birth.

Federal involvement is necessary for several practical reasons. Because no enterprise is likely to reach its own objectives without adequate planning, the essential goals of this commemoration depend on coordination and planning that will probably only be undertaken by a Federal body. Private and State authorities should not be responsible to undertake a project to coordinate the commemoration of the birth of the Federal Government, but will undoubtedly look to the Government itself to undertake the task. With all private and State entities deferring to the Federal Government, advance planning is likely to be postponed until too late. Already we are only 5 years away from the commemorative date for the Constitution and only 3 years away from the anniversary of the Mount Vernon Commercial Conference that was an important step toward the monumental meeting of the Constitutional Convention in Philadelphia, May 25, 1787. If planning and coordination is to be undertaken in a timely fashion, the Federal Government will need to inaugurate the process.

A Federal presence in the commemoration effort is also necessary to attract funding from private corporations and foundations. In the absence of a demonstration of interest by the Federal Government, private sources of funding may not be easily persuaded of the importance of supporting this commemoration as they so generously backed the Bicentennial of the Declaration of Independence.

Perhaps the most important reason for Federal involvement, however, was best stated by Gen. William Westmoreland:

> The Federal Government must be involved so that all the people throughout this Nation—from the people in Lexington and Concord, Mass., where the revolution began to the modernday pioneers on the frontiers of Alaska; from the descendants of the Jamestown settlers to the Vietnamese boat people; from the citizens of northeastern Maine to the residents of Niihua Island in Hawaii—realize the great heritage of democracy and personal freedom formulated by the Constitutional Convention in 1787 and protected and strengthened by following generations.

Only when there is a national focus can there be a genuine general commemoration or rededication at the 200th anniversaries of the fundamental documents which have formed and maintained our democratic Government. Hearing, supra.

If this is to be a successful national celebration of all the people, then the only entity which expresses the will of all the people of the United States must acknowledge the anniversary of the document which has guaranteed the liberties of those people.

Accordingly, after months of contemplating the appropriate degree of Federal commitment to this objective, all Senators on the Subcommittee on the Constitution joined me in the introduction of S. 2671, a bill to establish a commission to coordinate the commemoration of the bicentennial of the Constitution. This bill contemplates a modest role for the Federal Commission of encouraging and coordinating commemoration activities.

S. 2671 further contemplates a commemoration consisting of more enduring activities than a series of pyrotechnic displays and parades. While celebrative activities are important to rekindle our national pride in the Constitution, a national reexamination of our Nation's common principles and their embodiment in the language of the Constitution is perhaps more important.

S. 2671 is true to the Constitution's enlightened principle of federalism by recognizing a pivotal role for the States. The Federal Bicentennial Commission, under the plan envisioned in S. 2671, will play an important role as a coordinator, but will only undertake a limited number of worthy projects. States, on the other hand, should perceive no limits on the activities within the will of their citizens. The Federal Commission should encourage such State activities.

S. 2671 is also true to the Constitution's principle of limited National Government in that it recognizes a leading role for the private sector. Private organizations throughout the Nation and in every community will perhaps carry the greatest weight in making this commemoration significant. The Federal Commission should encourage such private activities to make the Constitution's message meaningful in each of America's communities and homes.

S. 2671 is also true to the Constitution's respect for a diversity of thought and expression. The Federal Commission created by S. 2671 will not espouse any single, narrow view of what is most important about the Constitution or its historical development. The Federal Commission's focus should be the men and events of 1787, not controversial interpretations of 1987; the Federalist Papers and the ratification debates in the States, on the textbooks of modern law schools;

the substantive provisions of our Nation's foundational document, not the proposed legislative agenda of any single party or group.

One final observation argues strongly for creation of a commission to commemorate the bicentennial of the U.S. Constitution. This point calls to mind the Declaration of Independence and the celebration of its Bicentennial 6 years ago. The culminating moment of that celebration came on July 4, 1976, when we as a nation paused to rejoice and reflect upon the document that enunciated the intent of the American people to be free. We are all familiar with the aspirational language of that document:

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights, that among these are life, liberty, and the pursuit of happiness.

With this elevating affirmation of purpose, the former colonies of Britain in the new world embarked on a course that would produce the United States of America. A war, a loosely bound confederation of sovereign States, and 11 difficult years came between the aspirations of the Declaration and the contract between the people and the States to carry out its noble objectives.

These two documents, the Declaration and the Constitution, launched the free peoples of America upon a course of self-government—a course we have learned is fraught with responsibilities and obligations as well as opportunities and liberties. In the words of Abraham Lincoln:

All this is not the result of an accident. It has a philosophical cause. Without the Constitution and the union, he could not have attained the result; but even these, are not the primary cause of our great prosperity. There is something back of these, entwining itself more closely about the human heart. That something, is the principle of "Liberty to All"—the principle that clears the path for all—gives hope to all—and, by consequence, enterprise and industry to all. The expression of that principle, in our Declaration of Independence, was most happy and fortunate. (Fragment on the Constitution", Lincoln, A., quoted in "The Living Constitution," Padover, Saul, p. 65.)

As Lincoln realized, the Declaration expressed the goal, the motivating philosophy; the Constitution created the structure to "attain the result." In one sense, the Declaration was the "end," the Constitution the "means" of the American experiment in self-rule.

This brief discussion of the interrelationship between these two documents is relevant to S. 2671 because the United States has already committed vast resources to commemorating the inauguration of our independence with the signing of the "ends" document. Soon the bicentennial of the signing of the "means" document will be upon us. S. 2671 does not ask for vast resources, but it does ask the Federal Government to recognize what Prime Minister William Gladstone of Britain, on the occasion of the Constitution's centennial, called:

The most remarkable work known to me in modern times to have been produced by the human intellect.

I send the amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from South Carolina (Mr. THURMOND), on behalf of Mr. HATCH, proposes an unprinted amendment numbered 1427.

Mr. THURMOND. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place add the following:

TITLE —

SEC. . There is established a Commission on the Bicentennial of the United States Constitution, hereinafter referred to as the "Commission".

FINDINGS

SEC. . The Congress finds that—

(1) the bicentennial of the Constitutional Convention's adoption of the Constitution occurs on September 17, 1987;

(2) the Constitution enunciates the limitations on government, the inalienable rights of man, and the timeless principles of individual liberty and responsibility for the people of the United States of America;

(3) this document has set an enduring example of representative democracy for the world; and

(4) the maintenance of the common principles that animate our Republic depend upon a knowledge and understanding of their roots and origins.

PURPOSE

SEC. . It is the purpose of this title to establish a Commission to promote and coordinate activities to commemorate the bicentennial of the Constitution.

MEMBERSHIP

SEC. . (a) The Commission shall be composed of sixteen members as follows:

(1) thirteen members appointed by the President, three of whom shall be appointed from among the recommendations made by the Speaker of the House of Representatives, three of whom shall be appointed from among the recommendations made by the President pro tempore of the Senate, in consultation with the majority leader and minority leader of the Senate, and three of whom shall be appointed from among the recommendations made by the Chief Justice of the United States;

(2) the chairman of the Committee on the Judiciary of the House of Representatives;

(3) the chairman of the Committee on the Judiciary of the Senate; and

(4) the Chief Justice of the United States.

(b) Such members shall be chosen from among individuals who have demonstrated scholarship, a strong sense of public service, and abilities likely to contribute to the fulfillment of the duties of the Commission.

(c) Members of the Commission shall be appointed for the life of the Commission.

(d) The Commission shall select a chairman from among its members who shall serve as Chairman for the life of the Commission.

(e) Eight members of the Commission shall constitute a quorum, but a lesser number may conduct meetings.

(f) A vacancy in the Commission resulting from the death or resignation of a member shall not affect its powers, and shall be filled in the same manner in which the original appointment was made.

ADMINISTRATIVE PROVISIONS AND POWERS

SEC. . (a) The Commission shall appoint a staff director who shall be paid at a rate not to exceed the rate of basic pay provided for level V of the Executive Schedule pursuant to section 5316 of title 5, United States Code.

(b) The Commission is authorized to appoint and fix the compensation, without regard to the provision of title 5, United States Code, governing appointments in the competitive service, and without regard to chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, of such additional publicly paid personnel up to five persons, as the Chairman finds necessary to carry out the purposes of this title. Such personnel shall be compensated at a rate not to exceed a rate equal to the maximum rate for GS-18 of the General Schedule under section 5332 of title 5, United States Code. The Commission may hire additional personnel out of private donations.

(c) Each member of the Commission shall serve without comnpensation, except that each member shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

(d) The Commission may procure temporary or intermittent services under section 3109(b) of title 5, United States Code, at a rate of pay not to exceed the rate of basic pay for GS-15 of the General Schedule under section 5332 of title 5, United States Code.

(e) The Commission is authorized to procure supplies, services, and property, and make contracts, in any fiscal year, only to such extent or in such amounts as are provided in appropriations Acts.

(f) The Commission is authorized to enter into agreements with the General Services Administration for procurement of necessary financial and administrative services, for which payment shall be made by reimbursement from funds of the Commission in such amounts as may be agreed upon by the Chairman and the Administrator of the General Services Administration.

(g) The Commission is authorized to accept, use, solicit, and dispose of donations of money, property, or personal services.

(h) The Commission may use the United States mails in the same manner and upon the same conditions as other departments and agencies of the United States.

(i) The Commission shall have the authority to design and use a logo as the official emblem of the bicentennial. The Commission shall issue rules and regulations regarding the use of such logo, as they deem appropriate to carry out the purposes of this title.

DUTIES OF THE COMMISSION

SEC. . (a) The Commission shall—

(1) plan and develop activities appropriate to commemorate the bicentennial of the

Constitution, including limited number of projects to be undertaken by the Federal Government seeking to harmonize and balance the important goals of ceremony and celebration with the equally important goals of scholarship and education;

(2) encourage private organizations, and State and local governments to organize and participate in bicentennial activities commemorating or examining the drafting, ratification, and history of the Constitution and the specific features of the document;

(3) coordinate, generally, activities throughout all of the States; and

(4) serve as a clearinghouse for the collection and dissemination of information about bicentennial events and plans.

(b) In planning and implementing appropriate activities to commemorate the bicentennial, the Commission shall give due consideration to—

(1) the historical setting in which the Constitution was developed and ratified, including such antecedents as the Federalist Papers, the Articles of the Confederation, and the ratification debates in the States;

(2) the contribution of diverse ethnic and racial groups;

(3) the relationship and historical development of the three branches of the Government;

(4) the importance of activities concerning the Constitution and citizenship education throughout all of the States regardless of when such State achieved statehood;

(5) the unique achievements and contributions of the participants in the Constitutional Convention of 1787 and the State ratification proceedings;

(6) the diverse legal and philosophical views regarding the Constitution;

(7) the need for reflection upon both academic and scholarly views of the Constitution and the principle that the document must be understood by the general public;

(8) the substantive provisions of the Constitution itself; and

(9) the impact of the Constitution on American life and government.

(c) The Commission shall seek the cooperation, advice, and assistance from both private and governmental agencies and organizations, including the National Endowment for the Arts, the National Endowment for the Humanities, the Library of Congress, the Smithsonian Institution, the National Archives, the Department of the Interior, State and local governments, learned societies, academic institutions, and historical, partriotic, philanthropic, civic, and professional groups, and bar associations.

(d) The Commission may, in carrying out the purposes of this title, delegate authority to State advisory commissions to assist in implementing this title.

(e) Within two years after the date of enactment of this title, the Commission shall submit to the President and each House of the Congress and the Judicial Conference a comprehensive report incorporating specific recommendations of the Commission for commemoration and coordination of the bicentennial and related activities. Such report shall include recommendations for publications, scholarly projects, conferences, programs, films, libraries, exhibits, ceremonies, and other projects, competitions and awards, and a calendar of major activities and events planned to commemorate specific historical dates. Each year after such comprehensive report, the Commission shall submit an annual report to the President and each House of the Congress and the Judicial Conference until such Commission terminates.

TERMINATION

SEC. . The Commission shall terminate on December 31, 1989.

AUTHORIZATION OF APPROPRIATIONS

SEC. . There are authorized to be appropriated for purposes of this title $300,000 for fiscal year 1983 and such sums as may be necessary for the subsequent fiscal years through fiscal year 1989.

Mr. BIDEN. Mr. President, this amendment has been cleared with the leadership on this side, qualifies under the order, and there is no objection to the amendment.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (UP No. 1427) was agreed to.

Mr. THURMOND. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. BIDEN. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BAKER. Mr. President, might I inquire of the managers of the bill if there are other amendments which qualify under the order or further debate on the bill?

Mr. SPECTER. If the distinguished Senator from Delaware is prepared to yield back the remainder of his time, I am prepared to yield back the remainder of my time.

Mr. BIDEN. Mr. President, I am prepared to yield back the remainder of my time. I think we are ready to go to final passage.

● Mr. MOYNIHAN. Mr. President, I rise today in support of S. 2411, the Justice Assistance Act of 1982 introduced originally by my distinguished colleague from Pennsylvania (Mr. SPECTER). This measure will renew Federal criminal justice assistance to State and local law enforcement efforts and the bipartisan support shown for this measure is a tribute to the need for fostering better support for law enforcement agencies at the local level.

Although primary responsibility for law enforcement rests with the States and localities, crimes of violence and theft increasingly threaten the safety and security of our Nation's citizens each year. Close to 25 million households—30 percent of all households in America—were victimized by a crime of violence or theft last year alone.

As early as 1965, I remarked that the problem of street crime was one of the oldest and most divisive issues confronting Government officials. Today the problem continues to grow and the urgent need for action persists. The present situation in my own State of New York is dramatized by recent FBI statistics showing a significant increase in the number of violent crimes and thefts between the years 1970 and 1981. The homicide rate increased by 51 percent, forcible rapes by 94 percent, aggravated assaults by 58 percent, burglaries by 36 percent, larcenies by 188 percent, and motor vehicle thefts by 10 percent.

Faced with these rising crime statistics, it is indeed difficult for me to understand the attempts of the present administration to dismantle the research and assistance programs previously established under the Law Enforcement Assistance Administration (LEAA). Earlier this year, the president of the International Association of Chiefs of Police sharply criticized the administration's plan to eliminate the LEAA and warned that unless President Reagan supplies more money and leadership to back up his promise to wage war on crime, "the next step that would occur is vigilante movements."

Now is the time for Members of the Senate, on both sides of the aisle, to join together in order to provide the necessary resources for the development of new and innovative approaches to solving the national problem of violent crime, and to focus those resources where they are needed most. The $125 million authorization for the new Office of Justice Assistance (OJA) and the existing National Justice Institute (NJI) and National Bureau of Statistics (NBS) is a modest investment in the protection and security of our citizens.

The legislation embodied in S. 2411 retains the best features of the LEAA programs while providing a more efficient organizational structure. State and local governmental units will be encouraged to make a commitment to program and projects supported by national priority grants by inclusion of cash matching requirements. The elimination of block grants will allow for better distribution of these funds, used to promote programs with a proven record of success, through a process of direct application. The OJA will also have the authority to make discretionary grants for educational and training programs and technical assistance, as well as the ability to provide aid to State and local governments faced with criminal justice emergencies of overwhelming proportions.

In the past my home State has greatly benefited from the many programs receiving LEAA grant aid. The career criminal program and the prosecutors management information system (PROMIS) have both been utilized extensively. A project worthy of special note was the Bronx County MOB (Major Offense Bureau), nationally recognized as an "Exemplary Project" which has resulted in the sentencing of violent, career criminals to lengthy terms in prison. Other local programs designed to foster better police-community relations and to provide in-service and supervisory train-

ing for police have had very positive effects.

I believe that the purposes of this act are in accord with both the anti-crime program offered to Congress by President Reagan and the findings of the Attorney General's task force on violent crime. A wide spectrum of national criminal justice organizations support the passage of this legislation and I urge my colleagues to vote for passage of S. 2411. The American people should expect nothing less.●

The PRESIDING OFFICER. The bill is open to further amendment. If there be no further amendment to be proposed, the question is on the engrossment and the third reading of the bill.

The bill was ordered to be engrossed for a third reading and was read the third time.

Mr. SPECTER. Mr. President, on behalf of Chairman THURMOND, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of H.R. 4481, the Justice Assistance Act of 1981, and that the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. The bill will be stated by title.

The assistant legislative clerk read as follows:

A bill (H.R. 4481) to amend the Omnibus Crime Control and Safe Streets Act of 1968, and for other purposes.

The PRESIDING OFFICER. Without objection, the Senate will proceed immediately to the consideration of the bill.

Mr. SPECTER. Mr. President, I move that all after the enacting clause of H.R. 4481 be stricken and that the text of S. 2411, as amended, be inserted in lieu thereof.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Pennsylvania.

The motion was agreed to.

The PRESIDING OFFICER. The question is on the engrossment of the amendment and the third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall it pass?

Mr. SPECTER. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The question is, Shall the bill pass. The yeas and nays have been ordered.

Mr. EAST. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. EAST. As I recall, I had 13 minutes of time remaining on my side. Is that correct?

The PRESIDING OFFICER. The Senator had 12 minutes of time remaining.

Mr. EAST. May I have one moment, please, Mr. President?

Mr. SPECTER. Mr. President, I ask unanimous consent that the request for the yeas and nays be vitiated.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Is there further debate?

Mr. EAST. Mr. President, the yeas and nays have been vitiated?

The PRESIDING OFFICER. Yes.

Mr. EAST. I yield back my time.

The PRESIDING OFFICER. All time has been yielded back. The question is, Shall the bill pass?

The bill (H.R. 4481), as amended, was passed.

Mr. THURMOND. I move to reconsider the vote by which the bill was passed.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. SPECTER addressed the Chair.

The PRESIDING OFFICER. The Senator from Pennsylvania is recognized.

Mr. SPECTER. Mr. President, I move that the Senate insist on its amendments and request a conference with the House on the disagreeing votes of the two Houses thereon and that the Chair be authorized to appoint conferees.

The motion was agreed to and the Presiding Officer appointed Mr. THURMOND, Mr. SPECTER, Mr. MATHIAS, Mr. EAST, Mr. BIDEN, Mr. KENNEDY, and Mr. HELFIN conferees on the part of the Senate.

Mr. SPECTER. Mr. President, I ask unanimous consent that the Senate consideration of S. 2411 be indefinitely postponed.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. THURMOND. Mr. President, I should like to take this opportunity to commend the able Senator from Pennsylvania on the splendid manner in which he handled this bill.

I also commend the able Senator from Delaware, the ranking member of the Committee on the Judiciary, for the excellent manner in which he cooperated in managing this bill. He has always proven very helpful in matters on the Judiciary Committee and matters on the floor. I especially wish to pay my respects to him and again thank him and the able Senator from Pennsylvania.

Mr. BIDEN. I thank the Senator.

Mr. SPECTER. I thank the chairman.

Mr. President, I thank the distinguished Chairman of the Committee on the Judiciary for assisting in the consideration of this bill at this time and during the course of the hearings.

I thank the majority leader for making time available on what is a very pressing calendar.

ORDER TO RESCIND THE ORDER FOR PRINTING OF THE JUSTICE ASSISTANCE ACT

Mr. STEVENS. Mr. President, I ask unanimous consent that the order entered to print in the RECORD the Justice Assistance Act be rescinded.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. STEVENS. Mr. President, I ask unanimous consent that that bill not be engrossed but be held awaiting further action tomorrow.

The PRESIDING OFFICER. Without objection, it is so ordered.

BUDGET WAIVER FOR RADIO MARTI

Mr. BAKER. Mr. President, what is the business pending before the Senate?

The PRESIDING OFFICER. The pending business is the motion to waive the provisions of the Budget Act for the consideration of H.R. 5427.

Mr. BAKER. Mr. President, there is an order, I believe, for the recognition of the Senator from Nebraska at this point, is there not?

The PRESIDING OFFICER. The Senator is correct.

Mr. BAKER. Will the Senator from Nebraska consider the possibility of renewing his unanimous-consent request in preparation for yielding to me?

Mr. ZORINSKY. Mr. President, under the precedents of the Senate, I shall be happy to yield to the majority leader providing that I can be accorded unanimous consent to be recognized first to resume when this question is again brought before the Senate today, tomorrow, or any other day; and that the continuation of my remarks at this time be viewed as an extension of my remarks today and not as a second speech under the two-speech rule.

The PRESIDING OFFICER. Is there objection?

Mr. METZENBAUM. Objection.

The PRESIDING OFFICER. Objection is heard.

Mr. BAKER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. RUDMAN). Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, I wonder if the Senator from Nebraska would make his usual and customary request at this time in respect to the motion to waive section 402(a) of the Budget Act.

Let me say before he does so, that it is my intention after he does that to ask the Senate to create a period for the transaction of routine morning business, and after that period is ended, to go out until tomorrow.

Mr. President, I now yield to the Senator if the Senator wishes me to do so.

Mr. ZORINSKY. I thank the majority leader.

Mr. President, under the precedents of the Senate, I wish to yield to the majority leader (Mr. BAKER), provided that I am accorded unanimous consent to be recognized first.

I ask unanimous consent that I be recognized first to resume when this question is again brought before the Senate today, tomorrow, or any other time, and that the continuation of my remarks at that time will be viewed as an extension of the first speech and not as a second speech under the two speech rule.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, I ask unanimous consent that there now be a brief period for the transaction of routine morning business to extend not past the hour of 6 p.m. in which Senators may speak for not more than 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS, 1983—H.R. 7356

EXPLANATORY STATEMENT OF THE COMMITTEE ON APPROPRIATIONS

Mr. McCLURE. Mr. President, the Interior appropriations bill for fiscal year 1983 (H.R. 7356) was reported to the Senate on Wednesday, December 9. Because of the limited time remaining in this postelection session, the committee agreed that it would not be possible to file a written report of its recommendations, await expiration of the required 3 days, and expect full floor debate and consideration of the measure.

While the bill is not accompanied by a written report, the committee has prepared an extensive explanation of the measure and each recommended change (attached). This explanation closely follows the format of a committee report, had one been filed, and in the absence of a written report, represents the intent and views of the committee.

EXPLANATORY STATEMENT OF THE RECOMMENDATIONS OF THE SENATE COMMITTEE ON APPROPRIATIONS ON THE DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATION BILL, 1983 (H.R. 7356)

The Committee on Appropriations, to which was referred this bill (H.R. 7356) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1983, and for other purposes, reports the same to the Senate with various amendments and presents herewith information relative to the changes recommended:

FISCAL YEAR 1983

Amount of bill as passed by House	$7,386,522,000
Amount of increase by Senate	5,085,000
Total of bill as reported by Senate	7,391,607,000
Estimates considered by House	6,550,251,000
Estimates considered by Senate	6,550,251,000
The bill as reported to the Senate:	
Over the budget estimate, 1983	841,356,000
Under appropriations, 1982	133,070,000

SUMMARY OF BILL

For this bill, estimates totaling $6,550,251,000 in new obligational authority were considered by the Committee for the programs and activities of the agencies and bureaus of the Department of the Interior, except the Bureau of Reclamation, and the following related agencies:

Department of Agriculture: Forest Service.

Department of Energy: Fossil energy; Naval petroleum and oil shale reserves; Conservation (except energy storage systems); Economic Regulatory Administration; Strategic petroleum reserve; SPR Petroleum Account; Energy Information Administration.

Department of Health and Human Services: Indian Health Service.

Department of Education: Indian Education Act; Institute of Museum Services.

Navajo and Hopi Relocation Commission.

Smithsonian Institution.

National Gallery of Art.

Woodrow Wilson International Center for Scholars.

National Foundation on the Arts and Humanities.

Commission of Fine Arts.

Advisory Council on Historic Preservation.

National Capital Planning Commission.

Pennsylvania Avenue Development Corporation.

Federal Inspector of the Alaska Gas Pipeline.

Holocaust Memorial Council.

Native Hawaiians Study Commission.

The Committee recommends appropriations totaling $7,391,607,000 for the programs and activities in this bill. This is an increase of $841,356,000 in the budget estimates and an increase of $5,085,000 above the House allowance.

REVENUE GENERATED BY AGENCIES IN BILL

Oil and gas leasing and other mineral leasing activities, the timber and range programs, and oil production from the Naval petroleum reserves will generate income to the Government in excess of $20.6 billion in fiscal year 1983. These estimated receipts are tabulated below:

[In thousands of dollars]

	Fiscal year—		
	1981	1982	1983
Department of the Interior	11,592,063	8,956,262	17,463,158
Forest Service	1,091,787	1,139,247	1,424,425
Naval petroleum and oil shale reserves	1,666,400	1,670,200	1,780,900
Total	14,350,250	11,765,709	20,668,483

MAJOR CHANGES RECOMMENDED IN THE BILL

In an effort to honor congressional spending limitations, the Committee has developed substantial revisions in both the budget and House allowance for the 1983 fiscal year.

A comparative summary of funding in the bill by agency is shown by agency or principal program in the following table:

	Committee recommendation	Committee recommendation compared with—	
		Budget estimate	House allowance
Title I—Department of the Interior:			
Bureau of Land Management	$513,271,000	$451,319,000	$489,225,000
Fish and Wildlife Service	265,213,000	233,194,000	307,334,000
National Park Service	853,321,000	743,434,000	942,553,000
Geological Survey	358,765,000	376,820,000	371,925,000
Minerals Management Service	196,506,000	196,506,000	20,778,000
Bureau of Mines	142,162,000	125,676,000	128,629,000
Office of Surface Mining Reclamation and Enforcement	216,468,000	159,822,000	187,922,000
Bureau of Indian Affairs	1,005,424,000	1,022,035,000	1,021,072,000
Territorial Affairs	180,269,000	130,976,000	151,843,000
Office of the Solicitor	19,071,000	19,071,000	17,904,000
Office of the Secretary	73,186,000	65,022,000	70,789,000
Total, Title I—Department of the Interior	3,822,760,000	3,523,875,000	3,709,974,000
Title II—Related Agencies:			
Forest Service	1,522,091,000	1,493,937,000	1,485,317,000
Department of Energy	826,150,000	443,058,000	926,760,000
Indian Health	654,474,000	613,280,000	682,540,000
Indian Education	65,519,000	51,119,000	66,216,000
Navajo and Hopi Indian Relocation Commission	7,665,000	13,403,000	9,359,000
Smithsonian Institution	151,249,000	156,110,000	159,276,000
National Gallery of Art	32,228,000	32,673,000	34,839,000
Woodrow Wilson International Center for Scholars	2,321,000	2,255,000	2,255,000
National Endowment for the Arts	143,875,000	100,875,000	143,875,000
National Endowment for the Humanities	130,060,000	96,000,000	130,560,000
Institute of Museum Services	10,800,000	.....	10,800,000
Commission of Fine Arts	319,000	319,000	319,000
Advisory Council on Historic Preservation	1,000,000	1,000,000	1,600,000
National Capital Planning Commission	2,279,000	2,202,000	2,279,000
Pennsylvania Avenue Development Corporation	11,175,000	12,200,000	12,300,000
Federal Inspector for the Alaska pipeline	6,125,000	7,125,000	6,125,000
Holocaust Memorial Council	820,000	820,000	820,000
Native Hawaiians Study Commission	(190,000)	200,000	(190,000)
Executive Office of the President			2,005,000

	Committee recommendation	Committee recommendation compared with—	
		Budget estimate	House allowance
Total, Title II—Related Agencies	3,568,847,000	3,026,376,000	3,676,548,000
Grand total	7,391,607,000	6,550,251,000	7,386,522,000

REPROGRAMING PROCEDURES

Procedures governing reprograming actions for programs and activities in this bill were last stated in Senate Report 95-1063, and House Report 95-1251. Specific revisions have occurred since that time. In an effort to assure that the guidelines are clearly understood, the Committee wishes to restate those guidelines to include the revisions.

1. Definition.—"Reprograming," as defined in these procedures, includes the reallocation of funds from one budget activity to another. In cases where either Committee report displays an allocation of an appropriation below the activity level, that finer level of detail shall be the basis for reprograming. For construction accounts, a reprograming constitutes the reallocation of funds from one construction project identified in the justifications to another. A reprograming shall also consist of any significant departure from the program described in the agency's budget justifications. This includes proposed reorganizations.

2. Criteria for reprograming.—*(a)* Any project or activity which may be deferred through reprograming shall not later be accomplished by means of further reprograming; but, instead, funds should again be sought for the deferred project or activity through the regular appropriation process.

(b) A reprograming should be made only when an unforeseen situation arises; and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage. Mere convenience or desire should not be factors for consideration.

(c) Reprograming should not be employed to initiate new programs or to change allocations specifically denied, limited or increased by the Congress in the act or the report. In cases where unforeseen events or conditions are deemed to require such changes, proposals shall be submitted in advance to the Committee, regardless of amounts involved, and be fully explained and justified.

3. Reporting and approval procedures.—*(a)* Any proposed reprograming must be submitted to the Committee in writing prior to implementation if it exceeds $250,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs, with the following exceptions:

(1) Any land purchase not exceeding $100,000.

(2) Any construction project not exceeding $100,000, or which results in an increase or decrease of not more than 25 percent annually.

(3) Savings from a construction project in one of the Trust Territory governments may be applied to a shortfall on another project in the same area.

Timely reports on these reprogramings shall be forwarded to the Committee by the Department.

(b) All reprogramings shall be reported to the Committee quarterly and shall include cumulative totals.

(c) Any significant shifts of funding among object classifications should also be reported to the Committees in a timely manner.

(d) Reprograming proposals submitted to the Committee for prior approval shall be considered approved after 30 calendar days if the Committee has posed no objection. However, agencies will be expected to extend the approval deadline if specifically requested by either Committee.

4. Administrative overhead accounts.—For all appropriations where costs of overhead administrative expenses are funded in part from "assessments" of various budget activities within an appropriation, the assessments shall be shown in justifications under the discussion of administrative expenses.

5. Contingency accounts.—For all appropriations where assessments are made against various budget activities or allocations for contingencies, the Committee expects a full explanation, separate from the justifications. The explanation shall show the amount of the assessment, the activities assessed, and the purpose of the fund. The Committee expects reports each year detailing the use of these funds. In no case shall such a fund be used to finance projects and activities disapproved or limited by Congress or to finance new permanent positions or to finance programs or activities that could be foreseen and included in the normal budget review process. Contingency funds shall not be used to initiate new programs.

SUMMARY TABLE.—LAND AND WATER CONSERVATION FUND

	Budget	House	Senate
BLM	$468,000	$468,000	$311,000
FWS	1,567,000	33,647,000	19,048,000
NPS:			
State grants		75,000,000	75,000,000
Federal acquisitions	59,650,000	88,648,000	49,400,000
Pinelands	126,000	8,995,000	5,000,000
Subtotal	59,776,000	172,643,000	129,400,000
FS	7,563,000	53,476,000	55,117,000
Total	69,374,000	260,234,000	203,876,000

TITLE I—DEPARTMENT OF THE INTERIOR

LAND AND WATER RESOURCES

BUREAU OF LAND MANAGEMENT

MANAGEMENT OF LAND AND RESOURCES

1982 appropriation	$423,638,000
1983 budget estimate	329,577,000
House allowance	322,963,000
Committee recommendation	331,716,000

The Committee recommends an appropriation of $331,716,000, an increase of $2,139,000 over the budget estimate. A comparison of Committee recommendations with the budget estimate is as follows:

	Budget estimate	Committee recommendations	Change
Energy onshore	$44,772,000	$44,312,000	−$460,000
Energy offshore	(43,950,000)		(43,950,000)
Non-energy onshore	10,179,000	10,179,000	
Lands and realty management	35,638,000	35,638,000	
Forest management	6,051,000	6,051,000	
Range management	36,581,000	40,381,000	+3,800,000
Soil, water, and air management	14,772,000	14,772,000	
Wildlife habitat management	13,642,000	14,942,000	+1,300,000
Recreation management	21,975,000	22,175,000	+200,000
Fire management	9,234,000	9,234,000	
Planning and data management	20,041,000	19,859,000	−182,000
Cadastral survey	20,281,000	19,881,000	−400,000
Firefighting and rehabilitation	4,750,000	4,750,000	
Law enforcement	2,004,000	2,004,000	
Maintenance and engineering services	11,014,000	10,804,000	−210,000
General administration	78,643,000	76,734,000	−1,909,000
Total, Management of lands and resources	329,577,000	331,716,000	+2,139,000

Energy onshore.—The Committee recommends $44,312,000, a reduction of $460,000 from the budget estimate.

Coal, geothermal, and oil and gas leasing are funded at the requested level and the Committee directs that these activities continue at the budget level in fiscal year 1983. The Committee recommends reducing funding for oil shale and tar sands leasing by $460,000, and understands that this level will permit continuation of the program in fiscal year 1983.

The House report has a lengthy discussion of mineral leasing activities, criticizing a number of aspects of the Department's programs ar d concluding that the House Committee cannot agree with the scope or magnitude of the changes proposed by the Department with regard to its minerals leasing programs.

The House Committee is concerned that an accelerated leasing program is not economically justifiable, due to the currently depressed minerals markets. The Department's program will generate short-term revenues in the form of bonus bids and long-term revenues in the form of rents and royalties. The major income to the Federal Government is generally reflected in royalty payments which are generated as the minerals are mined. The House is also concerned that the Department is relaxing diligence requirements that will have the effect of encouraging less production. It is the Committee's understanding that no changes have been made in the oil and gas program. The geothermal program has a proposal that will permit the lease holders to substitute other beneficial actions as an expression of diligence in lieu of production. These changes include encouraging additional exploration or a higher per acre rental fee.

Regarding the need for additional competitive bidding, competitive bidding for oil and gas leasing takes place on lands designated as known geologic structures (KGS) and favorable petroleum geologic provinces (FPGP) in Alaska. The designation of KGS or FPGP is made by the Minerals Management Service pursuant to the requirements of the Mineral Leasing Act of 1920, as amended. All Federal coal is offered by means of a competitive lease sale system. The Committee would also point out that the issue of additional competitive leasing has been debated in Congress on numerous occasions and the Committee believes that the current situation best serves the Government's interest and the taxpayer's interest.

The House report recommends a postponement of two coal sales planned and budgeted for late fiscal year 1983, at least until the House Appropriations Committee Investigative Staff concludes a review. The Committee has included language urging the Department to proceed with those sales in fiscal year 1983 and notes that postponement of those sales will result in a loss in bonus bids extimated at $12,200,000 in fiscal year 1983, as well as probably delaying the four coal sales scheduled in fiscal year 1984.

The House Committee report expresses concern about the legal basis for contingent

rights stipulations in leases. While the issue is not without legal doubt, the Committee understands that the only court opinion to date has held that a lease incorporating contingent rights stipulations that has been accepted but the leasee would be enforceable.

Finally, the Committee notes that concern is also expressed in the House report regarding the number of leases currently producing. These leases are available for production quickly in response to national security situations, and without those leases in place, the country would not be able to respond in as timely a manner.

The Committee notes that the budget estimate includes $380,000 for operations in the Steese National Conservation Area and the White Mountain National Recreation Area. The Committee expects the Bureau to continue efforts in fiscal year 1983 at a rate to complete the necessary planning by December 1984.

The Committee also supports administration effors to eliminate leasing backlogs and to increase attention to post-lease activities.

Energy offshore.—The Committee recommends no funding for BLM for this program. Funds are provided to the new Minerals Management Service for offshore activities.

Nonenergy onshore.—The Committee provides $10,179,000, the same as the budget.

Lands and realty management.—The Committee recommends $35,638,000, the same as the budget. The Committee would like BLM to develop a proposal to lower the threshold for rights-of-way cost recovery from the current level of $5,000 and submit such a proposal with the fiscal year 1984 budget, including a full discussion of the impacts. The Committee is interested in recovering costs for rights-of-way Activities to the maximum practicable and legal amount.

The Committee supports full implementation of the Alaska National Interest Lands Conservation Act, including the conveyance of 4,500,000 acres to the Alaska Natives and 13,000,000 acres to the State, as well as 2,500 Native allotment cases. This conveyance schedule will be maintained by the Committee's recommended funding level.

Forest management.—The Committee recommends an appropriation of $6,051,000, the same as the budget estimate.

Range management.—The Committee recommends an appropriation of $40,381,000 for BLM's range management program, an increase of $3,800,000 over the budget.

The budget would have reduced on-the-ground improvements. The Committee has restored these funds to the 1983 base level. The Committee endorses the administration's efforts to move to long-term monitoring of range capacity rather than intensive, one-shot inventories.

The Committee notes with concern the House report language stating that grazing permits and investments in public lands improvements are beneficial only to a small, select group. The permittees are not the only beneficiary of range improvements or of grazing management funding. In fact, the primary benefit is the protection of the vegetative and land and water resource base. The House action will deny needed improvements in grazing management activities to the detriment of the resource base, not just to the detriment of the permittee. This Committee is committed to protecting that resource base.

Additional benefits are in terms of wildlife habitat; soil and water quality; watershed protection; additional forage for nongame species; and the ultimate production of red meat for consumption by the taxpayers of the United States.

The grazing fee formula is not an administratively government process. It was established by the Congress in the Public Rangelands Improvement Act of 197[illegible] (PRIA). To compare only direct receipts from permittees to Federal expenditures and to conclude that receipts are inadequate on that basis alone is to deny all of the other benefits. PRIA calls for a review of the formula after 7 years and a report is expected in 1985. The BLM and the Forest Service and the Economic Research Service are currently conducting a variety of analyses of the grazing fee. To contemplate a return to the prior forage value formula prior to meeting the congressional directives in PRIA would be inappropriate, in the judgment of the Committee.

The Committee recommends striking of House proposed language prohibiting the establishment of any possessory interest in Federal water rights by any permittee. The Committee does not understand the intent or meaning of the House language. In any reasonable application of fact, the Committee concludes that the language is overly broad or vague.

The Committee notes that the House has added $1,000,000 over the budget to increase the number of animals removed from the range and to provide for them until adopted. The BLM advises this Committee that there are currently estimated to be about 57,000 wild horses and burros on the range and that a removal rate of about 9,000 animals per year will maintain zero population growth. There are presently about 1,475 excess animals in corrals and their maintenance (feed) costs are estimated at about $870,000 per year. The budget estimate permits removal of the required 9,000 animals per year. The Committee, however, remains concerned that the long-term solution to the wild horse and burro problem is not to engage in an argument over adoption rates or even necessarily removal rates, but to look for other solutions. Therefore, the Committee does not agree to a rollback in adoption fees to the pre-January 1982 levels.

Wildlife habitat management.—The Committee recommends $14,942,000 for wildllife habitat management, an increase of $1,300,000 over the budget. This will increase the number of habitat management plans and other wildlife supporting activities.

Soil, water, and air management.—The Committee recommends an appropriation of $14,772,000, the same as the budget estimate.

Recreation management.—The Committee recommends an appropriation of $22,175,000, an increase of $200,000 over the budget, for offroad, vehicle use designations to be continued at 1982 levels. The Committee directs BLM to continue funding of the Iditarod National Historic Trail office, at least until the State of Alaska determines whether or not it is in a position to take over the trail operations.

Fire management.—The Committee recommends an appropriation of $9,234,000, the same as the budget estimate.

Planning and data management.—The Committee recommends an appropriation of $19,859,000, a reduction of $182,000 below the budget. This reduction is to be transferred to the new Minerals Management Service (MMS).

Cadastral survey.—The Committee recommends an appropriation of $19,881,000, a reduction of $400,000 from the budget. The reduced level of $9,984,000 for the lower 48 States is an increase of $148,000 over 1982 apropriations, and is the 1983 base estimate.

Firefighting and rehabilitation.—The Committee recommends an appropriation of $4,750,000, the same as the budget estimate.

Law enforcement.—The Committee recommends an appropriation of $2,004,000, the same as the budget estimate.

Maintenance and engineering services.—The Committee recommends an appropriation of $10,804,000, a reduction of $210,000 from the budget. This reduction holds engineering support costs to 1982 levels.

General administration.—The Committee recommends $76,734,000 a reduction of $1,909,000 from the budget. This reduction is $1,909,000 to be transferred to MMS.

CONSTRUCTION AND ACCESS

1982 appropriation	$2,627,000
1983 budget estimate	2,243,000
1984 House allowance	2,243,000
Committee recommendation	2,243,000

The Committee recommends an appropriation of $2,243,000 the same as the budget estimate.

The Committee does not concur with the proposal to combine construction and access activities with the land acquisition program and has established a separate land acquisition appropriation.

The following table provides the line item distribution of Committee recommendations:

	Budget estimates	Committee recommendation	Charge
Construction:			
Buildings	$258,000	$258,000	
Recreation	460,000	460,000	
Transportation			
Subtotal	718,000	718,000	
Access	1,525,000	1,525,000	
Total	2,243,000	2,243,000	

PAYMENTS IN LIEU OF TAXES

1982 appropriation	$95,520,000
1983 budget estimate	45,000,000
House allowance	95,520,000
Committee recommendation	96,320,000

The Committee recommends an appropriation of $96,320,000, an increase of $51,320,000 over the budget estimate.

The administration has again proposed legislation to modify the payment distribution formula. Congress has reviewed the proposal but has not concluded that it is an equitable improvement over the current formula. In the meantime, the Committee strongly recommends that full PILT funding be provided under the existing formula. Local units of government dependent on Federal payments in lieu of taxes are especially hard hit this year. Other payments to local units of government are down this year—timber receipts most notably—and the other tax receipts available to these governmental units are also reduced, but costs of providing essential services are not coming down.

LAND ACQUISITION

1982 appropriation	$3,712,000
1983 budget estimate	468,000
House allowance	468,000
Committee recommendation	311,000

The Committee recommends an appropriation of $311,000 for this appropriation

in 1983, a decrease of $157,000 from the budget estimate. This reduction is to be applied to the lands acquisition administrative functions.

The Committee is especially troubled by the problems BLM is having in determining estimates of value for land acquisition cases and in providing accurate information to the Committee. Further, the BLM appraisals reviewed by the Committee have not been of the same quality as those provided by other land-acquiring agencies. The Committee expects BLM to improve in both areas and directs BLM's management to review these problems and to provide the Committee with a report, including recommendations for improvements, within 90 days of the date of enactment of this act.

The following acquisitions are recommended:

Bureau of Land Management:

	Committee recommendation
Administrative expenses	$150,000
Rogue W&SR, Oreg	161,000
Total	311,000

OREGON AND CALIFORNIA GRANT LANDS

1982 appropriation	$52,788,000
1983 budget estimate	52,883,000
House allowance	46,883,000
Committee recommendation	61,533,000

The Committee recommends an appropriation of $61,533,000, an increase of $8,650,000 over the budget.

The Committee has decided to continue to appropriate directly to BLM an amount equivalent to the estimated revenues it would receive from timber sales on the O. & C. lands. This direct appropriation eliminates the uncertainty of the revenue estimating process, due to the fluctuating timber sales levels and receipts.

Construction and acquisition.—The Committee recommends an appropriation of $1,091,000, the same as the budget estimate.

Maintenance.—The Committee recommends an appropriation of $5,000,000, the same as the budget estimate.

Renewable resources management.—The Committee recommends an appropriation of $54,990,000, an increase of $8,650,000 over the budget.

The Committee agrees with the House proposal to fund all O. & C. activities through BLM, with funds being transferred to the FS as outlined below. However, the Committee does not concur with the reductions being proposed by the House and recommends funding at the budget level, as outlined below:

TIMBER DEVELOPMENT AND MANAGEMENT, INCLUDING ROADS

	Budget	House (estimated) proposal	Senate proposal
FS	[1] $11,300,000	[2] $7,028,000	[3] $9,958,000
BLM	38,490,000	28,112,000	39,832,000
Total	49,790,000	35,140,000	49,790,000

[1] Includes $2,650,000 transferred from BLM and $8,650,000 from direct appropriations to the FS.
[2] Estimated distribution to be provided by BLM at 80/20 percent ratio, BLM to FS.
[3] All to be provided by transfer from BLM. The proposed distribution is in the same approximate ratio as is the responsibility for managing acres.

The proposed funding level includes $1,000,000 for the FIR research program, as budgeted.

The Committee hopes that this funding approach, through BLM, will improve the quality of the justification for O. & C. lands over prior years.

Planning and data management.—The Committee is recommending an appropriation of $452,000, the same as the budget.

RANGE IMPROVEMENTS

1982 appropriation	$13,226,000
1983 budget estimate	11,048,000
House allowance	11,048,000
Committee recommendation	11,048,000

The Committee recommends an appropriation of $11,048,000, the same as the budget estimate. The Committee endorses the proposal to restrict use of range improvement funds for on-the-ground work and to fund related administrative costs from the "Management of Lands and Resources" appropriation. Range improvement funds are primarily derived from grazing fees collected in the previous year. Due to the reduction in the animal unit month (AUM) fee from $2.31 per AUM in 1981 to $1.86 per AUM in 1982, collections have been reduced from $13,226,000 to $11,048,000.

The Committee directs the Department to encourage permittees to make stewardship investments in the rangeland resource, as authorized by the Public Rangelands Improvement Act (43 U.S.C. 1968a) and related administrative provisions.

SERVICE CHARGES, DEPOSITS, AND FORFEITURES

1982 appropriation	$9,600,000
1983 budget estimate	10,000,000
House allowance	10.000,000
Committee recommendation	10,000,000

The Committee recommends an appropriation of $10,000,000, the same as the budget estimate.

MISCELLANEOUS TRUST FUNDS

1982 appropriation	$100,000
1983 budget estimate	100,000
House allowance	100,000
Committee recommendation	$100,000

The Committee recommends an appropriation of 100,000, the same as the budget estimate.

FISH AND WILDLIFE AND PARKS

FISH AND WILDLIFE SERVICE

RESOURCE MANAGEMENT

1982 appropriation	$226,722,000
1983 budget estimate	221,876,000
House allowance	242,778,000
Committee recommendation	227,279,000

The Committee recommends an appropriation of $227,279,000, an increase of $5,403,000 over the budget estimate.

The following table compares Committee recommendations with the budget estimates:

	Budget estimate	Committee recommendation	Change
Habitat preservation:			
Environmental containment evaluation	$8,951,000	$9,423,000	+$472,000
Land and water resource development plans	11,802,000	11,802,000	
Biological services	10,394,000	11,377,000	+983,000
Cooperative units		4,500,000	+4,500,000
Subtotal	31,147,000	37,102,000	+5,955,000
Wildlife resources:			
Migratory birds	64,810,000	59,740,000	−5,070,000
Mammals and nonmigratory birds	17,500,000	17,830,000	+330,000
Animal damage control	13,414,000	14,974,000	+1,560,000
Interpretation and recreation	11,742,000	11,742,000	
Fire suppression	2,954,000	3,000,000	+46,000
Subtotal	110,420,000	107,286,000	−3,134,000
Fishery resources:			
Fish hatcheries	20,121,000	23,204,000	+3,083,000
Fishery assistance	2,975,000	2,975,000	
Fishery research	9,531,000	9,531,000	
Fishery law enforcement	225,000	225,000	
Subtotal	32,852,000	35,935,000	+3,083,000
Endangered species	16,550,000	17,753,000	+1,203,000
General administration	30,907,000	30,907,000	
SLUC reduction		−1,704,000	−1,704,000
Total, Resource management	221,876,000	227,279,000	−5,403,000

HABITAT PRESERVATION ACTIVITIES

Environmental contaminant evaluation.—The Committee recommends an appropriation of $9,423,000, an increase of $472,000 over the budget. This restores proposed reductions in mineral and agricultural contaminant activities.

Land and water resources development planning.—The Committee recommends an appropriation of $11,802,000, the same as the budget estimate and a reduction of 15 percent below 1982 funding. The FWS states that it will be able to maintain its 1982 workload at the reduced funding level.

Biological services.—The Committee recommends an appropriation of $11,337,000, an increase of $983,000 in the minerals program. This increase is needed to continue FWS involvement in minimizing the negative impacts of mining activity in oil shale, tar sands, geothermal, and other strategic minerals. The eastern energy and land use team is maintained by this increase. If the Department can show that these activities will be continued in future years by reimbursable arrangements, the Committee will review the situation again. This recommendation includes a budgeted increase of $541,000 for the national wetland inventory.

Cooperative units.—The Committee recommends that the cooperative fish and wildlife research units not be terminated and provides $4,500,000 for their continuation.

WILDLIFE RESOURCES

Migratory birds.—The Committee recommends an appropriation of $59,740,000, a reduction of $5,070,000 from the budget. This allowance restores $930,000 for operation of the National Wildlife Health Laboratory at Madison, Wis. and does not include $6,000,000 that was budgeted for additional refuge maintenance funds. Also included, to be funded from funds available, is $250,000 to be used to purchase grazing improvements at the Kofa NWR, Ariz., in order to terminate grazing on the refuge, and an additional $150,000 to pay equipment and personnel costs to enable adequate management of Bogue Chitto NWR, La. The Committee also supports recreational use of the Ruby Lake NWR, Nev., including the use of powered watercraft, and directs the Department to review such usage and report on its practicality within 30 days.

The Committee has also struck House-proposed bill language prohibiting hunting on the Bosque del Apache NWR when whooping cranes are on the refuge. The

Committee considers the steps taken by the Service to insure the safety of the wintering whooping cranes during the 16 days of snow goose hunting on the refuge to be sufficient to protect the whooping cranes. These precautions have been in place since 1975 and have been developed with the cooperation of the whooping crane recovery team. Permitted hunting of doves, upland game, and big game is not permitted in whooping crane habitat on the refuge.

The Committee has also struck House-proposed bill language naming the Tupelo NFH as the "Private John Allen National Fish Hatchery," in line with the Committee's recommendation that the Tupelo NFH be closed.

Mammals and nonmigratory birds.—The Committee recommends an appropriation of $17,830,000, an increase of $330,000 over the budget. The increase provides an additional $200,000 for facility maintenance needs, to be distributed as follows: $60,000 for the Denver WRC; $100,000 for the Gainesville WRC; and $40,000 for the San Simeon WRC. The allowance also includes $130,000 for operation of the Madison, Wis. National Wildlife Health Laboratory.

Animal damage control.—The Committee recommends $14,974,000, an increase of $1,560,000 over the budget. All operations funds are restored to 1982 levels and increases are proposed in research above the budget for Bend, Oreg. (+$75,000) and Olympia, Wash. (+$148,000). The Committee notes that the Federal share of ADC operations is currently less than 50 percent and the Committee does not agree with proposals to insist on a two-third State/one-third Federal distribution of costs. No reduction is to occur in blackbird/sunflower operations in North Dakota or in blackbird problems in Arkansas or Louisiana.

Interpretation and recreation.—The Committee recommends an appropriation of $11,742,000, the same as the budget estimate.

Fire suppression.—The Committee recommends an appropriation of $3,000,000 for fire suppression activities, an increase of $46,000 over the budget.

FISHERY RESOURCES

Fish hatcheries.—The Committee recommends an appropriation of $23,204,000, an increase of $3,083,000 over the budget. Changes from the budget are an increase of $1,883,000 related to hatchery closures (as explained below) and $1,200,000 to keep the Lower Snake River Compensation Plan (LSRCP) on schedule.

PROPOSED HATCHERY CLOSURES

State and hatchery	Proposed for closure by—			Fiscal year 1983 savings

Add-on over budget				+1,883,000

PROPOSED HATCHERY CLOSURES—Continued

[1] To be funded by BIA.

[2] The Committee has included funds for the operation of the Neosho NFH in Missouri through September 30, 1983. The Committee directs the FWS to negotiate with the State of Missouri with the intention of entering into a long-term cost-sharing arrangement with the State for the operation of the hatchery after September 30, 1983. The Service shall consider the proportion of fish distributed for Federal purposes on Federal lands versus the proportion of fish distributed for State and private use in determining the cost-sharing arrangement. The Committee urges the parties to seek a mutually acceptable arrangement before September 30, 1983. In the event such an arrangement is not agreed to before September 30, 1983, the Committee will review the funding for Neosho NFH again in fiscal year 1984.

[3] Restores the $76,000 eliminated from the budget due to the proposed closing of the fish hatchery at Cheraw, S.C. The funds are to be made available with the understanding that the State of South Carolina will assume funding for the hatchery on October 1, 1983. The State Department of Natural Resources has indicated that they will ask the South Carolina General Assembly for the necessary funding to operate the hatchery. The Committee expects that this agreement will lead to continued operation of the Cheraw NFH and intends not to provide funds beyond fiscal year 1983 for that purpose.

The Committee recognizes that closing these hatcheries is a controversial matter and has spent a considerable amount of time in an effort to do it in an acceptable manner. The Committee considered a number of criteria in developing this list. Primarily, it considered the reason for the initial establishment of the hatchery; the distribution of the fish produced by these hatcheries into Federal, State, or private waters; the purpose for the Federal usage of fish produced; and the future rehabilitation costs of the hatcheries. It did not put primary emphasis on maximizing current-year savings. In fact, by not agreeing with the administration's proposal to close these hatcheries prior to fiscal year 1983, the Committee is having to add $1,883,000 over the budget in order to keep all hatcheries open until Congress has had an opportunity to review and select the ones it agrees should be closed. By closing the hatcheries on the Committee's list, future-year savings for rehabilitation costs are estimated by the Fish and Wildlife Service at $22,389,000.

The Committee understands that a number of States are actively investigating the possibility that the State could assume control of Federal hatcheries. In fact, two States have already reached agreement to take over hatcheries proposed for closure. The Committee supports that development, feeling that, in many cases, it is more appropriate that the State administer some of these hatcheries rather than the Federal Government. The Committee is also supportive of States proposing cost-sharing arrangements, based on the percentage of fish produced for State versus Federal purposes, for other hatcheries.

The Committee further notes that a number of States will not receive the same amount or number of fish transferred from some of the Federal hatcheries proposed for closure. The Committee understands that the FWS will make every effort to supplement their production from remaining hatcheries so as to offset these losses and the Committee endorses those efforts.

Fishery assistance.—The Committee recommends an appropriation of $2,975,000, the same as the budget estimate.

Fishery research.—The Committee recommends an appropriation of $9,531,000, the same as the budget estimate and the House allowance.

The Committee allowance includes $250,000 within available funds for operation of the Warm Springs, Ga. Southeastern Fish Control Laboratory. The Committee is aware of the availability of facilities at the National Fishery Research Laboratory's Warm Springs, Ga. station. The Committee believes that the Warm Springs station has a number of unique advantages including a temperate year-round climate, a relatively low budget, access to Gulf and Atlantic coastal areas and an unusually pure water supply that would be of continued value in fish research activities.

Fishery law enforcement.—The Committee recommends an appropriation of $225,000, the same as the budget estimate.

Endangered species.—The Committee recommends an appropriation of $17,753,000, an increase of $1,203,000 over the budget. Increases over the budget are included for law enforcement (+$987,000) to maintain at least 200 special agents, and for peregrine falcon recovery efforts (+$216,000). Also, the Committee understands that about $250,000 is included within available funds for the Audubon Society joint FWS California condor recovery program. The Committee supports that program and directs the Service to continue its support.

The Committee is concerned about the draft management plan for the recovery of the Northern Rocky Mountain wolf, in terms of conflicts that may arise between wolf populations and the general public and livestock operators and has proposed bill language that addresses this issue.

The Committee is extremely concerned about the problems it has had in determining the proper costs to support the special agents it has mandated in the report. Staff to subcommittee members have been provid-

ed tables and charts that do not agree with official estimates provided through the departmental budget office and the agency budget office. These various tables have frequently been different from tables provided to subcommittee staff. The Department and the Service is directed to conduct a complete review of costs needed to support special agents, including detailed estimates by type of agent and source of funding provided, and to provided, and to provide that study in conjunction with the fiscal year 1984 budget. The Service is also directed to provide subcommittee staff information relating to funding issues that is also provided to other staff.

General administration.—The Committee recommends an appropriation of $30,907,000, the same as the budget estimate. The Committee does not agree to the proposed reduction of funding for the Office of Legislative Services and recommends that an additional $30,000, from available funds, be provided.

The Committee has included bill language renaming the visitor center at the Merritt Island NWR, Fla.

CONSTRUCTION AND ANADROMOUS FISH

1982 appropriation	$10,683,000
1983 budget estimate	9,751,000
House allowance	23,149,000
Committee recommendation	11,126,000

The Committee recommends an appropriation of $11,126,000, $1,375,000 over the budget estimate and $12,023,000 less than the House allowance.

Changes from the budget include a reduction for the public boat ramps at Brigantine NWR, N.J. (−$125,000), and an increase of $1,500,000 for firefighting equipment purchases.

The following table shows the distribution by activity:

	Budget estimate	Committee recommendation	Change
Construction and rehabilitation:			
Wildlife refuges	$4,228,000	$5,603,000	+$1,375,000
Fish hatcheries	3,838,000	3,838,000	
Research facilities	1,049,000	1,049,000	
Dam safety	636,000	636,000	
Total	9,751,000	11,126,000	+1,375,000

MIGRATORY BIRD CONSERVATION ACCOUNT

(Definite Appropriation, Repayable Advance)

1982 appropriation	$1,200,000
1983 budget estimate	
House allowance	2,000,000
Committee recommendation	2,000,000

The Committee recommends an appropriation of $2,000,000, an increase of $2,000,000 over the budget estimate. These funds are advances, to be used for habitat acquisition to protect internationally protected resources, and will be repaid from Federal migratory bird hunting and conservation stamps ("duck stamps").

NATIONAL WILDLIFE REFUGE FUND

1982 appropriation	$5,760,000
1983 budget estimate	
House allowance	5,760,000
Committee recommendation	5,760,000

The Committee recommends continuation of the 1982 level of $5,760,000 for the national wildlife refuge fund, an increase of $5,760,000 over the budget estimate. These funds are used to make payments to counties in which Service lands are based in order to compensate the local units of government for lost tax revenues. Including funding carried over into fiscal year 1983, there will be $7,860,000 available for these payments.

LAND ACQUISITION

1982 appropriation	$16,491,000
1983 budget estimate	1,567,000
House allowance	33,647,000
Committee recommendation	19,048,000

The Committee recommends $19,048,000 for land acquition, an increase of $17,481,000 over the budget.

The following table shows the Committee's recommendations:

FISH AND WILDLIFE SERVICE

	1982 budget	1983 House	1983 Senate
Acquisitions management	$569,000	$1,147,000	$1,000,000
Acquisitions:			
Bon Secour NWR, Ala		4,500,000

NATIONAL PARK SERVICE

OPERATION OF NATIONAL PARK SYSTEM

1982 appropriation	$521,528,000
1983 budget estimate	539,703,000
House allowance	567,730,000
Committee recommendation	537,170,000

The Committee recommends an appropriation of $537,170,000, a decrease of $2,533,000 from the budget estimate. The following table provides a comparison of Committee recommendations to the budget estimate:

	Budget estimate	Committee recommendation	Change
Park management:			
Management of park areas	$54,167,000	$56,854,000	+$2,687,000
Concessions management	2,894,000	2,894,000	
Interpretation and visitor services	59,009,000	56,401,000	−2,608,000
Visitor protection and safety	64,459,000	60,059,000	−4,400,000
Maintenance	217,753,000	218,049,000	+296,000
Resources management	80,635,000	80,635,000	
Informational publications	2,957,000	2,957,000	
International park affairs	384,000	384,000	
Volunteers-in-parks	250,000	500,000	+250,000
Subtotal	482,508,000	478,733,000	−3,775,000
General administration	52,250,000	51,084,000	−1,166,000
Forest fire suppression and rehabilitation	1,200,000	1,200,000	
Park recreation and wilderness planning:			
Water resources	1,518,000	1,518,000	
Rivers and trails			
General management plans	838,000	2,246,000	+1,408,000
Subtotal	2,356,000	3,764,000	+1,408,000
Statutory and contractual aid:			
Roosevelt Campobello International Park Commission	394,000	394,000	
Ice Age National Scientific Reserve	588,000	588,000	
Lowell Historic Preservation Canal Commission	407,000	407,000	
Folger Theater			
Corcoran Gallery			
Falls of Clyde			
Ozette Village archeological site			
Washington Opera matching grant		1,000,000	+1,000,000
Subtotal	1,389,000	2,389,000	+1,000,000
Total, Operation of the National Park System	539,703,000	537,170,000	−2,533,000

Management of park areas.—The Committee recommends an appropriation of $56,254,000, an increase of $2,687,000 over the budget for restoration of staff years for park management, all of which are to be assigned to field locations.

The Committee has not included additional funds for operation of the Martin Luther King, Jr. NHS. The Committee notes that this site currently has an operations budget proposed for fiscal year 1983 of $187,600 and seven full-time equivalent staff. The Committee has proposed an additional $500,000 for necessary land acquisition and an additional $650,000 for visitattor facility construction and other renovation expenses for the NHS.

The Committee has included bill language authorizing the Secretary to expend up to $160,000 for operation, including maintenance and protection, of the former home of President Harry S. Truman.

The Committee has also included, within funds available, $450,000 for operation of the New River Gorge National River, W. Va. The Committee directs the Service to proceed with acquistion of property for which funds have been provided in prior years, and also directs the Service to provide immediately the park management plan for New River Gorge that was promised for delivery by November 10, 1982.

Concessions management.—The Committee recommends an appropriation of $2,894,000, the same as the budget estimate.

Interpretation and visitor services.—The Committee recommends an appropriation of $56,401,000, a decrease of $2,608,000 below the budget. This reduction represents the amount available to the National Park System to operate visitor transportation systems in the following parks:

Cape Cod National Seashore
Carl Sandburg Home National Historic Site
Colonial National Historical Park
Cumberland Island National Seashore
Devils Postpile National Monument
Denali National Park
Dinosaur National Monument
Everglades National Park
Fort Matanzas National Monument
Gateway National Recreation Area
Grand Canyon National Park
Grand Teton National Park
Kennesaw Mountain National Battlefield Park
Lyndon B. Johnson National Historic Site
Mesa Verde National Park
North Cascades National Park
Point Reyes National Seashore
Redwood National Park
Rocky Mountain National Park

Sunset Crater National Monument
Yosemite National Park

The Committee directs that all visitor transportation systems in all units of the National Park System be operated on a cost-recoverable basis, except as specifically exempted by law.

The Committee recognizes the contributions of the National Council for the Traditional Arts in its interpretive programs and directs the Service to continue to take advantage of these contributions in fiscal year 1983. The allowance for fiscal year 1983 includes $50,000 for NCTA in 1983 to be derived by transfer from the Office of the Secretary account. The Committee also directs the Service to reimburse to NCTA, from funds available in fiscal year 1982, the maximum amount legally possible for expenses incurred by NCTA in fiscal year 1982 based on the reasonable expection that funds would be forthcoming.

The Committee has included an additional $150,000, within funds available for parks other than Harpers Ferry, to be used for exhibits and interpretive items for Harpers Ferry National Historic Park, including the production of a film concerning the life of John Brown.

Visitor protection and safety.—The Committee recommends an appropriation of $60,059,000, a reduction of $4,400,000 below the budget. This reduction reflects an increase provided to the Office of the Secretary to be used as reimbursement for security, and reflects a $4,000,000 reduction to return funding to the approximate fiscal year 1982 levels.

The Committee recommends continued assistance to the town of Harpers Ferry, W. Va., to cover the extraordinary law enforcement burden caused by the National Historic Park visition, for fiscal year 1983 at the level of $85,000, to be provided out of funds appropriated for the visitor protection and safety activity. Bill language is also included.

The Committee has not recommended an additional $700,000, as proposed by the House, for replacement of the Bell Jet model 206B helicopter, as the Committee understands that the helicopter has not exceeded its maximum utilization standard. Further, the Committee has not agreed to an additional $500,000 for law enforcement training, which would be an increase of 80 percent over budgeted levels. Finally, the Committee has not agreed to $3,000 in tax free payments to the operator and paramedic staffing the Service helicopter which assisted in disaster relief efforts associated with the Air Florida crash. This in no way is intended to slight the truly heroic and courageous actions of both persons.

Maintenance.—The Committee recommends an appropriation of $218,049,000, an increase of $296,000 over the budget. This increase is to restore 9 staff years proposed to be eliminated by the budget.

The Committee directs the Service to continue its efforts to improve the Mount McKinley Park Road in Alaska.

Resources management.—The Committee recommends an appropriation of $80,635,000, the same as the budget.

The Committee has included within funds available up to $2,500,000 to conduct an assessment of the Kantishna Hill/Dunkle Mine study area of Denali National Park, as directed by section 202(3)(b) of the Alaska National Interest Lands Conservation Act (Public Law 96-487). This study, due to the Congress on December 2, 1983, has not yet been initiated and will, in all probability, be late in its submission. The purpose of the study is to provide a basis for a report to the appropriate committees of the Congress with the results of the study and any recommendations that the Alaska Land Use Council and the Secretary may have for the future management of the area. The Committee understands that this study is to be provided to the Congress for its use in further consideration on the ultimate status of these highly mineralized areas of Denali NP.

The Committee is greatly concerned over the imminent threat of damage to the Anasazi sun dagger in Chaco Canyon National Historic Park. The sun dagger is a national treasure of great native American cultural, artistic, and scientific significance and the Committee is pleased to learn that the NPS has initiated steps to protect it. The Committee recommendation includes $100,000 for the NPS for the exclusive purpose of computer graphics modeling to record and preserve the sun dagger's ancient calendrical precision. An institution should be sought with the requisite technology and skills to begin immediately the necessary tasks. None of this appropriation may be used to purchase equipment. The Committee recommendation also includes an additional $100,000 to support the Chaco Culture Computer Center, which has been established to identify archeological sites in the San Juan basin.

International publications.—The Committee recommends an appropriation of $2,957,000, the same as the budget estimate.

International park affairs.—The Committee recommends an appropriation of $384,000, the same as the budget.

Volunteers-in-parts.—The Committee recommends an appropriation of $500,000, an increase of $250,000 over the budget. The increase will permit the Service to expand its program to include 19,000 volunteers at 258 parks.

Forest fire suppression and rehabilitation.—The Committee recommends an appropriation of $1,200,000, the same as the budget.

Water resources.—The Committee recommends an appropriation of $1,518,000, the same as the budget.

General management plans.—The Committee recommends an appropriation of $2,246,000, an increase of $1,408,000 over the budget. This restores the fiscal year 1982 level.

Statutory and contractual aid.—The Committee recommends an appropriation of $2,389,000, an increase of $1,000,000 over the budget.

The Committee recommends an appropriation of $1,000,000 for the Washington Opera, to be matched from non-Federal sources not previously used or in increased amounts from current supporters.

The Committee has not agreed to the House proposal to add $500,000 for the Garfield gravesite.

General administration.—The Committee recommends an appropriation of $51,084,000, a decrease of $1,166,000 from the budget for space charges.

The NPS has traditionally provided services to facilitate the operation of the White House as a national historical structure. The House proposes to transfer funding to the Executive Office of the President so that those services would be provided on a reimbursable basis. The Committee does not agree that providing funds to another organization will facilitate management of the White House and sees no need to change the current arrangement.

The Committee also recommends that the Service complete its planning and public involvement process regarding Rock Creek Park and decide at that time whether or not to expand its current program.

The Committee has included bill language that provides for the establishment of reasonable entry fees to all units of the national park system where practical and recommends further that the Service expand its program of user fees and provides that receipts, less the cost of collections, be deposited into the Treasury so as to be available for subsequent appropriation to the Service.

The Committee notes that the House has included report language which directs the Secretary to facilitate an easement swap between the National Park Service and the Canal Road vehicle demonstration project. The Committee understands that there is substantial citizen opposition to this project and therefore directs that the Secretary enter into no easement agreement until the District of Columbia Department of Transportation and other interested parties complete the public comment process underway.

The Committee does not agree with the bill language added by the House regarding the usage of National Park Service facilities and the Director's discretionary fund and recommends elimination of the House proposed language.

The Committee is concerned that the House proposed bill language that prohibits processing any applications for operating or developing or for permitting the development of any additional mineral extraction or energy development activities within the established boundaries of any unit of the national park system except those specifically authorized by law, and recommends deletion of that provision.

The Committee notes that the House has added bill language prohibiting the sale or exchange of national park system lands without prior approval of the Congress. This proposal would prohibit necessary and desirable land exchanges that can consolidate park ownership within approved boundaries. For example, the National Park Service, BLM, Rocky Mountain Energy Co., Mr. Laurence Rockefeller, Princeton University, Dartmouth University, the Sloane-Kettering Institute, and the University of Vermont Law School are involved in a complex land exchange. The net effect of this land exchange would be to give title to the National Park Service about 500 acres of land in Grand Teton National Park valued at over $12 million.

The Committee recommends elimination of the House proposed bill language that prohibits anyone owing money to the Government from serving on any Park Service advisory board or commission.

NATIONAL RECREATION AND PRESERVATION

1982 appropriation	$12,607,000
1983 budget estimate	6,987,000
House allowance	10,087,000
Committee recommendation	9,487,000

The Committee recommends an appropriation of $9,487,000, an increase of $2,500,000 over the budget. It is composed of the following activities:

	Budget estimate	Committee recommendation	Change
Recreation programs:			
Planning	$88,000	$88,000	
Federal real property	229,000	229,000	
Park and recreation technical services	692,000	692,000	
Subtotal	1,009,000	1,009,000	
Natural programs:			
Rivers and trails	1,027,000	1,527,000	+$500,000
Natural area programs	146,000	146,000	
Subtotal	1,773,000	1,673,000	+500,000
Cultural programs:			
Maintenance of National Register	1,186,000	1,186,000	
Technical preservation services	1,336,000	1,336,000	
National Architectural and Engineering Record	598,000	598,000	
Interagency Archeological Services	1,275,000	1,275,000	
Subtotal	4,425,000	4,425,000	
Environmental and compliance review	380,000	380,000	
Grant administration		2,000,000	+2,000,000
Total	6,987,000	9,487,000	+2,500,000

The Committee has recommended two increases in this appropriation. An additional $500,000 is recommended for the rivers and trails activity, in order to permit the Service to continue its role in evaluating proposed additions to the national wild and scenic rivers system and the national trails system.

The Committee has also recommended an increase of $2,000,000 for grant administration activities, in conjuction with its proposal for new budget authority for the historic preservation grant program.

URBAN PARK AND RECREATION FUND

1982 appropriation	$7,860,000
1983 budget estimate	
House allowance	
Committee recommendation	

The Committee recommends no appropriation in fiscal year 1983, the same as the budget request.

The Committee is aware that unobligated balances exist from budget authority provided prior to fiscal year 1982. From these unobligated balances, the Committee directs that funds beyond those required to shut down shall be programed to supplement grants awarded since the programs inception on highest priority status.

HISTORIC PRESERVATION FUND

1982 appropriation	$25,440,000
1983 budget estimate	
House allowance	26,000,000
Committee recommendation	26,000,000

The Committee recommends an appropriation of $26,000,000 for the Historic Preservation Fund in fiscal year 1982, an increase of $26,000,000 from the budget estimate.

The Committee recommendation has recommended $4,500,000 for the National Trust for Historic Preservation and $21,500,000 for grants to States. This recommendation will permit continued cooperation between the Federal Government and the States in activities such as nominations for the National Register, tax act certifications, and survey and planning activities. No funds are included for acquisition and development grants.

CONSTRUCTION

1982 appropriation	$95,852,000
1983 budget estimate	132,721,000
House allowance	161,846,000
Committee recommendation	147,017,000

The Committee recommends an appropriation of $147,017,000, an increase of $14,296,000 over the budget.

The Committee intends to continue its strong support of the Secretary's initiatives to increase health and safety related construction projects for the Service.

The following table provides a detailed comparison of the budget estimate with the Committee recommendations:

	Budget estimate	Committee recommendation	Change
Advance planning	$5,000,000	$5,000,000	
Lump sum projects	3,000,000	3,000,000	
Project planning	8,214,000	8,214,000	
Line item construction	116,507,000	130,803,000	+$14,296,000
Total	132,721,000	147,017,000	+14,296,000

Line item construction.—The Committee recommends an increased construction program for fiscal year 1983 and has added $14,296,000 to the budget. The following table reflects Committee recommendations:

National Park Service construction

Reductions from budget:	
Glen Canyon NRA, Utah-Ariz.—marina	−$3,883,000
Chaco Culture NHP, N. Mex.—road	−2,751,000
Gateway NRA, (Sandy Hook) N.Y., N.J.—road	−1,965,000
Guadalupe Mountains NP, Tex.—trails	−1,664,000
Mesa Verde NP, Colo. (savings due to road redesign)	−4,300,000
Voyageurs NP, Minn.—visitor facility developments	−2,690,000
Martin Van Buren NHS, N.Y.—rehabilitation structure	−878,000
Perry's Victory and International Peace Memorial, Ohio—structure rehabilitation	−2,444,000
Total reductions	−20,575,000
Additions to budget:	
Gateway NRA (Sandy Hook—beach replenishment only)	+6,000,000
Natchez Trace Parkway, Miss	+9,000,000
Great Smoky Mountains NP, Tenn. (Foothills Parkway)	+9,400,000
Wolf Trap Farm Park for the Performing Arts, Va	+6,000,000
Interagency Visitor Centers, Alaska	+1,400,000
Jean Lafitte NHP, La	+2,171,000
Resurrection River Bridge-Kenai Fjords NP, Alaska (planning)	+250,000
Martin Luther King, Jr., NHS, Ga	+650,000
Total additions	+34,871,000

The Committee has recommended a number of changes, which is not to be read as a prejudice against projects proposed for reduction. The Committee understands that none of the projects proposed for reduction was justified primarily on the basis of health and safety needs.

The Committee is disturbed that the Service has permitted the lighthouse and related facilities at Cape Hatteras National Seashore, N.C. to deteriorate to such a poor condition. The balcony on the lighthouse has been closed since 1975, following a determination that the iron works were unsafe. The problem has been studied and the Committee understands that new iron will be placed over the old iron in fiscal year 1983 at a cost of $185,000. The Committee urges the Service to pursue a remedy for this problem and have the lighthouse open safely for visitors as soon as possible. Further, the adjacent museum of the sea is also in very poor shape. The Service is directed to initiate efforts to improve that facility in fiscal year 1983 out of funds available, after consulting with the Committee on the proposed remedy.

LAND ACQUISITION AND STATE ASSISTANCE

1982 appropriation	$133,642,000
1983 budget estimate	59,776,000
House allowance	172,643,000
Committee recommendation	129,400,000

The Committee recommends an appropriation of $129,400,000, an increase of $69,624,000 over the budget.

The following table shows the Committee recommendations:

	Budget estimate	Committee recommendation	Change
Assistance to States:			
Matching grants		$70,619,000	+$70,619,000
Administrative expenses		4,381,000	+4,381,000
Subtotal		75,000,000	+75,000,000
Federal programs: National Park Service	$55,400,000	41,900,000	−13,500,000
Administration	4,250,000	7,500,000	+3,250,000
Pinelands National Reserve	126,000	5,000,000	+4,874,000
Total	59,776,000	129,400,000	+69,624,000

The Committee recommends the following projects:

	Budget estimate	House recommendation	1983 Senate
Assistance to States:			
Matching grants		$70,619,000	$70,619,000
Administrative expenses		4,381,000	4,381,000
Total, assistance to States		75,000,000	75,000,000
Pinelands National Reserve	$126,000	8,995,000	5,000,000
National Park Service:			
Acquisition management	4,250,000	8,743,000	7,500,000
Inholdings (emergencies and hardships)	3,800,000	3,800,000	3,000,000
Deficiencies and relocations	2,200,000	2,200,000	1,000,000
Appalachian Trail		10,000,000	10,000,000
Big Cypress NP	14,000,000	500,000	500,000
Big Thicket NP	4,500,000		
Biscayne NP		8,100,000	2,000,000
Buffalo NR, Ark			2,000,000
Cape Cod NS	6,500,000		
Cape Lookout NS	2,000,000	2,000,000	2,000,000
Cumberland Island NS	1,000,000		
Cuyahoga River NRA		6,000,000	
Delaware Water Gap NRA		1,000,000	
Garfield NHS		205,000	
Golden Gate		1,000,000	2,200,000
Great Smoky Mountains		1,500,000	1,500,000
Gulf Island NS	3,700,000	3,700,000	3,700,000
Indiana Dunes		1,400,000	
Jean Lafitte NHP		2,500,000	2,500,000
Lassen Volcanic NP	5,500,000		
Martin Luther King, Jr. NHS		500,000	500,000
Olympic NP		10,700,000	
Point Reyes		2,000,000	
Santa Monica Mountains NRA		15,000,000	
Sleeping Bear Dunes NL	8,400,000		8,400,000
Voyageurs NP	3,800,000	3,800,000	3,800,000
Slippage			−1,200,000
Total, National Park Service	59,660,000	84,648,000	49,400,000

	Budget estimate	House recommendation	1983 Senate
Total, land acquisition and State assistance	39,776,000	168,643,000	129,400,000

The Committee provided $30,000,000 in the fiscal year 1982 supplemental bill in an attempt to meet the Government's obligations to pay landowners for court awards and deficiencies. This allowance for fiscal year 1983 also recognizes a commitment made last year for a 1-year moratorium on the State side of the land acquisition program; the Committee recognizes that $75,000,000, its recommendation, is not as high as some would like and is willing to review the funding needs again in fiscal year 1984. This recommendation, however, does keep the program moving.

The Committee is also distressed at the overall lack of cooperation between the land acquiring agencies and the nonprofit organizations that are capable of performing a valuable service in helping acquire properties as directed by Congress at a reduced cost. The Committee understands that the Federal lands staffs resent having priorities influenced by these organizations. The Committee shares that concern. However, the Congress, not the nonprofit organizations, so that they can direct their efforts at the most valuable and threatened properties. The Committee also wants to keep informed about deficiencies and will try to provide funding to meet those needs.

The Committee is concerned about timely completion of acquisition of properties within the Big Cypress National Preserve—both in terms of condemnation judgments and direct pruchases by the National Park Service.

Condemnation proceedings on some property tracts have been completed, but judgments have not yet been paid. Other cases have been filed by the U.S. Attorney's Office and are pending condemnation proceedings. Still other cases are eligble for court proceedings but, upon instruction from the Department of the Interior, the U.S. attorney has not filed these cases and instead, has returned them to the Department because of unavailability of funds. And finally, there are private properties within the Preserve area which have not even been appraised and purchase prices not even been negotiated with the landowners.

The Committee directs the National Park Service to utilize appropriated funds for the purposes of condemnation judgments and direct purchases.

JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

1982 appropriation	$4,212,000
1983 budget estimate	4,247,000
House allowance	4,247,000
Committee recommendation	4,247,000

The Committee recommends an appropriation of $4,247,000, the same as the budget estimate.

ENERGY AND MINERALS

GEOLOGICAL SURVEY

SURVEYS, INVESTIGATIONS, AND RESEARCH

1982 appropriation	$507,787,000
1983 budget estimate	366,547,000
House allowance	365,525,000
Committee recommendation	352,365,000

The Committee recommends an appropriation of $352,365,000, $14,182,000 below the budget estimate. The following table provides a comparison of the Committee's fiscal year 1983 recommendations and the budget estimates:

	Budget estimate	Committee recommendation	Change
National mapping, geography, and surveys:			
Primary quadrangle mapping	$36,865,000	$38,465,000	+$1,600,000
Digital mapping		3,873,000	+3,873,000
Map revision and orthophotoquads	16,761,000	16,761,000	
Small, intermediate, and special mapping	13,016,000	14,216,000	+1,200,000
Cartographic and geographic information	3,806,000	3,806,000	
Subtotal, National mapping, geography, and surveys	70,448,000	77,121,000	+6,673,000
Geologic and mineral resource surveys and mapping:			
Geologic hazard surveys	43,455,000	46,055,000	+2,600,000
Land resource surveys	16,735,000	16,735,000	
Mineral resource surveys	40,860,000	40,860,000	
Energy geologic surveys	29,982,000	31,982,000	+2,000,000
Offshore geologic surveys	14,759,000	12,143,000	−2,616,000
Subtotal, Geologic and mineral resource surveys and mapping	145,791,000	147,775,000	+1,984,000
Water resources investigations:			
Federal program	53,006,000	53,006,000	
Federal/State program	44,164,000	44,164,000	
Energy hydrology	14,845,000	14,845,000	
Subtotal, Water resources investigations	112,015,000	112,015,000	
Earth sciences applications:			
Earth resources observation system	9,490,000	9,490,000	
Environmental affairs	955,000	955,000	
Land resources data applications	635,000	635,000	
Subtotal, Earth sciences applications	11,080,000	11,080,000	
General administration	14,527,000	14,527,000	
Facilities	12,686,000	12,686,000	
Transfer from NPRA		−16,200,000	−16,200,000
SLUC reduction		−6,639,000	−6,639,000
Total, Surveys, investigations, and research	366,547,000	352,365,000	−14,182,000

Primary quadrangle mapping.—The Committee's recommendation includes an increase of $1,600,000 over the budget request for primary quadrangle mapping. This additional funding will increase the production of new 7.5- and 15-minute topographic quadrangle maps by approximately 3,000 square miles to a total 65,000 square miles. Production of these maps is necessary in the identification and development of coal and energy resources, wetlands inventory, evaluation of the impact of natural disasters, coastal area management, and numerous other studies.

Digital mapping.—Just as for fiscal 1982, funds for digital mapping are included under "Surveys, Investigations, and Research" rather than provide funding in a new, separate appropriation for a digital cartography revolving fund. Although the Committee is not necessarily opposed to a revolving fund for this purpose, it, nevertheless, feels compelled to await enabling authorization before establishing this new account.

Small, intermediate, and special mapping.—The Committee has recommended an additional $1,200,000 for land-use and land-cover mapping, raising the total area mapped from the suggested 200,000 square miles to the fiscal year 1982 level of 270,000 square miles. At this increased level, land-use and land-cover mapping coverage of the 48 contiguous States can be completed by mid-1984 as originally planned.

Volcano hazards.—The Committee has recommended an increase of $2,600,000 over the budget estimate for volcano hazards. This increase provides the fiscal year 1982 funding level for volcano hazards of $9,578,000, but is still over $3,000,000 less than the 1981 level. Recent actions indicate that the Cascade volcanoes are unusually restless and appear to be on the threshold of another period of increased activity, and the Committee firmly believes this activity warrants increased funds for seismic, deformation, and geophysical monitoring, as well as for hydrologic monitoring and hazard assessment.

Energy geologic surveys.—Included in the Committee's recommendation is an additional $2,000,000 for uranium/thorium investigations. The Department is expected to use these additional funds for both applied research and for increased resource assessment.

Offshore geologic surveys.—The Committee has recommended a decrease of $2,616,000 from the budget request for offshore geologic surveys. The Committee is informed that under the proposed 5-year leasing program, most areas will have been opened to leasing using data acquired prior to fiscal year 1983. In addition, industry is currently gathering extensive data for future sales which is required to be provided to the Geological Survey and the Minerals Management Service. In light of these facts, funding for offshore geologic surveys can be reduced without adverse consequences to the Department's aggressive leasing program.

National Petroleum Reserve in Alaska.—The Committee has recommended a transfer of $16,200,000 from the Exploration of National Petroleum Reserve in Alaska to surveys, investigations, and research. This amount had been requested for rescission during fiscal year 1982 and is not necessary for operations in the coming fiscal years.

Conservation of lands and minerals.—For fiscal year 1983, the Committee has provided funds for Outer Contnental Shelf lands, Federal and Indian lands, and royalty management under a new account, Minerals Management Service. The Committee believes that the importance of these programs warrants the creation of such an account. As these programs are combined with programs formerly under the direction of the Bureau of Land Management and the Office of the Secretary, this new, separate account will facilitate better control, coordination, and understanding of the activities of the Minerals Management Service.

BARROW AREA GAS OPERATION, EXPLORATION, AND DEVELOPMENT

1982 appropriation	$2,196,000
1983 budget estimate	6,400,000
House allowance	6,400,000
Committee recommendation	6,400,000

The Committee recommends an appropriation of $6,400,000, the same as the budget estimate.

This level of funding will provide for the continued operation of the two Barrow gas fields which service both Government installations and nearby Native populations. Fiscal year 1983 will be the first year during which the U.S. Geological Survey will be required to fund the full cost of providing a stand-alone base camp for operation and maintenance of the gas fields. In this regard, the Committee is aware of ongoing negotiations which could ultimately transfer responsibility for the gas fields to the North Slope Borough. The Department is

urged to actively pursue these negotiations and is directed to undertake no activities associated with a new drilling program until such negotiations are completed

DIGITAL CARTOGRAPHY

1982 appropriation	.....
1983 budget estimate	$3,873,000
House allowance	.....
Committee recommendation	.....

The Committee recommends no appropriation for digital cartography, $3,873,000 below the budget estimate.

Because the establishment of a revolving fund for the acquisition of digital cartographic data has not yet been authorized, the Committee again this year has not recommended a new, separate appropriation for the digital cartography account. However, the Committee remains receptive to this concept and urges the authorizing Committees to act quickly to review the proposal. $3,873,000 has been provided within USGS's "surveys, investigations, and research" account under the subtitle "digital mapping."

MINERALS MANAGEMENT SERVICE

MINERALS AND ROYALTY MANAGEMENT

1982 appropriation	.....
1983 budget estimate	$196,506,000
House allowance	20,778,000
Committee recommendation	196,506,000

The Committee recommends an appropriation of $196,506,000, the same as the budget estimate. The Committee recommendations compared to the budget estimates are shown in the following table:

	Budget estimate	Committee recommendation	Change
Outer Continental Shelf lands:			
Leasing and environmental program	$45,055,000	$45,055,000	.....
Resource evaluation	36,801,000	36,801,000	.....
Regulatory program	36,913,000	36,913,000	.....
Subtotal, Outer Continental Shelf lands	118,769,000	118,769,000	.....
Federal and Indian lands:			
Oil and gas program	23,594,000	23,594,000	.....
Coal program	9,579,000	9,579,000	.....
Other energy minerals	3,798,000	3,798,000	.....
Non-energy minerals	2,273,000	2,273,000	.....
Waterpower program	680,000	680,000	.....
Subtotal, Federal and Indian lands	39,924,000	39,924,000	.....
Royalty management:			
Royalty collections	13,841,000	13,841,000	.....
Royalty compliance	6,499,000	6,499,000	.....
Systems development and maintenance	10,354,000	10,354,000	.....
Subtotal, royalty management	30,694,000	30,694,000	.....
General administration	7,119,000	7,119,000	.....
Total, Minerals Management Service	196,506,000	196,506,000	.....

The Minerals Management Service was created by Secretarial Order 3071 on January 19, 1982, and transferred from the U.S. Geologic Survey the entire Conservation Division which had previously managed all activities funded by the conservation of lands and minerals budget activity. On May 10, 1982, Secretarial Order 3071 was amended to consolidate in Minerals Management Service all Outer Continental Shelf related programs previously managed within the U.S. Geological Survey, the Bureau of Land Management, and the Office of the Secretary. The Service is thus responsible for the overall management of petroleum, gas, coal, and other energy and nonenergy minerals on Federal and Indian lands, the collection of royalties due the Government from the production of these resources, and the management of all Interior Department functions directly related to the OSC lands leasing and regulatory program.

Like the House, the Committee endorses this consolidation, and not only expects improved accounting and collection of the royalties due the Government, but also expects improved management of and greater management oversight and accountability for the minerals-related activities as well as the OSC leasing and lease management functions. To this end, the Committee expects the Minerals Management Service to utilize, to the greatest extent possible, the scientific expertise of the USGS and other Federal agencies rather than create a large, separate scientific capability within the Service.

For fiscal year 1983, the first full year of operation, the Committee has recommended the budget request of $196,506,000. Of this amount, not more than $2,000,000 can be used to contract with the U.S. Geologic Survey for USGS Outer Continental Shelf research-related programs. Any amount in excess of $2,000,000 would result in the allocation of a disproportionately large share of available MMS resources to activities not directly supporting the OSC leasing program.

The Committee has joined the House in providing a legislative limitation with respect to the royalty management program. The Committee does not, however, see a compelling argument which would justify amending the law with respect to the transfer of mineral receipts to the general fund of the Treasury before being distributed to the Indian tribes, the States, and to the Federal reclamation fund as set forth in 30 U.S.C. 191.

Finally, the Committee remains concerned that the inadequate lease inspection activities of the past not be continued by the MMS. While the Committee is aware of improvements recently proposed by the Service, the Committee expects to be kept informed on a regular basis of all activities in this regard, including, but not limited to, a comparison of planned and executed inspections, numbers of inspection personnel, ongoing training activities, and the methods by which inspections are increased and improved.

BUREAU OF MINES

1982 appropriation	$150,602,000
1983 budget estimate	125,676,000
House allowance	128,629,000
Committee recommendation	142,162,000

The Committee recommends an appropriation of $142,162,000, an increase of $16,486,000 over the budget estimate.

The distribution by activity is as follows:

	Budget estimate	Committee recommendation	Change
Minerals and research:			
Mineral health and safety technology	$37,823,000	$37,823,000	.....
Minerals environmental technology	6,235,000	6,235,000	.....
Minerals resources technology	33,888,000	33,888,000	.....
Mining research and development	1,000,000	6,000,000	+5,000,000
Subtotal	78,946,000	83,946,000	+5,000,000
Minerals information:			
Data collection and analysis	20,408,000	20,408,000	.....
Land assessments	5,427,000	8,981,000	+3,554,000
Subtotal	25,835,000	29,389,000	+3,554,000
Mineral institutes		9,600,000	+9,600,000
General administration	20,895,000	20,895,000	.....
SLUC reduction		−1,668,000	−1,668,000
Total, Bureau of Mines	125,676,000	142,162,000	+16,486,000

Mineral health and safety.—The Bureau shall cooperate with the Pennsylvania State and West Virginia universities in a program to conduct research on black lung disease within the amount made available for health and safety technology. The work should concentrate on control of dust particle generation; dilution, dispersion, and collection in mine airways; characterization of dust particles and interaction of dust and lungs.

Mining research and development.—The Committee has recommended an increase of $5,000,000 over the budget estimate for mining research and development. This program was transferred to the Bureau of Mines from the Department of Energy in the 1982 Supplemental Appropriations Act and should result in management and coordination efficiencies with the Bureau's coal mining productivity and safety research activities. Of the $6,000,000 recommended by the Committee, $3,000,000 is for continued operation of the Bruceton Mine Equipment Test Facility and $3,000,000 is for initial start-up costs associated with multiyear research of this Nation's strategic and critical materials problems, to be conducted at the Idaho National Engineering Laboratory. This research will be focused specifically in the areas of production technologies, materials technologies, and conservation technologies, as well as on other areas where scientific advances are required to reduce this Nation's dependence on foreign suppliers of strategic and critical materials and where contributions can be made to assist the Nation's minerals and materials industries.

Land assessments.—The Committee recommends an increase of $3,554,000 for land assessments, bringing the total program to the fiscal year 1982 level of $8,047,000. This level of funding will make it possible for the Bureau to continue a more aggressive mineral potential assessment program on the Forest Service Wilderness Act and Rare II lands.

Mineral institutes.—Within the $9,600,000 recommended by the Committee for mineral institutes, $4,950,000 is for the generic mineral technology centers which have as their main focus of research the following primary areas: (1) comminution; (2) mine systems design; (3) pyrometallurgy; and (4) mineral industry waste treatment and recovery. Each of these technology centers will, to the extent possible and practicable, utilize the expertise of other mineral institutes in carrying out their research missions as identified by the Department and the Advisory Committee on Mining and Mineral Research.

Of the remaining $4,650,000, $150,000 is for each of the 31 mineral institutes nationwide to assist in university research in mineral engineering and to train qualified mineral scientists and engineers.

OFFICE OF SURFACE MINING, RECLAMATION AND ENFORCEMENT

REGULATION AND TECHNOLOGY

1982 appropriation	$58,515,000

1983 budget estimate	62,173,000
House allowance	61,313,000
Committee recommendation	63,819,000

The Committee recommends an appropriation of $63,819,000, an increase of $1,646,000 above the budget estimate. A comparison of the budget estimates and the Committee recommendation is as follows:

	Budget estimate	Committee recommendation	Change
State regulatory programs grants	$32,150,000	$32,150,000	
Federal regulatory programs:			
Program operations and inspections	9,393,000	9,896,000	+$503,000
Technical support	9,760,000	10,903,000	+1,143,000
Subtotal	19,153,000	20,799,000	+1,646,000
General administration	10,870,000	10,870,000	
Total, regulation and technology	62,173,000	63,819,000	+1,646,000

Program operations and inspections.—The Committee has recommended $503,000 over the budget request for regulation and inspection, bringing the total for regulation and inspection to $6,603,000. The increase over the budget request will allow the Department to perform the necessary inspections in the State of Virginia during fiscal year 1983 until such time as State law is revised to make State inspection possible.

Technical support.—Activities included in the Committee's recommended increase of $1,143,000 for technical support are technical advice and assistance (+$234,000), regulations review and revisions (+$90,000), technical publications (+$95,000), and mine plan review—NEPA compliance (+$714,000).

ABANDONED MINE RECLAMATION FUND—(DEFINITE, TRUST FUND)

1982 appropriation	$115,333,000
1983 budget estimate	97,649,000
House allowance	126,609,000
Committee recommendation	152,649,000

The Committee recomends an appropriation of $152,649,000, an increase of $55,000,000 above the budget estimate. The Committee recommendation is compared to the budget estimate as follows:

	Budget estimate	Committee recommendation	Change
State reclamation programs grants	$78,500,000	$133,500,000	+$55,000,000
Federal reclamation programs:			
Interior reclamation projects	9,377,000	9,377,000	
Rural lands reclamation program	3,650,000	3,650,000	
Technical support	1,221,000	1,221,000	
Subtotal	19,149,000	19,149,000	
Total, abandoned mine reclamation fund	97,649,000	152,649,000	+55,000,000

State reclamation program grants.—Recognizing the depressed state of the economy in the coal fields as well as the availability of previously collected fees from the abandoned mine reclamation fund, the Committee has added $55,000,000 to the budget request for State reclamation grant activities. The Committee expects these funds to be transferred in an expeditious manner so as to accelerate the repair of damages to the lands resulting from abusive surface mining practices prior to the passage of the Surface Mining Reclamation and Control Act, and to provide much needed employment opportunity in the coal mining regions of this country as quickly as possible.

Interior reclamation projects.—The Committee expects the Department to use available funds to address eligible high priority coal and noncoal projects in those States that do not have approved abandoned mine reclamation programs.

Rural lands reclamation program.—For RAMP, the Committee has recommended the budget request of $3,650,000. This amount will provide for the servicing of all 244 existing active contracts by USDA's Soil Conservation Service. While the Committee is committed to completing those RAMP projects currently underway, it notes again the position taken by the committees in the conference report on the 1982 Supplemental Appropriations Act that no new projects will be funded under the RAMP program as they have in the past. Rather, the Committee expects these new projects will be funded through the reclamation grants made available to the individual States. In this regard, the States are encouraged to utilize the expertise of the Soil Conservation Service and State and local conservation districts in planning reclamation projects.

The Committee shares the view of the House that the collection of delinquent reclamation fees is extremely important and has likewise included bill language which permits the Department to contract for the collection of such fees. The Committee's language, however, does not place a restriction of 20 percent of the amount of the collected delinquent fee which can be used to pay for such a contract.

INDIAN AFFAIRS

BUREAU OF INDIAN AFFAIRS

OPERATION OF INDIAN PROGRAMS

1982 appropriation	$828,572,000
1983 budget estimate	849,250,000
House allowance	850,477,000
Committee recommendation	839,339,000

The Committee recommends an appropriation of $839,339,000, a decrease of $9,911,000 below the budget estimate and $11,138,000 below the House allowance. The Committee recommendations compared with the budget estimate are displayed in the following table:

	Budget estimate	Committee recommendation	Change
Education	$256,672,000	$274,370,000	+$17,698,000
Indian services	245,114,000	234,114,000	−11,000,000
Economic development and employment	66,573,000	58,555,000	−8,018,000
Natural resources	87,203,000	83,521,000	−3,682,000
Trust responsibilities	47,205,000	46,205,000	−1,000,000
General management and facilities operations	162,483,000	152,574,000	−9,909,000
General overhead reduction	−16,000,000	−10,000,000	+6,000,000
Total, operation of Indian programs	849,250,000	839,339,000	−9,911,000

Education.—The Committee recommends $274,370,000 for education programs which includes $176,749,000 for school operations, $26,229,000 for Johnson-O'Malley educational assistance, $52,677,000 for continuing education, and $18,715,000 associated with the future transfer of schools to the State of Alaska.

The sum of $153,228,000 is provided for the equalization formula. The $3,345,000 savings associated with the closure of 17 Alaskan schools combined with the recommended level provide a net increase of $7,052,000 over the fiscal year 1982 allowance. Enrollment has been steadily declining in the BIA schools. The following table illustrates the per student expenditures:

	Estimated 1982	Actual 1982	1983 Committee recommendation [1]
Number of students	44,400	40,556	39,456
Equalization formula	$149,521	$149,521	$153,228
Per student expenditure	$3,367	$3,686	$3,886

[1] Estimate of students subtracts only the 1,100 students in Alaska who have transferred to the State system. Actual enrollment will likely be lower.

The above figures cover only a portion of the actual educational expenditures of the Bureau. When the costs of transportation, operations and maintenance, administration, and funds available through the Department of Education are included, the expenditure per student exceeds $6,000, which is almost three times the national average expenditure of $2,200.

In future justifications, the Bureau should revise the education section so as to accurately reflect the total cost of the Bureau's school system.

Other reductions in school operations include: Transportation, −$166,000; educational technical support, −$865,000; and interim formula implementation funds, −$500,000.

Within the funds available, Concho and Wahpeton boarding schools are to be operated for the 1982–83 school year. Funding shall be based on the established formula.

In the last decade the State of Alaska has assumed responsibility for more than 30 day schools which had been operated by the Bureau of Indian Affairs. Most recently, 17 schools were transferred in August 1982. To date all transfers have been accomplished with the concurrence of the State and consultation with the people involved. The Committee intends that this practice be continued, the Bureau is, therefore, directed to operate all 20 remaining day schools in Alaska during the 1983–84 academic year with the exception of any schools for which a resolution of concurrence has been received and not rescinded and which the State is prepared to operate.

$18,715,000 has been provided to upgrade 17 of the remaining 20 day schools. The other three schools are included in the Bureau's facility improvement and repair program.

The funds are made available without fiscal year limitations. It is the intention of the Committee that as the transfers occur, the Bureau shall make available to the State of Alaska the funds required to upgrade the schools.

Bill language has also been included effecting the closure of two boarding schools: Concho and Mount Edgecumbe. The Bureau is to keep the Committee fully informed of actions taken to insure appropriate placement of the children.

The Committee has not at this time concurred with the proposed closure of the Wahpeton and Intermountain boarding schools. With regard to Wahpeton, the Committee does not feel that elementary school children are best served in a boarding school atmosphere, but the Committee also recognizes the legitimate concerns regarding the proper placement of the students who

come from unstable home environments. The Bureau is to continue consultation with the tribes and enter into discussions with the State of North Dakota regarding the future of the school.

While Intermountain has excess capacity, a large backlog of improvement and repair projects and a very high cost per student (in excess of $10,000), it also offers services, such as the solo parent program, which are unavailable in other Bureau schools. The Bureau is requested to approach the State of Utah to determine if there is interest in the State's assuming operation of the school. Failing such interest, the Bureau should proceed with a plan to phase out the operation of this boarding school. A freshman class is to be admitted for the 1983-84 school year.

If either of the States of North Dakota or Utah are willing to accept the boarding schools into the State school system, the Committee will provide in a supplemental appropriation the funds required to bring the facilities up to life and safety standards.

An additional $275,000 has been provided for Johnson-O'Malley payments so that other States do not have their funding reduced because of the additional 1,000 eligible students in Alaska.

The budget request for continuing education has been increased by $1,800,000. Decreases of $300,000 for Haskell Indian Junior College and $160,000 for the Institute of American Indian Arts have been assessed. Haskell is operating below projected enrollment and there was insufficient justification for the total requested increase for IAIA. The sum of $2,260,000 has been provided for the operation of Southwestern Indian Polytechnic Institute. This slight reduction below the fiscal year 1982 level is based on a decrease in enrollment. The Committee intends the Bureau to operate SIPI only through the 1982-83 academic year. Once the task force report is received, action will be taken regarding transfer or closure.

Once the final count for tribally controlled community colleges is determined, if the funds appropriated for title I are insufficient to provide $2,812 per full-time equivalent (FTE) student, the Bureau shall reprogram administrative funds to this program in an amount sufficient to provide $2,812 per FTE.

Indian Services.—The sum of $234,114,000 is provided for Indian services. The decreases below the budget consist of:
—$2,500,000 for the small tribes initiative;
—$500,000 for newly recognized tribes;
—$3,000,000 for welfare grants; and
—$5,000,000 for self-determination grants.

The Bureau of Indian Affairs is directed to limit general assistance payments to the percentage of the State standard of need paid by the individual States. Recent reports by the Inspector General point out serious problems of overpayments and payments to ineligible recipients in the BIA's general assistance and child welfare programs. Administrative action should be taken immediately to correct these program deficiencies.

As the State of Maine has agreed to pay general assistance for the tribes in that State, no BIA funds shall be used for general assistance in Maine after March 31, 1983.

Within the funds available in this and other accounts, the Bureau is directed to provide adequate services to the Turtle Mountain Indian band, including the Trenton Indian service area.

The request for self-determination grants has been reduced by $5,000,000. These funds are to be used to improve tribal accounting systems and to enhance the ability of the tribes to contract for Federal programs. In practice, however, these funds have been used to support a range of activities having little to do with training tribal personnel to assume Federal contracts. The Committee directs that all contracts under this activity be limited to those objectives outlined in the budget justification.

The amount of $30,338,000 is provided for contract support, an increase of $3,016,000 over the fiscal year 1982 level. Within that amount, $550,000 is to be used to support the tribal education contracts which had, until fiscal year 1982, been supported with education funds.

Beginning with the fiscal year 1984 budget submission, contract support funds should be distributed to the program accounts. Only the estimate for new contracts should be included in the contract support line.

Economic development and employment programs.—The sum of $58,555,000 is provided for economic development and employment programs. Employment development has been reduced by the $896,000 requested to close out the Indian Action Team contracts. The Bureau used $500,000 in fiscal year 1982 for this purpose and it should not take 2 years to close out these contracts. Within the funds available, the Committee directs that support for the United Tribes Educational Technical Center be continued at the fiscal year 1982 level ($1,056,000). It has come to the attention of the Committee that funds specifically intended for UTETC may have been reallocated to other uses by the Aberdeen area office. The Committee is deeply concerned that the Aberdeen area office administer the UTETC funds expeditiously and, in compliance with congressional intent, and directs that no less than 95 percent of the funds intended for UTETC are provided to the Center.

The sum of $5,000,000 is provided for the economic development initiative. The road maintenance program is continued at the fiscal year 1982 level.

Natural resources development.—The forestry program has been reduced by $1,500,000. A $3,300,000 increase over the current level is more than sufficient in the face of declining sales and harvest levels. The budget request for irrigation and power has been decreased by $2,182,000. Receipts in fiscal year 1982 and those estimated for fiscal year 1983 are more than $2,000,000 higher than original projections.

The Committee directs that resources available to the Maine tribes be continued at a minimum of the fiscal year 1982 levels. If additional acreage is added to the Maine reservations during fiscal year 1983, the Bureau is directed to make a proportionate increase of funds available to the tribes.

The Committee has not increased the $500,000 budgeted by the BIA for the Council of Energy Resource Tribes. The current Federal contract with CERT extends through the first half of fiscal year 1983. In addition to the BIA, the CERT contract is funded by the Administration for Native Americans and the Department of Energy, with DOE as the lead agency. The Committee understands that a total of $1,100,000 is available to CERT from the Bureau of Indian Affairs during fiscal year 1982 and has no objection to a similar amount being made available in fiscal year 1983.

Trust responsibilities.—The budget increase for the Alaska Lands Act has been deleted. The Committee has not concurred in the bill language proposed by the House of Representatives which could provide a blanket extension for the statute of limitations. This matter is under active consideration of the authorizing committees and a legislative remedy appears imminent.

General management and facilities operation.—A reduction of $2,194,000 has been applied to executive direction and equal opportunity. Funding for the Assistant Secretary for Indian Affairs is provided through the Office of the Secretary. The requested increase of $2,715,000 for administrative services has not been approved. In view of the fact that the Committee has not approved the total general overhead reduction, there are sufficient resources in these two programs to carry out the BIA responsibilities.

The budget request for facilities management has been reduced by $5,000,000. Fuel cost increases have been substantially less than anticipated when this budget was developed. Further savings are available through the closure of 17 schools in Alaska. The Committee recommendation provides an effective increase of $8,000,000 above the fiscal year 1982 level.

General overhead reduction.—The Committee has approved $10,000,000 of the requested $16,000,000 general overhead reduction. It is anticipated that the Bureau will receive approval to implement at least a portion of the proposed reorganization in fiscal year 1983 in order to achieve the estimated savings. Effective management of the Bureau has been impeded by the policy of not filling vacancies while leaving the overall structure intact. The BIA should identify vacancies in critical areas and proceed to fill those immediately.

OTHER PROVISIONS

The Committee has deleted the following House language: Closing 20 day schools in Alaska; continuing the operation of the Southwestern Indian Polytechnic Institute; prohibiting the transfers of the Santa Fe and Albuquerque Indian schools; prohibiting alteration of artwork at the Santa Fe Indian school; and designating a procedure for school closures.

The Committee has included bill language to terminate maintenance funding for boarding schools closed several years ago.

CONSTRUCTION

1982 appropriation	$93,628,000
1983 budget estimate	76,200,000
House allowance	73,890,000
Committee recommendation	69,500,000

The Committee recommends an appropriation of $69,500,000, a reduction of $6,700,000 below the budget estimate and $4,390,000 below the House allowance.

As redesign has delayed construction of the Hopi High School, only $2,500,000 has been provided. The facility shall be built for 800 students.

The $5,200,000 provided in fiscal year 1982 for construction of the Laguna School is no longer required. The Bureau should, therefore, use $4,985,000 to build the San Simmon School which is at the top of the priority list. The remainder shall be used for advance planning and design.

From the review of the Laguna project it appears that while public secondary school has more than adequate capacity, there is some crowding in the Bureau's elementary schools on the reservation. Facility improvement and repair funds should be used to upgrade those schools.

An increase of $1,600,000 is provided to construct 17 units of staff quarters for the Little Wound School, South Dakota.

An increase of $4,200,000 is provided for continued construction of Navajo Irrigation project. Further, $200,000 of the amount budgeted for the Grass Rope Irrigation project shall be applied toward the Navajo project thus giving a program level of $7,400,000 when combined with the $3,000,000 available in carryover funds. The remaining $1,600,000 available from Grass Rope shall be applied to the Sandia Pueblo irrigation improvement project.

ROAD CONSTRUCTION

1982 appropriation	$47,160,000
1983 budget estimate	43,585,000
House allowance	43,705,000
Committee recommendation	43,585,000

The Committee recommends an appropriation of $43,585,000, the same as the budget estimate and $120,000 below the House allowance.

TRUST FUNDS

1982 appropriation	$53,000,000
1983 budget estimate	53,000,000
House allowance	53,000,000
Committee recommendation	53,000,000

The Committee recommends an appropriation of $53,000,000 in trust funds, the same as the budget estimate and the House allowance.

TERRITORIAL AFFAIRS

In light of the administration's long-stated desire and subsequent action supporting completion of the status negotiations with the governments of the Trust Territory, the Committee cannot understand the reasoning behind the submission by the administration of such an inadequate budget request. Despite the administration's own testimony that the capital improvement program (CIP) was some $32,000,000 short of its original scope, for example, no funds were requested for new construction to meet the CIP commitments made by the United States. In an effort to show good faith on the part of the United States with respect to the signing of the status agreements, the Committee has, therefore, increased the Trust Territory of the Pacific Islands budget to better meet some of these commitments.

Among the most important needs of the territories and Trust Territory is the training of personnel in the many areas of public works in order to properly maintain utilities and equipment. To this end, the Committee has provided increased funds for technical assistance and enhanced operations. In addition, the Committee directs that all construction project contracts contain provisions which provide for adequate training of local personnel in the construction techniques and maintenance requirements of that project.

ADMINISTRATION OF TERRITORIES

1982 appropriation	$92,892,000
1983 budget estimate	55,476,000
House allowance	70,743,000
Committee recommendation	77,342,000

The Committee recommends an appropriation of $77,342,000, $21,866,000 above the budget estimate. The amounts recommended by the Committee compared to the budget estimates are shown in the following table:

	Budget estimate	Committee recommendation	Change
Guam:			
Economic development fund	$500,000	$1,000,000	+$500,000
Construction grants	3,165,000	10,028,000	+6,863,000
Subtotal, Guam	3,665,000	11,028,000	+7,363,000
American Samoa:			
Judiciary	681,000	681,000	
Operations grants	18,222,000	20,882,000	+2,660,000
Construction grants	1,480,000	1,777,000	+297,000
Economic development fund		500,000	+500,000
Special program grants			
Subtotal, American Samoa	20,383,000	23,840,000	+3,457,000
Virgin Islands:			
Construction grant		2,500,000	+2,500,000
Subtotal, Virgin Islands		2,500,000	+2,500,000
Northern Mariana Islands:			
Operations grants	14,228,000	14,228,000	
Construction grants, convenant	6,897,000	6,897,000	
Economic development grant	3,018,000	3,018,000	
Construction grants, other	4,000,000	11,500,000	+7,500,000
Subtotal, Northern Mariana Islands	28,143,000	35,643,000	+7,500,000
Office of Territorial and International Affairs	3,285,000	4,361,000	+1,076,000
Northern Mariana Islands Federal Laws Commission			
SLUC reduction		−30,000	−30,000
Total, administration of territories	55,476,000	77,342,000	+21,866,000

As in fiscal year 1982, the Committee does not share the assumption that the territorial governments can support a 75–25 cost sharing on construction projects. Cost sharing should be based on the ability of the local government to contribute rather than on a set formula. Accordingly, increased funding is provided for those projects which the Committee has considered to be of highest priority.

Guam.—The Committee's recommendation includes construction grants for three water transmission lines ($2,567,000); fishing vessel docking facilities ($1,320,000); Route 11 reconstruction ($1,656,000); Harbor of Refuge ($1,485,000); hospital renovation and upgrade ($2,000,000); and the Northern Area Health Center ($1,000,000). An additional $1,500,000 to construct the Northern Area Health Center is expected to be provided through Hill-Burton funds.

American Samoa.—Included in the Committee's recommendation is an additional $500,000 to meet the increasing cost of off-island medical referrals; an additional $500,000 for the economic development loan fund; and $297,000 to reach a 90/10 Federal-local match for construction grants. The Committee has approved $810,000 for the Federal share of a tugboat (total request this fiscal year; $900,000), but understands this may be only half of the cost of a new tugboat. The Committee, therefore, directs the American Samoa government and the Department to review alternatives to purchase, such as long-term lease. The Committee has also included $2,160,000 for emergency repair and maintenance of power generation and distribution facilities. The Committee remains committed to providing improved facilities to American Samoa, however, and has determined to await final long-term plans for such new facilities to be submitted by the government.

Virgin Islands.—The Committee has recommended $1,500,000 for one juvenile detention center. The Committee shares the belief expressed in recent hearings that this facility will greatly assist the Government to overcome growing crime problems. The Committee has also included $1,000,000 for initial planning and development of much needed water and power facilities.

The Committee has recommended funds for several territories for water and power. These funds have been provided on the basis of information submitted by the territories. The Committee is concerned that the Department has been unable or unwilling to provide the Committee with the basic information on the condition of the water and power systems in the territories to enable it to conduct a reasoned review of these requests. The deteriorating situation in American Samoa has been known by the Department since at least 1974 when the Army generators were procured and yet no comprehensive proposal for the Samoa system has been proposed. The Committee is aware of budget requests from the Virgin Islands for the last several years, yet, again no comprehensive review of the Virgin Islands water and power system has been forthcoming. Accordingly, the Committee directs the Department to include within the justifications submitted with the 1984 budget and each year thereafter a comprehensive statement on the water and power systems in each territory noting the age and condition of the various components of the system including generators, distribution lines, transfer and switching, et cetera. The statement shall also include cost estimates for replacement, repair, or rehabilitation of any components which will be required within that fiscal year and the capability of that territory to assume those costs from available resources and an identification of the source of those funds.

Northern Mariana Islands.—In addition to the budget request, the Committee has recommended $1,500,000 to complete the airport water catchment system and an additional $6,000,000 to begin construction of new health care facilities. The Committee is concerned that the budget request is insufficient to lure adequate construction bids and, moreover, is convinced piecemeal funding will result in increased overall costs and an unnecessary delay in completion of the facilities. The Committee's total recommendation of $10,000,000 will provide 33 percent of the overall cost and will make it possible to complete construction within a 3-year timeframe.

Office of Territorial and International Affairs.—The Committee does not concur with the Department's request to fund the Office of the Assistant Secretary through the administration of territories account. Rather, the Office will be funded the same as the other assistant secretary offices, through the Office of the Secretary account. To further provide much needed technical assistance to the territories and Trust Territory, the Committee has recommended an increase of $1,500,000 over the budget request of $1,450,000. While the Committee expects the Department to work closely with each of the governments to identify and resolve each government's priority technical assistance needs, special attention should continue to be given to financial planning and accounting, communications, and construction and maintenance training. In coordination with recent action by the Department, the functions of the Federal Comptrollers have been transferred to the Office of the Inspector General.

The Committee directs the Secretary to, within available funds not already obligated, make available $150,000 for planning for the Eastern Caribbean Center at the College of the Virgin Islands.

TRUST TERRITORY OF THE PACIFIC ISLANDS

1982 appropriation	$101,114,000
1983 budget estimate	75,500,000
House allowance	81,100,000
Committee recommendation	102,927,000

The Committee recommends an appropriation of $102,927,000, an increase of $27,427,000 above the budget estimate. The Committee recommendations are compared to the budget estimates in the following table:

	Budget estimate	Committee recommendation	Change
Operations:			
TTPI headquarters	$4,630,000	$5,630,000	+$1,000,000
College of Micronesia	1,400,000	1,452,000	+52,000
Federated States of Micronesia	35,137,000	37,842,000	+2,705,000
Republic of the Marshall Islands	10,358,000	10,484,000	+126,000
Republic of Palau	9,575,000	9,654,000	+79,000
Special operations grants	5,300,000	13,400,000	+8,100,000
Total, operations	66,400,000	78,462,000	+12,062,000
Construction:			
New projects		23,665,000	+23,665,000
Capitol relocation	7,800,000		−7,800,000
Total, construction	7,800,000	23,665,000	+15,865,000
Enewetak support	800,000	800,000	
Bikini support	500,000		−500,000
Total, Trust Territory of the Pacific Islands	75,500,000	102,927,000	+27,427,000

TTPI headquarters.—The Committee has recommended an increse of $1,000,000 over the budget estimate to initiate repairs of headquarters buildings and housing facilities on Saipan. While the Committee understands that TTPI is in the process of phasing out, this is nevertheless no excuse to allow office and housing facilities to deteriorate. The Department is, therefore, directed to immediately begin repair and maintenance activities on these facilities and to henceforth maintain them in good condition until title is transferred to the Government of the Northern Mariana Islands.

Federated States of Micronesia.—An increase of $1,106,000 over the budget estimate is recommended for FSM's operations and maintenance budget, and $15,750,000 is recommended for the total construction budget. The construction budget is distributed to the four FSM states in the following manner: Kosrae—airport paving ($3,000,000); airport terminal ($500,000); airport and dock water and power ($2,000,000); dock warehouse ($300,000). Ponape—power transformers ($300,000); airport terminal ($500,000). Truk—water system improvement ($1,650,000); road construction and paving ($1,000,000); sewer hookup ($1,000,000). Yap—road paving ($2,000,000); airport water collection and drainage ($2,000,000); airport terminal ($500,000); sewer hookup ($1,000,000). An additional $1,599,000 has been added to assist the FSM government in fighting the ongoing cholera epidemic. This amount will allow for water purification, laboratory supplies, medical treatment and supplies, nonmedical supplies, transportation, fuel, and necessary construction activities. No funds are available for work on the capitol relocation.

Republic of the Marshall Islands.—The Committee has recommended an increase of $126,000 for operations and maintenance and a total of $2,965,000 for construction of the docks on the outer islands of Jaluit and Mili. No funds are provided for work on the relocation of the capitol.

Republic of Palau.—An increase of $79,000 over the budget estimate is recommended for operations and maintenance, and $4,950,000 is recommended by the Committee for construction. Included in this construction allocation is $500,000 for airport terminal construction; $2,000,000 for water system improvement; $1,800,000 for road construction, paving, and upgrade; and $650,000 for power system improvement. No funds are provided for work on the relocation of the capitol.

Special operations grants.—Included in the Committee's recommendation for special operations grants are $2,400,000 for the fuel contingency reserve; $1,000,000 for leasing costs for seven satellite communication terminals as well as for necessary interface equipment; and $10,000,000 for enhanced operations and maintenance. This amount for enhanced operations and maintenance makes up a portion of the shortfall in this account as testified by the Department and makes it possible to purchase necessary spare parts, equipment, and various utility maintenance supplies, as well as to provide skilled personnel and initiate or enhance training programs to upgrade technical skills in the public works area.

As adequate funds were provided in the fiscal year 1982 Supplemental Appropriations Act, no further funds have been recommended for Bikini support.

The Committee has directed that no construction funds are to be used for work on the relocation of the capitols. This action was taken for this fiscal year because the Committee believes the construction projects listed in the report are of much higher priority. The Committee remains committed to the construction of the new capitols for FSM, the Marshalls and Palau, and expects to approve funds for this construction in future appropriations acts.

Finally, the Committee has provided a new budget structure for TTPI in this report and expects the Department to submit the fiscal year 1984 budget request to the Congress in this same fashion.

SECRETARIAL OFFICES

OFFICE OF THE SOLICITOR

SALARIES AND EXPENSES

1982 appropriation	$17,750,000
1983 budget estimate	19,071,000
House allowance	17,904,000
Committee recommendation	19,071,000

The Committee recommends an appropriation of $19,071,000, the same as the budget estimate and an increase of $1,167,000 over the House allowance. The Committee has stricken the House provision concerning the Equal Access to Justice Act. Additional resources would be required for the Solicitor to assume those payments.

OFFICE OF THE SECRETARY

DEPARTMENTAL MANAGEMENT

1982 appropriation	$40,988,000
1983 budget estimate	43,522,000
House allowance	40,521,000
Committee recommendation	42,812,000

The Committee recommends an appropriation of $42,812,000, a decrease of $710,000 below the budget estimate.

The Committee recommendations compared to the budget estimates are displayed in the following table:

	Budget estimate	Committee recommendation	Change
Departmental direction:			
Immediate office	$1,215,000	$1,601,000	+$386,000
Executive secretariat	200,000	180,000	−20,000
Congressional and legislative affairs	1,046,000	1,021,000	−25,000
Equal opportunities	1,302,000	1,294,000	−8,000
Field coordination	200,000	175,000	−25,000
Public affairs	700,000	700,000	
Small and disadvantaged business utilization	374,000	374,000	
Subtotal, departmental direction	5,037,000	5,345,000	+308,000
Program direction and coordination:			
A/S energy and minerals	775,000	775,000	
A/S land and water resources	810,000	810,000	
A/S fish and wildlife and parks	769,000	744,000	−25,000
A/S Indian affairs		754,000	+754,000
A/S policy budget and administration		755,000	+755,000
A/S Territorial and International Affairs		424,000	+424,000
Subtotal, program direction and coordination	2,354,000	4,262,000	+1,908,000
Policy, budget, and administration:			
A/S policy, budget, and administration	755,000		−755,000
Environmental project review	1,067,000	1,042,000	−25,000
Acquisition and property management	1,368,000	1,320,000	−48,000
Personnel management	1,565,000	1,490,000	−75,000
Administrative services	3,141,000	3,066,000	−75,000
Information resources management	4,499,000	4,424,000	−75,000
Policy analysis	1,609,000	1,609,000	
Budget office	1,369,000	1,344,000	−25,000
Outer Continental Shelf program			
Financial management	782,000	782,000	
Subtotal, policy, budget, and administration	16,155,000	15,077,000	−1,078,000
Office of Water Policy	1,768,000		−1,768,000
Hearings and appeals	6,146,000	6,146,000	
Endangered Species Committee			
Central services	11,062,000	10,982,000	−80,000
Alaska subsistence grant	1,000,000	1,000,000	
Total, departmental management	43,522,000	42,812,000	−710,000

Departmental direction.—The Committee has recommended an increase of $308,000 for departmental direction, however, has proposed several alterations from the budget request. Specifically, funds have been provided at the fiscal year 1983 base level plus the full cost of the 1981 general schedule and January 1982 executive pay raises for current authorized staff not funded in the base amounts. In addition, $400,000 has been added to the immediate Office of the Secretary to reimburse the Park Police for security protection; and $25,000 each has been transferred from congressional and legislative affairs and from the Assistant Secretary, Fish, Wildlife, and Parks to Interpretive and Visitor Services, Operation of the Park Service, in order to conduct work through the National Council for the Traditional Arts.

Program direction and coordination.—In addition to the budget request, the Committee recommends funding the Offices of the Assistant Secretaries for Indian Affairs, Territorial and International Affairs, and Policy, Budget, and Administration through this account rather than through the operations of each activity. Offsetting adjustments have, therefore, been made in the operations accounts for BIA, TIA, and under Policy, Budget, and Administration in the Office of the Secretary.

Policy budget, and administration.—As in departmental direction, the Committee has recommended adjustments to reflect the fiscal year 1983 base level plus the full cost of the 1981 general schedule and January 1982 executive pay raises for currently authorized staff not funded in the base amounts.

Central services.—The Committee has recommended no increase above the fiscal year 1983 base level. In addition, $100,000 has been transferred to the Minerals Management Service in anticipation of the administration's funding request for that new agency.

OFFICE OF INSPECTOR GENERAL

1982 appropriation	$13,369,000
1983 budget estimate	21,500,000
House allowance	21,500,000
Committee recommendation	21,500,000

The Committee recommends an appropriation of $21,500,000, the same as the budget estimate. The Committee continues to maintain strong support for the work carried out by the Office of Inspector General, as is indicated by a budget which has grown four-fold over the past 4 fiscal years. In addition to an increased budget, the Congress has continued to mandate its own as well as approve executive branch efforts to increase the responsibilities of the Inspector General. It is imperative that with this swift growth the Inspector General not lose sight of his mission to promote economy and efficiency, the prevention and detection of fraud and abuse, and to keep the Secretary and the Congress informed of problems and deficiencies in departmental programs and operations.

With regard to the recent transfers of the Federal Comptrollers from the Office of Territorial and International Affairs to the Office of the Inspector General, the Committee expects the IG to confer and consult with the proper committees of Congress before changes in office structure are made.

The Committee is concerned about the method used to count students in Federal and contract schools funded by the Bureau of Indian Affairs. The IG's office is requested to conduct unannounced spot checks in at least one-third of the schools supported by the Bureau and report the results to the Committee. The Committee also requests checks of enrollment in tribally controlled community colleges.

OFFICE OF CONSTRUCTION MANAGEMENT

1982 appropriation	$3,840,000
1983 budget estimate	.....
House allowance	1,000,000
Committee recommendation	.....

The Committee recommends no appropriation for construction management, the same as the budget estimate.

The Department has unobligated funds totaling $3,613,000. This amount represents enough for the Department to assist the bureaus and offices of the Department in improving their performance in planning, designing, constructing, and operating facilities.

OFFICE OF WATER POLICY

1982 appropriation	.....
1983 budget estimate	.....
House allowance	$7,768,000
Committee recommendation	7,978,000

The Committee recommends an appropriation of $7,978,000, an increase of $7,978,000 over the budget estimate.

A comparison of the Committee recommendation and the budget estimate follows:

	Budget estimate	Committee recommendation	Change
Water policy, planning, and coordination	$1,768,000	$1,768,000	+$1,768,000
State water R. & D. institutes		6,210,000	+6,210,000
Total, Office of Water Policy		7,978,000	+7,978,000

Water policy, planning, and coordination.—The Committee recommends $1,768,000 for water policy, planning, and coordination. The Committee shares the concern expressed by many that the Department of the Interior lacks a focal point for addressing the extremely important issues facing this Nation. To meet this challenge, the Office of Water Policy will function as the focal point for Interior-related water issues, proceeding from the premise that the States have primary rights in water allocation, planning, and management. The States will play the major role in water resources and the Office will respond by identifying the Federal role as it concerns the Department of the Interior.

State water research institutes.—The Committee continues to believe that the research conducted by the State water R&D institutes is a valuable and necessary tool in solving the many short- and long-term water use problems facing this Nation. The Committee, therefore, has funded the institutes, through the Office of Water Policy, at the fiscal year 1982 level.

GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

The House has included a number of general provisions considered unnecessary by the Senate, including sections 107, 108, 109, 110, 111, and 112. The Senate has included a provision which prohibits funding for the procurement, leasing, bidding, exploration, or development of the Point Arena, Bodega, Santa Cruz, or Eel River basins off the coast of northern California.

The Committee has also included language in section 108 dealing with section 1002 of the Alaska National Interest Lands Conservation Act (ANILCA) which requires the Secretary of the Interior to complete and submit to Congress by August 1986 a study of the resource values, including the oil and gas potential, of the coastal plain of the Arctic National Wildlife Refuge in Alaska. Section 108 provides that the Secretary shall not permit any person who obtains this data and information at less than fair market value to participate in any lease sale ultimately held on the coastal plain. Public access to the data and information by any person not using it for a commercial purpose is retained.

TITLE II—RELATED AGENCIES

DEPARTMENT OF AGRICULTURE

FOREST SERVICE

FOREST RESEARCH

1982 appropriation	$112,145,000
1983 budget estimate	97,990,000
House allowance	106,352,000
Committee recommendation	104,604,000

The Committee recommends an appropriation of $104,604,000, an increase of $6,614,000 over the budget estimate.

The Committee has proposed significant increases for Forest Service research and intends that the Forest Service be able to establish or modify research studies, as they deem necessary, in order to direct available resources in the most promising way. Committee increases over the budget for specific research locations or specific studies are indentified below. The remaining increases are to be used within the activities so identified but in a manner of Forest Service programing. The Committee's recommendation is still a reduction of about $6,000,000 from 1982 levels and the Forest Service needs this flexibility to weed out the weakest studies and research locations.

Within available funds, the FS shall continue to support the Forestry Intensified Research (FIR) program in southwest Oregon at a $1,200,000 level. Combined with $1,000,000 provided BLM, this will continue the Federal contributions in fiscal year 1983 at the $2,200,000 level.

The following table compares Committee recommendations to the budget estimates:

	Budget estimate	Committee recommendation	Charge
Resource protection research:			
Fire and atmospheric science	$7,217,000	$8,167,000	+$950,000
Forest insect and disease	19,897,000	21,178,000	+1,281,000
Renewable resource evaluation	11,160,000	11,910,000	+750,000
Renewable resource economics	4,345,000	5,091,000	+746,000
Surface environment and mining	1,331,000	1,331,000	.....
Subtotal	43,950,000	47,677,000	+3,727,000
Resource management research:			
Trees and timber management	18,520,000	19,841,000	+1,321,000
Forest watershed management	8,178,000	9,028,000	+850,000
Wildlife, range, and fish habitat	7,957,000	8,510,000	+553,000
Forest recreation	1,920,000	2,083,000	+163,000
Forest products	14,813,000	14,813,000	.....
Forest engineering	2,652,000	2,652,000	.....
Subtotal	54,040,000	56,927,000	+2,887,000
Total, forest research	97,990,000	104,604,000	+6,614,000

RESOURCE PROTECTION RESEARCH

Fire and atmospheric science.—The Committee has provided increases of $950,000, including at least $150,000 for the Bend, Oreg., lab.

Forest insect and disease.—The Committee has provided an increase of $1,281,000; up to $126,000 for the Moscow, Idaho, lab; and $260,000 for additional gypsy moth research at the Morgantown, W. Va., insect lab.

The Committee understands the Department will fund some forest pest management research studies through its extramural programs at a number of other universities. The Committee further understands that Penn State is a likely candidate for those funds and encourages the Department to use Penn State if in its judgment it provides the best opportunity for advances in gypsy moth control.

Renewable resource evaluation.—The Committee recommends an increase of $750,000, primarily to be used to support resource inventory cycle work.

Renewable resource economics.—The Committee recommends an increase of $746,000. The Forest Service is to give consideration to research to help the small woodlot owner with the remaining increase.

RESOURCE MANAGEMENT RESEARCH

Trees and timber management.—The Committee recommends an increase of $1,321,000, including at least $100,000 for the Bend, Oreg., lab; at least $149,000 for the Boise, Idaho, lab; and at least $200,000 for the Sewanee, Tenn., lab.

Forest watershed management research.—The Committee recommends an increase of $850,000, including at least $100,000 for Reno, Nev.

Wildlife, range, and fish habitat research.—The Committee recommends an increase of $553,000, including at least

$353,000 for the Oregon range and related resources evaluation project (EVAL). Other funds needed to continue the EVAL project are included within available funds in state and private forestry ($190,000) and NFS ($11,000).

Forest recreation.—The Committee recommends an increase of $163,000 for recreation-related research.

STATE AND PRIVATE FORESTRY

1982 appropriation	$64,148,000
1983 budget estimate	47,520,000
House allowance	58,770,000
Committee recommendation	61,078,000

The Committee recommends an appropriation of $61,078,000, an increase of $13,558,000 over the budget.

The following table provides a comparison of the budget estimate and the Committee recommendations.

	Budget estimate	Committee recommendation	Change
Resource protection:			
Forest pest management:			
Federal lands pest management:			
Surveys	$9,511,000	$9,511,000	
Suppression	4,150,000	8,000,000	+$3,850,000
Special projects	1,230,000	1,230,000	
Subtotal	14,891,000	18,741,000	+3,850,000
Cooperative pest management:			
Surveys and technical assistance	1,899,000	1,899,000	
Suppression		7,000,000	+7,000,000
Subtotal	1,899,000	8,899,000	+7,000,000
Subtotal, forest pest management	16,790,000	27,640,000	+10,850,000
Rural fire prevention and control	14,380,000	14,380,000	
Total, resource protection	31,170,000	42,020,000	+10,850,000
Resource management:			
Cooperative forestry assistance:			
Forest management	7,654,000	8,654,000	+1,000,000
Utilization	2,544,000	2,544,000	
Seedlings, nursery, and tree improvement	2,177,000	2,177,000	
Subtotal, forestry assistance	12,375,000	13,375,000	+1,000,000
Assistance in management, planning, and technology implementation:			
Management assistance			
Planning assistance	975,000	2,683,000	+1,708,000
Technology implementation			
Subtotal	975,000	2,683,000	+1,708,000
Total, resource management	13,350,000	16,058,000	+2,708,000
General forestry assistance:			
Special projects	3,000,000	3,000,000	
Total, State and private forestry	47,520,000	61,078,000	+13,558,000

Resource protection.—The Committee recommends an appropriation of $42,020,000, an increase of $10,850,000 over the budget.

This increase includes an additional $3,850,000 for insect and disease suppression on Federal lands and an increase of $7,000,000 for cooperative suppression projects on State lands. The Committee does not agree with the manner in which the Forest Service administered the pest control program in 1982, especially gypsy moth and saddled prominents. While the gypsy moth is not as destructive as other insects—when measured in terms of economic damages—it is clear that the Nation's forest resources are still damaged severely by it. The Committee has provided $7,000,000, based on the average funding needs for the past 3 years, for cooperative suppression projects and restates its 1976 appropriations bill direction that the Federal share for cost-sharing arrangements be 25 percent on non-Federal public lands; 33⅓ percent for forest industry lands; and 50 percent for nonindustrial private lands. If the funding provided in this bill is not adequate to cover approved cooperative suppression projects, the Forest Service shall propose a reprograming, propose a supplemental, or reduce funds available to the States proportionately, but shall not reduce the Federal cost-share rate without public involvement and Committee approval. Further, the Forest Service shall announce its proposed cooperative program within 30 days after enactment of this act and work with the States to finalize a program in a timely fashion, so as to provide the States an opportunity to revise its own program if necessary.

The Committee has also provided an increase of $3,850,000 for insect and disease work on Federal lands. In 1982, the Committee understands that the Forest Service only provided 50 percent of the funding needed to satisfy approved requests for suppression projects on Federal lands. The Committee's increase is based on the average approved requests for the past 3 years. The Committee will not condone inadequate protection of the Federal resource from insect and pest damages.

Resource management.—For resource management activities, the Committee recommends an increase of $2,708,000, which includes an increase of $1,000,000 for urban forestry assistance. The Committee also recommends an increase of $1,708,000 to restore the State planning programs to 1982 levels. It seems to the Committee that assistance in developing inventory data and State forestry plans is an appropriate role for the Forest Service.

The Committee also recommends continuation of the $3,000,000 grant in support of the Boundary Waters Canoe Area legislation.

The Committee does not agree with the proposal to transfer $100,000 from the Office of the Assistant Secretary for Natural Resources and Environment for operation of the Gifford Pinchot Institute for Conservation Studies. The Assistant Secretary's Office is responsible for formulation and oversight of implementation of policy on priorities for Forest Service operations and it is not in the public interest to reduce the capability of the Department in executing that responsibility.

NATIONAL FOREST SYSTEM

1982 appropriation	$1,050,504,000
1983 budget estimate	1,036,569,000
House allowance	1,009,093,000
Committee recommendation	1,007,697,000

The Committee recommends an appropriation of $1,007,697,000, a decrease of $28,872,000 from the budget.

The distribution of the Committee's recommendations are as follows:

	Budget estimate	Committee recommendation	Change
Minerals and general land activities:			
Minerals	$24,998,000	$24,898,000	−$100,000
Land management activities	17,903,000	17,903,000	
Land line location	26,080,000	24,680,000	−1,400,000
Maintenance of facilities	13,663,000	13,663,000	
Subtotal	82,644,000	81,144,000	−1,500,000
Resource protection and maintenance:			
Fire protection	150,283,000	150,083,000	−200,000
Fire control	1,000,000	1,000,000	
Cooperative law enforcement	5,150,000	5,150,000	
Road maintenance	61,640,000	58,540,000	−3,100,000
Trail maintenance	7,785,000	7,785,000	
Subtotal	225,858,000	222,558,000	−3,300,000
Timber sales:			
Timber resource planning	10,489,000	10,489,000	
Silvicultural examination	24,095,000	22,995,000	−1,000,000
Sales preparation and harvest administration	153,746,000	131,946,000	−21,800,000
Subtotal	188,330,000	165,430,000	−22,900,000
Reforestation and stand improvement:			
Reforestation	61,894,000	61,894,000	
Stand improvement	23,075,000	29,075,000	+6,000,000
Nurseries	15,156,000	15,156,000	
Subtotal	100,125,000	106,125,000	+6,000,000
Recreation management:			
Recreation use	84,468,000	75,768,000	−8,700,000
Wilderness	6,509,000	6,509,000	
Cultural resources	6,958,000	6,958,000	
Subtotal	97,935,000	89,235,000	−8,700,000
Wildlife and fish habitat management:			
Wildlife and fisheries support	18,027,000	17,727,000	−300,000
Habitat improvement	14,493,000		
Subtotal	32,520,000	32,220,000	−300,000
Range activities:			
Range management	23,191,000	23,191,000	
Range improvements	700,000	3,715,000	+3,015,000
Wild horse and burro management	322,000	322,000	
Noxious farm weed control	400,000	400,000	
Subtotal	24,613,000	27,628,000	+3,015,000
Soil and water management:			
Soil and water support	18,333,000	18,333,000	
Soil and water improvements	305,000	1,846,000	+1,541,000
Soil and water inventories	5,228,000	7,500,000	+2,272,000
Subtotal	23,866,000	27,679,000	+3,813,000
General administration	260,678,000	255,678,000	−5,000,000
Total, national forest system	1,036,569,000	1,007,697,000	−28,872,000

MINERALS AND GENERAL LAND ACTIVITIES

Minerals.—The Committee recommends an appropriation of $24,898,000, a decrease of $100,000 from the budget. The reduction is tied to the reduction in the timber sales supporting program.

Land line location.—The Committee recommends an appropriation of $24,680,000, a reduction of $1,400,000 from the budget. This reduction reflects the scaled back timber sales program proposed by the Committee.

Maintenance of facilities.—The Committee recommends an appropriation of $13,663,000, the same as the budget.

RESOURCE PROTECTION AND MAINTENANCE

Fire protection.—The Committee recommends an appropriation of $150,083,000, a timber program-related decrease of $200,000 from the budget estimate. This is still an in-

crease of $10,585,000 over 1982 appropriations and includes increases for fire attack, aviation, fuels management, and detection. The Committee has reviewed requests by members for an increase in the air tanker program and understands from the FS that the number of air tankers provided for is the maximum they feel is necessary for protection purposes.

Road maintenance.—The Committee recommends an appropriation of $59,440,000, a decrease of $2,200,000 from the budget estimate. This reduction reflects cost savings attributable to reductions in the 1983 timber sales program.

Trail maintenance.—The Committee recommends an appropriation of $7,785,000, the same as the budget estimate.

Timber sales preparation and harvest administration.—The Committee recommends an appropriation of $165,430,000, a reduction of $22,900,000 from the budget estimate. This funding proposal will support a sales preparation level of 11.4 bbf, a sales offering program of 11 bbf, and assumes a 1983 harvest level of 8.5 bbf. It is with great reluctance that this Committee recommends these reductions. However, until further reductions are seen in interest rates, the Committee concludes that the continuation of 1982 levels of effort into 1983, as provided for by this recommendation, is the most defensible course of action. The Committee is strongly committed to increasing timber sales levels from our national forests in an economically justifiable and environmentally sound manner but concludes that current conditions in the timber industry, and related industries such as construction, do not support increased timber sales levels at this time.

In the meantime, the FS is to continue to operate its sales program in a manner responsive to local industry needs to the maximum degree practical. Short-term sales, low-volume sales, et cetera, can be extremely helpful to local economies with high unemployment rates and a large number of small operators.

The FS and the Small Business Administration have developed, tested, and implemented a special sales program for small loggers (less than 25 employees) referred to as the special salvage timber sale program. This program focused on salvaging dead or infested trees. Unfortunately, there are a number of areas, especially the Southwestern States, such as New Mexico, where there are not sufficient volumes of salvageable timber to meet small operator needs. Therefore, the Committee directs the FS to expand the program to include the use of green timber sales where adequate sales of salvage timber are not available.

The Committee continues to be interested in the contributions to be derived from helicopter logging, both in terms of harvesting timber and in terms of firefighting applications and urges the FS to continue to work for a stable and predictable program of helicopter logging and uses.

The Committee has reviewed the House report summary of the House Appropriations Committee Investigative Staff analysis of the FS timber sales program.

This Committee is committed to reponsible oversight of the management of National Forest System lands and to the protection of the public interest represented, in particular, by the timber sales program. The Committee agrees that there are numerous problems with the timber program and agrees with the House language stating that their "major concern with the FS conduct of the timber sales program (is) the lack of timely and accurate information on the most fundamental aspects of the program, including comparisons of value and volume of timber sold with value and volume of timber eventually cut and actually paid for. . . . The unavailability of such basic information on all of its transactions is impossible to understand, when it is considered that the value of timber sold has reached almost $2,000,000,000 annually in recent years. No business of comparable size would long survive without the ability to generate and use such information in a timely and accurate manner." However, to proceed with the major revisions to the FS timber program proposed by the House report without an opportunity for involvement by the affected industry, the academic community, and other members of the affected public, and consideration of the cost, staffing requirements, and net benefit to the public interest is, in the Committee's judgment, irresponsible.

The House report language concludes with four recommendations for FS action. One, discontinue mill-deck-deferred scaling immediately. Two, take immediate steps to implement a management information system that will provide accurate, timely and detailed information on all aspects of its timber sales program. Three, begin immediately to phase in a transaction evidence analysis appraisal system in all timber regions in fiscal year 1983. Four, begin to phase in a tree measurement system in all timber regions in fiscal year 1983.

Regarding mill deck scaling, the Committee understands that this technique is largely localized in California. By abandoning this technique, FS scaling costs would increase an indeterminate amount and the FS would encounter contractual impediments to its implementation. The House report, by directing that this practice be discontinued immediately, has not addressed these problems nor has it made a case for its discontinuance.

Regarding the implementation of a management information system that supports the timber program, the Committee would note that this is not a new issue. The FS has work force and staffing in place and budgeted to implement such a system and, in fact, has been working toward this goal for a number of years. The Committee encourages the FS to continue and accelerate its efforts to implement its timber management information system and its timber sale accounting system, augmented, as needed, to comply with House and Senate Committee directions.

Regarding the immediate initiation of phasing in a transaction evidence analysis (TEA) appraisal system in all regions in fiscal year 1983, the Committee objects to this direction. The TEA approach is, in the Committee's judgment, simply not practical or beneficial to be implemented in all FS regions. TEA requires a data base for comparisons and the development of procedural standards for its use, which would take time to develop. To direct implementation without an opportunity for adequate consideration of real problems in its implementation, does not serve the public interest. The TEA system may be useful in some geographic areas where it is not currently in place. On the other hand, it would clearly not be effective or workable in all areas, such as those sales areas where there is active bidding. The Committee would agree that the data base supporting the analytical method of appraisal—that is, 1960's mills studies—needs updating, as significant technological improvements have been made in timber and plywood recovery rates since then.

Regarding the phasing in of a tree measurement system in all timber regions in fiscal year 1983, the Committee again disagrees with the House report language. There are geographic areas where the tree measurement system is very accurate and provides a public and industry benefit. However, there are also areas where the tree measurement system is not feasible. As a general rule, tall timber, such as old growth, is not susceptible to the tree measurement approach without a loss of accuracy in estimated volume. The opportunity for hidden defects increases the purchaser's uncertainty about usable volume and could have a dampening effect on bids.

The Committee's judgment is that there are a number of known problems, and more unknown potential problems, with the House language. The Committee is concerned that the House recommendations, taken literally, do not adequately recognize that there are sound technical and public policy problems associated with their implementation, nor do they provide adequate opportunity for public involvement. Under the current appraisal and bid systems, the basic fact is that the purchaser pays the Treasury an amount for timber removed from public lands, whether or not that volume is above or below estimated amounts.

Reforestation and stand improvement.—The Committee recommends an appropriation of $106,125,000, an increase of $6,000,000 over the budget. This increase is for additional timber stand improvement work in the highest productivity site classes (over 85 cfy) and is to be targeted to those States with highest levels of unemployment to the maximum degree practical. The Committee does not agree that the average cost per acre of TSI work will increase from $124 in 1982 to $144 in 1983. This would go counter to the Committee's experience in other areas, such as construction contracts, where we are actually seeing a reduction in costs bid for projects from prior estimates. If the 1983 average cost per acre remains relatively constant at the 1982 level, the Committee estimates that this $6,000,000 increase will permit the FS to achieve a TSI program level of about 235,000 acres in 1983.

Recreation management.—The Committee recommends an appropriation of $89,235,000, a reduction of $8,700,000 from the budget. This reduction is a $700,000 reduction tied to the timber program and an additional $8,000,000 to maintain recreation use funding at about the 1982 level.

The Committee noted the FS proposed regulation changes affecting outfitters and guides and is pleased to see that the FS has agreed to abandon that effort.

The Committee agrees with the general thrust of the House report language regarding the fee establishment procedure for recreational residence fees on NFS lands and has added bill language to provide further Committee direction.

The Committee notes that the Greenbrier County, W. Va., Youth Camp has had an annual use permit covering 80 acres near the southern boundary of the Monongahela National Forest each year since 1952. During that time the trustees of the Camp have made numerous improvements to the site including clearing and grading approximately 12 acres and construction of roads, lodges, a swimming pool, and other facilities. During this 30-year period, the annual

use permit fee has increased 36-fold. The trustees operate the camp on a nonprofit basis, hosting numerous youth groups throughout the region. Many of these groups reportedly serve economically or physically disadvantaged youths. For this reason, the Committee encourages the Forest Service to take all reasonable administrative actions to assure that the annual use permit fee charged the Greenbrier County Youth Camp is as low as current law and responsible management permits.

Should the camp trustees choose to reduce the total acreage covered by the annual use permit to less than 80 acres, the Committee understands that the fee would be reduced proportionally and that the area surrounding the youth camp would still be available for its use. If the acreage covered by the special use permit is reduced, the Service is directed to insure, within current law and regulation, that any use of the adjacent lands is compatible with the operation of the Greenbrier County Youth Camp.

Wildlife and fish habitat management.—The Committee recommends an appropriation of $32,220,000, a reduction of $300,000 from the budget, reflecting reduced timber program support costs.

Range activities.—The Committee recommends an appropriation of $27,628,000, an increase of $3,015,000 from the budget. This recommended funding level will maintain the 1982 level for range improvements and essentially maintain the grazing management program at 1982 levels. This increase is necessary in the Committee's view in order to restore funding for these activities. This will help maintain range conditions and the grazing permit program.

Soil and water management.—The Committee recommends an appropriation of $27,679,000, an increase of $3,813,000 from the budget. The Committee has included an increase of $1,541,000 in soil and water improvements needed to maintain the 1982 level of activity into 1983. It has also included an increase of $2,272,000 in soil and water inventories. This is a reduction of $3,017,000 from 1982 levels, reflecting the fact that most areas have been covered by inventories, and an increase of $2,272,000 over the budget will permit continued opening of new areas and reduce future year support costs. Those future costs will increase if inventories are not completed. The Committee's recommendation also effectively provides an additional $500,000 in soil and water support as a result of reductions associated with the timber sales program that have not been agreed to.

General administration.—The Committee recommends an appropriation of $255,678,000, a reduction of $5,000,000 from the budget estimate. This includes, within available funds, an additional $1,000,000 to support research program increases and $500,000 to support State and private forestry program increases.

With respect to current difficulties experienced by the Forest Service in procurement of cost-competitive, high-quality signs in a timely manner from the Federal Prison Industries, the Committee understands that a new memorandum of understanding is being negotiated between the two agencies which will improve timeliness, quality, and cost considerations.

The Committee expects such a memorandum of understanding to be implemented without delay and directs the Forest Service to report to the Committee not later than March 31, 1983, on implementation of the memorandum of understanding and its effectiveness in resolving current problems in procurement.

The Committee does not agree with the House proposal to eliminate the Secretary of Agriculture's authority to transfer limited amounts of funding between appropriation accounts, as provided in 702(b) of the Department of Agriculture Organic Act of 1944 (7 U.S.C. 2257). This authority has been used in prior years in a responsible manner to supplement appropriated funds in unforseen emergencies, such as insect infestations and, in fact, was used in fiscal year 1982 to provide additional funding for gypsy moth infestation control activities.

The Committee directs that, within available funds, up to $80,000 be used to control the infestation of dwarf mistletoe in the Sawtooth National Forest in order to preserve forest resources, remove danger of avalanche, and preserve recreational opportunities in the Bald Mountain area.

CONSTRUCTION

1982 appropriation	$261,095,000
1983 budget estimate	297,505,000
House allowance	229,756,000
Committee recommendation	286,805,000

The Committee recommends an appropriation of $286,805,000, a decrease of $10,700,000 from the budget. This is a decrease of $19,700,000 in the FS road construction account, as a result of the reduced FS timber program.

	Budget estimate	Committee recommendation	Change
Facilities	$21,066,000	$21,066,000	
Roads and trails:			
Direct road construction	271,575,000	251,875,000	19,700,000
Trail construction	4,864,000	4,864,000	
Chugach payment		9,000,000	+9,000,000
Total, construction	297,505,000	286,805,000	−10,700,000

Included in the allowance is $50,000 for road work in the Mount Magazine area of the Ozark National Forest, Ark., and $125,000 for use at the Sunny Dene Resort in the Boundary Waters Canoe Area, Minn.

The Committee does not concur with the House report language prohibiting use of funds for design or construction of the Oconee Ranger District in Georgia. There are significant operational savings that can be achieved if this project can proceed. This relocation of administrative facilities is the result of combining two ranger districts in the Oconee National Forest 5 years ago and the resulting lack of need for two ranger offices. The Committee understands that there are no funds proposed for this action in fiscal year 1983.

The Committee is again directing that funds available for road construction through the 10-percent fund be transferred to the general fund of the Treasury to offset that amount of funding included in this direct appropriation account. The resulting road construction program will include $44,900,000 in timber purchaser elective roads to be constructed by the Forest Service. Also, the off-budget timber purchaser credit road construction program is recommended at a level of $236,200,000, a reduction of $32,200,000 from the FS estimate due to reductions in the timber sales program level.

The Committee does not agree with the House proposal to reduce 10-percent fund receipts that are to be transferred to the general fund. The Committee is providing for those transfers on the basis that the FS road program needs stable funding and the 10-percent fund was not providing that stability. The effect of the House reduction will be to limit timber sales to a level of 7.6 bbf or 7.8 bbf. The Committee agreement on the 10-percent fund receipt transfer process is predicated on the assumption that receipts may vary from year to year but that receipts will average out over the long term.

The Committee has also included $9,000,000 for final payment to settle claims by the Chugach Natives, Inc., to be available upon execution of a final agreement. Bill language is included.

TIMBER RECEIPTS TRANSFER

1982 appropriation	
1983 budget estimate	
House allowance	(−$64,514,000)
Committee recommendation	(−64,514,000)

The Committee recommends a transfer of estimated receipts of $64,514,000 from the 10-percent fund to the U.S. Treasury general fund. This activity has been provided for by a direct appropriation in the C. & L.A. account. No offset is assumed in the FS appropriated road construction account, as $64,514,000 was included in the budget estimate, in conjunction with a legislative proposal to abolish the 10-percent fund. Pending legislative action, the Committee again proposes a direct appropriation of these funds.

LAND ACQUISITION

1982 appropriation	$26,262,000
1983 budget estimate	7,563,000
House allowance	54,556,000
Committee recommendation	55,117,000

The Committee recommends an appropriation of $55,117,000 to the FS, an increase of $47,554,000 over the budget.

The Committee recommends the following projects:

FOREST SERVICE

	1982 budget	1983 House	1983 Senate
Acquisitions management	$4,000,000	$4,000,000	$4,000,000
Weeks Act (Wayne NF, Ohio)		1,080,000	
L&WCF acquisitions:			
Deficiencies	1,821,000	1,821,000	722,000
Inholdings and composites	1,742,000	1,742,000	1,742,000
Subtotal	3,563,000	3,563,000	2,464,000
Appalachian Trail		1,360,000	1,360,000
Boundary Waters Canoe Area Wilderness, Minn		3,200,000	3,000,000
Cascade Head SRA, Oreg		707,000	707,000
Alpine Lakes, Wash		26,446,000	26,886,000
Lake Tahoe, Nev., and Calif		10,000,000	10,000,000
Mount Rogers NRA, Va		200,000	
Ausable comp.; Huran NF, Mich		2,000,000	
Three Sisters Wilderness (Rock Mesa), Ore		2,000,000	2,000,000
Sawtooth NRA, Idaho			4,700,000
Subtotal, L&WCF	(3,563,000)	49,476,000	48,653,000
Total	7,563,000	54,576,000	55,117,000

The Three Sisters Wilderness acquisition funding is to be available for patented claims only and the first Sawtooth NRA acquisition priority is the Piva property.

YOUTH CONSERVATION CORPS

1982 appropriation	
1983 budget estimate	
House allowance	$20,000,000
Committee recommendation	

The Committee has not recommended funding for the Youth Conservation Corps

(YCC) as proposed by the House. The YCC is an employment program for youths, 15 to 18 years of age, that provides a combination of field experience and environmental education for participants. The program provides for additional conservation activities to be performed on public lands, both for the Forest Service and lands administered by the Secretary of the Interior.

Funding was not provided in fiscal year 1982. Criticism has been directed at the program in prior years because the program is not targeted to the hard core unemployed nor was the program as beneficial to the public lands as similar employment programs.

ACQUISITION OF LANDS FOR NATIONAL FORESTS, SPECIAL ACTS

1982 appropriation	$724,000
1983 budget estimate	753,000
House allowance	753,000
Committee recommendation	753,000

The Committee recommends an appropriation of $753,000, the same as the budget.

ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

1982 appropriation	$314,000
1983 budget estimate	147,000
House allowance	147,000
Committee recommendation	147,000

The Committee recommends an appropriation of $147,000, the same as the budget.

RANGELAND IMPROVEMENTS

(Special fund, indefinite)

1982 appropriation	$6,580,000
1983 budget estimate	5,800,000
House allowance	5,800,000
Committee recommendation	5,800,000

The Committee recommends an appropriation of $5,800,000, the same as the budget estimate.

MISCELLANEOUS TRUST FUNDS

1982 appropriation	$84,000
1983 budget estimate	90,000
House allowance	90,000
Committee recommendation	90,000

The Committee recommends an appropriation of $90,000, the same as the budget estimate.

DEPARTMENT OF ENERGY

ENERGY SECURITY RESERVE

The Committee believes that greater progress can be made by the Synthetic Fuels Corporation (SFC) in awarding financial assistance to synthetic fuel project proposals which have been submitted in response to earlier general solicitations. In the Committee's judgment the slow pace of progress by the SFC has been responsible in part for the recent withdrawal by several industrial sponsors from certain of these projects and the withdrawal of other proposals. Unfortunately, while the first solicitation closed belatedly on January 4, 1982, and the second solicitation (which includes proposals submitted under the first solicitation) closed on June 1, 1982, no awards of or commitments to award financial assistance have been made. The Committee believes that this record can, and should, be improved.

In this regard, the Committee notes that over a 9-month period the Department of Energy progressed from the solicitation stage to the granting of financial assistance to three projects under the interim program authorized by the Defense Production Act and the Nonnuclear Energy Research and Development Act of 1974. The Committee wishes to emphasize to the SFC that it must submit its comprehensive strategy to the Congress by June 30, 1984. Therefore, the SFC only has approximately 19 months to complete its initial mission as mandated by the Congress through the Energy Security Act (Public Law 96-294).

Several significant problem areas have been identified by the Committee which the SFC is directed to address as expeditiously as possible. Accordingly, appropriate Committee recommendations are offered, And the SFC is requested to advise the Committee by January 14, 1983, of the steps taken and progress made, to resolve the following problems:

(1) The Committee is disturbed to learn that the SFC, after three general solicitations, is now exploring "targeted" solicitations designed for specific resources bases and potential equity sponsors. The Committee believes that such targeted solicitations should be used only where it is believed they will be timely and effective in achieving the SFC's statutory mandate. Moreover, targeted solicitations must not be allowed to result in delays or, more importantly, be used as a procedural tactic for delay.

(2) The Committee directs that the SFC cease efforts to explore the awarding of financial assistance in support of the demonstration of synthetic fuels from the Naval Oil Shale Reserves. Such efforts by the SFC only serve to divert the resources of the SFC from its statutory mandate. Similar arrangements, suggested by the Department of Energy in 1978, were rejected by the Congress.

(3) The Committee is concerned about the current difficulties that project sponsors are experiencing in arranging equity financing. Overcoming this obstacle is of paramount importance to the Committee. The recent action by the Board of Directors is a positive first step, but in the judgment of the Committee, such action is insufficient to overcome the obstacle.

We therefore recommend that the Board of Directors provide letters of intent or conditional commitments to those projects which may not yet be in a position to enter into final financial assistance agreements with the Corporation, but are sufficiently mature to enter into serious negotiations as to the terms and conditions of financial assistance, with the expectation that full equity formation and final agreement on terms and conditions of financial assistance will proceed simultaneously after issuance of letters of intent or conditional commitments. In the Committee's judgment, more meaningful, near-term commitments are needed from the SFC in order to significantly enhance the ability of project sponsors to achieve necessary levels of equity capital.

In the Committee's judgment, the Energy Security Act allows the SFC to issue letters of intent or conditional commitments, without causing the Department of the Treasury to reduce the Corporation's obligational authority, in the event a financial assistance agreement is never executed or, even if executed, is later canceled before being implemented.

(4) In addition, the SFC should take steps to encourage equity investment in the emerging domestic synsthetic fuels industry. In this regard, the Committee is encouraged by the recent effort by the SFC to reach out to investors and urges the SFC to expand that effort even further.

(5) Further, it is important, in order to attract equity capital to synthetic fuel projects, for the SFC to display a greater public openness with regard to its substantive policies. There is a need for more frequent statements of policy or programmatic objectives, such as that announced by the Board on July 15 regarding resource base diversification which provided greater certainty to the investment community and potential project equity sponsors as to the broader goals and objectives of the Corporation. For example, no similar policy statements have been issued with regard to uniformity of terms and conditions of financial assistance. This has led to significant uncertainty and hesitation by potential equity sponsors.

(6) Further adding to the overall level of uncertainty, no meaningful responses have been provided to a number of project sponsors in the previous solicitations regarding major portions of their applications, including financial and marketing plans. The SFC must recognize that while current project sponsors are seeking to respond to SFC requirements for greater equity participation, they are currently handicapped in their efforts to achieve further private sector participation by the lack of substantive SFC review and specific comment on the status and quality of submitted applications. The Committee views this as a minor problem with major adverse repercussions. Successful early resolution of the problem is requisite and should not require significant SFC time and effort and should be limited to those projects found to be sufficiently strong and mature for preliminary negotiations, as defined by SFC guidelines. For instance, it is our understanding that there exists basic loan guarantee and price guarantee documents which have been drafted by the SFC, yet these have not been made available to those projects currently in negotiation. Sharing of these documents with all parties could easily accelerate the entire negotiation process.

(7) Under section 131(u) of the Energy Security Act certain cost-sharing agreements to refine the design of projects are specifically authorized. Cost-sharing agreements are authorized to allow for detailed design and cost estimates prior to the awarding of loans or loan guarantees. The Committee is encouraged by the recent action by the SFC, but the Committee believes that the SFC has not made maximum use of section 131(u) cost sharing to advance proposed projects to awards. However, the Committee emphasizes that any agreements negotiated in this regard cannot be permitted to further delay the final award process, pending completion of preliminary engineering designs.

(8) The Committee is concerned that inadequate communication is being provided the SFC Board of Directors by the SFC staff on the progress of individual project negotiations. Too often project sponsors are frustrated and valuable time is wasted because the SFC staff either have inadequate decisionmaking capability or have not sought adequate authority. For example, there is evidence that the SFC staff did not present the Board, in a timely manner, with recommendation for the use of conditional commitments and may in fact have withheld such information from the Board, (that is, regarding condition commitments). In this regard, some of the SFC staff seem to be more responsive to pressures from Federal agencies (for example, the White House and the Department of the Treasury) than the needs of the SFC Board for timely information. SFC officers must be prepared to fully support the congressional mandated policies and objectives for the Corporation to provide legally authorized financial assistance,

and the Committee expects that such support will be forthcoming.

Also, the Committee, and indeed the Senate, continues to be concerned as hearings before the Committee and the Committee on Energy and Natural Resources indicate, with the SFC's history of attempts to stretch its statutory mandate so as to engage in activities that were not envisioned, or specifically precluded, by the Congress. Such self-initiated SFC initiatives only further divert the SFC resources from timely achievement of its statutory mandate. What is needed is more constructive progress toward the award of financial assistance.

FOSSIL ENERGY RESEARCH AND DEVELOPMENT

1982 appropriation	$413,042,000
1983 budget estimate	106,900,000
House allowance	297,064,000
Committee recommendation	247,514,000

The Committee recommends an appropriation of $247,514,000, $140,614,000 above the budget estimate. The Committee recommendations compared to the budget estimates are shown in the following table:

	Budget estimate	Committee recommendation	Change
Coal mining research and development:			
Underground coal mining	$1,000,000		−$1,000,000
Coal preparation	2,000,000	$3,500,000	+1,500,000
Subtotal, Mining research and development	3,000,000	3,500,000	+500,000
Liquefaction:			
Advanced process development	13,800,000	18,000,000	+4,200,000
Indirect liquefaction	8,400,000	12,600,000	+4,200,000
Support studies and engineering evaluations	4,000,000	5,000,000	+1,000,000
Subtotal, Liquefaction	26,200,000	35,600,000	+9,400,000
Surface coal gasification:			
Advanced process development	4,250,000	4,250,000	
System engineering concepts	3,000,000	13,500,000	+10,500,000
Environmental and engineering analysis	3,250,000	7,500,000	+4,250,000
Subtotal, Surface coal gasification	10,500,000	25,250,000	+14,750,000
In-situ coal gasification	700,000	6,000,000	+5,300,000
Advance research and technology development	19,800,000	28,700,000	+8,900,000
Advanced environmental control technology:			
Flue gas cleanup	3,000,000	6,500,000	+3,500,000
Gas stream cleanup	3,200,000	10,000,000	+6,800,000
Technology support	400,000	2,000,000	+1,600,000
Subtotal, Advanced environmental control technology	6,500,000	18,500,000	+11,900,000
Heat engines and heat recovery:			
Central power systems		3,750,000	+3,750,000
Dispersed power systems		1,250,000	+1,250,000
Subtotal, Heat engines and heat recovery		5,000,000	+5,000,000
Combustion systems:			
Atmospheric fluidized beds		5,000,000	+5,000,000
Pressurized fluidized beds	4,500,000	11,000,000	+6,500,000
Advanced combustion technology			
Alternative fuel utilization	2,000,000	2,000,000	
Subtotal, Combustion systems	6,500,000	18,000,000	11,500,000
Fuel cells	9,500,000	28,000,000	+19,300,000
Magnetohydrodynamics		27,000,000	+27,000,000
Subtotal, Coal	82,800	196,350,000	+113,550,000
Petroleum:			
Enhanced oil recovery	5,300,000	6,500,000	+1,200,000
Oil shale	6,300,000	10,400,000	+4,100,000
Advanced process technology	3,500,000	5,000,000	+1,500,000
Subtotal, Petroleum	15,100,000	21,900,000	+6,800,000
Gas: Enhanced gas recovery		13,900,000	+13,900,000
Subtotal, Gas		13,900,000	+13,900,000
Energy Technology Center program direction		26,500,000	+26,500,000
Headquarters program direction	9,000,000	9,000,000	
General reduction		−20,136,000	−20,136,000
Total, Fossil energy research and development	106,900,000	247,514,000	+140,614,000

Coal mining research and development.—For coal mining R. & D., the Committee has recommended $3,500,000, including the budget request of $2,000,000 for coal preparation and $1,500,000 for support of the Carbondale Mining Technology Center at Carbondale, Ill. The Committee has joined the House in including bill language which requires the Department to recall the Carbondale facility from the General Services Administration for the purpose of leasing the facility to Southern Illinois University for coal and related research. The Committee expects the Department to use the $1,500,000 to support activities associated with the lease of the Center by the University. At the same time, however, the Committee expects the Department to begin negotiations with the university with the goal of transferring possession of the facility to the university in the same manner contemplated for the three western energy technology centers. The Committee expects to take action in a future appropriation measure to effect such a transfer.

As the underground coal mining activities have been transferred to the Bureau of Mines pursuant to Public Law 97-257, funds for this activity have been provided under the appropriation for the Bureau of Mines.

Liquefaction.—The Committee has recommended $35,600,000 for liquefaction, an increase of $9,400,000 over the budget request. Under advanced process development, the Committee recommends an additional $750,000 to already available funds for the continued operation of the Wilsonville, Ala., pilot plant and an additional $3,450,000 for research and development of catalysts in an integrated bench scale unit. Under indirect liquefaction, the Committee has recommended an additional $4,200,000 to continue the liquid phase methanol process development unit; and under support studies and engineering evaluations the Committee has included an additional $1,000,000 to support research on the health effects associated with the toxic characteristics in the process stream of coal liquids.

Surface coal gasification.—The Committee's recommendation includes an additional $10,500,000 over the budget request for system engineering concepts and an additional $4,250,000 for environmental and engineering analysis. Of the $10,500,000, $2,000,000 is for the Beacon gasification concept; $2,250,000 is for the G.E. hot gas cleanup system in Schenectady, N.Y.; $3,000,000 is for the Mountain Fuel entrained bed gasifier; and $2,000,000 has been added for equipment, instrumentation, and alternate concept development. The Committee has also recommended $1,250,000 to support planning and engineering design studies conducted by the Department to determine if the Homer City, Pa., gasification facility is suitable for multiple testing of gasification technologies and to determine whether there is sufficient interest on the part of industry to co-fund such a facility with the Government. The Committee directs the Department to complete such studies in a timely fashion, however, in the meantime, expects the Department to maintain minimum staffing levels until the Congress has acted with respect to use of the Homer City facility.

For environmental and engineering analysis, the Committee has joined the House in recommending an additional $3,000,000 for the Morgantown fixed bed gasifier; $1,000,000 for development of a gas technology base; and $250,000 for technical support to evaluate existing gasification facilities.

In-situ coal gasification.—For in-situ coal gasification, the Committee has recommended $6,000,000, an increase of $5,300,000 over the budget request but a reduction of nearly $2,000,000 from the fiscal year 1982 level. This amount will allow for continued Federal support in the field testing of mine cavity development and analysis and computer modeling related to steeply dipping beds.

Advanced research and technology development.—The Committee has recommended $28,700,000 for advanced research and technology development, an increase of $8,900,000 over the budget estimate. Included in the Committee's recommendation is an additional $3,000,000 for increased materials research in such areas as structural ceramics, fluid corrosion mechanisms, high-temperature corrosion, slag refractory interaction, and new concepts for component design.

In addition to available funds, $4,400,000 is to explore new materials, catalysts, and electrolytes for fuel cell systems; to continue studies of coal-ash behavior and fluidized bed systems; and to investigate improved downstream processing techniques. The sum of $1,500,000 has been added to provide for purchase of necessary capital equipment. Within available funds, the Committee expects the Department to use $3,000,000 to support a peat utilization research program including completion of resource assessments, continuation of work on peat dewatering, harvesting, wet carbonization, and environmental considerations. Also within available funds, the Committee expects the Department to use no less than $1,000,000 to continue compilation and correlation of information for the Coal Conversion Systems Technical Data book which will provide the basic framework for future applications by private industry.

Advanced environmental control technology.—The Committee has recommended $18,500,000 for advanced environmental control technology, an increase of $11,900,000 over the budget request but a decrease of over $3,000,000 from the fiscal year 1982 level. For fuel gas cleanup, $3,500,000 of the increase would be used to expand efforts to evaluate advanced chemical NO_x and SO_x cleanup processes and technology for capture of respirable particles. For gas stream cleanup, and additional $6,800,000 is to continue proof of concept tests on the most promising high-pressure and high-temperature particulate removal concepts and process chemistry of alternate approaches to hot gas desulfurization and dechlorination. Finally, for technology support, the additional $1,600,000 is to expand the waste management program to emphasize characterization of wastes from industrial and emerging technologies, including coal preparation wastes and in waste utilization.

Heat engines and heat recovery.—The Committee has recommended $5,000,000 for the heat engines and heat recovery pro-

gram, including $3,750,000 for central power systems and $1,250,000 for dispersed power systems. Under central power systems, $2,500,000 is to continue the technology base activity and to begin development of low NO_x gas turbine combustors; and $1,250,000 is for the coal-fired, combined-cycle gas turbine cogeneration facility. For dispersed power systems, the Department should concentrate its efforts on the use of new materials and the use of the most promising fuels, particularly a coal-water slurry, to increase combustion efficiencies.

Combustion systems.—The Committee recommends $18,000,000 for combustion systems, including $5,000,000 for atmospheric fluidized beds; $11,000,000 for pressurized fluidized beds; and $2,000,000, the budget request, for alternative fuel utilization. Of the $5,000,000 for atmospheric fluidized beds, the Committee allowance provides $4,200,000 for scale-up of advanced AFB concepts and $800,000 is for technology base development work related to lignite utilization. Of the $11,000,000, $5,500,000 is to complete construction of a pressurized fluidized bed pilot plant in Woodridge, N.J.; $2,500,000 is for the International Energy Agency PFB test facility at Grimethorpe, England; and an additional $1,000,000 is to expand the technology base activities for materials and components.

Fuel cells.—For fuel cells, the Committee has recommended $28,800,000, an increase of $19,300,000 over the budget request but a decrease of $5,664,000 from the fiscal year 1982 level. Included in this recommendation is $6,500,000 to be added to the budget request of $5,000,000 for phosphoric acid programs. Within this $11,500,000, no less than $4,000,000 is for the 40 kW on-site technology development program cofunded with the gas industry. The Committee has also included $4,800,000 for the 4.8 MWe powerplant demonstration in New York City.

Also included in the recommendation is $7,000,000 for molten carbonate fuel cell development, of which $3,000,000 is for fundamental molten carbonate fuel cell technology base research; and $5,500,000 for advanced concepts. Of this later amount, $2,500,000 is for solid oxide development and $3,000,000 is to continue thermionics development.

As the development of fuel cells has many promising military applications, the Committee has not placed any restriction on the use of funds for such military/defense associated applications.

Magnetohydrodynamics.—The Committee has recommended $27,000,000 for MHD to continue development and testing at the two existing DOE test facilities with continuing dirct diagnostic support and necessary component acquisition. Like the House, the Committee is concerned about the future of the MHD program and its ultimate conclusion. Accordingly, the Department is directed to contract with a reputable energy-oriented institution to do a thorough evaluation of the program, what its future prospects are, and what developmental steps, if any, should now be taken.

Petroleum.—The Committee recommendation includes an additional $1,200,000 for enhanced oil recovery to permit studies of rock fluid interaction and for development of a data base for light oil and heavy oil. Work at universities and ongoing cooperative research will also be supported within this amount.

For oil shale, the Committee has recommended $4,100,000 over the budget request. This increase includes $500,000 for investigation of rubble from in-situ retort; $900,000 to sample waste emissions; $1,000,000 for instrumentation of fracturing; and $2,700,000 to complete the geokinetics horizontal modified in-situ project in Utah.

The additional $1,500,000 for advanced process technology will allow the Department to expand studies to offshore and Arctic areas.

Gas.—For enhances gas recovery, the Committee has recommended $13,900,000, an increase of $2,400,000 from the fiscal year 1982 level. Included in this amount is $6,000,000 for drilling of the third well of the multiwell test in the western tight sands; $3,900,000 to continue the tight sands program through the experimental and data collection and analysis phases; $1,000,000 for advanced environmental research on methane and abiogenic gas; and $3,000,000 for eastern gas shales.

Program direction.—The Committee has joined the House in funding Headquarters and Energy Technology Center program direction through separate line items rather than assessing the individual programs as has been done for ETC's in the past. Accordingly, $26,500,000 is recommended for ETC program direction and $9,000,000, the budget request for headquarters program direction. The Committee also expects future budgets to be submitted in this format.

General reduction.—Because of program terminations approved by the Congress during fiscal year 1982, the balance of funds remaining—$20,136,000—is to be used to offset the fiscal year 1983 program.

Energy technology centers transfer.—The Committee has included legislative provisions which transfer the Laramie, Wyo. and Grand Forks, N. Dak. energy technology centers—including all associated land, buildings, equipment, and furnishings—to the control of the Universities of Wyoming and North Dakota, respectively. Language is also included which allows the Secretary of Energy to enter into an agreement which may ultimately result in a similar transfer of the Bartlesville, Okla. Energy Technology Center.

The transfer of these three facilities by the Secretary of Energy and their continued operation for educational and research purposes will preserve an important national resource in the energy field while at the same time easing the impact on the Federal budget. In this regard, the Secretary is expected to impose such terms and conditions necessary to insure that the research areas undertaken by each center, as well as the individual research projects, will continue in a responsible manner after the transfers occur. The Committee likewise expects the Secretary to insure, to the greatest extent possible, that the present staff at each of the centers will be retained to meet the primary staffing requirements of the centers after they are transferred. The proposed language provides that anticipated employment by either university or other organization at the transferred facilities shall not subject present staff at the centers to the restrictions of section 208(a), title 18, United States Code, with respect to their participation, as Government employees, in any contract or other arrangement for work to be performed by the centers and the Department before the transfers are completed. Section 208(a) prohibits a Government employee from participating personally and substantially as a Government employee in any particular matter in which any person or organization with whom the employee is negotiating or has any arrangement concerning prospective employment has a financial interest. To the extent that this provision would prohibit Government employees at the centers from continuing to carry out their functions with respect to contracts or other arrangements, an exemption is necessary to prevent the work from coming to an abrupt stop.

The Committee has included a provision in the bill transferring $2,000,000 from a prior appropriation for feasibility studies under the alternative fuels account to this account. The Secretary is directed to use these funds to enter into an inter-agency agreement with the U.S. trade and development program for the purpose of completing the Federal share of a feasibility study of the Western Hemisphere Alternative Fuels Facility. The Secretary is further directed to work closely with TDP to establish appropriate management controls for this effort, and to provide facilitative and technical support to insure to the maximum extent possible that U.S. developed technology is employed during project implementation.

NAVAL PETROLEUM AND OIL SHALE RESERVES

1982 appropriation	$213,142,000
1983 budget estimate	232,500,000
House allowance	222,000,000
Committee recommendation	226,500,000

The Committee recommends an appropriation of $226,500,000, a decrease of $6,000,000 below the budget estimate. A comparison of the Committee recommendation and the budget estimate is shown in the following table:

	Budget estimate	Committee recommendation	Change
Naval petroleum reserves:			
Naval petroleum reserves Nos. 1 & 2	$207,417,000	$201,417,000	−$6,000,000
Naval petroleum reserve No. 3	19,855,000	19,855,000	
Program direction	5,138,000	5,138,000	
Subtotal, Naval petroleum reserves	232,410,000	226,410,000	−6,000,000
Shale Oil Development Program: Shale reserves development	90,000	90,000	
Total	232,500,000	226,500,000	−6,000,000

The goal of Naval Petroleum and Oil Shale Reserves is to develop the reserves to their full production capacity to achieve the optimum capability for supplying petroleum during a national defense emergency. To this end, the Department is responsible for Petroleum Reserves Nos. 1 and 2 located at Elk Hills, Calif.; Petroleum Reserve No. 3 near Casper, Wyo.; Oil Shale Reserve Nos. 1 and 3 near Rifle, Colo.; and Oil Shale Reserve No. 2 near Vernal, Utah. Producing an estimated 160,000 barrels per day during fiscal year 1983, receipts are estimated to exceed $1,700,000,000.

The Committee's recommendation includes decreases of $4,000,000 for development drilling and $500,000 for exploration drilling at NPR 1. While it appears likely that the 17-percent inflation rate assumed in the budget request will not be realized, the Committee believes a gradual increase in the inflation rate for the remainder of fiscal year 1983 could result in the loss of up to eight development wells if reductions in excess of $4,000,000 are taken. For exploration drilling, the Committee's recommenda-

tion of $9,500,000 represents an increase of $1,381,000 over the fiscal year 1982 level.

The Committee has also joined the House in recommending a reduction of $1,500,000 for environmental compliance. Estimates made when the budget was formulated indicated that $2,000,000 was needed to properly reduce NO_x omissions at the reserve to Environmental Protection Agency standards. In the meantime, however, new analysis has indicated that a solution costing $500,000 will be sufficient to achieve an EPA approval.

ENERGY CONSERVATION

1982 appropriation	$145,400,000
1983 budget estimate	21,802,000
House allowance	317,790,000
Committee recommendation	264,530,000

The Committee recommends an appropriation of $264,530,000, an increase of $242,728,000 above the budget estimate. A comparison of the Committee recommendations and the budget estimates is shown on the following table:

	Budget estimate	Committee recommendation	Change
Building & community systems:			
Building systems		$13,400,000	+$13,400,000
Community systems		1,700,000	+1,700,000
Urban waste		3,000,000	+3,000,000
Technology and consumer products		11,000,000	+11,000,000
Analysis and technology transfer		1,000,000	+1,000,000
Appliance standards			
Federal energy managment program		500,000	+500,000
Residential conservation service		3,400,000	+3,400,000
Capital equipment			
Program direction		2,500,000	+2,500,000
Subtotal, Buildings and community services		36,500,000	+36,500,000
Industrial:			
Waste energy reduction		7,000,000	+7,000,000
Industrial process efficiency		7,700,000	+7,700,000
Industrial cogeneration		5,000,000	+5,000,000
Implementation and commercialization		1,700,000	+1,700,000
Program direction		1,500,000	+1,500,000
Subtotal, Industrial		22,900,000	+22,900,000
Transportation:			
Vehicle propulsion research and development		34,000,000	+34,000,000
Alternative fuels utilization		1,500,000	+1,500,000
Electric/hybrid vehicle program		12,900,000	+12,900,000
Advanced materials development		1,500,000	+1,500,000
Program direction		1,400,000	+1,400,000
Subtotal, Transportation		51,300,000	+15,300,000
State and local programs:			
Energy policy and conservation grants		8,000,000	+8,000,000
(Effect of fiscal year 1982 transfer)		(10,000,000)	(+10,000,000)
Energy extension service		10,000,000	+10,000,000
Schools and hospitals		26,000,000	+26,000,000
(Effect of fiscal year 1982 transfer)		(14,000,000)	(+14,000,000)
Weatherization		85,000,000	+85,000,000
(Effect of fiscal year 1982 transfer)		(29,000,000)	(+29,000,000)
Program direction	$4,260,000	5,600,000	+1,340,000
Subtotal, State and local programs	4,260,000	134,600,000	+130,340,000
(Effect of fiscal year 1982 transfer)		(53,000,000)	(+53,000,000)
Multisector:			
General research	15,812,000		−15,812,000
Energy conversion technology		9,000,000	+9,000,000
Inventors program			
Energy impact assistance		8,500,000	+8,500,000
Appropriate technology		1,500,000	+1,500,000
Program direction	1,730,000	230,000	−1,500,000
Subtotal, Multisector	17,542,000	19,230,000	+1,688,000
Total, Energy conservation	21,802,000	264,530,000	+242,728,000
(Effect of fiscal year 1982 transfer)		(53,000,000)	(+53,000,000)

Buildings and community systems

Building systems: For building systems, the Committee has recommended $13,400,000. With this amount, research will continue on envelope systems and materials ($4,500,000); ventilation, infiltration, and control studies ($3,800,000); and residential field validation and commercial case studies ($800,000). In addition, $1,100,000 is for the dissemination of research results and increasing the utilization of such results; $2,200,000 to develop building energy performance guidelines (BEPS); and $100,000 for research supporting such performance standards. Like the House, the Committee expects this valuable buildings sciences work to continue at Lawrence Berkeley Laboratory and at Princeton, and further expects the Department to contract with and distribute funds to these entities without delay following approval of the fiscal year 1983 appropriations act.

Community systems: For community systems, the Committee has recommended $500,000 for the water-to-water heat pump program in Scranton, Pa., and $1,200,000 to purchase an advanced turbine and complete the total package for the cogeneration facilities at Georgetown University.

Technology and consumer products: Included in the $11,000,000 recommended for technology and consumer products is $2,000,000 to develop the technologies for combustion heating equipment; $3,300,000 for research and development of thermally-activated heat pumps; $3,600,000 for refrigeration and appliance technology development; and $2,100,000 for continued research and development of light technology.

Appliance standards: Although the Committee has provided no funds for appliance standards, the Committee expects the Department to, within available funds, process applications from States for exemptions from any Fededral standards or nonstandards in an expeditious manner.

Residential conservation service: The Committee has included $3,400,000 to continue the residential conservation service program.

Industrial.—The Committee strongly believes that, for the most part, the industrial conservation projects undertaken under Federal leadership have been highly effective and have stimulated the infusion of energy conservation technologies into the industrial marketplace. In particular, ongoing thrusts in advanced heat pumps, cogeneration systems, utilization of waste materials, and heat exchangers have been extremely effective in improving energy conservation as well as productivity. Accordingly, the Committee has recommended an appropriation of $22,900,000 for fiscal year 1983. Of this amount, $7,000,000 is for waste energy reduction: $7,700,000 is for industrial process efficiency; $5,000,000 is for industrial cogeneration; $1,700,000 is for implementation and commercialization activities; and $1,500,000 is for program direction.

While the Department is expected to continue ongoing industrial programs and projects, the Committee also expects the Department to develop new initiatives to complement technology development activities presently underway. Example should include advanced cogeneration prime mover development; advanced concentration and separation techniques; advanced sensors and controls technology; heat transfer augmentation devices; in-process nondestructive test and evaluation techniques; and automation technology.

Transportation.—The Committee has recommended $51,300,000 for transportation conservation activities for fiscal year 1983. Included in this recommendation is $34,000,000 for vehicle propulsion research and development; $1,500,000 for alternative fuels utilization; $12,900,000 for the electric and hybrid vehicle program; $1,500,000 for advanced materials development; and $1,400,000 for program direction. The Committee's recommendation represents a decrease of nearly $7,000,000 from the fiscal year 1982 level.

Vehicle propulsion research and development: Under vehicle propulation R. & D., the Committee has included $18,500,000 for continuation of the two-contractor gas turbine engine developement program; $12,000,000 to continue the proof-of-concept Stirling engine program; and $3,500,000 for continuing the heavy duty transport research and development program, of which $1,200,000 is to complete work on truck bottoming cycles.

The Committee has joined the House in including bill language to transfer the amount appropriated to continue the advanced automobile propulsion systems development program and the heavy duty transport program to the National Aeronautics and Space Administration (NASA). This action is consistent with section 311 of Public Law 95-238, which established the automotive propulsion research program in 1978, and states that NASA's expertise should be directed toward the development of advanced automobile propulsion system. The Committee's action merely acknowledges past contractual arrangements between the Department and NASA with respect to vehicle propulsion systems and legislatively transfers funds to NASA. Responsibility for and control of the program is to remain in the Department of Energy, and the Department is expected to coordinate the activities of the vehicle propulsion program with all other activities of the transportation conservation division.

Electric and hybrid vehicle program.—For the EHV program, the Committee's recommendations includes $3,500,000 for advanced battery research and development; $1,700,000 for electric propulsion systems research and development; $3,000,000 for advanced motors and controllers in-vehicle testing; $900,000 for battery reliability testing; $2,000,000 for hybrid vehicle alternative propulsion systems; and $1,800,000 for advanced electric and hybrid vehicle fuel systems and aluminum-air and lithium-metal sulfide batteries.

State and local programs.—For State and local programs, the Committee recommended $134,600,000 in new budget authority, and has applied $53,000,000 of funds transferred from the energy impact assistance program which was terminated by the Department earlier this year, from unobligated gas rationing planning funds and from remaining SRC-1 funds transferred from the fossil energy construction account. The total program level is thus $187,600,000 for fiscal year 1983. Included in the Committee's recommendation is $18,000,000 for energy policy and conservation grants

($8,000,000 in new budget authority and $10,000,000 in transferred funds); $10,000,000 for the energy extension service; $40,000,000 for the schools and hospital program ($26,000,000 in new budget authority and $14,000,000 in transferred funds); $114,000,000 for the weatherization program ($85,000,000 in new budget authority and $29,000,000 in transferred funds); and $5,600,000 for program direction.

The Committee has joined the House in including bill language to continue the low-income weatherization under the same regulations applicable to the maximum allowable expenditure per dwelling unit and to the regulations pertaining to priority in providing weatherization assistance which were in effect on October 1, 1982. The Committee believes that the flexibility the States now have as far as expenditures per household is concerned should not be made more restrictive. Restricting the amount available per household may have the effect of preventing the most cost-effective conservation measures from being applied to a house as well as increasing the percentage of the program expenses devoted to overhead costs.

Although funds have been recommended for each individual State and local program, the Committee believes energy block grants to the individual States remains an attractive alternative to the current system. The Committee, therefore, strongly urges the authorizing committees to address this issue as early as possible in the upcoming session of Congress.

The Committee has not included a legislative provision like that of the House which requires that States provide a 20-percent match for the Energy Policy and Conservation Act grants. While the Committee shares the belief that the States should share some monetary support of the conservation grant activities within their borders, the States will not have sufficient time to provide such support before this provision would take effect. States should, however, be on notice that future appropriation acts may contain such a matching requirement.

Multisector.—The Committee has recommended $19,230,000 for the multisector program, an increase of $1,688,000 above the budget request. The Department had requested its total conservation research budget of $15,812,000 under the energy conservation technology heading. However, the Committee has chosen to reject this approach and fund energy conservation activities under the headings established over the past several years.

Included in multisector is $9,000,000 for continuation of energy conversion technology activities; $8,500,000 for energy impact assistance; $1,500,000 for appropriate technology; and $230,000 for program direction. For the appropriate technology grants program, the Department is expected to allocate funds to be as productive as possible in the performance of activities such as information dissemination and technical assistance, field office monitoring support, printing, development and maintenance of a management information system, and program evaluation. The Department is further expected to contract with the organization or organizations it feels best able to perform such activities as outlined by the Department within available funds.

The Committee has recommended an appropriation of $8,500,000 for section 601 energy impact assistance. These funds are provided for specific State projects which were allocated moneys, or approved by the State Governor when previous appropriations were withdrawn by the administration in February 1982.

ECONOMIC REGULATION

1982 appropriation	$21,416,000
1983 budget estimate	27,356,000
House allowance	31,106,000
Committee recommendation	35,106,000

The Committee recommends an appropriation of $35,106,000, an increase of $7,750,000 above the budget estimate. This account includes the various functions of the Economic Regulatory Administration as well as those of the Office of Hearings and Appeals.

In addition to the recommended funding levels for fiscal year 1982, the Committee intends that $3,000,000 deferred from fiscal year 1981 be made available to carry out certain activities of the Economic Regulatory Administration. The following table provides a comparison of the fiscal year 1983 budget estimates and the Committee recommendations:

	Budget estimate	Committee recommendation	Change
Fuels conversion		$2,000,000	+$2,000,000
Programs and regulatory intervention: Power supply and reliability			
Compliance	$13,500,000	17,500,000	+4,000,000)
(Effect of fiscal year 1981 deferral in 1983)		(500,000)	(500,000)
Petroleum operations	2,268,000	2,268,000	
Emergency preparedness	5,440,000	5,440,000	
Office of Hearings and Appeals	5,500,000	5,250,000	−250,000
Program administration	648,000	648,000	
(Effect of fiscal year 1981 deferral in 1983)		(2,500,000)	(2,500,000)
Total, Economic Regulation	27,356,000	33,106,000	+5,750,000
(Effect of fiscal year 1981 deferrain in 1983)		(3,000,000)	(3,000,000)

Fuels conversion.—The Committee recommends $2,000,000 for the fuels conversion program, a decrease of $2,800,000 from the fiscal year 1982 level but an increase of $2,000,000 above the budget request. These funds will make it possible to complete the processing of all Fuel Use Act exemption petitions now before ERA, process new exemption petitions that the Department may receive throughout the course of the fiscal year, and complete residual work related to the review and approval of electric utility natural gas conservation plans.

Compliance.—For fiscal year 1983, the Office of Special Counsel, responsible for the 35 major refiners, and the Office of Enforcement, responsible for all other refiners, have been merged together. The Committee agrees that such a restructuring will allow better use and control of funds and commends the Department for taking this action.

The Committee has recommended an increase of $4,000,000 in new budget authority, and has applied an additional $500,000 of deferred fiscal year 1981 funds for compliance activities. This amount will allow for additional audits of crude resellers where necessary as well as for enhanced negotiations and, if required, litigation in timely fashion. Like the House, the Committee expects the Department to make every effort to retain those auditors, investigators, and attorneys with experience in these crude oil reseller cases.

Office of Hearings and Appeals.—Because of anticipated savings throughout the course of fiscal year 1983, the Committee has recommended a decrease of $250,000 from the budget request. The recommended level of $5,250,000, nevertheless, still represents an increase of $450,000 over the fiscal year 1982 level.

The Committee continues to be pleased with the aggressive manner in which the Office of Hearings and Appeals has handled the tremendous caseload of appeals and urges a continuation of this approach so that all compliance and related matters can be resolved within the fiscal year 1985 timeframe anticipated by the Department.

Program administration.—The Committee recommends $648,000 in new budget authority for program administration, the same as the House and the budget estimate. The Committee has also applied an additional $2,500,000 of funds deferred in fiscal year 1981 to program direction, as had been anticipated by the Department.

STRATEGIC PETROLEUM RESERVE

1982 appropriation	$191,432,000
1983 budget estimate	242,118,000
House allowance	(242,118,000)
Committee recommendation	(242,118,000)

The Committee recommends an appropriation of $242,118,000, the same as the budget estimate.

The Committee's recommendations compared to the budget estimates are shown in the following table:

	Budget estimate	Committee recommendation	Change
Planning	$8,000,000	$8,000,000	
Storage facilities development	222,538,000	222,528,000	
Program administration	11,590,000	11,590,000	
Total, Strategic Petroleum Reserve	242,118,000	242,118,000	

In a move to prevent possible disruptions of planning, storage facility development, and program administration of the Strategic Petroleum Reserve, the Congress included a provision in Public Law 97-276 appropriating $242,118,000 for fiscal year 1983 for this purpose. This action, coupled with earlier congressional disapproval of a proposed SPR deferral of phase III development funds, signals strong support by the Congress of an aggressive, well financed Strategic Petroleum Reserve program. In this regard, the Committee joins the House in urging an immediate return by the Department to an SPR completion date of 1989 as assumed in the fiscal year 1982 appropriation, and will look favorably on a supplemental funding request to meet this target. Because the Strategic Petroleum Reserve remains this country's major answer to the threat of future petroleum import interruptions, the Committee will also continue to explore the possibility of and costs associated with increasing petroleum acquisition and the interim storage facilities necessary for such additional petroleum supplies.

SPR PETROLEUM ACCOUNT

1982 appropriation	($3,684,000,000)
1983 budget estimate	(2,074,060,000)
House allowance	(2,074,060,000)
Committee recommendation	(2,074,060,000)

For petroleum acquisition and transportation, the Committee recommends an appropriation of $2,074,060,000, the same as the budget request. As established in Public Law

97-35, the Omnibus Budget Reconciliation Act of 1981, the SPR petroleum account places petroleum acquisition and transportation funds in an off-budget account which is not to be included in the totals of the budget of the U.S. Government and which is exempt from any general limitations imposed by statute on expenditures.

On September 30, 1982, the Strategic Petroleum Reserve held some 278 million barrels of oil, equivalent to approximately 70 days of oil imports. Made possible partly because of the currently soft oil market, the 278 million barrel level is some 11.1 million barrels more than originally planned for the end of fiscal year 1982. At a fill rate of only 220,000 barrels per day, deliveries during fiscal year 1983 should reach 80,300,000 with a cumulative fill total at year's end of some 358,300,000 barrels of oil.

Because permanent storage capacity is projected at only 343 million barrels by the end of the fiscal year 1983, a 358 million fill level will necessitate interim storage of 15 million barrels. In this regard, the Committee understands recent initiatives by the Department to determine additional storage capacity within current permanent facilities may result in finding sufficient, though perhaps short-term space for this additional petroleum. As interim storage in one form or another remains a distinct possibility in this and future years, the Department is expected to continue its effort to determine the most cost-efficient means of providing such storage while at the same time take whatever reasonable steps necessary to expand existing facilities.

The Committee notes the President's notification of December 1, 1982, with respect to his finding that it is inappropriate to fill the SPR at an average 300,000 barrels per day during fiscal year 1983. Public Law 97-229, the Energy Emergency Preparedness Act of 1982, specifies for fiscal year 1983 a minimum SPR fill rate of 300,000 barrels per day, subject to the availability of appropriated funds. The act further specifies that if the President finds that compliance with this rate is not in the national interest, the minimum fill rate becomes 220,000 barrels per day. However, notwithstanding this Presidential finding, the act further provides that the minimum fill rate will, in any event, be "the highest practicable" fill rate achievable with available appropriated funds.

The Committee notes that the Pesident's request for fiscal year 1983, when combined with the substantial carryover of unspent, appropriated funds from fiscal year 1982, would enable the President to achieve a rate of fill for the SPR in fiscal year 1983 that is significantly higher than 220,000 barrels per day. The Emergency Preparedness Act of 1982 establishes this "achievable" fill rate as the required minimum fill rate.

In light of questions of national defense, as well as the currently soft oil market and the requirements of section 160(c)(1)(D) of the Energy Policy and Conservation Act, the Committee cannot be satisfied to maintain the minimum fill of 220,000 barrels per day. Accordingly, the Department is directed to take the steps necessary to purchase additional petroleum in order to take advantage of favorable market conditions and to provide interim storage facilities, if necessary, for such additional purchases.

ENERGY INFORMATION ADMINISTRATION

1982 appropriation	$78,919,000
1983 budget estimate	54,500,000
House allowance	58,800,000
Committee recommendation	54,500,000

The Committee recommends an appropriation of $54,500,000, the same as the budget estimate. The amount recommended by the Committee compared with the budget estimate is shown in the following table:

	Budget estimate	Committee recommendation	Change
Collection, production and analysis	$34,639,000	$34,639,000	
Program services	13,162,000	13,162,000	
Policy and management	6,699,000	6,699,000	
Total, Energy Information Office	54,500,000	54,500,000	

The Committee has recommended $54,500,000, the budget request, for the Energy Information Administration. This amount will make it possible for EIA to continue to provide basic, ongoing statistical, and analytical energy information while at the same time reducing the number and frequency of some data series where data does not change significantly and where long-term projections have been shown inaccurate and, thus, misleading. While savings over previous years are made possible through the elimination of various systems and programs which supported unnecessary detailed Government regulatory planning and allocation of fuels, EIA will continue to gather and disseminate the basic energy statistics in order to provide timely, historically consistent, and relevent information.

The Committee joins the House in requesting that the Department identify in its fiscal year 1984 budget justification the amount of EIA workload which is in direct or partial support of other agencies, with a description of that support. Such a description should include a detailed account of that work which has been performed on a reimbursable basis and that which has not.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

HEALTH SERVICES ADMINISTRATION

INDIAN HEALTH SERVICES

1982 appropriation	$617,805,000
1983 budget estimate	613,280,000
House allowance	645,305,000
Committee recommendation	623,724,000

The Committee recommends an appropriation of $623,724,000, an increase of $10,444,000 above the budget estimate and a decrease of $21,581,000 below the House allowance. Allowances are displayed in the following comparative table:

	Budget estimate	Committee recommendation	Change
Clinical services:			
IHS and tribal health delivery:			
Hospital and health clinic program	$323,120,000	$325,410,000	+$2,290,000
Dental health program	19,880,000	19,880,000	
Mental health program	8,077,000	8,077,000	
Alcoholism program	20,207,000	20,207,000	
Maintenance and repair	8,267,000	8,267,000	
Contract care	130,547,000	130,547,000	
Preventive health:			
Sanitation	15,131,000	15,131,000	
Public Health nursing	8,324,000	8,324,000	
Health education	2,293,000	2,293,000	
Community health representative program		25,000,000	+25,000,000
Immunization		500,000	+500,000
Urban health projects		654,000	+654,000
Indian health manpower	4,044,000	4,044,000	
Tribal management	2,634,000	2,634,000	
Program management	51,264,000	50,264,000	−1,000,000
Equity health care fund	19,492,000	17,492,000	−2,000,000
Reduction offset by medicare/medicaid collections		−15,000,000	−15,000,000

Clinical services.—The Committee has deleted the requested increase of $335,000 for Alaska Native community health aides.

An amount of $2,905,000 has been provided for new positions. No more than half of the 139 positions shall be assigned to the Chinle, Ariz. hospital. In recent years, practically all personnel increases have gone to newly constructed facilities. This policy has substantially contributed to severe understaffing in locations where there has been no new construction. An additional $1,000,000 has been transferred from the area and central office administrative account to support clinical and administrative staff at the service unit level.

IHS is facing recruitment and retention problems in nursing. In an effort to improve this situation an additional $1,125,000 has been provided for an educational program to be offered at Tuba City through which LPN's can obtain their RN's.

The Committee recommendation provides an increase of more than $20,000,000 over the fiscal year 1982 level for hospitals and clinics. Within this amount, $4,000,000 shall be used to fund emergency medical services activities currently supported by the community health representative program.

The amount of $500,000 has been added to cover the increased costs of operating the Mount Edgecumbe hospital. These costs have been borne by the Mount Edgecumbe Boarding School which will close during fiscal year 1983.

The Committee has long been concerned over the incidence of alcoholism among the Indian population. Some promising research, particularly in the area of risk prediction, has been initiated. Within the funds available for the alcoholism program, the Indian Health Service is directed to spend no less than $100,000 and up to $200,000 to support research focusing on alcohol abuse and alcoholism.

Preventive health.—$25,000,000 is provided to continue the community health representative program. With the funds made available the Indian Health Service is to conduct an evaluation of the entire program. It appears that during the rapid expansion of the CHR program between 1968 and 1981 a number of activities were supported which have little relation to the CHR program. Through the evaluation, such activities should be identified along with dollar amounts, and if it is deemed that there are necessary services, the funds should be allocated to the proper accounts as part of the fiscal year 1984 budget submission.

The amount of $500,000 has been provided to begin a screening and immunization program in Alaska where hepatitis B has reached epidemic proportions in the Native population.

Urban health.—The Committee has provided $654,000 for the urban health program which is sufficient to fund the three projects which were ranked the highest by the Bureau of Community Health Service evaluation. As fiscal year 1982 funds were available to support all projects through De-

cember, funds are provided for only three-quarters of the fiscal year.

Indian health manpower.—Within the funds available, the Committee expects the Indian Health Service to provide $200,000 for the Indians into medicine program and $120,000 for the masters in public health program.

Program management.—A General Accounting Office report which is still in progress has developed initial data indicating major problems in the administration of the contract care program. The Committee endorses a proposal under consideration by the Indian Health Service to contract with an intermediary to assure a more complete check on Federal health care payments.

$1,000,000 has been transferred from program management to the hospital and health clinic account.

Equity health care fund.—The Committee has reduced the budget request for the equity health care fund by $2,000,000. The Indian Health Service, however, is directed to provide a total of $19,492,000 to those groups qualifying for assistance under the fund. The additional $2,000,000 is to be derived by reallocation of resources from other programs funded under the Services account.

Medicare/medicaid offset.—The Committee has reduced the appropriations for the Indian Health Service by $15,000,000. This amount is to be derived from the $30,000,000 in anticipated collections from medicare/medicaid and other third-party payments.

In some instances, funds are being spent to remodel and renovate facilities for which funds have been provided for planning, design, or construction of a replacement facility. In the future, all such projects shall first be cleared with the Appropriations Committee of the House and the Senate.

The Indian Health Service has also turned over to tribes some personnel quarters and other facilities which were constructed through a direct appropriation to the Indian Health Service. IHS has then leased back these facilities, increasing the operating costs to the Government. The Committee is strongly opposed to this practice and directs that no further leases of this type be entered into. Further, existing leases should be limited to the amount it would actually cost the Government to operate and maintain the facilities directly (for example, insurance premiums should not be included in the lease costs).

At the request of numerous public witnesses, the Committee has included bill language to terminate services to non-Indian spouses and non-Indian members of the household. Exceptions are provided for pregnant non-Indian women married to Indian men and for actions necessary to control acute infectious disease or public health hazards.

The Committee has reviewed the General Accounting Office Report providing recommendations on the operations of nine small IHS hospitals. As a result of the information provided, the Committee withdraws its objection to the renovation of the Cass Lake and Parker hospitals.

INDIAN HEALTH FACILITIES

1082 appropriation	$58,352,000
1983 budget estimate	
House allowance	37,235,000
Committee recommendation	30,750,000

The Committee recommends an appropriation of $30,750,000, an increase of $30,750,000 above the budget estimate and a decrease of $6,485,000 below the House allowance. The following comparative table summarizes the Committee's recommendations:

	Budget estimate	Committee recommendation	Change
Hospitals: New and replacement	$6,700,000	$6,700,000	+$6,700,000
Personnel quarters	14,000,000	14,000,000	+14,000,000
Sanitation facilities	10,050,000	10,050,000	+10,050,000

Hospitals and clinics.—The Committee has provided $6,700,000 for the first phase of construction for the Blackfeet Hospital in Browning, Mont. An additional $500,000 is provided to complete planning of the Sacaton, Ariz. hospital. The Committee supports inclusion of a dialysis unit in the Sacaton facility. These funds are to be derived from unexpended balances available from completed projects.

Personnel quarters.—$14,000,000 is recommended for construction of 161 units of quarters at the Chinle, Ariz., hospital and for 21 units of quarters at Inscription House, Ariz. Eighteen units of quarters owned by the Bureau of Indian Affairs are currently being renovated for Chinle staff use. Therefore, 18 units have been deleted from the 179 unit proposal.

Prior to construction, the Committee requests that the General Accounting Office review the estimates for construction costs with specific attention given to site preparation estimates and wage rates. Two hundred units of HUD-financed housing for Chinle are in the final design stage. Attention should be given to the possibility of offering the HUD and IHS project for bid at the same time to effect an economy of scale.

The Committee is concerned over the ever-escalating cost of providing housing for Government employees working for the Indian Health Service. While recognizing the unique problems of locating housing on Indian reservation and trust lands, the Committee, nevertheless, directs the IHS to consider the availability of housing in the surrounding communities when determining the location of new or replacement hospitals and clinics.

Sanitation facilities.—$10,050,000 has been provided for the construction of water and sewer facilities for 1,220 units to be built in fiscal year 1983 by the Bureau of Indian Affairs and other tribal programs.

Costs of sanitation services provided in conjunction with the Navajo and Hopi Indian relocation program are to be reimbursed from that account.

Of the amount provided, $900,000 shall be used to complete the Turtle Mountain project.

DEPARTMENT OF EDUCATION

OFFICE OF ELEMENTARY AND SECONDARY EDUCATION

INDIAN EDUCATION

1982 appropriation	$77,852,000
1983 budget estimate	51,119,000
House allowance	65,519,000
Committee recommendation	66,216,000

The Committee recommends an appropriation of $66,216,000, an increase of $15,097,000 above the budget estimate and $697,000 over the House allowance.

The following table illustrated the distribution of the funds:

	Budget estimate	Committee recommendation	Change
Part A	$35,465,000	$49,614,000	+$14,149,000
Part B	9,600,000	10,320,000	+720,000
Part C	3,365,000	3,593,000	+228,000
Administration	2,689,000	2,689,000	

The increase for part B is to maintain the pilot planning, and demonstration program (+$280,000) and the fellowship program (+$440,000) at the fiscal year 1982 level.

The additional $228,000 for part C is to maintain the planning, pilot, and demonstration projects at the current level.

NAVAJO AND HOPI RELOCATION COMMISSION

SALARIES AND EXPENSES

1982 appropriation	$10,062,000
1983 budget estimate	13,403,000
House allowance	9,359,000
Committee recommendation	7,665,000

The Committee recommends an appropriation of $7,665,000, a decrease of $5,738,000 below the budget estimate and $1,694,000 below the House allowance.

A reduction of $5,638,000 has been made in the request for relocation payments due to lack of authorization. The request for assistance payments has been reduced by $100,000. It is anticipated that $225,000 in this activity will be available for carryover into fiscal year 1983. That amount, combined with the $500,000 provided in the Committee recommendation will be sufficient to meet the anticipated need.

Under Commission guidelines, a maximum housing benefit is determined on an annual basis. In some on-reservation locations, this amount is effectively being exceeded through the use of Indian Health Service construction funds to provide water and sanitation services to the homes. The Commission is directed to include this cost within the total housing benefit and to reimburse the Indian Health Service for expenses incurred in providing sanitation services to newly constructed homes.

Recent reports indicate that one-third of the relocatees have sold the homes purchased for them by the Government. The Commission is requested to obtain additional data in an effort to determine if the relocatees are moving back to the reservation.

In at least one instance, the Commission has approved the construction of five homes to replace one house which had been located within the joint use area. This type of practice changes the focus from relocation to a housing program and the Committee does not support such a policy.

Bill language has been included to limit benefit payments to those who must actually be relocated. Once the physical relocation has been accomplished, the Committee will consider benefits for those who are not currently physically residing in the joint use area.

SMITHSONIAN INSTITUTION

SALARIES AND EXPENSES

1982 appropriation	$131,170,000
1983 budget estimate	144,110,000
House allowance	147,276,000
Committee recommendation	140,249,000

The Committee recommends an appropriation of $140,249,000, a decrease of $3,861,000 below the budget estimate and $7,027,000 below the House allowance. The following table provides a comparison of the

budget estimates with the Committee recommendation:

	Budget estimate	Committee recommendation	Change
Science	$47,297,000	$46,964,000	−$332,000
History and art	22,019,000	21,909,000	−110,000
Public service	2,805,000	2,805,000	
Museum programs	8,172,000	7,370,000	−802,000
Special programs	10,220,000	9,720,000	−500,000
Administration	10,086,000	10,042,000	−44,000
Support activities	43,511,000	41,439,000	−2,072,000
Total	144,110,000	140,249,000	−3,861,000

Restoration of funding for positions.—The Smithsonian had requested full-year funding of positions provided in fiscal year 1982 which were not filled in that year. In all cases, the Committee recommends only one-half of the annual costs of these positions. Due to the fact that the Smithsonian will operate for several months under a continuing resolution and taking into account the normal lapse rate, these funds should be sufficient.

Other changes from the budget request are detailed below:

Science.—$762,000 requested for the Center for the Study of Man has been deleted as this center no longer exists as a separate entity.

An increase of $425,000 has been provided to improve the multiple mirror telescope at the Whipple Observatory. An additional $200,000 is recommended to partially cover overhead costs of the Smithsonian Astrophysical Observatory. All SAO overhead costs have been charged to contracts. The Smithsonian is to use other available resources in addition to the add-on to fully correct this situation.

Museum programs.—$782,000 requested for the National Museum Act has been deleted as authorization for this program has expired.

Special programs.—The Committee has provided $3,820,000 of the requested $4,220,000 for equipping the Museum Support Center. Savings realized in bids on the wet storage are sufficient to offset this reduction.

The $2,300,000 requested for operations and support of the Museum Support Center has been reduced by $100,000—protection services, −$65,000; Office of Horticulture, −$7,000; and utilities, −$28,000. The increases provided for protection services and plant services in the regular accounts should be sufficient to meet the additional requirements imposed by the opening of the Museum Support Center.

Support activities.—The Smithsonian plans to embark on a program of major improvements in its security system. Of the $3,972,000 requested for contracts and equipment, the Committee has allowed $2,787,000. This represents an increase of 150 percent over the amount available in fiscal year 1982.

The requested increase of $251,000 in postage costs under the Office of Plant Services has been deleted. The Smithsonian has revamped its mailing program which should result in substantial savings. A reduction of $450,000 has been applied to the requested increase for utilities.

MUSEUM PROGRAMS AND RELATED RESEARCH

(Special foreign currency program)

1982 appropriation	$4,320,000
1983 budget estimate	2,000,000
House allowance	2,000,000
Committee recommendation	2,000,000

The Committee recommends an appropriation of $2,000,000, the same as the budget estimate and the House allowance to continue a program of grants for research in several foreign countries.

CONSTRUCTION AND IMPROVEMENTS, NATIONAL ZOOLOGICAL PARK

1982 appropriation	$1,104,000
1983 budget estimate	1,550,000
House allowance	1,550,000
Committee recommendation	1,550,000

The Committee recommends an appropriation of $1,550,000, the same as the budget estimate and the House allowance. The Committee is concerned that the decision to delay construction of the aquatic habitat until fiscal year 1986 will result in an exhibit smaller than originally planned at twice the original cost. The Smithsonian Institution is urged to move forward with this project in fiscal year 1984.

RESTORATION AND RENOVATION OF BUILDINGS

1982 appropriation	$7,680,000
1983 budget estimate	8,450,000
House allowance	8,450,000
Committee recommendation	7,450,000

The Committee recommends an appropriation of $7,450,000, a decrease of $1,000,000 below the budget estimate and the House allowance.

Revised estimates for repairs to the Arts and Industries Building will allow the Smithsonian Institution to carry out the work as scheduled within the lower amount provided by the Committee.

NATIONAL GALLERY OF ART

SALARIES AND EXPENSES

1982 appropriation	$29,815,000
1983 budget estimate	32,673,000
House allowance	34,839,000
Committee recommendation	32,228,000

The Committee recommends an appropriation of $32,228,000, a decrease of $445,000 below the budget request and $2,611,000 below the House allowance.

The amount recommended by the Committee for fiscal year 1982 compared with the budget estimates is shown in the following table:

	Budget estimate	Committee recommendation	Change
Care and utilization of art collections	$8,973,000	$8,921,000	−$52,000
Operation and maintenance of buildings and grounds	15,495,000	15,208,000	−287,000
Protection of buildings, grounds, and contents	5,358,000	5,291,000	−67,000
General administration	2,847,000	2,808,000	−39,000
Total, National Gallery of Art	32,673,000	32,228,000	−445,000

The Committee has reduced the budget estimate for utilities by $250,000. The Committee has reduced the requested increase of $1,274,000 for personnel compensation and benefits by $195,000.

WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

SALARIES AND EXPENSES

1982 appropriation	$1,897,000
1983 budget estimate	2,255,000
House allowance	2,255,000
Committee recommendation	2,321,000

The Committee recommends an appropriation of $2,321,000, an increase of $66,000 above the budget estimate and the House allowance.

The Committee has provided an additional $91,000 for the fellowship stipends. In the future, the Committee expects this figure to be adjusted annually based on the Federal employees' cost-of-living increase.

A reduction of $25,000 has been made in the Center's request for reimbursement to the Smithsonian Institution. The $50,000 allowance will provide for a small increase over the amount available in fiscal year 1982.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

NATIONAL ENDOWMENTS FOR THE ARTS AND THE HUMANITIES

SALARIES AND EXPENSES

1982 appropriation	$216,416,000
1983 budget estimate	153,556,000
House allowance	216,907,000
Committee recommendation	216,407,000

The Committee recommends an appropriation of $216,407,000, an increase of $62,951,000 over the budget estimate and $500,000 below the House allowance.

National Endowment for the Arts.—The following table provides a comparison of the budget estimates and the Committee recommendations:

[In thousands of dollars]

	Budget estimate	Committee recommendation	Change
Artists-in-schools	$3,333	$4,800	+$1,467
Dance	5,299	8,739	+3,440
Design arts	3,132	4,200	+1,068
Expansion arts	5,147	8,000	+2,853
Fellows	100	100	
Folk arts	2,334	2,800	+466
Inter arts	3,134	3,700	+566
International	50	50	
Literature	3,630	4,300	+670
Media arts	5,447	8,300	+2,853
Museums	6,843	9,339	+2,496
Music	5,651	9,439	+3,788
Opera/musical theater	1,764	2,940	+1,176
Special constituencies	50	50	
State programs	14,528	21,039	+6,511
Theater	4,092	7,139	+3,047
Visual arts	5,072	6,000	+928
Research	150	740	+590
Total, regular programs	69,756	101,675	+31,919
Administration	12,600	12,600	
Total, salaries and expenses	82,356	114,275	+31,919

The Committee does not concur with the House limitation regarding funding of the President's Council on the Arts and the Humanities.

National Endowment for the Humanities.—The following table provides a comparison of the budget estimates and the Committee recommendation for NEH:

	Budget estimate	Committee recommendation	Change
State programs	$13,200,000	$20,329,000	+$7,129,000
Education programs	10,700,000	14,301,000	+3,601,000
Fellowships and seminars	9,200,000	13,405,000	+4,205,000
Research grants	13,600,000	16,555,000	+2,955,000
General programs	11,800,000	25,112,000	+12,712,000
Planning and assessment	500,000	730,000	+230,000
Administration	12,200,000	11,700,000	−500,000
Total, humanities	71,200,000	102,132,000	+30,932,000

As requested by the Endowment, the Committee has revised the budget structure to more accurately reflect the current activities of NEH.

A reduction of $500,000 has been applied to the request for administrative expenses. In each of the past 2 fiscal years, NEH has

returned administrative funds to the Treasury. The amount provided should be sufficient to meet the fiscal year 1983 requirements.

MATCHING GRANTS (INDEFINITE)

1982 appropriation	$57,600,000
1983 budget estimate	43,319,000
House allowance	57,528,000
Committee recommendation	57,528,000

The Committee recommends an appropriation of $57,528,000, an increase of $14,209,000 over the budget estimate and the same as the House allowance. The following table provides a comparison of the budget estimate and the Committee recommendation:

	Challenge grants		Treasury grants	
	Estimate	Recommendation	Estimate	Recommendation
NEA	$7,364,000	$18,400,000	$11,155,000	$11,200,000
NEH	15,600,000	16,864,000	9,200,000	11,064,000

INSTITUTE OF MUSEUM SERVICES

1982 appropriation	$11,520,000
1983 budget estimate	
House allowance	10,224,000
Committee recommendation	10,224,000

The Committee recommends an appropriation of $10,224,000, the same as the House allowance. There was no budget request.

The Committee recommendation includes $10,154,000 for operating support grants: $70,000 for the Museum Services Board; and $576,000 for administration. Special projects will be supported through carryover funds available from fiscal year 1982.

Up to $120,000 may be spent for the museum assessment program, provided that the applicants provide one-half of the cost of the assessments.

ADMINISTRATIVE PROVISIONS

The Committee has stricken bill language proposed by the House of Representatives regarding vacancies on the National Museum Services Board and the national councils.

House bill language concerning the establishment of an appeals process for IMS has also been deleted.

COMMISSION OF FINE ARTS

SALARIES AND EXPENSES

1982 appropriation	$303,000
1983 budget estimate	319,000
House allowance	319,000
Committee recommendation	319,000

The Committee recommends an appropriation of $319,000, the same as the budget estimate and the House allowance for the Commission of Fine Arts.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

1982 appropriation	$1,567,000
1983 budget estimate	1,000,000
House allowance	1,600,000
Committee recommendation	1,000,000

The Committee recommends an appropriation of $1,000,000, the same as the budget estimate and a decrease of $600,000 below the House allowance.

NATIONAL CAPITAL PLANNING COMMISSION

SALARIES AND EXPENSES

1982 appropriation	$2,373,000
1983 budget estimate	2,202,000
House allowance	2,279,000
Committee recommendation	2,279,000

The Committee recommends an appropriation of $2,279,000, an increase of $77,000 over the budget estimate and the same as the House allowance.

FRANKLIN DELANO ROOSEVELT MEMORIAL COMMISSION

SALARIES AND EXPENSES

1982 appropriation	$29,000
1983 budget estimate	
House allowance	
Committee recommendation	

The Committee has provided no new appropriations for operation of the Franklin Delano Roosevelt Memorial Commission. Sufficient funds are available from prior years to meet the anticipated fiscal year 1983 requirements.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

SALARIES AND EXPENSES

1982 appropriation	$2,294,000
1983 budget estimate	2,250,000
House allowance	2,350,000
Committee recommendation	2,425,000

The Committee recommends an appropriation of $2,425,000, an increase of $175,000 over the budget estimate and $75,000 over the House allowance.

The increase above the budget is for moving costs associated with the relocation of the Corporation to the Old Post Office Building and for increased space costs at that location.

LAND ACQUISITION AND DEVELOPMENT FUND

(Borrowing authority)

1982 appropriation	$2,400,000
1983 budget estimate	1,200,000
House allowance	1,200,000
Committee recommendation	

No funds have been provided for land acquisition and development as the necessary authorizing legislation has not been approved by the House of Representatives.

PUBLIC DEVELOPMENT

1982 appropriation	$13,632,000
1983 budget estimate	8,750,000
House allowance	8,750,000
Committee recommendation	8,750,000

The Committee recommends an appropriation of $8,750,000 for public development activities, the same as the budget estimate and the House allowance.

The recommendation includes $6,800,000 for public improvements and $1,950,000 for program support costs.

FEDERAL INSPECTOR FOR THE ALASKA GAS PIPELINE

1982 appropriation	$19,425,000
1983 budget estimate	7,125,000
House allowance	6,125,000
Committee recommendation	6,125,000

The Committee recommends an appropriation of $6,125,000, $1,000,000 below the budget estimate.

The Committee's recommendation is based on announcements made during the spring of 1982 by the sponsor company that the gas pipeline completion date will be delayed 3 years to the winter of 1989-90. Because the Office of the Federal Inspector's workload, such as design review, permit processing, field survey, and other preconstruction activities, will be stretched out over a longer time frame, significant reductions in personnel levels for fiscal year 1983 have become necessary. However, the Committee concurs in the decision to retain sufficient OFI personnel so as not to jeopardize OFI's ability to remobilize if construction of the Alaskan segment of the pipeline becomes a certainty. In this regard, the Committee expects to be kept informed of any changes in personnel levels made during the fiscal year.

HOLOCAUST MEMORIAL COUNCIL

SALARIES AND EXPENSES

1982 appropriation	$785,000
1983 budget estimate	820,000
House allowance	820,000
Committee recommendation	820,000

The Committee recommends an appropriation of $820,000, the same as the budget estimate and the House allowance. The increase over the fiscal year 1982 level will allow for the Council to expand observance of the days of Remembrance to all the States and to prepare plans for the memorial/museum.

NATIVE HAWAIIANS STUDY COMMISSION

1982 appropriation	
1983 budget estimate	$200,000
House allowance	(190,000)
Committee recommendation	(190,000)

Because the Native Hawaiians Study Commission was funded for all of fiscal year 1983 in Public Law 97-276, the Committee has recommended no further appropriations. As the work of the Commission is scheduled to be completed by the end of fiscal year 1983, no budget request for fiscal year 1984 is anticipated at this time. The Committee recognizes, however, that certain activities of the Commission, including participation in congressional hearings, may take place after the end of fiscal year 1983. Should this be the case, the Committee will consider a further request for funds to provide payment for reasonable expenses incurred by the Commission during fiscal year 1984.

LIMITATIONS AND LEGISLATIVE PROVISIONS

The following limitations and legislative provisions, not heretofore carried in this exact form in connection with any appropriations bill, are recommended:

COMPLIANCE WITH PARAGRAPH 7 OF RULE XVI OF THE STANDING RULES OF THE SENATE

The Committee submits the following statement in compliance with paragraph 7 of Rule XVI of the Standing Rules of the Senate, which requires the Committee to identify "each recommended amendment which proposes an item of appropriation which is not made to carry out the provisions of an existing law, a treaty stipulation, or an act or resolution previously passed by the Senate during that session."

(1) Language is included in the bill under the Fish and Wildlife Service designating the critical habitat for the Northern Rocky Mountain wolf in Idaho.

(2) Language is included in the bill under the Fish and Wildlife Service renaming the administrative/visitor facility at the Merritt Island NWR, Fla.

(3) Language is included in the bill under the National Park Service providing $1,000,000 for the Washington Opera.

(4) Language is included in the bill under the National Park Service to establish entry

and recreation use fees for all units of the national park system.

(5) Language is included in the bill under the National Park Service for the operation, maintenance, and protection of the former home of Harry S. Truman.

(6) Language is included in the bill under the National Park Service to provide the Federal share of funds for the construction of three inter-agency visitors' centers in Alaska.

(7) Language is included in the bill under the National Park Service authorizing availability of lands in the Redwood National Park to the Smith River Fire Protection District.

(8) Language is included in the bill under the Office of Surface Mining Reclamation and Enforcement authorizing contracts with organizations for collection services.

(9) Language is included in the bill under general provisions of title I amending the Alaska National Interest Lands Conservation Act.

(10) Language is included in the bill under the Forest Service establishing a procedure for the adjustment of residence fees paid to the Forest Service.

(11) Language is included in the bill under the Department of Energy to provide for the transfer of the Laramie Energy Technology Center to the University of Wyoming and the Grand Forks Energy Technology Center to the University of North Dakota.

(12) Language is included in the bill under the Indian Health Service restricting eligibility for non-Indians.

(13) Language is included in the bill under general provisions of title III confirming conveyances made pursuant to Public Law 96-487.

(14) Language is included in the bill under general provisions of title III amending titles II and III of Public Law 95-620.

TITLE III—GENERAL PROVISIONS

As in general provisions for the Department of the Interior, the Senate has found unnecessary a number of provisions included in the House bill, including sections 308, 310, 311, 312, and 315. The Senate has, however, included provisions which accomplish the following:

Prohibits assessments against programs unless approved in the budget process;

Prohibits personnel ceilings or other personnel restrictions for permanent or other than permanent employment, except as provided by law; and

Prohibits merger of research and development funds in this apppropriation being made available for merger with other appropriations.

The Committee has included the House provision with respect to restricting the exploration and development in wilderness, RARE II, and designated wilderness areas.

The Committee has included a provision which exempts new power and industrial facilities in Alaska from the natural gas-use constraints of the Powerplant and Industrial Fuel Use Act of 1978 as amended (FUA), Public Law 95-620. When FUA was enacted in 1978 as part of the National Energy Act, Congress recognized the small and unique nature of Alaska's electric utilities and exempted their existing facilities from FUA's gas prohibitions. This provision recognizes the increasing abundance of isolated natural gas in Alaska, and removes an unnecessary and largely unforeseen regulatory barrier to continued local use of a clean and relatively inexpensive fuel in the State. The alternatives to natural gas in Alaska are costly coal an hydroelectirc development, with attendant environmental impacts. The Committee finds this provision will reduce future State and Federal expenditures for Alaska power development.

The Committee has also includes bill language that provides that the titles conveyed by the Secretary of the Interior to Shee Atika, Inc. is confirmed in all respects. By section 506(c) of Public Law 96-487, Congress directed title to certain lands be conveyed to Shee Atika, Inc. Congress intended to settle pending litigation concerning the validity of certain withdrawals pursuant to the Alaska Native Claims Settlement Act. It was noted that Shee Atika received no funds under the Settlement Act, because of the lawsuit had not yet received its land entitlements and without a legislative solution Shee Atika could go bankrupt. (S. Rept. No. 96-413, pp. 214-215). Title was conveyed to Shee Atika on December 9, 1981. A new lawsuit has been filed by one of the parties to the original litigation challenging the conveyance, even though section 506(c) provides that the Secretary "shall convey subject to valid existing rights and any easements designated by the Secretary of Agriculture" the lands involved.

The lawsuit clouds Shee Atika's title. Thus, 2 years after section 506(c) was enacted, Shee Atika still faces bankruptcy because it cannot utilize its title for security. The purpose of this provision is to make it clear that the title conveyed pursuant to section 506(c) is valid, conveyed pursuant to the Settlement Act and that the land is to be developed by Shee Atika for its economic growth and stability.

Shee Atika has approximately 1,900 Native shareholders. The Settlement Act was passed in 1971. Congress stated that the settlement "should be accomplished rapidly, with certainty, in conformity with the real economic and social needs of the Natives, without litigation. . . ." This provision is designed to accomplish that.

Finally, the Committee has included bill language prescribing a procedure to be followed for disposal, except by exchange, of any Federal land tract.

BUDGETARY IMPACT OF BILL

PREPARED BY THE CONGRESSIONAL BUDGET OFFICE PURSUANT TO SEC. 308(a) PUBLIC LAW 93-344

[In millions of dollars]

	Budget authority		Outlays	
	Committee allocation	Amount in bill	Committee allocation	Amount in bill
Comparison of amounts in the bill with the Committee allocation to its subcommittees of amounts in the First Concurrent Resolution for 1983: Subcommittee on Interior and Related Agencies	7,800	[1] 7,670	8,400	[1] [2] [3] 8,477
Projections of outlays associated with budget authority recommended in the bill:				
1983				[4] 5,181
1984				1,559
1985				524
1986				103
1987 and future year				50
Financial assistance to State and local governments for 1983 in the bill		622		407

[1] Includes previously enacted amounts.
[2] Includes outlays from prior-year budget authority.
[3] A preliminary estimate of outlays on the basis of subaccount activities indicates a lower outlay total.
[4] Excludes outlays from prior year budget authority.

[The tabular matter intended to follow at this point will appear at the end of today's Senate proceedings.]

MILITARY DOUBTS ABOUT THE MX MISSILE

Mr. BIDEN. Mr. Presient, when the MX missile program began early a decade ago, its purpose was to respond to the anticipated vulnerability of U.S. intercontinental ballistic missiles (ICBM's) with a newer, more powerful, and especially survivable weapon. Indeed, Congress insisted by law that missile development be linked to research on a survivable basing plan.

Now the cart is getting ahead of the horse. The administration wishes to proceed with production of the MX missile, at a cost in 1983 of just under $1 billion, despite considerable doubt as to the military effetiveness of the latest basing plan.

The Air Force has studied some 34 basing schemes. Each previous one has been rejected for one reason or another, thus leaving us with closely spaced basing, more commonly known as Dense Pack.

It may not be surprising that so many former officials have questioned or opposed Dense Pack. But it is truly significant that a majority of the Joint Chiefs of Staff, our senior military leaders and advisers, have also counseled against this latest proposal on grounds of tecnical uncertainties.

Mr. President, it makes little sense to spend tens of billins of dollars on a program that will not close the so-called window of vulnerability.

As the Senate approaches consideration of this program, I think we should give careful attention to the professional judgments of our military commanders. Their doubts and hesitation should give us pause.

I ask unanimous consent that newspaper reports of the views of the Joint Chiefs of Staff on the Dense Pack basing plan be printed in the RECORD.

There being no objection, the materials were ordered to be printed in the RECORD, as follows:

[From the New York Times, Dec. 8, 1982]

THREE OF FIVE JOINT CHIEFS ASKED DELAY ON MX

(By Richard Halloran)

WASHINGTON.—The chairman of the Joint Chiefs of Staff, Gen. John W. Vessey, Jr., disclosed today that three of the five military chiefs had recommended against proceeding now with the much-disputed plan for closely spaced basing of the MX missile.

General Vessey, in testimony before the Senate Armed Services Committee, said that the nation's top military leaders had found the basing proposal "very difficult to understand and difficult to explain" and that three wanted to wait until "technical uncertainties" were resolved.

DOUBTS ON PRIORITIES

The general, in response to reporters questions later, indicated that the Chief of Staff of the Army, Gen. Edward C. Meyer; the Chief of Naval Operations, Adm. James D. Watkins; and the Commandant of the Marine Corps, Gen. Robert H. Barrow, had voted against going ahead now with the plan, known informally as "dense pack."

Other officers have said that senior officers in those services, especially the Army, felt that the Reagan Administration was putting too much money into nuclear forces at the expense of conventional forces. The MX program, including the basing plan, would cost $26.4 billion as part of a $180 billion plan to modernize the strategic nuclear deterrent.

Voting for the plan to deploy 100 missiles in strengthened silos clustered in a long, narrow array near Cheyenne, Wyo., were Gen. Charles A. Gabriel, the Chief of Staff of the Air Force, the service that would deploy the missiles, and General Vessey himself. General Vessey declined to explain his vote.

General Vessey said that all the chiefs considered the MX missile to be necesary for national security but were divided on the basing question. He said the three who thought the basing plan technically doutful wanted the missiles deployed in current Minuteman silos.

The Chairman of the Joint Chiefs said that they had reviewed the basing plan for only a relatively short time, after it was developed by officials in the Defense Department and the Air Force. He said that their views went to President Reagan just before Nov. 22, when the President announced his decision favoring the "dense pack" plan.

General Vessey added that one service chief, whom he did not identify, had said he would go along with the basing plan if it would help the President's efforts to negotiate an arms reduction with the Soviet Union in Geneva.

General Vessey's testimony seemed certain to provide ammunition to opponents of MX, which stands for missile experimental, in the Senate, where the program was scheduled for debate Thursday. On Wednesday, the House voted, 245 to 176, to delete $98 million from the 1983 budget to produce first five missiles.

The nation's top soldier today appeared alongside Secretary of Defense Caspar W. Weinberger and other senior officials as the Administration began a mission to save the MX nuclear missile program.

Backing up the Secretary was a phalanx of 30 generals, other military officers and civilian advisers who filled a third of the crammed hearing room on Capitol Hill. The Secretary is usually accompanied by four or five other officials.

WEINBERGER MEETS SKEPTICISM

Mr. Weinberger offered no new arguments but ran into barrage of skepticism from members of a committee that is usually sympathetic to military demands. Like the Joint Chiefs, most members of the committee favored producing the MX missile, but were dubious of the basing plan.

Senator Henry M. Jackson, Democrat of Washington, said the MX program had suffered from a series of different proposals for basing, "dense pack" being the latest of nearly three dozen. "The public's got the idea that its a boondoggle, a Rube Goldberg," he said.

Senator William S. Cohen, Republican of Maine, said his doubts had been raised in recent years by the conflicting testimony, especially from military officers, adding, "The difficulty I have now is that we have a lack of credibility on this whole issue."

Senator Sam Nunn, Democrat of Georgia, asserted that the Administration had made "a fundamental error" in asking for funds to produce the missile before finding a base for it. "I don't think you realize the trouble the MX basing mode is in now," he told Mr. Weinberger.

Senator Dan Quayle, Republican of Indiana, said a "tremendous change" in public attitudes on military issues had taken place recently. "There's a definite perception in the public that the Pentagon and military spending are simply out of control," he said.

Mr. Weinberger and his associates did not appear to have helped their cause by inconsistent testimony. On a technical issue of how much pressure the proposed strengthened missile silos could withstand, for instance, Lieut. Gen. Lawrence Skantze of the Air Force said that tests had shown that this was 15,000 to 30,000 pounds a square inch. George A. Keyworth, the President's science adviser, said 45,000 pounds a square inch could be achieved. Mr. Weinberger said that 60,000 to 80,000 pounds a square inch was possible.

[From the Washington Post, Dec. 9, 1982]

JOINT CHIEFS HAD COUNSELED REAGAN AGAINST DENSE PACK

(By George C. Wilson and David Hoffman)

President Reagan's campaign to save the MX missile suffered another serious setback yesterday when it was revealed that a majority of the Joint Chiefs of Staff had advised Reagan against going ahead with his proposed "Dense Pack" deployment scheme for the intercontinental nuclear weapon.

The chairman of the Joint Chiefs, Army Gen. John W. Vessey Jr., disclosed to the Senate Armed Services Committee that the military chiefs had recommended againse Dense Pack by a 3-to-2 majority. The chiefs of the Army, Navy and Marine Corps opposed Dense Pack, while Vessey and the Air Force chief endorsed it.

At the same committee hearing yesterday, Defense Secretary Caspar W. Weinberger was warned by several senators of both parties that changing deployment schemes for the MX had damaged the weapon's credibility.

Later yesterday, the House which had voted 245 to 176 on Tuesday to delete MX production money from this year's defense appropriations bill, also voted to hold back some research money for the weapon while Congress examines Dense Pack.

President Reagan had proposed deploying the weapon by 1986 in so closely spaced a formation outside Warren Air Force Base near Cheyenne, Wyo., that attacking Soviet missiles would destroy each other overhead.

The developments of the past two days put the Reagan administration suddenly on the defensive about its entire effort to modernize the American arsenal of nuclear weapons, of which invulnerable deployment of the MX missile was to be the centerpiece.

The White House, State Department and Pentagon all launched public counterstrikes against MX opponents while privately pondering how to avoid an all-out fight with Congress.

Reagan will "take the message to the American people," according to White House spokesman Larry Speakes, and would "speak out forcefully and often" over the next several days to try to reverse the House vote against MX when the Senate takes up the defense appropriation bill.

One administration aide planning this counter-offensive portrayed Reagan as "ticked off" by the House vote and determined to make the case for the MX before the Senate votes next week.

But Weinberger was warned by several members of the Senate Armed Services Committee that the MX is also in deep trouble in the Senate. "We have a lack of credibility on this whole issue," Sen. William S. Cohen (R-Maine) told the defense secretary.

"The problem we have here, and I speak as a politician," Sen. Henry M. Jackson (D-Wash.) told Weinberger, "is that the MX has suffered a serious debasing by reason of a whole series of basing modes."

"The public has gotten the idea that it's a boon-doggle, a Rube Goldberg," Jackson said of Dense Pack. "You can't explain it."

Sen. Dan Quayle (R-Ind.) said Reagan's entire rearmament blueprint has been called into question. In contrast to the prodefense attitude of last year, he said, "my mail has gone 180 degrees in the other direction. There is a definite perception of the public that the Pentagon and the services are out of control."

While Weinberger was bearing the brunt of this criticism from a panel strongly supportive of the Pentagon in the past, Secretary of State George P. Shultz was hearing more bad news at a NATO meeting in Brussels. The Danish Parliament voted Tuesday to stop contributing money to NATO's deployment of American Pershing and cruise missiles in West Germany.

Washington Post correspondent Michael Getler, who is traveling with Shultz, reported from Brussels that the House vote against the MX would enable European opponents of Pershing and cruise missile deployment to argue that the United States was refusing to put new nuclear weapons on its own soil while pressing NATO partners to do so.

Shultz, trying to minimize the impact of the House MX vote for Europeans, said upon arriving in Brussels yesterday that he wanted to "emphasize" that the United States already has 1,000 nuclear Minuteman missiles deployed on its own soil. What was at issue with the MX, he said, "is a modernization of that weapon and a shift in the basing mode."

Another high State Department official, who declined to be quoted by name, told Washington Post diplomatic correspondent John M. Goshko that the House vote on the MX and the Danish vote on Pershing and cruise missiles were "very serious matters."

Not only would those actions fuel the anti-nuclear movement in Europe, said the official, particularly in the Nordic nations on NATO's vital northern flank, but also "plays into the hands of the NATO reduction types here in Washington," such as the majority of the Senate Appropriations Committee who recently voted to freeze the number of U.S. troops in Europe at the 1981 level. The official also said the setback on the MX undercuts U.S. negotiators at the U.S.-Soviet arms talks at Geneva, who he said have been counting on the missile for leverage in bargaining over both strategic and theater nuclear weapons.

Weinberger, early in his Senate Armed Services Committee testimony yesterday, said that denying production money for the MX would amount to "telling the world we are disarming unilaterally."

In about the only sympathetic remarks Weinberger heard from the committee yesterday, Sen. John C. Stennis of Mississippi,

ranking Democrat, said "if the Congress is not going to back the president in this kind of far-reaching decision, we are in a bad fix."

Late in the hearing, Sen. Sam Nunn (D-Ga.) elicited from Vessey that a majority of the Joint Chiefs, who advise the president on military decisions, had recommended against Dense Pack deployment of MX. "Some of the chiefs were concerned that the president was being pushed into a basing decision before all the technical uncertainties of the basing system were resolved," he said.

Vessey confirmed to reporters after the hearing that he was one of the two military chiefs who nevertheless favored going ahead with Dense Pack. He smiled in apparent confirmation when it was suggested that Air Force Chief of Staff Gen. Charles A. Gabriel also must have supported Dense Pack because his service designed it. "I don't remember him being against it," Vessey replied. Of the three remaining chiefs—Gen. E. C. Meyer of the Army, Adm. James D. Watkins of the Navy, and Commandant Robert H. Barrow of the Marine Corps—one qualified his opposition by saying he could endorse going ahead with Dense Pack if "it would help" the president reach an arms control agreement with the Soviets, according to Vessey, who declined to identify him.

Vessey stressed that all the chiefs, in assessing Dense Pack shortly before the president public recommended it on Nov. 22, agreed that the MX missile itself was needed. He said they split only over the Dense Pack deployment scheme.

It is highly unusual, if not unprecedented, for a president and secretary of defense to recommend to Congress deployment of a major weapon without first winning endorsement from the Joint Chiefs of Staff. Members of Congress historically have been reluctant to reject the advice of the chiefs.

When asked by Nunn why he recommended Dense Pack to Reagan after the majority of the chiefs had opposed going ahead with it, Weinberger said "provisions in the statutes" give Defense Department civilians the responsibility for making such decisions.

SPEAKER TIP O'NEILL AT SEVENTY

Mr. KENNEDY. Mr. President, there is no secret about the genius of Speaker THOMAS P. O'NEILL, JR. of the House of Representatives. On this, his 70th birthday, he has reached the pinnacle of power and affection in the Congress. And he flourishes in that high position because he has never lost his Irish common touch and commonsense, and because he has never turned away from all those who need his hope and help.

I admire TIP O'NEILL as one of my greatest friends and colleagues, and as one of the greatest Democrats in the history of our party. He never even saw the 55 speed limit; he is going strong at 70, and we need him more than ever now.

So I take this happy anniversary occasion today to wish him well and to say how proud I am to stand beside him in the Congress on all the great battles of the day for growth and justice and a brighter future for every American in every city, town, and village of this land.

Mr. President, in today's Boston Globe, the distinguished reporter, David Nyhan, has written a fine tribute to Speaker O'NEILL, and I ask unanimous consent that it may be printed in the RECORD.

There being no objection, the tribute was ordered to be printed in the RECORD, as follows:

[From the Boston Globe, Dec. 9, 1982]

HAPPY 70TH, MR. SPEAKER, YOU'VE ALWAYS BEEN TRUE

(By David Nyhan)

Not the least reason to marvel at Tip O'Neill is the simple fact that he hasn't made much money, when he's had vast opportunity to do so.

In 46 scandal-free years of winning elections, 30 in Congress, six as Speaker of the House, he's proved almost totally inept at padding his own income and salting something away on the side.

Politicians with far less potential for pelf than he have become millionaires on the sly, by O'Neill's net worth is embarrassingly meager. He's got about what a public school teacher would have, if his kids were grown and his wife worked. Not much, but something.

His wealth is in coin of a different realm. He is much loved by those who know him. When he threw a party for his campaign workers, what was astonishing about the crowd in the old Cambridge Hotel was that so many were of his generation. The man, whose highest accolade is "Old Pal," kept the friends he began with.

When Tip got up in front of the band, singled out his Millie, and knocked out a better-than-passable rendition of "Apple Blosson Time," you couldn't picture any New Wave Democrats doing likewise.

O'Neill is a living political monument for a lot of reasons, but some of them are: He's kept the same wife, the same friends, the same lifestyle, the same values and the same philosophy he began with in the Thirties.

His mother died of TB before he was a year old, and he was raised by a father who was a city councilor and superintendent of sewers in Cambridge. "He taught me loyalty," O'Neill said years ago, "to live a good, ethical, honest life; that I'm truly my brother's keeper; and to always remember from whence I came."

In a lifetime of politically horse trading, O'Neill could be accused of many things, but none can say he forgot his roots. The Irish yield to no one when it comes to badmouthing a social climber. Those who moved out of the three-deckers risked being labeled "two-toilet Irish," "lace curtain Irish," and most spiteful of all, "cut-glass Irish."

O'Neill never went high-hat, either in lifestyle or in his politics. The hardest thing he's said of Ronald Reagan was that the President had forgotten where he'd come from, the Depression-era poverty of working-class Illinois, where most people needed a government handout to get by.

When Reagan blew into Washington, scattering demoralized Democrats like fallen leaves, the middle class was beguiled by the sonorous siren-song of tax cuts. O'Neill warned it would be open season on the poor.

"People seem to hate the poor, that's the kind of thing that got us into deep trouble in the 1930s."

The O'Neill losses of 1981 have become the O'Neill victories of 1982, and the incoming Congress will line up much more behind the Speaker than the President, a fact that bodes well for the 12 million unemployed.

The right wing still hates Tip O'Neill and all he stands for. They see him as the symbol of the bloated government that forces some redistribution, of wealth in this country, a process Reagan has managed to reverse.

There is not a man alive today who has done more good for more people, in trying to impose a semblance of fairness and sharing-the-wealth on Congress, than this man who turns 70 today.

A pillar of his party, model to his profession, he's a testament to the best the Irish brought to this country's politics.

James Michael Curley taught him to give the crowd some words to remember. John F. Kennedy taught him that when it comes to raising dough, running for President was no different than running for alderman. And it is an old Irish legend that teaches us the central fact of democratic congressional rule today: "Where the O'Neill sits, that is the head of the table."

EUGENE LANG—A GOOD MAN

Mr. LEVIN. Mr. President, Tuesday night, the American Hungarian Foundation presented its annual George Washington Awards to several notable people at the Plaza Hotel in New York City. One of the recipients is an innovator, a unifier, an internationalist, a man of peace, a humanitarian, a kind of gentle husband, father, brother, and grandfather, Eugene Lang. Following are my remarks introducing Mr. Lang.

Ladies and gentleman, I'm very pleased to be here with you tonight to share in the American-Hungarian Annual George Washington Awards ceremony. Although I'm here tonight to introduce a good friend, I happen to hail from a state with a large American-Hungarian population, with whom I've worked for many years. About ten years ago, when Cardinal Mindszenty was visiting the U.S., I had the pleasure of being acting mayor of Detroit when we welcomed him to the city and heard him preach—making it one of the most memorable days of my life. And we in Michigan have been blessed with a large number of recent immigrants, Hungarian Freedom Fighters, who came to my home town and state and whose special vivid love of freedom reminds us of just how fragile and precious freedom is.

Let me commend the American Hungarian Foundation for its vital role helping us celebrate and preserve Hungarian heritage and reminding us all of the extraordinary contribution of Hungarian Americans to the mosaic of ethnicity we call America.

I am especially pleased to be introducing Eugene Lang tonight. Gene Lang has for years enhanced the American-Hungarian tradition of providing leadership in both public and private affairs. He has a long history of involvement in international business and trade—a history punctuated by awards and public recognition. Gene Lang founded and has been President of REFAC Technology Development Corporation since 1952. In 1963, REFAC became the first service company to receive the American President's "E" Citation for trade expansion ser-

vices to small U.S. manufacturers. As a member of the Senate Committee on Small Business, I can particularly appreciate that.

Gene Lang is an internationally recognized expert in creating industrial projects and new technology ventures. He serves as a project consultant to multi-national companies and has lectured at universities and before business organizations around the world. He has been a prolific writer in leading journals all over the globe.

Since 1956, he has been an advisor to the U.S. Department of Commerce and has served on numerous official U.S. Trade and Investment Missions.

In all his "spare" time, he has managed to participate in the development of the arts and has served on the boards of many professional, civic and educational associations, including the Metropolitan Opera Association, New School for Social Research and Columbia University Graduate School of Business. He is former Chairman of Circle-in-the-Square Theatre Group. And here's something near and dear to me—Eugene Lang is Chairman of the Board of my alma mater, Swarthmore College.

In addition to carrying on the American-Hungarian tradition of service to our country, he has added lustre to his own family's tradition of service. His father, Daniel Lang—who came to our shores from Hungary around the turn of the century—was a great humanitarian and enriched the lives of those he touched.

So the award we present tonight to Eugene Lang for his contributions and achievements as a leader in public and private service also pays tribute to his father, the late Daniel Lang.

Ladies and gentlemen, I now introduce our friend, Eugene Lang.

SOLIDARITY WITH THE POLISH PEOPLE

Mr. LEVIN. Mr. President, I was happy to support Senate Resolution 501 to register my continued support for the people of Poland and to again protest martial law in Poland and the internment of Solidarity leaders.

Mr. President, we have seen the Soviet bear's paw claw Poland—it has come down hard on all movements for a more open political system. Despite this oppressive environment, we saw Poland's love of civil and political freedom come to life in the form of Solidarity. It was an extraordinary and daring political experiment and for awhile it escaped the bear's paw. We marveled at and applauded the Poles' undaunted spirit in their struggle to determing their own political, social, and cultural destinies. We held our breath in anxious anticipation over what the future of the fledgling Solidarity might be.

What recently unfolded is not what we had hoped for—the great bear took a viscious swipe at Solidarity, knocked it from its freedom flight, and now seeks to trap it beneath its paw. One year ago the Communist government declared martial law in Poland. Then about 2 months ago, it decreed the death of Solidarity. They outlawed the 9-million-member independent union federation that had for 16 months raised the hopes of Poles and friends of a free Poland.

The Soviets may have had martial law slapped on the people of Poland, but they do not restrain the Polish longing for freedom. The Soviets may have had Solidarity banned, but they can not banish Polish determination. The Soviets may have had Solidarity's leaders jailed, but they cannot put the Polish spirit behind bars.

That free spirit is what helped give birth to Solidarity and is testimony to the courage and perseverance of the Polish people. And this is only the most recent act inspired by the Poles' love of freedom. For centuries we have seen the Poles join together under the banner of self-determination and political sovereignty. In a major triumph for the cause of freedom, the modern state of Poland was born 64 years ago.

The Polish love of freedom helped us during our own struggle for independence here in the United States when Kosciuszko and Pulaski provided leadership in the struggle to expel the oppressors from our shores 200 years ago.

We see that very same spirit of fighting for political and civil liberties burning today in the hearts of the Polish people. We see it in people like Lech Walesa, a man driven by a desire to see his people free—free of foreign domination, free to form their destiny, free to create their own future. That spirit has endured the test of time and certainly will not be extinguished by the imposition of martial law and the jailing of Solidarity leaders.

I am proud to join in solidarity and prayer with the Polish people on the first anniversary of the imposition of martial law. We must continue to lend unswerving support to the Polish quest for freedom. We must help keep Solidarity's flame aglow. By virtue of its very existence, what it represented, and what it achieved, solidarity has made an indelible impact on the course Poland will follow and on the consciousness of us all.

TRIBUTE TO SENATOR HOWARD CANNON

Mr. BURDICK. Mr. President, I am proud to join my colleagues in saluting HOWARD CANNON, a friend with whom I have been honored to serve in this body for 22 years.

If Senator CANNON has not been called "Mr. Aviation" by some pundit or other, he certainly should be. His honors and recognition from this industry range from the Wright Brothers Memorial Award in 1971 to the Tony James Award for Outstanding Contribution to Scheduled Air Transportation in 1981.

From his heroic days as a decorated fighter pilot shot down behind enemy lines in World War II to his work in the Senate today, HOWARD CANNON has been a champion of aviation. As this mode of transportation has grown from a fledging industry to a major component of our transportation network, it has been guided legislatively in large measure by the hand of HOWARD CANNON. Airline deregulation, a concept he fought for long before it became fashionable, came about largely because of his efforts.

Airlines are not the only mode of transportation affected by HOWARD CANNON's work. As chairman of the Senate Commerce Committee, he was a principal formulator of both the railroad and trucking deregulation bills as well.

Senator CANNON has been a powerful, respected, and effective Member of the Senate for a long time. He has done a good job for his State and for his country. I think we will all miss him, and I join other Senators in wishing him and his wife, Dorothy, every success and happiness in the years ahead.

TRIBUTE TO SENATOR HOWARD CANNON

Mr. CHILES. Mr. President, the end of the 97th Congress marks an end to the distinguished Senate career of Nevada's senior Senator, HOWARD CANNON. After four terms of effective leadership on Capitol Hill, Senator CANNON deserves the praise and thanks of his colleagues.

Over the years, HOWARD CANNON has earned the reputation of a man who gets things done. He has been a voice of moderation and compromise. He knows the value of bipartisan cooperation, and on many occasions he has been able to put together the coalitions to pass needed legislation.

No doubt HOWARD will be remembered best for his work on the Commerce Committee. As the ranking Democrat and former chairman, he has provided leadership on the broad range of issues that committee handles. In particular, he has taken the lead on transportation issues. When I took on the ranking minority position of the Transportation Appropriations Subcommittee, HOWARD and his staff were extremely helpful. I appreciate that.

I suppose it is indicative of Senator CANNON's persistence and ingenuity that, when he was shot down over Holland in World War II, he survived for 6 weeks in enemy territory while working his way back to Allied lines. He left the service as a major general in the Air Force Reserve, and to this day he is vitally interested in aviatic n. He chaired, with distinction, Senate subcommittees on both military and civilian aviation.

HOWARD CANNON has devoted his life to public service. From his time in the Air Force to his work in the Las Vegas

city government to his role here in the Senate, he leaves a proud record. I salute him, I thank him, and I wish him the best of success in the future.

A TRIBUTE TO SENATOR NICK BRADY

Mr. PACKWOOD. Mr. President, in a brief time, NICK BRADY has made an impression on the Senate that most would be lucky to rival in a lifetime. Senator BRADY is clearly a leader—he proved that in a few months. Were he to remain with us in the Senate it would be only a short period of time before that leadership would be recognized by election to a position of formal leadership by his peers.

NICK BRADY brought many facets to this job—wit, humor, sagacity, wisdom, and many other qualities. While I have known him for only these few months that he has served in the Senate, I have learned to appreciate him beyond measure. Hopefully, in the years ahead he will continue to give us the benefit of his judgment and advice. As for me personally, I will always cherish his friendship. He may leave the Senate but he will not leave our hearts.

A TRIBUTE TO SENATOR SAM HAYAKAWA

SAM HAYAKAWA came to the U.S. Senate in 1978, a man known for his brilliance in the academic community, and an individual committed to maintaining individual liberties. Many times, SAM and I have stood side-by-side fighting for what we believed in—guaranteeing a woman's right to maintain control over her own life.

There have been countless battles fought on the floor of the U.S. Senate regarding abortion, and in each case, I knew SAM HAYAKAWA would be at my side. Senator, you and I understand the need to maintain strong individual liberties, where many others have tried to take those liberties away. I salute you for your efforts—and I will miss your help as these battles continue.

And, when it came to educational issues, SAM HAYAKAWA has shared with this body his expertise and wisdom.

Senator, I will miss you as a colleague, but as a friend I will miss your wisdom and expertise even more.

A TRIBUTE TO SENATOR HARRY BYRD

As I stand here today to pay tribute to my friend and distinguished colleague, HARRY BYRD, I think back to when I first came to the U.S. Senate. I thought then, as I do today, that HARRY BYRD possessed the rare qualities that each of us should aspire to.

First, HARRY BYRD was a leader, a man who stood by his beliefs and fought consistently for what he thought was right. I can still remember the first speech I heard HARRY give. It was about why we should not raise the public debt limit, and since then I have listened each year as he has tried to convince this body of the dangers of taking this action.

And each year, HARRY BYRD has been right.

Second, and most important, HARRY BYRD has been a friend and in many cases a mentor. I have watched HARRY BYRD through the years. In some instances he has shared his philosophy with me, and in each case I have learned from him.

Senator, I have been lucky to have known you, to have worked with you, and also to have been your friend.

FINANCE COMMITTEE AMENDMENT TO CAPITAL GAINS HOLDING PERIOD

Mr. DOLE. Mr. President, I would like to explain briefly the Finance Committee's amendment to the capital gains holding period provisions of the Tax Code. This amendment was in the tax bill passed last year in the House, and in the Senate passed version of the recently enacted Tax Equity and Fiscal Responsibility Act of 1982. It was also passed by the Senate in September as an amendment to the debt ceiling bill, by a vote of 77 to 17. But unfortunately that amendment was removed when the debt ceiling bill was recommitted on September 23.

This provision deals with an important tax change—reducing the holding period for long-term capital gains from 12 months to 6 months. Unfortunately when the Senate passed this provision in last summer's tax bill, it was rejected by the House conferees. However, after discussion with House Members and others who have an interest in this matter, I am convinced that it is worth making another try at it at this time.

CAPITAL GAINS HOLDING PERIOD

The 6-month holding period for capital gains was, I believe, one of the more important provisions of the Senate-passed tax bill. There is considerable evidence that the difference in tax treatment of short-term and long-term transactions under present law provides an incentive for investors not to realize short-term gains. Studies of capital asset sales data confirm that investors are "locked in" to investments simply because they do not want to be taxed on short-term gains. As a result, the efficiency of capital markets is reduced because investors hold assets longer than they might otherwise, in the absence of tax considerations. By reducing the capital gains holding period, we expect to reduce the lock-in effect and its adverse impact on capital market efficiency. It should also be noted that, prior to 1976, the holding period was 6 months.

Mr. President, this issue has been carefully considered both this year and last, and there is considerable support for it. It is endorsed by the Reagan administration, and it was passed by the House of Representatives last year in its consideration of ERTA. The provision did not survive conference on ERTA, however, just as it did not survive this year's conference on TEFRA. But surely it is significant that each House now has passed major legislation including a 6-month holding period provision. It was a deep disappointment to me that this provision could not be agreed to by the House in the conference on H.R. 4961. However, I discussed the matter at some length with Chairman ROSTENKOWSKI and others, and I believe that the provision will be carefully considered if it is included in the bill under consideration.

TECHNICAL CORRECTIONS

I should also note that the provisions reported by the Finance Committee contains several technical corrections to the version contained in the Senate passed version of TEFRA. Most importantly, one provision deals with a technical problem that was overlooked in drafting H.R. 4961. When we drop the holding period to 6 months, we change the definition of long-term losses as well as gains. It has come to the committee's attention, however, that some investors may have been counting on a short-term loss on assets held between 6 and 12 months to offset other short-term gains they may have had. Unless we expressly provide for that contingency, those short-term losses attributable to sales or exchanges after June 30 will be converted to long-term losses if the asset was held more than 6 months. Accordingly, the Finance Committee provision contains an appropriate transition rule to allow a grace period for the change regarding the definition of short-term losses, so that taxpayers who relied on prior law will have sufficient time to realize a short-term loss needed to offset a short-term gain.

Mr. President, I believe that summarizes the case for the Finance Committee's capital gains holding period amendment. I hope the entire bill will be adopted by the Senate and enacted into law.

WAR POWERS RESOLUTION—LEBANON OPERATION

Mr. MATHIAS. Mr. President, on November 28 the current Beirut operation became the first case during the 9-year life of the War Powers Resolution that U.S. forces equipped for combat have been introduced into a potentially hostile environment and maintained for more than 60 days. You will recall that on this date, Congress stood adjourned for the election recess, an unfortunate coincidence from the perspective of Congressional oversight of the Lebanon situation.

To his credit, the chairman of the Foreign Relations Committee recognized this and held hearings as soon as the Congress reconvened. During the course of these hearings, a message of utmost importance was conveyed to the President and to the Secretary of State: namely, that this institution will be vigilant in carrying out its constitutional responsibility to oversee the deployment of U.S. Armed Forces abroad.

Today I would like to draw the attention of my colleagues to certain aspects of the Lebanon operation which concern me. The application of the war powers resolution to this mission has been a matter of some debate recently, during which time the discussion has focused upon two related, but distinct questions. Is the operation one of "imminent hostilities" thereby limited to 60 days under the terms of the resolution unless Congress extends the President's authority? And what should Congress do if it and the President disagree on this question?

November 28 marked the limit of the President's authority to keep the Marines in Lebanon without specific congressional authorization, had they been introduced into actual or clearly imminent hostilities. However, the President, in his September 29 letter to Congress, did not specify which section was operative, thereby avoiding the 60-day limit. He did make clear, however, that he did not expect U.S. forces to become engaged in hostilities. In other words, the President sought to preserve his prerogatives by omitting the provision of law under which he was acting.

The War Powers Resolution was drafted to account for such a contingency, as its author, our distinguished former colleague, Senator Jacob Javits, recently explained in a letter to the editor of the New York Times. He wrote that the resolution:

> Specifies in Section 5(b) that "within 60 calendar days after a report is required to be submitted pursuant to Section 4(a)(1) . . . the President shall terminate any use of the United States armed forces with respect to which such report was submitted or was required to be submitted, unless Congress has specifically authorized such use."
>
> I construe the words "required to be submitted" as enabling the Congress, by concurrent resolution to that effect, to start the 60-day clock running as effectively as if the President had filed a Section 4(a)(1) report.

But Congress has not chosen to pass a concurrent resolution to this effect, thereby indicating its tacit agreement with the President, that section 4(a)(1) was not the operative section—at least not as long as the conditions on the ground remain the same as those of September 29.

Having determined that the 60-day clock is not ticking, we are now faced with a more intractable problem. We must decide whether or not to commit U.S. troops in a peacekeeping role abroad for an extended, if not an indefinite, period of time. This is a situation to which the war powers resolution does not speak, its purpose being "to reconfirm and to define with precision the constitutional authority of Congress to exercise its constitutional war power with respect to 'undeclared' wars * * *"

The present dilemma was anticipated as early as 1973 by another distinguished colleague whose presence in the Senate is missed greatly, Senator J. William Fulbright. In a supplement to the Foreign Relations Committee report, which accompanied the bill, he observed:

> A most important problem, closely related to the war powers is the question of authority to deploy the armed forces outside of the United States in the absence of hostilities or the imminent threat of hostilities.
>
> I am reminded of a memorandum written in 1968 by General Wheeler, then Chairman of the Joint Chiefs of Staff, regarding the deployment of American Forces in Spain in the absence of a security treaty: "By the presence of the United States forces in Spain, the United States gives Spain a far more visible and credible security guarantee than any written document." Both experience and logic show that to the extent the President controls deployment do the armed forces, he also has the de facto power of initiating war.

Mr. President, the current debate about the constitutional implications of the Lebanon operation serves a very useful and important function. It focuses, once again, the attention of Members on the difficulties and the implication of a deployment of Armed Forces under ambiguous circumstances. Its logical conclusion should be an affirmation by the Congress of its constitutional responsibility to regulate any deployment of troops, with or without the threat of imminent hostilities. The Constitution, in article 1, section 8, specifies Congress power to "make rules for the government and regulation of the land and naval forces." As the Foreign Relations Committee observed in its report on the bill, nearly a decade ago, "There is no way to legislate national wisdom * * *." We can, however, provide important protection to the people of America by insuring that collective judgment of both the Congress and the President will be brought to bear in decisions involving the use of the Armed Forces.

A DEMOCRATIC ALTERNATIVE FOR CENTRAL AMERICA

Mr. CRANSTON. Mr. President, I recently joined with several Democratic Members of the House of Representatives including Congressmen MICHAEL BARNES, TOM HARKIN, STEPHEN SOLARZ, and GERRY STUDDS, in drafting a statement proposing a Democratic alternative to President Reagan's policies in Central America. I feel it is a well-conceived, articulate, and thoughtful proposal.

We need an alternative because the Reagan administration's policies for this region are not working. In fact President Reagan's program of increased military assistance and disregard for human rights violations is driving us further away from our goal of peace and stability for Central America. President Reagan's policies are polarizing the region, increasing the potential for violence and strife. His policies are making it harder for moderate forces to exert their influence. Continued civil strife guarantees that the economic conditions will remain poor and that the seeds of democracy will not be given a fair chance to develop.

Mr. President, we need to return to a program that encourages adherence to basic human rights, encourages negotiation among the various factions and countries, discourages increased militarization of the area, and recognizes the individual needs and distinctiveness of each country. The problems facing Central America are political, social, and economic, not military, so we should seek political, social, and economic solutions, instead of military ones.

This Democratic proposal provides the basis for members of the Democratic Party to work with Secretary of State Shultz to advance these goals.

I believe that we can achieve them. I urge my colleagues to study this proposal and to join in this effort. I ask unanimous consent that the full text of the proposal be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CENTRAL AMERICAN POLICY: A DEMOCRATIC ALTERNATIVE

We believe that the course of U.S. foreign policy in Central America should be changed. The Reagan Administration's extreme approach is fostering not peace and democracy, but increased polarization and radicalization.

Since January 1981, brutal civil wars have intensified in El Salvador and Guatemala, the threat of war between Nicaragua and Honduras has increased partly because of U.S. actions, and moderate and democratic elements have lost influence in Nicaragua and throughout the region. Neither "quiet diplomacy" with respect to human rights nor massive doses of military aid have accomplished their intended purpose.

The ability to make a free and open choice of political allegiance is the essence of domocracy, but it is becoming less and less possible to make such a choice in Central America. Those seeking to rule by coercion rather than consent reside on both extremes of the region's political spectrum. These extremes are not opponents, but rather allies; they gather strength from each other, and they must equally be opposed.

Unfortunately, the Reagan Administration has chosen a policy which lends confi-

dence to the terrorist right; which motivates and strengthen the terrorist left; which contributes in doing so to further violence; and which has provided nothing but bitter discouragement for those genuinely committed to peace and democracy in the region.

After two years and hundreds of millions of dollars of aid, the United States is further than ever from achieving its goals in El Salvador. Although the elections last March confirmed the deep desire of the Salvadoran people for participatory democracy, the electoral initiative was too narrowly based to move El Salvador toward national reconciliation. Rather, it weakened those advocating a moderate course, and left competition for power in the hands of brutal and historically undemocratic military cliques. The Reagan Administration has failed dismally to demonstrate strength or seriousness of purpose in pushing for economic reforms and respect for human rights in El Salvador, and has explicitly opposed a dialogue without preconditions between the government and opposition groups.

The Administration's support for covert military action against Nicaraqua has produced a propaganda bonanza for the radical left, an excuse for a military build-up by Managua, and a growing threat of regional war. It has also shifted the focus of world attention from Nicaragua's errors in policy to ours, and contributed to a political atmosphere inside that country within which moderate and democratic elements may not long survice.

The Administration has persisted in viewing Honduras as a convenient staging ground for regional military initiatives rather than a fragile democracy needing insulation from the conflicts engulfing its neighbors. The result is an increasingly divided and fearful country, unable to derive internal confidence from its recent transition to civilian democratic rule.

Only the opposition of the American people, and in their behalf, the Congress, has prevented the investment of U.S. arms, aid and prestige on the side of the Guatemalan military's war against the Indian population of that country. In Guatemala, as elsewhere, quiet diplomacy with respect to human rights has failed. The Administration has responded to reports of human rights violations committed by the Guatemalan military, not by condemning the violations, but instead by attacking those issuing the reports.

Finally, the Administration has refused to recognize the nature and source of the tensions which threaten to destroy all of Central America. It has sought to apply a simplistic economic and political world view to a region the majority of whose inhabitants view such a perspective as indifferent to their interests and irrelevant to the modern world. One of the most explosive forces on the globe today is the frustrated desire of impoverished and disenfranchised people to obtain a decent standard of living and to have a voice in determining their own destiny. No policy which fails to address these concerns will, in the long term, adequately protect our interests or preserve our influence in Central America.

In short, because its highly ideological orientation fails to appreciate the realities of the region, the Administration is pursuing policies which increase the legitimacy and strength of armed opposition groups in El Salvador, Guatemala, and possibly in the future—Honduras. Additionally, they encourage the further evolution of Nicaraguan politics in a direction inimical to our interests, further identify the United States with forces tied closely to the discredited Somoza regime and diminish prospects for pluralism and democratic rule.

We believe that the influence and the available resources of the United States can be used to further our interests far more effectively in Central America in the future. Accordingly, we now propose an alternative U.S. foreign policy toward Central America. The goals of that policy are (a) to make a contribution to the peaceful resolution of political and military conflicts both between and within the states of the region; (b) to foster economic progress in the short term and to facilitate long-term improvement in the living conditions of the area's poor, and (c) to support and advance human rights and democratic institutions in the region.

Specifically:

1. We urge the Administration to join with Mexico and Venezuela in encouraging the prompt initiation of discussions between and among our own government and the governments of Honduras, Nicaragua and El Salvador for the purpose of ending all acts of subversion and aggression and achieving a just and lasting peace in the region.

2. We urge the Administration to lend its full support to negotiations without preconditions, aimed at resolving peacefully the internal political disputes presently existing between the populations and the governments of El Salvador and Guatemala. Additionally, we believe that an effort to reconcile Nicaraguan opposition groups, including democratic exile groups, with the government of that country through a negotiating process or other mutually acceptable means should be strongly encouraged. In each of these countries our purpose should be to facilitate the creation of an open democratic electoral process and genuine political pluralism;

3. The U.S. should cease assisting covert military activities directed at Nicaragua. Any accusations concerning Nicaragua's alleged support for subversive activities in El Salvador, Costa Rica, or Honduras, should—if private discussions fail to resolve the matter—be made public and brought promptly to the attention of the United Nations or the Organization of American States.

4. We reiterate our belief that respect for internationally recognized human rights, including the rights of indigenous peoples, should be a cornerstone of American foreign policy, both in Central America and around the globe. The foreign assistance laws of the United States are clear on this point. Security assistance may not be provided to governments—such as that currently in power in Guatemala—which are engaged in a consistent pattern of gross violations of internationally recognized human rights. Nor may military aid to El Salvador continue unless a series of legal conditions are met concerning human rights, economic reforms and investigations into the cases of murdered Americans.

5. We propose a new and expanded inter-American development program, aimed at encouraging multilateral efforts in behalf of economic and agricultural self-sufficiency, and at providing emergency aid to democratic governments such as those of Costa Rica, Honduras, and the Dominican Republic. This program will be designed to build on and improve upon the Caribbean Basin Initiative of 1982, and to strengthen the U.S. commitment to improving the quality of life of the poor majorities throughout the region. In developing this proposal, we will take into account the fact that in countries where serious political and military repression exists, no amount of economic assistance will, in itself, be sufficient to produce meaningful social development or reform.

We believe the time has come to stop the killing and start the talking in Central America. We reject the view that systematic violence is inevitable or endemic to the region's culture. We have witnessed—and place great faith in—the courage, the persistence, and the wisdom of those in each of these countries who have been working for peace, democracy and social justice.

We believe that the present Secretary of State, George Shultz, is well equipped to understand the positive uses of diplomacy. We will be pleased to work with him to develop a policy toward Central America which accurately responds both to the views and the ideals of the American people, to the complexities of the region, and to the true interests of the United States. We pledge, also, our own continued interest and involvement in the debate over this issue, and we express our commitment to pursue these proposals vigorously, and to explore every available legislative and political option to see them prevail.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Saunders, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session, the Acting President pro tempore laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGE FROM THE HOUSE

At 4:31 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the House agrees to the amendment of the Senate to the amendments of the House to the bill (S. 2177) to amend title III of the Colorado River Basin Project Act, Public Law 90-537 (82 Stat. 885), as amended by Public Law 95-578 (92 Stat. 2471), and Public Law 96-375 (94 Stat. 1505).

The message also announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 6588. An act to provide for Federal recognition of the Cow Creek Band of Umpqua Tribe of Indians, to institute for such tribe those Federal services provided to Indians who are recognized by the Federal Government and who receive such services because of the Federal trust responsibility, and for other purposes; and

H.R. 7338. An act to amend the Public Health Service Act to extend through

March 31, 1983, the President's Commission for the Study of Ethical Problems in Medicine and Biomedical and Behavioral Research.

HOUSE BILL REFERRED

The following bill was read the first and second times by unanimous consent, and referred as indicated:

H.R. 6588. An act to provide for Federal recognition of the Cow Creek Band of Umpqua Tribe of Indians, to institute for such tribe those Federal services provided to Indians who are recognized by the Federal Government and who receive such services because of the Federal trust responsibility, and for other purposes; to the Select Committee on Indian Affairs.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. STAFFORD, from the Committee on Environment and Public Works, with amendments:

S. 3043. A bill to authorize appropriations for the construction of certain highways in accordance with title 23 of the United States Code, and for other purposes (Rept. No. 97-676).

By Mr. MATHIAS, from the Committee on Rules and Administration, without amendment:

S. Res. 508. An original resolution relating to the purchase of calendars (Rept. No. 97-678).

S. Res. 512. An original resolution to repeal rule XXXVI of the Standing Rules of the Senate (Rept. No. 97-679).

By Mr. DOLE, from the Committee on Finance, with an amendment in the nature of a substitute:

H.R. 6211. A bill to authorize appropriations for construction of certain highways in accordance with title 23, United States Code, for highway safety, for mass transportation in urban and rural areas, and for other purposes.

By Mr. MATHIAS, from the Committee on Rules and Administration, without amendment:

H. Con. Res. 153. A concurrent resolution authorizing a bust or statue of Dr. Martin Luther King, Jr., to be placed in the Capitol. (Rept. No. 97-677).

By Mr. DOLE, from the Committee on Finance, without amendment:

S. Res. 507. An original resolution waiving section 303(a) and section 402(a) of the Congressional Budget Act of 1974 for consideration of H.R. 6211, the Surface Transportation Assistance Act of 1982, and certain amendments thereto.

By Mr. DOMENICI, from the Committee on the Budget, without recommendation without amendment:

S. Res. 507. An original resolution waiving section 303(a) and section 402(a) of the Congressional Budget Act of 1974 for consideration of H.R. 6211, the Surface Transportation Assistance Act of 1982, and certain amendments thereto.

By Mr. MATHIAS, from the Committee on Rules and Administration, without amendment:

S. Res. 509. An original resolution to pay a gratuity to Daphne Chapman and Valerie C. Quick.

S. Res. 510. An original resolution to pay a gratuity to Alpha B. Perry.

S. Res. 511. An original resolution to pay a gratuity to Christine Good.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. GARN, from the Committee on Banking, Housing, and Urban Affairs:

William Poole VII, of Rhode Island, to be a Member of the Council of Economic Advisers.

(The above nomination was reported from the Committee on Banking, Housing, and Urban Affairs with the recommendation that it be confirmed, subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

By Mr. PACKWOOD, from the Committee on Commerce, Science, and Transportation:

Mr. PACKWOOD. Mr. President, for the Committee on Commerce, Science, and Transportation, I report favorably a nomination list in the Coast Guard which was printed in the CONGRESSIONAL RECORD of November 29, 1982, and, to save the expense of reprinting on the Executive Calendar, I ask unanimous consent that these nominations lie on the Secretary's desk for the information of Senators.

The PRESIDING OFFICER. Without objection, it is so ordered.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. LONG:

S. 3089. A bill entitled the "Conrail ESOP Vesting Act of 1982"; to the Committee on Commerce, Science, and Transportation.

By Mr. HUDDLESTON (for himself and Mr. FORD):

S. 3090. A bill to amend the Foreign Trade Zones Act to exempt bicycle component parts which are not re-exported from the exemption from the customs laws otherwise available to merchandise in foreign trade zones; to the Committee on Finance.

By Mr. GRASSLEY:

S. 3091. A bill to amend the Internal Revenue Code of 1954 to encourage contributions of equipment to postsecondary vocational education programs and to allow a credit to employers for vocational education courses taught by an employee without compensation and for temporary employment of full-time vocational educational instructors; to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. DOLE:

S. Res. 507. An original resolution waiving section 303(a) and section 402(a) of the Congressional Budget Act of 1974 for consideration of H.R. 6211, the Surface Transportation Assistance Act of 1982, and certain amendments thereto; from the Committee on Finance; to the Committee on the Budget.

By Mr. MATHIAS from the Committee on Rules and Administration:

S. Res. 508. An original resolution relating to the purchase of calendars; placed on the calendar.

S. Res. 509. An original resolution to pay a gratuity to Daphne Chapman and Valerie C. Quick; placed on the calendar.

S. Res. 510. An original resolution to pay a gratuity to Alpha B. Perry; placed on the calendar.

S. Res. 511. An original resolution to pay a gratuity to Christine Good; placed on the calendar.

S. Res. 512. An original resolution to repeal Rule XXXVI of the Standing Rules of the Senate; placed on the calendar.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. LONG:

S. 3089. A bill entitled the "Conrail ESOP Vesting Act of 1982"; to the Committee on Commerce, Science, and Transportation.

ESOP VESTING ACT OF 1982

Mr. LONG. Mr. President, I am proud today to introduce the Conrail ESOP Vesting Act Act of 1982. This is a simple amendment and one which will take only a few moments to explain.

Back in 1973, when the Congress was first approached by a consortium of financially ailing railroads, we agreed that the American taxpayer had a sufficient interest in the continuation of rail service along our eastern seaboard and in the Midwest that the Federal Government should assist in keeping that essential rail service in operation. In order to do that, we established the U.S. Railway Association (USRA) to oversee the operation of what became the Government-owned Consolidated Rail Corporation (Conrail).

In the initial funding of Conrail, I suggested an amendment that was agreed to requiring that employee stock ownership be studied as a means for promoting the long-term viability of Conrail. The Regional Rail Reorganization Act of 1973 contained no requirement that Conrail establish an employee stock ownership plan (ESOP) and no ESOP was, at that time, established.

In 1978, however, Conrail required an additional $1.2 billion in funding in order to continue to maintain and upgrade its railbed and equipment. As a precondition to the USRA investing the final $345 million in Conrail, the Regional Rail Reorganization Act Amendments of 1978 required Conrail to establish an ESOP and transfer to the plan Conrail stock with a value of at least $345 million.

Initially, the employees' interest in their ESOP-held stock was to have been immediately vested. At the insistence of the Treasury Department, however, the stock's immediate vesting was subjected to two conditions which, if not met, would result in termination

of the employee stock ownership plan and defeasance of their ownership interest in Conrail.

Both of these conditions were suggested by the Treasury as a means to influence the laudable long-term purposes of this Government infusion of taxpayer funds; namely, to pursue every possible avenue to bring costs in line with revenues. Because Conrail's labor costs absorb a larger proportion of total revenues than those of other U.S. class I railroads, the Treasury proposed conditions on the vesting of employees' interests in the ESOP that were intended to motivate Conrail's employees to contribute to lower labor costs and long-term Conrail profitability.

With that commendable objective in mind, the Congress provided that the following two "benchmarks" be met before Conrail employees would be entitled to receive Conrail stock from the ESOP:

First, two consecutive quarters of positive net income; and

Second, two consecutive quarters of a freight labor cost to freight revenue ratio equal to the average such ratio for all class I railroads in 1977.

The problem, Mr. President, and the problem that this amendment is meant to address is that the objective of the amendments has been met; the Conrail employee group has made and will continue to make extraordinary efforts to reduce Conrail's labor costs. Indeed, the freight labor cost requirement has been met consistently since 1980.

However, Conrail has not met the first requirement: two consecutive quarters of positive net income. USRA's regulations measure income not on the basis of generally accepted accounting principles (GAAP) but on an Interstate Commerce Commission (ICC) basis, which requires the expensing of railbed maintenance costs. On a GAAP basis, Conrail registered three consecutive quarters of positive net income in 1981—the second, third, and fourth quarters—and two consecutive quarters in 1982—the second and third quarters.

The point, however, Mr. President, is not to belabor the issue of which type of accounting is most appropriate for Conrail's purposes. The point is that Conrail's employees have made labor cost-saving efforts far in excess of those envisioned in the legislation, yet the vesting conditions have not yet been met. There are now 30,000 fewer Conrail employees than when these conditions were established. In 1981, they agreed to wage concessions of 12 percent through 1984, a move estimated at the time to provide $200 million in labor cost savings per year. The fact that the first condition has not been met relates solely to the general economic conditions and to Conrail's revenues, not to the stated objective behind the conditions; that is, that the employees make substantial efforts to reduce labor costs and thereby contribute to putting Conrail on the road to long-term profitability.

Mr. President, the employees have done their part. They have more than kept their part of the bargain. This amendment simply insures that the real intent of the 1978 legislation is carried out by insuring that the employees ESOP interests will vest.

Indeed, Mr. President, the legislative history of the 1978 amendments anticipate that the Conrail ESOP will receive additional contributions of Conrail stock—beyond those required by the 1978 amendments—with increases in productivity. Although I do not propose at this time to offer legislation to carry out this intent—as expressed in the Commerce Committee's report accompanying the 1978 amendments—it is my hope that the employees' wage concessions and other contributions to Conrail's success will be acknowledged by insuring that the employees have an opportunity to gain an expanding ownership stake in that success.

Mr. President, I am also happy to note that on November 9, the Railway Labor Executives' Association announced that Conrail's employees voted overwhelmingly to initiate a transaction that could result in complete or substantial employee ownership of Conrail. The 1981 Northeast Rail Service Act requires the Government to sell its interest in Conrail to private investors and gives preference to sale of the Corporation as a single operating entity.

I wholeheartedly support the efforts of the employees to acquire Conrail. The employees are already essentially equity providers through their wage concessions and deferrals. Further, the employees are in the best position to assure ongoing productivity improvements and operating cost flexibility essential to the company's long-term viability. In addition to providing the continued rail service of Conrail as an operating entity, employee ownership would also help maintain the current level of employment.

It is my hope that this amendment will be agreed to. It is not only fair and equitable, it also provides protection for the employees from defeasance of their interest through no fault of their own; for example, should the entirety of Conrail be sold to outside investors.

Although this amendment is referred to the Commerce Committee, I do not expect, in the short time remaining in this session, for us to hold hearings on this issue. Nevertheless, it is my hope that this beneficial change can be agreed to as a floor amendment to another matter.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 3089

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. IN GENERAL.—Clause (ii) of section 216(f)(2)(A) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 726(a)) (relating to the employee stock ownership plan) is amended by striking the comma after the word "allocation", inserting a period in its place, and striking the remainder of such clause (ii).

SEC. 2. PLAN TO BE AMENDED.—Within 15 days of enactment, the Secretary shall require the Corporation to amend the employee stock ownership plan established pursuant to section 216(f) of the Regional Rail Reorganization Act of 1973 to reflect the amendment made by section 1 of this amendment.

SEC. 3. EFFECTIVE DATE.—The amendments made by sections 1 and 2 shall be effective upon enactment.

By Mr. HUDDLESTON (for himself and Mr. FORD):

S. 3090. A bill to amend the Foreign Trade Zones Act to exempt bicycle component parts which are not reexported from the exemption from the customs laws otherwise available to merchandise in foreign trade zones; to the Committee on Finance.

EXEMPTION OF CERTAIN BICYCLE PARTS FROM CUSTOMS LAWS

● Mr. HUDDLESTON. Mr. President, today I am introducing with Senator FORD legislation that is a companion bill to H.R. 7350, introduced by my colleague CARL PERKINS in the House.

The purpose of this legislation is to amend the Foreign Trade Zones Act to exempt bicycle component parts which are not reexported from the exemption from the customs laws otherwise available to merchandise in foreign trade zones.

The facts are that Huffy Corp. of Celina, Ohio, has applied for foreign trade subzone status at its Celina bicycle and bicycle parts manufacturing and assembly facility.

If this request is granted, it will cause irreparable damage to several domestic bicycle parts manufacturers, including Wald Manufacturing Company, Inc., in Maysville, Ky.

At a time of very high unemployment—in fact, the highest since the Depression—and at a time when foreign competitors are being subsidized and when many foreign countries are erecting barriers to American imports, the last thing we need to do is export American jobs through the granting of foreign trade subzone status.

Wald Manufacturing has been in busiuld endanger the very existence of Wald Manufacturing. That, if it occurred as a result of Government action, would be an outrage.

I sincerely hope the Commerce Department will reject this request. I

think that action is the only appropriate course of action. I know that in the past such applications have been approved with certain stipulations designed to protect domestic industries. The problem with this approach is that it is dependent on policing by undermanned customs offices—which are even now suffering further personnel reductions.

Thus, the only appropriate action would be rejection of the request.

Failing that, Congressman PERKINS and I will have no choice but to pursue our legislation.

I ask unanimous consent that my letter to Secretary Baldrige on this matter be included in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

U.S. SENATE,
Washington, D.C., November 19, 1982.

Hon. MALCOLM BALDRIGE,
Secretary of Commerce,
Washington, D.C.

DEAR MR. SECRETARY: I want to register my strong objections to the pending application to grant foreign trade subzone status to Huffy Corporation at its Celina, Ohio bicycle manufacturing and assembly facility.

To grant such status would place several domestic bicycle manufacturing facilities at a severe disadvantage with foreign manufacturers of bicycle parts. In fact, it would have a tremendously adverse impact on one of my constituents, Wald Manufacturing Company, Inc. of Maysville, Kentucky.

At a time when so many foreign countries are subsidizing their exports, and at a time when so many of them are erecting artificial barriers to the import of American goods, and especially at a time when unemployment in this country is the highest since the Depression, it makes absolutely no sense to grant such an application.

I simply cannot register my objections strongly enough.

If the administration is serious in its statements against growing protectionist sentiments, it will certainly not take actions which will, on the part of this senator, simply further encourage those sentiments.

Sincerely yours,

WALTER D. HUDDLESTON.●

By Mr. GRASSLEY:

S. 3091. A bill to amend the Internal Revenue Code of 1954 to encourage contributions of equipment to postsecondary vocational education programs and to allow a credit to employers for vocational education courses taught by an employee without compensation and for temporary employment of full-time vocational educational instructors; to the Committee on Finance.

TAX CREDIT FOR VOCATIONAL EDUCATION

● Mr. GRASSLEY. Mr. President, today I am introducing legislation which will strengthen the partnership between business and our educational institutions in providing needed job training for our work force. We are well aware our Nation is going through a time of fundamental economic change characterized by the decline of older manufacturing industries and the rapid growth of high technology and service industries. However, in the debate over how to generate economic growth and strengthen the competitiveness of U.S. industry, one critical factor needs to be more fully addressed—improving the American work force. To date, public incentives overwhelmingly favor capital and technology investments over worker training as a route to productivity. In fact, in 1981 the annual expenditure on training by American firms was $300 per worker, versus $3,300 per worker in capital investment. Even as the Nation relies primarily on increased capital investment and technological innovation for achieving productivity gains, advanced technologies and complex machines require highly skilled workers. Indeed, investment in American workers is crucial to our economic renewal. In order to get the 11.6 million currently unemployed Americans back to work, and to provide for a growing and changing work force, the Nation's public and private training programs should be encouraged at the Federal, State, and local levels.

An important key in training and retraining our work force is the community college and technical institute system across the country. Community colleges alone train over 11 million workers annually. These institutions, which offer more than 1,400 different occupational specialty and technician programs, boast a job placement rate of nearly 90 percent. Because these schools have the ability to change their course offerings and alter training programs to meet local labor needs, they have a limitless potential for assistance. They offer low-cost, high-quality training which is easily accessible to local residents. Members of the business community have a direct hand in college policymaking because the schools are intimately tied with local businesses through their administrative structure. Local industry also participates through advisory committees for each occupational program offered by the community college.

The legislation which I am introducing today would further strengthen this partnership and aid our community colleges and technical institutes in becoming even more effective. My bill would encourage the donation of equipment for vocational training and provide incentives for the exchange of knowledge between industry and faculty.

Technical programs often rely on expensive equipment which quickly becomes obsolete in this age of exploding technology. However, the need to train workers on equipment they will operate in the private sector is obvious. Much equipment in our community colleges has fallen far behind the state-of-the-art, particularly in the fields of microprocessing, computer-assisted design and manufacturing and numerical control machining. Many States, mired in budget pressures of their own, have been unable to make the commitment to meet the equipment needs of their community colleges. I know that in the State of Iowa, funds for upgrading equipment were zeroed out in last year's budget. Funding for fiscal year 1983 will not go far among the 20 colleges and technical schools in the State particulary when many individual schools have tremendous needs merely for the repair and maintenance of their old equipment. Furthermore, many colleges have found it impossible to expand into emerging fields of robotics, laser optics and other technologies where jobs exist because of the shortage of funds to initiate such programs. My legislation would offer tax incentives to industry to help underwrite the expense of modernizing training programs by donating technical equipment. Current law provides a tax deduction of the basis and one-half the unrealized appreciation—not to exceed twice basis—of equipment donated to educational institutions if used for research. My bill expands this same deduction for donated equipment used for vocational training. Although it would be a relatively small investment by the Federal Government, benefits to these institutions would be significant.

The second part of my bill encourages the lending of industry employees to educational institutions to teach vocational education courses. Community colleges are finding it increasingly more difficult to compete with private industry in attracting and maintaining qualified technical instructors. Some colleges rely on part-time instructors who are often local practitioners, however, industry needs incentives to make greater use of this tool. My bill allows a $100 corporate tax credit for every vocational training course taught by a qualified employee of that corporation, up to five courses a year per employee. These incentives would encourage industry to contribute needed technical instruction that colleges are currently unable to provide, particularly in highly specialized technologies. In addition, this legislation contains a similar tax credit for industry to create work opportunities for community college faculty members in order to upgrade their skills. A $100 tax credit would be provided for the temporary employment of a qualified vocational education instructor by a corporation, stimulating the sharing of current technology and expertise in the private sector. Although not a comprehensive approach to our national skills shortage, I feel my legislation would offer immediate assistance to one of our best delivery systems for job training. I urge my collegues to join me in cosponsoring this measure.

Mr. President, I ask unanimous consent the bill and section-by-section analysis be printed in the RECORD as follows:

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 3091

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONTRIBUTIONS OF PROPERTY USED IN VOCATIONAL EDUCATION PROGRAMS.

(a) IN GENERAL.—Subsection (e) of section 170 of the Internal Revenue Code of 1954 (relating to certain contributions of ordinary income and capital gain property) is amended by adding at the end thereof the following new paragraph:

"(5) SPECIAL RULE FOR CONTRIBUTIONS OF PROPERTY USED IN CERTAIN VOCATIONAL EDUCATION PROGRAMS.—

"(A) LIMIT OR REDUCTION.—In the case of postsecondary vocational education contribution, the reduction under paragraph (1)(A) shall be no greater than the amount determined under paragraph (3)(B).

"(B) POSTSECONDARY VOCATIONAL EDUCATION CONTRIBUTION.—For purposes of this paragraph, the term 'postsecondary vocational education contribution' means a charitable contribution of tangible personal property but only if—

"(i) such contribution is to a public community college or public technical institute (within the meaning of section 742(b) of the Higher Education Act of 1965 (20 U.S.C. 1132e-1)) or any other institution of higher education (within the meaning of section 1201(a) of such Act (20 U.S.C. 1141)),

"(ii) substantially all of the use of such property by the donee is for training students enrolled in a postsecondary vocational education program offered by the donee,

"(iii) such property is not transferred by the donee in exchange for money, other property, or services, and

"(iv) the taxpayer receives from the donee a written statement representing that the donee's use and disposition of such property will be in accordance with the provisions of clauses (ii) and (iii).

"(C) POSTSECONDARY VOCATIONAL EDUCATION PROGRAM.—For purposes of this paragraph, the term 'postsecondary vocational education program' means an organized education program which—

"(i) is a 2-year program in engineering, mathematics, or the physical or biological sciences, designed to prepare a student to work as a technician or at the semiprofessional level in engineering, scientific, or other technological fields requiring the understanding and application of basic engineering, scientific, or mathematical principles of knowledge, or

"(ii) is directly related to the preparation of individuals for paid or unpaid employment or for a career which does not require a baccalaureate or advanced degree.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to contributions made after December 31, 1982.

SECTION 2. POSTSECONDARY VOCATIONAL EDUCATION INSTRUCTION CREDIT.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1954 (relating to credits allowable against tax) is amended by inserting after section 44G the following new section:

"SEC. 44H. VOCATIONAL EDUCATION INSTRUCTION CREDIT.

"(a) IN GENERAL.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

"(1) the product of—

"(A) $100, multiplied by

"(B) the number of postsecondary vocational education courses taught by qualified teaching employees of the taxpayer during the taxable year, plus

"(2) the product of—

"(A) $100, multiplied by

"(B) the number of qualified vocational education instructors who were employed by the taxpayer during the taxable year.

"(b) LIMITATIONS.—

"(1) LIMITATION ON THE NUMBER OF COURSES TAUGHT PER EMPLOYEE.—No more than 5 postsecondary vocational education courses taught by the same qualified teaching employee may be taken into account under subsection (a)(1)(B).

"(2) LIMITATION BASED ON AMOUNT OF TAX.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the credit allowed by subsection (a) for any taxable year shall not exceed the amount of the tax imposed by this chapter for the taxable year reduced by the sum of the credits allowable for the taxable year under a section of this part having a lower number or letter designation than this section, other than the credits allowable by sections 31, 39, and 43. For purposes of the preceding sentence, the term 'tax imposed by this chapter' shall not include any tax treated as not imposed by this chapter under the last sentence of section 53(a).

"(B) Special rule for passthrough of credit.—In the case of an individual who—

"(i) owns an interest in an unincorporated trade or business,

"(ii) is a partner in a partnership,

"(iii) is a beneficiary of an estate or trust, or

"(iv) is a shareholder in an electing small business corporation (within the meaning of section 1371(b)),

the credit allowed by subsection (a) for any taxable year shall not exceed the lesser of the amount determined under subparagraph (A) for the taxable year or an amount (separately computed with respect to such person's interest in such trade or business or entity) equal to the amount of tax attributable to that portion of a person's taxable income which is allocable or apportionable to the person's interest in such trade, business, or entity.

"(c) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) POSTSECONDARY VOCATIONAL EDUCATION COURSES.—The term 'postsecondary vocational education course' means any course of instruction which—

"(A) is offered by an institution of higher education as part of an organized education program that—

"(i) is a 2-year program in engineering, mathematics, or the physical or biological sciences, designed to prepare a student to work as a technician or at the semiprofessional level in engineering, scientific, or other technological fields requiring the understanding and application of basic engineering, scientific, or mathematical principles of knowledge, or

"(ii) is directly related to the preparation of individuals for paid or unpaid employment or for a career which does not require a baccalaureate or advanced degree,

"(B) consists of a period of instruction which is at least equivalent to a course of instruction that provides 3 hours of instruction per week during an academic semester, and

"(C) has been completed before the close of the taxable year.

"(2) QUALIFIED VOCATIONAL EDUCATION INSTRUCTOR.—The term 'qualified vocational education instructor' means an individual who—

"(A) was employed by the taxpayer on a full-time basis for at least 3 months but not more than 12 months during the 2-year period ending at the close of the taxable year,

"(B) prior to such employment, taught postsecondary vocational education courses on a full-time basis at an institution of higher education,

"(C) is teaching such courses on a full-time basis at an institution of higher education at the close of such taxable year, and

"(D) is not employed by the taxpayer at the close of the taxable year.

"(3) QUALIFIED TEACHING EMPLOYEE.—The term 'qualified teaching employee' means an individual who—

"(A) taught at least one postsecondary vocational education course on a part-time basis at an institution of higher education during the taxable year,

"(B) is a full-time employee of the taxpayer for the entire taxable year,

"(C) does not receive any compensation from such institution of higher education, and

"(D) was not a qualified vocational education instructor at any time during the taxable year.

"(4) INSTITUTION OF HIGHER EDUCATION.—The term 'institution of higher education' has the meaning given such term in section 1201(a) of the Higher Education Act of 1965.

"(5) ALLOCATION.—

"(A) CONTROLLED GROUP OF CORPORATIONS.—In determining the amount of the credit under this section—

"(i) all members of the same controlled group of corporations shall be treated as a single taxpayer, and

"(ii) the credit (if any) allowable by this section to each such member with respect to any qualified teaching employee or qualified vocational education instructor shall be in proportion to the member's share of the wages paid for the taxable year to such qualified teaching employee or qualified vocational education instructor.

"(B) COMMON CONTROL.—Under regulations prescribed by the Secretary, in determining the amount of credit under this section—

"(i) all trades or businesses (whether or not incorporated) which are under common control shall be treated as a single taxpayer, and

"(ii) the credit (if any) allowable by this section to each such trade or business with respect to any qualified teaching employee or qualified vocational education instructor shall be in proportion to such trade or business's share of the wages paid for the taxable year to such qualified teaching employee or qualified vocational education instructor with respect to whom the credit is allowable.

The regulations prescribed under this subparagraph shall be based on principles similar to the principles which apply in the case of subparagraph (A).

"(C) PASSTHROUGH IN THE CASE OF SUBCHAPTER S CORPORATIONS, ETC.—Under regulations prescribed by the Secretary, rules similar to

the rules of subsections (d) and (e) of section 52 shall apply.

"(D) ALLOCATION IN THE CASE OF PARTNERSHIPS.—In the case of partnerships, the credit shall be allocated among partners under regulations prescribed by the Secretary.

"(6) CONTROLLED GROUP OF CORPORATIONS.—The term 'controlled group of corporations' has the same meaning given to such term by section 1563(a), except that—

"(A) 'more than 50 percent' shall be substituted for 'at least 80 percent' each place it appears in section 1563(a)(1), and

"(B) the determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of section 1563.".

"(7) DOUBLE BENEFIT.—Any credit allowable under this section for the taxable year with respect to any employee of the taxpayer shall be in addition to any deduction under this chapter which is allowable to the taxpayer for such taxable year with respect to compensation paid to such employee.".

(b) CONFORMING AMENDMENTS.—

(1) The table of sections for subpart A of part IV of subchapter A of chapter 1 of such Code is amended by inserting after the item relating to section 44G the following new item:

"Sec. 44H. Vocational education instruction credit.".

(2) Section 6096(b) of such Code (relating to designation of income tax payments to Presidential Election Campaign Fund) is amended by striking out "and 44G" and inserting in lieu thereof "44G, and 44H".

SEC. 3. EFFECTIVE DATE.

The amendments made by this Act shall apply to taxable years beginning after December 31, 1982.

SECTION-BY-SECTION ANALYSIS FOR S. 3091

I. Amends Sec. 170(e) of the IRS code to allow a corporation to deduct the basis and one-half unrealized appreciation (not to exceed twice basis) of equipment donated to two and four year colleges, technical institutes and universities to be used for vocational training. Current law permits the same deduction for donated equipment to higher educational institutions if the donated equipment is used only for research or research training purposes. This provision extends this beneficial tax treatment to equipment donated for vocational training as defined by the Higher Education Act of 1965.

Unlike the research equipment donation provision, this amendment eliminates the requirement that the equipment is less than two years old.

Donated property under this provision cannot be transferred in exchange for services.

This provision is effective for all contributions made after December 31, 1982.

II. Amends a subpart of Chapter I of the IRS code to allow a $100 corporate tax credit for each vocational training course taught by a qualified employee of the corporation at a college, technical school or university. A corporation may only claim a credit for 5 courses taught by an eligible employee.

III. Amends a subpart of Chapter I of the IRS code to allow corporations a $100 tax credit for their employment of any vocational education instructor from a college, technical institute or university on a temporary basis. For a corporation to claim the credit, an instructor must be employed for a minimum of three months and a maximum of one year. The corporation could not claim the credit if the instructor did not return to his previous teaching position at the educational institution.●

ADDITIONAL COSPONSORS

S. 2150

At the request of Mr. LEVIN, the name of the Senator from Maine (Mr. COHEN) was added as a cosponsor of S. 2150, a bill to amend the Social Security Act to provide that the amount of any unnegotiated social security check shall be returned to the trust fund from which the check was issued.

S. 2411

At the request of Mr. SPECTER, the name of the Senator from South Carolina (Mr. THURMOND) was added as a cosponsor of S. 2411, a bill to amend the Omnibus Crime Control and Safe Streets Act of 1968.

S. 2948

At the request of Mr. DOLE, the name of the Senator from Massachusetts (Mr. TSONGAS) was added as a cosponsor of S. 2948, a bill to promote the development of nonanimal methods of research experimentation, and testing, and to insure humane care of animals used in scientific research, experimentation, and testing.

S. 2987

At the request of Mr. ROTH, the name of the Senator from Maryland (Mr. SARBANES) was added as a cosponsor of S. 2987, a bill entitled "The Bloodmobile Act of 1982."

S. 3048

At the request of Mr. THURMOND, the names of the Senator from North Carolina (Mr. HELMS), the Senator from Wisconsin (Mr. PROXMIRE), and the Senator from Illinois (Mr. PERCY) were added as cosponsors of S. 3048, a bill to amend title 18, United States Code, to combat, deter, and punish individuals who adulterate or otherwise tamper with food, drug, cosmetic, and other products with intent to cause personal injury, death, or other harm.

SENATE JOINT RESOLUTION 265

At the request of Mr. DENTON, the name of the Senator from Georgia (Mr. NUNN) was added as a cosponsor of Senate Joint Resolution 265, a joint resolution to authorize and request the President to proclaim 1983 as the "National Year of Voluntarism."

SENATE CONCURRENT RESOLUTION 121

At the request of Mr. DOLE, the names of the Senator from Arkansas (Mr. PRYOR), the Senator from Iowa (Mr. GRASSLEY), and the Senator from Texas (Mr. BENTSEN) were added as cosponsors of Senate Concurrent Resolution 121, a concurrent resolution expressing the sense of the Congress that the United States should maintain Federal involvement in, and support for, the child nutrition programs, and for other purposes.

SENATE RESOLUTION 494

At the request of Mr. MATHIAS, the name of the Senator from Texas (Mr. TOWER) was added as a cosponsor of Senate Resolution 494, a resolution to preserve and restore the first town hall of the city of Washington, District of Columbia—the historic Rhodes Tavern.

SENATE RESOLUTON 507—ORIGINAL RESOLUTION REPORTED WAIVING CONGRESSIONAL BUDGET ACT

Mr. DOLE, from the Committee on Finance, reported the following original resolution; which was referred to the Committee on the Budget:

S. RES. 507

Resolved, That section 303(a) and section 402(a) of the Congressional Budget Act of 1974 are hereby waived with respect to consideration of H.R. 6211, the Surface Transportation Assistance Act of 1982 and the following amendments thereto:

S. 3043, the Federal-Aid Highway Improvement Act of 1982, as ordered reported by the Senate Committee on Environment and Public Works on December 8, 1982;

S. 3072, a bill to amend the Urban Mass Transportation Act of 1964, as discharged on December 3, 1982, from the Senate Committee on Banking, Housing and Urban Affairs; and

Title IV of S. 3044 with an amendment in the nature of a substitute, as ordered reported by the Senate Committee on Commerce, Science and Transportation on December 6, 1982.

SECTION 1. A waiver of section 303(a) is necessary because the bill and certain amendments thereto contain new spending authority for a fiscal year for which a first concurrent resolution on the budget has not yet been agreed to as required by the Congressional Budget Act.

SEC. 2. A waiver of section 402(a) is necessary because this legislation authorized the enactment of new budget authority which would first become available in fiscal year 1983 and such legislation was not reported before May 28, 1982, as required by the Order of May 12, 1982.

SEC. 3. Waivers of the Budget Act are necessary to permit Congressional consideration of this bill and certain amendments thereto. This legislation contains multi-year spending to provide states and others the ability to plan long-term capital programs. This proposal is being reported in response to the need for immediate rehabilitation and restoration of our nation's highways, bridges, mass transit systems, and other facilities.

SENATE RESOLUTION 508—ORIGINAL RESOLUTION REPORTED RELATING TO THE PURCHASE OF CALENDARS

Mr. MATHIAS, from the Committee on Rules and Administration, reported the following original resolution; which was placed on the calendar:

S. RES. 508

Resolved, That the Committee on Rules and Administration is authorized to expend from the contingent fund of the Senate, upon vouchers approved by the chairman of that committee, not to exceed $60,320 for the purchase of one hundred and four thou-

sand calendars. The calenders shall be distributed as prescribed by the committee.

SENATE RESOLUTION 509—ORIGINAL RESOLUTION REPORTED TO PAY A GRATUITY TO DAPHNE CHAPMAN AND VALERIE C. QUICK

Mr. MATHIAS, from the Committee on Rules and Administration, reported the following original resolution; which was placed on the calendar:

S. RES. 509

Resolved, That the Secretary of the Senate is authorized and directed to pay, from the contingent fund of the Senate, to Daphne Chapman and Valerie C. Quick, daughters of Georgia M. Chapman, an employee of the Senate at the time of her death, a sum to each equal to one-half of one year's compensation at the rate she was receiving by law at the time of her death, said sum to be considered inclusive of funeral expenses and all other allowances.

SENATE RESOLUTION 510—ORIGINAL RESOLUTION REPORTED TO PAY A GRATUITY TO ALPHA B. PERRY

Mr. MATHIAS, from the Committee on Rules and Administration, reported the following original resolution; which was placed on the calendar:

S. RES. 510

Resolved, That the Secretary of the Senate is authorized and directed to pay, from the contingent fund of the Senate, to Alpha B. Perry, widow of Leslie S. Perry, an employee of the Architect of the Capitol assigned to duty in the United States Capitol Building (Senate Wing) at the time of his death, a sum equal to six months' compensation at the rate he was receiving by law at the time of his death, said sum to be considered inclusive of funeral expenses and all other allowances.

SENATE RESOLUTION 511—ORIGINAL RESOLUTION REPORTED TO PAY A GRATUITY TO CHRISTINE GOOD

Mr. MATHIAS, from the Committee on Rules and Administration, reported the following original resolution; which was placed on the calendar:

S. RES. 511

Resolved, That the Secretary of the Senate is authorized and directed to pay, from the contingent fund of the Senate, to Christine Good, daughter of Barbara D. Lewis, an employee of the Senate at the time of her death, a sum equal to one year's compensation at the rate she was receiving by law at the time of her death, said sum to be considered inclusive of funeral expenses and all other allowances.

SENATE RESOLUTION 512—REPEALING RULE 36 OF THE STANDING RULES OF THE SENATE

Mr. MATHIAS, from the Committee on Rules and Administration, reported the following original resolution, which was placed on the calendar:

S. RES. 512

Resolved, That rule XXXVI of the Standing Rules of the Senate is repealed effective January 1, 1983.

AMENDMENTS SUBMITTED FOR PRINTING

HOUSING, COMMUNITY AND NEIGHBORHOOD DEVELOPMENT

AMENDMENT NO. 4979

(Ordered to be printed and to lie on the table.)

Mr. LUGAR (for himself, Mr. GARN, and Mr. SCHMITT) submitted an amendment intended to be proposed by them to the bill (S. 2607) to amend and extend certain Federal laws relating to housing, community and neighborhood development, and related programs, and for other purposes.

AUTHORITY FOR COMMITTEES TO MEET

SUBCOMMITTEE ON ENERGY AND MINERAL RESOURCES

Mr. STEVENS. Mr. President, I ask unanimous consent that the Subcommittee on Energy and Mineral Resources of the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on Friday, December 10, at 10 a.m., to hold a hearing to consider S. 2503, to authorize the Secretary of the Interior to consider a petition for reinstatement of a certain oil and gas lease; S. 2680, to provide for the reinstatement of U.S. oil and gas lease numbered U-26485, and U-26505; S. 2681, to provide for the reinstatement and validation of U.S. oil and gas lease numbered U-14654; and S. 2824, to provide for the reinstatement of oil and gas lease in Eddy County, N. Mex.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

FOREIGN AID FOR ISRAEL

● Mr. GARN. Mr. President, it is not often that I speak on the floor of the Senate with respect to U.S. foreign policy in the Middle East. Nonetheless, as a member of the Appropriations Committee, I do believe that it is important to express my views with respect to the issue of U.S. foreign aid to Israel and recent statements on this matter by the Government of Israel.

Let me first review briefly the broader issue of U.S. Middle East policy. The United States, under both Republican and Democratic administrations, has traditionally supported the political independence and territorial integrity of every state in the Mideast. This commitment has had special significance for Israel because of the enormous security challenges posed to that country by hostile Arab neighbors.

U.S. national security interests in the region have not lessened over the years. The United States and its allies share a common interest in preserving our access to the oil supplies of the Mideast and insuring that the Soviet Union does not establish itself as the prime military power in the region. Above all, however, we share a common interest in promoting the elusive goal of peace.

In our efforts to promote peace in the region, I think it is important for the United States to maintain its strong commitment to the security of Israel. We must not be blinded by individual incidents or personalities to our long-standing interest in the region and our commitment to the freedom of the Israeli people. Those interests and that commitment should, and do, remain. Nonetheless, the United States is not interested in pursuing a one-sided policy in the Middle East that ignores the views of the Arab countries or the aspirations of the Palestinian people. Only a balanced policy which is intended to preserve the independence and territorial integrity of the entire region will be capable of providing a foundation upon which peace can be built.

President Reagan's recent Mideast peace proposal is intended to build upon the work of the Camp David accords and provide a basis for negotiating a peace settlement between the Israelis and their Arab neighbors. The United States does not intend to impose its own vision of a final solution to the Mideast conflict on the parties involved. We recognize the need for compromise by all sides, and we encourage the initiation of negotiations which will secure agreement on these compromises. The President's plan recognizes the legitimate rights of the Palestinian people and the need to implement those rights without infringing upon the security of Israel. I support President Reagan in this difficult undertaking, and I am hopeful that in the long run the nations of the Middle East will act in their common interest to seek a just peace.

Now, with respect to the question of aid to Israel, let me state for the record that I oppose all foreign aid add-ons for Israel recommended by the Foreign Operations Appropriations Subcommittee and endorsed by the full Appropriations Committee. The Reagan administration has proposed a level of foreign aid funding for Israel which, in my opinion, best serves the national interests of the United States and demonstrates our continuing commitment to the security of Israel. The funding for fiscal year 1983, as recommended by the administration, is as follows:

[In millions of dollars]

Economic support fund (ESF)	785
Loans	(260)
Grant	(525)
Foreign military sales (FMS)	1,700
Loans	(1,200)
"Forgiven"	(500)
Totals (ESF and FMS)	2,485
Loans	(1,460)
Grant	1,025)

The Foreign Operations Subcommittee made substantial alterations in these amounts requested by the administration. The subcommittee recommended $910 million in economic assistance, an add-on of $125 million. More importantly, whereas the administration recommended a split of one-third/two-thirds between loans and grants, the position favored by the subcommittee was in support of providing the entire $910 million in the form of a grant, an add-on of $385 million in economic grant aid. With respect to security assistance, while the subcommittee retained the overall funding request of the administration, it again increased those moneys to be provided in grants, rather than loans. The subcommittee recommendation of $850 million in grant military aid represents an add-on of $350 million to the administration's request. Total add-ons by the subcommittee, therefore, equal $125 million in economic aid and $735 million in grant aid.

The following chart highlights the differences between the subcommittee recommendation and the administration's request.

[In millions of dollars]

	Fiscal year 1983 request	Fiscal year 1983, Foreign Operations	Difference
Economic support fund	785	910	125
Loans	260	0	−260
Grants	525	910	+385
Foreign military sales	1,700	1,700	0
Loans	1,200	850	−350
Forgiven	500	850	+350
Total	2,485	2,610	+125
Loans	1,460	850	−610
Grants	1,025	1,760	+735

Mr. President, I want to state for the public record that in anticipation of a vote in the Appropriations Committee concerning aid to Israel, I provided the chairman of that committee, Senator HATFIELD, with my proxy to oppose all add-ons to Israel that were recommended by the subcommittee. I had made that decision independent of any lobbying effort by the administration. As you know, the issue of aid to Israel was not put to a separate vote, thereby removing the opportunity for the committee members to be recorded on this matter.

Had it not been for Saturday's article in the Post in which the Israeli Foreign Minister, Yitzhak Shamir, was reported to have likened the administration's position on this issue to a policy of "appeasement," I might not have been prompted to make this statement today. I should like to know since when does a request of $2.485 billion in aid amount to appeasement? And I should like to know how it is that the Israeli Government feels compelled to speak to the Government of the United States in this manner? Where do Israeli officials derive their judgment in characterizing the administration's actions in opposing these add-ons as "not a legitimate exercise"?

The Government of Israel should be reminded that U.S. aid is not drawn from a bottomless pit of resources, but rather from the pockets of American taxpayers. In this matter, as in all other budget-related questions, the sensibilities of those taxpayers should not be ignored. Add-ons of this magnitude tread heavily on those sensibilities, and the recent statements by Israeli officials trend heavily upon my own.

Mr. President, no one should question the commitment of the United States to the security of Israel. We have been extremely generous in our financial support of this commitment, and I believe we shall continue to be so. President Reagan has made a responsible proposal upon which to seek peace in the Middle East, and I support him in this difficult endeavor. I do not believe, however, that the cause of peace or the future of United States-Israeli ties will be well-served by the kind of Israeli response we have recently witnessed.●

SPEECH AT THE MADRID HUMAN RIGHTS MEETING

● Mr. DOLE. Mr. President, the United States and the Soviet Union are on the brink of a critical juncture in East-West relations. Before us looms the possibility of a ruinous arms buildup or an opportunity for more cooperative relations based on those areas where our two systems—fundamentally opposed—may find room for agreement.

Last month, the Senator from Kansas and others from the Congress made an unofficial trip to Moscow to explore Soviet receptiveness to a less confrontational dialog, while meeting with and addressing the U.S.-U.S.S.R. Trade and Economic Council. Later, on November 23, 1982, in my capacity as Cochairman of the Commission on Security and Cooperation in Europe and Vice Chairman of the U.S. delegation, I spoke at a formal session of the Madrid followup meeting to the 1975 Helsinki Accords on behalf of our country. This speech was a continuation of our effort in Moscow, consonant with the attempt of this administration to reach a new understanding with the Soviet Union, one based on the same ideals of mutual security and cooperation found in the Helsinki Final Act—a pledge that was signed by this Nation, the Soviet Union, and 33 other countries concerned with bettering relations and reducing East-West tensions in Europe.

Before new understandings can be reached, however, we must make certain that provisions of the old agreements are being kept, and that a positive attitude toward correcting past violations is encountered with goodwill for the future. It is in this light, with this approach, that the speech was given, and the Senator from Kansas asks that the text be made a part of the permanent record.

The speech follows:

REMARKS BY SENATOR ROBERT DOLE: PLENARY OF THE CONFERENCE ON SECURITY AND COOPERATION IN EUROPE (CSCE) NOVEMBER 23, 1982

Mr. Chairman, today we meet in the shadow of a fallen leader; on behalf of my colleagues and the American people we represent, may I extend to the Soviet delegation our condolences on the death of President Brezhnev. To General Secretary Andropov and the Soviet delegation, I would like to convey our hope that together we might transform this moment of international uncertainty into one of opportunity.

But before going further, may I also express our appreciation to the Government of Spain for the outstanding work it has done in playing host to this meeting. I doubt whether any delegation could have anticipated that this second follow-up meeting of the Conference on Security and Cooperation in Europe would last over two years—a period of time eased considerably, I am told, by the generous hospitality and smooth organization of our Spanish hosts. As Vice-Chairman of the United States delegation, I would like to convey my gratitude.

It is both a pleasure and a challenge for me to share my thoughts on the CSCE process, along with those of my colleagues in the United States Senate. A pleasure because the very dialogue that takes place in this hall is one instrument of a peaceful world. Initiated in Helsinki, maintained in Belgrade, and now continued in Madrid, this frank exchange of views may sometimes seem to illuminate our differences more than to resolve them—but how much better it is to throw a light on matters otherwise confined to the dark rooms of suspicion or distrust.

It is a challenge as well for me to address you this afternoon, for there are issues that divide the nations represented here. And in the United States there is substantial interest, both public and congessional, that attaches to these proceedings. This reflects the American desire to enhance East-West security through arms control and to strengthen economic cooperation as much as possible. And it reflects a sentiment noted by President Ford when he signed the Final Act: "The deep devotion of the American people and government to human rights and fundamental freedoms and to the pledge this Conference has made regarding the freer movement of people, ideas and information."

To the American people, such words speak to the heart of those principles written into the charters of their freedom. They suggest a time and world where no one wields a sword and no one drags a chain. And they provide a powerful incentive to follow close-

ly, not only what you and we say here in Madrid, but what you and we do after this conference takes its place in the thick volume of modern diplomatic history.

A NATION OF NATIONS

The United States is a nation of nations, an immigrant crossroads. The ancestors of most Americans have their roots in European nations, East and West. Along with those roots goes a continuing interest in their national heritage, and in the fate of those who continue to live in the lands of their parents and grandparents. But in many of those lands, the aspirations for liberty that served as a midwife to the infant American republic, over 200 years ago, have too often been frustrated. For us to lose our interest in the liberty of others would be to disregard the guiding light of our history and heritage. And while the American people retain an undiminished faith in the Helsinki process itself, they are disaffected, perhaps to the point of disillusionment, with the lack of compliance on the part of some signatories.

Five years ago, on November 25, 1977, I had the privilege of addressing the CSCE Review Meeting in Belgrade. I expressed the opinion at that time that a direct connection existed between public perceptions of the integrity of the commitments made at Helsinki and the ability of Western governments to carry forward the process known as detente. I also stated the conviction that abridgements of human rights, in particular, could have a profound negative impact on pending prospective bilateral and multilateral agreements between East and West. Sadly, many events since then have only increased my concern. Today, in many minds and many countries, people are looking urgently for changes in the actions of many of the signatories. Nowhere is this search keener than in America.

EAST-WEST HARMONY: HOW?

I have just returned from the Soviet Union where the improvement of U.S.-Soviet trade relations was widely discussed. With several of my colleagues from Congress, I took part in the meetings of the U.S.-Soviet Business Council, where scores of international businessmen expressed their interest in renewed and closer East-West economic ties. I also met the Prime Minister Tikhonov, Acting President Kuznetsov, and many other Soviet officials who were clearly eager to find a way for us to improve relations not only in trade but in other areas as well, including arms control.

What I said in Moscow I will say here. The U.S. Congress and the American people seek to develop genuine cooperation with all the European countries, no matter what their social system. East-West harmony is a fundamental objective of American foreign policy. The opportunities to achieve that harmony can be enlarged by what we do here in Madrid, within the framework of the CSCE. Yet, how can we make progress without abiding by the Final Act's provisions? How, ask our scientists, can we engage in cooperative scientific endeavors, while Soviet scientists are prohibited from working in their fields, and while Dr. Andrei Sakharov, the world-famous physicist, remains in exile? How, ask our labor leaders, can we increase industrial cooperation when the Polish government outlaws the free trade union Solidarity? How, ask our religious leaders, can we promote expanded religious contacts when some of their co-religionists languish in labor camps and prisons?

What we have is a crisis of confidence: the American people cannot reconcile these harsh realities with the noble ideals embodied in the Final Act and espoused by its signatories. They expect us to live up to our word.

There have been some bright spots in the last seven years. Important efforts have been made by a number of Eastern signatories to resolve outstanding family reunification cases, indicating some movement to take seriously the Final Act pledge to "deal in a positive and humanitarian spirit with persons who wish to be reunited with members of their family." Similarly, travel restrictions to Eastern Bloc countries by Western citizens for family visits have been eased. In countries such as the German Democratic Republic, Hungary and Poland, steps to explore church-state relations were taken, consistent with the commitment in the Final Act to expand religious freedom. Other positive actions have been taken by Czechoslovakia, Hungary and the German Democratic Republic in the area of religious contacts and the dissemination of religious information. Progress in economic, technical and scientific cooperation has been achieved. In the security area of CSCE, confidence building measures generally have been implemented. Finally, a number of signatories have studied their own implementation records and have analyzed ways in which they can be improved.

Although much more work needs to be done in these areas, at least some concrete progress has been made. As a result, tensions have been eased and potential areas of concern have been at least somewhat lessened. These bright spots, unfortunately, are overshadowed by a dark canopy of regression.

THE PAINFUL IRONY OF POLAND

The evidence of this is both tragic and compelling. The hopeful transformation of political and social life that had begun in Poland, has been all but destroyed with the imposition of martial law, and we know that the Soviet Union has been instrumental in this. Recent actions, such as the banning of Solidarity, have done nothing to restore confidence in Polish and Soviet fidelity to their Final Act obligations. Americans and many others are, of course, most pleased with the recent release of Lech Walesa. We also look forward to a renewal of the precious dialogue that briefly warmed relations between the Government of Poland and the Polish people.

Sadly, not all the prisoners of politics have gone free. In the Soviet Union, members of the Helsinki monitoring groups—who took seriously their own countries' Helsinki pledge and their recognition in the Final Act that "institutions," organizations and individuals have a relevant and positive role" to play in fostering the aims of the accords—have suffered harsh reprisals. Thirty-eight currently imprisoned members of the Moscow, Ukrainian, Lithuanian, Georgian and Armenian groups are serving a combined total of almost 400 years in prison, labor camps, special psychiatric hospitals and internal exile. Indeed, in this very month, Americans are commemorating the sixth anniversary of the establishment of the Ukrainian and Lithuanian Helsinki groups, both of which have been particularly hard hit.

Moreover, emigration from the Soviet Union has reached its lowest point in ten years: Less than 5,000 Soviet Jews, ethnic Germans, Armenians and others are likely to be granted exit permission this year, or roughly one-twelfth of the number that received permission to leave as recently as 1979. There are also tragic cases of separation from loved ones, as illustrated by the divided family hunger strikes that took place this summer in Moscow. Furthermore, jamming of Western radio broadcasts has not ceased. No one would be surprised that these violations have severely damaged the credibility of the Soviet government in the eyes of the American people. And this factor has spilled over into other areas of negotiation including trade and arms control. For us, and for our allies, the quest for disarmament and the search for peace is inextricably interwoven with respect for human rights and fundamental freedoms. The two go hand in hand.

THE ROAD TO CREDIBILITY

Pretending that the problems we have noted do not exist will not make them disappear. On the other hand, genuine moves towards fulfilling the promises of Helsinki would provide a favorable climate for reconciliation of a wide range of differences between us. The acceptance of proposals outlined in the western package of amendments, particularly those dealing with human rights and family reunification, would be a start.

Also, the release of interned trade unionists and other political prisoners in Poland, the lifting of martial law, and the renewal of dialogue between the three major sectors of Polish society—the government, the church and Solidarity—would be highly welcome. The withdrawal of Soviet troops from Afghanistan would help further to rebuild the confidence on which true security and cooperation depends.

The United States, and especially those of us in Congress, would encourage the Soviet Union to take a series of further steps that would be viewed positively throughout the West. Among them are:

1. The easing of impediments to emigration.
2. The resolution of long-term family reunification and binational marriage cases;
3. The release of imprisoned or exiled members of the Helsinki monitoring groups, especially those with severe health problems, and a halt to the harassment of these groups;
4. A cessation of arrests of human rights, national rights and religious rights activists;
5. The restoration of direct dial telephone circuits;
6. An improvement in the availability of economic and commercial information;
7. The improvement in working conditions for journalists;
8. And a halt to jamming of Western radio broadcasts.

A REALISTIC ATTITUDE

We, of the United States, realize that the path towards the ideals of the Helsinki Final Act is strewn with obstacles. We recognize the imperfections of our own country; we acknowledge a need to improve our own behavior. We are not afraid to admit our shortcomings. For that is the catalyst of progress, the first indispensable step on the road to achievement. Various sectors of our government as well as private individuals and organizations are engaged in continuing dialogue on how to move closer to the ideals we have espoused. Like the CSCE process itself, ours is an ongoing and earnest dialogue. Although at times our words both at home and here with you take on a sharp tone, they are far better than silence.

Mr. Chairman, let me assure the delegations here that the United States will continue to work toward the harmony I de-

scribed earlier—a harmony that has proved elusive but remains essential to the interests of us all. I hope those efforts might succeed, and that I might attend the next follow-up meeting of the CSCE in an atmosphere that reflects the achievement of enhanced cooperation and indeed, of lasting security in Europe.

To that end, I challenge all of us gathered here today to seize the opportunity this moment offers for a decisive step toward enduring peace. For five days last week in Moscow, high officials of the Soviet government told me that they strongly desired a new and better relationship with us and our allies. Last night, President Reagan reaffirmed his commitment to far-reaching arms control objectives—a clear signal of our willingness, in turn, to open a new era of mutual confidence and cooperation between East and West. We can demonstrate, by concrete actions, our full good faith and our will to reach toward security and lasting freedom for all mankind.

Thank you, Mr. Chairman.●

● Mr. MURKOWSKI. Mr. President, there is no doubt in my mind that this year's Veterans Day celebration was among the most important observances in the history of the Nation.

The special ceremonies held both in Alaska and in Washington, to celebrate this important event also marked a time of healing seldom expressed by any of us. Veterans organizations in Alaska worked to put together ceremonies throughout the State which were bigger in scale than ever before in honor of the Vietnam veterans. Here in Washington, ceremonies took place throughout most of the week of November 11, including the traditional ceremony at Arlington Memorial Cemetery and the moving dedication of the Vietnam Veterans Memorial on the Mall on November 13. Hundreds of thousands of veterans and their families, including Alaskans, were in Washington for the dedication of this new memorial. Members of my staff took part in the parade and dedication ceremonies and found it to be one of the most memorable experiences of their lives.

The Vietnam veteran has been ignored and mistreated for too long. Vietnam Veterans Week represents a significant turning point in how we treat the men and women who served in the jungles of Southeast Asia. Because of these ceremonies, many Americans are now perceiving the war and those who served there in a different way. This healing process must continue. Obviously many Americans do not fully understand the Vietnam experience; why we were there, why we lost so many lives and for what purpose; and what the war can teach us about conflicts in the future. Vietnam Veterans Week has increased the understanding of the war and has given its veterans the respect and honor they deserve.

Wherever and however Veterans Day was observed, the day's programs had one common theme; they were means of paying homage to the hundreds of thousands of men and women who have sought to defend their country and have devoted their efforts to the preservation of freedom. Alaska alone lost 105 men in World War II, 9 in Korea, and 56 in Vietnam. Our State presently has over 50,000 veterans who gave of themselves so that their fellow countrymen would enjoy the liberties for which our Nation is renown worldwide.

We, as a people, have faced many conflicts since winning the War for American Independence. We have fought others, and we have fought among ourselves. But one fact remains constant: In all of the conflicts, all of the battles, all of the skirmishes in which American men and women have taken up arms, these guardians of our freedom have distinguished themselves through their bravery, conviction, and sacrifice.

It is, of course, fitting that we should honor our veterans with medals, ceremonies, parades, and other recognition, yet the Nation owes so much more to its veterans. That is why Congress, through the years, has provided pensions, medical care, education benefits, and housing assistance to help veterans and their families.

Max Cleland, a Vietnam veteran and former Administrator of the Veterans' Administration, once said that "wars do not end when the shooting stops." I think the citizens of this Nation would strongly agree. Wars live on in the lives of those who fought those wars. They live on in the lives of the survivors and dependents of those who were injured or killed. This Nation must never forget these men because veterans in Alaska and America will never forget.

Our obligation to repay the debt earned by our veterans is not over now—nor will it ever be. Thanks to these brave men and women we are able to enjoy a freedom unequaled in any other Nation in the world. We are at peace today, and our gratitude for that blessing is owed, in part, to the veterans who have made peace accessible.

As a member of the Senate Veterans' Affairs Committee for the past 2 years, I have become increasingly aware of the problems and perspectives of America's veterans, particularly those from the Vietnam era. Many veterans are concerned about Federal funding for valuable Outreach programs, for disability compensation benefits, and other important VA programs. Alaska's large Vietnam veteran population is increasingly worried about delays in research on the effects of agent orange. I recently joined with Senator STEVENS in writing to Secretary Schweiker and Administrator Nimmo about the need to get moving on agent orange research. Availability of low-interest housing loans in another serious problem. All must be addressed in a fair, efficient manner. I want to pledge that I will continue to do all I can in the Senate and the Veterans' Affairs Committee to do just that.●

DELAWAREAN WINS FIRST PLACE

● Mr. ROTH. Mr. President, I am proud to announce that one of my constituents, Benjamin D. Hoffecker of Bear, Del., recently won the milling competition in the U.S. Skill Olympics held in Wilmington, Ohio. Ben is a 1981 graduate of Delcastle Technical High School where his instructor was Sam Pantano. He is currently employed as a machinist and computer programer.

The U.S. Skill Olympics is a national level competition in trade and technical skills sponsored by the Vocational Industrial Clubs of America. The winners of the national competition will form a team representing the United States at the International Skill Olympics next August in Linz, Austria, where they will compete with other craftsmen from 15 countries.

I would like to take this opportunity to recognize Mr. Hoffecker's performance and to congratulate him and his teammates for their demonstration of excellence in the skilled trades. At a time when it is so important for the United States to meet the demands of the future marketplace with a highly skilled basic industry workforce, I commend the example set by these young competitors and wish them succcess in the international competition.●

TABLE GRAPE MARKETING ORDER AMENDMENT

(By request of Mr. BAKER, the following statement was ordered to be printed in the RECORD.)

● Mr. GOLDWATER. Mr. President, just prior to the congressional recess for the 1982 elections, Congress passed a measure, originally designated as S. 505, which requires imported table grapes to meet the same quality standards as domestic table grapes when a Federal marketing order is in effect for table grapes. The intent of this measure, to help American consumers obtain high quality food, is worthwhile.

It is imortant, however, to review the practical effect the amendment may have once it is operative. I wanted to discuss this aspect of the proposal before we acted on it, not because I oppose the measure, but because I felt it is necessary to develop a legislative history assuring that the program will not be used on a protectionist device or in an arbitrary manner. I had informed the scheduling office of my interest in S. 505 and sought to be in-

formed before it was not directly taken up. Instead, the text of S. 505 was added as an amendment to a different bill, H.R. 2035. I was not aware of this change until after the measure passed.

What I would have pointed out during our consideration of the subject is that the link between the marketing order and imported table grapes has the potential or disrupting or blocking imports of quality grapes from Mexico, injuring the important fruit and vegetable distribution industry located in southern Arizona and raising prices to consumers domestically.

The table grape amendment would put into place import regulations for table grapes from May through November because that is the period when the two Federal marketing orders for domestically grown table grapes are in force. The marketing orders affect only the table grapes from Coachella Valley and San Joaquin County, both in California.

Until now imported table grapes have not been subject by law to Federal quality standards. However, Mexican growers and U.S. importers have voluntarily put table grapes to close quality inspections before the grapes cross the border as a matter of good business practice.

More than half of all imports from Mexico that enter through the port of Nogales, Ariz., are submitted for first-hand scrutiny by U.S. Department of Agriculture inspectors, at the distributors' request at their warehouses. The expenses of these inspectors and the necessary unloading facilities associated with the inspections are borne by importers and distributors, not by the U.S. taxpayer.

In other words, Mexican table grapes are subjected to thorough inspections before being distributed to U.S. consumers. American importers and distributors do this voluntarily in order to develop and keep satisfied customers. The table grape amendment does not change this practice. Quality control inspections already take place. The great majority of inspected grapes meets the U.S. No. 1 standard.

What could be different and potentially harmful is the manner in which the new law is applied. Instead of restrictions that are solely imposed to maintain quality, the possibility exists that future orders could be drawn in a way deliberately calculated to disrupt imports and make them more expensive.

Problems can arise, for example, with the nature of the inspection. Imported grapes are shipped chilled. They should not be inspected in the warm open air because the chilled grapes collect moisture and sweat when truck doors are opened in the warm, outside air.

Also, because imported grapes are shipped from some distance away, the grapes cannot be resorted and repacked if any part of the shipment fails to meet the quality inspection. The shipment must be discarded or returned. On the other hand, domestic grapes are inspected in the field before the grapes are chilled and before they are packed for final shipment.

There is no problem of sweating in the field and shipments that might not meet the quality standard can be resorted and repacked to bring them up to standard. Therefore, I propose that a system be developed for inspecting Mexican grapes at the fields inside Mexico, just as I understand citrus pesticide controls are now checked by U.S. officers at groves within Mexico.

Further, the new measure provides opportunities for manipulating the domestic marketing orders so as to create subtle barriers against imports and free competition. For example, the method of determining the sugar content can be manipulated, or the ratio of sugar content to acidity can be stated in such a way as to disadvantage imports.

Mr. President, if the amendment is only designed to assure reasonable quality controls on an evenhanded basis between California and Mexican table grapes, then I have no problem with the measure and think it will serve a good purpose. However, I am giving notice that I will be closely monitoring the implementation of the new law. There is no record here of any unfair tactics or subsidized practices by Mexican growers. If the new program is used as a weapon to stifle fair and equal competition and to deny American consumers a choice, then I will vigorously protest the new law and seek to repeal or correct it.●

ECONOMIC DISASTER

● Mr. HUDDLESTON. Mr. President, one day the history books of this country may rank the slogan "Stay the Course" right alongside "Prosperity Is Just Around the Corner."

This week I have been talking with some officials of the United Mine Workers about the situation in Letcher County, where several major coal mines have instituted layoffs.

Because the layoffs are continuing almost daily, I do not have the certified unemployment rate—but it is certainly over 40 percent and UMWA officials tell me it has now climbed above 50 percent.

Mr. President, that is not a depression, it is a disaster.

The administration keeps telling Congress and the American people to stay the course and that recovery is coming any day now. Do not tell that to the people in Letcher County.

To quote from the Mountain Eagle:

You would have to go back to June 1932, when the Whitesburg bank closed, to find as dark a week in the economic history of the mountains.

The situtation there has naturally produced much heartache and bitterness, especially when the administration bandies about the notion that the unemployed are not really interested in working, or that their unemployment compensation should be taxed.

Listen to the Mountain Eagle:

We hear those same White House men express their belief that people drawing jobless pay are, in so many words, a bunch of worthless, shiftless bums who had rather be on the draw than working for a living. President Reagan, tell this to the men of Beth-Elkhorn and South East who were laid off from their jobs this week.

We need to be talking about a mid-course correction rather than staying the course.

I ask that two newspaper articles from the Mountain Eagle be printed in the RECORD:

The articles follow:

[From the Mountain Eagle, Dec. 2, 1982]

1,152 MORE MINERS LAID OFF

Letcher County's unemployment rate soared to more than 40 percent this week as the county's two largest mines shut down operations for at least a month, and probably longer.

More than 1,100 hourly employees—miners—were laid off by Beth-Elkhorn at Jenkins and South East at Isom.

Those miners added to the 2,156 Letcher County residents already out of work brought unemployment up to 3,256 from the total workforce of 7,811 covered by unemployment insurance.

South East said it laid off more than 600 miners and shut down operations at its eight mines because it had a stockpile of 250,000 tons of coal "on the ground"—mined but not sold. South East has two mines in Knott County and six in Letcher County. The new layoffs were in addition to 171 miners laid off a few weeks ago.

Thirty-four salaried employees will continue working at South East to keep the mines in condition for reopening when production is resumed.

South East's vice president of operations, Danny Quillen, said he has posted a notice that the miners will return to work January 30, 1983, and added that he has a "better than a 50 percent hope that we'll be back before that."

Quillen termed the present situation "terrible." He said he does not believe the 171 miners laid off earlier will be called back to work but he doesn't know for sure. He said his men are still covered by health insurance and can obtain emergency dental treatment. Many have earned vacation time coming, he added.

Beth-Elkhorn, a subsidiary of Bethlehem Steel Corp., said its layoffs were the result of cutbacks in steel production caused by the lowered demand for steel which in turn were caused by the failing national economy. Steel companies in the United States have been operating at 41 percent of capacity since last August.

The Beth-Elkhorn layoffs affected 550 miners. Beth-Elkhorn shut down operations in the entire Elkhorn division—Mines 21, 25, 26, the Jenkins plant and division shops.

Ernest Bentley, director of industrial relations for Beth-Elkhorn, said he did not know whether any salaried employees will be laid off. Some salaried workers reportedly have returned to the headquarters of the parent firm in Pennsylvania.

Bentley said the mines here are expected to resume operations in "early January" but could not say when "early" meant.

In Pennsylvania, Art Roth of Bethlehem Steel said the shutdowns had affected the company's mines in Kentucky, West Virginia and Pennsylvania. Some mines in the other states were shut down in October. Reopening will depend on the demand for steel, Roth said. Most of the firm's mines produce metallurgical coal used in steel production, although some Bethlehem coal is sold to the steam coal market for production of electricity.

At the local unemployment insurance office, a special day was scheduled for Beth-Elkhorn miners to file unemployment claims. They are to go to the Whitesburg VFW Club between 8:30 a.m. and 3 p.m.

Anita Martin, local office manager, said filing for unemployment claims has been orderly. She said her office had given South East employees a schedule for coming in to sign up for unemployment compensation payments, and some are still coming in each day. She said she hopes to have extra clerical help soon.

At the unemployment office Wednesday afternoon, those in line were mostly young men, with an occasional older worker showing up. The talk was of such things as the difficulty in paying electric bills on unemployment pay; one man remarked that his electric bill had gone from $54 to $115.

Some coal industry observers said they had heard of coal going recently for as little as $10 a ton when operators had to have money to keep their companies afloat. There were reports that some firms were undercutting others in order to sell coal already mined.

And the miners who were laid off were trying to decide what to do. One remarked that if it was spring, he'd start "clearing a new ground"—getting a place ready for a vegetable garden—but in the winter he didn't know what he'd do.

There were reports of imminent layoffs in other parts of Eastern Kentucky. Ashland Oil reportedly plans to shut down its mines in Johnson, Martin, Morgan and Elliott counties for all of January and February.

U.S. Rep. Carl D. Perkins said in Washington that he hopes Congress will begin work on a "real broadened out public works program" which could put some people back to work.

Perkins pointed out that farmers and small businesses in the mountains also are having a hard time and said he gets several letters a day asking for help on interest rates.

"It's the darndest time I've ever seen," he commented, adding that both President Reagan and the Democratic party leadership are "out in the clouds."

He was critical of the role of the country's large banks in maintaining the current high interest rates. "Chase Manhattan (a large New York bank) doesn't care a thing in the world for small people," he said.

STAYING THE COURSE ON THE ROAD TO DISASTER

This week—Nov. 24-Dec. 1, 1982—just may go down as the darkest week in Letcher County history, the week when more than a thousand coalminers lost their jobs.

Coming on top of other layoffs in recent months, this week's toll brought layoffs in this one county alone to well above 3,000 miners, and means that the official December unemployment rate locally may climb above the 50 percent mark.

More than 1,000 miners were laid off this week by just two coal companies—Beth-Elkhorn and South East—and reports indicated other companies were laying off just as many if not more throughout the mountains.

You would have to go back to June, 1982, when the Whitesburg bank closed, to find as dark a week in the economic history of the mountains.

There are about as many rumors bouncing around the hills as there are jobless miners and no one seems to know much for sure except that the mines have closed. The most hopeful reports are that the closings mostly are for a month until some time in January. Other reports are not so optimistic, and speak of a reopening next summer, or next fall.

One thing is obvious. The situation is areawide, affecting both union and non-union operations, and strip mines as well as deep mines. Everyone, union, non-union, deep-mine or strip mine, is in the same boat.

There appear to be two immediate explanations. Much Eastern Kentucky coal is metallurgical, used in the manufacture of steel. When the steel industry has prospered, so have such local coal mines as Bethlehem Steel's Beth-Elkorn operation centered at Jenkins, and the U.S. Steel Company's big operations centered at Lynch. But a dilapidated steel industry has been unable to compete with imports, and steel plant after steel plant has shut, ending their need for our coal.

Other mountain coal has gone to the many utilities which produce the electricity which keeps the nation going. But factory after factory is closed; not much mountain coal is needed to produce Japanese-made products. The utilities companies variously report anything from a three-month to a full year's supply of coal on hand.

The coal industry, by and large, has gone along mining coal on the general assumption that the nation's economic problems are but problems of the moment, and many have continued in operation and have stockpiled their coal. Mine operators have tried to keep their workforces together, their equipment repaired, and the mines in a safe operating condition, expecting that return to prosperity which has not come. Now, many coal companies have tens of thousands of tons of coal on hand with no market for it. Companies which in the not-so-distant past were selling coal for $50 a ton now are hearing offers of $10 a ton, sometimes less.

Coal booms and coal busts are no new thing, of course. This one is different, however, because it has been so sudden, and so totally unexpected. The decline of mountain mining in the 1950's and 1960's was devastating for thousands and thousands of families, and touched off a migration of hundreds of thousands of people from the mountains to Ohio, Michigan, Maryland, Texas, and to some extent all the other 45 states.

But in the 50's and 60's, hard-hit mountain families at least could leave with some expectation of finding work. Today, with the nation in a recession-turning-into-depression, where is there to go? Detroit no longer is a safe haven for mountain people.

It is a sad coincidence that this dark December week for Letcher County coal miners is also when we hear that Sen. Edward F. Kennedy will not run for President. The Kennedys have long been a living symbol of hope in troubled time. Where can the coal miner look now for hope, for leadership, for compassion?

Clearly, it does no good to look to the White House and its present occupant. What can you say about a President whose most trusted advisors recommend that the nation start taxing the unemployment checks of the jobless as a means of curing the country's economic woes? We hear those same White House men express their belief that people drawing jobless pay are, in so many words, a bunch of worthless, shiftless bums who had rather be on the draw than work for a living. President Reagan, tell this to the men of Beth-Elkhorn and South East who were laid off from their jobs this week!

We have been reading the newspapers and watching the TV news shows with some hope of seeing some indication that Washington is awakening to the nation's plight. But Reagan and his crew are hopeless, and the national Democratic party leadership is about as bad.

Unless something is done, quickly and effectively, the whole national economy is coming crashing down. As we "stay the course" with President Reagan, we follow him to disaster.●

THE ROA STORY

● Mr. NUNN. Mr. President, the nonpartisan national defense work of the Congress during all the years since World War I is being told in a dynamic manner by the Reserve Officers Association (ROA) of the United States in a monumental, 622-page book, "The ROA Story."

This four-book volume has been published by the ROA as a significant element in observing its 60th anniversary.

ROA was organized by civilian officers who served in the European war in 1917 and 1918 and held its first national convention in October 1922. The association has carried on a splendidly motivated program for the cause of national security ever since.

General of the Armies John J. Pershing, the commander of the 2-million-man American Expeditionary Force which participated in the Allied victory in World War I, gave great support to the ROA during its formative years.

In 1942, during the first month of World War II, Gen. George Marshall, the Army Chief of Staff, took time out from the burdens of his office to meet with the ROA National Council to thank them for the association's work. General Marshall said:

> I am keenly aware of the fact that without the Reserve Corps, which has had its stimulus in the Reserve Officers Association, we would have been lost in the necessities of today.

The Congress thought so well of the patriotic work of ROA during the postwar years that it granted the association a Federal charter in 1950.

Our colleagues and President pro tem, the distinguished Senator from

South Carolina (Mr. THURMOND), served as national president in 1954-55. In fact, he was ROA president when he first ran successfully for the seat he now holds. Many other Members of both Houses have, like Senator THURMOND, made substantive contributions to the cause ROA has supported.

One of my friends and fellow Georgians, Maj. Gen. Carl T. Sutherland, a postwar commander of the 81st USAR Division, was the only Georgian to be national president of the ROA. As ROA president in 1960, General Sutherland set in motion the campaign which resulted in the creation of the Minute Man Memorial Building.

Another of my fellow Georgians, John T. Carlton, was the senior writer of "The ROA Story," collaborating with John F. Slinkman, former editor of the Navy Times and of the ROA monthly magazine, the Officer.

Colonel Carlton is personally known to many Members of the Congress, whose friendship he earned through 6 years on the Senate staff and 18 years as executive director of ROA.

Colonel Carlton, a graduate of the University of Georgia in the class of 1931, left the Atlanta Journal in 1941 to serve with the U.S. Army during World War II in Alaska and Okinawa, where he was on the staff of Lt. Gen. Simon B. Buckner. General Buckner awarded him the Legion of Merit for his war service.

After the war, Colonel Carlton served 5 years as a Washington correspondent for the Miami Daily News and Atlanta Journal. In 1951 he joined the staff of Senator George Smathers of Florida as administrative assistant, and in 1955-57 he held a similar position with the late Senator Walter F. George of Georgia, who was then chairman of the Foreign Relations Committee. In 1957, he became executive director of the ROA and served with distinction in that post until 1975, longer than any other executive director in ROA's history.

For the past 3 years Colonel Carlton has given full time to research, writing, and publication of "The ROA Story." I wish to commend Colonel Carlton on his career and particularly on this work, which I wish to call to the attention of the Senate.●

THE CONNECTION BETWEEN ILLEGAL ALIENS AND UNEMPLOYMENT

● Mr. EAST. Mr. President, one way to reduce unemployment would be to remove illegal aliens from our work force. Unfortunately, the mass amnesty proposal being considered by Congress would foreclose that option and permanently give millions of jobs to foreigners here in violation of our laws. Mr. PETER RODINO, chairman of the House Committee on the Judiciary, recently said that the number of illegal aliens here may be as high as 12 million.

The American Legion is concerned about unemployment, as are all of the Members of Congress. The Legion's National Legislative News Bulletin of November 30 discusses the connection between illegal aliens and unemployment. Prof. Donald Huddle, an economist at Rice University, recently concluded that every 10 illegal aliens in our work force displace 7 American workers. Based on this information, the answer to our unemployment problem may be right before our eyes. A 5-percent cut in the bloated food stamp program would provide funds to triple the enforcement efforts of the Immigration and Naturalization Service. If Congress had the courage to send illegal aliens home, we could put millions of Americans back to work.

I ask that the American Legion's National Legislative News Bulletin, and a letter dated December 3, 1982, from Mr. E. Philip Riggin, director of the Legion's National Legislative Commission, to Members of the House of Representatives be printed in the RECORD.

The material follows:

[From the National Legislative News Bulletin, Nov. 30, 1982]

LEGION PROPOSAL WOULD PUT AMERICA BACK TO WORK

By the time this publication reaches its subscribers, Congress will already be in Washington for the purpose of completing the 97th Congress in a lame-duck session. With much to be done between November 29 and December 17, the House and Senate have allotted themselves just three weeks to adopt 10 of 13 appropriations measures, some type of new jobs program, a solution to the fiscally strapped Social Security System, an immigration reform package, a Constitutional Amendment to balance the federal budget, a peace-time GI education bill, an enterprise zone initiative, a 5 cent per gallon gasoline tax and a variety of other lesser measures still pending floor action.

Clearly, many of these issues will remain incomplete when Congress adjourns. A few of them, however, appear to be sufficiently appealing politically to ensure positive action either during the lame-duck session or early on next January and February.

Coming on the heels of an election in which unacceptably high unemployment was a major issue, Congress will be forced to consider legislation aimed at putting the nation back to work. Elsewhere in these pages articles will be found discussing the subjects of new national employment programs funded by a 5 cent per gallon gasoline tax and the threat to some selected federal employees whose jobs may be turned over to private contractors.

In the case of a new national employment program, perhaps as many as between 350 thousand and 1 million jobs might be created, depending on which program alternatives are adopted and how many billions are spent. In the case of federal employees whose jobs may be contracted out, an exemption from contracting out might save as many as 13 thousand federal jobs.

In neither case, however, will a significant dent be made in a 10.4 percent unemployment rate in which some 12 million Americans are out to work. Against this background, the projected federal budget deficit for this fiscal year, now approaching $200 billion, continues to balloon out of control.

Moreover, to its credit, the Reagan Administration has delivered on its promises to greatly reduce inflation and bring interest rates down. Unfortunately, further promises to balance the budget in the near future will go unsatisfied unless unemployment drops precipitously bringing badly needed new tax revenues into the federal coffers regardless of how much deeper non-defense programs are cut.

In the present climate, both Congress and the Administration are facing a near insoluble dilemma. There is a solution, however, and The American Legion over the last several months has been the only voice in Washington to offer it.

Recognizing that between 6 and 12 million jobs in this country are currently held by illegal aliens, the best possible short term solution is to move ahead with the politically difficult business of getting tough with both illegals and those who would hire them knowingly. By now it is a well-known fact that only about 15 percent of illegal aliens are engaged in agricultural or other pursuits deemed undesirable by Americans. This means that if the nation took immigration law enforcement seriously and if its leaders disabused themselves of any notion that amnesty for illegals was desirable public policy, jobs for unemployed Americans would open up by the millions throughout the nation.

Regular readers of this publication are well aware that reducing high unemployment and reforming the nation's immigration laws are just two different parts of the same issue. In that regard, regular readers also know that according to the Congressional Budget Office (CBO) a drop in unemployment of just 1 percent will net the Federal Government a savings of between $25-$28 billion in new revenues and unspent relief programs expenditures. This means that if 4 million unemployed Americans—far more than the number of unemployeds who might benefit from new public works employment programs currently being discussed in Congress—were able to secure the jobs held illegally by illegal aliens, the net savings to the Federal Government would range between $100 and $112 billion.

With the subject of unemployment and what to do about it on the lips of virtually every Member of Congress whether retiring in December or returning in January, it is critically important that Legionnaires insist that their respective Senators and Representatives take this matter seriously and soon. When the Administration sends its budget request for Fiscal Year 1984 to Congress in January, the VA will almost certainly be slated for more deep cuts. If these cuts are finally adopted in the absence of immigration control, it will be curious to see how Congress explains a reduction in veterans programs while offering illegals with no stake in the American way of life an economic bonanza.

THE AMERICAN LEGION,
Washington, D.C., December 3, 1982.

DEAR REPRESENTATIVE: The American Legion takes this opportunity to point out the economic and budgetary effects that will result from employment gains for American citizens if Congress strikes amnesty for illegal aliens under the provisions of H.R. 6514, The Immigration Reform and Control Act of 1982.

The Congressional Budget Office in its September 1982 publication, "The Economic and Budget Outlook: An Update," stated that a one percent increase in employment would reduce the budget deficit in fiscal 1983 by $25 billion. If only 2 million of the illegal aliens currently working in this country were replaced by unemployed Americans, the nation's unemployment rate would drop by 2 percent and the budget deficit would narrow by $50 billion. Reducing the deficit to this degree, of course, would moderate U.S. Treasury/private sector competition for lendable funds and would likely produce lower interest rates to stimulate such industries as home construction and automobile production.

Such heightened economic activity would provide at least 700,000 new jobs in construction, auto manufacturing, aircraft, steel, cement, rubber, logging, sawmills, appliances, furniture and farm machinery. Increased employment and lower deficits could be expected to beget more of the same, with interest rates continuing to fall. Falling rate will reduce the cost of carrying the trillion dollar national debt, which will further reduce the deficit and interest rates. The lower interest rates will breathe new life into the farming community and debt laden businesses, as they see their overwhelming debt service costs reduced dramatically.

All of this economic good news will have been set in motion by allowing two million or more Americans to reclaim jobs taken from them by illegal aliens. The United States need not adopt a wide open amnesty to demonstrate that it is a magnanimous and broad-shouldered nation. This country has been, is and will continue to be generous on immigration. However, we must recognize that our economic dynamo is being drained from within by an economic Trojan Horse that we allow to displace taxpaying American workers.

As always, your attention to the views of the American Legion is appreciated.

Sincerely,

E. PHILIP RIGGIN,
Director,
National Legislative Commission.●

CHARLES CARROLL OF CARROLLTON

● Mr. SARBANES. Mr. President, the people of Maryland are very fortunate to call as our own many great Americans who participated in the independence of the country and in the founding of the Republic. Among them, Charles Carroll of Carrollton was an extraordinary leader and a dedicated patriot. His statue is in the Capitol as one of the two submitted by Maryland in recognition of its most eminent citizens.

His strong loyalties to family and to religion and his vigorous scholarship based upon a classical education were qualities which he used brilliantly in support of the American Revolution. He had received a splendid education in Jesuit institutions, had studied law in the universities in France and in England, and was a scholar of some of the world's greatest thinkers—Hume, Locke, Voltaire, and particularly Montesquieu, the father of the separation of powers principle which is so firmly embedded in our Constitution. Above all, Charles Carroll a devout Catholic steadfast in his own religious beliefs, was a strong believer in religious freedom.

Charles Carroll helped to prepare the first draft of the Maryland Declaration of Rights and Constitution, and he was active in preparing a draft of the Maryland Declaration of Independence. The principles outlined there a few years prior to the U.S. Declaration of Independence bear a striking resemblance to what Jefferson later set forth in that document in 1776. Charles Carroll was also an astute businessman and was a member of the Potomac Co., its successor, the Chesapeake & Ohio Canal Co., and was on the first board of directors of the Baltimore & Ohio Railroad, whose cornerstone he helped lay in 1828.

Mr. President, I arranged a ceremony in the Capitol on November 30, to pay tribute to Charles Carroll of Carrollton and to mark the 150th anniversary of the death—November 14, 1832—of this great patriot and the first Federal Senator from Maryland. A meeting was held at which a number of statements about Charles Carroll were made, including the principal address by Father Thomas Hanley, and a wreath was then placed at the Charles Carroll statue. Among the many distinguished persons present were the Most Reverend William Donald Borders, Archbishop of Baltimore; Rev. Thomas O'Brien Hanley, S.J., of Loyola College; Rev. James David Ford, Chaplain of the House of Representatives; Representatives ROY DYSON, MARJORIE HOLT, STENY HOYER, and BEVERLY BYRON of Maryland; Judge Dudley Diggs, chairman, and Mrs. Mary Combs Barber, director, of the Maryland Heritage Committee; representatives of other historical and heritage groups; James Carroll and John Burke of the Embassy of the Republic of Ireland; Father Donahue, chancellor of the Archdiocese of Washington; the Reverend William Byron, president of the Catholic University of America; and members of the Carroll family, including Charles Carroll III, Mrs. Helen Carroll Wright, and Mrs. Mary Lee Carroll Muth. A splendid color guard was provided by the Light Infantry Company, 2d Maryland Regiment.

Mr. President, I ask my colleagues to join me in paying tribute to this great Marylander and great American patriot, Charles Carroll of Carrollton, and I ask that the address by Rev. Thomas O'Brien Hanley be inserted in the RECORD.

Mr. President, it is of special interest to note that Archbishop Borders chose for the benediction a "Prayer for Civil Authority" written by his predecessor John Carroll, the first Catholic archbishop in the United States and a cousin of Charles Carroll. I further ask that this prayer be inserted in the RECORD.

The material follows:

THOUGHTS OF THE SIGNER AND STATESMAN RECALLED: CHARLES CARROLL OF CARROLLTON (1737-1832)

(By Thomas O'Brien Hanley)

(Nov. 30, 1982, United States Capital Ceremony in Honor of the Maryland Patriot)

Charles Carroll of Carrollton is best known as the last surviving and only Catholic signer of the Declaration of Independence and the richest American at the time. I would suggest that something else would also explain the presence of this statue in the Capital: He was a persevering leader of the heoric drama that created our free nation.

At a momentous turning point in our history his public and private writings distill for posterity the spirit that moved his generation to the heights it attained. I would here only provide a taste of the nobility and idealism that sustained Charles Carroll of Carrollton and his fellow patriots.

Personal integrity and authenticity as a topic of public interest has declined, it seems, since Robert Bolt's "Man for All Seasons" but it will return. Ahead of political convictions, the power of the Founding Fathers to perservere in forging a Republic it found here, as Charles Carroll was inclined to enunciate in his old age. As a young man on the eve of his call to leadership, however, he gave a moving articulation to integrity reminiscent of Sir Thomas More, who would be the king's good servant, but God's first. Carroll desired to serve his society in public life, but God first. An unwise royal government created the dilemma.

Sir William Graves, soon to be a member of Parliament and a friend of Carroll from law study years in London, asked the Marylander why he made so much of religion. Why not conform to the Church of England and pass on to a distinguished public career that his Roman Catholicism kept him from? Carroll responded:

"Do you advise me to quit a false religion and to adopt any false belief; and this merely to honor and humor the prejudices of fools or to be on a footing with knaves? I have too much sincerity and too much pride to do either, even if filial love did not restrain me * * * I am a warm friend of toleration; I execrate the intolerating thirst of the Church of Rome, and of other Churches—for she is not singular in that designing. * * * Selfish men invented the religious tests to exclude from posts of profit and trust their weaker or more conscientious fellow subjects; thus to secure to themselves all the emoluments of government: Wharton's saying was a true as well as a witty one—[']The oaths of government were so framed as to damn one part of the nation and shame the other['] * * * If my countrymen judge me incapable of serving them in public station for believing the moon to be made of green cheese, in this respect their conduct (if not wicked) is not less absurd than my belief. * * *"

But Carroll had a vision of a better day, learned from this depressing fact of his social existence: "Were an unlimited toleration allowed and men of all sects were to converse freely with each other, their aversion from a difference of religious principles would soon wear away." A young man's foolish hope, yes, but the American Revolution would embark with a new nation in its pur-

suit. The integrity of a servant of society is a healing balm to its divisions.

On this foundation a public philosophy, which the late Walter Lippmann urged upon those serving in the role of lawmakers, would be molded by the Revolutionary generation. In the form of classical republicanism, developed in his studies at the Jesuit College of Louis the Great in Paris and at the inns of law in London, Carroll moved his fellow citizens by appeal to the most profound principles regarding the nature of the human person. His authorship of the Maryland Declaration of Independence, noted for the first time this year, calls attention to a statement of this kind by Carroll:

"To be exempted from parliamentary taxation, and to regulate their internal government and polity, the people of this colony have ever considered as their inherent and unalienable right, without the former, they can have no property; without the latter, no security for their lives and liberties. * * *

"Compelled by dire necessity, either to surrender our properties, liberties and lives, into the hands of a British king and parliament, or to use such means as will most probably secure to us and our posterity those invaluable blessings.

"We the delegates of Maryland, in Convention assembled, do declare, that the king of Great Britain has violated his compact with this people, and that they owe no allegiance to him; we have therefore thought it just and necessary to empower our deputies in Congress to join with a majority of the united colonies in declaring them free and independent states * * *."

From this statement that civil authority derived from the people Charles Carroll proceeded with a committee to draft a constitution that would serve them. The now classic checks and balance features of the Federal Constitution are foreshadowed here and philosophically justified in Carroll writings.

Charles Carroll's integrity and authenticity immediately underwent a dramatic trial. The final form of the Maryland Constitution lacked provision for religious freedom as broadly as he stated it. The draft of his committee called for the elimination of the slave trade and this was finally rejected by the Convention. His bill a few years hence providing for the manumission of slaves was defeated in the Assembly. In the war years demagogues in the House of Delegates, he believed, endangered the Republic in its infancy. His hard money policy was rejected. His father urged him to withdraw from such a fruitless endeavor. He refused. Indeed he served, fair season or foul, in the Maryland Senate from 1777 to 1800, satisfied that it was the people's decision that he not return that year; and he went to considerable trouble to serve in the First Federal Senate. What Charles Carroll of Carrollton the statesman responded to his father I will now leave with you in conclusion: for it is a message of a great American telling us today to serve our country in all seasons:

"I entirely agree with you as to the injustice of the laws; but I cannot follow your advice to withdraw: where shall I withdraw? The person who now withdraws himself from his country's service will be deemed its enemy. * * * It cannot be expected that such great revolutions should happen without much material injustice and sufferings. I have long foreseen the consequences of this unhappy civil war and therefore have so tempered my mind, that I can bear adversity with firmness; and I have gradually prepared myself against the worst events."

[Sources: Thomas O'Brien Hanley, "Charles Carroll of Carrollton: The Making of a Revolutionary Gentleman" and "Revolutionary Statesman: Charles Carroll and the War" (Loyola University Press, 3441 North Ashland Ave., Chicago, Ill. 60657; vol. 1, 1982, and vol. 2 in press, 1983, spring).]

PRAYER FOR CIVIL AUTHORITY

(Composed by Archbishop John Carroll)

* * * We pray Thee, O god of might, wisdom, and justice, through Whom authority is rightly administered, laws are enacted, and judgment decreed, assist with Thy holy spirit of counsel and fortitude the President of these United States, that his administration may be conducted in righteousness, and be eminently useful to Thy people over whom he presides: by encouraging due respect for virtue and religion; by a faithful execution of the laws in justice and mercy; and by restraining vice and immortality. Let the light of Thy divine wisdom direct the deliberations of Congress, and shine forth in all the proceedings and laws framed for our rule and government, so that they may tend to the preservation of peace, the promotion of national happiness, the increase of industry, sobriety, and useful knowledge; and may perpetuate to us the blessings of equal liberty.

We pray for his excellency, the Governor of this State, for the members of the Assembly, for all judges, magistrates, and other officers who are appointed to guard our political welfare, that they may be enabled, by Thy powerful protection, to discharge the duties of their respective stations with honesty and ability.

We recommend likewise, to Thy unbounded mercy, all our brethren and fellow-citizens throughout the United States, that they may be blessed in the knowledge and sanctified in the observance of Thy most holy law; that they may be preserved in union, and in that peace which the world cannot give; and, after enjoying the blessings of this life, be admitted which are eternal. * * *●

ORDERS FOR FRIDAY

ORDER FOR RECESS UNTIL 9:30 A.M. TOMORROW

Mr. BAKER. Mr. President, I ask unanimous consent that after the Senate completes its business today it stand in recess until 9:30 a.m. tomorrow.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR PERIOD FOR TRANSACTION OF ROUTINE MORNING BUSINESS ON TOMORROW

Mr. BAKER. Mr. President, I ask unanimous consent that after the recognition of the two leaders under the standing order on tomorrow there be a brief period for the transaction of routine morning business to extend not longer than 10 minutes in length in which Senators may speak for not more than 2 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR RECOGNITION OF SENATOR MATHIAS ON TOMORROW

Mr. STEVENS. Mr. President, I ask unanimous consent, when the Senate enters routine morning business tomorrow, that Senator MATHIAS be recognized during that period for 10 minutes, which exceeds the previous limit that the majority leader had requested.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE TOMORROW

Mr. BAKER. Mr. President, on tomorrow after the recognition of the two leaders under the standing order and the time for the transaction of routine morning business, the pending business before the Senate I believe will be the motion to waive the provisions of the Budget Act in respect to Radio Marti; is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. BAKER. I thank the Chair.

Under the order previously entered, the Senator from Nebraska will first be recognized to continue his debate under the terms and conditions expressed in the unanimous-consent request just granted.

The PRESIDING OFFICER. The Senator is correct.

Mr. BAKER. Mr. President, on tomorrow it is anticipated that in addition to the resumption of debate on the motion to waive section 402(a) of the Budget Act in respect to Radio Marti it is possible that we will turn to the consideration of the bankruptcy bill and a resumption of debate perhaps on the California utilities bill.

Mr. President, at some time tomorrow it is anticipated that the Senate will be asked to turn to the consideration of the highway bill which has now been reported by the Finance Committee and will appear on tomorrow's calendar.

Tomorrow will be a full day, and in addition to the highway bill, it is entirely possible that we will turn to the consideration of any appropriations bill, but I would especially invite the attention of Senators to the possibility that during at least part of the day tomorrow we may turn to the consideration of the defense appropriations bill, and Senators should be on notice of that possibility.

Mr. President, there may be other routine morning business to transact, and I see the assistant majority leader here. I shall yield the floor to him. But first I yield to the Senator from Ohio.

Mr. METZENBAUM. Mr. President, will the majority leader yield for a simple question?

Mr. BAKER. Yes.

Mr. METZENBAUM. Am I correct in my understanding, as we now proceed in morning business, that those of us who have concerns with other possible legislation coming up may leave the floor and need not concern ourselves?

Mr. BAKER. I would not presume to tell the Senator whether he can leave

the floor or not. Who knows what might happen, but if his question is will there be other legislative business to be considered, he can be assured that there will not be.

Mr. STEVENS. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. STEVENS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR PRINTING OF H.R. 7355, DEPARTMENT OF DEFENSE APPROPRIATIONS FOR FISCAL YEAR 1983

Mr. STEVENS. Mr. President, I ask unanimous consent that the Senate authorize printing of the House-passed Department of Defense appropriations bill for fiscal year 1983, H.R. 7355, in a form that incorporates the amendments of the Senate Committee on Appropriations.

The PRESIDING OFFICER. Is there objection?

Mr. ROBERT C. BYRD. Mr. President, reserving the right to object, and I probably will not object, but I wish to explore the word "incorporating."

Mr. STEVENS. Mr. President, I would say to my good friend that this is the procedure we used last year. The Senate has reported from the Appropriations Committee a Senate bill with provisions and amendments. The form that the bill has come to us from the House is not the same as the form that we were working on in the committee. This is to print the House bill in a form which represents only those amendments that have been recommended by the Senate Appropriations Committee. When the bill is taken up, we intend to ask that this bill be considered original text for the purpose of amendment so as to facilitate the Senate's action on the Senate version of the House bill.

Mr. ROBERT C. BYRD. In other words, do I understand the distinguished Senator to be making a request that will merely facilitate having in one package the House bill and the Senate-passed bill so that the distinction can be made between the House and the Senate version, first; second, that we are not, by using the words "incorporating" or "incorporation," that we are not automatically adopting the Senate amendments; and, third, that if the request is granted, we would pursue the matter in the usual way of calling up the Senate amendments for action by the Senate, unless unanimous consent is given that they would be agreed to en bloc?

In other words, this request is not meant to adopt the Senate amendments as of now by virtue of the request?

Mr. STEVENS. Mr. President, the answers to the Senator's questions are all in the affirmative. It is our intention to put before the Senate an amended version of the House bill showing the Senate Appropriations Committee's recommended amendments to that. The House provisions have been deleted where appropriate and the Senate amendment is printed in the normal practice in italics. The bill will be called up. When the bill is called up, attempts would be made to adopt these amendments en bloc and make them original text for the purpose of further consideration. If there is any reservation to that, of course, it will be dealt with at that time.

It is not our intention in any way to represent to the Senate that any of these amendments are adopted or that we in any fashion have changed the House bill at this time. We want it printed at this time so the Senate can see what the House bill would look like if the Senate Appropriations Committee's recommended bill is incorporated into it in the form we received it from the House and not the form that was worked out in the committee.

Mr. ROBERT C. BYRD. Mr. President, I thank the distinguished Senator for answering my questions to my satisfaction. It is my understanding that the word "incorporating" or "incorporation," whichever was used in the request, does not mean that, ipso facto, by virtue of acceding to this request, the Senate amendments will be considered as having been adopted. I think the Senator has answered that that would not be the case.

Mr. STEVENS. Mr. President, I thank the Senator for his comments. I take it, then, that there is no objection to my request that that bill in this form be printed for the use of the Senate at the appropriate time.

Mr. ROBERT C. BYRD. There is no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. STEVENS. Mr. President, is there any further business to come before the Senate?

RECESS UNTIL TOMORROW AT 9:30 A.M.

Mr. STEVENS. Mr. President, I move, in accordance with the order previously entered, that the Senate now stand in recess until 9:30 a.m. tomorrow.

The motion was agreed to; and the Senate, at 5:43 p.m., recess until Friday, December 10, 1982, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate December 9, 1982.

INTER-AMERICAN FOUNDATION

R. Richard Rubottom, of Texas, to be a Member of the Board of Directors of the Inter-American Foundation for a term expiring September 20, 1988, vice Alberto Ibarguen, term expired.

BOARD FOR INTERNATIONAL BROADCASTING

The following-named persons to be Members of the Board for International Broadcasting for terms expiring April 28, 1985:

Thomas F. Ellis, of North Carolina, vice Charles David Ablard, term expired.

Michael Novak, of the District of Columbia, vice Thomas H. Quinn, term expired.

IN THE AIR FORCE

The following officers for appointment in the U.S. Air Force to the grade of brigadier general, under the provisions of chapter 36, title 10 of the United States Code:

Col. Marcus A. Anderson, [redacted] FR, Regular Air Force.

Col. Charles W. Bartholomew, [redacted] FR, Regular Air Force.

Col. Philippe O. Bouchard, [redacted] FR, Regular Air Force.

Col. Charles P. Cabell, Jr., [redacted] FR, Regular Air Force.

Col. James S. Cassity, Jr., [redacted] FR, Regular Air Force.

Col. Larry D. Church [redacted] FR, Regular Air Force.

Col. Gaylord W. Clark, [redacted] FR, Regular Air Force.

Col. John A. Corder, [redacted] FR, Regular Air Force.

Col. Donald R. Delauter, [redacted] FR, Regular Air Force.

Col. Robert F. Durkin [redacted] FR, Regular Air Force.

Col. Anthony J. Farrington, Jr., [redacted] FR, Regular Air Force.

Col. Edsel R. Field, [redacted] FR, Regular Air Force.

DEPARTMENT OF STATE

Richard Fairbanks, of the District of Columbia, for the rank of Ambassador while serving as Special Adviser to the Secretary of State.

TABULAR MATTER INSERTED BY SENATOR McCLURE

The tabular matter referred to earlier follows:

INTERIOR SUPPORT TABLE

[In thousands of dollars; by fiscal year]

	New budget authority			President's estimates	New budget authority		Senate compared to		
	Actual 1980	Actual 1981	Enacted 1982	1983	House 1983	Senate 1983	1982	1983	House bill
TITLE I—DEPARTMENT OF THE INTERIOR									
BUREAU OF LAND MANAGEMENT									
Management of Lands and Resources									
Energy and minerals management:									
Energy onshore:									
Coal leasing	22,380	29,300	17,757	15,789	13,659	15,789	−1,968		+2,130
Oil and gas leasing	9,965	16,901	17,553	21,620	17,870	21,620	+4,067		+3,750
Geothermal leasing	1,962	2,561	2,233	2,822	2,272	2,822	+589		+550
Oil shale and tar sands leasing	500	4,523	3,616	4,541	3,641	4,081	+465	−460	+440
Subtotal, energy onshore	34,807	53,285	41,159	44,772	37,442	44,312	+3,153	−460	+6,870
Energy offshore:									
Leasing	13,453	10,521	10,682	(13,683)			−10,682		
Environmental studies	38,200	36,534	29,056	(30,267)			−29,056		
Subtotal, energy offshore	51,653	47,055	39,738				−39,738		
Nonenergy onshore:									
Mineral material sales	2,070	2,357	1,792	2,072	2,072	2,072	+280		
Mining law administration	4,310	5,247	4,457	6,559	6,559	6,559	+2,102		
Mineral leasing	2,050	2,172	1,533	1,548	1,548	1,548	+15		
Subtotal, nonenergy onshore	8,340	9,776	7,782	10,179	10,179	10,179	+2,397		
Subtotal, energy and minerals management	94,890	110,116	88,679	54,951	47,621	54,491	−34,188	−460	+6,870
Lands and realty management:									
Energy-related realty	10,986	9,714	5,514	7,316	7,316	7,316	+1,802		
Nonenergy-related realty	20,266	24,664	22,761	24,574	24,574	24,574	+1,813		
Withdrawal processing and review	3,174	3,931	4,088	3,748	3,748	3,748	−340		
Subtotal, lands and realty management	34,426	38,309	32,363	35,638	35,638	35,638	+3,275		
Renewable resources management:									
Forest management:									
Public domain	7,859	8,375	6,031	5,112	4,112	5,112	−919		+1,000
Western Oregon	1,141	1,189	2,139	939	939	939	−1,200		
Subtotal, forest management	9,000	9,564	8,170	6,051	5,051	6,051	−2,119		+1,000
Range management:									
Wild horses and burros	5,998	6,840	5,366	4,312	5,312	4,312	−1,054		−1,000
Grazing	37,360	44,955	35,620	32,269	32,269	36,069	+449	+3,800	+3,800
Subtotal, range management	43,358	51,795	40,986	36,581	37,581	40,381	−605	+3,800	+2,800
Wildlife habitat management	16,380	20,193	14,778	13,642	13,642	14,942	+164	+1,300	+1,300
Soil, water, and air management	18,189	22,073	16,932	14,772	16,772	14,772	−2,160		−2,000
Recreation management									
Natural and cultural resources	2,880	4,153	4,450	4,498	4,498	4,498	+48		
Wilderness	10,040	12,431	13,862	12,097	12,097	12,097	−1,765		
Recreation resources	7,970	7,946	5,506	5,380	6,380	5,580	+74	+200	−800
Subtotal, recreation management	20,890	24,530	23,818	21,975	22,975	22,175	−1,643	+200	−800
Fire management	8,710	9,414	62,153	9,234	9,234	9,234	−52,919

HOUSE OF REPRESENTATIVES—*Thursday, December 9, 1982*

The House met at 2 p.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

We recognize, O God, that the options in life are uncertain, and yet demands for action are made on every side. We admit that while we speak of truth and long for unity, our world offers a setting where ambiguity is the daily path, and even our motivations are blended with good and evil. Keep us, we pray, from a spirit of despair, and arm us with Your vision of a new and brighter world, that with a steadfast faith we will ever go forward to seek a world of justice and peace. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

Mr. DANNEMEYER. Mr. Speaker, pursuant to clause 1, rule I, I demand a vote on agreeing to the Chair's approval of the Journal.

The SPEAKER. The question is on the Chair's approval of the Journal.

The question was taken; and the Speaker announced that the ayes appeared to have it.

Mr. DANNEMEYER. Mr. Speaker, I object to the vote on the grounds that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 340, nays 18, not voting 75 as follows:

[Roll No. 426]

So the Journal was approved.

The result of the vote was announced as above recorded.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment bills of the House of the following titles:

H.R. 5553. An act to provide for the use and disposition of Miami Indians judgment funds in dockets 124-B and 254 before the U.S. Court of Claims, and for other purposes;

H.R. 5795. An act to provide for the use and distribution of the funds awarded to the Shawnee Tribe of Indians in dockets 64, 335, and 338 by the Indian Claims Commission and docket 64-A by the U.S. Court of Claims, and for other purposes;

H.R. 6005. An act to discontinue or amend certain requirements for agency reports to Congress; and

H.R. 6403. An act to provide for the use and distribution of funds to the Wyandot Tribe of Indians in docket 139 before the Indian Claims Commission and docket 141 before the U.S. Court of Claims, and for other purposes.

The message also announced that the Senate agrees to the amendment of the House with an amendment to a bill of the Senate of the following title:

S. 1894. An act to permit Indian tribes to enter into certain agreements for the disposition of tribal mineral resources, and for other purposes.

The message also announced that the Senate agrees to the amendments of the House with an amendment to a bill of the Senate of the following title:

S. 2177. An act to amend title III of the Colorado River Basin Project Act, Public Law 90-537 (82 Stat. 885), as amended by Public Law 95-578 (92 Stat. 2471), and Public Law 96-375 (94 Stat. 1505).

The message also announced that the Senate had passed a joint resolution of the following title in which the concurrence of the House is requested:

S.J. Res. 270. Joint resolution to designate 1983 as the "Bicentennial of Air and Space Flight."

The message also announced that the Secretary of the Senate be directed to request the House to return to the Senate the bill (H.R. 6758) entitled "An act to authorize the sale of defense articles, defense services, and unclassified defense service publications to United States companies for incorporation into end items to be sold to friendly foreign countries," including the Senate amendments thereto.

HAPPY BIRTHDAY, MR. SPEAKER

(Mr. BOLAND asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOLAND. Mr. Speaker, December 9, 1912, of course, is an historic day in the history of this Nation, but one event that took place on that date 70 years ago is an event that we can mark today.

As the dean of the Massachusetts delegation, I am obligated to inform the House that this is the birthday of the Speaker of the House of Representatives, the Honorable THOMAS P. "TIP" O'NEILL.

He is 70 years old. Millie his gracious and devoted wife, tells me he acts like a 39-year-old.

Mr. Speaker, if I had the melodious, magnificent voice of the distinguished minority leader, the gentleman from Illinois (Mr. MICHEL), I would sing "Happy Birthday."

Congratulations, Mr. Speaker.

(The Members rose and sang "Happy Birthday, Mr. Speaker.")

The SPEAKER. Despite the fact that it is against the rules of the House, the Chair wants his colleagues to know that he appreciates it. Members will proceed in order.

WHY WEREN'T THE JOINT CHIEFS' VIEWS KNOWN?

(Mr. DICKS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DICKS. Mr. Speaker, I am distressed that this administration did not disclose that a majority of the members of the Joint Chiefs of Staff recommended against proceeding with the Dense Pack basing mode for the MX missile.

The Congress has a very serious responsibility in providing needed funds for national defense. We in the Congress are not arms experts, and need the advice of military professionals in assessing the difficult options we face. The Joint Chiefs of Staff are, by law, the principal military advisers to the President—and in reality, to the Congress. Yet their corporate and individual assessments of this important issue were, curiously, not disclosed in time for the House debate on the MX missile production funding.

I am convinced that the House took the correct action when it disapproved production funding for the MX, but allowed a continued research and development effort. Chairman Vessey's disclosure only reinforces that conviction. If the Joint Chiefs' position had been known in time for the House vote, there is no doubt the margin in support of the Addabbo amendment would have been even greater than 245 to 176.

We cannot tolerate a situation in which the Joint Chiefs' input is only provided to the Congress when they are in agreement with the administration. Reform of the JCS structure, included in H.R. 6954, will help. But members of the Joint Chiefs of Staff must also face up to their responsibilities, and not wait to be asked for their opinions on critical weapons decisions before the Congress.

While Congress may not always agree with the Joint Chiefs of Staff, we should certainly have the benefit of their advice.

VIOLENCE IN IRELAND

(Mr. FOLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FOLEY. Mr. Speaker, I would like to take a moment to express my deep personal sorrow that once again an obscene act of violence has taken its grisly toll of human life in Northern Ireland. Like most Americans, I find it difficult to choose words that could adequately convey my outrage that the criminal terrorists who operate under the banner of the Irish National Liberation Army have once again desecrated the life of an island that we hold so dear. What happened in Ballykelly on December 6 was murder pure and simple and I hope with all my heart that the perpetrators of the heinous act will be brought to swift and certain justice.

Indeed the hearts of all Americans go out to the families of all those who were killed and wounded. To realize that this mindless act by murderous criminals who masquerade as nationalists has once again snuffed out the dreams and hopes of young innocent people only compounds the tragedy and makes ever more difficult the search for peace in Northern Ireland. I hope that this episode drives home to all Americans the absolute necessity to avoid the giving of any support to those who would further the deadly illusion that the gun and the bomb can bring about unity.

Mrs. FENWICK. Mr. Speaker, will the gentleman yield?

Mr. FOLEY. I yield to the gentlewoman from New Jersey.

Mrs. FENWICK. I thank the gentleman for yielding.

Mr. Speaker, I would so much like to associate myself with the remarks of the gentleman in the well. There were never truer words spoken.

Mr. FOLEY. I thank the gentlewoman from New Jersey.

SPECIAL UTILITY FUEL FUNDS AID LOW-INCOME CITIZENS

(Mr. TAUZIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TAUZIN. Mr. Speaker, throughout the country, investor-owned utility companies have embarked on an innovative program to assist low-income and elderly citizens with rising utility costs.

These utilities, through voluntary contributions from stockholder, employees, customers, and even the utilities themselves, have established special "fuel funds" which are meant to help hard-pressed citizens with their fuel bills.

These programs, most of which were started just recently, have received widespread public approval. Many other gas and electric companies are ready to begin similar programs—but there is a problem.

Federal regulators have informed the utilities that any fuel assistance given to SSI recipients would be considered income, and therefore their SSI payments would be reduced. Despite a statement from Secretary Schweiker that these programs may be restructured to avoid problems with SSI regulations, the Department of Health and Human Services has offered no suggestions to assist in "restructuring" these programs so elderly, low-income citizens can participate in the fuel assistance programs.

It may be necessary for the Congress to amend Federal law to allow the citizens in need of assistance to receive help. But we all know the time amendment of Federal law takes.

It would be much better for regulatory guidelines be offered so these worthwhile and needed fuel assistance programs could get about the business of helping people.

The spirit of volunteerism and the willingness of the American people to help their neighbors in time of need should meet with success, not bureaucratic redtape and delay.

PERMISSION FOR SUBCOMMITTEE ON ENERGY RESEARCH AND PRODUCTION AND SUBCOMMITTEE ON ENERGY DEVELOPMENT AND APPLICATIONS OF COMMITTEE ON SCIENCE AND TECHNOLOGY TO SIT TODAY DURING 5-MINUTE RULE

Mr. FLIPPO. Mr. Speaker, I ask unanimous consent that the Subcommittee on Energy Research and Production and the Subcommittee on Energy Development and Applications of the Committee on Science and Technology be permitted to sit for the purpose of taking testimony while the House is reading for amendment under the 5-minute rule on Thursday, December 9, 1982.

The SPEAKER. Is there objection to the request of the gentleman from Alabama?

There was no objection.

LAW ENFORCEMENT OFFICERS COMMENDED ON HANDLING OF WASHINGTON MONUMENT INCIDENT

(Mr. SAM B. HALL, JR., asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SAM B. HALL, JR. Mr. Speaker, I take this time to thank all of those who were involved in law enforcement yesterday at the Washington Monument. I think everything they did, from start to finish, was in order.

AFTER THE BATTLE

(Mr. DAN DANIEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAN DANIEL. Mr. Speaker, could the gentleman from Virginia have the attention of the gentleman from Washington (Mr. DICKS)?

There are those other than the IRS who come out of the woodwork after the battle is over and shoot the wounded.

HAPPY BIRTHDAY, "TIP" O'NEILL

(Mr. CONTE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CONTE. Mr. Speaker, everyone here knows that I am not a real sentimental guy, but every once in a while an occasion arises that necessitates a few words of genuine friendship and good will.

Today is one of those days, for today as my friend ED BOLAND already stated marks the 70th anniversary of the birth of our Speaker, TIP O'NEILL. TIP and his lovely wife Millie have been great friends through the years, and I wanted to take this opportunity to thank him for his leadership, and most of all, his friendship.

Like a fine wine, TIP, you get better with age. Happy birthday, and may the roads rise with you, may the wind be always at your back, and may the good Lord hold you in the hollow of His hand.

UNITED NATIONS

(Mr. COLLINS of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COLLINS of Texas. Mr. Speaker, in considering this years' appropriations for the United Nations, I had proposed an amendment to reduce the U.S. financial participation. Because our State Department does not consider this timely, and out of respect to our most capable U.N. Ambassador Jeane Kirkpatrick, I am not proposing it.

However, when you ask people in Texas if we should have more or less of the United Nations, the consensus is that we should have much less.

The total U.N. budget has risen from $1.3 billion in 1971 to where it is $3.2 billion today. The growth in the U.N. budget is astounding. In 1960 the budget was $303 million. Since 1946 our taxpayers have spent $10 billion for the United Nations.

The assessed budget of the United Nations and specialized agencies increased by 273 percent over a 10-year period. In 1972 the assessed budget was $413 million. In 1982, it has zoomed to $1,539 million.

Where is all this money going? A full three-fourths of the entire regular U.N. budget is spent for salaries and related staff costs. One of the reasons for the large growth in the U.N. budget is the escalating personnel costs and liberal fringe benefits. The 50 highest salaried positions in the U.N. system range from a high of $180,520 to a low of $114,024 for grand total compensation. The salary of the Vice President of the United States is $79,125.

Citizens working for the United Nations enjoy such liberal fringe benefits as post adjustment allowances—that can increase a salary by 75 percent and may constitute 35 percent of total compensation—dependency allowances, education grants—for children of professional staff—representation allowances, hospitality payments, contributions to the U.N. joint staff pension fund, contributions to staff insurance, home leave allowances, travel on appointments, installation allowance, removal expenses, terminal payments, and a host of other possible liberal fringe benefits.

One glaring fringe benefit is the tax equalization fund and tax reimbursement agreements. The present system has the effect of exempting American employees of international organizations from paying taxes, while appearing not to. U.S. citizens working for the United Nations are reimbursed their "tax assessment." A recent U.N. audit report estimated that this reimbursement processing costs $1 million per year. In 1981, for the United Nations and affiliated agencies, the United States paid $53 million for tax reimbursements. We are in essence spending millions of dollars a year to give the appearance that we are taxing U.S. employees to the United Nations, when in fact they are reimbursed.

Some 40 percent of the jobs in the U.N. system—17,807 out of 44,261—are in the professional category. About 60 percent of all staff are in the general service category. When you compare salaries of U.N. employees with their civil service counterparts, you find that on the average, U.N. employees' salaries are 20 percent higher. And this does not take into account all the extra fringe benefits.

In Texas we believe that the United Nations is being lavish at the taxpayers' expense. Ironically, U.S. taxpayers are footing the bill for the overly generous employee pay and benefits for a U.N. system which frequently counters U.S. positions on key international issues.

LET'S TONE DOWN THE RHETORIC

(Mr. MICHEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MICHEL. Mr. Speaker, yesterday's bizzare and ultimately tragic incident at the Washington Monument should remind us how important it is to a moderate tone in the nuclear-freeze debate.

I do not for one moment doubt the sincerity, the patriotism or the motivations of those who support a nuclear freeze.

But we are bombarded with speeches and articles and books depicting in ex-

cruciating detail the horrors of nuclear war.

This sort of rhetoric inflames. It does not inform. It terrifies. It does not clarify. It speaks to fear rather than to reason.

We in the Congress discount such rhetoric. We are used to it. But when such language is employed day after day, it cannot help but inflame those who do not have the benefit of factual information or reasoned analysis on both sides.

Let us tone down the nuclear freeze rhetoric. There is no reason to play upon the emotions of innocent people or work them into such a frenzy that they resort to desperate acts. Such exploitation is inexcusable, regardless of whether the issue is social security or nuclear defenses.

NEW RULES, BIG PROBLEMS

(Mr. WALKER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WALKER. Mr. Speaker, I have been reading the rules proposed for the 98th Congress, and have decided that it must be time for a new House office building. If that does not seem like a logical conclusion, let me explain.

Those who have had House office buildings named after them have been Speakers whose leadership tenure can best be described as legislative tyranny. The new rules go a long way toward replacing parliamentary democracy with parliamentary dictatorship. Therefore, my conclusion: A new building must be coming and we need a tyrant for whom to name it.

Let us understand how some expensive new ediface could come to be under the new rules. The House could act without a constitutional quorum being established on that legislative day because the present means for assuring that quorum, the Journal vote, will be stripped away.

The House could not refuse to go into committee to consider the measure, because the Speaker will control the process, not the individual Members. We could not undo the damage with an appropriations rider, because that right of individual Members will be gone. And, if someone wanted to propose a resolution of inquiry into the whole matter, that resolution could now be buried.

I hardly have the hart—that is spelled h-a-r-t—to tell the American people about this latest power grab, but facts are facts and rules are rules.

DOMESTIC CONTENT LEGISLATION DEPLORED

(Mr. DANNEMEYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANNEMEYER. Mr. Speaker, today the House is scheduled to take up the rule for an historic piece of legislation in the history of this country. It has been over half a century since the Congress has considered legislation designed to protect a domestic industry. This truly is an historic event, because the consideration of the legislation that is scheduled for today—and I hope it does not come up—but if it does, it presents a real demarcation between the two great parties in this country.

Over 50 years ago, when the issue last came up, a Republican President and a Republican Congress were protectionist in their philosophy. Today, the shoe is on the other foot. Today, the Democratic Party is urging a protectionist posture for our country.

Whether that is right or wrong is the function of debate, but we do not have the time in this lameduck session to consider legislation of this magnitude. I hope the leadership will exercise the prerogative of removing it from the agenda for the balance of this week and the next.

In a spirit of charity to my Democratic colleagues, I can only hope that the adoption of the domestic content bill (H.R. 5133) will do for the Democratic Party what the adoption of the Smoot-Hawley Tariff Act did for the Republican Party in 1930.

CONGRESSIONAL ACTION MAY FORCE TRADE WAR

(Mr. ROTH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROTH. Mr. Speaker, today Secretaries Baldrige, Block, Regan, Shultz, and Ambassador Brock initiate critical negotiations with their European counterparts. Our American delegation is going to make an additional, final effort to avert the impending trade war.

Mr. Speaker, I know that you and all of my colleagues feel as I do: From a trade war, we will all lose—and we will have to contend with the possibility of a deep, worldwide recession.

Trade must, however, be a two-way street. We cannot stand by and watch domestic industries suffer because of unfair foreign competition.

Exports will create jobs—and our businessmen are willing to sell overseas. It is our responsibility to assure that they will have access to those markets—and if they are barred, we must be willing to limit the importation of foreign products. We do not want to have to take that step, but we must if our trading partners leave us with no other alternative.

DOMESTIC CONTENT LEGISLATION IS NOT THE ANSWER TO AMERICA'S PROBLEMS

(Mr. DAUB asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DAUB. Mr. Speaker, our current economic situation has resulted in what I see as an unfortunate and potentially damaging action by this Congress.

I recognize that many Members are rightly concerned about the unfair actions taken by other countries that result in our products being excluded from their markets while they are allowed to prosper in ours. There is no place where this is more clearly the case than with regard to agriculture.

But the domestic content legislation sought to be considered by the House is not the answer to our problems. Secretary Block has made clear that he sees a series of retaliatory actions by other nations forthcoming if this bill becomes law. Actions that could result in serious harm to our $40 billion agricultural export market.

The Congressional Budget Office has estimated that this bill could cost 66,000 American jobs. Secretary Brock has called it the "worst threat to our own prosperity and the international trading system to be put before Congress in a decade." I urge this body to abandon this course and to work instead for fairness that will assist this country in increasing its own exports.

RULE FOR H.R. 5133, DOMESTIC CONTENT LEGISLATION, OPPOSED

(Mr. WEBER of Ohio asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WEBER of Ohio. Mr. Speaker, I come from an automotive district, and it is therefore with the greatest reluctance that I rise today to ask my colleagues to join with me in voting "no" on the rule on H.R. 5133, the domestic content bill.

This bill is going to reduce economic growth, increase inflation, and decrease jobs for U.S. workers. This bill raises the white flag of surrender over American industry, an admission of the defeat of our labor and our management by our foreign competition. This bill is job destructive, not job creative. That is not just my opinion, that is the considered judgment of the CBO based on their studies.

In fact, the Washington Post today calls this bill, "the antijobs bill."

This bill is going to raise the price of every new car sold in America by as much as $1,000, according to the Department of Commerce report. It is going to create a worldwide economic

catastrophe by triggering retaliation, leading to an international trade war.

We need to address the problem of unfair foreign competition in the automotive industry, but H.R. 5133 is the wrong way. I urge my colleagues to vote "no" on the rule.

DEMOCRATIC CAUCUS HOUSE RULES CHANGES

(Mr. LOTT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LOTT. Mr. Speaker, the Democratic caucus is once again making a mockery of its party label by proposing undemocratic House rules that would undermine majority House rule.

The new restrictions on amendments to appropriations bills would make a sow's ear out of the congressional power of the purse by depriving Members of all political persuasions of what is sometimes the only means for curbing specific Government actions;

The two-thirds signature requirement for discharging a constitutional amendment turns majority rule on its head by permitting a small minority to block consideration of changes in our Government's most basic and vital document;

Postponement of votes on the Journal and elimination of votes on consideration of bills would make it possible to go through a large portion of legislative business with the constitutionally required majority quorum not even in town. This is simply a continuation of the phantom legislating already permitted in committees by the one-third quorum and proxy voting rules;

The automatic removal of Members from committees by caucus action ignores the lessons of history which gave rise to the rule requiring election of committees members by the House rather than their arbitrary appointment and removal at the whim of a party leader or caucus. Election to and removal from a committee by the House safeguards against such abuse.

Mr. Speaker, the proposed undemocratic caucus rules should be overruled.

A TROJAN HORSE?

(Mr. COATS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COATS. Mr. Speaker, I rise this afternoon to remind my colleagues that we will be called on today to vote on domestic content legislation—a bill which purports to save or create 800,000 new jobs but which will more likely contribute to higher unemployment and an explosion of trading schizophrenia throughout the world.

There can be no question that one of our highest priorities must be the creation of new and expanded job opportunities for every American who is willing to work. Neither can there be any question that our trading partners, especially the Japanese, must recognize that the United States will not continue to tolerate barriers to our exports. International trade must be both free and fair.

Unfortunately, it is not clear that domestic content will accomplish either of these objectives. Why is it that the Congressional Budget Office has concluded that this bill would create 38,000 auto related jobs but eliminate more than 100,000 in other sectors of our economy? And why is it that such organizations as the American Soybean Association, the National Grange, and the League of Women Voters are opposed to this legislation?

What is clear is that the Congress has not taken the time to clearly understand the serious implications of this legislation. If we were to do so, we would find that domestic content is a Trojan horse whose content is good for none of us.

□ 1445

COLORADO RIVER BASIN PROJECT ACT AMENDMENTS

Mr. UDALL. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the Senate bill (S. 2177) to amend title III of the Colorado River Basin Project Act, Public Law 90-537 (82 Stat. 885), as amended by Public Law 95-578 (92 Stat. 2471), and Public Law 95-375 (94 Stat. 1505), with a Senate amendment to the House amendments thereto, and concur in the Senate amendment to the House amendments.

The Clerk read the title of the Senate bill.

The Clerk read the Senate amendment to the House amendments, as follows:

In lieu of the matter proposed to be inserted by the House engrossed amendment numbered 1, insert: *"There*

Mr. UDALL (during the reading). Mr. Speaker, I ask unanimous consent that the Senate amendment to the House amendments be considered as read and printed in the RECORD.

The SPEAKER pro tempore (Mr. FLIPPO). Is there objection to the request of the gentleman from Arizona?

Mr. CLAUSEN. Mr. Speaker, reserving the right to object, I do so for purposes of asking the gentleman from Arizona (Mr. UDALL) to explain what is involved and, more importantly, to go to an issue I am concerned about, and that being, we understand that beyond the House amendment providing for the contribution by local beneficiaries, there is actually only one technical change, and that relates to a date. Can my colleague, the gentleman from Arizona, confirm this?

Mr. UDALL. Mr. Speaker, if the gentleman will yield, let me say that the gentleman is correct.

Mr. EDGAR. Mr. Speaker, will the gentleman yield?

Mr. CLAUSEN. I am happy to yield to the gentleman from Pennsylvania.

Mr. EDGAR. Mr. Speaker, I thank the gentleman for yielding under his reservation.

I would like to ask the gentleman from Arizona (Mr. UDALL) whether the version of S. 2177 that is coming back to us now retains the so-called Ventc amendment providing for 20 percent up-front local cost sharing?

Mr. UDALL. Yes, Mr. Speaker, it does.

Mr. Speaker, if the gentleman from California will yield, I want to thank the gentleman from Pennsylvania (Mr. EDGAR) for working this out with the gentleman from Arizona, Mr. RHODES, and myself. That language that we worked out relating to the Ventc amendment is in the bill. There is no change.

Mr. EDGAR. Mr. Speaker, if the gentleman will yield further, I would like to thank the gentleman from Arizona (Mr. UDALL) and the ranking Republican member for their actions on this particular provision of the bill.

I wanted to point out to the Members that there has been much discussion of the cost-sharing provision added to this bill and whether this sets a precedent for our future actions on water policy. I think it is a very important precedent. I look at the 20 percent figure for the central Arizona project as a reasonable compromise on this issue. Twenty percent may not be a magic number, but it seems workable in this case. The true precedent is that the majority of Members of Congress are now recognizing that we must move forward to create a modern and responsible water policy, and this policy must recognize the advantages of having some form of cost-sharing that we can agree upon.

I want to compliment the gentleman from Arizona for his work on this issue, and I urge enactment of the bill.

Mr. UDALL. Mr. Speaker, will the gentleman yield?

Mr. CLAUSEN. I yield to the gentleman from Arizona to give us a further explanation.

Mr. UDALL. Mr. Speaker, S. 2177 provides cost indexing of funds authorized for construction of the distribution systems for the central Arizona project. These systems will carry CAP water from the main aqueduct system to the farmers' fields. They are a vital part of the CAP because delivery of CAP water will permit the Arizona irrigators to go off the pumps and allow our ground water aquifers to be recharged.

In the original 1968 authorization, $100 million was authorized for these

systems. Although every other part of the project was cost indexed, there was no indexing of the distribution system funds. Inflation and rising construction costs have made this amount insufficient to build the necessary systems. The cost indexing provided in this legislation will authorize the necessary funds.

The original Senate bill did not provide for any up-front local contributions. The House, pursuant to a compromise reached by Congressman RHODES, Congressman EDGAR, Congressman VENTO and myself, amended the bill to provide that non-Federal parties shall provide at least 20 percent of the total construction costs of the systems. The local farmers are prepared to do this: they have already gone to the private bond markets to obtain private financing.

Yesterday, the Senate concurred in the House amendment with an amendment. The Senate corrected a technical problem with the bill by dropping the words, "Effective October 1, 1983" from the bill. These words created an ambiguity as to the date the cost indexing takes effect. The deletion of these words makes clear that the cost-indexing dates from the date of the original authorization.

The bill before the House today is substantively identical to the bill the House passed 2 months ago. There is no disagreement over this bill and I have informed Messrs. EDGAR and VENTO that this bill contains the provision on local financing that we agreed to earlier.

Mr. RUDD. Mr. Speaker, will the gentleman yield?

Mr. CLAUSEN. I yield to the gentleman from Arizona.

Mr. RUDD. Mr. Speaker, I rise in support of this bill.

The bill corrects a legislative oversight in authorizing legislation signed into public law in 1968.

Mr. Speaker, I rise in support of the conference report on S. 2177, the Colorado River Basin Act Amendments.

This bill provides reasonable assurance that the completion of the central Arizona project, a water supply project that is vital to the survival of Arizona, will go ahead on near the planned date.

This bill corrects a legislative oversight in the authorizing legislation that was signed into Public Law in 1968. At that time, the Colorado River Basin Act authorized the construction of a canal and water distribution system to bring Colorado River water to the dry land of central and southern Arizona. This was, and is, an awesome construction project and a far-sighted plan for Arizona's future. Unfortunately, the loan program for the distribution systems which would take the water from the main canal after completion to the actual water use sites, was not indexed for inflation. In 1969, the estimated cost to construct all the takeoff lines for this project was $100 million. Now, when the first section of the main canal is scheduled for completion in the near future, it is past time to begin construction of the distribution systems to take the water when it is delivered. The estimated cost of the distribution systems now runs from $350 to $550 million.

This bill indexes the loan program for the distribution systems for inflation, and also includes a reasonable cost-sharing formula for funding by the State and local beneficiaries of this project.

It is imperative that this bill be passed and signed into law now. There is concern that unless construction begins immediately, the first delivery of Colorado River water will come to a dry area that has no means for distributing that water.

I urge my colleagues to vote for this sound, reasonable approach to funding for a badly needed water supply program.

Mr. CLAUSEN. Mr. Speaker, further reserving the right to object, I rise in support of S. 2177, a bill to provide for cost indexing for the non-Indian distribution portion of the central Arizona project. S. 2177 serves to correct a simple oversight on the part of an earlier Congress in the failure to provide for cost indexing for the original $100 million authorization. S. 2177 was brought to the Congress by a bipartisan delegation from the State of Arizona and has the support of the Reagan administration.

When this bill passed the floor of the House in September, it included an amendment with a compromise providing for cost sharing by the local beneficiaries of at least 20 percent of the cost of the non-Indian distribution system. The other body has now concurred in the House amendment and the matter is back before us for final consideration.

We understand beyond the House amendment providing for the contribution by the local beneficiaries that there is only one technical change.

I urge my colleagues to support this bill once again, and suggest that my colleague, the chairman of the Interior Committee, accept my participation in this legislative effort as a token of my appreciation for the cooperation we have enjoyed as we jointly managed the responsibilities of the House Interior Committee and, further, as a Christmas present from old "Santa Clausen."

Mr. RHODES. Will the gentleman yield?

Mr. CLAUSEN. I yield to the gentleman from Arizona.

Mr. RHODES. Mr. Speaker, I thank the gentleman for yielding.

I am very much in favor of this bill. I want to express my appreciation to my good friend and colleague, the gentleman from Arizona (Mr. UDALL,) and my equally good friend and colleague, the gentleman from California (Mr. CLAUSEN.)

This is a most important piece of legislation, and I am glad that it is about to become law.

Mr. UDALL. Mr. Speaker, if the gentleman will yield, I cannot help but note that this is probably the last time the gentleman from California, Mr. DON CLAUSEN, and the gentleman from Arizona, Mr. JOHN RHODES, and myself and others will be involved in working on a good piece of natural resource legislation for the West and for the whole country. We are going to miss both these fine gentlemen around here. I appreciate their help on this and other legislation.

GENERAL LEAVE

Mr. UDALL. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the pending legislation.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Arizona?

There was no objection.

Mr. CLAUSEN. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the initial request of the gentleman from Arizona?

There was no objection.

A motion to reconsider was laid on the table.

DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS ACT, 1983

Mr. SMITH of Iowa. Mr. Speaker, I move that the House resolve itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 6957) making appropriations for the Department of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1983, and for other purposes; and pending that motion, Mr. Speaker, I ask unanimous consent that general debate be limited to not to exceed 1 hour, the time to be equally divided and controlled by the gentleman from Illinois (Mr. O'BRIEN) and myself.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Iowa?

There was no objection.

GENERAL LEAVE

Mr. SMITH of Iowa. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the bill, H.R. 6957, and that I may be permitted to include extraneous and tabular material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Iowa?

There was no objection.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Iowa (Mr. SMITH).

The motion was agreed to.

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill, H.R. 6957, with Mr. BROWN of California in the chair.

The Clerk read the title of the bill.

By unanimous consent, the first reading of the bill was dispensed with.

The CHAIRMAN. Under the unanimous consent agreement, the gentleman from Iowa (Mr. SMITH) will be recognized for 30 minutes, and the gentleman from Illinois (Mr. O'BRIEN) will be recognized for 30 minutes.

The Chair recognizes the gentleman from Iowa (Mr. SMITH).

Mr. SMITH of Iowa. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, the total amount of new budget authority in this bill for fiscal year 1983 is $9,069,567,000. The amount recommended in the bill together with fiscal year 1982 reappropriations is $248,000 below the allocation to the Subcommittee on Commerce, Justice, and State under section 302 of the Budget Act. Also, we are $19 million below the allocation on outlays.

A total of $2,657,160,000 is provided in title I of the bill which includes the Department of Commerce and related agencies. This amount is an increase of $564,983,000 above the budget requests, but is a reduction of $26,856,060 from appropriations provided to date for fiscal year 1982. The principal reason that the amount recommended for title I is above the budget request is that the committee restored funding, at least in part, for several programs that Members were interested in, for which there were no budget requests or which were targeted for substantial reductions. These programs include the Economic Development Administration for which the bill includes $193,450,000 in new budget authority and $32,500,000 by transfer, compared with only $15,448,000 requested by the administration, and the trade adjustment assistance program in the International Trade Administration, for which the bill includes $27,500,000. The President's budget did not include any request for this program. In addition, title I of the bill provides $117,563,000 above the budget request for several programs of the National Oceanic and Atmospheric Administration, which are of vital interest to many Members, and which were not included in the President's budget or were targeted for substantial reductions. These include the Fisheries Loan Fund, Sea Grant, the polar orbiting satellite program, fisheries grants to States, and the weather stations. Also, title I of the bill includes $15,000,000 for public telecommunications facilities grants for which there was no budget request.

The bill provides a total of $3,099,523,000 in title II for the Department of Justice and related agencies. The amount recommended for the Department includes funding for several critical programs for which there were either no budget requests or for which significant reductions were proposed. The most significant of these is the juvenile justice and delinquency prevention program for which $70,000,000 is included in the bill. In addition, the bill includes $7,500,000 for the U.S. trustees program under U.S. attorneys and marshals.

The bill also includes $6,000,000 for the State and local drug grants program which was proposed for termination in the President's budget.

Title II includes $241,000,000 for the Legal Services Corporation. It is intended that the funds provided in the accompanying bill be used strictly in accordance with the terms of the authorizing legislation as approved by the House. In order to achieve that objective, the committee inserted language in the bill which would prohibit any of the funds from being spent for any purpose which is prohibited or limited by any of the provisions of H.R. 3480.

Mr. Chairman, this subcommittee was given an allocation of funds by the full Appropriations Committee. We have stayed within that allocation by reducing requests in some cases in order to have the funds we felt were needed in other instances, but we have on an overall basis stayed within our allocation.

Although each member of the subcommittee may have preferred a slightly different mix, I believe the entire subcommittee is in agreement that the proposed bill is as good as can be expected or at least that it should be supported by the House.

Mr. Chairman, further details on each item are included in the report.

In closing, I would like to thank each member of our subcommittee and the staff for their cooperation and hard work in putting this bill and report together. This has been a difficult year and I want to express my personal appreciation to every member of the subcommittee for their dedication and support.

Mr. O'BRIEN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I join the subcommittee chairman in requesting the support of the House for this appropriations bill.

We worked extremely hard to provide funding where we believe it will do the most good and to reduce it where the impact would be least damaging, and we are $248,000 below our subcommittee's allocation. We have provided funding for some programs for which there was no budget request, such as the juvenile justice and delinquency program, a typical case where we felt the need was strongly justified.

Some very tough decisions had to be made, and in many cases priorities had to be realined. Our subcommittee worked together with an unusual sense of cohesion and unity, and I commend our subcommittee chairman for his leadership.

Mr. Chairman, I would like to engage in a little exchange with the subcommittee chairman relative to an item in our bill that I think requires some explanation.

Some clarification is in order regarding certain research funds allocated to the National Bureau of Standards (NBS) under the Department of Commerce Appropriations.

In light of justified concern regarding deaths and serious injuries caused by toxic smoke and gas given off by burning building materials, the committee report on the Senate bill proposes to allocate $350,000 for further study of combustion toxicity under Bureau of Standards auspices.

Since the Bureau of Standards only recently completed a study of testing methods on the toxicity of burning building materials, and because the States are already moving ahead with programs to identify and control the most highly toxic materials, it is important that the scope and purpose of this additional Federal research be clarified. Otherwise, this further study could be misinterpreted in a way that would undermine progress already underway at the State and local levels to reduce the known serious health hazards posed by toxic fires.

Therefore, am I correct in my understanding that the position of the committee on this matter is that: First, further research by the Bureau of Standards is in no way intended to delay or discourage States or localities from developing and adopting regulations, based on existing test methods, to reduce the risks of deaths and injuries due to toxic inhalation in fires; second, the proposed research will not be confined to determining the relative role of combustion toxicity among overall fire hazards, but will include refinement of existing tests used to identify and evaluate materials likely to cause toxic fire hazards; and third, there is no intent to direct the selection by NBS of any particular organization to perform the proposed research?

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. O'BRIEN. I yield to the subcommittee chairman.

Mr. SMITH of Iowa. Mr. Chairman, I want to thank the gentleman for raising this matter, and I concur fully with his comments. That is the committee's intent, and the understanding of the gentleman is correct. I understand there may be some misunderstanding stemming from the committee report in the other body, and as the gentleman well knows, we did not participate in writing that report. I want to assure the gentleman that we intend to clear this up when we reach the conference on this bill.

□ 1500

Mr. O'BRIEN. Mr. Chairman, I yield 2 minutes to the gentleman from South Carolina (Mr. CAMPBELL).

Mr. CAMPBELL. I thank the gentleman for yielding.

Mr. Chairman, I take this opportunity to commend the chairman and the ranking member of the subcommittee for the outstanding job they have done. I have enjoyed being a member of this subcommittee.

I will not be meeting with them again next year but I want to say to the chairman and to the ranking member that my service on the Appropriations Committee and this subcommittee has been one of the most enjoyable times I have had as a Member of Congress because they are some of the finest individuals that I have ever had the opportunity to be with.

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. CAMPBELL. I am happy to yield.

Mr. SMITH of Iowa. I want to say that I very much appreciate the gentleman's comments and also appreciate the attitude the minority, including the gentleman from South Carolina, have had in trying to work out in difficult years what could be considered a sort of consensus under the circumstances.

Mr. CAMPBELL. I thank the gentleman.

Mr. O'BRIEN. Will the gentleman yield?

Mr. CAMPBELL. I yield to the gentleman.

Mr. O'BRIEN. I would say to the gentleman that the chairman and ranking minority member have believed all along that the gentleman improves the average of the committee, we are delighted to have had him with us and wish him well.

Mr. CAMPBELL. I thank the gentleman.

Mr. O'BRIEN. Mr. Chairman, I yield 2 minutes to the gentlewoman from Nebraska (Mrs. SMITH).

Mrs. SMITH of Nebraska. Mr. Chairman, I rise to support this bill. Furthermore, I wish to commend the subcommittee chairman, the gentleman from Iowa (Mr. SMITH), and all the subcommittee members for their responsiveness and for their long forbearance of my crusade to save my weather station in Valentine, Nebr. in the heart of "tornado alley."

With the gentleman from Iowa's unwavering support, the upshot was that all the weather stations were saved. And the 50 Members of the House and the 70 or more Members of the Senate who would have been directly affected by the loss of the 38 weather stations—all should be deeply grateful to the chairman and to the distinguished subcommittee.

This is a key appropriations bill, funding many, many worthwhile programs of our Government. If the subcommittee's attention to my concerns as reflecting those of my district are any indication of its attention to all other aspects of this bill, then I am sure that the subcommittee has done an extraordinary job in allocating and directing expenditures.

I am gratified to learn that the administration no longer opposes this bill. It has been a privilege to work with the subcommittee and its astute and knowledgeable staff. I hope that I may find many opportunities to support and assist them.

Thank you, Chairman SMITH; the people of Valentine will never forget what you and your subcommittee has done for them.

Mr. SMITH of Iowa. Mr. Chairman, will the gentlewoman yield?

Mrs. SMITH of Nebraska. I yield to the gentleman from Iowa.

Mr. SMITH of Iowa. I want to tell the gentlewoman that if she has not done anything else, everybody now knows where Valentine, Nebr., is located.

Mrs. SMITH of Nebraska. I thank the gentleman very much for that comment.

Mr. O'BRIEN. Mr. Chairman, I have no further requests for time.

Mr. SMITH of Iowa. Mr. Chairman, I yield 2 minutes to the gentleman from Maryland (Mr. MITCHELL).

Mr. MITCHELL of Maryland. Mr. Chairman, I rise in support of H.R. 6957, the Commerce-State-Justice appropriation bill for 1983.

Mr. Chairman, as my colleagues know, our economy at the present time is very bleak. Some 10.8 percent of the work force, or 12 million Americans, are unemployed.

The business picture is dismal and growing worse each day. As of November 25, in the first 47 weeks of this year, there were over 23,000 business bankruptcies. This compares with 10,800 bankruptcies in the first 47 weeks of 1980 and 15,800 bankruptcies in the comparable period in 1981. In fact, if the rate continues for the balance of this year, we will see more than 25,000 bankrupt firms which will be the highest number ever recorded since 1932 when almost 32,000 firms declared bankruptcy during the Depression. Even worse, these numbers do not include other tens of thousands of firms which simply cease doing business each year.

Those of us most closely associated with the small business community are aware of the employment opportunities this sector of the economy provides. Even President Reagan has cited this. For example, in an appearance before a joint session on April 28, 1981, he stated:

> Let us not overlook the fact that the small independent business man or woman creates more than 80 percent of all the new jobs and employs more than one-half of our total workforce.

Statistics clearly demonstrate that small business has the ability to get and keep this Nation employed. But to do this, there must be adequate capital available to it. The private sector simply is unwilling or unable to supply all of the necessary capital requirement of the small business community. The only remaining source is the Federal Government.

Due to our unconscionably high unemployment rate and the President's recognition of the role of small business as the Nation's job creator, one would expect the President to propose the stimulus; that is, needed capital, to the small business community. Instead, an examination of the President's budget shows just the opposite.

In 1980, the Small Business Administration provided direct loan assistance of $393 million to more than 6,700 small firms. By 1982, this had been cut to $225 million or a reduction of 43 percent.

For 1983, the administration has requested that it be slashed even further to only $41 million or a reduction of 90 percent in just 3 years.

Not only do these reductions impact broadly on the small business community but they affect the minority small business community even worse. The minority business man or woman always seems to be the last to receive assistance and the first to be cut whenever the total assistance is reduced. Under SBA's loan programs, direct and guaranteed, in fiscal year 1981 some 5,240 minority concerns received financial assistance of approximately $415 million. In fiscal year 1982, however, only 2,521 firms were assisted with financing totaling $216 million. This represents a cut of 48 percent.

Fortunately for the small business community and the Nation, the House Appropriations Committee, and particularly its Subcommittee on Commerce-State-Justice, recognized the folly of slashing assistance to small business as requested by the President. However, due to the budget reso-

lution they were unable to continue even 1982's meager level of $225 million in direct loans, but rather were able to approve only $185 million.

I must say that I never thought that I would stand here and urge support for an appropriations bill containing a level of SBA direct loans which is a reduction of over 50 percent from the level provided only 3 years ago. Decreasing SBA assistance is exactly the opposite of what we ought to be doing.

Nonetheless I do support this bill as reported, as at least it provides some financial assistance, albeit severely curtailed, to small businesses which otherwise would not be assisted at all.

I urge my colleagues to support the measure under consideration.

● Mrs. SNOWE. Mr. Chairman, I rise in strong support of the McDade amendment to the State, Justice, Commerce appropriations bill, H.R. 6957.

Recently, Commerce Department officials have embarked upon a dubious venture designed to close down the loan program of the Economic Development Administration. They have proposed to do this by selling off the EDA loan portfolio which consists of approximately 1,800 loans involving about 1,100 companies throughout the United States. The amount of money involved totals over $1 billion.

I think initiating a practice of this sort at this point in time is very questionable. Nationwide unemployment is over 11 percent. The pursuit of actions which further contribute to this sad state of affairs is, at the least, an error in judgment.

One specific instance which affects my home State of Maine comes immediately to mind. A company in my district has recently been informed that its EDA loan has been purchased by a private investor. It seems apparent that this loan purchaser has only one motive in mind: a quick return on his meager investment at the expense of the small business owner. The loan purchaser's demands for huge sums of cash in a short period of time can only be termed outrageous. If the company does comply with the investor's wishes, it will certainly put the business owner and his 50 employees out of work. If this one instance is any indication of what may occur to the entire EDA loan portfolio, it is a serious warning which we cannot afford to ignore.

The intent of Congress is clear. The Economic Development Administration was established to create jobs, not to destroy them. These loan sales, if allowed to continue, are contrary to the will of Congress. These sales must be halted.●

● Mr. MINETA. Mr. Chairman, I rise to call my colleagues' attention to one portion of H.R. 6957, the Commerce, Justice, State, and related agencies appropriations bill now before us. Included in this measure is an appropriation of $300,000 to enable the Commission on Wartime Relocation and Internment of Civilians to complete its work.

This Commission was created by Congress in 1980 to study the internment of more than 110,000 Americans by military authorities during World War II. Those of us who were interned had committed no crime other than to have Japanese or Aleutian ancestry.

The Commission has made an excellent beginning in its efforts to assist this country in coming to terms with this record of wartime abuse of individual rights. The Commission has held 20 days of hearings, and heard from more than 750 witnesses.

The Commission now faces the enormous task of compiling a comprehensive report on its findings, and making copies of that report available for the general public.

The Commission has said, however, that additional funding is needed to fully complete its task. Without such funding, the Commission will not be able to fully report on the economic losses, and damages to health and well being caused by the internment.

Moreover, the Commission will not have adequate funds to print and distribute copies of their important hearing transcripts for general study and use.

This is an important task. The lessons of the wartime evacuation and internment are not idle historic curiosities. The basic legal and public policy issues are as fundamental to our constitutional principles of civil rights and due process today as they were in 1942.

Mr. Chairman, this House acted with wisdom and strength to create this Commission. Modest funding of $1.5 million was initially authorized, but only $1 million of that was appropriated. The request today is raise the total appropriation to $1.3 million.

I am confident my colleagues recognize the need for this appropriation. I know we are all grateful, as I am, to the Appropriations Committee for providing us this opportunity to allow the Commission to complete its important work.

Thank you very much.●

● Mr. MATSUI. Mr. Chairman, I rise in strong support of maintaining the funding level of the Legal Services Corporation at no less than $241 million for fiscal year 1983. The Legal Services Corporation's budget has sustained a 25-percent reduction since 1981, and any further cuts will jeopardize the ability of the Corporation's lawyers to provide the poor, the elderly, and the disabled with adequate representation in civil legal matters.

In reaction to the budgetary constraints imposed by last year's Omnibus Reconciliation Act, the Legal Services Corporation has made dramatic adjustments in the amount of services it can offer to clients. During 1981, the Corporation shut down 288 of its field offices and let go 4,633 field workers and 1,733 attorneys. In my home State of California, the cuts have had a most disruptive impact as the number of field offices has dropped from 109 in 1981 to 74 in 1982. Over the past year, the number of attorneys representing California's legally indigent dwindled from 509 to 322 resulting in 187 less lawyers.

The loss of such dedicated and skilled people translates into a profound denial of legal services to clients in need. Given that the fiscal year 1982 cuts have prevented the Legal Services Corporation from meeting the goals of its congressionally endorsed minimum access plan, which seeks to provide at least 2 attorneys for every 10,000 poor persons in every geographic area of the Nation, any further budgetary cuts will exclude an unacceptable number of Americans from receiving qualified legal advice. This is especially true today as the demand for the Corporation's services continues to grow while the current recession deepens and the unemployment rate explodes.

By further restricting the Corporation's budget, we turn our backs on the Nation's commitment to provide legal services to the economically disadvantaged of our land. From my personal experience both as a practicing lawyer and a congressional Representative, I know the existence of this federally funded program has had a positive effect on the lives of many of my constituents. Simple equity demands that the Congress preserve this special relationship between the Corporation and its clients.

For these reasons, we must appropriate no less than $241 million for the Corporation's activities. To do otherwise would constitute a congressional betrayal of our judicial system and the principle of equality which serves as its foundation.●

● Mr. FUQUA. Mr. Chairman, I would like to congratulate the gentleman from Mississippi for his expert leadership of the Appropriations Committee in keeping these appropriations below the budget allocation. Also, I recognize the critical involvement of the gentleman from Iowa in the formulation of this bill and would like to express by appreciation to him for his careful attention to the recommendations of the Committee on Science and Technology.

I believe that as a result of the deliberations of the Appropriations Committee, we have before us a bill which reaffirms our country's commitment to maintaining our diplomatic leadership, safeguarding our many freedoms, and encouraging the growth of our industries.

This legislation accomplishes these ends while responding to the tight

budgetary situation by actually remaining under the budget allocation.

In looking at those categories relating to the jurisdiction of the Committee on Science and Technology, I am particularly pleased to note that $2 million has been provided to aid in the implementation of the Stevenson-Wydler Technology Innovation Act. These funds will help to stimulate the economy by bringing the expertise of universities to bear on the problems of industry in Centers for Industrial Technology and by supporting a Center for the Utilization of Federal Technology to transfer new technology from Federal laboratories into use.

I am also heartened by the committee's restoration of funds for NOAA to maintain the two polar-orbiting satellite system. A two-satellite system is vitally important to our weather forecasting capabilities, and I believe the committee has acted with sound judgment and foresight in this area.

I am concerned, however, that this appropriations' legislation includes inadequate funding for our Nation's civilian remote sensing program, Landsat. The bill before us would appropriate only $1.4 million, whereas the President's request was for $14.955 million. The Committee on Science and Technology authorized the full $14.955 million requested because we found that this money was necessary to keep the system operating. It will also be necessary for the Department of Agriculture to get the $7 million it has requested for Landsat. If these funds are not appropriated our Nation's civilian remote sensing program is in danger of "falling through the cracks." Without some resolution to the problem of funding for Landsat in fiscal year 1983 in this bill and in the Agriculture appropriation, it appears that this valuable source of information will no longer be available to its user community.

I urge the gentleman from Iowa and his colleagues on the Appropriations Committee to search for a resolution in order that this valuable program will not be terminated. There can be no doubt that the data provided by the Landsat program on crop yields, range lands and forest, mineral and petroleum exploration and weather and land use is extremely valuable to the Government as well as a host of commercial users.

We have already invested over $700 million in this program and it would be foolish to let this investment go down the drain for lack of operating funds.

Mr. Chairman, I understand that this problem may have been resolved in the continuing resolution we adopted last October 2—Public Law 97-276, making continuing appropriations for fiscal year 1983. If that bill would provide full funding for the NOAA program and if such funding does not expire with the general provisions of the continuing resolution, then my concerns with respect to Landsat would indeed be mitigated.

Finally, the appropriations for the National Bureau of Standards represent a less severe reduction than the President requested. Whereas we supported cutbacks in certain areas, it was clear that more drastic reductions would impair the mission of the Bureau and hinder the Bureau's ability to monitor and assist in developments in technological areas.

I am especially pleased with the support of the robotics R&D initiative, originally developed in the Committee on Science and Technology, and for the Computer Institute, the technical competence program, and the Fire Research Center.

I applaud the efforts of the Appropriations Committee in presenting this bill and I urge my colleagues to join me in voting for its passage.

Thank you, Mr. Chairman.●

● Mr. FISH. Mr. Chairman, in March of this year the Judiciary Committee's Subcommittee on Immigration, Refugees, and International Law held hearings on the fiscal year 1983 authorization for the Immigration and Naturalization Service. The full Judiciary Committee, meeting in May, recommended personnel and funding levels that reflected the unanimous sentiments of the members of the Immigration Subcommittee. The Judiciary Committee's decision to authorize 642 positions not included in the administration's budget request represented a modest response to the burgeoning workload of the Service and the continuing flow of hundreds of thousands of illegal aliens to the United States each year.

The omission from H.R. 6957 of funding for the additional positions recommended by the Committee on the Judiciary is a matter of serious concern to any Member of Congress who believes that the United States must regain some measure of control over the flow of illegal aliens. Resources must be devoted to funding additional positions for the Immigration Service if we hope to make major progress in cutting surreptitious entries, relieve the congestion at our international airports, and locate illegal aliens in the interior of the United States. The Select Commission on Immigration and Refugee Policy, a bipartisan congressional-Presidential commission, recommended after extensive hearings and study that: "Border Patrol funding levels be raised to provide (in part) for a substantial increase in the numbers and training of personnel * * *" and that "port-of-entry inspections be enhanced by increasing the number of primary inspectors * * *."

The Committee on the Judiciary and its Subcommittee on Immigration, Refugees, and International Law—over the course of a number of years—have been instrumental in the authorization of funds for levels of personnel needed to enable the Service to fulfill its mission. Despite action by the Judiciary Committee and the Congress in prior years, many positions remain unfilled. The 10,604 permanent positions requested by the administration for fiscal year 1983 compares with 10,886 actual positions authorized in fiscal year 1981. Although this administration is making an effort to fill positions that have long been authorized, it is insufficient in 1983 to fill positions the Congress recognized we needed 2 years ago. The 1983 budget, on the contrary, must be responsive to 1983 needs. The enactment of a new law dealing with immigration reform and control—a major agenda item for the Congress—by itself will not solve the immigration enforcement problems facing the United States unless we also are prepared to allocate the resources needed by the Immigration Service to fulfill its mission.

In the course of our subcommittee hearings, I attempted to develop a record in some detail comparing personnel levels in 1981 and 1983. This important data documents our failure to make real progress in meeting the needs of the Service.

A comparison of the 1981 actual work year and the 1983 work year base shows only a negligible gain in inspections—from 1,703 to 1,712—and actual reductions in work years for antismuggling activity—from 300 in fiscal year 1981 to 283 in 1983—and in interior enforcement-investigations—from 705 actual work years in 1981 to 596 work years in 1983. The figures for border patrol-immediate border show increases in work years between 1981 and 1983—but the 1983 work year figures still fall below permanent positions authorized back in 1981. At a time when the INS workload is up and public awareness of the problem of illegal entry is heightened, we can and must do more to respond to the Service's lack of essential personnel. Additional INS officers can serve as an important deterrent to violations of our immigration laws. I hope that the Congress, and the administration in considering funding for service in a possible supplemental request for fiscal year 1983 and in appropriations for future fiscal years, will be more responsive to the documented need for more realistic personnel levels.●

● Mr. MOFFETT. Mr. Chairman, I am going to be brief. The Sensenbrenner amendment to reduce Legal Services Corporation funding from $241 million to $100 million is patently mean-spirited and must be rejected.

In Mr. SENSENBRENNER'S earlier "Dear Colleague" describing today's amendment, he states that Legal Serv-

ice lawyers "seem more interested in legislating through the courts than in attending to the real needs of the poor." This is a stale, tired, and simply incorrect statement. As the New York Lawyers' Committee to Preserve Legal Services has stated:

Legal services lawyers are no more litigious than other lawyers—and they may be less so. In 1980, less than 15 percent of the 1.5 million legal matters handled by legal services attorneys actually resulted in litigation. Legal services attorneys are also aware of their obligation to advance their clients' legitimate interests with vigor and imagination but not to pursue meritless claims.

Furthermore, in 1981, nearly a third of all legal service cases were closed after simply giving the client advice. So let us lay to rest the bunk about "legislating through the courts."

It is a fact that the majority of Legal Services cases involve family matters, government benefits and other income maintenance, and housing. It is also a fact that the hardships of our current economic situation require greater recourse to legal services than ever. The cutback in LSC funding this fiscal year has already caused a considerable loss of services to eligible clients. Twenty percent of all field program offices have closed down; 30 percent of field program workers have been forced out of their jobs; and 28 percent of field attorneys have been forced to leave their jobs. Further cutting LSC funds, from $241 million to $100 million, would devastate field operations and deny legal services to poor persons across the Nation.

The Sensenbrenner amendment is unacceptable. It must be rejected. We should be having a discussion about increasing, not reducing, legal services funding. The need for legal representation is great and growing graver every day. In closing, Mr. Chairman, I am submitting to the RECORD two recent testimonials I have received on the fine work Connecticut legal service staffs continue to perform, under financial duress. I sincerely hope that all my colleagues will heed the message and vigorously support full funding for the Legal Services Corporation.

JUNE 18, 1982.

Congressman TOBY MOFFAT
Hartford, Conn.

DEAR SIR: I was a patient at Crestfield Convalescent Home in Manchester from 2-15-80 to 4-15-80 and was denied Medicare Coverage (payment).

I was told that Conn. Legal Aid Services, Inc. of Willimantic, Conn., would act in my behalf in representing my claim and because of their diligent and complete representation, I finally this week received a check to cover medicare payments. This was free legal representation.

I want to let you know what a good job they did and I want especially to mention Susan Johnson and Sheldon Mossberg who have been so concerned and kind in all my conversations etc. with them, and I shall be forever grateful to Legal Aid Services.

One way, additionally to thanking them sincerely is to let Congressmen know what a good job is being done by Legal Aid.

Yours truly,

LUCIE (MRS. HENRY) BENGSTON.
(A widow 81 years old)

[From the Advocate, June 30, 1982]

THE EVICTION OF MRS. CONNER

On May 26 we ran a story on our front page about the Stamford Housing Authority's eviction of Sarah Conner and her six children from her apartment at 190 Ursula Place. A picture showed the family furniture on the sidewalk. The story quoted Mrs. Conner, who had a record of paying her rent late, as saying that she had paid the May rent only seven days late.

It may have occurred to some of our readers that the authority might have done an injustice to the Conner family. The thought occurred to us, and this was one of the reasons we believed the story was newsworthy.

The Stamford area has an agency called Connecticut Legal Services, which has four lawyers whose job is to represent poor people who otherwise might be shut out of the justice system.

Mrs. Conner went to the agency, which receives most of its funding from the federal government and a small part from the city, and told her story.

Subsequently, Diana Johnston, a CLS lawyer, filed suit in Stamford Superior Court against the Stamford Housing Authority because, she claimed, the Conner family had lost its home as a result of "unfair, deceptive and illegal practices."

As a result, Judge Hugh Curran ordered the authority to explain in court on July 23 by what right it had evicted Mrs. Conner. He also granted a temporary injunction forbidding the authority to rent the Ursula Place apartment pending court action.

According to the suit papers, the authority has rent collection and eviction rules providing that tenants behind in their rent may be reinstated if they pay, and the authority agrees to accept, back rent. "In derogation of its own written policies," the suit claimed, Mrs. Conner was required to sign a stipulation in December in order to avoid eviction. At that time she paid the authority $73, of which $68 was for court costs and lawyers' fees. The stipulation said, according to the suit, that if she failed to pay her rent by the 10th of each month, she would be evicted with no right of appeal.

The suit alleged that the stipulation which was used to evict Mrs. Conner and her family was a violation of state law because it was based on a five-month-old decision to evict a family whose monthly tenancy had been reinstated through payment and acceptance of rent.

The suit further alleged that the eviction was "not only a deceptive trade practice, it was also profoundly unfair and irreparably harmed the Conner family."

We are not trying here to prejudge the Conner case. We do not know whether the authority violated Mrs. Conner's rights.

But we are thankful that Connecticut Legal Services exists. If it did not, Mrs. Conner, powerless as the poor usually are, might have had to accept the authority's action.

President Reagan has tried to abolish the federal Legal Services Corp., the principal funding agency of Connecticut Legal Services and the other organizations around the country that provide lawyers for the poor.

Last year, Mr. Reagan succeeded in cutting the corporation's funds substantially. The Stamford branch of Connecticut Legal Services had to dismiss five of its lawyers.

Mr. Reagan, who evidently doesn't think that poor people need access to the justice system, may succeed this year in eliminating the corporation altogether.

The next time a poor person in Stamford needs legal representation there may be no Connecticut Legal Services around to provide it, thanks to Mr. Reagan.●

Mr. SMITH of Iowa. Mr. Chairman, I yield back the balance of my time.

Mr. O'BRIEN. Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

SALARIES AND EXPENSES

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of administering the economic development assistance programs as provided for by law, $24,950,000, and in addition, $2,500,000 shall be available by transfer from the unobligated balances in the Economic Development Revolving Fund, notwithstanding section 203 of the Public Works and Economic Development Act of 1965, as amended: *Provided*, That not to exceed $300,000 may be advanced to the Small Business Administration for processing of loan applications: *Provided further*, That these funds may be used to monitor projects approved pursuant to title I of the Public Works Employment Act of 1976, as amended, title II of the Trade Act of 1974, as amended, and the Community Emergency Drought Relief Act of 1977. Notwithstanding any other provision of this Act or any other law, funds appropriated in this paragraph shall be used to fill and maintain forty-seven permanent positions designated as Economic Development Representatives out of the total number of permanent positions funded in the Salaries and Expenses account of the Economic Development Administration for fiscal year 1983, and such positions shall be maintained in the various States within the approved organizational structure in place on June 1, 1981, and where possible, with those employees who filled those positions on that date.

AMENDMENT OFFERED BY MR. CAMPBELL

Mr. CAMPBELL. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. CAMPBELL: On page 4, after line 14, insert the following new section:

ECONOMIC DEVELOPMENT REVOLVING FUND

(LIMITATION ON LOAN GUARANTEES)

During fiscal year 1983, total commitments to guarantee loans to steel companies shall not exceed $20 million of contingent liability for loan principal.

Mr. CAMPBELL. Mr. Chairman, this amendment would simply insure that business loan funds, which Congress has already appropriated, would remain available after the close of fiscal year 1982. My amendment requires no fiscal year 1983 budget authority and no increase in fiscal year 1983 outlays above the amounts that Congress has already decided to provide and has already anticipated in the first budget resolution for fiscal year 1983.

I can tell you firsthand that at least 1,000 jobs depend upon continuing to make these loan funds available, and I urge my colleagues to join in support of this amendment.

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. CAMPBELL. I am happy to yield.

Mr. SMITH of Iowa. As I understand it, this neither increases budget outlays nor budget authority, is that correct?

Mr. CAMPBELL. The gentleman is correct.

Mr. SMITH of Iowa. We have not had time in the subcommittee to examine this matter. I do not really have a position. I am not in any position to accept amendments because I would like to keep the bill as clean as possible. But I am not saying anything against the amendment.

Mr. O'BRIEN. Mr. Chairman, will the gentleman yield?

Mr. CAMPBELL. I yield to the gentleman from Illinois.

Mr. O'BRIEN. On behalf of the minority, we have no objection to the amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from South Carolina (Mr. CAMPBELL).

The amendment was agreed to.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

ECONOMIC DEVELOPMENT ADMINISTRATION

ECONOMIC DEVELOPMENT ASSISTANCE PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

For economic development assistance as provided by the Public Works and Economic Development Act of 1965, as amended, $168,500,000, and in addition, $30,000,000 shall be available by transfer from the unobligated balances in the Economic Development Revolving Fund, notwithstanding section 203 of such Act.

AMENDMENT OFFERED BY MR. MITCHELL OF MARYLAND

Mr. MITCHELL of Maryland. Mr. Chairman, I offer an amendment, and I ask unanimous consent to return to line 5, Economic Development Administration, on page 3 for that purpose.

The CHAIRMAN. Is there objection to the request of the gentleman from Maryland?

There was no objection.

The Clerk read as follows:

Amendment offered by Mr. MITCHELL of Maryland: On page 3, line 13 insert before the period the following: "*Provided*, That during 1983 total commitment to guarantee loans shall not exceed $150,000,000 of contingent liability for loan principal: *Provided further*, That total obligations for new loans under the Economic Development Revolving Fund shall not exceed $30,000,000."

Mr. MITCHELL of Maryland. Mr. Chairman, the purpose of this amendment is to assure that the appropriations and funding for the Economic Development Revolving Fund are available for direct and guaranteed loans.

This amendment will not, I repeat, will not increase new budget authority for EDA over the level set in the bill as reported by the Appropriations Committee.

The background that led me to offer this amendment is that, at the time the bill for appropriations for Commerce, State, Justice, and related agencies was reported to the Appropriations Committee, it was anticipated that a new authorization bill with significant changes in EDA's authority would be enacted by the 97th Congress.

That authorization bill, which was H.R. 6100, would have modified EDA's business loan program by making grants available to State and local entities for the purpose of making loans and by abolishing EDA direct loan and loan guarantee programs.

This was a part of the thrust of the New Federalism.

It now appears the other body will not agree with the House on significant changes proposed in EDA under H.R. 6100 and that this Congress will not enact legislation with sweeping changes in EDA's authorization so that appropriations available to the EDA will be used under EDA's previously existing authority or some slight modification thereof.

That is the only purpose of this amendment. We did not get an agreement on the authorization bill. It does not exceed the budget authority as proposed by the Appropriations Committee, and the amendment will simply assure that the funds for EDA for direct loans and guaranteed loans would be continued until such time as a new authorization bill is passed.

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. MITCHELL of Maryland. I am delighted to yield.

Mr. SMITH of Iowa. My understanding of the situation is that as far as guarantees are concerned under the gentleman's amendment it increases neither budget authority nor outlays and that the Department has said in the past that they want some signal from Congress or else they will not use guarantee authority at all.

□ 1510

So the loan guarantee portion of the amendment does not violate the rule that we have to remain within our 302 allocation under the budget resolution. However, the direct loan portion of the gentleman's amendment, which transfers money out of the Economic Development Revolving Fund, does put us over our 302 allocation. We have got a lot of budget amendments pending. If there is anything I would like to be for, it is this. But we have got a drug enforcement amendment for $130 million, another for $44 million, for USIA and the Board for International Broadcasting. We are going to be way over our 302 allocation if we accept them.

I am sorry I did not get a chance to talk to the gentleman in advance more thoroughly. I wonder if the gentleman will delete the transfer of money out of the Revolving Fund for direct loans. Then we would not have that problem. Now, maybe the gentleman does not want to do that. I am just pointing out what our problem is.

Mr. MITCHELL of Maryland. I thank the gentleman. It is quite true that the agency does need some sort of signal from us. If the gentleman is satisfied that we can go with the loan guarantee portion——

Mr. SMITH of Iowa. I am not really satisfied that that is enough, but I think under the circumstances that is all we can do. If the gentleman would withdraw the second part, at least we would not be in violation of budget authority or outlays.

Mr. MITCHELL of Maryland. Before I do that, I would ask the distinguished chairman of the committee whether he would work with this gentleman in order to insure an expeditious authorization bill to make sure that we can continue the direct loan program, and that we move quickly on that in the 98th Congress.

Mr. SMITH of Iowa. I certainly will.

Mr. MITCHELL of Maryland. Mr. Chairman, with that assurance, I ask unanimous consent to modify my amendment by deleting that portion of the language that refers to the Economic Development Revolving Fund.

The CHAIRMAN. The Clerk will report the modification.

The Clerk read as follows:

In the amendment offered by Mr. MITCHELL of Maryland, strike the final proviso of the amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Maryland (Mr. MITCHELL)?

There was no objection.

Mr. MITCHELL of Maryland. Mr. Chairman, I would hope that, having made that compromise, the amendment could be accepted on both sides.

Mr. O'BRIEN. Mr. Chairman, will the gentleman yield?

Mr. MITCHELL of Maryland. I yield to the gentleman from Illinois.

Mr. O'BRIEN. Mr. Chairman, we have no objection.

Mr. MITCHELL of Maryland. I thank the gentleman.

Mr. SMITH of Iowa. Mr. Chairman, we have no objection.

Mr. MITCHELL of Maryland. I thank the gentleman.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Maryland (Mr. MITCHELL), as modified.

The amendment, as modified, was agreed to.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

INTERNATIONAL TRADE ADMINISTRATION

OPERATIONS AND ADMINISTRATION

For necessary expenses for international trade activities of the Department of Commerce, including trade promotional activities abroad without regard to the provisions of law set forth in 44 U.S.C. 3702 and 3703; full medical coverage for dependent members of immediate families of employees stationed overseas; employment of Americans and aliens by contract for services abroad; rental of space abroad for periods not exceeding five years, and expenses of alteration, repair, or improvement; purchase or construction of temporary demountable exhibition structures for use abroad; payment of tort claims, in the manner authorized in the first paragraph of 28 U.S.C. 2672 when such claims arise in foreign countries; not to exceed $135,200 for official representation expenses abroad; awards of compensation to informers under the Export Administration Act of 1979, and as authorized by 22 U.S.C. 401(b); purchase of passenger motor vehicles for official use abroad; $164,696,000, to remain available until expended: *Provided*, That the provisions of the first sentence of section 105(f) and all of section 108(c) of the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2455(f) and 2458(c)) shall apply in carrying out these activities. During fiscal year 1982 and within the resources and authority available, gross obligations for the principal amount of direct loans shall not exceed $12,484,000. During fiscal year 1982, total commitments to guarantee loans shall not exceed $28,250,000 of contingent liability for loan principal.

Mr. SMITH of Iowa. Mr. Chairman, I ask unanimous consent that the bill be amended on page 5, lines 13 and 16, by striking "1982" and inserting in lieu thereof "1983."

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

There was no objection.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

OPERATIONS, RESEARCH, AND FACILITIES

(INCLUDING TRANSFER OF FUNDS)

For necessary expenses of activities authorized by law for the National Oceanic and Atmospheric Administration, including maintenance, operation, and hire of aircraft; 399 commissioned officers on the active list; construction of facilities, including initial equipment; alteration, modernization, and relocation of facilities; and acquisition of land for facilities; $839,233,000, to remain available until expended, of which so much as may become available during the current fiscal year shall be derived from the Pribilof Islands Fund, and, in addition, $21,700,000 shall be transferred to this appropriation from the fund entitled "Promote and develop fishery products and research pertaining to American fisheries", and $9,710,000 from repayments of principal and interest on outstanding loans in the fund entitled "Coastal Energy Impact Fund".

Mr. WIRTH. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I am concerned about the funding status of the Space Environment Laboratory (SEL) located within the National Oceanic and Atmospheric Administration.

Although the SEL's budget is small—last year it spent a total of $4.3 million—its functions are absolutely critical to a variety of users, not the least of whom is the Air Force. SEL provides space environment monitoring, forecasting, alert, and warning services on a continuing 24-hour per day basis, and conducts research in solar-terrestrial physics in support of long-range needs in a variety of areas. To translate its functions into layman's terms, it is our Nation's central facility for monitoring and forecasting changes in activity on the Sun's surface—solar flares and other solar events—which have tremendous impacts on electric power transmission, communications for both aircraft and ships, and on satellite operations and launching.

The SEL has been designated by the Federal Council on Science and Technology as the Nation's center for providing all space environment information required throughout our economy. SEL provides information to more than 1,700 direct users and an estimated 70,000 indirect users, among them:

First, public utilities. Major solar flares seriously disrupt high voltage lines and telephone circuits. Many United States and Canadian utilities rely on SEL for warnings of solar activity.

Second, aircraft and navigation. Solar activity also disrupts communications and aircraft and ship navigation capabilities, particularly in polar regions. SEL is the only source of advance warning for Air Force planes operating in these regions, and for private and Navy ships.

Third, satellite operations and launching. NASA, the Pentagon and private sector satellite owners—mainly in communications—depend on SEL for information on which to base decisions on protection of astronauts and equipment from radiation, to predict orbits of satellites to make launch timing decisions, and to prevent disruption of signals from satellites.

Fourth, research needs. Major space research program make use of SEL information.

Fifth, Department of Defense. Our armed services' worldwide communications network is seriously affected by solar activity, as are surveillance satellites, nuclear event detectors and highly classified satellite systems. DOD depends heavily on SEL information and its timely availability.

I understand that funding at 1982 levels for the Space Environment Laboratory administered by the Department of Commerce was inadvertantly omitted from H.R. 6957, the fiscal year 1983 appropriation bill for the Departments of Commerce, Justice, and State, the judiciary and related agencies.

I also understand that the other body has included funding for this important activity in S. 2956, and that the current continuing resolution was intended to provide for continuation of the full range of work conducted at the Space Environment Laboratory. Is it your committee's intention through conference on this bill or the next continuing resolution to provide for continued funding at the fiscal year 1982 level for this laboratory throughout fiscal year 1983?

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. WIRTH. I yield to the gentleman from Iowa.

Mr. SMITH of Iowa. The gentleman is correct. This is one of those programs that still has not been authorized. As I understand it, you are in conference on the authorization. And in these cases we do have some problems in getting our figures together. But I believe I am safe in saying that it is the intention of the committee that this laboratory be funded in 1983 at the level that it was in 1982, somewhere in the progress of this bill. It might be in the conference agreement, or it might be in the next continuing resolution, but we have a number of these kinds of items which we know we are going to have to address in conference.

Mr. WIRTH. I thank the distinguished chairman of the subcommittee.

Mr. FUQUA. Mr. Chairman, will the gentleman yield?

Mr. WIRTH. I yield to the distinguished chairman of the Committee on Science and Technology.

Mr. FUQUA. I thank the gentleman for yielding, and I also want to commend the chairman of the subcommittee, the gentleman from Iowa (Mr. SMITH), who has been most cooperative in these matters, for his reassurance of the funding levels for this lab, which is very important, and I commend the gentleman for bringing this to the attention of the committee.

Mr. WIRTH. I thank both chairmen. This is a terribly important laboratory. We had a major discussion on this in the Science Committee. It was part of the legislation that came out of the Science Committee on the House side confirming full support and the continuing activities of the subcommittee, and I am pleased to have the confirmation of the gentleman from Iowa.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

SCIENCE AND TECHNICAL RESEARCH

SCIENTIFIC AND TECHNICAL RESEARCH AND SERVICES

For necessary expenses of the National Bureau of Standards, $119,162,000, to remain available until expended, of which not to exceed $6,286,000, may be transferred to the "Working Capital Fund".

AMENDMENT OFFERED BY MR. FUQUA

Mr. FUQUA. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. FUQUA: Page 9, strike lines 19 through 22 and insert the following:

"For necessary expenses of the National Bureau of Standards, $117,861,000, to remain available until expended. Of the foregoing amount, not to exceed $47,816,000 is for Measurement, Research and Standards (including not to exceed $1,000,000 for 'Measurement Standards for the Handicapped'); not to exceed $21,635,000 is for Engineering Measurements and Standards; not to exceed $10,000,000 is for Computer Science and Technology; not to exceed $13,557,000 is for Core Research Program for Innovation and Productivity; not to exceed $5,491,000 is for the Fire Research Center; not to exceed $6,986,000 is for Technical Competence; not to exceed $12,376,000 is for Central Technical Support; and not to exceed $6,286,000 may be transferred to the 'Working Capital Fund'. No amount is provided for a metal processing program."

Mr. FUQUA (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. FUQUA. Mr. Chairman, this amendment would provide a specific allocation of funds for the National Bureau of Standards in conformance with the allocations contained in the Authorization Act.

The Authorization Act contains seven line items covering the categories of R&D performed at the NBS, and this amendment would indicate the allocation of funds to those categories. The total funds provided, $117,861, is identical to the amount in the Authorization Act signed by the President last October 6.

The amendment has been drafted in close cooperation with the gentleman from Iowa and his able staff, and I want to thank them for their help and support in this matter.

I note in this connection that the figures for each of the line items in this amendment do not correspond exacly to the amounts found in the Authorization Act, Public Law 97-786, even though they add up to the same total of $117.861 million.

Those slight differences are accounted for principally by the reorganization of the budget structure which Senator SCHMITT and Congressman WALGREN, the two chairmen of the Senate and House authorizing subcommittees asked for earlier this year. For example, several of the programs to advance electronic and mechanical technology formerly included in the line items for "Measurement Research and Standards," and "Enginerring Measurement and Standards" are now, and will in future years be included in the line item "Core Research Program for Innovation and Productivity."

The allocation in the revised manner is reflected in the amendment and it is the intent that the funds be expended according with the revised budget categories. I can assure the House that our committee will closely monitor the implementation of the new budget categories. On this matter too, I want to express our appreciation to Chairman SMITH and his staff for their help, suggestions and support.

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. FUQUA. I yield to the gentleman from Iowa.

Mr. SMITH of Iowa. Mr. Chairman, the amount in our bill would be brought into conformity with the authorizing legislation under this amendment. Actually, it reduces the amount of money in the bill by $1,301,000. This amendment, I believe, is a worthy one. I appreciate the authorizing committee's cooperation in this matter, and I urge the acceptance of the amendment.

Mr. FUQUA. I thank the gentleman.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Florida (Mr. FUQUA).

The amendment was agreed to.

□ 1520

The Clerk will read.

The Clerk read as follows:

GENERAL PROVISIONS—DEPARTMENT OF COMMERCE

During the current fiscal year applicable appropriations and funds available to the Department of Commerce shall be available for the activities specified in the Act of October 26, 1949 (15 U.S.C. 1514), to the extent and in the manner prescribed by said Act.

During the current fiscal year appropriations to the Department of Commerce which are available for salaries and expenses shall be available for hire of passenger motor vehicles; services as authorized by 5 U.S.C. 3109; and uniforms or allowances therefor, as authorized by law (5 U.S.C. 5901-5902).

AMENDMENT OFFERED BY MR. M'DADE

Mr. McDADE. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MCDADE: Page 10, after line 23, insert the following new paragraph:

No funds in this title shall be used to sell to private interests, or contract with private interests to sell or administer, any loans made under the Public Works and Economic Development Act of 1965 and any loans made under section 254 of the Trade Act of 1974.

Mr. McDADE. Mr. Chairman, I offer an amendment. This amendment isneeded to prohibit the Economic Development Administration from selling loans to private investors until the recent sale of a number of direct loans made under the Public Works and Economic Development Act and the Trade Act of 1974, has been fully evaluated by the Congress. Any further action to dispose of the loan portfolio should be made after consultation of the appropriate congressional committees.

The economic development loan and the trade adjustment loan program were designed to save or create jobs and promote business expansion in depressed areas. These programs have provided an important source of funding to small businesses which have been denied capital from traditional private lenders. It is essential that the economic development potential of a firm be considered in any decision to sell existing government loans to private investors or to contract out the servicing of loans. Protection of past Federal investments must be carefully balanced with the job creation and economic development potential of an individual borrower.

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. McDADE. I yield to the gentleman from Iowa.

Mr. SMITH of Iowa. I thank the gentleman for yielding and I thank the gentleman for bringing this to our attention.

The gentleman from Iowa (Mr. HARKIN), the gentleman from Minnesota (Mr. OBERSTAR) the gentleman from Pennsylvania, and other Members have brought this to our attention. This is something we did not know about at the time we held our hearings. This amendment does not increase budget authority or outlays in any way. It certainly seems to me to be meritorious. I cannot speak for the subcommittee because we have not talked about it. I think it is worthy of our consideration.

Mr. McDADE. I thank the gentleman.

Mr. O'BRIEN. Mr. Chairman, will the gentleman yield?

Mr. McDADE. I yield to the gentleman from Illinois.

Mr. O'BRIEN. I thank the gentleman for yielding.

It indeed appears to me as an individual a meritorious amendment. I cannot speak for the minority or even for the other two Members. I have no objection to it.

Mr. McDADE. I thank the gentleman.

● Mr. HARKIN, Mr. Chairman, this amendment blocks the Economic Development Administration from selling off their loan portfolio. In late August they offered 51 loans for bidding and have since sold 10 of those loans. They got 17 cents on the dollar. This was the first time that the agency ever sold its loans in bulk.

Apparently, this sale was the first of many that the agency intends to make. They are under pressure from OMB to sell off the greater portion of their loan portfolio in fiscal years 1983 and 1984. If this were done it would

cause major disruptions for a substantial number of firms whose notes would be sold.

First, the agency is not allowing a business to buy its own loans back at a discount. Since the company is probably the one that would pay the most for the notes, the Government will lose money on the deal. Anyone else who would buy the notes of a firm would do so at a greater discount.

Second, a competitor could buy a firm's notes, and that would give the competitor access to all of the company's lists of customers and other sensitive material.

Third, and this is crucial, if a company is in arrears, and many small businesses are in that position in these difficult times, the buyer of the notes can make a killing by demanding immediate payment. That would have an excellent chance of putting the firm out of business, throwing the employees out of work. However, the buyer of the notes would make an instant profit bonanza.

The mechanism that is being used by EDA to sell the notes promotes this worst case scenario. They are allowing the buying party to take an option on the loan. The option holder then gets an opportunity to shake down the business for an immediate payment.

The Economic Development Administration has been one of the most successful of the Government's programs to create jobs in the private sector. I know some believe that the agency should no longer continue. However, in no case do I believe that any Member of the House wants to see jobs that have been created, destroyed by this shortsighted policy. I urge support for the amendment.●

● Mr. OBERSTAR. Mr. Chairman, I strongly support the amendment of the gentleman from Pennsylvania as a necessary step to give the Public Works and Transportation Subcommittee on Economic Development, which I chair, and other interested congressional committees, an opportunity to continue to review EDA's sale of certian loans within its portfolio.

As long ago as our subcommittee hearings in November 1981, I expressed serious reservations about loans to sell off the loan portfolio. My main concern was, and remains, that private purchasers of these loans would not have the same interest as does EDA in preserving jobs and small businesses, and that the economic development purpose of these loans would be lost by their sale.

Following up on the November hearing, I twice wrote to Carlos C. Campbell, Jr., Assistant Secretary of Commerce for Economic Development, on December 3, 1981, and again on July 29, 1982, urging that the loan portfolio be kept within EDA.

Despite the clear expression of concern by the subcommittee, EDA placed an advertisement in the Wall Street Journal on August 26, of this year requesting bids from private interests for the purchase of EDA loans.

The original bid offering circular contained 51 projects totaling over $48 million in oustanding principal.

To date, 10 loans have been sold to private investors. These 10 loans had an outstanding balance of $11.2 million and were sold for $1.9 million or an average return of 17 cents on the dollar.

Despite the low return on the dollar, businesses are threatened with bankrupty third party speculators become the collection agency for the Government, and the total economic consequences to the borrower and the taxpayer are questionable.

Also of concern is the indication, by EDA, that experience gained in this sale will be applied to possible future sales of loans made by the Small Business Administration and the Farmers Home Administration.

For this reason, as well as for the future of EDA borrowers, I believe it imperative that Congress have an opportunity to thoroughly review the past sale prior to any further such action by EDA.

To date, we have received inadequate responses to our questions from the Agency. Our subcommittee will hold oversight hearings on this administration's conduct of the full range of EDA programs next Tuesday, December 14. We expect to cover the sale of the loan portfolio.

However, this hearing is only the beginning of our inquiry into the sale. We will, I am sure, have much more to learn in followup questioning and review of whatever materials EDA provides us next Tuesday and will expect, from the Agency, a full written report and opportunity to comment on it before the Agency offers any further loan sales.

Our subcommittee has not taken a position against such sales; we simply do not know, and will not know until we have conducted this thorough review, our position on this action. The McDade amendment will give us an opportunity to conduct the careful review this issue requires.●

The CHAIRMAN. The question is on the amendment offered by the gentleman from Pennsylvania (Mr. McDADE).

The amendment was agreed to.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

FEDERAL TRADE COMMISSION

SALARIES AND EXPENSES

For necessary expenses of the Federal Trade Commission, including uniforms or allowances therefor, as authorized by 5 U.S.C. 5901-5902; services as authorized by 5 U.S.C. 3109; hire of passenger motor vehicles; and not to exceed $2,000 for official reception and representation expenses; $63,638,000.

POINT OF ORDER

Mr. FLORIO. Mr. Chairman, I make a point of order.

The CHAIRMAN. The gentleman will state his point of order.

Mr. FLORIO. Mr. Chairman, I would raise a point of order on the grounds that there is no authorization for the Federal Trade Commission as required by rule XXI, clause 2 of the rules of the House.

The CHAIRMAN. Does the gentleman from Iowa (Mr. SMITH) wish to be heard in opposition to the point of order?

Mr. SMITH of Iowa. Well, Mr. Chairman, I just say this. Obviously the Federal Trade Commission needs money. There is no waiver from the Rules Committee protecting this. So I have to concede the point of order.

The CHAIRMAN. For the reason stated by the gentleman from New Jersey (Mr. FLORIO), the point of order is sustained. The paragraph is stricken.

The Clerk will read.

□ 1530

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

IMMIGRATION AND NATURALIZATION SERVICE

SALARIES AND EXPENSES

For expenses, not otherwise provided for, necessary for the administration and enforcement of the laws relating to immigration, naturalization, and alien registration, including not to exceed $50,000 to meet unforeseen emergencies of a confidential character, to be expended under the direction of the Attorney General and accounted for solely on his certificate; purchase for police-type use (not to exceed four hundred one of which four hundred shall be for replacement only) and hire of passenger motor vehicles; acquisition, lease, maintenance and operation of aircraft; and research related to immigration enforcement; and for expenses necessary under Section 501(c) of the Refugee Education Assistance Act of 1980 (Public Law 96-442) for the processing, care, maintenance, security, transportation, and the initial reception and placement in the United States of Cuban and Haitian entrants; $488,922,000, of which not to exceed $400,000 shall remain available for research until expended: *Provided*, That none of the funds available to the Immigration and Naturalization Service shall be available for administrative expenses to pay any employee overtime pay in an amount in excess of $20,000 except in such instances when the Commissioner makes a determination that this restriction is impossible to implement.

AMENDMENT OFFERED BY MR. KAZEN

Mr. KAZEN. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. KAZEN: Page 21, line 12, strike out "$488,922,000" and insert in lieu thereof "$493,922,000".

Mr. KAZEN. Mr. Chairman, this amendment will add $5 million to the figure for the Immigration and Naturalization Service.

The reason that I am doing this is because this amount would employ approximately 100 additional immigration inspectors that we so sorely need along the Mexican border. We have all these ports of entries from Brownsville, Tex., to San Diego, Calif., and all points on the border are in dire need of personnel.

Last week when the Department of the Treasury appropriation bill was before this committee, we added the identical amount of $5 million for additional customs inspectors.

Mr. Chairman, the personnel at the border, the points of entry and exit, need these people. It is only a matter of numbers that we must meet. The traffic has been such between the United States and Mexico that we must have these people in order to continue to man the ports of entry into this country.

Now, I understand that the chairman will tell us—I do not know whether he will object to this or not, but will say that we are right up against our budget ceiling on this bill.

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. KAZEN. Yes; I yield to the distinguished chairman.

Mr. SMITH of Iowa. Certainly, that is right. We have a number of these items where I cannot speak against the merits at all. In fact, I would like to figure out some way, and I think we will be able to maybe, some way to pick them up at one point or another; but we have, as I mentioned before, a request from the administration for $130 million for additional money for drug law enforcement task forces and we are going to have to figure out some way to pick that up later.

We do not have a request for the additional $5 million proposed by the gentleman from Texas (Mr. KAZEN), but in spite of that I think it is a meritorious request. However, we just do not have the budget authority at this point.

Mr. KAZEN. Well, Mr. Chairman, I can appreciate the position that the gentleman is in. However, I just do not see how in the world we can keep these bottlenecks along the border. There are so many people, so many crossings every day, that we just have to have the additional personnel.

Mr. SMITH of Iowa. I am not arguing about that at all. In fact, I think we will find some way to do whatever needs to be done there; but I just would like not to do it here today on this bill. Some way we will have to revise some other items on this bill, too. We will have to take some money out of some places, probably. Those items with higher priority ought to have higher priority.

Mr. KAZEN. May I ask the chairman, how much money is there in this bill for additional personnel?

Mr. SMITH of Iowa. Well, I do not know what the gentleman calls additional personnel.

Mr. KAZEN. I mean immigration inspectors over and above what we had in the last fiscal year.

Mr. SMITH of Iowa. Well, they did not request additional ones over last year. That is the reason I say, I think there are some places we are going to have to find a way to provide for some increases.

What we have done in many programs in the bill is to hold them to last year's program level.

Now, in this case, we did not give INS an increase because they did not ask for it; but that does not mean that an increase is not justified. The things the gentleman has mentioned really have come up since we finished our hearings on the bill.

Mr. KAZEN. Mr. Chairman, this is the dilemma that not only I, but all of us who represent the border zone all along the Mexican-United States border face. The immigration people up here in Washington have not given us the necessary personnel. They have been, on many occasions, requested by the local district people, but these people up here say, "We just don't have it."

Now, this is the time and the place to do it; otherwise, we will continue to be operating at below what is needed to keep those bridges and ports open. We have spent millions upon millions of dollars in creating these ports of entry in order to accommodate the number of crossings between our two countries and if we cannot service them, that money is going to waste and we just cannot be expected to stop the traffic.

Mr. SMITH of Iowa. Let me just say once more, I am hoping, and I believe we can somehow in conference find the room for this money; but at this point, it puts us in excess of our section 302(b) allocation.

Now, if the majority of the House want to do it, they can add money to the bill which would cause the total amount in the bill to exceed the section 302(b) allocation.

We on the subcommittee are not in a position to approve exceeding our allocation from the full committee. That would not be right. If the Members want to vote for the gentleman's amendment, knowing that in doing so they are exceeding the section 302 allocation, that is up to them. Now I say this again, I think we can find the money at another time without violating the section 302 allocation.

Mr. KAZEN. Well, Mr. Chairman, I understand the gentleman's position and I appreciate the gentleman's position.

Let me just ask the gentleman this question: If in the gentleman's deliberations in the conference when we come to that point, although I do not know whether this is even going to be the subject of the conference or not.

The CHAIRMAN. The time of the gentleman from Texas has expired.

(By unanimous consent, Mr. KAZEN was allowed to proceed for 2 additional minutes.)

Mr. KAZEN. Mr. Chairman, I do not know whether this particular section will be a subject of the conference or not. This is what worries me a little bit, because if it is not, you are not going to discuss it; otherwise, I would request the gentleman to indicate by this colloquy that whatever moneys are appropriated to the Service, that they see to it that enough personnel are transferred into the border areas.

I am particularly interested in the crossing points in my district at Laredo, which is the largest inland port in the United States, and at Eagle Pass.

I am sure Congressman DE LA GARZA, Congressman WHITE, Congressman LOEFFLER and the rest of us have the same problem.

Mr. SMITH of Iowa. I take the gentleman's word for it. I certainly will cooperate in every way in trying to find some additional resources out of the allocation that we presently have. I think this is one of the highest priorities, and we ought to be able to find some additional money. I think we can do it, one way or another.

Mr. KAZEN. I appreciate that.

Mr. Chairman, I might ask the distinguished ranking member if he feels the same way as the chairman does.

Mr. O'BRIEN. Mr. Chairman, if the gentleman will yield, I share the chairman's view, and while I think the credibility of the gentleman from Texas' argument is very clear, I think we should make the change at a later stage.

Mr. KAZEN. Well, fine. I would appreciate it if the gentleman would also work toward indicating that this personnel is needed at the Mexican border and for the people downtown to transfer whatever is needed down there in order to take care of the traffic.

Mr. O'BRIEN. Mr. Chairman, if the gentleman will yield further, I can assure the gentleman that we will make a combined effort to reach that desirable end.

Mr. KAZEN. Mr. Chairman, with that understanding, I ask unanimous consent to withdraw my amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Texas (Mr. KAZEN) to withdraw the amendment?

There was no objection.

The CHAIRMAN. The Clerk will read.

The Clerk read as follows:

SEC. 202. Notwithstanding section 501(e)(2)(B) of Public Law 96-422, funds appropriated to the Department of Justice in

this title may be expended for assistance to Cuban-Haitian entrants as authorized under section 501(c) of said Act.

AMENDMENT OFFERED BY MR. WALKER

Mr. WALKER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. WALKER:

On page 25, after line 23, add the following new section:

SEC. 203. No funds appropriated under this title shall be used to prevent the implementation of programs of voluntary prayer and meditation in the public schools.

□ 1540

Mr. WALKER. Mr. Chairman, this is an amendment which this House has previously adopted not only on this legislation but on the education legislation as well.

What it would do is extend the protection from Federal interference with voluntary school prayer and meditation in the schools to the Justice Department. That particular protection now exists from the interference by the Department of Education.

It seems to me that it is a matter that this House has decided previously and said that we would like to extend this protection to the Justice Department. The previous vote on this matter was 333 to 54, so I think the House has made a rather strong indication that it does accept this particular language.

Mr. SMITH of Iowa. Mr. Chairman, will the gentleman yield?

Mr. WALKER. I would be glad to yield to the gentleman from Iowa, the chairman of the subcommittee.

Mr. SMITH of Iowa. I thank the gentleman for yielding.

Before I proceed, I guess I should ask the gentleman the same question I asked last year: Is the gentleman afraid the Reagan administration is going to prevent the implementation of these programs?

Mr. WALKER. As I said to the gentleman last year, Mr. Chairman, no, I have no particular fear of that, but I do think it is important at a time when many school districts are considering putting in constitutional programs of a voluntary school prayer, they are concerned about Federal Government interference. This is just one more protection that they think they should have in order to assure them that the Federal Government is not going to get in the way of those programs.

Mr. SMITH of Iowa. I would just say that I think this is one of the things I would rather not have on the bill, but I recognize that if there is a record vote on it, the vote will probably be the same as last year. That is about all I can say.

Mr. WALKER. I thank the gentleman.

Mr. O'BRIEN. Mr. Chairman, will the gentleman yield to me?

Mr. WALKER. I yield to the gentleman from Illinois.

Mr. O'BRIEN. I thank the gentleman for yielding.

Mr. Chairman, on the minority side, we have no objection.

Mr. WALKER. I thank the gentleman.

Mr. Chairman, I yield back the balance of my time.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Pennsylvania (Mr. WALKER).

The amendment was agreed to.

AMENDMENT OFFERED BY MR. COLLINS OF TEXAS

Mr. COLLINS of Texas. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. COLLINS of Texas: Page 25, after line 23, add the following new section:

SEC. 203. No part of any sum appropriated by this title shall be used by the Department of Justice to bring any sort of action to require directly or indirectly the transportation of any student to a school other than the school which is nearest the student's home, except for a student requiring special education as a result of being mentally or physically handicapped.

Mr. COLLINS of Texas. Mr. Chairman, today I am pleased to again offer my antibusing amendment to H.R. 6957, the Department of Justice appropriations bill. I am proud that the Reagan administration opposes busing and commend the Department of Justice's position opposing busing in Baton Rouge, La. Since the courts consider many other busing suits, it is important that Congress make our position abundantly clear on the record as opposing forced schoolbusing. For that reason, I offer the amendment.

I introduced my amendment last year to the Department of Justice authorization bill, which passed the House by an overwhelming vote of 265 to 122 on June 9, 1981. I was pleased to see the Senate include the House amendment, along with language added by the distinguished Senator from North Carolina, Mr. HELMS, and the distinguished Senator from Louisiana, Mr. JOHNSTON.

I would like to emphasize some of the reasons why we need an end to forced schoolbusing and a return to the neighborhood school.

A 1982 NBC poll shows that 73 percent of Americans oppose busing. Polls are consistently showing that by margins of 3 to 1 and greater, Americans want to stop forced busing. Majorities of both blacks and whites are now opposed to busing.

Since the 1954 Brown decision, court decrees have mistakenly promoted forced busing. The intent of this landmark decision was to allow children to be treated equally and to attend their neighborhood schools. In that case, a little black girl in Topeka, Kans., wanted to go to a school seven blocks from her home. Yet, she was forced to go on a bus to a school 27 blocks away because of her race. The courts were wise and just in ruling that a child shall be entitled to attend the school nearest home.

This is exactly what Americans want today—the neighborhood school.

The 1964 Civil Rights Act clearly stated that desegregation does not mean the assignment of students from one school to another to achieve racial balance. Yet, this is exactly what proponents of forced schoolbusing are doing. And they are failing miserably.

The experts agree that busing is a failure. Dr. James Coleman, the "father of busing," has reversed his busing theory after a decade of research, stating: "School desegregation in the form of mandatory busing for racial balance has been destructive to its own goals." He said that forced schoolbusing does not generally bring achievement benefits to disadvantaged children and that policies to institute "instant racial balance" simply would not work.

Coleman's findings were supported by extensive studies by David Armour, another leading expert in the desegregation process. Armour's report showed massive white flight occurring because of busing. This left 15 out of 23 cities predominantly minority, clearly defeating the purpose of desegregation. This is true in my Dallas school district where minority enrollment has increased from 38 percent in 1968 to 72 percent today. And what we are seeing now is increasingly segregated schools.

While judges have forced school districts to become preoccupied with busing, not enough attention has been paid to assuring quality education for all students. In the last 17 years scholastic aptitude test scores of high school seniors have dropped over 10 percent—from 973 in 1964 to 890 in 1981. We should be concentrating on improving the quality of education.

It is completely senseless to force young children to sit on buses for up to 1 hour or more riding to and from school. Busing makes it difficult, and often impossible, for parents and children to participate in extracurricular activities. If you bus a child an hour away from home, it also causes problems if a child gets sick in the middle of the day.

Since coming to Congress in 1968, I have actively worked for passage of legislation to end forced schoolbusing. This year I believe we have the momentum.

The American people want an end to forced schoolbusing. We have the administration behind us and both Houses on record in favor of the antibusing provisions. I urge the House to again vote in favor of the Collins amendment.

Mr. SMITH of Iowa. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I would like to point out to the Members what we have here. We do not have just a busing question. The situation is this: The Justice Department has openly taken the opposite position to what the gentleman from Texas apparently is afraid they will do. He says the Department cannot bring any sort of an action to require these things to happen. The Department has taken the opposite position, so it is obviously unnecessary.

This is a bill that lasts for only 1 year. So why prohibit the existing administration, which will be in office for at least one more year, from doing something we know they are not going to do.

Second, the same kind of an amendment was put on the authorizing bill and it is the reason the authorizing bill today has not been enacted into law. We do not have an authorizing bill, so we had to go to the Rules Committee and get a waiver on this bill so that we can even consider any of the money for law enforcement in this bill.

Third, this amendment, I believe, was the same amendment that was put on 2 years ago, but not last year.

I ask the gentleman: Was it put on the last year?

Mr. COLLINS of Texas. If the gentleman will yield to me, Mr. Chairman, it is put on every year.

Mr. SMITH of Iowa. I thought the gentleman was out talking to the newspaper reporters last year.

Mr. COLLINS of Texas. That is right; I did on the authorization, which is the one they are acting on. They are still acting on the authorization amendment from last year.

Mr. SMITH of Iowa. But we are sure if this amendment is adopted, this bill will not become law before we leave here in December. I would certainly like to get this bill through the other body.

I am not speaking to the merits or demerits other than to say it is not necessary anyway because we know the Justice Department is not going to bring actions to require busing.

In view of the fact that what we are really saying if we adopt this, is that we do not want this bill enacted into law, can I prevail on the gentleman, for one last good will gesture toward this House, to withdraw his amendment?

Mr. COLLINS of Texas. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield to the gentleman from Texas.

Mr. COLLINS of Texas. I would say, Mr. Chairman, that the reason the authorization bill is not cleared is not the fault of the other body; it is the fault of this body. This bill is sitting today in the Committee on the Judiciary right now. Because the Senate confirmed and expanded on this amendment, they have a much broader amendment than we do.

□ 1550

I think it is necessary for us to continue to send this message to the Justice Department about how we feel. It would seem to me that since both bodies have now passed it, that at this time the other body would join us in passing it also.

Mr. SMITH of Iowa. I just point out again, though, the amendment is not going to pass. We know that. The gentleman has pursued his amendment twice. He has gotten record votes and won overwhelmingly. He has made his point. The administration seems to agree with him wholeheartedly, and takes that position in court.

I just would like to prevail on the gentleman to not press his amendment at this point. I concede that if he does he will probably win, and probably that is the position of the House if we were to vote strictly on whether or not it is busing. But really that is not the question as I see it now. The question is, Do we want a bill enacted for these departments, or do we want to go under a continuing resolution for the rest of the year? I hope we do not have to do that.

Mr. COLLINS of Texas. If the gentleman will yield further, I would say that the reason the bill did not move forward is the gentleman from Connecticut over in the other body, who would like to talk for an unlimited time, but the will of the majority is that they would like it to go forward.

I will also add, in Baton Rouge, La., the gentleman from Louisiana (Mr. MOORE) and Mr. JOHNSTON, the gentleman from the other body, their strong position on encouragement and explaining to the Justice Department the need to move, because if we do not take action we are going to turn every one of the balanced school systems in America into segregated schools, out of balance. I think it is very important that we continue to express ourselves in this House.

Mr. SMITH of Iowa. But we do not have to take action again on this bill. We have already taken action on the authorizing bill, taken action two or three other times. I just hope that we will not adopt this amendment today because what we are really doing is not voting on busing, but saying that we want the Department of State, the Department of Commerce, the Department of Justice, the Judiciary of this country, and all these related agencies, that we do not want them to have money in their own right in an appropriation bill. What we want to do is force them under a continuing resolution. That is not a good way to run the Government.

Mr. KASTENMEIER. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield.

Mr. KASTENMEIER. Mr. Chairman, I would agree with the gentleman in the well, and furthermore state that I think this House ought to be conscientious about taking a position which is contrary to existing law; that is, to forbid the Justice Department from doing that which it is constrained to do pursuant to other laws of this Congress.

Mr. SMITH of Iowa. I would urge again that the gentleman withdraw his amendment. If he will not, I hope the House will vote this time not on whether one is for or against busing, but on whether or not one wants this bill be hung up and these Departments to have to operate again under a continuing resolution.

Mr. PEYSER. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

Mr. Chairman, I find myself in an unusual position on this amendment because, basically, I am not a supporter of forced busing and I have indicated that in the past. However, as I read this amendment it says that no part of any sum appropriated by this title shall be used by the Department of Justice to bring any sort of action to require, directly or indirectly, the transportation of any student to a school other than to the school which is nearest the student's home.

Now, it seems to me that that says that no matter how flagrant a violation of the rights of an individual might be, how flagrantly they might be violated, that this really prohibits the Justice Department from doing anything. There is no way in this amendment, if it were to be passed, that if a board of education chose to take steps that would really violate everything that most of us believe in, that the Justice Department would be prohibited from taking any action whatsoever. Is that not what the gentleman's amendment would do? I would be glad to yield to the gentleman from Texas.

Mr. COLLINS of Texas. Mr. Chairman, I appreciate the gentleman yielding to me. There are many alternatives they could take instead of busing. For instance, they could have a magnet school. I would recommend that. It is the system used in Richardson, Tex., a community located near me. The system they have there is that they let one school be a voluntary school in a minority neighborhood. Anyone that wants can have their children transferred into that school. They picked the neighborhood, it is a black community, and they said that it must not be over 50 percent either black or white. It is interesting that we have had only one child in 5 years who was black who asked to be transferred out. It is also interesting that the number of white children who want to go to that

school, they have a 3-year waiting list. So, here we have a voluntary school that is most successful, not only in achieving racial balance, but in preventing segregation.

Mr. PEYSER. If that proves to be a very successful thing in that area of Texas, I think that is probably fine, and the people feel good about it, but this really is speaking to the entire United States of America. Every State in the Union is affected, and it may not be that way in every State. What the gentleman is doing by this amendment, is so sweeping that it literally, no matter what an area chooses to do in the schools dealing with this question, the Justice Department cannot get involved.

I would think that even those who are opposed to forced busing could not support this amendment because it is just far too sweeping. It is the equivalent of really trying to bring a constitutional amendment against busing to the floor. I think that those who feel strongly on busing do not have to worry about voting no on this amendment because this amendment goes much further I think than reasonable Members would ever want to go on this issue.

Mr. COLLINS of Texas. Will the gentleman yield further?

Mr. PEYSER. I will be glad to yield.

Mr. COLLINS of Texas. I appreciate what the gentleman is saying because what he is asking for are for other reasonable, practical alternatives. What this amendment does is, it says that we are not going to mandate forced busing, but let children go to neighborhood schools.

Let me give the gentleman another alternative. It is what they call freedom of choice. That means that youngsters should be entitled, where space is available, to go to any school in the school district. Suppose one high school in the city offers German. They can go and take German there or for whatever reason they want, they have the right to transfer. They suggested freedom of choice before, and the courts have said no, but judges want to go busing. What is wrong with this freedom of choice, to let children go where they want to go?

Mr. PEYSER. We are practically talking now about what is known as the voucher system. Years ago, and I served on this Education Committee since 1971, we had what was known as a voucher system that we tested, where a student could go to any school he wanted to and transfer the money that was going into one school and go to another school. What we found was, very quickly we had a difference of levels of schools in a given area. I do not think that is the way this country intended to build our education system, and in spite of criticism, I say to my friend from Texas, our education system is really doing, I believe, an outstanding job.

The CHAIRMAN. The time of the gentleman from New York has expired.

(By unanimous consent, Mr. PEYSER was allowed to proceed for 3 additional minutes.)

Mr. PEYSER. Mr. Chairman, I think the point I would like to make at this time—and this is to people who are concerned about busing—is that this amendment goes very much too far in handling this issue of busing. They can easily vote against this amendment and still express a concern, and still have legislative action that might be taken dealing with specific forced busing, but we are here eliminating any opportunity for outright injustices that could take place in this country. We are saying to the Justice Department, "You cannot get into it no matter how flagrant it is, no matter even how much in violation of the Constitution it may be. You cannot go into this program."

I urge my colleagues to vote "no" on this measure We cannot let this go through. It will have the impact that the chairman said, of stopping this bill. It will also have the impact of sending a very clear statement to the people of this country that the Justice Department no longer can carry out its functions, that this House of Representatives, the Congress, has really stopped them. I do not think that is what we mean to do.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Texas (Mr. COLLINS).

□ 1600

The question was taken; and on a division (demanded by Mr. COLLINS of Texas) there were—ayes 8, noes 14).

Mr. COLLINS of Texas. Mr. Chairman, I demand a recorded vote, and pending that, I make the point of order that a quorum is not present.

The CHAIRMAN. The Chair will count. Thirty-eight Members are present, not a quorum.

The Chair announces that pursuant to clause 2, rule XXIII, he will vacate proceedings under the call when a quorum of the Committee appears.

Members will record their presence by electronic device.

The call was taken by electronic device.

□ 1620

QUORUM CALL VACATED

The CHAIRMAN. One hundred Members have appeared.

A quorum of the Committee of the Whole is present. Pursuant to clause 2, rule XXIII, further proceedings under the call shall be considered as vacated.

The Committee will resume its business.

RECORDED VOTE

The CHAIRMAN. The pending business is the demand of the gentleman from Texas (Mr. COLLINS) for a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 243, noes 153, not voting 37, as follows:

[Roll No. 427]

□ 1630

So the amendment was agreed to.

The result of the vote was announced as above recorded.

Mr. SMITH of Iowa. Mr. Chairman, a number of Members have asked me how long it is going to take on this bill. I do not know. But while a lot of Members are here, I will make a unanimous-consent request that all debate on the bill end at 6 o'clock.

The CHAIRMAN. The Chair would advise the gentleman from Iowa that his request is not in order until the bill is open for amendment at any point.

□ 1640

Mr. SENSENBRENNER. Mr. Chairman, did the gentleman propound a unanimous-consent request?

The CHAIRMAN. The gentleman withdrew the unanimous-consent request.

The Clerk will read.

The Clerk read as follows:

LEGAL SERVICES CORPORATION

PAYMENT TO THE LEGAL SERVICES CORPORATION

For payment to the Legal Services Corporation to carry out the purposes of the Legal Services Corporation Act of 1974, as amended, $241,000,000: *Provided,* That none of the funds appropriated in this paragraph shall be expended for any purpose prohibited or limited by or contrary to any of the provisions of H.R. 3480, as passed the House of Representatives on June 18, 1981.

This title may be cited as the "Department of Justice and Related Agencies Appropriation Act, 1983".

Mr. BUTLER. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise in support of this legislation.

I would like to commend the committee for its work, particularly regarding the appropriation for the Legal Services Corporation. The Judiciary Committee along with this House last year fashioned 30 amendments designed to meet every serious criticism of the corporation, including cutting its authorization level by 25 percent.

I commend the chairman of the subcommittee, the distinguished gentleman from Iowa, who offered an amendment in committee on this bill which would have the effect of incorporating into this appropriation measure every change this House made last year when it passed the Legal Services Corporation Authorization Act. It is my understanding that funds appropriated in this legislation shall only be expended in accordance with the provisions of that legislation as that measure passed the House of Representatives last year.

Mr. Chairman, the language in question appears on page 26 of the bill at line 22 and reads as follows:

"*Provided,* That none of the funds appropriated in this paragraph shall be expended for any purpose prohibited or limited by or contrary to any of the provisions of H.R. 3480, as passed the House of Representatives on June 18, 1981."

H.R. 3480 is the authorization bill.

One of the 30 changes made in that authorization bill was the repeal of the so-called presumptive funding rights, a concept virtually unique to the Legal Services Corporation.

Mr. Chairman, I would view the expenditure of funds for procedures that recognize presumptive funded rights to be contrary to the provisions of H.R. 3480 and, therefore, prohibited by the provisions of the legislation before us.

I would like to ask the distinguished subcommittee chairman, what is the understanding of his amendment as he presented it to the Appropriations Committee?

I yield to the gentleman from Iowa for that purpose.

Mr. SMITH of Iowa. Mr. Chairman, the bill clearly says that whatever is in the authorizing legislation, that is the law. We expect that to be followed precisely. We are not trying to change anything at all in the appropriations bill.

Now, when it came up in the continuing resolution on page 21 of that report, there is a paragraph concerning this particular matter and we further construed it there as it relates to the limitation that was in that conference report and that is on the continuing resolution, which expires December 17.

I want to make clear also that it is my understanding that the gentleman who was the author of the amendment and the committee did not expect this restriction to be used as a way to arbritarily refuse to refund local programs. It was not to be used, and I do not think the gentleman intended it to be used, as a way to eliminate legal services to any area of the country. Is that correct?

Mr. BUTLER. Reclaiming my time, Mr. Chairman, certainly we do not want to abuse the discretion of the Legal Services Corporation, but we do not want them to be in a position to arbitrarily deny refunding.

I hope the gentleman will understand that the presumptive funding rights, as has been previously construed, has been substantially curtailed by this legislation.

Mr. SMITH of Iowa. Well, I think the bill clearly says whatever is in H.R. 3480 is to be the law.

Mr. BUTLER. Mr. Chairman, I thank the gentleman.

AMENDMENT OFFERED BY MR. SENSENBRENNER

Mr. SENSENBRENNER. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SENSENBRENNER: On page 26 line 22 strike $241,000,000 and insert in lieu thereof $100,000,000.

Mr. SENSENBRENNER. Mr. Chairman, my purpose today is to seek to reduce the appropriation for the Legal Service Corporation from its present $241 million to $100 million for fiscal year 1983.

I do not intend to take the time of the committee this afternoon to rehash the debate over the authorization legislation which passed the House in June 1981; however, since that time it has become readily apparent that grantees of the Legal Services Corporation have been overfunded, have been given more money by the Legal Services Corporation board and administration and have salted that money away for a rainy day.

In my opinion, this is an arrogant attitude on the part of those recipients that have been asking the Federal Government to borrow money and to

increase the deficit so that they can put money into certificates of deposit, buy houses or make other investments. Like every other Government agency, the grantees of the Legal Services Corporation should be expected to and required to live on a current budget, rather than acting as somewhat of an investment and brokerage outfit.

The Legal Services Corporation itself this summer estimated that its grantees had an unexpended balance of $41 million. That is $41 million of the taxpayers' money that has been given to them for the purpose of providing legal aid to the poor, but was not expended for that purpose at all.

In the Washington Post of August 24, 1982, an article appeared that indicated that the Legal Services Corporation memo indicated that 26 programs had fund balances exceeding 50 percent of their annual grant and another 64 local programs have failed to expend funds totaling more than 25 percent of their annual grant.

The same day an article appeared in the New York Times that indicated that one grantee in Montgomery County, N.Y., used some of its unexpended funds to buy a house to house the Legal Services Corporation office.

□ 1650

In the State of South Carolina, the Legal Services of the Fourth Judicial Circuit had an unexpended fund balance of 132 percent of its annual grant, or $604,000.

Finally, in testimony before the subcommittee, attorney David Clark of Greensboro, N.C., who has served as a member of the board of Legal Services of North Carolina since 1976, testified that that grantee had an unexpended balance of $1.2 million and that there was investment income of over $300,000 per year.

That is unconscionable. Here is a grantee who has received Federal funds using money that has been used to increase the Federal deficit and which is costing the taxpayers of this country interest money to put in certificates of deposit so that the organization can earn interest.

The gentleman from Texas (Mr. HIGHTOWER) was a bit flabbergasted at this revelation and asked Mr. Clark a question. Mr. Clark answered the question: "In certificates of deposit, that kind of thing. So as a result, you got $386,000 in investment income that we had as of January 1982. We have got to figure out how to spend that. So we spent $222,000 for private bar participation."

Mr. Chairman and my colleagues on the committee, we should not be rehashing whether Legal Services Corporation has merit or not. That has been resolved. The Corporation is going to be around for a while. But what we should be deciding here today is whether they should continue having a $241 million annual appropriation that was given to them last year in light of the uncontroverted testimony that many of the grantees are using this money not for operational expenses but to invest and to live off of the income from those investments.

Mr. SAM B. HALL, JR. Mr. Chairman, will the gentleman yield?

Mr. SENSENBRENNER. I yield to the gentleman from Texas.

The CHAIRMAN. The time of the gentleman from Wisconsin (Mr. SENSENBRENNER) has expired.

(On request Mr. SAM B. HALL, JR., and by unanimous consent, Mr. SENSENBRENNER was allowed to proceed for for 2 additional minutes.)

Mr. SAM B. HALL, JR. I thank the gentleman for yielding.

Mr. Chairman, I would like to join with the gentleman in this amendment. I think it is a good amendment. I would like to see the entire amount stricken, as I imagine the gentleman would, but I know that is not possible.

I would say that the Legal Services Corporation in my part of Texas has gone completely beyond the scope of what was intended in its charter. I might add that the President did not ask for any money for Legal Services, I think it is a good amendment and I hope it passes.

Mr. SENSENBRENNER. I thank the gentleman from Texas for his comments.

Mr. Chairman, to sum up, there is uncontroverted testimony that the Legal Services Corporation and its grantees have been overfunded. I regret that the subcommittee ignored that testimony. It is now time for this House to listen to what is going on and to pass this amendment so that the funding for the Corporation can be reduced to a more manageable amount and perhaps some of these grantees can live off the investment income that they have been accumulating over the years.

Mr. VOLKMER. Mr. Chairman, will the gentleman yield?

Mr. SENSENBRENNER. I yield to the gentleman from Missouri.

Mr. VOLKMER. I thank the gentleman for yielding.

Mr. Chairman, first I would like to say that I am going to have to oppose the gentleman's amendment, but one of the Legal Services Corporation areas that does have some excess money at the present time is right in my home area.

Perhaps the gentleman should understand some of the reasons why, because I have gone over it with them. When they originally funded them, there was a delay in the funding and when they were originally funded they were funded for a full year. They actually only operated about 6 months. But instead of just going out and spending the money, they worked very efficiently and they had some money left over.

That money, instead of again going out like some Federal agencies would do, go out and just spend it to get rid of it, they have, again, not used it all. I do not think we should criticize them for being efficient in the use of our Federal taxpayer dollars in not using all of it, but I think we should talk more to the Legal Services Corporation to make sure that they fund these projects in the proper amounts.

The CHAIRMAN. The time of the gentleman from Wisconsin (Mr. SENSENBRENNER) has expired.

(On request of Mr. VOLKMER and by unanimous consent, Mr. SENSENBRENNER was allowed to proceed for 3 additional minutes.)

Mr. VOLKMER. Mr. Chairman, will the gentleman yield further to me?

Mr. SENSENBRENNER. I yield to the gentleman from Missouri.

Mr. VOLKMER. I thank the gentleman for yielding.

Mr. Chairman, if there are examples where there have been abuses, I do not think we should jeopardize the whole program. In my area it works very well with both the Legal Services Corporation having in-house lawyers in certain areas, and we also have Judicare working right with it, and it has worked very well.

I would hesitate to cut back to the extent that the gentleman wishes to cut back and jeopardize the program.

Mr. SENSENBRENNER. Mr. Chairman, reclaiming my time, if the gentleman's Legal Services grantee has expended its funds wisely, God bless them for that. At least they did not go out and buy a house with the money that they had left over.

Mr. VOLKMER. No.

Mr. SENSENBRENNER. But at the same time, Mr. Chairman, coming in with no reductions, as the subcommittee has suggested, for the Legal Services Corporation, in my opinion ignores what the Legal Services audits have said, and that is that there is at least $41 million worth of unexpended funds lying around in the present grantees of the Legal Services Corporation.

Now, to come back and say they are going to get the same amount of money they got last year, at a time of spiraling budget deficits, in my opinion is irresponsible. That is why this amendment is before the Committee of the Whole House, and that is why the amendment ought to be adopted.

Mr. ANTHONY. Mr. Chairman, will the gentleman yield?

Mr. SENSENBRENNER. I yield to the gentleman from Arkansas.

Mr. ANTHONY. I thank the gentleman for yielding.

Mr. Chairman, because of my past years in the prosecutor's office, I have

been a strong supporter of legal services for the poor, but I must admit that in recent months I have experienced some of the same problems in my State that my colleague, the gentleman from Texas (Mr. SAM B. HALL, JR.) has expressed on the floor of this House; that the lawyers for Legal Services have been going outside their scope.

In fact, I have underway an investigation of certain acts and allegations about Legal Services in my congressional district in Arkansas. I still am a supporter of Legal Services in principle, but I think maybe the gentleman is going at it a little bit in the wrong direction.

I would only offer one example for the gentleman's consideration. We know that we have revenue sharing turnback to the cities and to the States. I know of many times where that money is utilized in the exact way that the gentleman is talking about with Legal Services right now, where that money actually was placed on deposit and does earn interest.

So if we apply the principle here, it appears we would have to apply the same principle not only here but also on revenue turnback.

Let us look at our Defense Department, with all of the unexpended funds that we have there. We certainly have to take a hard look there.

What I would recommend is that, through the framework of the Legal Services Corporation and its Board of Directors, that we, No. 1, get that issue resolved, and then take a hard look at the charter and make sure they provide the needed services.

Mr. SMITH of Iowa. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise in opposition to the amendment. Now, there is a legitimate difference of opinion among the Members of the House as to whether or not there ought to be legal services for the poor. There cannot be any difference of opinion as to whether or not there should be a right to legal counsel for defendants in criminal cases because the Constitution says we have to provide them with legal counsel if they cannot afford to have their own.

But for poor people who are trying to provide some legal assistance in complying with the law, our often complicated laws. We are trying to help them get what is coming to them from social security—and 38 percent of these cases are those kinds of cases. They have to rely upon some kind of public funds so that they can get legal talent to help them comply with the law in a country where we have a country of laws and not of men. That is what this is all about.

Now, we can have a difference of opinion, some say if you do not have the money to have a lawyer you do not have the right to have the benefits that are supposedly available to people under the law. I do not agree with that. But on the other hand, let us not fuzz up this issue and claim that Legal Services programs have more money than they can use when, in fact, they have less.

We have looked into this matter of some of them having some money left over. If a corporation hires a lawyer or if an individual hires a lawyer, they do not pay him until he is finished his work. It would not be prudent for them to do so.

□ 1700

They hold back payment and maybe pay him as he goes along. The same reasoning applies to Legal Services programs. They would have been wrong if they had paid all these lawyers in advance. In fact, they could not because they did not know how many hours they were going to work. So, in all these cases where there were unspent balances, except four, on investigation it was found that it was prudent to do what they did, and we would want them to do it again. We do not want them to spend every dime before the end of the fiscal year.

Mrs. FENWICK. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield to the gentlewoman from New Jersey.

Mrs. FENWICK. Mr. Chairman, I thank my colleague for yielding, and I do so heartily support his words.

I was president of our county legal aid society before we had Legal Services, and I am on the board. If we have, as we have in New Jersey, a public advocate for the criminal, surely we must have proper and adequate legal services for people who are poor.

We have garnishee of wages, landlord-tenant problems, divorce, we have human problems, and they need help and have to go to court for the support of their children. This is absolutely essential.

Mr. SMITH of Iowa. I thank the gentlewoman. Another thing is, this board tried to rely too much on getting local bar associations to do the work, and they made grants in some cases and the local bar did not use the funds. They were trying to avoid the regular Legal Services program. I am for trying anything, but that was part of the reason why there were carryover balances in some programs. So, there were ony four cases where they found there were actually excessive funds left over. That is something the board of the Legal Services Corporation can take care of.

The fact is there is $241 million in this bill for the Legal Services Corporation, which is a 25-percent cut from the fiscal year 1981 level, and the same number they received last year. This means that there will be a program cut because of inflation and other mandatory cost increases that have occurred over the last 2 years.

Mr. SENSENBRENNER. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield.

Mr. SENSENBRENNER. In the course of the subcommittee's investigation, did the subcommittee find out how many of these Legal Services grantees were paid on a fee basis, based upon number of hours of the attorneys, but not on how many of those attorneys were actually salaried employees who drew a regular salary every week or month or how often?

Mr. SMITH of Iowa. I do not know the exact number. There were some of both. As the gentleman knows, the current board wants to rely on local bar associations.

Mr. SENSENBRENNER. If the gentleman will yield further, I seem to recall that the subcommittee reported the present bill sometime in August.

Mr. SMITH of Iowa. Right.

Mr. SENSENBRENNER. And is the gentleman from Iowa aware that the Legal Services Corporation itself issued a memorandum dated August 19 dealing with the overfunding problem, and using some of the figures that I quoted in the course of the argument in favor of my amendment? Did the subcommittee have the benefit of that memorandum at the time it marked up the bill?

Mr. SMITH of Iowa. We have had the benefit of all the investigations that have been made. I am sure they used some of the same figures, but the fact remains that the Legal Services Corporation found it was a prudent thing for most of these programs to do what they did.

Mr. RAILSBACK. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield to the gentleman from Illinois.

Mr. RAILSBACK. Mr. Chairman, may I just say that when we originally passed the Legal Services legislation with the support, I might add, of President Richard Nixon, then with the very strong support of President Gerald Ford, it was determined by the Corporation, after investigating the situation of the number of poor in the country, that the very least our country could do for people in legal need was to provide two lawyers for every 10,000 poor people—people that have to qualify under the law.

The CHAIRMAN. The time of the gentleman from Iowa has expired.

(At the request of Mr. RAILSBACK and by unanimous consent, Mr. SMITH of Iowa was allowed to proceed for 3 additional minutes.)

Mr. RAILSBACK. That is a much lower ratio of legal protection and advice than for people who are able to afford it naturally have. I would say to the gentleman from Wisconsin that right now, if we were to try to ade-

quately fund legal aid for the poor, it would be costing us something like $600 million. That is what we figured, given the very substandard legal rate for the legal aid lawyers, most of whom are young, most of whom are dedicated.

I say that knowing full well that there have been some abuses, we have had some abuses. Let me say there are many, many poor people, and if we cut this back by $141 million, there are going to be many, many people who are going to completely lose their access to any kind of justice at all. We just do not do that in the medical arena. We try to provide medical help for the poor, and at much greater expense.

Mr. SMITH of Iowa. I thank the gentleman. I want to point out one more thing. Since a year ago, when the 25-percent reduction in funding for the Legal Services Corporation was made, there have been a number of new laws enacted. There is a lot more need for legal services to help them comply with these new laws. For some of these people, the need is greater than it was before.

This is the same amendment we had a year ago. I say that anybody who voted against this amendment a year ago certainly ought to vote against it now, and it would be easy to rationalize for those who voted for it a year ago to vote against it now because the needs are greater and the need per poor person is going to be greater.

Mr. KASTENMEIER. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

I will not take the whole 5 minutes, but I did want to say that, in rising in opposition to the amendment of the gentleman from Wisconsin (Mr. SENSENBRENNER), one should understand that last year he did offer, not the same amendment, but one for the total elimination of the funding. I agree with the gentleman from Texas (Mr. SAM B. HALL, JR.) that that represents more clearly his real position. It is not to aid this program.

But, I think we ought to look at the program for its impact. Last year, as a result of the 25-percent trim that the Legal Services Corporation took along with many, many other domestic programs in this country, the local programs were forced to close about 20 percent or 288 of the local offices throughout the country. The local programs lost 28 percent of their field personnel, or 30 percent of its professional personnel in the transition to accommodate our 25-percent reduction in funding.

Last year, on June 18, 1981, we passed the authorizing legislation (H.R. 3480) in this Congress, and not only did we provide for that $241 million level of funding, but we also provided a number of other restrictions. I think, by and large, those Members who have complaints or reservations will not believe that those restrictions are extant today. We have not recently had whatever complaints may have been valid in preceding years.

This is an old and established program. As the gentleman from Illinois (Mr. RAILSBACK) pointed out, it was recommended originally by President Nixon, and has had very strong bipartisan support, and support from this body. I do not think the representations of the gentleman from Wisconsin (Mr. SENSENBRENNER) should lead anyone to feel at this point that we want to scuttle what is left of this very useful program. Furthermore, for those Members who are concerned about the direction of the Corporation, if anything its problems may be very different than 2 years ago or 4 years ago. All 11 of the recess appointments to the Board of this Corporation are presently being filled by President Reagan, not by President Carter or by any other preceding administration.

So, those Members who are concerned that this is somehow a liberal agency ought to know that those in charge of the Corporation represent an entirely different philosophy. While that may in due course pose a problem, it is not a problem which is cured by reducing the funding to $100 million or eliminating it all. No, Mr. Chairman, what we need here is a vote of confidence for the Corporation, hopeful that it can continue its task even at its current reduced level on behalf of those people of this country who are unable to afford legal assistance and in the interest of this country as a whole.

I urge rejection of the amendment.

□ 1710

Mr. SAWYER. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

Mr. Chairman, I am opposed to the figures that have been given here, and I am intimately familiar with the West Michigan Legal Services Corp. They have had to close three of their offices in the smaller cities of west Michigan. They no longer have the personnel that they can even handle a divorce for a poor person, absent child abuse or physical spouse abuse. They are rejecting almost everything they can possibly reject because of the inadequacy of their personnel.

All of the lawyers and all of the law firms throughout western Michigan have been asked to and are contributing either pro bono time without charge and/or making equivalent financial contributions to keep afloat what we have.

Now, to tell the poor people in this country that we are maintaining a court system and, therefore, they should stay off the streets and do it in an orderly way when they have a grievance against their neighbor or against the Government and then say, "we won't provide you any access to that system" is just to invite trouble in the streets and what not, besides being totally unfair when we compare the situation with that of indigent criminals.

These are people with nuts-and-bolts problems. They have problems with their landlords, they have problems with evictions, they have problems with their social security, they have all kinds of legal nuts-and-bolts type problems, and to say that the court system is going to sit there and not take care of them because it does not provide access is, I think, a crying shame.

Two years ago we cut 25 percent out of this budget and brought it down to $241 million. Even then they had to greatly increase the pro bono and law firm contributions to it to keep it even surviving at its present level, and the fact that some of these isolated agencies here and there have apparently accrued some surplus waiting to get billed on contract time is, I think, to their credit rather than to their fault.

But whatever it is, I can assure the Members that actually there is no surplus; there is a huge deficit. Here in Washington, D.C., for example, Covington and Burling, one of the large firms here, provides a full-time lawyer and a secretary to the Corporation to help discharge the obligation.

So, if there is a surplus here and there, this is an administrative problem of the Legal Services Corporation which was substantially unable to weather the situation last year becuase of the inability to replace its board members, all of whose terms have terminated, and the resignation of the president and the appointment of an acting president.

But for goodness sake, let us not close down the actual field services of these donee agencies. Let us get the main agency back on its feet and let it scrutinize where the money is going among these donee agencies, because I assure the Members there is not enough money to go around as it stands now, and they are only surviving because of the generosity of the legal profession around the country.

Mr. BUTLER. Mr. Chairman, will the gentleman yield?

Mr. SAWYER. I yield to the gentleman from Virginia.

Mr. BUTLER. Mr. Chairman, I thank the gentleman for yielding, and, of course, I wish to be associated with his remarks.

The situation the gentleman has described, is, of course, the situation with the 25-percent reduction from last year's funding. Now, if this amendment is agreed to, there will be

an additional 60 percent reduction in funding, which would virtually eliminate the ability of the Legal Services Corporation to meet any of the needs across the country, causing the closing, I am told, of 540 local offices and the loss of almost 3,000 attorneys, and all the figures we could extrapolate from the extension of 60 percent over a 25-percent reduction are magnified by the fact that one-quarter of the year has already gone. So the rate has got to be reduced even further.

So, Mr. Chairman, it would be catastrophic if this amendment were agreed to.

Mr. SAWYER. Mr. Chairman, I may say that I am on the committee with oversight on this, and we listened to all the horror stories the Howard Philips and everybody else had. We isolated them down to about 7 out of almost 300 donee agencies where apparently there was some lack of good judgment on the part of the director. We looked at every one of those grievances, and we put in specific prohibition preventing that kind of conduct. Some of it was totally legitimate. Sometimes a young, ambitious, fire-eating lawyer out there gets tired of nuts-and-bolts stuff, and it is pretty heady stuff to have a nice big class action suit.

The CHAIRMAN. The time of the gentleman from Michigan (Mr. SAWYER) has expired.

(By unanimous consent, Mr. SAWYER was allowed to proceed for 2 additional minutes.)

Mr. SAWYER. Mr. Chairman, it is true that a lawyer may get into more interesting class actions and that sort of thing, but in many of those areas there are special privately funded agencies that are there that can handle those highly controversial issues without prejudicing the existence of this agency, which is the only one that provides nuts-and-bolts legal services.

Mr. CROCKETT. Mr. Chairman, will the gentleman yield?

Mr. SAWYER. I yield to the gentleman from Michigan.

Mr. CROCKETT. Mr. Chairman, I want to associate myself with the remarks made by my colleague, the gentleman from Michigan (Mr. SAWYER). He has done an excellent job of telling us what the situation is in the western part of our State.

That same situation prevails in the metropolitan area of the city of Detroit. I suggest that instead of cutting back on the appropriation, we really should increase it. I think we should recognize that the demand for legal services increases in direct proportion to the amount of unemployment.

In my district, the 13th District, I find 1 out of every 4 persons unemployed. They are in no position, Mr. Chairman, to raise the money necessary to protect what few rights they do have. I think the gentleman from Michigan (Mr. SAWYER) is presenting the position with respect to our State, and I compliment him for having the courage to come here and point it out like it really is.

Mr. SAWYER. Mr. Chairman, I thank the gentleman from Michigan (Mr. CROCKETT).

Mr. SAM B. HALL, JR. Mr. Chairman, will the gentleman yield?

Mr. SAWYER. I yield to the gentleman from Texas.

Mr. SAM B. HALL, JR. Mr. Chairman, the gentleman and I do not usually disagree, but we are 180 degrees apart on this issue.

Mr. SAWYER. Well, Mr. Chairman, I say to the gentleman, "you can't be right all the time."

Mr. SAM B. HALL, JR. Mr. Chairman, I would just like to ask the gentleman a question and make this observation: the Legal Services Corporation charter stated that it would be for the help of poor people. I applaud that idea.

However, is it not a fact that in the gentleman's area, as it has been in my area, Legal Services has taken it upon itself to file class action suits against hospital districts, against cities, and against all areas of government?

I say to the gentleman that that is not seeking to help the poor; that is seeking to establish some sort of social legislation.

The CHAIRMAN. The time of the gentleman from Michigan (Mr. SAWYER) has again expired.

(By unanimous consent, Mr. SAWYER was allowed to proceed for 2 additional minutes.)

Mr. SAWYER. Mr. Chairman, I will just say this: we have put a prohibition in against the bringing of class actions without getting up through several echelons of approval, because there are some times when class actions make total economic sense.

If somebody is being overcharged for their sewage in a neighborhood or they are not providing sewer services in a city or a neighborhood and they are acting discriminatorily, it is silly to bring one action after another for the people living in that neighborhood to get connected to a sewer system. So that would be a class action, and that would be a justifiable one.

Now, there are other nutty ones, and what they need is better and more mature supervision, as opposed to perhaps some wild-eyed young lawyer without much experience or a project director who is weak. We have done that. We have provided top-level supervision and requirements of approval and the writing of regulations to govern the bringing of these class actions because we recognize that was a sore point.

Mr. KASTENMEIER. Mr. Chairman, will the gentleman yield?

Mr. SAWYER. I yield to the gentleman from Wisconsin.

Mr. KASTENMEIER. Mr. Chairman, in its final form, as I recall, the House passed a restriction in H.R. 3480 which prohibited all class actions involving public entities, that is, units of government like the several units of government the gentleman from Texas (Mr. HALL) has mentioned.

Mr. SAWYER. And the writing of regulations covering any of those that are left that could be brought, in order to assure that we do not have the kind about which we got complaints.

Mr. SAM B. HALL, JR. Mr. Chairman, will the gentleman yield for one further question?

Mr. SAWYER. I yield to the gentleman from Texas.

Mr. SAM B. HALL, JR. Mr. Chairman, I agree with the gentleman from Wisconsin (Mr. KASTENMEIER) about the prohibition against class action suits, but in some areas of the country the Legal Services people are not paying any attention to what we do in this body, and I might say this as a vivid example: there has been a class action suit filed against the county officials in one of the counties in my district since that prohibition was passed in the last Congress. They have absolutely shut down the city of Center, Tex.

The CHAIRMAN. The time of the gentleman from Michigan has again expired.

(On request of Mr. FISH and by unanimous consent, Mr. SAWYER was allowed to proceed for 3 additional minutes.)

Mr. SAM B. HALL, JR. Mr. Chairman, if the gentleman will yield further, they have also absolutely more or less shut down the city of Troup, Tex. in a class action suit.

The purpose of my statement here today is to point out that these people are continuing to do what they have been prohibited from doing by this body. Now, I think as long as they do that, as long as they continue to go full speed ahead, they should be tapped on some of the resources that they are spending.

□ 1720

Mr. SAWYER. We addressed that too, and we gave the board the power to defund any agency or withhold their funds while they were in violation of those regulations and rules that we adopted.

If anyone is to blame for that not being done it is perhaps the administration in that they have not installed a board and have just withdrawn their appointees. They are enacting a precedent there. But they do now have that specific power to defund and withhold funding from any agency that is not in compliance with the authorization.

Mr. SHAMANSKY. Mr. Chairman, I move to strike the requisite number of

words, and I rise in opposition to the amendment.

As a young lawyer I participated in the Columbus Bar Association's legal aid committee. As a result of that, the bar and the community itself realized that the services that were needed by the poor of our community were not being made available.

I have to explain in my remarks that I am a business lawyer. My firm operates in Columbus and Cleveland and Miami and represents business and professional people.

The Columbus Bar Association, the American Bar Association, and the Ohio State Bar Association support the Legal Services Corporation, and it is absolutley not for the reason that it is for the relief of lawyers. These clients do not have any money. However, these lawyers could earn—and they are good lawyers—could earn a better living elsewhere.

The point is that we must as a society bring these people into our legal system. It is better to bring them in than to exclude them.

We are not gaining anything as a society by telling them that they must go elsewhere for redress of their grievances.

I am also a landlord, and I will admit sometimes I have a dispute with a tenant. It is conceivable that I am wrong. I know it is difficult to imagine that, but as a theoretical possibility it could be that a landlord is wrong. These are the disadvantaged people that we should, as landlords or business people or as professional people, seek to involve in our legal system.

The danger is that we exclude them. The punitive reproach, the punishment of these people, to say the legal system is available only to those of means does not strengthen our society. I submit to you respectfully that it weakens everybody who is above, economically and socially, these people at the bottom, and they clearly are at the bottom.

We need these services. In fact, I have a client who was sued in another State. I felt the Legal Services Corporation in that case was dead wrong, and I was very indignant about it.

The important point is, though, that the law has been amended as of last year for better supervision. I think it is grossly unfair and improper to kill the whole system in effect by such gross reductions in funds because of a lack of administration.

Now we have a clear line of authority. The President can appoint these officials. They can run a tighter ship.

But do not take it out on the people who should be involved in our system. The worst thing we can do is to tell the poor to go elsewhere, but do not go where you can have your grievances addressed fairly and rationally and impartially. This is the worst possible thing for the stability of our society.

Mr. FISH. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, in a moment or two the gentleman from Illinois (Mr. O'BRIEN), ranking member of this subcommittee, will speak for the minority in opposition to the pending amendment. But I would not like to let this moment go without saying something to my colleagues.

I think we have witnessed perhaps the last act of a trio of gentlemen who have been very important to Legal Sevices. You have just seen the trio of the gentleman from Michigan (Mr. SAWYER), the gentlemen from Illinois (Mr. RAILSBACK), and the gentleman from Virginia (Mr. BUTLER) speak in opposition to this amendment and from the depth of their experience in favor of the Legal Services Corporation.

It is these three colleagues of mine in the minority who more than any others have been responsible for identifying the weaknesses in Legal Services, for fashioning the legislation to beat these weaknesses, and to championing the continuation of the Legal Services Corporation.

I was delighted to see the three of them together again this afternoon, which will, unfortunately, not be possible to occur again in the near future.

Mr. KASTENMEIER. Mr. Chairman, will the gentleman yield?

Mr. FISH. I yield to the gentleman from Wisconsin.

Mr. KASTENMEIER. I thank the gentleman from New York (Mr. FISH) for yielding, and very especially appreciate his reference to our colleagues, particulary the gentleman from Illinois (Mr. RAILSBACK) and the gentleman from Virginia (Mr. BUTLER) who are leaving this body. Far more than on this bill they have rendered profound service to this body and to the country.

But on this particular bill it is typical of the constructive and crucial role they have played over the years in making it possible for us to continue the Legal Services Corporation and to have with it a vote of confidence from the Congress. They indeed will be sorely missed and I, like the gentleman from New York (Mr. FISH) and so many other Members of this body, wish them very well.

Mr. FISH. I thank the gentleman and yield back the balance of my time.

Mr. COURTER. Mr. Chairman, I move to strike the requisite number of words and rise in opposition to the amendment.

Mr. Chairman, I was a staff attorney with the Legal Services Corporation for about 2 years. I personally feel that the organization has done a tremendous amount of good for a great many people.

I know we live in a time when budgets are $200 billion in deficit and when we can look back and cite chapter and verse regarding some abuses that attorneys that worked in Legal Services did, that they were more concerned about creating new law than they were about serving the poor, that they were more concerned about initiating class actions than they were about handling landlord and tenant cases and making sure that matrimonial disputes were handled in a proper and civil manner.

I suppose I would be much more pleased with the amendment if it eliminated all of the money from Legal Services because then it would be obvious as to its true intention.

For those of us who felt there was some overreaching, some overbearance by attorneys that work for Legal Services, I believe that through the Legal Services reauthorization bill we close those loopholes and we have made sure that those attorneys that are involved are helping, in fact, those that need it the very most.

I want my colleagues to recognize the impact of this type of a cut of $141 million. In 1975 Federal funding for the Legal Services Corporation was approximately $71 million. In inflation adjusted dollars that comes in 1982 to $130 million. So what the amendment is doing is obviously bringing it back before 1975.

The number of counties served in the United States during the past number of years from 1975 to 1982 increased from 946 to 3,144. I represent four counties that are in that statistic. We would have to close 540 local offices around the country which would reduce the present total of 1,086 down to 646 if this amendment passes.

There would be a loss of approximately 3,000 attorneys from the present total of 4,600 to approximately 1,500, if this amendment passes.

We would lose approximately 4,500 nonattorney paraprofessionals and support staff if this amendment passes.

□ 1730

As I suggested before, there was a number of abuses in the legal services program a few years ago. I think that many Members, including myself, spoke out against those abuses, against those attorneys who are more interested in petitioning and lobbying Members of Congress for social legislation that they were in helping the poor. I think we serve the poor people in this country well by rejecting this amendment, the true intention of which is to eliminate legal services entirely.

Mr. WALKER. Mr. Chairman, will the gentleman yield?

Mr. COURTER. I yield to the gentleman from Pennsylvania.

Mr. WALKER. The gentleman made reference to the fact that we built protections into the authorization that was passed in 1981. There have been a

number of references on the floor here to those protections.

Can the gentleman tell me whether those protections are in effect right now?

Mr. COURTER. I would imagine that most of those protections are in effect right now, No. 1. No. 2, if they are not, I would say that is a problem regarding enforcement of the law and not the law itself. The law is not the problem. I think we spoke out very clearly about 18 months ago. So if you have a concern with some legal services offices, some board of directors not following the mandates of this Congress, then that is an enforcement problem, it is not a legislative problem.

Mr. WALKER. If the gentlemen will yield further, my understanding of the situation is that we have attempted to build those protections in. The authorization bill was held up in the Senate principally by people in the Legal Services Corporation who were not happy with some of the amendments that were added to that bill when it went through the House, some of the protections that were built in.

The language in the House bill last year and the language in the House bill this year indicates that we are trying to keep those protections from 1981 in place. However, last year that language we struck in conference, and we did not get those protections; so, therefore, they are not in place today. We have no assurances that that language will not be struck this year.

That is one of the concerns we have, that in fact we have no such protections now, and we may not have them in the future.

Mr. COURTER. If I can reclaim my time, that is a problem with ourselves, that is not a problem with the members of the Corporation.

If we as an institution, through the process of negotiating with the other body in the conference, cannot follow through on the mandates of this body, then apparently we did not try hard enough.

The CHAIRMAN. The time of the gentleman from New Jersey (Mr. COURTER) has expired.

(By unanimous consent, Mr. COURTER was allowed to proceed for 1 additional minute.)

Mr. COURTER. There are abuses, there were abuses; maybe there will be abuses in the future. Legal services is an imperfect institution, as individuals are imperfect. But the virtual elimination of legal services means that we are going to tell people who cannot afford legal representation that the idea of equal justice under law, the idea that the courts are accessible to everybody in this country is a sham—and I am not going to have any part of it.

Mr. WALKER. If the gentleman will yield further, I just want to make the point that I do not think it serves this particular debate very well to refer to protections built into the law of 1981 if the fact those protections are not applicable.

I think the gentleman makes some fine points, but I do not think that those protections should be used as a case against this amendment, because in fact those protections do not now exist.

I thank the gentleman very much for yielding.

Mr. ROUSSELOT. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I will admit in the beginning that I have not had a great deal of confidence in this organization from the beginning. So I am not here today under the pretense of being a major supporter of the Legal Services Corporation or that I have always felt that this organization has done all of the things that the Congress originally intended, because I do not think that the Corporation has perfomed that way. But I do wish to make the point that I believe that the Sensenbrenner amendment will help force the Legal Services Corporation to do the job that they were originally set up to do, and that is to serve the poor. And I believe that if you really study case by case the work that most of these field lawyers under the Legal Services Corporation have handled, you will find on the record that many of these lawyers have found themselves engaging more in social work than really providing legal services for the poor. That was the real purpose, to begin with. That is to have local legal services for the poor. And I think that was a very noble purpose. But I believe many of these local funded legal services have gone far astray from that original purpose, even with the efforts of many members of the Committee on the Judiciary and others to try to tighten down on those wrong activities.

I would urge my colleagues to support this amendment as a clear signal to the Legal Services Corporation to do their job in trying to follow through on the protections just mentioned by Mr. SENSENBRENNER that were voted on by this House and were struck by the Senate.

The Legal Services Corporation should be forced to police the improper activities of those local lawyers who are carrying on activities that were never intended by Congress.

Let me also review some other reasons why this amendment by Mr. SENSENBRENNER should be supported:

Over the years, the Legal Services Corporation has allocated almost 100 percent of its funds to recipients who employ staff lawyers. These lawyers seem more interested in legislating through the courts than in attending to the real needs of the poor. As long as there are sufficient funds to continue to give to the current grant recipients, the Legal Services Corporation will not consider alternative systems, such as legal judicare, pro-bono, or other programs which would be more responsive to the legal problems of the poor. A reduction in funds will encourage, if not necessitate, a thorough investigation of alternative legal delivery methods.

A reduction in the budget for the Legal Services Corporation is also supported by the fact that present grant recipients are not spending all of the money allocated to them. Instead, in 1982, the grant recipients, according to an audit conducted by the Legal Services Corporation, had an unexpected balance of $41 million. Some of these grant recipients had program balances as high as 80 percent of their allocated funds. These unexpected balances remain despite the hue and cry that there are not enough funds for other programs. The above example is just another illustration of the need to find alternative programs where money is spent, not hoarded.

Mr. SENSENBRENNER. Mr. Chairman, will the gentleman yield?

Mr. ROUSSELOT. I will be glad to yield to the author of this very fine amendment.

Mr. SENSENBRENNER. I thank the gentleman for yielding.

Mr. ROUSSELOT. The gentleman is a member of the Committee on the Judiciary, is he not?

Mr. SENSENBRENNER. I am, sir.

Mr. ROUSSELOT. And the gentleman has had a chance to do the oversight work that is necessary, to see that this Legal Services Corporation is performing?

Mr. SENSENBRENNER. I am, sir.

Mr. ROUSSELOT. Well, I am glad to hear that. Then we can be confident that the gentleman's amendment is not to destroy the Corporation but to try to make it operate more efficiently and more correctly; is that not correct?

Mr. SENSENBRENNER. The gentleman from California is absolutely correct. And I think it is unfortunate that much of the debate that has gone on this afternoon on my amendment has been over the merits or lack of merits of the Legal Services Corporation and its grantees, rather than the issue that is posed by this amendment, and that is: What is the proper level of funding that the Legal Services Corporation should have for fiscal year 1983?

Now, with all due respect to my friend from Iowa, Mr. SMITH, and members of his subcommittee, I am afraid that they have completely missed the point on the overfunding issue that I brought out in the course of my remarks in support of the amendment.

This bill was reported from the Appropriations Committee on August 10, 1982. The gentleman from Iowa said that they have gone through this thoroughly and found out that only four of the Legal Services Corporation grantees were overfunded. Well, the Corporation itself, 9 days later, on August 19, 1982, issued a working paper to the Legal Services Corporation Board, proposing changes in regulations and pointing out that there were at least 26——

Mr. ROUSSELOT. How many was that?

Mr. SENSENBRENNER. Twenty-six.

Mr. ROUSSELOT. Twenty-six?

Mr. SENSENBRENNER. That is a lot more than four.

Mr. ROUSSELOT. That certainly is a larger number.

Mr. SENSENBRENNER. That there were 26 grantees that were overfunded.

I think that the Corporation is beginning to get the crux of the problem. Now, the only way we are going to be able to make sure that Corporation grantees are not substantially overfunded so that they can buy houses and invest in certificates of deposit——

Mr. ROUSSELOT. Oh, they would not do that?

Mr. SENSENBRENNER. Well, they did it in North Carolina.

Mr. ROUSSELOT. In North Carolina?

Mr. SENSENBRENNER. Yes.

The only way to prevent this is to simply pass an amendment that reduces the appropriation so they cannot do business as usual with the same $241 million that they had last year.

Mr. ROUSSELOT. Well, that sounds very reasonable, and I am sure our colleague, the gentleman from Iowa (Mr. SMITH), would want to know that, that there were 26 grantees that were overfunded.

The gentleman knew that, did he not?

Mr. SMITH of Iowa. There were 26 grantees that held more money than they were supposed to under the regulations.

Mr. ROUSSELOT. Tish tish.

Mr. SMITH of Iowa. It was found that only 4 of the 26 grantees did not have a good, prudent use for the money. Since then Legal Services Corporation has adopted a rule that grantees cannot keep more than 10 percent of annual funds that are not paid out for legal services. So your concern is all taken care of.

The CHAIRMAN. The time of the gentleman from California (Mr. ROUSSELOT) has expired. (By unanimous consent, Mr. ROUSSELOT was allowed to proceed for 3 additional minutes.)

Mr. ROUSSELOT. Now, this information that was given to us by our colleagues from the Judiciary Committee, who has followed this organization very carefully, did the gentleman really understand that it was 26 that were overfunded? And the 10-percent cap, or whatever you call it, have they complied with that?

Mr. SMITH of Iowa. Well, I assume they are complying.

Mr. ROUSSELOT. The gentleman assumes that? On the basis of the record showing so much noncompliance, I am sure that is a bad assumption.

Mr. SMITH of Iowa. The majority of the board, I am told, are not really for the program, so I do know why they would purposely overfund it now.

Mr. ROUSSELOT. Well, maybe we could help them make sure that they do not exceed that, by just reducing the amount of money on the basis of the logic that has been presented to us by our colleague from Wisconsin, a very active member of the Judiciary Committee. Would that not be a reasonable assumption?

Mr. SMITH of Iowa. No; I think that is exactly the wrong way to go.

Mr. ROUSSELOT. I think it sounded awfully reasonable, to me.

Does my colleague, the gentleman from Wisconsin, wish to comment further? No?

Well, I appreciate the attention of my colleagues, and I hope you will see fit to support what I consider and what many of us consider a very reasonable reduction of unnecessary funding for this agency, when 26 of the grantees have been clearly overfunded.

I urge support of the Sensenbrenner amendment.

Mr. O'BRIEN. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

Mr. Chairman, the arguments have been very effective and very thorough on both sides of the case. I would like to make it clear that from this side of the aisle and our committee, we also oppose the amendment.

A neighboring county to my present district in which I will have a substantial part next term has three offices of legal services and an enormous burden of cases. The major office was programed to be closed by its board. The attorneys who were doing the work went before the board and offered to accept a reduction in pay against the threat of the closing of their office. You cannot ask for more dedication than that.

□ 1740

In our area those young staff people are being paid, $10,000, $12,000, $13,000, $14,000 a year for the work they are doing. That is totally out of line with respect to the pay lawyers elsewhere get in private life. And these people are performing the highly noble work of affording to the poor access to our system and our courts and the protections that the country has designed for them. If they did not do it, it would not get done. Without this type of service, the poor do not make it into those courts.

I think the authorizing committee has done a superior job in tidying up the law. It is immensely important to us in the Middle West. And I hope the whole House will support it.

Mr. SAM B. HALL, JR. Mr. Chairman, I move to strike the requisite number of words and I rise in opposition to the amendment.

Mr. Chairman, with reference to this amendment, I do not want to belabor this any great period of time. But some matters have been said here today that I think need to be answered.

It was pointed out by one who is opposed to his amendment that there are many social security problems today that need the work of legal services people.

I have before me an order of dismissal of a social security case filed by Paul Harkey, administrative law judge in Dallas, Tex. In the process of writing that order of dismissal he makes this comment. I am quoting from that order:

> With the proper exercise of judicial reticence, the undersigned makes no comments regarding the quality of representation furnished the claimant in his Social Security claim by the employees of East Texas Legal Services. The undersigned has done his best to patiently educate those employees and has remonstrated with the director covering these derelictions in duty by the service from what was expected by the Congress when it provided federal funds to finance such a fiasco as this.

That order is signed March 27, 1980.

I would like to point out also that in a case styled Simer against Olivarez, which was filed in 1979, which was a class action suit filed by the Legal Services on behalf of eight eligible claimants against the Community Services Administration claiming the agency's failure to distribute fuel assistance funds.

The original decision in the case resulted in an award of $18 million. Of this amount, $250 was distributed to each of the eight named defendants, with the remainder to be distributed to "public interest" groups, including $2.3 million to the National Consumer Law Center. The largest chunk of the money, $4 million, was granted to local groups to fund an antiutility energy advocacy. The legal aid officers, the lawyers, further built in a requirement that at least half of the funds for fighting energy companies must be used to hire legal aid lawyers also funded by the Legal Services Corporation.

Listen to this:

When investigative research by a Colorado professor turned up the collusive nature of the suit, the judge who handed down the decision reversed himself and vacated the original order.

He noted, and I am quoting:

I believe the parties both by what they said and what they did not say, misled me, both as to the facts and the law.

What the Legal Services attorneys with the cooperation of the defendant, the Community Services Administration, had done was to conclude a "sweetheart deal" on the distribution of energy assistance funds intended by Congress to benefit the true needy. The court set that judgment aside because of the practices practiced upon him.

The city of Tenaha, Tex., in a letter to me dated August 26, 1982:

The city of Tenaha is experiencing hinderance in their daily operation as well as city growth from legal services being provided from this organization to one of our citizens. The citizen's claims against the city have all been proven unfounded.

And last, on October 21, 1982, there appear in a Gilmer, Tex., paper, where two jail inmates had filed a class action suit in the U.S. District Court in the Eastern District of Texas, claiming that "the jail was not sufficiently suitable to hold people."

If you go back and look at the charter of Legal Services, it said that it is to be for the purposes of bringing suit for the poor. There is nothing in that charter, it cannot be found in that charter, where it says that class action suits should be brought. And from what we have in the order of Judge Harkey in Dallas, it is indicative of the fact that the type of representation that social security claimants are getting is not worth its salt.

Mr. AuCOIN. Mr. Chairman, I rise in strong opposition to this amendment which drastically reduces the level of funding for the Legal Services Corporation. I urge my colleagues to reject it.

Legal Services cannot withstand any more cuts. The Corporation is already operating on a slim budget; let us not make it any worse. The Corporation has suffered a 25-percent funding reduction since fiscal year 1981. Not only did the Corporation experience a decreased funding level it also lost money from a number of supplemental sources. CETA money is no longer available and gone too is funding under the Older Americans Act.

In case some of my colleagues are wondering what a cut to Legal Services would mean. Let me explain what is happening in my home State of Oregon. With the unemployment rate at 11 percent, the economic situation there is grim. And, when someone looses their job, personal problems add up. Tenants can not pay their rent. Parents abuse their childen. Husbands take their tensions out on their wives. Families must declare personal bankruptcies.

Legal Services can provide these people with much needed legal assistance. But, where will they get help when the Legal Services Corporation has to shut their doors and turn down clients because they do not have the resources to do their job?

Last year, the Oregon Legal Services Corporation closed one of their field offices. Collection agencies began to harass those who owed money on bills; there was no Legal Services to defend these people. Although it is against the State law for landlords to lockout their tenants for nonpayment of rent, clients found themselves locked out of their homes. Senior citizens in nursing homes depend on Legal Services to act as guardians of their bank accounts. Without Legal Services, this responsibility is turned over to nursing home operators who often take advantage of their patients.

The number of incidents such as these goes on and on but I have made my point. Legal Services is desperately needed by Americans all across the Nation. Let us keep it operating.

● Mr. WEISS. Mr. Chairman, I rise in opposition to the amendment offered by Mr. SENSENBRENNER to reduce appropriations for the Legal Services Corporation from $241 to $100 million.

Last year, Congress resoundingly rejected efforts to undermine and destroy the Legal Services Corporation. Now we must demonstrate once more that we believe poor people in this country are entitled to legal services—that we do believe in equal justice for all.

The Legal Services Corporation has absorbed more than its share of budget cuts. The $241 million provided in fiscal year 1982 represented a 25-percent cutback from the fiscal year 1981 funding level of $321 million.

That cut has forced layoffs and shutdowns in legal services programs that translated directly into a profound denial of services to clients. The need for legal services is rising along with the increases in hunger, housing shortages and unemployment. More and more clients are requesting aid. Last year, Legal Services handled over 1.5 million cases but was still unable to keep up with the demand for assistance.

The great majority of services offered involve matters of family law, health care, administrative benefits, housing and consumer problems. They are routine in nature but they often represent survival for citizens who have nowhere else to turn.

The power of Legal Services to respond to the legal needs of poor people has been severely restricted already. There is no fat in its budget to cut. Administrative expenses are below 3 percent of its budget. We are voting today to support only the most minimal funding for the bare essentials of legal services to the poor.

In the spirit of justice, I call on my colleagues to stand firm in their original commitment to preserving legal services and to reject this devastating amendment.●

The CHAIRMAN. The question is on the amendment offered by the gentleman from Wisconsin (Mr. SENSENBRENNER).

The question was taken, and on a division (demanded by Mr. SMITH of Iowa) there were—ayes 30, noes 24.

RECORDED VOTE

Mr. SMITH of Iowa. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 121, noes 269, not voting 43, as follows:

[Roll No. 428]

□ 1800

The Clerk announced the following pairs:

On this vote:

Mr. Gramm for, with Mr. Simon against.

Mr. STRATTON changed his vote from "aye" to "no."

So the amendment was rejected.

The result of the vote was announced as above recorded.

The CHAIRMAN. The Clerk will read.

Mr. SMITH of Iowa (during the reading). Mr. Chairman, I ask unanimous consent that the remainder of the bill be considered as read and open to amendment at any point.

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

There was no objection.

The CHAIRMAN. Are there points of order against the remainder of the bill?

POINT OF ORDER

Mr. ZABLOCKI. Mr. Chairman, I have a point of order to the proviso on page 30.

The portion of the bill to which the point of order relates is as follows:

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

For expenses, not otherwise provided for, necessary to meet annual obligations of membership in international multilateral organizations, pursuant to treaties, conventions, or specific Acts of Congress, including funds for the payment of 1983 assessed contributions to the Inter-American Institute for Co-operation on Agriculture, $449,815,000: *Provided*, That none of the funds appropriated in this paragraph shall be available for a United States contribution to an international organization in excess of the United States share of the organization's assessment budget after deducting from that budget any interest costs for loans incurred on or after October 1, 1982 through external borrowing.

The CHAIRMAN. The gentleman will state his point of order.

Mr. ZABLOCKI. Mr. Chariman, I make the point of order that the proviso beginning at the end of line 2 and ending on line 8 of page 30 of the bill constitutes legislation and is therefore in violation of the second sentence of clause 2 of House rule XXI.

The proviso in question is intended to prohibit the use of funds appropriated for the payment of assessed contributions to international organizations for payment of any interest costs for loans incurred by certain international organizations after October 1, 1982, through external borrowing.

A major test of whether a provision in an appropriations bill constitutes legislation under clause 2 of rule XXI is whether the provision imposes on the Executive a new duty not mandated in existing law.

With respect to the issue addressed in the proviso, it is not the normal practice of these international organizations to engage in external borrowing. Thus, U.S. assessed contributions are not normally used for this purpose.

In the event that such organizations were to engage in external borrowing and to pay off such loans from their assessed budgets, the executive branch would be required to perform a series of actions in order to comply with the proviso in question.

First, because in some cases the United States pays its contribution in installments, the executive branch would be required to ask each organization if it, in fact, intends to engage in any external borrowing, and if so, the amount they intend to borrow and at what interest rate.

Second, prior to final payment of the U.S. assessed contribution, the executive branch is required to again inquire of each of the 44 organizations whether it has, in fact, engaged in any borrowing and the precise amount of interest paid as a result.

Third, the executive branch would be required to verify the response from each organization.

Fourth, the executive branch would be required to calculate the U.S. pro rata share of such interest payments for each organization engaged in such borrowing.

Fifth, the executive branch would be required to subtract the U.S. pro rata share determined in the preceding procedure from its final assessed payment to each affected organization.

None of these actions are required of the executive branch under existing law and none are currently performed by the executive branch as a matter of routine practice.

Therefore, the proviso in question would clearly impose on the executive branch several new duties not now required in existing law.

More fundamentally, under existing law, the United States is obligated to pay the full amount of its assessed contribution to an international organization. This obligation can only be changed by a superseding provision of law. The proviso attempts to be such a law and as such is legislative in nature.

Therefore, the proviso is in violation of the letter and spirit of clause 2 of rule XXI and the point of order should be sustained.

In closing, I would only add that I do not necessarily disagree with the intent of the proviso. This issue here is whether the proviso constitutes legislation in an appropriations bill in violation of the rules of the House.

□ 1810

The CHAIRMAN. Does the gentleman from Iowa desire to be heard on the point of order?

Mr. SMITH of Iowa. Mr. Chairman, I do not think it is subject to a point of order, but at this time of the night we want to save time. So, I am going to concede the point of order.

The CHAIRMAN. The point of order is conceded, and the Chair upholds the point of order.

AMENDMENT OFFERED BY MR. SMITH OF IOWA

Mr. SMITH of Iowa. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SMITH of Iowa: On page 30, line 2, after "$449,815,000" insert the following: "*Provided*, That none of the funds appropriated in this paragraph shall be available for a United States contribution to an international organization for any interest costs for loans incurred on or after October 1, 1982.".

Mr. ZABLOCKI. Mr. Chairman, I reserve a point of order against the amendment.

The CHAIRMAN. The Chair recognizes the gentleman from Iowa (Mr. SMITH) for 5 minutes in support of his amendment.

Mr. SMITH of Iowa. Mr. Chairman, this will accomplish essentially the same thing. The amendment makes clear that they do not have any additional duties. The administration came up here the year before last and said that they wanted to stretch out the payments to the United Nations. So, we have been complying with that request. We are now stretching out our payments so that, more like other countries, we are not paying them on the first day that it is possible to do so, but we are paying them within 2 years.

Since that time there has been some indication that some of the international organizations are going to go out and borrow money and then pay interest. Such a practice would require the United States to pay a portion of the interest on these borrowings, which is worse than if we paid the assessment on time, even though others are not paying their assessments. So, all this amendment does is require that our contributions not be used for the purpose of paying interest. It is a thoroughly reasonable thing to do, and I do not think it is subject to a point of order and I ask for an affirmative vote on the amendment.

Mr. O'BRIEN. Mr. Chairman, will the gentleman yield?

Mr. SMITH of Iowa. I yield to the gentleman from Illinois.

Mr. O'BRIEN. Mr. Chairman, I rise in support of the substitute offered by the chairman. We have no objection to it on this side.

POINT OF ORDER

Mr. ZABLOCKI. Mr. Chairman, I make a point of order on the same basis that I have raised the point of order on the proviso that was in the bill originally. This amendment will still require the executive branch to make a determination of what international organizations are paying interest, and to what extent, and that this money would not therefore be available in that portion of our U.S. assessment. So, this goes beyond the present procedure that the executive branch is required to make on our existing law.

Therefore, the amendment of the gentleman from Iowa as substituted for the original language in the bill would clearly impose upon the executive branch the new duties not now required by law; and, I submit, still fundamentally legislation in an appropriation bill and is in violation of the letter and spirit of clause 2, rule XXI. I hope that the point of order will be sustained.

The CHAIRMAN. Does the gentleman from Iowa wish to be heard?

Mr. SMITH of Iowa. Mr. Chairman, I believe this is a simple, straight limitation. If there are any additional duties, and I do not concede that there are, they are strictly incidental. They have to have these kinds of records anyway, so I think the point of order is not good.

Mr. ZABLOCKI. Mr. Chairman, may I be recognized for the purpose of a question to the sponsor of the amendment?

It is the understanding of the gentleman from Iowa that in order to make a determination as to the amount of interest, the executive branch would have to require the organizations to make an investigation to what extent interest payments are included in the U.S. assessment. May I further ask, would the gentleman's amendment also require that conditions be imposed on our contribution requiring an agreement with the United Nations that we now do have as far as our assessment, but not as far as to what the proviso or the amendment of the gentleman from Iowa provides?

□ 1820

Mr. SMITH of Iowa. Mr. Chairman, I do not think we get into what kind of an agreement may be necessary here. We do not even attempt to do that. But they have the records that would be necessary anyway in reviewing their contributions and how much we owed the United Nations. The State Department has those records anyway. They have to have them in order to make the payments. So there is not anything extra here other than some incidental matter of looking at some papers.

The CHAIRMAN (Mr. BROWN of California). Does any Member desire to be heard further on the point of order.

If not, the Chair is prepared to rule.

The gentleman from Wisconsin (Mr. ZABLOCKI) make a point of order with regard to the amendment offered by the gentleman from Iowa (Mr. SMITH) for essentially the same reasons that he used against the original proviso, in that it constitutes legislation on an appropriations bill by virtue of the fact that it imposes additional duties upon the executive branch.

It is the opinion of the Chair that the gentleman from Wisconsin (Mr. ZABLOCKI) is correct, that there are additional duties which are not trivial which are imposed upon the executive branch, to determine interest amounts and, therefore, the Chair sustains the point of order.

Are there any other points of order with regard to the rest of the bill?

If not, are there additional amendments?

Mr. SMITH of Iowa. Mr. Chairman, we are now through the two controversial titles of the bill. We are on State Department. I know that there are several amendments left at the desk, most of which will not, I hope, be offered, and, therefore, I wonder if we could get some kind of agreement on time.

In an effort to do that, Mr. Chairman, I ask unanimous consent that all debate on the remainder of the bill and all amendments thereto close at 7 o'clock.

The CHAIRMAN. Is there objection to the request of the gentleman from Iowa?

Mr. FRENZEL. Reserving the right to object, Mr. Chairman, I am informed at least by rumor that instead of staying after this bill to work on the rule on the well-known domestic content bill, we are to engage in debate also this evening, which is a bit of a surprise to most Members, including myself. I see no reason, as long as we are going to be here a long time anyway, to speed up the process.

Therefore, Mr. Chairman, I object.

The CHAIRMAN. Objection is heard.

Mr. SMITH of Iowa. Mr. Chairman, do I understand that the gentleman objects to setting any time? Is that it?

Mr. FRENZEL. I do, Mr. Chairman.

Mr. SMITH of Iowa. Mr. Chairman, I do not like to do this, but I think we are obligated to do something for the number of Members who have asked me about this, and, therefore, in order to facilitate letting the Members work their will, I move that all debate on the remainder of the bill and all amendments thereto close at 8 o'clock.

The CHAIRMAN. The question is on the motion offered by the gentleman from Iowa (Mr. SMITH).

The question was taken; and the Chairman announced that they ayes appeared to have it.

Mr. FRENZEL. Mr. Chairman, I demand a recorded vote, and pending that, I make the point of order that a quorum is not present.

The CHAIRMAN. The Chair will count; 101 Members are present, a quorum.

RECORDED VOTE

Mr. FRENZEL. Mr. Chairman, I renew my demand for a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 205, noes 132, not voting 96, as follows:

□ 1840

Messrs. EVANS of Iowa, SHAW, and WOLF changed their votes from "aye" to "no."

Mr. SCHUMER changed his vote from "no" to "aye."

So the motion was agreed to.

The result of the vote was announced as above recorded.

Mr. FRENZEL. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I understand that the administration is supporting this particular appropriations bill because it is under the 302(b) Appropriations Committee allocations—notwithstanding the fact that it is more than half a billion over the budget resolution in budget authority, and a quarter of a billion over in outlays.

And the administration does so, I am told, because there are some things in this bill which it thinks it must have. But, whether some items are urgently necessary or not, it seems to me that we are letting another flagrant case of overspending escape us if this bill is passed tonight.

I thought the Members might want to know those overbudget figures in case some of them feel, as I do, some minimum commitment to the budget resolution.

It is true that under our budget process the committee sets its 302 allocations. The committee has worked hard to meet those allocations. I salute the committee, its chairman, and all of its members who have worked hard to do that.

Nevertheless, it does seem to me that the original resolution we passed ought to have some more meaning than we have given it.

As soon as we passed that resolution, we laid it to rest, and ever since then no one has worried about it very much even as our deficits have continued to grow.

But notwithstanding the difficult recession which has caused some increases in those deficits, I think we should have paid a little more attention to trying to keep at least the promises we made to the people, the taxpayers, in those difficult budget decisions we agonizingly made early in the year.

For that reason, Mr. Chairman, I intend to vote against the bill.

Further, Mr. Chairman, proceeding out of order, unless there is some objection, I mentioned earlier that I took a strong objection to the fact that we are going to do more than the rule on the domestic content bill this evening. That means, Mr. Chairman, that when we begin the 5-minute rule and debate tomorrow, no Member will have fresh in his or her mind the facts about the bill, and the bill will be moved forward in the same spirit of darkness and gloom in which it has moved today.

It seems to me that we owe the people, and we owe the traditions of this body and its processes, a little more than that. We are all embarrassed when a bill is quickly snatched up and scheduled for debate at a time when it is known no one will be here.

Because of that unusual scheduling, it will be my intention to try to secure recorded votes at such times as it appears there is the possibility to do so.

PREFERENTIAL MOTION OFFERED BY MR. FRENZEL

Mr. FRENZEL. Mr. Chairman, I offer a preferential motion.

The Clerk read as follows:

Mr. FRENZEL moves that the Committee do now rise and report the bill back to the House with the recommendation that the enacting clause be stricken.

Mr. FRENZEL. Mr. Chairman, I already indicated my disapproval of this particular bill. I have also indicated that I was looking for an opportunity to seek recorded vote. And I hope my motion will be passed.

Mr. MYERS. Mr. Chairman, will the gentleman yield?

Mr. FRENZEL. I yield to the distinguished gentleman from Indiana.

Mr. MYERS. I thank the gentleman for yielding.

I certainly share the concern that our colleague from Minnesota has shown about the schedule for tomorrow. However, I am sorry to see that this particular bill must be held hostage at this time. I think this is a good bill. And it is too bad to relate the two.

Tomorrow we are bringing up a bill that should not come up tomorrow. It is not going to go any place. We all know it is not. And to use the time that is so precious to the country, to this Congress, to bring up a bill tomorrow when we have all the appropriations bills that are not going to see the light of day, it is a shame on scheduling, it is a sad commentary not only on the lameduck session, which no one expected a lot of, but particularly it is bad for the reputation of the Congress, to bring up a bill like that which everyone knows is not going to go any place.

I appreciate the gentleman bringing that to our attention.

Mr. FRENZEL. I thank the gentleman.

I want to assure the gentleman I have no prejudice against this bill, even though I do not intend to vote for it. Nor do I object to the bill being brought up tomorrow.

What I object to is scheduling debate this evening at a time when no Members will be present to hear that debate. Very few Members who intended to take part in that scheduled debate will be able to do so.

Mr. SMITH of Iowa. Mr. Chairman, I would hope that the Members realize what is going on here.

I do not know why it is that our little old bills always get into somebody else's argument. This was the first bill reported out of the committee last summer. It got held up over an argument concerning the FTC. Some people wanted FTC in, some people wanted it out. We could not satisfy them. If we put FTC in some would vote against the rule. If we took FTC out, some would vote against the rule.

Now we were delayed weeks and weeks and weeks. Finally we got a rule. It is now December 9, 41 years plus 2 days since Pearl Harbor. And here we are. Surely we will not vote this bill down now, after we have gotten this far, after we put on a busing amendment which is bad and may sink the bill anyway. At least do not pick on our little old bill all the time. Pick on somebody else's.

The CHAIRMAN. The question is on the preferential motion offered by the gentleman from Minnesota (Mr. FRENZEL).

The question was taken, and the Chairman announced that the ayes appeared to have it.

Mr. FRENZEL. Mr. Chairman, I demand a recorded vote, and pending that, I make the point of order that a quorum is not present.

The CHAIRMAN. The Chair will count. One hundred seven Members are present, a quorum.

RECORDED VOTE

Mr. FRENZEL. Mr. Chairman, I renew my demand for a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device and there were—ayes 32, noes 299, not voting 102, as follows:

□ 1900

Messrs. DUNN, ERDAHL, ST GERMAIN, and RAHALL changed their votes from "aye" to "no."

So the preferential motion was rejected.

The result of the vote was announced as above recorded.

Mr. SMITH of Iowa. Mr. Chairman, I move to strike the last word.

Mr. SCHEUER. Mr. Chairman, will the gentleman from Iowa yield?

Mr. SMITH of Iowa. I yield to the gentleman from New York.

Mr. SCHEUER. I thank the gentleman for yielding.

Mr. Chairman, I would like to raise an issue of great concern, I know, to every single Member of this House and virtually every American.

I wish to ask my colleague, the gentleman from Iowa, some questions about an extraordinary incident in the life of our country that I think will be of concern to every single Member of this House and virtually every American.

On November 4, 1979, 78 Americans in Teheran, Iran, were seized or forced into protective refuge, and 52 of them were held imprisoned in the most degrading, inhuman, uncivilized conditions for 444 long days. We watched, the American public and the Members of this body, traumatized, shocked, in horror and anxiety, day after day during this agonizing period.

Yet throughout this period and at the end of this period, these 52 Americans emerged from this incredibly cruel and unusual punishment with their spirits, their souls, their psyches and their bodies, for the most part, intact; certainly with their dignity and their courage intact.

We were proud of every one of them. They did us proud.

Now it is over 3 years since that incident, that harrowing incident that cut through the heart and spirit of America and, in a sense, unified us as we have rarely been unified.

This Congress has failed to act. We have done little or nothing that I know about to recognize the extraordinary conduct of those 58 outstandingly fine Foreign Service officers. Now, Mr. Chairman, under the War Claims Act of 1948, we are offered a precedent which was utilized for veterans of World War II, Korea, and the Vietnam war for payment of token sums as, and I quote, "a symbolic gesture on the part of the United States expressing recognition of the hardships suffered by the beneficiaries."

□ 1910

It seems to me, Mr. Chairman, that after more than 3 years the time has come for us to act, and to act decisively—decisively and fairly—in this issue and to recognize the extraordinary courage and dedication and character with which this remarkable group of American Foreign Service officers upheld the honor and dignity of our country and our flag.

Can I ask the gentleman from Iowa what prospects there are that the House and the Senate will act now, after 3 years, with reasonable speed and diligence in providing the grateful recognition of a country that admires these men and women?

Mr. SMITH of Iowa. Mr. Chairman, this is a matter of great concern. I assure the gentleman that we have every intention of reviewing the issue at the earliest possible time. However, it was my understanding that there was a commission appointed to study this matter and that they only reported their findings a few weeks ago. In addition, this matter requires authorization before we can appropriate funds for it. I want to assure the gentleman that our subcommittee stands ready to consider the matter just as soon as the authorization is enacted.

Mr. SCHEUER. I appreciate that assurance very much, and I do wish to note for the record the deep concern shown by our colleague, DANTE FASCELL of Florida, who has assured me of his commitment to address this question at the first possible opportunity during the 98th Congress.

I thank the gentleman from Iowa very much.

The CHAIRMAN. Are there additional amendments to the bill?

AMENDMENT OFFERED BY MR. SMITH OF IOWA

Mr. SMITH of Iowa. Mr. Chairman, I offer an amendment.

The portion of the bill to which the amendment relates is as follows:

INTERNATIONAL ORGANIZATIONS AND CONFERENCES

CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

For expenses, not otherwise provided for, necessary to meet annual obligations of membership in international multilateral organizations, pursuant to treaties, conventions, or specific Acts of Congress, including funds for the payment of 1983 assessed contributions to the Inter-American Institute for Co-operation on Agriculture, $449,815,000: *Provided*, That none of the funds appropriated in this paragraph shall be available for a United States contribution to an international organization in excess of the United States share of the organization's assessment budget after deducting from that budget any interest costs for loans incurred on or after October 1, 1982, through external borrowing.

The Clerk read as follows:

Amendment offered by Mr. SMITH of Iowa: On page 30, line 2, after "$449,815,000" insert the following: *"Provided*, That none of the funds appropriated in this paragraph shall be available for a United States contribution to an international organization for those interest costs made known to the United States Government by such international organizations for loans incurred on or after October 1, 1982.

Mr. SMITH of Iowa. Mr. Chairman, this amendment accomplishes the same purpose as another amendment I offered that was ruled subject to a point of order. This one is not. This is in support of action that the House has taken and the Congress has taken. The administration's program for delaying the payment of some of the dues to the United Nations is consistent with this amendment. It is supported by both the administration and the Congress, and I ask for a favorable vote.

Mr. DICKINSON. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I came in late, and I did not understand the colloquy or the speech that was just made by my good friend from New York (Mr. SCHEUER).

Is there some money here for the Iranian hostages?

Mr. SMITH of Iowa. There is no money in the bill.

Mr. DICKINSON. Is it a part of our deliberations here?

Mr. SMITH of Iowa. It was a colloquy.

Mr. DICKINSON. OK, because I am more interested in the POW's we have had for 7 years.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Iowa (Mr. SMITH).

The amendment was agreed to.

Mr. SMITH of Iowa. Mr. Chairman, I move that the Committee do now rise and report the bill back to the House with sundry amendments, with the recommendation that the amendments be agreed to and that the bill, as amended, do pass.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore (Mr. FOLEY) having assumed the chair, Mr. BROWN of California, Chairman of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 6957) making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1983, and for other purposes, had directed him to report the bill back to the House with sundry amendments, with the recommendation that the amendments be agreed to and that the bill, as amended, do pass.

The SPEAKER pro tempore. Without objection, the previous question is ordered.

There was no objection.

The SPEAKER pro tempore. Is a separate vote demanded on any amendment? If not, the Chair will put them en gros.

The amendments were agreed to.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. MILLER OF OHIO

Mr. MILLER of Ohio. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. MILLER of Ohio. I am in its present form, Mr. Speaker.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. MILLER of Ohio moves to recommit the bill, H.R. 6957, to the Committee on Appropriations.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The motion to recommit was rejected.

The SPEAKER pro tempore. The question is on the passage of the bill.

RECORDED VOTE

Mr. FRENZEL. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 234, noes 125, not voting 74, as follows:

[Roll No. 431]

□ 1930

The Clerk announced the following pairs:

On this vote:

Mr. Simon for, with Mr. Gramm against.

Mr. Hawkins for, with Mr. Chappie against.

Mr. Garcia for, with Mr. Hunter against.

Mr. Mattox for, with Mr. Cheney against.

Mr. Craig for, with Mr. Hagedorn against.

Mr. RALPH M. HALL changed his vote from "aye" to "no."

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

LEGISLATIVE PROGRAM

(Mr. MICHEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MICHEL. Mr. Speaker, I ask to proceed for 1 minute for the purpose of inquiring of the Chair or the majority leader what we might expect for the balance of this evening.

The SPEAKER pro tempore. The Chair will advise the gentleman from Illinois that we will now proceed to take up the rule, House Resolution 622, on the so-called local content or domestic content bill.

Following the conclusion of debate and action on the rule the House will cease any further business tonight. It is my understanding that the leadership on the Democratic side intends to take up at 10 o'clock tomorrow the general debate on the bill and proceed to amendments on the bill until 3 o'clock. If the bill is not completed by 3 o'clock it will be scheduled for completion at a later date next week.

Mr. MICHEL. I thank the Speaker.

PERMISSION TO HAVE UNTIL MIDNIGHT TOMORROW, DECEMBER 10, 1982, H.R. 7019, DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATIONS, 1983

Mr. SMITH of Iowa. Mr. Speaker, I ask unanimous consent that the managers may have until midnight tomorrow, Friday, December 10, to file a conference report on the bill (H.R. 7019) making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1983, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Iowa?

There was no objection.

□ 1940

ESTABLISHING ONE ADDITIONAL POSITION ON CAPITOL POLICE FOR DUTY UNDER HOUSE OF REPRESENTATIVES

Mr. MINISH. Mr. Speaker, by direction of the Committee on House Administration, I send to the desk House Resolution 625 and ask unanimous consent for its immediate consideration in the House.

The Clerk read the resolution, as follows:

H. RES. 625

Resolved, That (a) there is established one additional position as captain on the Capitol Police for duty under the House of Representatives.

(b) Each appointment to the position under subsection (a) shall be made—

(1) by the Capitol Police Board, with prior approval of the Committee on House Administration; and

(2) without regard to political affiliation and solely on the basis of fitness to perform the duties of the position.

SEC. 2. Until otherwise provided by law, there shall be paid out of the contingent fund of the House of Representatives such sums as may be necessary to carry out this resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

Mr. FRENZEL. Mr. Speaker, reserving the right to object, I do so merely to yield to the distinguished subcommittee chairman, the gentleman from New Jersey, so that he might give a very brief explanation of what he is doing.

Mr. MINISH. Mr. Speaker, if the gentleman will yield, the Committee on House Administration reported the resolution favorably by unanimous voice vote at its meeting today.

The resolution responds to a request by the Sergeant at Arms that appropriate legislation be passed to establish one additional position as captain on the Capitol Police in order to elevate an acting captain to the rank and salary of captain.

This acting captain has been the commanding officer of the Inspections and Internal Affairs Office of the U.S. Capitol Police for approximately 7 months. As an acting captain he continues to receive a lieutenant's salary.

The commanding officer of the Inspections and Internal Affairs Office is directly responsible to the Chief of Police and is an integral part of the Capitol Police's management system. Due to the nature of the assignment and the responsibilities of the commanding officer of this unit, I believe it appropriate to compensate an individual so assigned, the rank and pay of captain.

Mr. FRENZEL. I thank the distinguished subcommittee chairman for the explanation.

The minority agrees with the subcommittee chairman, and I urge its passage.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

The resolution was agreed to.

A motion to reconsider was laid on the table.

APPOINTMENT OF CONFEREES ON H.R. 3963, CONTRACT SERVICES FOR DRUG DEPENDENT FEDERAL OFFENDERS ACT AMENDMENT OF 1981

Mr. HUGHES. Mr. Speaker, I ask unanimous consent to take from the Speaker's desk the bill (H.R. 3963) to amend the Contract Services for Drug Dependent Federal Offenders Act of 1978 to extend the periods for which funds are authorized to be appropriated, with Senate amendment thereto, disagree with the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

Mr. WALKER. Mr. Speaker, reserving the right to object, I do so to get an explanation from the gentleman as to what it is we are doing here and whether or not this has been cleared.

Mr. HUGHES. Mr. Speaker, will the gentleman yield?

Mr. WALKER. I yield to the gentleman from New Jersey.

Mr. HUGHES. Yes; the ranking minority member of my committee, the gentleman from Michigan (Mr. SAWYER), is in accord. We are taking from the Speaker's desk basically the Drug Dependent Offenders Act which passed this body some time ago, which the Senate tacked a number of amendments onto, asking for a conference to resolve the differences.

Mr. WALKER. This is just a process to take it to conference.

I thank the gentleman.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey? The Chair hears none and, without objection, appoints the following conferees: Messrs. RODINO, HUGHES, KASTENMEIER, CONYERS, GLICKMAN, SAWYER, FISH, and KINDNESS.

There was no objection.

PROVIDING FOR THE CONSIDERATION OF H.R. 5133, FAIR PRACTICES IN AUTOMOTIVE PRODUCTS ACT

Mr. BONIOR of Michigan. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 622 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 622

Resolved, That upon the adoption of this resolution it shall be in order to move that the House resolve itself into the Committee on the Whole House on the State of the Union for the consideration of the bill (H.R. 5133) to establish domestic content requirements for motor vehicles sold in the United States, and for other purposes, and the first reading of the bill shall be dispensed with. After general debate, which shall be confined to the bill and shall continue not to exceed two hours, one hour to be equally divided and controlled by the chairman and ranking minority member of the Committee on Energy and Commerce and one hour to be equally divided and controlled by the chairman and ranking minority member of the Committee on Ways and Means, the bill shall be read for amendment under the five-minute rule. It shall be in order to consider the amendment in the nature of a substitute recommended by the Committee on Energy and Commerce now printed in the bill as an original bill for the purpose of amendment under the five-minute rule and said substitute shall be considered as having been read. At the conclusion of the consideration of the bill, the Committee shall rise and report the bill to the House with such amendments as may have been adopted, and any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the committee amendment in the nature of a substitute. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentleman from Michigan (Mr. BONIOR) is recognized for 1 hour.

Mr. BONIOR of Michigan. For purposes of debate only, I yield the customary 30 minutes to the gentleman from Ohio (Mr. LATTA) pending which I yield myself such time as I may consume.

Mr. Speaker, House Resolution 622 provides an open rule for the consideration of H.R. 5133, the Fair Practices in Automotive Products Act.

It provides a total of 2 hours of general debate. One hour is to be equally divided between the chairman and ranking minority member of the Committee on Energy and Commerce and 1 hour equally divided between the chairman and ranking minority member of the Committee on Ways and Means.

Amendments will be considered under the 5-minute rule and House Resolution 622 makes in order an Energy and Commerce Committee amendment in the nature of a substitute now printed in the bill as an original bill for the purpose of amendment. This provision will enable members to offer second degree amendments to the substitute which shall be considered as read and open to amendment at any point.

Finally, the bill makes in order one motion to recommit with or without instructions.

Mr. Speaker, H.R. 5133 establishes domestic content requirements for motor vehicles sold in the United States. It is intended to preserve and create jobs in the American automobile and truck industry by requiring manufacturers, both domestic and foreign, to use specific minimum amount of domestic parts and labor in vehicles sold here.

Those amounts are determined by a formula in the bill that becomes effective after 100,000 vehicles are sold in this country. The maximum content requirement applies to those producers who sell over 900,000 vehicles and increases from 30 percent in 1984 to 90 percent by 1986.

It directs the Secretary of Transportation to limit the number of vehicles entering the country from those manufacturers who fail to meet their content requirements.

It also requires the Comptroller to report to the Congress on the impact of this act upon domestic and foreign automotive industries.

Mr. Speaker, there have been bills in each Congress that I have supported while cursing the necessity for them. We should not have to meet here today for this purpose, but a number of factors both within and without our control have conspired to force the decision upon us.

While sophisticated arguments can be made to rejoin those of the bill's opponents, the essence of the issue is as stark as any we shall face during our service to the country: Do we want an auto industry in this country?

The litany of statistics for that industry is grim.

Compared with the last good year for U.S. auto sales, 1978, sales declined by 32 percent in 1981. Truck sales have decreased by 53 percent. However, between 1978 and 1981, Japanese automobile imports rose 37.1 percent.

Industry capacity utilization stood at 43.6 percent in January of this year, the lowest rate measured for any industry since publication of that statistic began in 1948.

A million automobile and auto-related workers are unemployed at a cost of $25 billion in each of the last 2 years in lost revenues and Government payments.

An industry which paid $2.8 billion in Federal taxes in 1978, obtained refunds totaling $1.8 billion in 1980.

When the devastation is so pervasive to an industry which consumes 21 percent of all the steel used in this country, 50 percent of all malleable iron, and 60 percent of all synthetic rubber, the shock will make its way into all the corners of our economy.

While I admire Japan's creativity, efficiency, and commercial aggressiveness, I have some problems with the way it conducts its business.

It troubles me that 36 years after World War II—and largely because of our encouragement—Japan pays little for its national defense while the United States continues to be primarily responsible for the security of that area. The current figure for Japanese defense expenditures is 1 percent of the gross national product while the United States spends 5.6 percent. This, in turn, means lower taxes must be collected from industry and the Japanese auto industry is thus able to charge lower prices at the same level of profitability.

It troubles me that 2 years ago we negotiated an agreement with Japan by which it would triple its purchases of U.S. auto parts. It has not fulfilled the provisions of that agreement.

It troubles me that we allowed Japan itself to prohibit auto imports until the early seventies and that they still maintain a list of nontariff barriers (such as charges for processing, licensing, approval, and transport) that have the effect of doubling the price of an American car.

It troubles me that Japan steadfastly maintains barriers against U.S. beef and agricultural products, and electronics equipment.

We all realize that in an ideal world, all countries profit from free trade policies. However, even in the swell of hopefulness following World War II, the signatories to the General Agreement on Trade and Tariffs (GATT) recognized that there would be extraordinary relief measures. That flexibility was embodied in article XIX of the GATT. While it may not recognize this specific remedy, it recognizes the right of countries to address, in a sovereign and responsible way, outstanding economic problems.

Most of the auto-producing countries have faced the same problems and dealt with them far more drastically. Italy allows only 2,200 vehicles to be imported from Japan each year. The French have frozen Japanese imports at 3 percent of their market, the Germans and British at slightly over 10 percent. All three nations are GATT signatories and quotas are prohibited under that agreement.

Thirty countries have domestic content requirements and none have been challenged under GATT provisions. Countries like Brazil require that more auto products be exported than imported.

I believe that the bill before us is superior to any of those solutions both in terms of our own interests and those of our trading partners.

First, it would encourage foreign manufacturers to set up operations in the United States. One of the criticisms that we hear about this bill is that it rewards the mistakes in design and management of domestic manufacturers. Not at all. Foreign companies can still enter the American market using American workers. Thus, our workers will not be punished for the mistakes of management and our own companies would have to be competitive in cost and quality. As Business Week stated in its April 13, 1981 issue in support of this measure:

> It would not provide a shelter for incompetent, high-cost operations as a tariff would.

We would also have the benefit of creating and preserving American jobs, estimates of which range up to 900,000. Some have argued that jobs would actually be lost through retaliation but that kind of projection is highly speculative and tenuous at best. Japan has never brought a GATT complaint and, in fact, where their operations have been restricted, they moved to invest in those countries to maintain a market presence. To bring a GATT complaint would subject Japanese trade practices to the same scrutiny.

Further, most countries are far more dependent upon foreign trade than the United States. For many, it constitutes more than 50 percent of their GNP while in the United States it is about 14 percent. They would thus find it more difficult to sustain a trade war. Hopefully, this action will encourage offending nations to return to free trade negotiations.

I would further remind Members that Volkswagen and Honda have already commenced operations here and both have attested to a higher quality product manufactured in the United States than in Europe or Japan.

Second, we would derive the advantage of the transfer of technology and management advances that we so admire in Japan.

Third, a diversity of products would be maintained to provide consumers the widest range of choices possible.

None of these advantages is possible if we simply levy a tariff or quantity restrictions. We have also seen that another alternative, tax relief and Government assistance, does not guarantee that investment will be made to enhance the well-being of our own work force.

It should also be kept in mind that Japan has itself already negotiated content agreements. When making multibillion dollar purchases of military aircraft from McDonnell Douglas and Lockheed it required an average of 40 percent of their total value be produced in Japan. Japanese content would start low but would rise over a period until virtually all of the finished product would be made in Japan.

Again, the question, my friends, is basic and stark: Do we want to maintain an automobile industry? If not, where do we intend to employ those who wish to contribute honorable labor for the dignity of self-sufficiency? Many of you will point to the sectors in which we are strongly competitive: Agriculture, services, and high technology. I have two replies to that.

First, we then must be prepared for the most massive, immediate, and disruptive retooling of our economy ever. Having witnessed the squeaking hinges of the congressional pocketbook of late, I doubt that this body would be willing to provide much help in this endeavor.

Second, in each of the newly competitive areas, we face the same problem: Restricted markets. Mark my words, if you do not fight this battle now, you will have to fight it in any of a number of places in the not-so-distant future.

With employment hurtling toward 11 percent, with Michigan's unemployment at 17 percent, I prefer to fight it now. Shakespeare warns in Henry VI that "delays have dangerous ends." A delay now may forever destroy this industry and who can say, with any assurance, that this will not be the first knell to mark the passing of several of America's hallmark industries. Economic trends being what they are, the cure may be far more radical next year at this time.

The time has long passed when the United States marched in the lead down free trade boulevards while the rest of the world's parade disappeared down protectionist side streets. We must somehow persuade our trade partners to return to that boulevard. Obviously, kind words and cajoling do not work. To persist in them, risks being thought fools—not only by other trading countries, but more unforgivably, by those we serve. I will not place upon my constituents the burden of unilaterally upholding ideals while the rest of the world picks their pockets.

The Budde Co. of Troy, Mich., lost a contract with the New York subway system when the Canadian Government promised to subsidize the financing arrangements of its own firm. (Canada is a signatory to GATT and that agreement discourages subsidies.) I am not about to return to the Budde workers in my district and tell them that while they may not have much to put under the tree or upon the table this Christmas, they will have the satisfaction of knowing that they upheld an ideal which most countries only observe in the breach of it.

The principles of GATT, and indeed international trade, are reciprocity, both in terms of concessions and sanctions. I see nothing inconsistent with that principle in this bill.

The automobile industry has made great efforts at redesigning, retooling, and is newly attentive to quality control. I look forward to a time when the strength of the auto industry and the U.S. economy, and the sense of fairness and sensitivity of our trade partners, are sufficient to eliminate the need for legislation such as this. Until such time, we will "provide for the general welfare" of our people.

Mr. Speaker, I reserve the balance of my time.

□ 2000

Mr. LATTA. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me say at the outset that I happen to be a cosponsor of H.R. 5133 and I quite agree with most of the statements made by the gentleman from Michigan who preceded me, but I have to wonder why this legislation has been so long delayed in this Congress.

Here we are in a lameduck session of the Congress and the leadership on the Democratic side finally decides to bring it up now, when everyone who is reasonably acquainted with the legislation situation well knows that it is not going to pass the other body. It is not going to become law and the problem is still going to remain, the problem of the auto workers out of work in the United States. This while an ever-increasing number of imported cars come into the United States and prices continue to increase on American-made cars.

I begin to wonder who the Democrat leadership is trying to fool. If they really meant we were going to pass this legislation, we would have had it on this floor a long time ago.

So let me say to my automobile worker friends in my district and in other districts across this country that they are not going to get a Christmas present by the passage of this legislation in this House, as it is not going to become law this session.

As I remarked when this matter was before the Committee on Rules, perhaps we ought to be directing our efforts in some other direction and get some immediate assistance to an ailing industry.

I do not happen to be a free trader; I happen to be a fair trader. I think the automobile industry is a good example of inequitable trade relations. We had testimony before the Committee on Rules as to how American cars are treated in Japan when they are exported to that country. Maybe we ought to quit playing Uncle Sap and become Uncle Sam once again and become a good Yankee trader again and say if they are going to put all of these restrictions on American-made cars when they are shipped to Japan we will put them on theirs. Should we take such action, I will wager they will change their practices in short order.

You get around the world, how many American-made cars do you see on the streets? How many do you see on the streets of West Germany? England? You can skip around the world and you see very few American-made cars. Why not? Unfair restrictions against American-made autos.

So I think we have a serious problem. We have another serious problem here in the United States with American-made autos. It is the matter of price because the people who are supposed to buy these cars cannot afford them. The other day a friend of mine went into a Chevrolet agency to look at a the price of a new Chevrolet. This is supposed to be the workingman's car. Over $12,000. Could he afford it? No, he could not afford it, so he turned on his heel and walked out.

We have got to meet our problems head on. We have interest rates that are too high. General Motors some months ago reduced their interest rates for a short period of time and they attracted sales. Now we have the other two majors in this country reducing their interest rates and they are attracting buyers.

We must admit we have a lot more problems related to the automobile industry than this particular legislation might help if it could pass. Unfortunately, it is not going to pass in this session of Congress.

So I say to my dear friends who are pleading for the passage of this legislation: Where were their pleas 6 months ago? We could have had the legislation on the floor then at a time when it stood a better chance of passing.

Mr. Speaker, I yield 3 minutes to the gentleman from North Carolina (Mr. BROYHILL).

Mr. BROYHILL. I thank the gentleman for yielding this time to me.

Mr. Speaker, I realize the gentleman from Ohio (Mr. LATTA) has a number of Members who have requested time and does not have a great deal of time to yield, but I take this time in order to urge my colleagues to vote against this rule.

We should defeat this rule. This bill should not be on the legislative agenda here at this late hour. It is taking up valuable time in this House. It is not going to take just hours to complete this bill; it is probably going to take days. We should be using this time to consider must legislation so that we can adjourn this body so that we can be home for Christmas Eve.

I understand that even if this bill were to pass the House, it would go no further. I am also told, and I just checked a few minutes ago, that there may be as many as 30, 35 amendments that are accumulating here at the Speaker's desk.

I do not think that the Committee on Rules should have granted a rule at this late hour on such a controversial bill that is going to take, not hours, but days to complete.

This bill is advertised as a bill to promote increased employment. This is not a bill that would increase employment. It is not a jobs-creation bill. It is a jobs-transfer bill. Thousands of Americans are going to lose their jobs, and those jobs will be transferred as a result of the passage of this legislation.

Your agricultural leaders, for example, are saying that this bill would be a disaster for American agriculture. We can be assured that there will be retaliation against other industries here in the United States, industries that depend upon exports. Those workers

will lose their jobs as a result of this trade retaliation. Consumers will also lose as a result of this bill as the prices of automobiles are driven up to new highs.

So again, Mr. Speaker, I urge a no vote on this rule. Next year would be ample time to give careful consideration to a bill of this magnitude, of this controversy. It should not be considered in these late hours.

Tomorrow the House is scheduled to consider H.R. 5133, the Fair Practices in Automotive Products Act of 1982. H.R. 5133, the so-called domestic content bill is a special interest bill deserving of no one's support.

I am submitting for the RECORD, letters from the U.S. Trade Representative, William E. Brock, and the Secretary of Commerce, Malcolm Baldrige, expressing strong opposition to this bill. I concur with their prediction that this bill will have a negative effect on our export industries which will far outweigh any potential benefits to our domestic auto industry. The financial plight of our domestic auto manufacturers will not be cured by this protectionist legislation.

I urge my colleagues to vote against this very bad bill. The letters follow:

U.S. TRADE REPRESENTATVE,
Washington, December 8, 1982.

Hon. JAMES T. BROYHILL,
U.S. House of Representatives,
Washington, D.C.

DEAR JIM: H.R. 5133, the "Fair Practices in Automotive Products Act", is now pending floor action in the House of Representatives. I am writing to express the Administration's strong opposition to this legislation and to ask that you give careful thought to the damage it can do to the American economy.

This bill would establish domestic content requirements for motor vehicles sold in the United States as a means to assist the American automobile industry. The Administration is greatly concerned with the very real problems faced by our automotive industry, its suppliers and its workers during its worst slump in 20 years. In times of economic difficulties it is tempting to turn to the temporary cure of saving jobs at home by keeping out products from aboard.

Imports have not been the root cause of the industry's problems. Recession, high interest rates and a lagging economy have had a disproportionately negative effect upon automobile sales. Although the average import penetration for the first eleven months of 1982 was 27.7 percent, as compared to 27 percent in 1981, in absolute terms, import sales are running only 200,000 more this year than five years ago.

To the extent imports are a problem in the automotive industry, the Administration welcomed the voluntary export restraints extended by the Japanese government. These restraints, now in their second year, have assured that virtually every additional car sold in the United States during this period is manufactured in North America. I believe this Japanese action is effectively meeting the import issue without permanently damaging American exports, jobs, and the international trading system, as would domestic content legislation. These restraints, in my view, should be continued into 1984.

The protectionist approach of H.R. 5133 would have serious international trade consequences. The negative precedent set by the United States in requiring local content as a protection to imports, could lead to the emulation of our actions by other major trading countries. The limited success of the recent General Agreement on Tariffs and Trade (GATT) Ministerial meeting in Geneva proved just how strong worldwide protectionist pressures have grown. The United States, the world's strongest economy, must continue to take the lead in resisting this influence, and we will continue to expect nothing less from our major trading partners.

Such staunch defense of our free trade policy is not based on an idealistic view of world trade. Rather, the pursuit of free trade is a necessity for the preservation and growth of American jobs. Between 1977 and 1980, four out of five new manufacturing jobs were created in export industries.

The impact of foreign trade retaliation far exceeds this bill's potential benefits to the automotive industry. A recent Congressional Budget Office study estimates that although 38,000 auto jobs would be created by 1990, the new jobs are more than offset by 104,000 jobs eliminated in factories that make goods for exports. The burden of such action would fall heavily on the electronics, agricultural and services industries.

Exports and trade mean jobs. Passage of H.R. 5133 would be devastating to U.S. economic health and employment. This Administration opposes it in the strongest possible terms.

I request your full assistance in stopping this self-defeating measure.

Very truly yours,

WILLIAM E. BROCK.

SECRETARY OF COMMERCE,
Washington, D.C., December 1, 1982.

Hon. JAMES T. BROYHILL,
House of Representatives,
Washington, D.C.

DEAR JIM: H.R. 5133, the "Fair Practices in Automotive Products Act", is now awaiting consideration by the House of Representatives. The Reagan Administration strongly opposes this legislation. H.R. 5133 is protectionist and will insulate the U.S. auto industry from foreign competition. The fact that the supporters of H.R. 5133 have tried to improve the bill by tinkering with its requirements and penalties has not and cannot make it acceptable.

Support for local content seems to be based on several fallacies. The first is that it will create hundreds of thousands of jobs in the auto industry. H.R. 5133 will not lead to significant job creation; it could even lead to job destruction. The exclusion of some foreign autos may, if other foreign manufacturers do not "take up the slack," temporarily create some additional U.S. jobs, but the employment gain would be very modest. Since none of these jobs would be available this year or next, it will not help the U.S. auto industry to recover from its current problems.

Any jobs created by the bill would be at least partially offset by job losses that it would produce. We doubt that foreign auto manufacturers with U.S. plants will continue to achieve the same economies of production if they are forced to meet local content requirements. This bill, by jeopardizing these economies, could well result in the closure of assembly facilities already here.

We believe that disruption of the present U.S. distribution system for Japanese cars would further reduce U.S. employment. We see Japanese manufacturers curtailing their overall level of exports here rather than making additional investments to satisfy local content levels. The decline in import volumes would mean that many import dealers would be forced to close or cut back, with resulting job losses, and that U.S. port facilities which handle imported cars would suffer substantial declines in employment.

Even more important than these direct job effects, H.R. 5133 would cause further job losses by igniting retaliation against U.S. exports, a development that could be a severe blow to American farmers and American workers in non-auto industries. We estimate that for every $1 billion of U.S. exports eliminated by retaliation 25,000 jobs could be lost.

The second fallacy is that local content will save the U.S automobile industry. This is not so. Over time, this bill would harm, not help, the auto industry. "Locking in" U.S. manufacturers at a 90 percent level of local content, as H.R. 5133 would do, will prevent them from seeking the lowest cost sources of supply. Thus, while foreign manufacturers would be free to cut by purchasing parts wherever they are best and least expensive, U.S. companies would be hamstrung.

The consumer will also suffer under a local content law, since imports will decline, car prices will go up, and fewer models will be available.

The third fallacy is that local content can strengthen U.S. trade policy. In fact, local content would be a major setback for U.S. trade policy. If H.R. 5133 becomes law, the Japanese and our other trading partners will have no reason to take seriously our efforts to remove trade barriers. America will have repudiated its traditional leadership role for free trade.

The Reagan Administration recognizes that the American auto industry has serious economic problems. Early on, we constructed a program to address those problems. That program combines economic recovery with tax and regulatory relief. We recognize that the industry still needs help, but we believe that the problems of the industry will not be solved by enacting trade barriers. They will be solved by providing an economic environment in which the U.S. auto companies can become more productive and competitive, domestically and worldwide.

In short, H.R. 5133 is the wrong answer to the problems of the United States auto industry.

Sincerely,

MALCOLM BALDRIGE,
Secretary of Commerce.

Mr. BONIOR of Michigan. Mr. Speaker, I yield 3 minutes to the gentleman from New York (Mr. OTTINGER), the sponsor of the bill, for purposes of debate only.

Mr. OTTINGER. Mr. Speaker, I rise in strong support of H.R. 5133, the Fair Practices in Automotive Products Act and the rule for its consideration which is before us at the present time.

I have no question in my mind that the bill will meaningfully address the discrimination that presently exists against the U.S. exports of automobiles, that it will help to restore some of the 300,000 jobs of people who pres-

ently are unemployed in the automobile industry directly and some 800,000 jobs that have been lost in related industries.

Mr. Speaker, it has been said that this is a useless exercise; that the bill will not be considered in the Senate. I do not think that is so. First of all, the Senate, under its rules, may attach this bill to any nongermane measure and the bill at the present time has 20 cosponsors in the other body.

Second, if all we do is to pass the bill in this body, in this Congress, it will still send a clear message to those who are discriminating against our exports that at least the U.S. Congress has shown that it means business; that we will no longer play Uncle Sucker.

I am for free trade, I have always been for free trade; but free trade is something that has to be reciprocated by the other major trading nations of the world, and it has not been. Every major country in the world has acted to protect its own auto industry.

□ 2010

France, Germany, and Italy, the Members have heard the specific figures cited by the gentleman from Michigan, have acted specifically to protect their automobile industry, and 31 nations have their own domestic content restrictions on automobiles, many of them much more restrictive than what is provided here.

This bill does not prevent the Japanese and Europeans from selling cars in the United States. It merely says that if they are going to sell cars in the United States, they are going to put a certain percentage of the work in the United States, the manufacture of the automobiles and their parts.

It has been said that it is going to cause massive retaliation. I would point out that with all these restrictive measures by every other major country in the world, there has been no retaliation. In point of fact, whenever those countries have gotten tough with Japan, Japan has accommodated them. Just recently Japan was giving Canada a hard time with vastly increased imports of Japanese cars into Canada, and Canada wanted to limit them. The Japanese said no. Canada said, "We will apply to you the same restrictions you apply to us."

The result was that the Japanese yielded. They did not retaliate against Canada when they entered into an agreement on limiting imports in Canada.

I am sure that if, for once, the U.S. Congress shows its backbone, because we just went through a trade negotiations session in Geneva and came back with nothing, nobody thinks that we are serious about trade negotiations—if Congress goes back to pass legislation, then the process of lowering barriers in Europe and Japan will come very easily. I urge the adoption of this rule and of this bill.

Mr. Speaker, the U.S. auto industry has been sinking into a depression for over 3 years. Over 1 million jobs have been lost in the auto industry and its supplier industries. In 1978, the auto industry employed 1 million workers and its supplier industries another 2.4 million workers, for a total of 3.4 million. Total employment has now fallen to 2.4 million. This has contributed to unemployment rates unheard of since the Great Depression.

A sharp increase in auto imports by foreign companies and American multinationals has contributed significantly to this terrible situation. While the stagnant overall economy has reduced total car sales, import sales have grown rapidly. The import share has risen from 17.9 percent in 1978 to 27.3 percent in 1982. The auto trade deficit with Japan alone was $13 billion, almost 90 percent of the total U.S. deficit with Japan of $16 billion. Meanwhile, the U.S. companies have been making plans for substantially increasing their imports of parts and vehicles. U.S. companies now have annual imports of over 2 million engines and 1.7 million transmissions. They are negotiating to import far more vehicles and major parts in coming years. If this pattern is allowed to continue unchecked, further massive job displacement is in store.

Passage of H.R. 5133 would create or preserve 637,000 jobs by 1986 and 1,386,000 jobs by 1990. Most of these jobs would be at the U.S.-based multinational auto companies whose foreign sourcing would be limited, at foreign auto companies newly operating here, and at their suppliers. There would be a substantial ripple effect that would increase jobs outside of the production of autos.

A healthy auto industry is vitally important to the Nation's economy, not only in terms of employment and trade, but in terms of the linkages it has to other key industries. For example, the auto industry uses 21 percent of the steel produced in this country, 60 percent of the synthetic rubber, and 12 percent of the aluminum. The auto industry also develops and purchases a large percentage of high technology products, like industrial robots, computer-aided design equipment, and electronically controlled machine tools. All these supplier industries would be damaged if their largest single customer, the U.S. auto industry, continues its rapid erosion.

Passage of H.R. 5133 would assure the continued strength of U.S. automotive production, particularly our capacity for producing small cars. Both foreign and domestic auto companies would have to invest here and purchase parts made here.

The provisions of H.R. 5133 are designed to assure a healthy and competitive domestic auto industry. The bill takes into account the fact that a few giant vehicle manufacturers decide where production takes place to supply the U.S. market. Their strategic decisions determine the livelihood of hundreds of thousands of American workers.

My bill imposes obligations only on companies with sales exceeding 100,000. Ten auto companies have that many sales in the United States today: GM, Ford, Chrysler, Nissan, Toyota, Honda, VW, Toyo Kogyo, AMC, and Mitsubishi. The bill provides for a 1-year grace period, after which the requirements are to be phased in by thirds in each of the next 3 years.

A company's local content requirement depends on the level of its sales. A company's content requirement is based on a smooth scale that starts at 100,001, then rises until 900,000, where it levels off. From model year 1986 onward, the content percentage—up to a maximum of 90 percent—is derived by dividing sales by 10,000. Thus, sales of 355,000 entail a 35.5-percent requirement; sales of 500,000 entail 50 percent, and so forth.

The content ratio of a company is based on its sales, exports, and imports of original equipment automotive parts and vehicles. Its imports less its exports equal its net imports. The local content percentage is derived by taking 100 percent and then subtracting a company's net imports as a percentage of its sales. For example, a company would have 90 percent local content in its net imports represent 10 percent of its U.S. sales. It has 40 percent local content when net imports are 60 percent of sales. In addition, no company can have a content ratio lower than 10 percent below the ratio it achieves in model year 1983.

This schedule is achievable. The U.S. "Big Three," VW and AMC-Renault now have enough domestic production and supplies to meet their content ratios for model year 1986 and beyond. With its new U.S. assembly plant fully utilized, Honda can meet its ratio simply by expanding its purchases of domestic parts and materials along the lines that VW has followed. Nissan's truck plant provides them with a good start toward compliance, but they will probably have to do more assembly here as well as purchase more U.S. parts. Toyota, Toyo Kogyo, and Mitsubishi would have to begin to invest here. In many cases, these companies would not have to build completely new facilities. They could instead follow the lead of VW and Renault by acquiring ownership of existing facilities for production of their vehicles.

As all these major foreign companies invested in U.S production, they would maintain much-needed competition in the American marketplace. The consumer would continue to have a wide

choice of vehicles since modern assembly plants allow many different types of models and drive trains to go down the same line.

With major foreign companies producing in the United States, competition to satisfy the American consumer would be based on the best technology, service, quality and price under the same rules. Competition would no longer be based on unfair exchange rates or lopsided tax treatment. The yen today is generally considered to be undervalued by 25 percent or more. That has a devastating effect not only on current car sales, but also on where auto companies choose to build their new products. The gap in the taxes paid on cars shipped between the two countries is just as wide. When Japanese cars leave Japan, most taxes on them are rebated back to the manufacturer and few taxes are added when they enter the United States. Going in the other direction, however, exported U.S. cars bear their full share of taxes when they leave here and get charged heavy Japanese taxes before they can be sold.

Because foreign-based multinational companies would be investing here to compete with the U.S. multinationals, the bill would have little effect on prices. The only study to predict large price increases was financed by the import dealers association.

The world does not have anything like free trade in automobiles today. In fact, every other major auto-producing country has taken stiff measures to defend its domestic production of autos and parts. For example, all of the major countries of Europe have prevented imports from Japan from capturing even half the 23-percent share that Japanese companies have taken in the United States. Italy restricts Japanese imports to 2,200 cars a year—a fraction of 1 percent of that market. France held the Japanese share to just 3 percent from 1978 to 1981, when setbacks in the French auto industry led to a cutback of the Japanese share to 2.5 percent. A gentleman's agreement between the British and Japanese industries keeps the Japanese share to less than 11 percent. Finally, the Japanese share has been held to about 11 percent in Germany. For its part, Japan poses formidable inspection requirements for imported vehicles following a history of prohibitive tariffs. Total imports of cars and trucks represent less than 1 percent of the Japanese market. In addition to these 5 major countries, over 30 other countries impose some form of local content requirements for their domestic auto industries.

Quite frankly, the effect of the bill before you today is quite mild in comparison to other countries' auto import restrictions. No complaint in the GATT has ever been made against any of these other practices. The U.S. administration has nonetheless contended that investment measures such as H.R. 5133 violate the GATT. Events at the recently completed GATT Ministerial in Geneva undermine this view. The U.S. Trade Representative had asked that investment matters be put on the agenda for ongoing GATT negotiations. But other countries contended that GATT was not the proper forum for investment issues and GATT negotiations over investment rules were rejected.

A word about the penalty provisions of my legislation is, I think, in order. A violater of the provisions of the bill is defined as a company that falls short of its assigned domestic content level in any model year. After a violator has been given a hearing, the Department of Transportation is directed to issue an order limiting for 1 year the number of vehicles or value of parts that the manufacturer may import into the United States. This limitation is based on the extent of the violation.

Specifically, the restriction on the number of vehicles that may be imported equals the number imported by the manufacturer in violation during the model year in which the violation occurred, reduced by a percentage equal to the difference between the actual and required domestic content ratios.

For example: A manufacturer sold 450,000 autos, of which 250,000 are imported. The average domestic content of all the cars was 20 percent, but the domestic content required was 30 percent. As a penalty, the manufacturer would be limited to importing 225,000 cars into the United States the following year. This limitation would be arrived at by reducing the previous year's imports—in this case 250,000—by the percentage point difference between the required domestic content and the actual domestic content—in this case 10 percent.

As I said, my legislation permits any person against whom DOT issues an order to seek judicial review within 60 calendar days. It also authorizes the U.S. appeals courts to modify department orders or remand them for further action.

In conclusion, Mr. Chairman, each of us realizes that the auto industry plays a key role in the growth and prosperity of every large industrial country. Because of that, no other major auto-producing nation has ever allowed its own auto production to collapse relative to local sales at the rate we have experienced since 1978. In the past 20 years, many governments have intervened at critical stages to prevent the destruction of their national auto markets—among them as specified above are Japan, Germany, France, Italy, and Britain.

During consideration of H.R. 5133 by the Energy and Commerce Committee, both proponents of this legislation and those who join me in advocating it rattled-off statistic after statistic about how many jobs it will provide or not provide, and what the impact will be on the price of a car. I am sure that my colleagues that oppose this legislation will, in the debate to come, voice those same concerns and statistics. Let me say that I join a majority of the Members of this House, who have cosponsored this legislation, in the conviction that the result of enactment will mean jobs—lots of them. I am convinced that this bill will not result in the undesirable side-effects that opponents claim. The bottom line is that the United States cannot continue to cling to open U.S. auto markets while our competitors close theirs to us and make off with our sales and jobs.

The United States cannot continue to play "Uncle Sucker" in light of the practices of Japan, Europe and others which, either enforce auto domestic content laws themselves or practice inspection procedures and apply tariffs that exclude our autos and other products from their markets. The opponents of this legislation speculate about possible retaliation. Yet 31 countries have domestic content laws for autos already on the books, and Japan has not retaliated against any one of them in any way. All European countries, as I have said, maintain quotas for Japanese imports without objection. We are the largest auto market in the world, and to abandoned it would mean economic collapse for the Japanese.

Mr. Chairman, my colleagues, while all sorts of speculations about my bill have been voiced, we all know that there are some 300,000 autoworkers without a job—and that is a fact.

The time is short. We are talking about the jobs, livelihoods, and the economic survival of an estimated 867,000 Americans and their families. We must act, and we must act now.

I urge you to support H.R. 5133 as written.

I urge adoption of the rule so this vital measure may be considered.

Mr. LATTA. Mr. Speaker, I yield 2 minutes to the gentleman from New York (Mr. LENT).

Mr. LENT. Mr. Speaker, I rise in opposition to the rule under consideration and ask my colleagues to vote "No" on the rule.

Floor consideration of the bill at this time is premature.

H.R. 5133 has broad implications for our economy. It will affect a host of American industries in addition to the auto industry. It will negatively affect our rate of employment. While some 38,000 jobs might be created in the auto industry, 104,000 jobs will be lost in other sectors of the economy. It will undermine our position as the world's largest exporter.

In light of these repercussions, I do not believe that committee consideration of this bill to date has been adequate. This bill was referred only to the Energy and Commerce Committee. Issues such as the implications for world trade and unemployment in other sectors were not allowed either adequate consideration or any consideration in other committees.

I must agree with my colleagues from the Ways and Means Committee that the time afforded for their consideration of the bill was not adequate.

I also think that the adverse effects of this legislation on agricultural commodities should be of major interest to the members of the House Agriculture Committee.

For these reasons, I oppose the rule and urge my colleagues to defeat the rule.

Mr. LATTA. Mr. Speaker, I yield 5 minutes to the gentleman from Minnesota (Mr. FRENZEL).

Mr. FRENZEL. Mr. Speaker, the reason that I oppose the rule is not only that H.R. 5133 is a bad bill for America and will be a good thing if we want to ruin our economy; I vote against the rule also because what the rule is doing is presenting to the House a bill that has not had adequate consideration within our committee system. Due to the Parliamentarian's ruling, which I do not understand, the bill was referred to the Energy and Commerce Committee. It was clutched to the bosom of that committee for nearly a year, and suddenly popped out with only a half a day's hearing.

The bill should have been referred to the Ways and Means Committee, which has trade jurisdiction. It was given to the Ways and Means Committee for 8 legislative days, during which time we heard witnesses from morning until night, and some during the night. In all of those witnesses that we heard, I can only recall two of them who were in favor of the bill. We want to pursue our inquiry. We would like to look into this problem a good deal deeper than it has been looked into. We know already that the bill is totally without merit and would be an economic disaster, but we do not know what would be right, and we need to take more testimony.

Therefore, Mr. Speaker, the bill should be returned to the committees so that the committees can do a better job of holding hearings and making some conclusions that would maybe solve the problem. The bill only exacerbates the obvious problem of unemployment by trading off some employment for some others, and producing a net loss in total employment in the United States.

Mr. Speaker, previous speakers have indicated that other countries are more dependent than the United States on trade. I would simply remind the body that the United States is the world's largest trading nation. Under the GATT system, which we invented and persuaded the world to use after World War II, our country has had its greatest period of prosperity. We are dependent on trade, and jobs in this country are dependent on trade.

Also, I would like to make the point that if we decide to try to save a few jobs of autoworkers while giving up other jobs, the sector that is likely to sustain the most damage during the retaliation which will inevitably follow is agriculture, so if there is any Member of this body who is serving an agricultural district and votes for this bill, I suspect he or she will do so at great peril.

It was also suggested that the bill might be helpful to foreign producers in the United States. All the foreign producers now manufacturing in the United States and all the domestic producers testified before our committee that they were against the bill, that the bill would inhibit their operations. One of them who is still building a plant indicated they might have to turn their backs on nearly 1 million dollars' worth of investment.

The worst thing this bill does, however, is in the dollar-yen relationship. It is thought that the yen is undervalued, and that gives the Japanese an advantage over us in that they are able to sell their cars more cheaply than ours. The passage of H.R. 5133 will, of course, drive the yen down further, putting U.S. goods at a further disadvantage and giving Japanese goods a greater advantage. So, if you want to send a message to Japan, for heaven's sake, do not pass this bill because what you are going to do is give them some greater advantages.

Mr. Speaker, the bill is so bad I am going to wait until tomorrow to describe it when there is a lengthier opportunity to describe the disastrous economic effects of the bill. For the moment, however, let me repeat that this, the rule we are talking about tonight, the rule is bad because it did not allow an adequate amount of time for consideration within the committees of this House, and it specifically denied the committee of principal jurisdiction an opportunity to do a job for you the way that your committees would like to do a job when you get a job referred to them.

□ 2020

Therefore, Mr. Speaker, I urge the defeat of the pending resolution, and if it is not defeated, we will hear more about the bill tomorrow.

Mr. BONIOR of Michigan. Mr. Speaker, I yield 3 minutes to the gentleman from Florida (Mr. GIBBONS) for purposes of debate only.

Mr. GIBBONS. Mr. Speaker, I am not going to give the Members one of those fire-and-brimstone talks tonight. I just want to try to talk quietly about this matter and say, first of all, that I oppose this rule and this legislation.

I have malice toward none and sympathy for all who are caught in the areas of great unemployment. America is going through a transition. The automobile industry is going through a gigantic transition. Domestic policy has not been adequate. We have failed to fight inflation on the domestic front with budget tools, and the Federal Reserve stepped in and fought inflation with monetary tools. That has exacerbated the problem in the automobile industry, and we are reaping that harvest.

I say it quietly but with a great deal of conviction, Mr. Speaker, and I criticize no one.

Through an historic accident, this bill when introduced, should have gone, under the rules of the House, to the Committee on Ways and Means. It did not. It was only after the accident was discovered that it was sequentially referred to the Committee on Ways and Means. On September 21 of this year, after the bill had been in the Congress almost a year, we finally got out first crack at it. All we could do was wave.

We had no power to even complete our hearings. We had no power to even discuss it, to amend it, to try to change it, or to redirect it, and, frankly, I doubt if there is much that anybody could have done. We have to live with those historic accidents.

This bill will be back next year, and I trust that we will be able to work out these matters in a more satisfactory environment.

The only good reason I have heard for passing this bill—and the Members can judge its quality—is that this is a "happy birthday" going-away present for Doug Fraser. Doug Fraser is probably the most intelligent individual who is involved in the auto industry, and if Members think they should throw away America's future honoring Doug Fraser, then they ought to vote for this bill. But that is the only good excuse for voting for this bill.

In the hearings that the Committee on Ways and Means was able to conduct in only 8 days, 1 of which was a religious holiday—and these were days and nights, I must say—we collected 856 pages of testimony from interested people.

The SPEAKER pro tempore. The time of the gentleman from Florida (Mr. GIBBONS) has expired.

Mr. LATTA. Mr. Speaker, I yield 1 additional minute to the gentleman from Florida (Mr. GIBBONS).

Mr. GIBBONS. Mr. Speaker, I thank the gentleman from Ohio (Mr. LATTA).

Mr. Speaker, in this collection of testimony and cross-examination by some of the smartest and most tenacious Members of Congress, we will find all of the answers to all of the assertions

that have been made here. Every disinterested, knowledgeable witness opposes this bill, and they concluded that America would be poorer, that prices would be higher, that inflation would be worse, and that jobs would be destroyed, not created, if this bill were passed.

May I call the attention of the Members to the testimony of the National Automobile Dealers Association where people who sell American-made cars only testified that they unanimously opposed this bill because, they said, it would result in higher prices and lesser consumer choice and would diminish the strength of America. These people know the industry; they live with it; they know both sides of it.

Mr. Speaker, I say to the Members, read the testimony.

Mr. LATTA. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. DANNEMEYER).

Mr. DANNEMEYER. Mr. Speaker, I take pleasure in talking about the Smoot-Hawley Tariff Act of 1982 this evening, and I can just share with my colleagues, on the issue of the rule, the certain experience that this Member from California had serving on the Committee on Energy and Commerce which had the distinction of considering this legislation. It was an interesting experience to say the least.

The Subcommittee on Commerce, Transportation, and Tourism held only one-half day of hearings. The markup vehicle in committee was a substitute amendment that was not available to members until the morning of the first day of markup. At the time, when the patience of some of the members of the committee was exhausted, this member had 20 amendments pending for consideration, and that was at 10 o'clock that particular morning. There was a quorum present and my colleagues who constituted it passed through a resolution cutting off any consideration of any amendment by 4 o'clock that afternoon.

And then what did they do after they passed that stifling resolution cutting off debate? They proceeded to get up and leave the premises, and they came back at 4 o'clock to adopt and implement the limitation on any further consideration, and in the interim, of course, I had no consideration or opportunity to present these amendments. I suppose some other Members in this room have gone through a similar experience.

It is for these reasons that I think it is an absolute mistake for this body to attempt to seriously debate what this legislation entails for the country and indeed the world in this lameduck session.

Mr. Speaker, to my Democratic colleagues, let me leave them with this thought of charity. I can only hope that the Smoot-Hawley Tariff Act of 1982 will do for their party what the Smoot-Hawley Tariff Act did for the Republican Party in 1930.

Mr. BONIOR of Michigan. Mr. Speaker, I yield for debate purposes only, 1 minute to the distinguished chairman of the Committee on Energy and Commerce, the gentleman from Michigan (Mr. DINGELL).

Mr. DINGELL. Mr. Speaker, this is a jobs bill. It is a jobs bill which should pass this Congress. If we cannot pass it in this Congress, then we should pass it in the next Congress.

It means as many as 700,000 to 900,000 jobs to Americans at a time when unemployment is in excess of 10 percent and better than 12 million Americans are walking the streets. It is a jobs bill which does the same thing that every other industrialized nation does with regard to autos and auto production. It is a jobs bill that sends a message to the Japanese who use the United States as a colony. They take food, fiber, agricultural products, and raw materials from the United States, and they return to us finished products.

We have the same splendid relationship with the Japanese that the British colony of India had with the home island of Britain in the year 1880.

Make no mistake, this is a message. It says that we are going to have our people treated fairly.

I am a free trader. My dad was one of the authors of the reciprocal trade bill, and I have supported reciprocal trade and fair trade for years. It is not practiced by the Japanese against the United States. If Members are worried about penalties and retribution, they have been practicing that against us for years.

Mr. Speaker, I urge the adoption of the rule and of the bill.

Mr. Speaker, I rise in support of this rule for this most important job's protection and enhancement bill, H.R. 5133, the Fair Practices in Automotive Products Act. It will help automobile workers, but it is also a bill that will help many who work for or are looking for jobs with automobile manufacturers, suppliers, and retail dealers located throughout the Nation, as well as others in related industries, such as steel, aluminum, plastics, and the like.

I stress that this is not a trade bill. It is based on impact on interstate commerce and the effect on such commerce.

On September 21 the bill was reported favorably by a wide margin with an amendment in the form of a substitute. The Speaker then referred the bill to the Committee on Ways and Means. That committee was discharged from further consideration of the bill on October 1, 1982, without making any recommendations.

This is important legislation for the working people of America—for those who are a part of the motor vehicle industry and for those who are not. Today, unemployment in the U.S. automotive industry exceeds a quarter million workers, and new layoffs are announced weekly. My State of Michigan, one of the leading automobile and truck producing States, now has an unemployment rate of 17.2 percent.

According to the Labor Department, employment in automobile manufacturing has dropped from 762,400 in December 1978, to just 459,700 in April 1982. In addition, thousands of other workers whose jobs are related to the vehicle manufacturing industry, or who live and work in communities dependent on the vehicle manufacturing industry, have been fired or laid off. Some 800,000 workers in Illinois, Indiana, Michigan and Ohio have exhausted extended unemployment benefits since January 1980. Many of these workers are a part of the record 10.8-percent national unemployment rate reported last week by the Department of Labor, and others are not even counted in the figures.

The national cost of this devastating unemployment in the automobile industry in terms of lost tax revenues and payments to the unemployed has been estimated at $16 billion for each of the last 2 years—the cost for State and local governments has been enormous as well. The cost of the overall rate of unemployment is equally drastic, since it is estimated that each percentage point rise in the unemployment rate results in a loss of roughly $25 to $30 billion to the U.S. Treasury. As we face a potential deficit in fiscal year 1983 of $200 billion, we must consider this bill and all other means of getting Americans back to work. Until we do that, this deficit will never go away.

H.R. 5133 will put thousands of Americans back to work. It is a fair and balanced response to current problems in the world automobile market. There is no such thing as "free trade" today in the automobile industry or, for that matter, in other industries. Germany, France, the United Kingdom, and Italy: All have sharp curbs on Japanese encroachment into their automobile markets. And the Japanese, who flatly prohibited auto imports until the early 1970's rely now on a system of nontariff trade barriers to block foreign entry into their market.

The Deputy U.S. Trade Representative, in a November 10, 1982, report to subcommittee chairman GIBBONS entitled "Japanese Barriers to U.S. Trade and Recent Japanese Government Trade Initiatives," said that the Japanese Ministry of Transportation "has repeatedly turned down a U.S. request to recognize U.S. manufacturers' self-certification of automobiles to Japanese standards." Yet the United States permits, as he points out. "All auto

manufacturers to self-certify compliance with U.S. regulations." He also said that despite "a May 1980 commitment" by the Japanese to accept public affirmations of the "Dates of Manufacture" of U.S. vehicles, which are necessary in Japan to determine which year's regulations tests must be performed on imported cars, the Ministry of Transportation has not yet adopted the necessary implementing procedures.

The only major open market in the world for motor vehicles is the United States, and we have become victims of the Japanese "export economy"—a trade philosophy which provides for worker security in Japan—and unemployment in the United States.

That is why American labor unions are so supportive of the bill, from the United Auto Workers to the AFL-CIO and steelworkers.

H.R. 5133 simply requires that those who want to sell to the U.S. market return something to that market in the form of jobs and investment. It does not distinguish foreign manufacturers from domestic manufacturers—it treats them all equally. It does not exclude foreign companies from selling vehicles in the United States, as a quota would do, but allows all companies to sell in the United States on a fair and equal footing. Nor does the bill automatically raise the cost of foreign vehicles in the U.S. market—as would a tariff.

The bill that was reported to the House by the Committee on Energy and Commerce adopts a carefully considered, administratively workable and an equitable local content requirement. In the 9 days of testimony by over 50 witnesses before the Ways and Means Trade Subcommittee, virtually no criticism was directed at the technical provisions of the bill. It has been carefully crafted, and is much improved over the bill as introduced.

First, the bill has been simplified and is consistent with other legislation relating to the motor vehicle industry. The adoption of the Energy Policy and Conservation Act approach, which is based on U.S. customs data about imports by each manufacturer, means that the bill will be simple to administer and enforce. The bill works model-year by model-year, so that it takes into account the production schedule of the industry. Moreover, the motor vehicle industry is already familiar with the Energy Policy Conservation Act system, so it can readily adapt its practices to the bill's requirements without the need for complicated and costly accounting system.

Second, the bill sets a schedule of domestic requirements which recognize the efficiencies of production in the motor vehicle industry. This bill encourages the production of motor vehicles and parts in the United States—it does not exclude these products from entering the country. In order to achieve this purpose, the bill sets domestic content requirements at a level which can be met by United States and foreign manufacturers alike. The big three U.S. auto companies are today in compliance with the strictest requirement the bill would impose, as are Volkswagen of America, which is producing cars in New Stanton, Pa., and American Motors Corp., with both its domestic nameplate cars and its new jointly produced cars with Renault.

The bill allows the manufacturers to take advantage of the efficiencies which come with large-scale production—and does not require them to make inefficient investments just to sell in the U.S. market. The bill sets no domestic content requirement on manufacturers that sell less than 100,000 vehicles per year—so consumers will continue to have available to them a wide selection of cars available in the world market.

Third, the bill sets fair penalties for violating the law. The penalties provided in the bill "fit the crime." A manufacturer who violates the law is penalized in proportion to the extent of the violation. This provision will also serve to encourage compliance and, unlike the bill as introduced, does not set arbitrary thresholds for dramatic changes in the requirements.

The "local content" requirement which is reflected in H.R. 5133 is a needed and fair response to the invasion of foreign vehicles into the U.S. marketplace. It is a necessary bill for American workers, and it is a fair bill for American consumers. It will bring jobs and investment into the United States, and it will continue to provide the American consumer with a wide selection at the lowest price.

This bill encourages foreign automakers to utilize auto parts built in the United States and to build facilities here just as some have already done, like Volkswagen of America and Honda. It does not establish a quota or a trade barrier. It is a fair bill designed to provide more jobs which have been lost in part due to the deep penetration of foreign automakers into our markets under our free trade policies.

Mr. BONIOR of Michigan. Mr. Speaker, I yield 30 seconds to the genetlewoman from Maryland (Ms. MIKULSKI).

Ms. MIKULSKI. Mr. Speaker, the best social program is jobs. We have done much in these last few weeks to generate jobs. I believe, though, that the best Federal initiatives are those that generate jobs in the private sector.

This legislation provides that if they sell here and build here, we will generate those jobs in the private sector.

Mr. Speaker, I hope that we have the opportunity to adopt this rule so we can pass the legislation tomorrow.

Mr. LATTA. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. MOORHEAD).

Mr. MOORHEAD. Mr. Speaker, I rise in opposition to the rule under consideration and ask my colleagues to vote no on the previous question to defeat the rule.

If adopted, the rule would make in order consideration of H.R. 5133, the so-called domestic car content bill.

H.R. 5133, the domestic car content bill, is a bad piece of legislation that would set the trade policy of this country back 50 years. Nonetheless, H.R. 5133 was not initially referred to the Ways and Means Committee, the committee having primary jurisdiction over trade issues in the House. Rather the bill was referred to the Ways and Means Committee as an afterthought, and then for a ridiculously limited period of time.

The Ways and Means Subcommittee under the able leadership of its chairman, the gentleman from Florida (Mr. GIBBONS), only had time to hold limited hearings on the bill and had no opportunity to make any substantive changes to the bill before the committee was discharged from further consideration of the bill.

□ 2030

The Washington Post in an editorial this morning calling the bill an anti-jobs bill said:

Hardly anybody but its authors believes that the local content bill would actually save jobs for American workers. The idea is to protect jobs in the auto factories by prohibiting the sale of foreign cars if their local content—that is, American components and labor—is below a certain level. How high a level? It rises with the number of cars that each company sells, the formula having been carefully calculated to force Toyota and Datsun out of the American market. It's doubly bad legislation. Not only is its purpose wrong in principle, but as a practical matter, its effect will be precisely the opposite of its sponsors' intention. It will preserve fewer jobs than it destroys.

It will destroy jobs in several ways. Removing two strong competitors from the market will result in higher prices for cars, and fewer sales. But that's the least of it.

Americans, including those in Congress, keep forgetting that the rules of the game changed in fundamental ways in the early 1970s, when the trading nations began to let their currencies float up and down. If the United States passes a law to cut off a flow of imports, the effect is to raise the exchange rate of the dollar—which is already high. A higher dollar means fewer American exports, and cheaper foreign imports. The drop in sales abroad destroys jobs in American export industries, while the rise in imports destroys jobs in the domestic industries that compete with them here at home.

This misguided legislation is being pushed mainly by the United Auto Workers. As President Reagan's trade representative, William E. Brock, correctly argues in a letter to congressmen, "Imports have not been the root cause of the industry's problems." Most of the unemployment in the automobile industry has been the conse-

quence of a long, severe recession and the general drop in demand for cars. But, as Mr. Brock also points out, new jobs have opened up in American manufacturing in recent years and most of them are in the export industries. Legislation that reduces imports will also, indirectly but inevitably, reduce exports—and the jobs that depend on them.

The local content bill is about to come to the floor of the House of Representatives. A vote for it is a vote for a low-growth economy. It is a vote for an attempt to shore up the less competitive industries at the expense of the most competitive. It's a vote for the kind of industrial policy that gives priority to the status quo with continuing high unemployment, inflation and stagnant incomes. It's an attempt to offer a friendly gesture to those thousands of unemployed auto workers—but it's a gesture that won't do them much good despite the extremely heavy costs to the country.

The bill is not ready for floor consideration and should be sent back for thorough analysis by the Ways and Means Committee.

I urge the House to defeat the rule and let the committee process operate as it should.

Mr. BONIOR of Michigan. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Mr. PEASE).

Mr. PEASE. Mr. Speaker, I rise in support of the rule and in support of the domestic content bill.

Very soon this House is scheduled to consider the much maligned domestic content bill. I am glad we are going to debate and act upon this bill before we adjourn. The sad truth is that many of our basic industries in America like the auto industry have suffered immeasurably in recent years in no small part because of our trade policies.

No longer can we stand idle as thousands of American jobs are sacrificed on an altar of free trade that other countries like Japan do not respect. In a recent exchange with a local reporter in my area, I spelled out my personal answers as to why I believe passage of the domestic content bill by the House will underscore that substantial change must come in world auto trade and elsewhere if the potential of genuine free and open trade is to be realized. The article follows:

Question. You are a major sponsor of the auto-content bill that is expected to be a hot item in the next Congress. Could you briefly explain the bill to the man and woman on the street?

Answer. The domestic content legislation is quite simple. It requires that autos sold in the U.S. have a substantial portion of their value or content made in the U.S. Essentially that means major parts, engines and tires, and the idea is to provide jobs for American workers.

Question. What justification is there for returning to pre-World War II type trade restrictions? Doesn't the U.S. benefit from expanded world trade?

Answer. What we're saying here is that it's okay for the Japanese, the Germans or the French to sell cars and for those cars to be available as a choice to American auto buyers. But if they are to be sold, there ought to be some provision for employing American autoworkers. We have 250,000 autoworkers or more out of work in this country, and we have had thousands unemployed for almost three years. The auto industry in this country is severely crippled and I think something has to be done. Local content laws make more sense than outright tariffs, which are clearly a violation of GATT (General Agreement on Trade and Tariffs) regulations. Of course there are 13 or 14 other countries which already have local content legislation and which have not been challenged in the GATT as a violation of the GATT treaty.

Question. In effect, you're advocating protection of one inefficient segment of U.S. industry. Wouldn't your legislation invite trade retaliation and hurt the overall U.S. economy?

Answer. That is an argument that has been used against the local content legislation. I don't think it is an actual danger. The Japanese have voluntarily entered into agreements which restrict their sales to 10 percent or less of the market in Germany and Britain, 2 or 3 percent in France and less than 1 percent in Italy, and there's been no retaliation there. When people say that adoption of the domestic content legislation by the U.S. will invite retaliation, I believe that is a theoretical threat, not a realistic one.

Question. What about the consumer's interest? Aren't higher retail prices the result of restricting imports?

Answer. The figures that I've seen from the Congressional Budget Office say there would be some increase in the cost in the long run to American auto buyers. They assume there wouldn't be any cars coming in at all from Japanese manufacturers, that the Japanese would simply stay out of our market or would stay below a threshold where they would be subject to this law. I just don't believe that's true. I think this is too big a market. This is the last market in the world where there is any semblance of competition where foreign automakers can come in. I think if we had domestic content legislation, Toyota would do what Honda is already doing. That is set up an assembly plant in the U.S. or start buying parts in the U.S. so they could comply with the law and provide the competition which is healthy for American industry and healthy for prices.

Question. Do you think other nations are "playing fair" in their trading practices with the U.S.?

Answer. All countries in the world have some restrictions on trade and the GATT organization basically is set up to remove those restrictions. There are international quorums every year where the U.S. tries by negotiations to reduce those restrictions. Every country, when it comes down to the bottom line, tries to look after its own interests. France uses financing of major capital equipment as a subsidy for its own capital industries. France has been subsidizing credit for years for their machinery and we're trying to get them to stop that. People make the argument about free trade. Well, free trade is desirable if it's really free all the way around the world. I think we ought to strive for it to be free. But the Japanese manage to keep foreign cars out of Japan and they keep a whole range of other things out of Japan. They keep American beef and citrus out, and they don't apologize for it, either.

Question. Critics say your bill might save auto and steel jobs in the short run, but will cost just as many export-related jobs in the long run. Ohio farming, for example, would be hurt by the protectionist approach.

Answer. You make the assumption that there will be retaliation. I'm saying there is no evidence that there will be.

Question. But doesn't your bill prevent the auto industry from facing up to its fundamental problems?

Answer. I think that could have been said three years ago when the American automobile companies were still building big, gas-guzzling cars and suddenly public taste shifted to smaller cars. I think the American companies needed the competition to convince them that they really had to downsize their cars. But I think in the last three years, Ford, GM and Chrysler have all made major efforts to accommodate themselves to the new desires of American car buyers. It's been very costly for them, and in order to stay in business, they have to have sales. People talk about domestic content legislation being harmful in the long run. My response to that is that if the American auto industry doesn't get some help in the short run, there won't be a long run. My job is to look after the interests of American workers and American companies, and the Japanese government certainly understands that when they look after the interests of Japanese workers and Japanese companies.

Question. Critics say heavy U.S. industries like autos and steel are a thing of the past. To what extent do you see that as true?

Answer. Anybody who represents a district like mine with some 20,000 autoworkers and well over 10,000 steelworkers ought to be hanged from the nearest pole for saying we should give up on the auto and steel industries. I don't think our nation can afford to give up on either one of those industries. They are too essential to the economic well-being of our country and in terms of military preparedness.

Question. What about the argument that the future health of the U.S. economy lies not in protecting old industries but in getting involved in computerization, information processing and other high-tech fields where the U.S. is and can remain a world leader?

Answer. No, I don't buy that. I think there is no guarantee that we can become a leader in the high-tech field, either, and that we can maintain leadership from the same kind of competition that the Japanese are now providing in steel and autos.

Ms. OAKAR. Mr. Speaker, will the gentleman yield?

Mr. PEASE. I yield to the gentlewoman from Ohio.

Ms. OAKAR. Mr. Speaker, I rise in strong support of the rule and in strong support of H.R. 5133. Charity begins at home. The American auto workers are tired of unfair trade practices that have cost them their jobs. They are tired of having foreign products dumped on their doorsteps when they in turn cannot export their products without unbelievable levels of bureaucracy, redtape, unfair tariffs, and restrictions. For the sake of our American workers, I urge passage of this rule and the bill.

Mr. LATTA. Mr. Speaker, I yield 2 minutes to the gentleman from Indiana (Mr. COATS).

Mr. COATS. Mr. Speaker, I rise in opposition to the rule not so much because the rule is a bad rule. It is an

open rule. Amendments are allowed. Debate time is I think fairly allocated.

But I rise in opposition because the bill never should have gotten to the stage where the rule was to ge granted. The Committee on Energy and Commerce was under the press of important legislation in other areas. We did not have adequate time to consider the impact of this bill.

The Ways and Means Committee has not had adequate time to assess the impact of this bill.

Serious questions have been raised by the Congressional Budget Office as to how many jobs will be or will not be created by this bill.

Whether or not this legislation provides for job creation or rather just a job transfer, these are matters of importance to this Nation, matters of importance to people employed in my district in my State. Whether or not this bill stimulates automobile employment at the expense of agriculture is a serious question that must be addressed. Testimony should be heard from experts. Testimony should be heard from those people who have had an opportunity to study this question indepth.

To bring this matter up before the lameduck session, with the press of other business, with the pressure of time to adjourn, is simply not in the best interest of the American people.

The impact of this bill is such that we deserve a full and fair consideration, full and fair hearings of testimony on both sides of this issue before this body can make a decision that affects so many people and affects the future of this country and affects our economy.

I urge my colleagues to vote against the rule not because the rule is bad but because this legislation is of such impact and such importance that it deserves further consideration and deserves consideration before the committees of jurisdiction and the Members of this body.

Mr. LATTA. Mr. Speaker, I yield 2 minutes to the gentleman from Virginia (Mr. BLILEY).

Mr. BLILEY. Mr. Speaker, I rise in opposition to the rule and I ask unanimous consent to revise and extend my remarks.

Several of my colleagues have discussed why the proposed domestic content bill is a bad idea on the merits. I agree with their analysis. H.R. 5133 is almost certainly a violation of the General Agreement on Trade and Tariffs, the keystone of our international trading system, which we are even now trying to patch back together. The Congressional Budget Office has estimated that, overall, the measure could cost 168,000 American jobs. It would certainly end up costing American consumers more for their cars both in terms of increased prices and through lost choices.

All of these economic effects are well documented. But I want to discuss another aspect, the political aspect of the proposal. Most of the Members of this House do not seriously believe this bill will pass during this Congress. Even if the Senate were to consider it, we know that the President would almost certainly veto the legislation. So why are we wasting this precious time only 2 weeks before Christmas when we have other important business to finish?

We want to send a message. We want to send a message back home to our constitutents and we want to send a message to the Japanese. There is wide-spread perception in the country that the Japanese are taking advantage of our free trading system by exporting to America and at the same time they restrict our access to their markets. All too often this is true. Quotas, tariffs, and other barriers restrict our ability to sell cigarettes, citrus, beef, and other products in Japan. Its time that came to an end. Free trade has to be a two-way street, their markets have to be open to our products as our markets are to theirs.

Just this afternoon I met with representatives of the major Japanese auto manufacturers to reinforce this message. They understood the problem, and they promised to relay my message to the Japanese Government. There is evidence that the new Prime Minister, Mr. Nakasone, is willing to take substantial steps to remove current Japanese trade barriers. It is because of this promise that I believe passage of H.R. 5133 would be the wrong political signal at this time.

It is evident that the Japanese have received our message. The new government is beginning to work on our complaints. If we pass a domestic content bill now, we will give up our best leverage on the Japanese. We will give up the opportunity to improve our balance of trade by increasing rather than decreasing production. We will give up the opportunity to create thousands of new jobs in agriculture and manufacturing to serve opening Japanese markets. We will trade the promise of an improved economic future with healthy international trade for the certainty of declining international markets and a stagnating world economy.

I agree with my colleagues that we must demand fairness from the Japanese. I have told the Japanese myself that time is growing short, but I believe that the way to deal with the problem is to open Japanese markets rather than to close American markets.

I urge my colleagues to defeat this rule.

Mr. BONIOR of Michigan. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Indiana (Mr. FITHIAN).

Mr. FITHIAN. Mr. Speaker, I normally would urge that when you vote against a rule you vote against a rule because the rule is bad. This is an open rule. I can see no constraints placed on it. I understand not at all why anyone could possibly vote against this rule.

If you want to vote against the bill, that is a different matter. This is a jobs bill, as the gentleman from Michigan (Mr. DINGELL) has said. There was a full and I think excellent summary made by the gentleman from Michigan (Mr. BONIOR) and I want to associate myself with those remarks.

I want to take the 30 seconds I have left to say that I have not heard in the debate over this over the last 2 or 3 years a single person, not one, who stood forth to say that the Japanese were practicing fair trade practices with the United States.

I have listened to the debate against this rule from the other side and I have not heard a one say that the Japanese were practicing fair trade.

Let us then pass this bill, for nothing will bring the Japanese here to negotiate a better trade arrangement than the passage of this bill in either body of this House.

This may in fact be the most important thing we do rather than pass it in an appropriation bill or have it get rolled into a continuing resolution because the other body will not pass it.

Mr. LATTA. Mr. Speaker, I yield 1 minute to the gentleman from Michigan (Mr. DAVIS).

Mr. DAVIS. Mr. Speaker, I was not going to speak on this bill but I think it is important that we show that this is a bipartisan issue. I have not heard too many of my colleagues on the Republican side rise to support the rule and the bill itself.

I want to say I am a sponsor of the bill and if we do not pass it this session we will pass it the next or reintroduce it in the next session and I will be a sponsor of it then.

This is an open rule, and this issue, ladies and gentlemen of the House, is an important issue. It should be debated.

If you do not pass this rule, the American public will not have an opportunity to see this Congress vote on this particular bill. I do not think it makes much difference whether the bill is going to be vetoed by the President or whether it will pass the other body. The important point is that we have an opportunity to debate this bill, and I certainly hope that we do it because it will send some kind of a message to our foreign competitors.

I just want to say I strongly support this bill.

□ 2040

Mr. BONIOR of Michigan. Mr. Speaker, I yield 2 minutes to the gentleman from Georgia (Mr. LEVITAS).

Mr. LEVITAS. Mr. Speaker, I thank the gentleman from Michigan for yielding time to me.

I want to say there is really only one reason to vote for this bill, and that is an act of symbolism—for the reasons the gentleman from Michigan so ably stated in his opening remarks. Symbols are important, and it is for that reason that I am inclined to support the final passage of this bill.

Certainly, we can all agree that the United States is not the only country with an obligation to engage in fair, open trade practices. The Japanese and others must recognize their responsibility as well. This bill can surely send a message to our trading partners throughout the world that the time has come for them to change, that we are not going to be the only patsies in the world when it comes to fair trade. Clearly, we are capable of enacting protectionist policies of our own.

This bill can also send a second important message—a message to our Nation's millions of unemployed workers, particularly those in the automobile industry. Congress must assure these individuals that we hear their cries for help, that we care about them and their future welfare, that we intend to enact legislation to put them back to work, to get America moving again.

Although I am not convinced that this legislation is the best way to address these problems, there are good, symbolic reasons for passing this bill—reasons that merit my support for final passage.

But do not kid yourselves, the reasons are only symbolic. This bill is not going to pass into law. And I think it is a travesty of the procedures of this House that we are going to waste an entire legislative day in the closing days of this session on a bill that is not going anywhere.

The time has come for us to put our priorities on what is achievable. It seems to me that our attention should be focused on legislation that has already passed the other body and is awaiting action here. I especially refer to the regulatory reform bill, the bankruptcy act, and the immigration reform bill. They say we may not get around to these bills because of scheduling constraints.

This is a travesty of the procedures of this House. And it is because of this perversion of our scheduling priorities that I intend to vote against the rule. Let my vote against the rule also serve as a symbol—a symbol of my disdain for the scheduling priorities of this legislative body.

Someone made a bad political mistake by taking up an entire legislative day in consideration of this legislation. As one Member of this House, I resent that priority assessment.

Mr. SCHUMER. Mr. Speaker, will the gentleman yield?

Mr. LEVITAS. I yield to the gentleman from New York.

Mr. SCHUMER. I appreciate the gentleman from Georgia yielding the balance of his time.

I rise in support of the rule. I think the rule is a good rule because it is an open rule. Many of us who have problems with the bill, problems with the terrible situation of unemployed workers, have amendments to offer. I will offer an amendment tomorrow that makes this bill's actions contingent upon a reduction in the balance-of-trade deficit with Japan, therefore making it a real free trade bill as opposed to a measure of protectionism.

I hope that the body will consider that under this open rule.

Mr. LEVITAS. I thank the gentleman for his contribution.

Mr. Speaker, I regret that we have to consider this legislation when there is other legislation which can be enacted into law.

Ms. OAKAR. Mr. Speaker, will the gentleman yield?

Mr. LEVITAS. I yield to the gentlewoman from Ohio.

Ms. OAKAR. I thank the gentleman for yielding.

I think there is one good reason to bring up the legislation, even if the Senate does not pass it, and that is to give the American workers some hope.

Mr. LEVITAS. That is the symbolism I am talking about.

Mr. LATTA. Mr. Speaker, I yield 2 minutes to the gentleman from Nebraska (Mr. BEREUTER).

Mr. BEREUTER. Mr. Speaker, I rise in strong opposition to H.R. 5133, the Fair Practices in Automotive Products Act. I urge my colleagues to join me in voting "nay" on this dangerous legislation. A vote against the rule is the best place to stop this bill.

My decision to oppose this legislation does not come without the closest personal knowledge and appreciation of the problems facing our domestic automobile industry. My family has sold American-made automobiles in Utica, Nebr., since 1918. It is still trying to do so. For 64 years, either my great-grandfather, my grandfather, or my father have shared with automobile dealers throughout the country the fortunes of the industry. As I speak today, my family business suffers as well through the slump in sales and the competition from foreign suppliers. Although you do not see many Volvos in Utica, Toyotas, Datsuns, and Volkswagens are common sights.

Despite my sympathy for the dealers, the automobile workers, the producers, and distributors of automotive parts, and the hundreds of thousands of other individuals who earn their living as a result of the domestic automobile industry, I cannot support this legislation. The temporary benefit that it might produce will prompt draconian responses from foreign nations and eventually require further retaliation by the United States. No one in this body should doubt for the slightest moment that passage of H.R. 5133 will be a major step in launching a worldwide war of protectionism. The free trading system will further crumble, and with it, many fragile and weakened national economies.

I recently had the opportunity to be appointed as a member of the U.S. congressional delegation at the GATT Conference in Geneva, Switzerland. Representatives from 88 nations came together, with strong encouragement of the United States, to discuss mutual trading problems. Let me assure you, the seeds of a bumper crop of protectionist actions are already planted. Discussions with many individuals left me with no doubt that only the most steadfast resistance to "protectionism" will keep the system alive, a system that has allowed this Nation and the world to make tremendous strides toward individual and global economic progress. One big step toward protectionism by this country like this one, will enable a stampede to begin, a stampede in which many economies will be trampled—perhaps even our own. Start this major snowball downhill and we start an avalanche that will crush all of our national economies.

We need free trade. Moreover, we, of all nations, benefit most from a free and open system. Thirteen percent of the world's exports originate in the United States. Japan, our feared competitor, only accounts for 8.4 percent. West Germany, the world's trade runnerup, contributes only 9.8 percent of the exports. Although we feel under seize in the export of manufactured products, we still lead the industrialized countries with 20.7 percent of the world's manufactured exports coming from our Nation. That represents more than $154 billion to our economy. West Germany and Japan trail with only 18.7 and 14.5 percent shares.

The influence of exports upon the U.S. economy is even more impressive when one learns that 7.8 percent of our gross national product comes from exports.

Some may doubt the ability of H.R. 5133 to touch off an International Trade War, in light of the allegation that H.R. 5133 applies only to imports from Japan and Canada. Yet, even if enactment of H.R. 5133 would only cause an equivalent response, the impact of actions by those two nations alone would seriously disable the U.S. economy. In agricultural exports alone last year, we shipped $6.6 billion of products to Japan, our No. 1 agricultural export market since 1964.

Canada received almost $2 billion of agricultural products in fiscal year 1980. Those two nations account for one-fifth of our Nation's agricultural exports. If we act against the Japanese automobile industry in such blatant fashion, certainly the Japanese will have no objection to buying their agricultural products from Canada, Brazil, Argentina, Australia, and other willing suppliers.

If nothing else, H.R. 5133 would certainly destroy our hopes for increased access to foreign markets. The importance of a recent statement by 16 of the Nation's major farm groups should not be ignored. In speaking against H.R. 5133, they said:

> We don't want to hinder strong negotiating efforts to persuade our international trading partners to change critical trade policies, including export subsidy and restrictive access practices which could open up further markets for U.S. exports.

I understand the desire of many to assist the ailing automobile industry by supporting this legislation. Rather than help the industry, however, I believe that it will instead harm the industry's chances for profitability and stability in the future. Substantial evidence now shows that the American automobile industry, both management and labor, is finally making a long overdue adjustment to competition from Japan and other countries. Passage of H.R. 5133 would send the wrong signal to our domestic manufacturers, a signal that will deter them from taking the additional actions they must take in order to meet foreign competition independently and permanently.

The Atlanta Constitution, in a recent editorial, put it bluntly.

> In effect, U.S. automakers are saying through this bill that they won't ever try to compete. UAW President Douglas Fraser says that what's good for auto jobs is good for America. That's true to a degree, but not if auto jobs are artificially protected from basic economic realities.

Let me assure you, I have absolutely no desire to protect the Japanese. Nor do I have much respect for their trading policies. My congressional district is the No. 1 processor of red meat in the Nation. Flagrant use of low import quotas on foreign meat by the Japanese really hurts the economy of my district and my State. Yet retaliation by us in the form of H.R. 5133 or similar legislation, something less than direct reciprosity legislation, would only compound, rather than solve, the problem.

At times such as these, we must all be statesmen. We must resist the desire to adopt politically popular, quick-fix solutions to problems. Instead, we must consider the consequences of these policies, not only for the short-term benefit to our districts and our country, but for the long-term impact upon our country and other nations as well. If we review this legislation on that basis, one cannot come to any other conclusion: H.R. 5133 must be defeated.

As the Detroit News said, H.R. 5133 is an example of "economic myopia." Yesterday's Washington Post aptly labels it, the "anti-jobs bill." Please join me in voting against the rule for H.R. 5133.

I include an editorial from the Washington Post to supplement my comments:

THE ANTI-JOBS BILL

Hardly anybody but its authors believes that the local content bill would actually save jobs for American workers. The idea is to protect jobs in the auto factories by prohibiting the sale of foreign cars if their local content—that is, American components and labor—is below a certain level. How high a level? It rises with the number of cars that each company sells, the formula having been carefully calculated to force Toyota and Datsun out of the American market. It's doubly bad legislation. Not only is its purpose wrong in principle, but as a practical matter, its effect will be precisely the opposite of its sponsors' intention. It will preserve fewer jobs than it destroys.

It will destroy jobs in several ways. Removing two strong competitors from the market will result in higher prices for cars, and fewer sales. But that's the least of it.

Americans, including those in Congress, keep forgetting that the rules of the game changed in fundamental ways in the early 1970s, when the trading nations began to let their currencies float up and down. If the United States passes a law to cut off a flow of imports, the effect is to raise the exchange rate of the dollar—which is already high. A higher dollar means fewer American exports, and cheaper foreign imports. The drop in sales abroad destroys jobs in American export industries, while the rise in imports destroys jobs in the domestic industries that compete with them here at home.

This misguided legislation is being pushed mainly by the United Auto Workers. As President Reagan's trade representative, William E. Brock, correctly argues in a letter to congressmen, "Imports have not been the root cause of the industry's problems." Most of the unemployment in the automobile industry has been the consequence of a long, severe recession and the general drop in demand for cars. But, as Mr. Brock also points out, new jobs have opened up in American manufacturing in recent years and most of them are in the export industries. Legislation that reduces imports will also, indirectly but inevitably, reduce exports—and the jobs that depend on them.

The local content bill is about to come to the floor of the House of Representatives. A vote for it is a vote for a low-growth economy. It is a vote for an attempt to shore up the less competitive industries at the expense of the most competitive. It's a vote for the kind of industrial policy that gives priority to the status quo with continuing high unemployment, inflation and stagnant incomes. It's an attempt to offer a friendly gesture to those thousands of unemployed auto workers—but it's a gesture that won't do them much good, despite the extremely heavy costs to the country.

Mr. BONIOR of Michigan. Mr. Speaker, I yield 3 minutes to the distinguished gentleman from Pennsylvania (Mr. BAILEY).

Mr. BAILEY of Pennsylvania. Mr. Speaker, I urge strong support for this rule and the legislation that will follow.

The issue here before us is not the technical perfections or imperfections of this particular legislative vehicle. This Nation has consistently fostered free trade policies down through its history. This Nation now stands as a victim internationally to industrial policies, nations like Japan, the obvious target of this legislation, who have abused free markets here.

There are broader issues at stake in this legislation.

Japan has discouraged investment from abroad. She has foreign cartels to identify and target and dominate markets in high value capital goods in this country and in other countries around the world.

Do them a favor. Do Japan a favor. Assist them in growing up and accepting this responsibility as the great and powerful democracy they are, in a world that needs their leadership and contribution.

An earlier speaker mentioned Doug Fraser. He spoke recently before the National Press Club, had some very cogent things to say. He referred to the dialog that we see in our papers and we here hear about knee-jerk liberals. He made a comment I think that has special value today, and it should have value in the future. That is that we need to avoid the tendencies and practices in politics and philosophy of knee-jerk free traders.

The issue is fair trade, the issue is coincidental and cooperative industrial policies, where cooperation is what is needed. And this bill serves as a political vehicle and an example to a world that must understand that the American people and this congressional role in developing trade policy will no longer accept trade policy as a mere diplomatic and military expediency.

We are too interdependent and too involved. Other nations like Japan and Europe must accept their responsibility in developing policies on currency, on capital formation, on market entry, and on export policy that are consistent with a free world model of free enterprise that we demand of our economic participants in this country. And it is not fair to allow our companies and our labor to be victimized by policies that target them from abroad, albeit from so-called free enterprise nations which exploit and flout a planning philosophy that is inconsistent with our own.

Mr. LATTA. Mr. Speaker, I yield 3 minutes to the gentleman from New York (Mr. CONABLE).

Mr. CONABLE. Mr. Speaker, I oppose the rule, because I oppose the bill. I think it ought to be defeated.

□ 2050

This turkey is late for Thanksgiving and unfit for consumption. By the time Christmas comes it is going to be a pretty bad Christmas present to the American consumer. It is going to be a very bad Christmas present for the American working person, too, because between 1977 and 1980, four of five manufacturing jobs were created in export industries in this country. Growth is consistent with our willingness to compete in the world market and we can do it.

Now, Mr. Speaker, no mention has been made as yet of the voluntary agreement that we have with the Japanese to restrain auto imports. That voluntary agreement is now in its second year and that, Mr. Speaker, is the way to handle trade policy, not with the rigidity of a bill which would make us subject to demands for compensation from those countries aggrieved by our violation of solemn treaty obligations.

The voluntary agreement that we have had does not make us subject to such a compensation claim. It is important for those of you who have machinery and agricultural interests in your districts to understand that you are jeopardizing them by taking congressional action imposing this type of rigidity on our already existent trade picture. Because of the voluntary agreements, we can understand that virtually every additional car sold in the United States during this period is going to have to be manufactured in North America. That is the result of our negotiation; but recession, high interest rates and a lagging economy have had a disproportionately negative effect on automobile sales and that is where our difficulty lies.

I hope we will not take a counterproductive action in this House. I hope we will not make a serious mistake that will become an example, I am afraid, to allies of ours who are only waiting to see the strongest economy in the world plunged back into protectionism to follow the same course.

The future is ours if we are willing to compete. It is not ours if we build a wall around America and retreat. I hope we will have the vision to do the right thing. I hope we will oppose the rule. I hope we will oppose the bill and I hope that we can have some confidence that the future of America, therefore, is as bright as its past.

● Mrs. COLLINS of Illinois. Mr. Speaker, I seek recognition to speak in support of H.R. 5133, the Fair Practices in Automotive Products Act. As a cosponsor of this bill, I believe it is crucial for domestic content legislation to be passed to enable the auto industry to return to some sense of normalcy.

I have heard arguments as to why we should not adopt H.R. 5133, I shall attempt to dispell a few of those myths. One of the most common arguments contend that if we adopt local content legislation, America will be in violation of the General Agreement of Tariffs and Trade (GATT). But the GATT provides flexibility within its framework to allow signatory nations to suspend obligations incurred under the agreement.

A second argument tells us that local content legislation may actually provide a disincentive for foreign corporations to produce in the United States. Instead they would only lower the amount of imports they ship to America. If my opponents simply look at the facts, they will discover this is incorrect. There are over 30 countries which have enacted local content requirements. The purpose of much of this legislation was to build up industry in that country rather than continue to import the finished product and run balance of payments deficits. If one considers the auto industry of countries such as Spain, Brazil, or Australia, they will see that the automakers are subsidiaries of United States, European, or Japanese firms. Mexico's local content requirements, for example, caused Chrysler de Mexico to build an engine plant in Mexico rather than import engines from the United States. This, of course, provided many jobs for the people of that country. Today the plant is in fact an exporter of engines. My point is that given local content requirements, producers will construct facilities in the country, not abandon the country because it can no longer import its product.

One more argument I wish to dispell is that under local content requirements, U.S. auto firms would no longer have to be competitive. Nothing is further from the truth. In addition to Honda and Volkswagen, who are already producing in the United States, we would probably see plants opened for manufacturers such as Datsun and Toyota. This most obviously would increase competition within the United States. In addition, as Douglas Fraser stated before the Subcommittee on Commerce, Transportation and Tourism hearings on this subject:

> Competition would be based on such factors as product quality, engineering, and managerial efficiency, and not on the basis of who could pay their workers the least.

There are a few other aspects which Douglas Fraser and the Untied Auto Workers have brought to light that encourage adoption of this bill. First, we have seen over the years that a free-market approach to solving the auto industry slump has not yet worked. Second is as the auto industry output falls, there are shocks which move down the chain of suppliers, thus affecting jobs in support industries. Third, well over 30 other countries have similar content measures. Fourth, in 1981 Japan exported $16 billion more goods to the United States than it imported from this country. They should be encouraged to invest some of this money back into the U.S. market in the form of production facilities on American soil. This would lead to thousands of new jobs for American workers.

UAW estimates that with enactment of this legislation, a total of well over 800,000 jobs would be created from new demand from the auto industry and its support industries. Given the failure of the participants at the recent GATT meeting to obtain support for lowering import barriers and return to genuine free market, a strong signal must go out of all nations that we will not tolerate systematic trade discrimination.

In conclusion, every substantial recovery from a recessionary period since World War II has been spurred by a healthy recovery of the auto industry. This Nation must have a healthy auto industry to have a healthy economy. I believe the Fair Practices in Automotive Products Act will achieve this goal that I urge its passage.●

● Mr. BONKER. Mr. Chairman, as chairman of the House Export Task Force and a member of the President's Export Council, I am convinced that international trade is the key to our Nation's economic recovery in the years ahead. Between 1977 and 1980, for example, four out of five new manufacturing jobs in this country were created in export industries. Increasingly, however, we find ourselves in a fiercely competitive world economy. The U.S. share of global exports has dropped sharply over the last two decades, from 18 percent in 1960 to only 12 percent last year. Foreign goods have successfully penetrated many of our traditional markets, both overseas and right here at home.

In responding to his unfamiliar international situation we, as a nation, can go one of two ways. We either can erect protectionist trade barriers to portect our domestic markets, or we can commit ourselves to enhancing U.S. export competitiveness through various concrete incentives and continued efforts to remove foreign barriers to our products.

The automobile domestic content legislation passed earlier by the House brings this basic policy dilemma into sharp focus. I believe the direction we choose will have a long-lasting impact upon our Nation's economic future, and global economic health for decades to come.

No one can deny that our domestic auto industry currently is in the midst of its deepest slump in 20 years, and no one can ignore the heavy human cost this slump has extracted in terms of unemployment, community dislocations, and sheer strain on individuals and families. Not only the automotive

industry, but a whole host of suppliers and other manufacturers have suffered due to the decline in domestic car sales.

Increased competition from imports have undoubtably contributed to these problems, but other factors including the recession, high interest rates, lagging consumer demand, the strong U.S. dollar, and a deliberately undervalued Japanese yen arguably have played a more important role.

Mr. Chairman, I strongly believe that Congress must take steps to help revitalize our hard-hit auto industry and assist unemployed workers. But I continue to have strong reservations about imposing domestic content requirements on foreign imports.

H.R. 5133 would force foreign and domestic manufacturers of automobiles sold in the United States to build their cars with an increasing percentage of U.S. parts and domestic labor. The actual percentage would be determined by the volume of cars sold in this country. Assuming current sales levels, the largest Japanese manufacturers—Datsun and Toyota—would face a requirement of 70 percent U.S. parts and labor by 1985. Thses automakers now use less than 10 percent local parts and labor.

I fear that this type of protectionist action would only lead to retaliatory measures by other major trading nations, resulting in a serious adverse impact upon our own export industries. The only limited success and testy atmosphere of the recent General Agreement on Tariffs and Trade (GATT) ministerial meeting in Geneva last month clearly demonstrates the strong protectionist pressures throughout the globe as the result of the worldwide recession. Enactment of domestic content legislation by the United States, traditionally a leader in promoting free trade, could be the "first shot" that touches off a general trade war like that of the thirties.

While the estimates vary, it is clear that retalization by other trading nations would have a severe impact on our Nation's economy. A recent Congressional Budget Office study estimates that although 38,000 auto industry jobs would be created through domestic content legislation by 1990, 104,000 jobs would be eliminated in export-oriented industries, particularly electronics, agriculture, and services. Even using a more optimistic set of assumptions, a recent Department of Labor study concluded that the overall impact of the proposed domestic content bill would be a slight loss of U.S. employment. The Labor Department found that about 300,000 jobs would be created in auto manufacturing and related industries, but a roughly equivalent number of jobs would be lost in other industries.

Domestic content legislation would have a disproportionate negative impact certain industries and certain areas of the Nation. The Pacific Northwest would be particularly hard hit, due to our heavy economic dependence upon exports, as well as the numerous jobs connected with imports from Japan and other Pacific rim nations. International trade already is Washington State's largest employer, providing one job out of every five statewide. Jobs related to international trade amount to 60 percent of the agricultural work force, 50 percent of the aerospace work force, and 60 percent of the forest products industry work force.

Ironically, domestic content legislation designed to relieve high unemployment in the Midwest automobile States could have a devasting impact in our area, which is already reeling from consecutive years of double-digit unemployment.

Enactment of H.R. 5133 would place the United States in direct violation of the General Agreement on Tariffs and Trade. Article III, sections 1 and 5 of the GATT prohibit the signatories from adopting laws which require "* * * directly or indirectly, that any specified amount or proportion of any product * * * must be supplied from domestic sources."

At the urging of the United States, the trade ministers of the 88 GATT-member countries met in Geneva 2 weeks ago to review the global trade situation. While less successful than originally hoped, the ministerial meeting resulted in a general declaration by all GATT members "to resist" new protectionist measures. I feel very strongly that the United States should adhere to this commitment, both out of respect for international agreements and out of a recognition that avoiding protectionism and enhancing free trade are vital to our long-term economic interests.

All of this does not mean that we should do nothing to boost the domestic auto industry. As a first step, we should address the highly slanted United States-Japanese exchange rate which has given Japanese imports an unwarranted advantage in penetrating our domestic market. This inequitable rate of exchange is a product of both high U.S. interest rates and a deliberately undervalued Japanese yen.

The most important prescription for our ailing auto industry, however, is renewed consumer demand and sustained economic growth. We must make the hard spending taxation, and monetary policy decisions needed to bring down high deficits and interest rates, restore consumer confidence, and get our economy moving again.●

Mr. BONIOR of Michigan. Mr. Speaker, several Members have risen and taken the well and argued that this is not a bill to be taken up 2 weeks before Christmas in the waning hours of the legislative session, that this is a turkey that is past Thanksgiving.

Well, Mr. Speaker, a whole section of this country has been ravaged with unemployment. A million automobile workers and auto-related jobs have been lost, costing this Government $25 billion—$25 billion in the last 2 years in lost revenues and Government payments.

When will we begin to address this problem? The time is now.

Mr. Speaker, I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

So the previous question was ordered.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. FRENZEL. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 191, nays 120, not voting 122, as follows:

□ 2110

The Clerk announced the following pairs:

On this vote:

Mr. LaFalce for, with Mr. Badham against.

Mr. Hawkins for, with Mr. Craig against.

Mr. Montgomery for, with Mr. Thomas against.

Mrs. Chisholm for, with Mr. Hunter against.

Mr. Garcia for, with Mr. Chappie against.

Mr. MARTIN of New York and Mr. FOUNTAIN changed their votes from "nay" to "yea."

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

SETTING RECORD STRAIGHT ON INTERCEPTED BRITISH COMMUNICATIONS

(Mr. BROOKS asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. BROOKS. Mr. Speaker, a recent news report alleged that the National Security Agency had intercepted official British communications between Washington and London. These allegations were based on a purported "unpublished report" of a subcommittee of the Government Operations Committee.

Understandably, the National Security Agency is concerned about these allegations, and I have exchanged letters with Lt. Gen. Lincoln D. Faurer, Director of NSA, to set the record straight. I would like to include copies of our letters in the RECORD at this point.

NATIONAL SECURITY AGENCY,
CENTRAL SECURITY SERVICE,
Fort George G. Meade, Md., Nov. 8, 1982.

Hon. JACK BROOKS,
Chairman, Committee on Government Operations, U.S. House of Representatives, Washington, D.C.

DEAR MR. CHAIRMAN: I am writing to bring to your attention a matter which is currently of great concern to the National Security Agency.

Recently there have been a number of media reports concerning the activities of this Agency which appear to have been derived in part from documents prepared under the sponsorship of a subcommittee of the Government Operations Committee. An example of these media reports is enclosed. In this particular example—a Reuter's release which has been subsequently picked up by newspapers on a worldwide basis—the author, Christopher Hanson, states that he has used as a source document "an unpublished Congressional report" which he describes as having been ". . . prepared for a House Government Operations subcommittee in late 1977 but was deemed too controversial to be made public." Mr. Hanson indicates in the article that Reuters obtained the report from private sources.

We have reviewed the documents held by Mr. Hanson and they appear to us to be separate working drafts of a report on the National Security Agency which were possibly prepared by the staff of the Subcommittee on Government Information and Individual Rights during an inquiry known to have been conducted with respect to NSA operations during the 1977 timeframe. The documents purport to be unclassified and the footnotes seem to indicate that the information on which they were based was drawn from open sources.

Our concerns stem from the fact that the documents contain assertions and other information which are absolutely untrue but which, nevertheless, assume an unfortunate air of credibility as they are repeated in the press and are described as having been derived from a congressional report—albeit one that is "unpublished" and derived from "private sources."

In this regard, it would be very helpful if the Committee would consider issuing a statement which places these drafts and the unsubstantiated charges they contain in the proper perspective. I would be pleased to discuss this matter with you personally, if you desire, at your earliest convenience.

Because of the connection of this subject to the oversight responsibilities of the House Permanent Select Committee on Intelligence, I am providing a copy of this letter to Chairman Boland.

Sincerely,

LINCOLN D. FAURER,
Lieutenant General, USAF,
Director, NSA/Chief, CSS.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON
GOVERNMENT OPERATIONS,
Washington, D.C., November 30, 1982.

Lt. Gen. LINCOLN D. FAURER, USAF,
Director, National Security Agency, Chief, Central Security Service, Fort George G. Meade, Md.

DEAR GENERAL FAURER: This letter is in response to your November 8, 1982, letter, regarding recent media stories about a Government Operations Committee report on National Security Agency activities. The stories refer to an unpublished report prepared for a Subcommittee of the Committee on Government Operations. You express concern about the credibility that may attach to these stories as a result of the citation of a supposed congressional report.

As you are aware, hearings on the interception of nonverbal communications by federal intelligence agencies were conducted during the 94th Congress by the Subcommittee on Government Information and Individual Rights. The Subcommittee was then chaired by Rep. Bella Abzug. Hearings were held on October 23, 1975, February 25, 1976, March 3, 10, and 11, 1976. The transcript of the hearings was printed. At some point during the 94th Congress, the Subcommittee staff began the preparation of an investigative report on the subject of interception of nonverbal communications.

The normal procedure for the preparation of an investigative report by a Subcommittee of the Government Operations Committee is that a draft report is prepared by the staff under the direction of the Subcommittee chairman. When the draft is satisfactory to the Subcommittee chairman, it is circulated to other members of the Subcommittee and voted on at a meeting of the Subcommittee. If approved, the report is then circulated to members of the Full Committee on Government Operations and voted on at a meeting of the Full Committee.

When reports are circulated to members of a Subcommittee or the Full Committee, each copy is marked "Hold Until Release Date Approved by Full Committee on Government Operations." A report is not released until it has been voted upon by the Full Committee and all members have had an opportunity to file additional, dissenting, minority, separate, or supplemental views. All Members and staff are aware of the release procedures, and the Committee has always made every effort to enforce the procedures.

It is quite common for an initial draft report to undergo substantial change at the time it is considered by a Subcommittee or by the Full Committee. This is one reason why the Committee has always taken great care to prevent the premature release of Committee reports.

All investigative reports approved by the Committee are submitted to the House, placed on the Union Calendar, and printed. Formal procedures for consideration of Committee reports are set out in Rule 4 of the Rules of the Committee on Government Operations.

No draft Committee report based on the hearings on the interception of nonverbal communications by federal intelligence agencies was ever circulated to the members of the Government Information and Individual Rights Subcommittee or to members of the Full Committee during the 94th Congress or during any subsequent Congress. No such draft report was ever considered, voted on, or approved by members of the Subcommittee or Full Committee. The contents of any document represented to be a draft or unpublished Committee report cannot be considered in any way as an official statement of the Subcommittee, the Full Committee, or of any members of the Subcommittee or Full Committee. Until formally approved by the Full Committee, a report has no official status as a Committee product. References to a document as an "unpublished Committee report" are clearly erroneous because the Committee does not produce unpublished reports.

The staff of the Subcommittee on Government Information and Individual Rights did work on a draft on the subject of interception of nonverbal communications. No action on the draft was taken during the 94th Congress, and the issue remained on the Subcommittee agenda into the 95th Congress. Rep. Richardson Preyer assumed chairmanship of the Subcommittee at the beginning of the 95th Congress. Before proceeding further on the matter, Chairman Preyer forwarded a copy of the draft to the House Select Committee on Intelligence for its review. Staff work on the subject was discontinued at that time, and no additional action has been taken by the Subcommittee. Incidentally, it is my understanding that the draft sent to the Select Committee on Intelligence contains no reference to the particular allegations now at issue, i.e., U.S. surveillance of official British Government communications between London and Washington.

I cannot speculate about the contents of what has been circulated to the press as an unpublished Committee report. Since no final draft was prepared at the staff level for submission to the Subcommittee, there is no version of the draft that could even be identified as a final staff product.

I hope that this information clarifies the matter. Please do not hesitate to contact me if I can be of further assistance.

Sincerely,

JACK BROOKS,
Chairman.

THE SOVIETS' "HAND" IS IMPROVING IN GENEVA ARMS TALKS

(Mr. RUDD asked and was given permission to address the House for 1 minute and to revise and extend his remarks and include extraneous matter.)

Mr. RUDD. Mr. Speaker, this morning's paper carried an article that was very interesting. It is entitled, "Soviets Voice Satisfaction on MX Rejection."

That underscores the many arguments against the amendment which deleted procurement for the MX missile during Congress debate earlier in the events of this week in the House; that vote and the Danish missile rejection received unanimous consent in the Soviet Presidium, you can bet on that.

The Achilles heel that the Soviets go over and the fact that it fosters their own activities in the Western alliance is this: It is disharmony and weakness among the brokers of the free world.

The nuclear freeze movement is no doubt the pride of the Soviet leadership today.

The setback of the MX, the weapon of deterrence and not aggression, and the Danish decision to do nothing to promote arms restraint, will not help us in our views in Geneva. The Soviets' major concern is the strength and will of the Western countries to remain strong, to deter blackmail and aggression. The MX loss is not going to help in that regard.

It should be obvious to more than the commentators of TASS that the loss of the MX and Denmark's participation in NATO's defense of Western Europe would be two more major trump cards for the Soviets in Geneva.

The Soviets can race ahead with SS-20 deployment amid silence while the Western alliance gets criticized even considering measures to balance Soviet threats to Europe.

I insert the following article, "Soviets Voice Satisfaction on MX Rejection," for my colleagues to review.

[From the Washington Post, Dec. 9, 1982]

SOVIETS VOICE SATISFACTION ON MX REJECTION

(By Dusko Doder)

Moscow, December 8.—The Kremlin reacted with obvious satisfaction today to a decision by the U.S. House of Representatives to kill production funds for the controversial MX missile program.

Authoritative commentaries indicated that the House vote and an unexpected decision by the Danish parliament to temporarily suspend Denmark's financial participation in the NATO plan to deploy new American medium-range nuclear weapons in Western Europe have been welcomed here as potentially the most decisive developments since President Reagan came to power nearly two years ago.

The Russians seem particularly gratified by two factors.

One is that Reagan for the first time is seen as being isolated in the American political leadership on such an important issue as the MX program. This in turn is seen as raising possibilities for additional congressional restraints on his rearmament program.

The other is that Denmark's example, as the government news agency Tass put it, "may exert an influence on the governments of Belgium and Holland, which have not yet taken a final decision on the deployment" of 572 new American missiles in Western Europe.

Diplomatic sources here said the House vote as well as the Danish decision are likely to weaken American negotiations at the Geneva talks on strategic arms and on medium-range nuclear arms in the European theater.

Tass quoted a Danish news report about "the existence of differences among NATO countries" on the issue of deployment of new U.S. arms in Western Europe. Moscow has long sought to stimulate such differences in an effort to derail the NATO deployment plan.

Tass described the House vote as a "heavy blow" to Reagan's defense policy that constituted a rejection of his "tall tales about alleged Soviet military superiority."

"If the United States really needed the MX missile to strengthen its security," a commentary issued by the news agency Novosti said, "the House of Representatives would have hardly blocked the president's plan."

Tass said the House vote "is evidence of broad discontent and concern in the country with the dangerous militaristic course" of the Reagan administration.

The commentary described Reagan as reacting with "great irritation" to the vote and said he "even likened the majority" of House members "to lunatics."

The president's statement showed, Tass said, that "he does not want to understand that by voting against the allocations for the MX intercontinental ballistic missile, the House of Representatives had actually expressed its refusal to accept the current administration's thesis about the alleged tilting of the approximate balance of strategic forces in favor of the Soviet Union in recent years."

The commentaries emphasized what is seen here as the growing importance of anti-nuclear forces in the United States and Western Europe. Tass said: "The legislators in Washington" could not ignore the outcome of the Nov. 2 referendums "in which the vast majority of Americans unambiguously" voted against the arms race.

Commenting on the Danish vote yesterday, Tass said that the legislators in Copenhagen "cannot but reckon with the powerful antiwar movement in Western Europe, and in particular in Denmark."

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. DORNAN) is recognized for 60 minutes.

Mr. DORNAN of California. Mr. Speaker, my colleagues, I have taken this special order tonight to discuss at not too great length what I think is one of the major domestic problems in the United States of America. It is getting worse, and it is reaching such proportions that I believe it has become, in a sense, a national security issue. That is the $80 billion narcotics industry in the United States.

I would like to discuss cocaine first, because it is the fastest growing drug of abuse; then marihuana, because of its use by—the estimates run as high as 22 million Americans at least once during any given month; and then I would like to discuss heroin.

The cocaine phenomenon, a substance also known as coke, snow, blow, toot, leaf, flake, happy dust, nose candy—that is a Hollywood expression—or the Peruvian lady because of its roots going all the way back to the pre-Conquistador and Colombian era in that part of the world, and is only described now as an American phenomenon.

I have just returned from a trip to five South American countries. I financed it myself, and I visited Peru and tried to take advantage of my 6 years of service on the House Select Committee on Narcotics to refresh my memory on everything I had learned, and to keep a promise that I made to the news media in that city when the stories began circulating that cocaine had penetrated the highest figures of prestigious American society, including even, by rumor, and then finally by Federal indictment, the Congress of the United States.

□ 2120

One of our Members from New York is the first Congressman to ever be sentenced to a Federal penitentiary for marihuana, and in the plea-bargaining process cocaine was mentioned quite often.

Of all the drugs in the United States, cocaine is now the biggest producer of illicit income. Between 40 and 48 metric tons of cocaine were imported in the United States in 1980 alone. That was an increase of 40 percent over 1979, and it has grown in 1981 and 1982. I hope that the Members of this distinguished body will bring those statistics before the public and the news media.

If all the international dealers who supply this drug to the U.S. market were to form a single corporation, it would probably rank seventh on the Fortune 500 list. It would be situated between the Ford Motor Co., which brings in $37 billion in revenue, and the Gulf Oil Co., which brings in $26.5 billion. The 1980 street sales of cocaine, by far the most expensive on the market, have reached an estimated $33 billion in the United States. Sales of marihuana, the runner-up—and that is still the most widely used illicit drug—amount of some $24 billion.

The most conservative research estimates are that 10 million Americans snort coke with some regularity and another 5 million have experimented with it. Many sources say that that estimate falls short by half. They at least double that estimate.

At least 90 percent of all the coca leaf in the world comes from the moist mountainlands of Peru and Bolivia, within a certain range of altitude above sea level, where some governments there have cherished the crop in the past as one of their principal exports.

Shortly before I visited Bolivia last month, seven antinarcotic officers of the Bolivian Federal services had been hacked to death by machetes, and when I arrived in that area 4 weeks later, it was still a no-go area for governmental officials. They were afraid to go in there for fear of their lives.

Raw coca leaves are soaked in various chemicals and oils. They are now doing this on a virtual production line basis. Where they used to use a drum sawed in half, they now put as many as 10 to 15 to 20 drums in a row and go through this process on a mass assembly line basis. The result is a muddy, brown paste which is purified into the so-called coca base.

We used to get only the refined base coming into the country. Now even the coca base is coming in here to be refined in American labs. It is a dirty-white, almost odorless substance, and it is usually shipped to laboratories in Colombia for refining.

In Colombia I heard a story about two of our drug enforcement agency people in the field that I had never read in the American press. It was probably covered in the back pages and as a time-pressed Congressman, I missed it. On February 12 of this year—I believe it was Lincoln's birthday—two of our agents were almost executed in Cartagena, Colombia, one of the export ports on the northern coast of Colombia. They were taken from their hotel room by force after false police IDs were passed under the door. Their names were Charlie Martinez and Kelly McCollum. Thank God, they are both in the Drug Enforcement Service now working in the United States. They were taken to the outskirts of Cartagena, Colombia. On the way out, because Charlie Martinez was not answering the questions properly, a 9-millimeter pistol was shoved up against his thigh and fired at point blank range into his leg.

When the seven men, followed in several cars by at least a dozen, took them into the woods, Martinez was the first one to be "executed." A 9-millimeter was put against his heart and fired. The bullet entered above his heart and lodged in the back side of his body. He fell to the ground.

When he recovered from the shock, he saw his friend, Kelly McCollum running, and an American citizen of Cuban origin fired at Kelly McCollum, striking him in the buttocks. The bullet penetrated his body and blew out the front side of his body to the side of his groin area. They shot him a second time, in between many shots that missed, and hit him in the back of his knee. This was a wound that took him to the ground. A man then approached Kelly McCollum. Charlie Martinez is now raising up on his arms with two bullets in him, and with a .45 pistol, the executioner, the Cuban American, fires point blank into Kelly McCollum's face, and the bullet passes under his chin, goes down into his body, and come out through his armpit, taking most of the flesh of the armpit out.

At this point, Martinez gets up and runs into the woods. They leave McCollum for dead and begin to chase Charlie Martinez into the woods. McCollum, who never lost consciousness, gets up and he runs into the woods, and a hunt begins to finish the execution of these two men that goes on for hours.

McCollum works his way back up to the highway, walks a mile into the closest little village and finds a Catholic priest. The priest gets the one village police officer and they come back to the scene of the attempted executions.

When they arrive on the scene, here are the two principal gunmen standing by the side of the road and one draws his pistol up to the American to fire point blank into Kelly McCollum's face. The policeman pushes the gun down, and as Kelly watches the payoff to the policeman, Kelly runs back into the woods and then walks 12 miles into Cartagena, not willing to trust anybody and, in a state closer to death than life, goes to a hospital, where they reject him because they do not have an emergency room. Then he hails a cab and ends up at another hospital while Martinez lies in the woods with these men hunting him down all night; he comes out in the morning, at 6 a.m. in the dawn, and takes a cab to the Colombian Naval Hospital and calls back to the RDEA chief of staff, an outstanding American public servant, John Phelps, and tells John that he is afraid for Kelly McCollum because he last saw him shot in the face in the woods.

Finally, they find out McCollum is alive, and they bring the two men together, and in the most unbelievable detective story of investigation, our chief of station, John Phelps, manages to apprehend in a morning helicopter

raid the American assassin, and with the help of the Colombian and Venezuelan Governments, they recapture the former Colombian police officer, who is the other assassin, and bring him back across the border into Colombia. They are both in prison now, and hopefully, through the good offices of Colombia and its very fine President, we will have extradited back into the United States to face justice this American who attempted to execute two of our DEA officers.

On my visit to Quito, Ecuador, which is the luckiest of all the countries because of its absence of terrorism—although a bomb went off in front of an Israeli delegation there just within days after I departed the country—for all the quiet of Quito, Ecuador, within the last few months an informer trying to help our American drug enforcement agencies and the narcotics officials of the Government of Ecuador was tortured to death with acid. He was hung from a tree by his genitalia, which was the first part of his body attacked with the acid, and then with the acid was slowly tortured to death. He was found by another government informant. This, of course, put the fear of Satan, let us say, into those who are trying to help rid not only Ecuador but the United States of America of the drug problem, since we are the user country of what passes through the Ecuadorean laboratories where the coca base is refined into the usable so-called recreational drug in this country.

These are just a few samplings of some of the nightmares that have taken place in South America. Our superb Ambassadors, like Frank Ortiz in Bolivia and our Ambassador in Peru, Edwin Corr, have pleaded with me to carry the message back to the Congress that they are doing the best they can, but when a cover story comes out in Newsweek magazine saying that the No. 1 cash crop in one of our major agricultural States, my State of California, is a particularly potent type of marihuana called sinsemilla, then they say that complicates their diplomatic and foreign policy problems exceedingly.

□ 2130

Now with the fields farmed in South America there is an estimation that 125,000 small farmers supply almost all of the cocaine produced in the world and most of those farms are, I repeat, in South America.

In Bolivia officials now estimate that a 2.5 acre crop will be worth around $5,000. It does not mean anything until you start comparing it with $500 for the same area for coffee and $5,000 for cocaine.

We would like to encourage that people get into substitute crops even with American aid as we did in Turkey.

In Colombia, workers who go to the eastern plains to pick coca leaves are paid $20 a day compared to $5 a day elsewhere. This is on the eastern side of the Andes Mountain Range.

Most of the largest organizations for cocaine trafficking are based in Colombia. Between 75 to 90 percent of the cocaine product from Bolivia and Peru is believed to pass through Colombian hands, through Colombian routes.

Coca from Peru provides about half of the cocaine consumed in the United States. Cocaine trafficking provides several hundred million dollars a year to the Peruvian economy, unfortunately making it one of Peru's four major foreign exchange earners.

Since 1981 cocaine is ahead of oil.

In 1981, that made three countries in our hemisphere—Jamaica, Colombia, Bolivia—where even the government had fallen several times because of drug trafficking, and then Peru joined that tragic group of three where their No. 1 product, with most of it trafficked and sold in the United States, is illegal narcotics.

Florida remains the primary transshipment point within the United States for cocaine and routes from South America. Intermediate distribution points are Chicago, Kansas City, Detroit, Atlanta, Denver, Houston, Dallas, Phoenix, New York City, and Baltimore, and, of course, Los Angeles.

The week before I left on this journey a Foreign Service officer, for the first time in the history of the State Department, came on a nonstop flight or direct flight from Lima to Los Angeles and was found with packets of cocaine strapped to his ankles, false cans of talcum powder containing cocaine, and false heels in his shoes. Everything he learned as a consular officer visiting prisoners, American prisoners, about 40,000 in the Lima, Peru central jail, he tried to put into one big package deal to make probably what he thought would be one big deal like this in his life.

That happened just a few days before I went down to Peru. Naturally it had a demoralizing effect not only on our hard-working Foreign Service officers in the Bolivarian countries and the Andes countries but throughout the world. Thank God it is a first, which means that it is less than one-hundredth of 1 percent of the good service of our Service officers around the world.

For the past 5 years Colombia has been one of the major illicit drug producers in the world. It dominates the supply of the three principal illicit routes furnishing at least 50 percent of the cocaine, 75 percent of the marihuana, and about 80 percent of the illicit metahqualon, known by the jet set and younger Americans as Qualludes or "ludes." It is interesting that a book entitled "Ludes" is now one of the bestsellers in Los Angeles.

The profits made in the cocaine trade are so enormous that a 50-percent loss would not provide a financial disincentive to those involved in this illegal, rotten industry.

In Bolivia and Peru the Reagan administration hopes to invest nearly $100 million in a 5-year program to uproot coca fields in selected regions and then persuade the farmers, with credits, training, aids, and stiff enforcement threats to grow something else. I hope the House of Representatives will support the President next year and the following years.

Cocaine interests have won some political support with public relations people across the country, unfortunately, with campaigns arguing that it is a healthy, native tradition down there and that enforcement efforts represent heavyhanded U.S. imperialism and involvement in someone else's lifestyle.

Cocaine is becoming increasingly difficult to deter, particularly the abuse, when there is a widespread belief that it is harmless if only used occasionally, when that use is encouraged as chic by popular entertainers and ridiculed as harmless by Hollywood movie stars.

Thank heavens only a small group again and some ignorant voices in the mass media, communications, and the music industry, will make light of it, and this is a tragedy when we know that the largest abusing group is comprised of young adults out of school, most out of college, with their early spending money to blow.

The task of helping parents and educators to do their job must be supported by a major effort, including the Congress of the United States, to eliminate the glamorization of cocaine by media and entertainment figures.

The importance of the President's involvement and the involvement by the First Lady, Mrs. Reagan's personal leadership in prevention efforts, just cannot be overstated. It should become a staple in the White House for whatever man or woman ever holds that important American post, because this problem is going to be with us for years to come.

This effort by the First Lady and the President has stimulated and will continue to encourage the efforts of the parents to hang on and for others throughout the country who have long sought such support to stay in the fight, turning around entertainers whose smirking references to drug abuse have enraged parents and is an important step in reducing easy acceptance of drug abuse.

I had one person call me on my last trip to Los Angeles, and I think it is fair to describe this person as a star in the entertainment industry, and tell me that they have to stay in the closet

on this issue or they will never work again. They said that the issue is 5 or 10 times worse in the entertainment industry than that even stated by Drug Enforcement Agency reports, and some of the fair and comprehensive reports that have come out in the media.

There is one star that I am not going to get in a skunk-spraying contest with, so I am not even going to mention his name. He has taken his raps this year. But he ridiculed the House Select Committee on Narcotics when it came out to Hollywood. It had a Democratic chairman that was extending a hand of friendship to elicit the hard work of performers along the lines of the excellent anti-PCP or angel dust spots that were done by actor Robert Blake when he made those spots that said, "That stuff will kill, and that's the name of that tune," in the vernacular that he used in his television role in the character he played, Baretta, and that had such a good effect on so many kids to pay attention to the killing danger of PCP.

We expected that the Narcotics Committee would be received well by Hollywood. But when we had actors, and some of them officers in the Screen Actors Guild, saying cocaine was not a killing substance, even though they put it down, it was not an important matter and that it was a farcical attempt by the Narcotics Committee of the House of Representatives to create some sort of McCarthyism, or witch hunt. That person or persons had egg on their face when John Belushi, a comic genius, one of my personal favorites, was found dead at the tender age of 36 last March 6 of this year from abusing both heroin and cocaine in what is called speedballing.

Next I would like to briefly discuss marihuana. Marihuana farming is a multibillion dollar national industry. Today illegally grown pot is the Nation's fourth largest cash crop.

Law enforcement officials insist that it ranks just behind corn, soybeans, and wheat in market value. Corn, soybeans, and wheat and marihuana is fourth.

Last year marihuana harvested an estimated value of $8.5 billion. My State's harvest in California alone is worth nearly $1.5 billion. Authorities in California say marihuana is being grown commercially in 43 of our 58 counties.

Hawaii's $750 million marihuana crop rivaled the sugarcane and the pineapple harvest.

In Oklahoma it is a $350 million harvest, ranking just behind wheat.

In Kentucky and Tennessee, each with a $200 million yield, dope growing has replaced moonshine, white lightning, a rotgut illegal booze, as the favorite illegal enterprise.

According to the National Institute on Drug Abuse, 22 million Americans smoke marihuana at least once a day. It is the most widely used illicit drug in the country.

Instead of cries of legalizing it or decriminalizing it, we should face up to what one more so-called recreational drug can do in this country when 50 percent of the people who die on our highways, and most of them are innocent victims being smashed in the face in a head-on, are the result of drunken drivers on the highways.

Fifteen percent of the fatalities—I learned this sitting over here at the National Transportation Board hearing on a committee that I do not even serve on—15 percent of the fatal deaths, mostly innocent people, are by people stoned on pot.

□ 2140

Because of their spatial orientation they think they are going 30 miles an hour when they are actually going 100 miles an hour, and because of a quirk of fate and their relaxed state they sometimes manage to walk away from their spinning wreckage while a mother and father and their five kids driving home are all smashed to death.

We just cannot afford another recreational chemical legalized and marketed or even controlled by the Government along with the advertising skills which are the greatest in the world of our Madison Avenue people turned loose on marketing marihuana in this country.

The huge upsurge in domestic marihuana production dates from 1978 when it was reported that Mexican marihuana was being dusted with the herbicide paraquat, which it was erroneously reported would cause lung damage.

There were amendments brought forth in this Congress, letters circulated around, "Dear Colleagues," names garnered by people, some who signed innocently, because there was a lot of disinformation going out on paraquat spraying. I went down to Mexico in my second month here 6 years ago as a Congressman, talked to their attorney general, and he said:

> Congressman, we have men in the field dying in helicopters that are being shot down by the Herrara gang here where our young soldiers die, and we don't even have the use problem you do, to stop your young Americans from using this illicit drug and you won't even spray paraquat in your own country.

Six years later I am told in Bolivia, and Peru last month, that they are annoyed at our pressure on them to spray paraquat, and also in Colombia, when we will not spray paraquat in Yellowstone and our national parks where these marihuana crops are being harvested between our great redwoods.

The preferred crop today in California is sinsemilla. That is a seedless marihuana produced through intensive cultivation of only the female plant. It has a very high concentration of the psychoactive ingredient in marihuana, tetrahydrocannabinol or THC.

Sinsemilla produces a very, very heady euphoria, so it sells for around $2,000 per pound. This is roughly the yield from one single plant well grown. The sinsemilla produced by U.S. growers is so prized that the seeds are now being smuggled into Mexico, back down to Colombia to enrich the crops there.

One of the things they kept telling me in South America was that our young Luther Burbanks up in California are growing a marihuana so potent that it makes Colombian pot look worthless by comparison.

I would like to add a footnote here from one of the interns in my office who is a graduate with a Ph. D. in microbiology from a prominent football prestigious Ivy League-type college in southern California, where he said that the graduates from this school and another west Los Angeles school of prestige, who are now the prosecuting attorneys and the defense attorneys, do not see anything wrong with pot because the weak marihuana they smoked all the way through college and law school did not hurt them, that it was no different from the beer blasts. He said that what these young lawyers in their thirties do not understand, either the prosecutors or the defense attorneys, is that this sinsemilla is so potent, it is quoting my intern, "turning some of my friends into space cadets."

And that is the difference between sinsemilla and the milder pot that was used just 5, 6, 7, 8, 10 years ago.

United States and California officials contend that marihuana growers flourish with the connivance of respected local businessmen in some of my counties in California who make money by selling the growers goods and services.

"Marihuana is the difference between a profit and a loss now for many local business people in Ukiah and in other cities, Mendocino County," said Ted Erikson, Agricultural Commissioner of Mendocino County, Calif.

Drug enforcement officials admit they are managing to seize only 5 to 10 percent of the U.S. domestic marihuana crop at best. The DEA contends that enforcement could become more efficient if the newly discovered fields were to be sprayed with paraquat. The Federal strategy for eradicating homegrown marihuana is to pass the buck back to the States. DEA has been able to spare only $1 million to help control this dangerous domestic crop. The lure of easy money or the danger of police busts, the competition, all this has sometimes made marihuana a deadly business. Officers descending by heli-

copter on hidden fields now must face explosive boobie traps, the same kind of killing we saw in Mexico where they won this battle 5 years ago.

To protect their crops, marihuana growers use trip-wires triggering shotgun shells and sharpened pungi sticks like those used by the Communist guerrillas to cripple American soldiers in Vietnam. The growers even tie live rattlesnakes to marihuana stakes in the ground.

Growers have also armed themselves with Israeli Uzi machine guns, Soviet made AK-47 automatic rifles, a submachine gun, and Colt AT-15 rifles. They use dynamite, plastic explosives, to protect their marihuana crops.

That very, very briefly is the marihuana scene in the United States, Colombia, and other countries today.

Heroin. Jaded with pot pills, cocaine and intrigued by a pure and potent new opium strain from Asia—I do not have time tonight to discuss the Golden Triangle where they just had a bumper crop 8 to 10 times bigger than last year with the opium poppies, thousands of middle-class teenagers, and some not teenagers, and listen to your evening news tonight—thousands of middle-class teenagers and young adults with responsible American parents are getting involved in the marihuana trafficking and then they turn to heroin as the deadly new kick.

Experts emphasize that heroin is still mainly a ghetto, a barrio, a poverty area problem. But marihuana and cocaine remain the chief so-called recreational drugs of choice for the middle class.

Dr. Robert Millman, an addiction specialist at New York's famed Whitney Clinic, argues that cocaine opened the door to the harder drug heroin for thousands of Americans, because cocaine produces a swift, surging high and users often need something to come down. Often the initial euphoria wears off quickly. As a result, drug consumers often take cocaine and heroin together, that is the mixture called speed ball which killed the comedic genius John Belushi last March.

Narcotics officials estimate there are now 450,000 heroin addicts in the United States. When I was on television hosting a show in 1968 and 1969, 300,000, two-thirds of that, was called an epidemic. And quietly it has now gotten worse. Like a rocket lifting off the pad at Cape Kennedy, when these things start, it shakes the ground. But it is only going a couple of miles an hour. When it hits 25,000 miles an hour velocity speed it is a speck in the sky and you cannot even hear it anymore, and you walk away.

And that is what happens to these drug problems. There is a cover of the old Life magazine with the Beatles talking about LSD and some movie stars, even one good man I can think of, experimenting with it before it is illegal, and conservative leaders trying pot on a yacht outside the U.S. 12-mile limit and deciding, well, maybe it is no good. And then when it is finally made illegal the evil rocket is launched, we do not see it on the evening news or the magazine covers, and the problem increases by two and three times, and it is not even a hot story anymore, not even in the newspapers at all, except when the drugs are used in a killing and someone blows somebody away and says, "Drugs made me do it," and then we either use the delayed shock syndrome or the fact that, "I was not responsible for what I was doing," the old truck driver cop out.

Four hundred and fifty thousand heroin addicts. Our experts fear still more potent strains of opium, the opium poppy from the original Golden Triangle of Laos, Burma, and Thailand, could more than double the total within the next 2 or 3 years.

The resurgence of heroin is partly a consequence of the recurring boom and bust cycle in the narcotics trade. A combination of diplomatic suasion and cooperative international law enforcement succeeded in staunching the Turkish problem, then the Mexican supplies that fueled the heroin epidemic of the sixties and early seventies.

By 1978, the flow had come down to a relative trickle. But by then, drug enforcement agents found that the drug trafficker had found a promising new source in the Golden Crescent of Iran, Pakistan, and Afghanistan.

□ 2150

Wars in the Middle East—the Iraqi-Iranian violent killing on either side—has helped the drug trafficking because law enforcement has broken down.

The Beirut agony, the Lebanese agony of a hundred thousand people murdered from all sides over the last 7 years, helped the drug trafficking coming through Lebanon.

We have taken testimony, many Congressmen just returned from Lebanon, heard the same thing that I heard over there last August that—listen to this—that in the Bekaa Valley the PLO and the Syrians grow drugs to keep some of their operations as an ongoing proposition. How is that for a Middle Eastern nightmare in the Bekaa Valley?

The news media in this country, small segments of it, want to concentrate on a moral country, Israel, instead of really talking about the problem of the PLO and the Syrians in the Bekaa Valley.

In 1979, the Iranian-Pakistani-Afghanistan crisis began. The Afghan war with the Soviets is not precluding some of the drug growing. The Soviets may be using poison gas on the tribes people, but nobody is paraquat spraying crops growing in the hills of Afghanistan. In that area, again called the Golden Crescent, they have just harvested a bumper crop of more than 1,500 metric tons of opium, around 20 times the size of the 1970 Turkish harvest and that was enough to render 150 tons of heroin.

I do not have time to go into what they told me in Rome, "Don't go to Sicily. They want to capture a Congressman, the Mafia down there."

The whole Palermo area and the whole island is virtually totally corrupted by drug trafficking. They have their own laboratories now since the "French Connection" story of years ago, which is getting to be an ancient story.

In 1980, there was $8 billion in the United States generated by the heroin trade traffic.

I will close on President Reagan's war on drugs. In mid-February of this year the Reagan administration created the Federal South Florida Task Force under the auspices of Vice President GEORGE BUSH. I met with Vice President BUSH about this last week and had a long meeting just a couple weeks ago down in Miami with the DEA people of the task force team down there.

By the way, they told me that the drug traffickers now have so many airplanes, they fly not just close support, but they put out spotter airplanes with more advanced sophisticated electronic equipment communicating with the planes loaded with illegal substances, marihuana and cocaine, and then they will clear an area. Then they will put two high-speed powerboats with what is called a cigarette hull, because it is so long and low and white in its profile. It was nicknamed that by our Coast Guard in the 1920's. Those are more powerful boats than the Coast Guard has. They will station them a mile apart. The planes will come in and drop the big packages of marihuana or smaller ones of cocaine between the two boats. If they lose a few, so what. The boats then pick them up and in opposite directions, to confuse the Coast Guard, then head for the shore at the speeds you see in what are called the Hennessey Cognac Cup Races that you see in Puget Sound and Marina del Ray in my district and up and down the eastern coast of the United States.

They have better electronic and surveillance by the criminals inside the south Florida area. When a DEA car is following a suspected drug car, he will suddenly see that he is being followed by two cars at higher speeds and better quality, more expensive automobiles, than the DEA people are using in the Miami area.

Then we have the Marielitos, the new Cuban gangs that have come up from Castro's ugliest joke of this whole miserable 20 years, giving us

their murderers, their rapists, their drug traffickers, giving all the fantastic Cuban Americans that have come up to this country and been one of the most productive refugee groups we ever had in this Nation, this one-tenth of 1 percent of hardcore Cuban criminals, what Castro himself called scum. They are now creating a crimewave from Boston and Connecticut all the way down to Miami and now we find them turning up in Los Angeles.

So President Reagan has his work cut out for him.

Seventy percent, I said, of the cocaine and marihuana comes through south Florida. Drug smuggling is the region's major industry, worth anywhere from $7 to $12 billion a year, versus $12 billion for real estate—that is a vacation area—$9 billion for tourism, and the drugs may have gone beyond those two industries.

Drug money is called, as we all know, Narco bucks—banks swollen with billions of it until recently when they started running amazingly sophisticated—I do not think I should talk about them—operations where they had to go to the Federal Reserve Bank to get the millions of dollars where the cocaine traffickers, the Colombians, particularly, are so arrogant, they say, "Let's go to the bank and make the trade for the cocaine and the $12 million. Give me $12 million inside the bank vault."

That was a particularly nice bust when the DEA agents pulled out their guns and said, "You're under arrest."

Too bad they could not have closed the bank vaults for about 3 years after they took everything out.

Coast Guard patrols and FBI patrols have been beefed up in south Florida with new money, new manpower. An additional 250 DEA agents and customs officials, 45 new firearms agents have been posted temporarily in south Florida along with more than a dozen extra U.S. attorneys and Federal judges.

I am taking a special order out Monday night on pornography. I am going to a Senate hearing tomorrow night on child pornography.

Let me tell you how I asked the question in the blind of our South Florida Task Force. I said, "Do any of these guys ever traffic in pornography? You know, scum, we will deal in scum, whether it is drugs or child pornography."

They said, "Deal in it? They use it to launder their billions of dollars of drug money. They laugh about the pornography thing and when we think we get a man from a suspicious profile who has a past record of running drugs, sometimes they confuse us by saying, 'Oh, I'm running something all right, pornography. You want to see the latest snuff films, the latest child pornography. Sure, I'm running pornography.' "

They know they can go into most courts and just by abusing the first amendment, lying through their teeth, they do not worry about the pornography bust. That is just a business expense. So now they traffic in pornography to launder money and cover up their illicit running of the other killing material, because I happen to think pornography kills the soul of a 4- or 5- or 6-year-old kid who is going to need psychiatric care for the rest of his life after he has been sold into bondage by a corrupt uncle and in many cases, unbelievably, his own parents.

Remember that organized crime made "Deep Throat" in the Miami area and some of those people were involved in drug running. The unfortunate woman, who since found religion but starred in that film, met her husband or was intimidated into marrying—he married her, Linda Lovelace, because she knew about his picking up marihuana bales dropped by an airplane that had flown in from Colombia and since she witnessed this pick up, he married her so she could not testify against her own husband in a drug bust. He is now married to another pornography queen, Marilyn Chambers, who has yet to seek redemption.

Coast Guard patrols and FBI forces, as I mentioned, were beefed up. Now the Federal task force is using military resources, thanks to this Congress, military intelligence, thanks to this Congress which overturned what was a sensible law in the Civil War period, but no longer sensible here, the posse comitatus, that said that Federal forces could not be used in civil crime enforcement; but this of all the wars, we talk about the war on poverty, war on crime, war on anything—this is the most real war of all right now, taking a much higher toll of life than most things in this country.

Drug smugglers headed for Florida have had to snake their way through a sophisticated network of Navy E-2-C Mini-AWACS, that is the Hawk Eye—ask the Israelis how effective that airplane is, they fly them—radar planes, stationary radar located at Cape Canaveral, Jacksonville, Homestead Air Force Base where I used to fly, and Guantanamo, down in Cuba. Yes, Guantanamo serves this country a good purpose, no matter what Castro thinks.

A balloon shaped NORAD radar, nicknamed Fat Albert, a little semi-rigid blimp, hovers 10,000 feet above Key West to keep an eye on Cuba and now lends its look-down capabilities to the task force, reporting low flying planes that may carry drugs.

Navy destroyers in the Caribbean carry Coast Guard teams that can board and capture suspicious boats.

While I was in South America, one of the largest freighters ever to leave Colombia, escaped the network of surveillance and it was picked up by a Coast Guard cutter off Boston. It was called the *Biscayne Freeze*. It has 90 tons of marihuana on it and at first it tried to defy the Coast Guard. They had to fire across its bow. Why was it in Boston? Because the heat is on in south Florida.

The U.S. Army has loaned the Custom Service two Cobra helicopter gun ships. They are especially helpful in tracking smugglers' planes at night, though they do not fire on the drug planes. They just give the evidence to others who arrest them. They are fast. The Cobras are painted inky black and they can land even in swampy areas, flash on their night sunlights and then continue to chase even if the smugglers try to escape on foot.

Another personal footnote: When I first joined the U.S. Air Force 30 years ago next month, I wanted to be a fighter pilot, but I quit college and took a chance on a 4-year enlisted assignment as a buck private, an airman, taking a chance on getting in fast because the Korean war was still on and I did not know if I was going to make it. I was either going to be a jet fighter pilot or an enlisted man for 4 years.

□ 2200

And during what they call precadet status, after I passed my test, I met two of America's top jet aces, triple jet aces, from the Korean war: Joe McConnell, who died testing an airplane, the F-86H that almost killed me, that I had to bail out of, and Manuel "Pete" Fernandez, a Hispanic hero of unknow proportions in the Miami area, a great guy, a triple jet ace, Manny Fernandez, Pete Fernandez.

Pete went to astronaut school, got assigned to Miami, served out his Air Force career.

Buried back on page 20 of the Los Angeles Times in the election period of 1980, in mid-October, I see a column next to the story of me being torn up by my opponent, and my eye goes to the other page, to show you there are worse things in life than your own election problems, and here "Air Force Col. Manuel 'Pete' Fernandez, World War II veteran and Korean War hero, triple jet ace, who had a ticker tape parade down the main boulevard of Miami Beach when he came from Korea, crashed on a Bahamian island alone and died smuggling a gigantic load of marihuana." What a lonely, ignominious death for the No. 1 military Hispanic hero of my lifetime, with all due respect to some of the great Hispanic honor winners in my State and other States. There are not that many triple jet aces.

Now, the only permanent solution on which the antidrug forces agree is on the supply side, persuading the producing nations to crack down on those

who grow drugs for international sale. Of course, what they tell me down there is, "It is your problem to dry up the desire in the United States," which is the demand side, that that, using supply side market economics theory espoused in this House a lot, particularly on my side of the aisle, the demand sometimes can create the supply side. The other argument is that the supply side creates the demand side.

The truth is, both sides are important in an economic equation.

President Reagan is going to ask this Congress to approve $130 million—that is just one haul of cocaine these days—in funds for his new crackdown on drug trafficking by transferring the money from other programs. In addition, an administration official said that President Reagan will ask for another $25 million for the narcotics task force which has been operating in Florida since March 11 or 12, and the President has dreams that this House will cooperate in starting 12 task forces across the country.

President Reagan announced on October 14 of this year that he planned to deploy 12 regional task forces around the country modeled after the one in Florida; 1,200 new drug enforcement agents and prosecutors to fight organized crime in drug trafficking.

Let me give you the proportions since I discussed the enormity of the problem, of what our EDA is.

It started out as the Federal Bureau of Narcotics, FBN, because J. Edgar Hoover did not want to touch narcotics. He wanted a separate agency. Why? Because he knew the power it had to corrupt even his pristine agents.

Then it turned into the Bureau of Narcotics and Dangerous Drugs, BNDD. That is the name you see down at the bottom of your doctor's prescription pad. Then we find that the largest professional group of people hooked on drugs are doctors, and the largest subgroup of doctors, psychiatrists, who have to go through 3 more years of training after medical school.

The biggest cocaine case going right now is that of the alleged trafficker, the superhandsome, elite jet setter, John Z. DeLorean. Supposedly this is on film, like some Congressmen have been filmed around here dealing in some illegalities. It will be black and white and scratchy, but if it exists it will be on your TV set some night.

Supposedly or allegedly he said, "This stuff is better than gold." Do you know what I learned down in Peru? That the Spanish Conquistadors decided at first, because their priests, the Franciscans, were advising them that this was an illegal thing, to discourage the use of coca leaves and they only chewed it. That is like eight cups of coffee down there because of the high altitude, 14,000 feet.

They started to discourage it. Then they found that they could use these indigenous Inca people and other tribes as almost slave labor in the tin and silver mines. At that time the Potosi was the biggest silver mine on the face of the Earth. They would not only make them take their coca leaves and coca tea or chew it; but they started paying them in coca leaves, those little innocent looking green leaves like our shrubbery in the United States, and they became a form of wampum, barter.

And 350 years later what do we find? Cocaine again is being described by a top industrialist who was going to revolutionize the motor industry, allegedly, as better than gold, better than gold.

I am leaving the Congress this year, not by my own decision necessarily—at least I got to call part of the shots in the Senate primary—but I am going to stay in the Washington, D.C., area, God willing, and I am going to track what this Congress does, and I probably will be sitting up there in the gallery to see if this Congress and you, Mr. Speaker, have the good sense, through your leadership, to recreate again, which we have to do every 2 years—it is not a Permanent Select Committee on Narcotics Abuse and Control—if you will reconstitute the committee.

It is going to be tougher this spring than it was in 1981 or 1979 because the last two chairmen, excellent Members of this House, both of the opposition party, LEO ZEFERETTI of the New York, and LESTER WOLF of New York, have both been defeated. They are the only two men who have ever chaired the narcotics committee and did a superb job and worked hard doing it. You are probably going to have great difficulty, Mr. Speaker, in finding a volunteer on your majority side of the aisle to be the chairman of the House Select Committee on Narcotics and Drug Abuse.

We need that committee in the worst way. We need it more in the 98th Congress than we needed it in the 97th, 96th or 95th Congress. We need a Select Committee on Narcotics and Drug Abuse. It does not have legislative authority or responsibility. Its job is to bring, to use a Hollywood term, a hot, white arc light, to focus on the problem, educate our fellow American citizens, and advise all of the other committees with direct legislative law-writing responsibility, like the Committee on the Judicary, how they can serve.

The other body has no such entity. I would not only hope that this committee will be resurrected in this House after it goes into an immediate terminal state when we adjourn sine die, but I would hope—and I am talking to some of our colleagues in the other body about this—that the U.S. Senate will create for the first time a U.S. Senate Select Committee on Narcotics Drug Abuse and Control.

Mr. Speaker, I will include for the RECORD my special order report and the most recent report on several drug subjects by the Drug Enforcement Agency. They have an excellent magazine that goes to every congressional office and probably goes into the wastebasket, file 13, immediately because we are just overwhelmed with reading material in our offices. It has the simple title, "Drug Enforcement." I would recommend that all Members assign at least one staffer to look at the key articles in this magazine.

The report is as follows:

COUNTERATTACK ON COCAINE—THE STRATEGY OF ENFORCEMENT

(By Ronald J. Caffrey, Chief, Cocaine Investigations Section, Drug Enforcement Administration)

DEA's enforcement priorities in the future will address a broad spectrum of drug abuse and trafficking. Investigative emphasis and programming will be predicated on national abuse patterns counterbalanced by local geographical trafficking conditions in an attempt to strike at those controlled substances which pose the greater number of hazards to the largest segment of the U.S. population. In establishing enforcement plans and resource allocation for fiscal year 1983, DEA management is currently reviewing cocaine abuse and trafficking worldwide in an attempt to realign priorities with existing drug availability and the attendant hazards to public health, social institutions, and public integrity.

As in years past DEA will continue to focus on heroin—a policy developed as a result of the sudden and dramatic proliferation of Southeast and Southwest Asian heroin trafficking. Heroin and certain dangerous drugs unquestionably pose serious hazards to the public at large. Now, however, the dimensions and impact of the traffic in such substances do not approximate the profound change which cocaine availability and usage have had on the United States. Heroin abuse and trafficking are generally limited to traditional domestic geographic areas. The impact, in terms of drug injury incidents and collateral street crime, while significant, is localized within several large urban areas. Unfortunately, the same cannot be said for cocaine, which is being abused throughout the nation on an epidemic scale.

The National Center for Disease Control (CDC) recently issued a statement that ". . . the rate of cocaine-related deaths quadrupled between 1976 and 1981 . . ." while ". . . the rate of cocaine-related hospital treatment showed a sixfold increase from 1975 to 1981." The CDC report continues: "The number of deaths linked to cocaine increased from 4.5 per 10,000 medical examiner reports to 19.1 deaths per 10,000 medical examiner reports between 1976 and 1981." These statistics, while startling to the general public, are no surprise to knowledgeable law enforcement management officials.

Daily newspapers are replete with accounts of notable cocaine abusers and the consequences of cocaine use, but somehow a cynical public, weary of media scare tactics, has grown to accept this drug. In past years cocaine use was restricted to the affluent

and the famous, but in 1982 hard medical evidence confirms the health hazards of this substance and its widespread prevalence among all social and economic groups. Cocaine use and availability are proliferating at an alarming rate among the nation's youth. Their role models, professional athletes and entertainment celebrities, openly advertise if not advocate cocaine use. Unfortunately, American youth have been misled by the myth of "harmlessness" and have been corrupted by an advocacy of the "Great American Heroes." "Coke" is no longer a "jet set high." Between 40 and 48 metric tons of cocaine hydrochloride were imported into the United States in 1980, an increase of more than 40 percent over the previous year. These are conservative National Narcotics Intelligence Consumers Committee estimates which are almost two years old. Clearly cocaine availability and abuse are expanding at a phenomenal rate.

The tragedies suffered by the public because of an annual importation of 48 metric tons of cocaine should be obvious from a medical and sociological viewpoint. The President's Task Force on Crime has established as a national priority a campaign against violent crime. While the connection between heroin trafficking and street violence has been clearly made, statistical evidence shows a higher incidence of violent activity among cocaine traffickers. Intelligence generated through DEA's CENTAC 26—a special probe designed to identify drug-related homicide suspects in Miami, Los Angeles, and New York—clearly establishes the dominance of the "Cocaine Cowboys" in drug-related homicides and assaults throughout the United States. Turf disputes, "ripoffs," business disagreements, internal discipline, and the imposition of silence have all contributed to the escalating violence among cocaine traffickers. DEA intelligence indicates a disproportionate volume of cocaine and an inordinate propensity among organized Colombian cocaine violators to engage in wanton violence against all perceived adversaries, their families, employees, and other "noncombatants." The number of drug-related homicides committed by cocaine traffickers in Miami, Los Angeles, and New York City is a national abberation. In these cities traffickers have shown an affinity for the use of automatic weapons and have routinely engaged in decapitations, mutilations; and infanticide—symbolic displays of "machismo" often conducted in broad daylight in front of witnesses, in public malls, on highways and in night clubs. This escalated exposure extends unprecedented dangers to the public at large.

Assaults and murders of law officers attempting to cope with this crime wave are also on the rise. Underworld "contracts" against undercover agents and sources are at an all-time high. This predilection towards violence extends to both spontaneous and planned acts against law enforcement officers and signals a total disregard for authority from an underworld element whose presence in America is most often gained through illegal entry at our international borders. DEA investigations indicate that a significant proportion of Colombian cocaine traffickers operating in the United States are illegal aliens. What distinguishes this group from past generations of immigrant violators is that these criminals possess immense cash resources, and hence travel unimpeded throughout the country conducting clandestine activities. By virtue of this infiltration, other forms of criminal and potentially subversive activity are exported to the United States and represent a serious threat to our national security.

Beyond the threat to public health and safety, the cocaine traffic in the United States is siphoning off about 30 billions of dollars annually. Nowhere is this more visible than in South Florida where a dangerous U.S. currency drain has been created by the laundering and transfer of traffickers' assets between U.S., Cayman Island, and South American banks and currency exchanges. Cocaine trafficking has been established as the most lucrative enterprise of all underworld ventures. At $60,000 per kilo on the wholesale U.S. market (1982 prices) and with an available supply of from 40 to 48 metric tons, the dimensions of this problem are obvious. Because cocaine, marihuana, and clandestinely manufactured quaaludes share common sources of supply in Colombia and elsewhere in Latin America, trafficker assets from all of these illegal enterprises tend to be intertwined at every level of the smuggling and money-laundering chain. As a consequence these funds further the drug traffic in much the same manner as legitimate businesses further their existence and expansion by mergers, partnership, and the reinvestment of profits. The insidious side effect of these illegal enterprises is that profits from one drug category perpetuate and expand the trafficking in other drugs in a vicious unending cycle.

Another side effect of the "Cocaine Connection" is the endemic corruption created by the almost inexhaustible wealth of the various Colombian trafficking groups. Institutionalized corruption involving banks, businesses, regulatory and law enforcement agencies is escalating both here and abroad. The criminal justice system in the southeastern part of the United States is bursting at the seams. Within current budgets it cannot cope with the resources of Latin American-based traffickers. Corruption is known to exist at the highest levels of some leading coca plant source countries in South America, virtually guaranteeing cocaine lab operators unending supplies of coca paste. In a number of Latin American countries drug-related corruption is undermining the social fabric of society. Greed subsists with national honor and patriotism. Cocaine is establishing a "new politics." Currently, foreign-based cocaine traffickers possess limitless supplies, licenses obtained through corruption, and logistical advantages (aircraft, boats, vehicles, clandestine domestic and foreign properties) which enable them to remain in operation indefinitely. Cocaine trafficking, by virtue of its demonstrably corruptive influence, represents a serious detriment to the morality and leadership of the political, business, and criminal justice communities within the United States.

There is now an enormous resource drain on several elements of local, state and federal government in the southeastern United States—a direct result of Latin American cocaine and other drug trafficking. Millions of dollars are being spent by the U.S. Military, Coast Guard, Customs, DEA and the FBI in the war on drugs in South Florida. These reactionary enforcement efforts are placing a great strain on jailers, judges, and local law enforcement units. The financial and human resource drain is the direct effect of "stop gap" measures for the treatment of a symptom which has unfortunately become a long-term law enforcement problem. This problem will continue until it is ultimately solved on foreign soil through coca eradiction. Clearly, illicit crop eradication is the ultimate prophylaxis—the key to the dissolution of foreign source drug trafficking in the United States.

While the ultimate solution of supply reduction through eradication rests with foreign source nations, the U.S. Government has begun to accelerate this solution and provide more immediate remedies through a variety of interagency initiatives both in the United States and abroad. U.S. State Department eradication initiatives are in various stages of development in Colombia, Bolivia, and Peru, the principal coca source areas in Latin America. DEA special agents assigned to U.S. Embassy Country Teams in these areas are expanding drug intelligence exchange and with their foreign police counterparts are conducting high-level international cocaine investigations. This liaison program is providing DEA with a growing volume of strategic and operational intelligence necessary for complex drug investigations and programs focused at the highest level of the traffic. Resource assistance to foreign police organizations and governments provided by the U.S. State Department and DEA has produced a necessary linkage in our allied efforts against drug abuse. In the United States, the combined efforts of DEA, FBI, Customs, USCG, the Air Force, Navy, FAA, and INS are providing enhanced interdiction and investigative efforts in the Vice President's South Florida Task Group. This special emphasis program has been established at a point through which from 60 to 75 percent of all cocaine enters the United States.

Cocaine investigations and cocaine suppression programs will be among the most important priorities of the Drug Enforcement Administration throughout 1982 and 1983.

In a mounting effort to refine and develop the U.S. drug enforcement program, DEA has recently organized its erstwhile Office of Enforcement into four functional drug desks within the Operations Division (Heroin, Cocaine, Dangerous Drugs, Cannabis). This design is intended to promote an improved managment system consistent with the Department of Justice's earlier decision to eliminate regional DEA offices and institute direct field reporting to Headquarters. On May 17, 1982, the functional drug desk concept was implemented. The Cocaine Investigation Section is composed of three managers and ten special agent coordinators, who share foreign and domestic geographic responsibilities for all cocaine investigative activity and programming in DEA, The Cocaine Section's routine duties encompass case monitoring, coordination, and evaluation. Under the direct reporting concept, the Section controls all resources devoted to the cocaine problem in a manner consistent with agency and divisional office enforcement work plans. The Section is also charged with policy formulation and implementation. To promote enhanced cocaine investigative activity the Section is now responsible for the initiation of Special Enforcement Operations (SEOs), formerly known as Mobile Task Forces and CENTACs. The Cocaine Investigation Section's responsibilities extend to the development of special programs aimed at disrupting and reducing clandestine cocaine manufacturing, importation, and domestic trafficking.

DEA's El Paso Intelligence Center, a multi-agency intelligence cooperative, continues to provide DEA offices and other federal and local signatories with drug-smuggling intelligency data on a routine basis. DEA's eighteen state and local task forces

around the United States address local trafficking problems and provide extended drug investigative programs in areas of minimal DEA presence. This combination of federal and local officers has produced a training mechanism which has resulted in the development of a base-line expertise in drug investigations among local narcotics officers. Further, these units are designed to establish appropriate violator target mechanisms for investigative action.

The implementation of FBI concurrent jurisdiction in federal drug investigations has produced enhanced technical and human investigative resources in the U.S. Government's attack against major trafficking groups. The combined efforts of DEA and the FBI in investigations throughout the country has resulted in more than two hundred joint drug investigations over the past nine months. Approximately 50 percent of these cases involve cocaine traffickers. Further, the FBI's 58 field divisions and sub-offices are providing extended investigative coverage to areas of the country where DEA's presence is minimal or non-existent.

DEA, FBI, and U.S. Treasury Department initiatives focused on the financial assets of cocaine and other drug traffickers have been underway for some time and continue to develop and expand in a host of joint and unilateral operations designed to immobilize drug violators and their resources. Specifically, the objective of these probes is to incarcerate major trafficking targets and to "freeze, seize and forfeit their financial assets," thereby depriving individuals and organizations of essential reinvestment capital. These investigations are being conducted in tandem with drug conspiracy cases and are being vigorously pursued by federal prosecutors who are utilizing and exploiting a variety of federal, criminal and civil statutes. In fiscal year 1981 DEA special agents alone were responsible for the removal of more than $64 million in drug trafficker assets. Current projects predicated an ongoing investigative activity indicate DEA removals of more than $200 million in violator assets by the end of this year.

The Department of Justice has mandated the implementation of Law Enforcement Coordinating Counsels throughout the United States. The Attorney General has tasked U.S. Attorneys to oversee these committees to ensure appropriate utilization of prosecutive resources and, at the same time, coordinate the focus of criminal investigative efforts. The purpose is to ensure appropriate management of law enforcement resources in addressing local as well as national criminal violations. This mechanism provides for ancillary and refined management of prosecutive support and law enforcement emphasis in high drug abuse areas.

The President recently appointed Dr. Carlton Turner as the Director of the Drug Abuse Policy Office and at the time clearly identified public education programs as part of the federal effort to inform the public of the hazards of drug abuse. This is a critical component in a federal strategy to reduce public consumption of controlled substances in the United States.

During the past year, a U.S. district judge in a northeastern city, in pronouncing sentence on a prominent motion picture producer convicted for his complicity in a DEA cocaine case, elected to exact a sentence which mandated that the producer exploit his professional position. The judge ordered the defendant to initiate a media event extolling the virtues of a drug-free life style. Consequently, a number of TV and motion picture celebrities participated in a "Get High On Life" campaign which was promoted over national network TV. This unique sentence is an outstanding example of judicial perceptiveness in that it tailors legal sanctions not only to the violation but to the individual and attempts to create more far-reaching impact by affixing remedial societal responsibilities to drug violators.

For many years, law enforcement officials have contended with the frustrations of inadequate bail-setting practices and anomalies in the imposition of equitable sentences in drug cases. Today, however, a more informed, better administered judiciary has begun to undertake a more practical approach to fit sentences to criminal violations and more prudently measure the impact and remedies for these crimes against available prison space and penal resources. Most assuredly upper-level traffickers can only be immobilized through incarceration and forteiture of their assests. However, this is only a partial cure for a national disease requiring more innovative holistic approaches.

By now it is evident that the battle against cocaine abuse and trafficking must be fought on several fronts Foreign supply reduction, increased drug intelligence exchange, enhanced interdiction and investigative effort, measurable reduction in public consumption through education and meaningful sentencing by the judiciary—all represent initiatives which form the basis of the current federal stategies against drug abuse and trafficking in the United States. These remedies must continue to expand and develop in a coordinated fashion, if the current availability of cocaine and level of cocaine abuse in the United States are to be significantly curtailed.

International Initiatives To Control Coca Production and Cocaine Trafficking

(By Dominick L. DiCarlo, Assistant Secretary of State for International Narcotics Matters)

Cocaine, which has been called the drug of the Eighties, is our most rapidly expanding drug problem. The objective of the Bureau of International Narcotics Matters (INM) is to reduce cocaine imports through control of coca production at its sources in Peru, Bolivia, and Colombia. We believe the policies we are applying in negotiations with these governments are necessary to improve prospects for gaining control. But obstacles are abundant in South America. We caution that control—to the point at which cocaine availability in the United States is substantially and permanently reduced—is a long-term effort.

In one or more of the three cocaine producing countries, we have had to contend with: frequent changes in governments; local populations heavily dependent upon coca sales and cocaine trafficking to their principal income; populations indifferent to U.S. interests, especially where they have been insulated from drug abuse; traditional chewers of coca leaf whose needs must be met by continuing cultivation; a belief that cocaine abuse is a U.S. problem which creates the trafficking issue; demands that the United States virtually reconstruct the economies of large sections of such countries as an inducement to local cooperation on crop control and interdiction; and sometimes even alleged government involvement in the cocaine trade.

However, there are also incentives for these governments to act, including economic problems, domestic drug abuse problems, international pressure, and insurgencies that may be linked to narcotics trafficking. This interplay of incentives and disincentives defines our opportunities for action.

The three producer countries present different problems. Thus, our strategies vary, but our policy on cocaine control and its premises is uniform. Under the Single Convention on Narcotic Drugs, producer and transit nations like Peru, Bolivia, and Colombia have the primary responsibility for controlling coca and its derivatives within their borders. The international community should assist these nations, and the United States provides bilateral assistance, but we expect these governments to demonstrate their responsibilities through effective programs. Our policy is that the priority should be on coca eradication or other forms of crop control, while narcotics-related development assistance in traditional growing areas should be linked to agreements on crop reduction. We encourage other donor nations and development banks to adopt the same policies.

The problems in common to all three countries are the plant itself and its yields, in cocaine and in profits. Coca is a hardy, deep-rooted plant that is quite difficult to eradicate manually and is usually grown in isolated areas. Coca is an attractive crop for farmers because it has a life span of about 30 years; leaves can be harvested three to six times a year; and it can be grown on poor soils unsuitable for other agriculture. Because most holdings are small, and demand until recently was limited, coca production for the illicit market provided an attractive but not spectacular income. However, in response to increased demand, coca prices accelerated in 1980 to twenty times their previous level, and today illicit coca production is the principal and sometimes only income for thousands of farmers—an income that is many times the daily wages these farmers would earn from other crops.

The financial incentives favor coca cultivation, which is increasing in all three countries. A critical decision in negotiations on crop control, in which the political and economic consequences to the farmer are at issue with the government, it the mix of financial incentives or disincentives (or both) that will be needed to induce desired actions.

PERU

Our problems in Peru, whose coca provides about half of the cocaine consumed in the United States, begin with the fact that large numbers of Peruvians have grown and chewed coca for more than 2,000 years—and agreements must consider that the Government permits and licenses a substantial cultivation for traditional domestic as well as pharmaceutical purposes. The objective then is to curb production in excess of this level and control illegal diversions from the licit cultivation—a task compounded by present conditions: (1) Peru has a weak economy; (2) cocaine trafficking provides several hundred million dollars a year to that economy, making it one of Peru's four major foreign exchange earners; and (3) coca cultivation has expanded to an estimated 50,000 metric tons, versus an estimated 12,000–14,000 metric tons needed for licit domestic and international use.

The problem of competing interests is evident: Coca cultivation is the major source of income for more than 7,000 farmers in the Upper Huallaga Valley, where most of the production is sold on the illicit market, generating an estimated 60 percent of the re-

gion's economy as well as 25 percent of the cocaine consumed in the United States.

The government of President Fernando Belaunde Terry, elected in 1980 after 12 years of military rule, has doubled its resource commitment from $1.5 million to $3 million. The Government is concerned about reports from medical clinics pointing to a serious increase in the dangerous practice of smoking coca paste. In this semi-refined state, coca paste contains such harmful impurities as kerosene and cement. Inhaling into the lungs is especially harmful. Reports indicate widespread smoking of coca paste by high school-age youth. Sensitive to its international image, the Government is also concerned about the potential for official corruption that has occurred in other countries. Peru has increased the number of both people and organizations committed to controlling the coca trade.

Our support has shifted from a focus solely on enforcement to a more balanced program of enforcement, education, and income substitution. This shift reflects a change in strategy toward sustained efforts. For example, Operation Green Sea II in 1980 was a cooperative effort with the Peruvian Government which eradicated nearly 1,500 acres of coca and destroyed 12 million plants and 57 laboratories. While some of the coca fields remain abandoned, the long-term impact of this one-time effort was primarily psychological, putting the cocaine trade on notice to the risks faced, and emboldening the government to take more forceful action.

In contrast, a five-year coca eradication and enforcement project was initiated by INM in 1981, concurrent with the Agency for International Development's (AID) five-year rural development program in the Upper Huallaga Valley. The project is the first in which the long-advocated strategy of coordinating INM's support for enforcement with AID's development assistance is being implemented. This project targets 17,000 hectares (out of 40,000-60,000 under cultivation countrywide). The INM goal is to reduce coca cultivation through eradication and control, while the AID goal is to diversify agricultural production, thereby minimizing the social and economic effects of the control program. In addition to supportng the Guardia Civil's Mobile Rural Patrol Detachment (UMOPAR) in the Upper Huallaga, INM's efforts to enhance the operational and intelligence effectiveness of Peruvian narcotics enforcement agencies include support for other Guardia Civil and Peruvian Investigative Police activities.

While actual eradication has not yet begun in the Upper Huallaga, activities we are supporting were showing these results by mid-1982. About five percent of coca cultivation had been abandoned and other cultivations were not being fully harvested; UMOPAR had increased its arrests and seizures; many large-scale traffickers had departed, leaving small dealers smuggling a few kilograms of cocaine paste; and the profitability of cocaine cultivation had declined.

INM plans to support coca control programs in other regions by 1984. The Peruvian Government believes there should be an international emphasis on coca control, and the United Nations Fund for Drug Abuse Control (UNFDAC) is considering a Peruvian request for an Andean office.

BOLIVIA

In Bolivia, where coca cultivation and consumption have also had historic economic and cultural importance, licit demand requires and estimated 12,000 metric tons out of an estimated production of 50,500 metric tons. Not only has chewing of coca leaf been traditional for centuries, but there are today an estimated 23,000 farm families engaged in growing coca, usually on holdings of one hectare or less, which complicates the eradication problem.

Moreover, the United States is faced with the necessity of starting from ground zero—again—in Bolivia.

Narcotics assistance programs began in Bolivia in 1972; a 1977 agreement provided assistance for narcotics control and a study of alternate corps. These activities were halted in 1980, after a coup by General Garica Meza, who allegedly had the support of the "Santa Cruz Mafia," independent organizations in the Santa Cruz area who dominate the cocaine trade.

Narcotics control assistance and other U.S. aid were suspended after the coup to demonstrate our insistence that Bolivia curb coca production and trafficking as well as to satisfy other U.S. concerns.

After a change in government in August 1981 (Bolivia has averaged more than one government per year since the Republic was founded in 1825), discussions on a resumption of coca control assistance were begun with the new Torrelio government. INM is currently discussing an eradication program which, if successfully negotiated and implemented, could reduce Bolivia's enormous coca cultivation to levels needed for legitimate purposes. Under discussion is a program of both voluntary and involuntary crop eradication and controls, focusing first on illicit production in non-licensed areas, and then on controlling excess production in licensed areas (the key Chapare and Yungas regions).

In addition to factors of international image and responsibility, the incentives for action are Bolivia's need for resumption of U.S. economic assistance, and its need to control negative effects of drug trafficking on the Bolivian economy (for example, the disruption of the agricultural labor force, and the flow of inflationary, untaxed dollars into the legitimate economy), while, at the same time, overcoming the competing restraints of self-interest by offsetting the political and financial impacts control programs could have on the economies of the growing and trafficking areas.

COLOMBIA

Colombia, the major exporter of marihuana to the United States and the major refining and transshipment center for Bolivian and Peruvian coca, now processes and distributes up to 70 percent of the cocaine entering the United States. Moreover, Colombian farmers are now cultivating about 7,200 acres of coca (4 tons of cocaine) and this cultivation could yield up to 13 tons of cocaine by 1985.

The value to the Colombian economy of cocaine and marihuana trafficking is estimated at $1 billion to $1.5 billion. Perhaps $500 million remains in the country and there are indications that, as in other countries, this inflationary, untaxed drug money is undermining the legitimate economy. Traffickers launder narco-dollars through the over-invoicing of exports, through front companies, farm and cattle purchases and the conversion of dollars on the black market. Not only does this dollar flow frustrate fiscal and monetary planning, but it has become increasingly difficult to find farm labor for other crops, thus disrupting agricultural production.

Recently, there has been evidence that Colombian guerrilla groups are utilizing drug trafficking as a source of income to pay for arms shipments.

While the government of President Turbay, who has been sensitive to these negative effects on his government and country, has cooperated through narcotics control agreements with the United States, there is not a country consensus on drug control. Many Colombians consider drug trafficking a problem created by and pertaining solely to the United States. The National Association of Financial Institutions has even campaigned for legalizing the cultivation and export of marihuana to increase government tax revenues and to assist the growers.

However, both the government and private sectors have begun to realize the magnitude of the negative effects of the drug problem on Colombia. Corruption among government officials, the growth of an illegal economy the government does not regulate or tax, the influx of uncontrolled sums into the legitimate economy, and threats to political stability have increased Colombian awareness of drug traffic-related problems.

Building on U.S. support, which began in 1973, INM has since 1978 provided technical assistance and training, and financial resources to upgrade Colombian capabilities in drug interdiction and manual eradication, in judicial processing and intelligence collection, as well as in drug abuse prevention to help the Colombians cope with their own drug abuse problems. A manual coca eradication program was begun in 1981. In 1981, Colombian authorities seized 349 kilograms of cocaine and destroyed 237,401 coca plants and 58 cocaine laboratories. With the exception of cocaine seizures, these figures compare favorably with 1980, when the totals were: 1,545 kilograms of cocaine seized, 106,665 coca plants destroyed, and 54 cocaine laboratories destroyed.

INM plans to discuss an intensified coca control program with the new Colombian government which took office in August 1981.

CONCLUSION

The world market for cocaine is presently estimated at less than 60 tons, with 40-48 tons imported into the United States. Current estimated production of coca is sufficient to produce as much as 156 tons of cocaine. This output and stockpiles in Peru and Bolivia are enough to supply the U.S. and world markets for years to come. To reduce cocaine availability substantially and permanently in the United States, we must achieve simultaneous control in Peru and Bolivia, while ensuring that Colombian production is contained and that new cultivation is prevented elsewhere.

While the reports on plant destruction, seizures and arrests show some progress we have not yet achieved the levels of coca control desired in any of these countries.

The farmers' economic and political interests are issues of concern to these governments. But, there are also pressures on these governments to bring the coca problem under control: These governments are aware that the continued supply of cocaine to the United States, Canada, and Western Europe affects their international standing; the willingness of the United States to link development assistance to government actions to control coca production and trafficking has demonstrated to Peru and Bolivia the intensity of the U.S. concern; there are perceptions among government of

actual or potential links between narcotics trafficking and insurgent groups; the undermining of local economies and the impacts of their own emerging drug abuse problems add to these pressures. Buttressing these incentives to act is the U.S. policy that we will help provide the means not only to gain control of coca production and cocaine trafficking but—with other sources of economic assistance—will also consider financial alternatives to the farmers, conditioned upon commitments to crop control and reductions in production.

We are undertaking other initiatives in addition to direct U.S. efforts in the producing countries. We are encouraging European governments impacted by cocaine abuse to participate in coca control programs, and to apply their own international influence on the producer nations. We are cooperating with governments and private institutions to inform the peoples of Peru, Bolivia, and especially Colombia about the major efforts underway to reduce U.S. domestic drug abuse problems. We are supporting interdiction efforts in neighboring countries, like Ecuador and Brazil, as well as in the Caribbean, to interrupt trafficking and to deny processors access to precursor chemicals.

Throughout South America, we work in close cooperation with the Drug Enforcement Administration on these projects to halt the flow of cocaine to the United States. Our agencies have confidence in these policies and programs. But, as stated at the outset, cocaine control is a long-term effort in which we are dependent upon the actions of other governments to meet their agreed responsibilities.

Health Hazards of Cocaine

(By Sidney Cohen, M.D., Department of Psychiatry, U.C.L.A. School of Medicine)

As with all major mood-changing drugs, the cocaine state is not easily reduced to words. But an attempt will be made to describe the changes that take place, recognizing that the actual effects vary with the dose, the manner of usage, the mood, the expectations and personality of the user, and the conditions under which it is employed. Not only the belief system of the individual, but also the social and cultural beliefs will modify the experience.

1. Acute positive effects

The first perceptible alteration is a loosening of restraints over emotions and a feeling of pleasure. Shortly thereafter, the positive mood intensifies into euphoria, elation, and perhaps feelings of ecstasy. Attentional changes occur, including hyperarousal, hypervigilance and hyperexcitability. Feelings of competence and power are noted. Thinking seems accelerated and remains appropriate at low dosage levels. A fine tremor of the outstretched hands might occur. The physical stimulation can give rise to restlessness. Pre-existing shyness, tension, and feelings of inferiority tend to disappear.

2. Acute negative effects

At times the dominant feeling tone is one of anxiety and agitation. Some nausea might be felt and rarely vomiting. The pupils are dilated producing mild degrees of light sensitivity. Sweating and palpitations may be noticed. Inability to sleep is a normal component of this state.

The blood pressure is increased by about 15 percent. The heart rate can be accelerated 50 percent above the resting state. Body temperature may be elevated. The respiratory rate may increase slightly at average dosages.

Paranoid thinking mechanisms may emerge. In bygone days these were called the "bull horrors," a fear of the police. Suspiciousness rather than grandiosity is the usual characteristic of the paranoid process. Apathy and confusion can develop in contrast to the more common clearheadedness and the impression that one is thinking better than ever. "Snowlights" are flashes seen usually at the periphery of the visual field. They are probably the effect of cocaine on the retina and optic nerves.

3. The cocaine psychosis

At high dosages and with frequent consumption a mild or serious break with reality can develop. Tactile hallucinations, the perception of something crawling under the skin, have been called "coke bugs." The belief may be so real that ulcerations of the skin from trying to dig out the parasites are sometimes produced. Other hallucinatory events also occur. These are visual, auditory or gustatory. The visual misperceptions are sometimes of miniaturized objects. The paranoid ideas become very real and urgent. Guns may be carried, and violence has occurred in an effort to deal with imagined persecutors. Violence is less frequent with cocaine than with the amphetamines because of the brevity of the cocaine state. Stereotyped behavior is only infrequently witnessed, that is, repetitious motor behavior such as continuously polishing some object or pacing back and forth as long as the drug is active. Sometimes the psychotic experience has a predominant depressive component accompanied by a melancholy mood or the inability to feel any emotion whatsoever.

The psychotic state may remit after a few days or continue for weeks or months. The prolonged reactions seem to trigger a dormant schizophrenic process, but they also occur in people without a family history or apparent predisposition to schizophrenia.

4. The post-cocaine state

Headache is not uncommon hangover effect. At the end of a cocaine run unhappiness or an inability to feel anything often emerges. Weight loss to the point of emaciation might be obvious, and it is due to lack of food intake along with increased amounts of physical activity. A sense of lethargy may remain for a few days.

Treatment of Toxicity

1. Acute toxicity

The goal of the emergency management of overdose is to keep the patient alive for a short period of time while permitting the liver and blood enzymes to metabolize the cocaine. It is estimated that one lethal dose an hour can be broken down by enzymatic action in the body. An airway should be maintained, and assisted breathing with oxygen initiated. An electrocardiogram should be taken to determine if a heart rhythm disturbance is present. The foot of the bed can be elevated. Cocaine convulsions are refractory to many anticonvulsant drugs. Intravenous diazepam (Valium) is ordinarily used. The respiratory depression that accompanies cocaine poisoning will be made worse with barbiturates. The phenothiazines (like Thorazine) antagonize most symptoms of cocaine toxicity, but they should be used with care in instances of respiratory depression. Inderal (propanolol), a beta adrenergic blocking agent, has not proven to be helpful.

On rare occasions a person may have swallowed a series of finger cots or condoms containing cocaine in order to smuggle the material across a national boundary. Once in a while these burst, releasing large quantities of cocaine into the gastrointestinal tract. Deaths have occurred, but some people have been rescued with immediate cardiorespiratory support.

2. Chronic use

The major problems of chronic use are drug-induced paranoid thinking resulting in inappropriate aggressive behavior, a prolonged psychotic or depressive reaction, or an inability to function due to increased cocaine use.

The guidelines for management might include:

1. Immediate stoppage of the drug. An abstinence period in a hospital is worthwhile. Significant withdrawal symptoms can be treated with sedatives. Long-term removal from the cocaine environment and cocaine-using friends is necessary. Relapse is a possibility after months, perhaps years, of abstinence.

2. Usually, individuals come to treatment after a catastrophe: a psychotic break, serious impairment of health, loss of job or family, or a serious suicide attempt. They may be highly motivated to stop initially, but over time their motivation tends to wane. An important aspect of therapy is to maintain the strong desire to remain abstinent.

3. Sometimes, family or concerned friends see the destructive nature of the cocaine usage before the user acknowledges it. In such instances group confrontation may be persuasive. This is not an accusatory encounter, rather it is a friendly, loving meeting that takes the place of the impending catastrophe. It should be led and monitored by the therapist. The goal is to change the drug-using behavior and to instill a positive attitude toward treatment.

4. Life-style changes have to be made. The person must switch from cocaine to gratifying nondrug activities. These will not match cocaine in providing peaks of pleasure, but they will be more sustaining. A series of alternative involvements should be planned with the active help and consent of the client, and an effort made to see that they are accomplished. Jogging has been claimed to be beneficial as an activity that sometimes provides a "high" for the person who jogs long enough. The counselor-therapist has two tasks, one of which is educational. The client should become aware of the nature of cocaine and the pitfalls associated with its use. This may help bolster the desire to abstain. The second task is to support, explain and encourage until the client appears to have stabilized.

5. The client's physical condition may have deteriorated as a result of extended cocaine use. Any nutritional deficiency ought to be corrected and an optimal physical state achieved.

6. Pharmacotherapy. Treatment of moderate to severe depressions may be required. Tricyclic antidepressants are the drugs of choice. Lithium has been found to block the cocaine reaction, but so far no studies have been reported in which lithium is used to prevent cocaine use. Most cocaine users are also polydrug consumers. Sedatives and other stimulants should be avoided, else they will be overused.

7. Group therapy with other cocaine or polydrug abusers has been helpful, and where such groups of recovered and recovering people are available, they can be a helpful therapeutic device.

DISCUSSION

Cocaine fits well into the spirit of our times. Pleasure now, hedonism and a narcissistic self-indulgence are a way of life for growing numbers of people. Cocaine is the ideal chemical for the hedonist or anyone without particular concern about the future.

Many people use cocaine to improve their ability to work, not only to keep going when exhausted, but also to excel in activities in which they are not confident of their ability. Cocaine generates confidence and alerts the mind, producing a better performance, or the illusion of it. Over time cocaine use becomes a necessary prelude to work because confidence is lost in one's intrinsic ability to accomplish without it.

Another reason for the popularity of cocaine is its unjustified reputation for being harmless. The clinical and forensic data on this point indisputably show that acute and chronic complications are by no means infrequent. Just how its undeserved reputation for being safe arose is obscure. Perhaps it derives from the cocoa leaf chewing experience, and this was thoughtlessly carried over to cocaine.

For any drug to be attractive as an item of abuse, it must alter mood and consciousness. It need not elevate mood or enhance consciousness. "Downers" or hypnosedatives, for example, depress the brain and its ability to be aware, yet this benumbed state is well thought of by manipulators of their minds. But cocaine is a mood elevator and awareness enhancer—the most effective we have. It does not rival the electrical stimulation of the pleasure centers but while some people are willing to tickle their reward centers with a chemical, to date hardly anyone seems desirous of having electrodes implanted into their pleasure centers. So with fair numbers who incorporate a drug like cocaine into their body in one way or other, what can be said of the consequences and the ethical issues involved? The consequences have already been discussed. The ethical questions are not clearly drawn except for the traditional proscriptions against unearned pleasure and the value of delayed gratification. Such interdictions may not hold much weight with present-day liberated Western men and women who live without particular allegiances to traditions or concerns for others.

Even to the most self-centered among us something about the consequential use of cocaine can be said. The neurophysiology of the brain dictates that when a marked deviation of its chemistry occurs, the inevitable effort to reachieve homeostasis results in an overshoot. If the shift was produced by cocaine, the swing back from the "high" goes below the baseline to a variable depth. This is no sermon about the Judeo-Christian ethic, rather it represents a known oscillation in neuronal metabolism in its effort to reachieve a steady state. The price to be paid for the extreme high is simply the down swing of the built-in homeostatic pendulum.

The question becomes: Is the "high" worth the "low" and the possible painful break with reality? Even the most hedonistic must take note of and wonder about such eventualities because of the unpleasure that accompanies these aspects of cocaine use.

There is a phrase used among cocaine users—"a coke whore." This is a person, male or female, who hangs around the coke scené and will do anything, sexual or otherwise, for a snort, shot or drag of cocaine. When this level of human bondage is thoroughly understood, cocaine is understood.

INTELLIGENCE TRENDS—THE GROWTH OF COCAINE ABUSE

(A Report by the Strategic Cocaine Unit of the DEA Office of Intelligence)

Major indicators have reflected a persistent, and at times marked, growth in abuse and availability of cocaine in the United States since 1976. Likewise, cocaine availability is increasing in all source countries in South America, which will ensure a steady supply to the United States and other consumer countries in the near future.

In recent years a considerable number of additional coca bushes have been planted in response to the expanding international cocaine market. These plantings will reach maturity in the next year or two and, if unchecked, will greatly increase the supply of coca leaf available to illicit markets. Local and U.S.-assisted programs to identify and map coca cultivation have confirmed higher estimates of cultivation and yields in Bolivia and Peru. Cultivation of coca for non-traditional uses is expanding in south and southeast Colombia and has also been reported in northwestern Brazil close to the Colombian border.

ESTIMATED COCA PRODUCTION IN METRIC TONS

	1980	1981
Peru	50,000	50,000
Bolivia	52,500	55,000
Colombia	2,000	3,000

Bolivia has increased in importance as a source country for cocaine hydrochloride, accounting for 25 percent of the cocaine seized in the international traffic during 1980. Although the greatest number of seizure incidents are related to Peru, that country accounts for the smallest amount of cocaine among the three primary source countries. Peru has become the most popular source country for Americans, Canadians, and Europeans trafficking in kilogram quantities of cocaine.

Colombia is and will remain in the foreseeable future the principal processor of cocaine hydrochloride in South America. Although Colombia has been a minor source for coca leaf, cultivation has now reached a commerical scale for cocaine trafficking purposes. The increased evidence of coca paste laboratory activity indicates that many plantings are for non-traditional uses. While coca leaf production is increasing in Colombia, the country's principal role will remain as a processing center and staging area. In 1980, Colombia was the source of 70 percent of the cocaine seized in the United States for which the origin could be identified. Colombia processes approximately one half of the world's cocaine hydrochloride, but the country's share of the cocaine market may decrease as production increases elsewhere.

Florida remains the primary transshipment point within the United States for cocaine en route from South America. Moreover, the majority of the cocaine seized in the United States during 1981 entered at some point in Florida. Intermediate distribution points were Chicago, Kansas City, Detroit, Atlanta, Denver, Houston, Dallas, Phoenix, New York City, and Baltimore. Intermediate cocaine distribution networks often overlap and supply the same cities being supplied by other intermediate points or directly by Florida.

Historically, the first use of cocaine was coca leaf chewing among the Indians of the Andes. It was initially used in tribal ceremonies. Later the Spanish conquerors encouraged wider use among the Indians because of its hunger-deadening effect. The alkaloid of the coca leaf, cocaine, was first isolated in the 1850's. During the next 50 to 60 years, the drug was widely utilized as a local anesthetic and in patent medicines and tonics. Currently, the medical use of cocaine is limited to eye disorders and in certain types of surgery.

Cocaine abuse became widespread in the 1890's. At that time the drug was considered "safe" in that it did not present the physical addiction potential of morphine. However, psychological dependence was then poorly understood. Except for a brief resurgent period in the 1920's, epidemic cocaine abuse waned and virtually disappeared until the mid-1960's. Today, growing popularity of the drug is evidenced by recent large seizures that reflect the all-out efforts of smugglers trying to keep pace with the current demand.

Cocaine abusers have in the past ingested cocaine for the most part by inhalation, a process known as "snorting." To experience a more rapid effect, users have recently become more experimental and frequently inject or smoke cocaine, the latter process known as "freebasing." Another ingestion method, which in the past was almost exclusively used by heroin addicts, is the mixing of cocaine with heroin to enhance the effects. This preparation is commonly known as a "speedball" or "hardball" and is administered by injection.

In the last three years there have been an increasing number of heroin treatment admissions in which cocaine has been listed as a secondary drug: 17.3 percent in 1979; 19.6 percent in 1980; 22.6 percent in 1981.

Estimate of illicit cocaine entering the United States in 1981 (in tons)

Estimated maximum illicit cocaine hydrochloride theoretically available for world use	140–172
Less cocaine hydrochloride not converted because of inefficient production methods, crop loss, excessive cultivation, spoilage, loss in transit, pilferage, eradication, and seizure of prime materials	90
Subtotal	50–82
Less amount seized worldwide	8
Subtotal	42–74
Less cocaine hydrochloride exported to third countries (Europe, Canada, and Latin America)	12
Range of cocaine hydrochloride estimated to enter the U.S. market	30–62

Major indicators reflect continued widespread availability and abuse of cocaine in the United States. During the first half of 1981, national cocaine injuries averaged 837 per quarter. This represents a 50 percent increase over the 1979 quarterly average and an increase of more than 110 percent over 1977 figures.

National cocaine injuries (quarterly average)

Year:	*Number*
1977	397
1978	479
1979	557
1980	808
1981	866

Comparative data on cocaine deaths are as follows:

National cocaine deaths

Year:	Number
1979	58
1980	96
1981	[1] 96

[1] Estimated 1981.

Treatment admissions during the same period also show an increase for cocaine admissions as a primary drug of abuse. This figure rose in 1981 to 3,393 per quarter, from 946 per quarter in 1977, an increase of more than 350 percent.

Cocaine federally funded drug treatment admissions (quarterly average)

Year:	Number
1977	946
1978	1,361
1979	1,961
1980	2,620
1981	[1] 3,393

[1] Based on first half of CY 1981.

Despite the virulence of cocaine abuse shown by these indicators, they probably understate the problem because cocaine, unlike other abuse substances, such as heroin and methaqualone, has been demonstrated to be less toxic and therefore generally less debilitating than those drugs. This, in turn, would cause cocaine, more than likely, to have a higher percentage of nonreported abuse cases.

Cocaine has manifested significant long-range increases in abuse and availability in all geographic areas of the country. This phenomenon suggests an appeal to a broader sociological segment of the U.S. population than is the case for most abused substances. The following table indicates how these increases have been consistent throughout most of the nation during the past five years.

REGIONAL COCAINE INJURIES

[Quarterly average]

	1977	1978	1979	1980	1981
Northeast	234	286	277	468	479
Southeast	58	78	108	118	90
North Central	58	60	85	95	103
South Central	8	13	24	24	39
West	41	44	63	105	155

Retail prices and purities showed little long-range change during the last five years. This becomes more apparent when taking into consideration inflation and the rise in the consumer price index during this period.

COCAINE RETAIL PRICE AND PURITY INDEX

[Per gram]

Year	Price	Purity percentage
1977	$570–720	12.2
1978	$590–650	12.5
1979	$570–780	11.1
1980	$630–710	12.5
1981	$630–700	11.8

This price stability demonstrated that traffickers, while making considerable profits, were also able to meet growing demand despite losses resulting from interdiction at the ports and borders.

The ability of traffickers to meet the growing demand may be attributed to a number of strategic factors that, when taken in combination, are characteristic of cocaine:

High profit margin per size of dosage unit;

Consolidated, established and entrenched trafficking networks;

Broad geographic and sociological appeal in the United States;

Sophistication in smuggling techniques.

The coca production and abuse and availability statistics all suggest a continuing increase in cocaine abuse in the United States. Those figures are supported by recent large-scale seizures, data released by the National Institute on Drug Abuse in March, and data recently acquired in Colombia.

The seizure of 3,800 pounds of cocaine in a cargo shipment at Miami on March 9 was followed by seizures of 1,200 pounds in Louisiana in May and over 600 pounds on Long Island in June. These unusually large shipments apparently are in addition to—rather than supplanting—the traditionally smaller shipments, suggesting a considerable increase in the total amount of cocaine shipped to the United States.

Data released by the National Institute on Drug Abuse (NIDA) on March 9 show that the number of reported cocaine users in the United States more than doubled between 1977 and 1979. This coincides with data given above showing that cocaine-related admissions to federally funded drug clinics have tripled since 1977.

Theoretical maximum cocaine available from coca leaf produced in Peru and Bolivia

PERU

1. *Annual production:* 50,000 hectares under cultivation times 1,000 kilos per hectare equals 50,000,000 kilos of leaf.

2. *Accountable stocks:* 12,000,000 kilos for chewing, kilos exported worldwide plus 2,000,000 domestic use accountable equals 14,000,000 kilos accountable.

3. *Potential unaccountable stocks:* 50,000,000 kilos of leaf minus 14,000,000 kilos accountable equals 36,000,000 kilos potentially unaccountable.

BOLIVIA

1. *Annual production:* 35,000 hectares under cultivation times 1,500 kilos per hectare equals 55,000,000 kilos of leaf (rounded).

2. *Accountable stocks:* 15,530,000 kilos for chewing, 2,000,000 kilos exported worldwide plus unknown equals 17,530,000 kilos annually accountable.

3. *Potential unaccountable stocks:* 55,000,000 kilos of leaf minus 16,000,000 kilos accountable equals 39,000,000 kilos potentially unaccountable.

4. *Reduction to cocaine hydrochloride:*

A. Coca leaf to Coca Paste (Reduction Factor equals 200:1).

36,000,000 kilos of leaf equals 180,000 kilos paste.

39,000,000 kilos of leaf equals 195,000 kilos paste.

B. Paste to Cocaine Hydrochloride (Reduction Factor equals 2.5:1).

180,000 kilos paste equals 72,000 kilos of cocaine.

195,000 kilos paste equals 78,000 kilos of cocaine.

72 metric tons plus 78 metric tons equals 150 metric tons of cocaine hydrochloride.

150 metric tons plus 16 metric tons from Colombia leaf equals 156 metric tons of cocaine hydrochloride.

5. Allowing 10 percent margin of error each way, the 156 metric tons theoretical maximum of cocaine hydrochloride available from coca leaf produced in Peru and Bolivia produces a range of 140 to 170 metric tons.

DIFFICULTIES IN COCAINE ESTIMATES

(By John Bacon, Chief, Strategic Cocaine Unit, Office of Intelligence)

Although cocaine is one of the most widely abused drugs in the United States and diverts an enormous amount of money into the underground economy, the exact scope of the problem—or even a reasonable approximation—has so far eluded the collective estimative skills of government analysts.

Lacking a single convincing method of arriving at an estimate, analysts have been forced to fall back on juggling several different methods. These are as follows:

1. Coca leaf production;

2. Cocaine hydrochloride production;

3. Amount of cocaine in international traffic; and

4. Cocaine consumption.

To arrive at the estimate of coca leaf production, analysts use this formula: Area planted times yield per unit of area, minus accountable licit consumption and loss, gives the maximum amount of leaf available for illicit conversion. Unfortunately, none of the elements making up the formula are known with any degree of accuracy. Estimates of the areas planted in Bolivia and Peru—the two main coca producers—vary widely, and in the rare instances where areas have been measured observation and laboratory analysis suggest widely varying yields. Further, lacking any data at all, analysts arbitrarily set loss (damage to crops, spoilage, loss in transit, etc.) at fifty percent of total estimated production.

The estimate of cocaine hydrochloride production has in the past depended on analysis of informant information and of seized cocaine laboratories. This estimate has, if anything, been even shakier than the crop production estimate. In future, however, a refinement may be possible. Data on the availability of cocaine predecessors—chemicals necessary for the production of cocaine—are at least partly available and should be invaluable in determining maximum amounts of cocaine that could be produced.

Once manufactured, the cocaine must be smuggled out of the producing area. Analysis of seizure data, informant debriefings, and captured records supply some data on the amount of cocaine in international traffic, although it is far from conclusive.

Consumption data would seem to provide, at first glance, the most promising method for estimating the extent of the cocaine problem in the United States. The following formula is applicable; Number of users times amount used equals total amount consumed. (Amount used is defined as frequency of use times average purity.) But, once more, data are lacking to provide a trustworthy estimate.

DEA recognizes the weaknesses of its estimative procedures but believes that with the information now available, and given the current state of the estimative art, we have done as well as is possible. Meanwhile, we hope to continue gathering information that will help to sharpen the estimate and to improve estimative techniques to make them more useful and more credible.

COCAINE TRAFFICKING TRENDS IN EUROPE

(Reprinted from Quarterly Intelligence Trends, Summer 1982)

Cocaine trafficking and abuse have become a serious problem for many European countries in recent years. From 1977 through 1981 the amount of cocaine seized

in Europe increased almost four-fold (from 59 kilograms to 232 kilograms). Moreover, the number of seizure incidents more than doubled in 1981 compared to 1978 (98 versus 48).

Cocaine, long popular among the wealthier segments of society in Europe and the Middle East, has become in recent years increasingly available to other segments of society due to cheaper prices for cocaine and easier travel to and from source countries in South America. The region continues to play a dual role in the traffic in cocaine; it is a consumer area, and a transit point for cocaine destined for other parts of the world. Because of the increasing availability of cocaine and recent changes in trafficking patterns in Europe, a review of the more important aspects of the cocaine trafficking situation is given for 1980 and 1981. During these two years most of the seizures took place in two major transit countries, France and the Federal Republic of Germany, and in the four primary recipient countries—Italy, the Netherlands, Spain and the United Kingdom.

France. Seizures in France rose by 150 percent from about 34 kilograms in 1980 to over 85 kilograms in 1981. During this two-year period France has been the primary point of entry to Europe used by traffickers in cocaine arriving via commercial airlines from South America. Almost all of the seizure incidents reported during the last two years were made at international airports servicing Paris. There was one incident at the Nice International Airport. Information resulting from the seizures made at the airports indicates that much of the cocaine was destined for countries other than France, such as Italy, the Netherlands, and the United States. The quarterly seizures peaked during the first quarter of 1981, and declined later in the year following the intense and successful law enforcement activities of the first quarter. France, however, is a convenient point of entry to Europe, and remains popular with cocaine traffickers.

Federal Republic of Germany. This country is used primarily as a transit point for cocaine destined usually for the Netherlands and Italy. Close to 37 kilograms (96 percent) of the more than 38 reported for the two-year period were seized at the international airport servicing Frankfurt in 15 incidents. The remaining seizures occurred in Berlin, Hamburg, Kleve and Munich. In one instance German authorities seized cocaine which had been smuggled into Hamburg by a South American crew member aboard an Ecuadorean vessel. This was the only incident reported involving cocaine known to have been smuggled to Europe by vessel. The incident which occurred at Kleve involved a small amount of cocaine purchased in the Netherlands by two U.S. citizens residing in Germany.

Spain. Ranking second in the amount of cocaine seized during 1980 and 1981 but first in the number of seizures reported, Spain holds a dual position in the cocaine traffic. It is not only a primary recipient country for cocaine but also a transit country. Spain is used by cocaine traffickers who are often destined for the Netherlands and, more recently, for italy. It is interesting to note that while cocaine traffickers destined for such countries as the Netherlands and Italy enter Europe via Spain, during the last two years there have been an increasing number of incidents in France or at the Franco-Spanish border involving traffickers destined for Spain.

Of the 55 seizure incidents, thirty (55 percent) were made at airports servicing Madrid, Barcelona, and Las Palmas in the Canary Islands. They accounted for about 48 kilograms of cocaine, divided fairly evenly (25 and 23 kilograms respectively) between 1980 and 1981. The remaining 25 seizures (45 percent) took place at locations other than airports, and included the only seizure of a clandestine cocaine laboratory in Europe during 1980. The decline in the seizure total for 1981 is related to the decrease in seizures at non-airport locations (which dropped to about eight kilograms from the 33 kilograms reported during 1980) brought on partially by very successful local enforcement efforts of previous years.

Italy. Seizures made at non-airport locations have been the dominant pattern, particularly during 1981 when less than two of the thirty kilograms seized were at an airport. Cocaine reaches Italy via several routes. A popular pattern involved Italian males who arrived in Paris from Lima and were destined for Italy. After successful French enforcement efforts targeted against Italians arriving from Lima, similar seizures began to occur at the airports servicing Frankfurt and Zurich. Recently, an Italian male, who arrived from Lima and was destined for Milan, was arrested at Las Palmas, Canary Islands. A second pattern in the traffic of cocaine to Italy involves Chileans who usually travel via France or Switzerland and are destined for Milan.

United Kingdom. A principal recipient country for cocaine in Europe, the United Kingdom is also to a lesser extent a transit country. Seizures at airports were about 18 kilograms in 1980, while seizures at non-airport locations were just over half that amount. Seizures at airports dropped by 58 percent from 1980 to 1981, compared with a 16 percent decline in seizures at non-airport locations for the two-year period. On at least two occasions, cocaine destined for India and the South Pacific transited the United Kingdom. Seizures of cocaine destined for other European countries have been made in the United Kingdom. The traffic in cocaine in the United Kingdom is apparently dominated by Britons, as opposed to the other recipient countries where other nationality groups have established themselves, e.g. Chileans in Italy and Colombians in Spain and the Netherlands.

The Netherlands. This is one of the four primary recipient countries in Europe. As with the other three, cocaine is intended for local consumption, or for redistribution to local markets elsewhere in Europe. Also, the Netherlands sometimes plays a secondary role as a transit country. Such was the case in 1981 when a group smuggling cocaine concealed in batteries via the Netherlands Antilles and the Netherlands to the United States was uncovered and immobilized. The 42 kilograms seized in the two-year period are divided fairly evenly between seizures at airports (20 kilograms) and at non-airport locations (22 kilograms). All of the seizures at airports, totaling four, took place in 1980. Traffickers in cocaine destined for the Netherlands have tended to avoid direct travel to that country from South America. They prefer circuitous routes which take them through one or more other European countries—often Spain,, The Federal Republic of Germany, Belgium and Denmark. Seizures reported for the Netherlands dropped to four and one-half kilograms for 1981—a decline of 88 percent. This sharp decline in seizures may be the result of the increased law enforcement efforts in European countries used as transit points by cocaine traffickers destined for the Netherlands, and of successes by Dutch authorities who, for example, seized the only clandestine cocaine laboratory in the region during 1981.

Switzerland, Belgium and Denmark are also emerging as important transit countries. The role of Switzerland, in particular, has increased as traffickers have shifted their patterns of travel. In two instances, Zurich was used as a transit point by smuggling groups which had previously used Paris. Switzerland has been used as a transit point mainly by traffickers destined for Italy. Belgium is often on the route of cocaine traffickers destined for the Netherlands. There are, however, no direct flights between countries in South America and Belgium. Traffickers usually arrive in Belgium via France or Germany. Finally, Denmark is gaining in popularity with cocaine traffickers destined for the Netherlands and for Italy.

COLOMBIA: SOUTH AMERICA'S COCAINE CORNUCOPIA

(A Report by the Strategic Cocaine Unit of the DEA Office of Intelligence)

For the past five years, Colombia has been one of the major illicit drug producers in the world. It dominates the supply of three principal illicit drugs, furnishing at least 50 percent of the cocaine, as much as 75 percent of the marihuana, and about 80 percent of the illicit methaqualone. The movement of these drugs to the U.S. market has increased dramatically in recent years, coinciding with an alarming rise in drug abuse and drug-related injuries.

Widespread abuse is only one of the problems. Cocaine and marihuana are the two top money-makers of the illicit drug trade, producing immense power which is used by trafficking groups to corrupt officials and to disrupt social and economic order in both producer and user countries. Violence accompanies the drug traffic in the United States, the Caribbean, and South America.

Colombia's dubious distinction as a principal drug source country may be attributed to its strategic location on the South American continent, its geographic makeup, and the ruthless tactics of an experienced, well-ordered trafficking community.

COCAINE PRODUCTION AND TRAFFICKING

As both a processing center and a staging area for cocaine smuggling, Colombia is the principal source and major producer of cocaine hydrochloride worldwide. In 1980 Colombia may well have processed as much as 35 metric tons of cocaine; of this total, between 20 and 25 metric tons may have been successfully introduced into the United States. An analysis of worldwide seizures in 1980 indicates that Colombia was the source country for half of the cocaine seized and almost 30 percent of the seizure incidents. In cases where source countries have been identified, Colombia accounted for 70 percent of all cocaine seized in the United States.

There is no precise data regarding the extent of coca cultivation in Colombia. An estimated 3,000 hectares are planted in coca bushes which may produce 2,250 metric tons of coca leaf. Until recently Colombian leaf production was believed to have served a small indigenous population and did not enter the international cocaine traffic. A small and growing amount of coca leaf is now being cultivated for cocaine conversion purposes. Coca cultivation is expanding in the areas of Cauca, Putumayo, Narino, Meta, and Vaupes. Evidence of cocaine paste

extraction laboratories at the growing sites further indicates that this expanded cultivation is grown strictly for the international trade. Although there are numerous non-alkaloid species of coca plants, leaf samples show that the alkaloid content of current Colombian cultivation is indeed sufficient to sustain cocaine conversion enterprises.

Colombia has a great potential for expanding its illicit coca production, and traffickers may do so to ensure a steady, economical supply of coca materials. Even if the land currently under cultivation were not expanded, production would still multiply a existing bushes mature.

The Colombian Government only recently began to focus on the problem of domestic coca production. Enforcement agencies have destroyed some individual fields and continue to do so; however, the government has not adopted a policy for dealing with illicit local coca production and is not currently considering an income substitution program for coca-producing areas. The impact of eradication programs could be significant since fields take several years to mature and represent considerable investments in time and labor. It is important for the government to act before coca cultivation and income become ingrained in the rural economy.

Although coca leaf production is increasing in Colombia, Peru and Bolivia continue to provide the bulk of the coca raw materials. Paste and base for processing into cocaine hydrochloride enter southern Colombia by land, air and water routes directly from Peru and Bolivia or through third countries. Coca deriviatives are then shipped to laboratories near the larger cities, principally Bogota, Medellin, and Cali, where chemicals required to process cocaine are readily available.

Acetone and ether, chemicals considered essential to hydrochloride conversion, are in abundant supply in Colombia but are not produced there in quantity. The United States, the Netherlands, and the Federal Republic of Germany are the principal suppliers to Colombia. Importation into Colombia is legal but far exceeds amounts required for legitimate industrial and commercial purposes.

Information had recently been collected on Colombia detailing imports of ether from 1978 through mid-1981. Ether is a necessary chemical in the production of cocaine. Analysis of the information indicates that well over 90 percent of the ether went to known or suspected sources of ether for cocaine traffickers. During that three-and-a-half year period, 4,595 tons of ether were imported into Colombia. Using a conservative ratio of the ether needed to produce cocaine, half of that much ether could have produced 170 tons of cocaine or an annual average of 42.5 tons for the 1978–1981 period. Previously, it had been estimated that Colombia produced 50 percent or more of the world's cocaine.

Aside from their own tormidable production, Colombian violators also purchase and organize the traffic in cocaine from other South American countries to the world market directly or through Colombia.

As the primary production and staging area for worldwide cocaine trafficking, Colombia's actions against the supply and traffic are critical to the reduction of availability worldwide:

It is the most important buyer of illicit coca grown in Peru and Bolivia;

It is the most prolific producer of cocaine hydrochloride;

It has established organizations whose business skills and ruthlessness have monopolized the most advantageous production, transport, and marketing position in this profitable, competitive business.

DRUG ABUSE AND DEMAND REDUCTION

Though drug abuse in Colombia is not perceived as a major problem by the government or the public, it is the consensus that an increased number of Colombian youth are indulging in marihuana, cocaine, and methaqualone abuse. A Justice Ministry-sponsored survey has shown that drug abuse among youth is much higher than was previously believed. The National Council on Dangerous Drugs, which is responsible for the review of all drug-related laws, resumed operation in March 1981 after almost two years of inactivity. It has initiated a program to reduce domestic demand for narcotics. In theory, the Council has responsibility for setting narcotics control policy in Colombia, but it has been reluctant to get involved in any aspect of narcotics control beyond reduction. Colombians are beginning to accept that marihuana is a dangerous drug. The new awareness and official concern over the domestic drug abuse problem is a change of attitude which might spur the government to more intense interdiction and eradication efforts.

OUTLOOK

Cooperation between Colombian and American narcotics agencies continues to improve as well as among Colombian drug control organizations. Efforts to disrupt active trafficking organizations and routes are increasing, and the success of the enforcement agencies over the past year is partly responsible for a newborn awareness of the problem by the populace and government officials. The overall commitment is still influenced heavily by budget restrictions. In the past few years the public has been made aware of Colombia's importance in the international drug trade and has begun to realize that narcotics trafficking has a destabilizing effect on Colombian social and economic order.

After twenty years of relative political calm, Colombia faces several internal political and economic pressures which will influence the importance that a new administration will place on narcotics control: economic difficulties including an inflation rate of about 27 percent, intensified guerrilla and terrorist activities, and a growing rate of violent crime.

When President Julio Cesar Turbay-Ayala took office in August 1978, he pledged the Colombian Government to several multilateral cooperative interdiction and investigative operations aimed at international narcotics trafficking. There is no indication whether the successor government will continue Turbay's "implacable crusade" against narcotics trafficking.

COLOMBIAN GOVERNMENT INITIATIVES IN DRUG CONTROL

The Government of Colombia has taken the following actions to increase its capability to control the production and trafficking in illicit drugs.

A revised U.S.-Colombian Extradition Treaty has been signed and ratified by both countries. For the first time a civilian Colombian government has agreed to extradite its nationals under specific limited circumstances. The treaty was ratified by the U.S. Government in November 1981 and is expected to broaden U.S. and Colombian enforcement capabilities.

The Colombian Government is studying a Mutual Legal Assistance Treaty which provides for the exchange of information and evidence in criminal, civil, and administrative matters with the United States.

In early 1981 the long-awaited Special Anti-Narcotics Units of the National Police became fully operational and were deployed in all active illicit drug regions. The 900-man organization replaced the army as Colombia's primary anti-narcotics agency.

A full commitment to a herbicidal marihuana eradication program is pending, and no decision is likely until the new government takes office in August of 1982. Coca eradication, meanwhile, is gathering momentum and may establish a precendent for marihuana control.

The 1971 Convention on Psychotropic Substances was ratified by the Congress in December 1980 and signed by the President in January 1981. This action strengthens Colombia's position in curtailing methaqualone imports.

THE PUBLIC POLICY RESPONSE TO THE COMPLEX—COCAINE ISSUE

(By Lee I. Dogoloff, Executive Director, The American Council on Marijuana and Other Psychoactive Drugs)

Scientists and clinicians have clearly established that cocaine use is destructive to the health and well-being of individual users. When the drug is relatively easy to get, as it is today, people will both use it and, in many cases, experience problems as a result. There is ample evidence, both objective and anecdotal, to indicate that cocaine has become a serious problem in the United States.

The Federal Government surveys selected hospital emergency rooms to identify which drugs patients mention when they appear with drug-related problems. In 1973, cocaine was not even listed among the top 50 drugs on that survey. By 1978, cocaine ranked 29th, and by 1981 it was the 13th most frequently mentioned drug. The same annual study also contacts medical examiners, who in 1980 ranked cocaine eighth among substances specified as a cause of death. [Drug Abuse Warning Network (DAWN), National Institute on Drug Abuse.] The National Narcotics Intelligence Consumers Committee estimates that in 1980 approximately 44 metric tons of cocaine, with a retail value of $32 billion, were consumed in the United States. This figure nearly doubled the 1978 estimate.

Headlines such as "Cocaine Is Almost A Way Of Life In Hollywood" (*Dallas Times Herald*, March 14, 1982); "Cocaine Spreads Its Deadly Net" (U.S. News and World Report, March 22, 1982); "FBI Agent Seized on Cocaine-Sale Charges" (*The New York Times*, November 25, 1981), and "Cocaine And The Middle Class High" (*Reader's Digest*, October 1981, condensed from *Time*, July 6, 1981), are becoming all too familiar. While headlines do not always accurately depict reality, the fact that over four million people have used cocaine in the past month and that cocaine-related admissions to drug clinics were up 300 percent in the last five years (Kozel et al., 1982) confirm that the drug is not only gaining in popularity but causing serious problems as well. And just to set the record straight, this is not solely a "West Coast phenomenon." The New York State Division of Substance Abuse Services has announced a 122 percent increase in emergency room episodes, a three-fold (197 percent) increase in cocaine-related deaths, and substantial increases in admissions to treatment for cocaine use

from 1979 to 1980. Denver and Washington, D.C., have also experienced substantial increases, and the number of emergencies continues to rise from a historically high level in Miami.

Today, few observers of the drug scene would deny that cocaine has become a significant health and social issue for our society; the dilemma lies in how to solve this problem. Normally, drug policy analysts look to the source of supply for answers. Cocaine originates in the mountainous regions of Peru and Bolivia where nearly all coca bush cultivation occurs. Ninety percent of this coca leaf production is for illicit purposes, with only ten percent used for domestic chewing, flavoring, and the manufacture of licit cocaine for medicinal purposes. Since it takes nearly four years for the coca bush to reach maturity and thereby produce its leaves for harvest, one obvious solution is to eliminate the plants. Although this sounds easy, there are several reasons why it is not likely to happen in the near future. Both Peru and Bolivia are "developing nations." Because they are poor, drug control has a lower budgetary priority than many other problems. Since the coca bush is cultivated in remote areas, many of which are accessible only by air, monitoring and eradication of the coca bush crop are both rather difficult. For these countries, where poverty and illiteracy are widespread, the funding of costly drug supply reduction efforts assumes less importance.

Nevertheless, in Peru the government views the illicit cultivation of coca as a serious threat to national security. There is also concern about the negative health and economic consequences felt by its people as a result of coca paste smoking. The United States is currently supporting the Peruvian Government's strong resolve to control coca production through a series of pilot projects aimed at crop eradication. Geography, terrain, and the absence of modern ground transportation networks, however, hinder these well-intentioned efforts.

Bolivia shares all Peru's problems but is just beginning to recognize the negative impact that illicit coca production is having on its nation's status within the international community. Although the government is making efforts to shut down the illegal cocaine manufacturing laboratories, negotiations are just beginning with the United States to formulate a crop eradication strategy.

However committed Peru and Bolivia are to eliminating illicit coca cultivation, given even the most optimistic scenario, effective control is probably ten years away.

Since control at the source only holds promise for the long term, interrupting the cocaine traffic seems like the next logical step. Once harvested, the coca leaves are made into cocaine through a crude and simple manufacturing process. These laboratories are found not only in the producing countries of Peru and Bolivia but also in Colombia, the major shipment point from which cocaine is sent to the United States and Europe.

Like the distribution system for marihuana, the cocaine network is broad and diverse. Both large and small shipments enter the United States by aircraft, boat, and human courier. Because the Caribbean is vast and the large coastline affords so many opportunities for illegal entry, interrupting the flow of cocaine into our country is extremely difficult. For example, government officials estimate that about ten percent of the total illicit drugs entering the United States are confiscated each year. Even if that figure could be raised to 50 percent, which is highly doubtful given the resources required to patrol our borders, the trafficking in cocaine would continue. The profits made in the cocaine trade are so enormous that a 50 percent loss still would not provide a financial disincentive to those involved in this lucrative "industry." Thus, a long-term strategy that relies on supply reduction through crop eradication or the interception of the drug either before or after it enters the United States cannot respond to our needs for a more immediate approach.

These realities leave us with little choice. Of necessity, the near-term resolution to the cocaine problem lies in somehow influencing the users' behavior, thereby reducing the demand for this most alluring of drugs.

Based on our experience with other drugs, the elements of a strategy to reduce the demand for cocaine seem to be fairly clear. First, as humanitarians, we must ensure that those individuals who are already experiencing problems with cocaine have treatment services available. Fortunately, although growing, this client population is relatively small and, unlike those dependent on heroin, better able to secure treatment without a major new investment of tax dollars.

Second, past experience dictates that research play a key role in this strategy. It is at this point that the issue starts to become cloudy. Research dollars are severely limited and cocaine is the drug of choice for a limited population. How can we justify the expenditures of scarce resources for this purpose?

From my own perspective, I believe that our experience with marihuana demonstates the importance of scientific research into the so-called "pleasure drugs." Marihuana's unfounded reputation for safety led to enormous problems during the 1970's when "limited" research dollars were focused on heroin.

I am not disputing the tremendous value received from that investment, but believe that as policymakers we neglected marihuana far too long. Today, I think, there are some parallels with cocaine. I would urge a policy that endorses continued research into cocaine. However, research, by its very nature, is also a long-term proposition. What then can be done in the immediate future?

Changing attitudes is the one approach then that appears to hold the most promise in the short term. While not wanting to belabor the relationship with marihuana, from a policy perspective it is clear that this kind of prevention has succeeded in reducing a problem that was completely out of control less than five years ago.

To change attitudes about cocaine requires, first, a new message about cocaine's potential health hazards, and second, a commitment to broadcast that information widely. Both tasks are fraught with problems. Many messages already exist that glamorize cocaine. Not only will the prevention messages have to counter those well-established images, but it will have to convince Americans that some sources of pleasure are dangerous.

To communicate that idea may seem a mission impossible, yet in the interests of the public well-being it must be done. Because cocaine is the most reinforcing or pleasurable drug known, the potential for compulsive use exceeds that of virtually any other drug. When monkeys are offered unlimited amounts of cocaine, they will self-administer it to the exclusion of both food and sex, and finally die. When we link this understanding with the fact that the "at risk" population for cocaine is primarily young, adult males, the implications are serious. The notion of having a large segment of our young adult population impaired by cocaine at a time when many are embarking on career and family roles is unacceptable. Moreover, the fact that may habitual cocaine users devote vast sums of money to the pursuit of this drug, despite other responsibilities, is also cause for concern. The vignettes of the physician and the stockbroker in the recent "NBC White Paper on Pleasure Drugs" are illustrative of this point. I am convinced that if cocaine availability is increased and the price decreased, use will skyrocket. The tremendous potential for abuse, coupled with the destructive impact on careers and families, provide the impetus for a cocaine prevention policy.

As a first step toward influencing attitudes, we must encourage an accurate portrayal of cocaine. Our stance with the media should be one that emphasizes responsibility, not censorship. We need to convince the entertainment industry that it is in the public interest to refrain from portraying cocaine as chic and thereby inadvertently encouraging or sanctioning its use. At the same time that we ask the media to become more sensitive to this issue, we must assume responsibility for communicating the health facts about cocaine. I do not want to minimize the difficulties involved in persuading people that cocaine use is undesirable. To accomplish this, we must convince people that there is a relationship between use and abuse. The notion that "I can handle it—I'm going to use it occasionally and will stay in control" has lured many into using cocaine with disastrous results. The challenge to communicate a message that discourages cocaine use will take the creativity and dedication of both media and drug experts.

Preventing Cocaine Abuse

(By John H. Langer, Chief, Preventive Programs Section, Drug Enforcement Administration)

The prevention of drug abuse involves two approaches. The first is a general one. Prevention of abuse of dangerous drugs, those that are prohibited or controlled and either have no legitimate uses or very specific ones, is a long-range task of education and information. It is the responsibility of those who control drugs and supervise young persons. But there is no cut-off point at which one can say, "This is prevention, but these other activities are intervention or deterrence." In addition to a general effort against drug abuse, reducing cocaine abuse requires measures specific to the drug. These include accurate information on the drug itself, how it is abused, symptoms and effects, sources, illicit markets, and the likely target groups. A prognosis is needed for planning prevention strategies, selecting target audiences, and allocating resources. Finally, a general prevention and public education effort is basic to preventing any type of drug abuse.

Cocaine abuse in the United States has been increasing for the past 15 years. Despite the high cost of cocaine, there has been a steady rise in the rate of its consumption over the past five years, primarily among the affluent middle and upper income classes. Cocaine has been promoted by irresponsible "hyping" among media entertainment personalities, by misleading

press reports about the harmlessness of "recreational" use, and by researchers and health professionals who misinterpret research findings and clinical observation. The damaging influence of the press and broadcast media in disseminating such misinformation can hardly be exaggerated. Although some responsible publications provide accurate information, many others treat the topic superficially and sensationally. Cocaine has become a "status" drug.

The National Narcotics Intelligence Consumers Committee report for 1980 verifies the "status drug" classification of cocaine. Although use among youths from 12 to 17 years old did not increase between 1979 and 1980, the 18-to-25 year age group showed an increase in the two preceeding years. That age group accounts for 60 percent of total cocaine used. The ratio of those who had ever used rose from 19.1 percent to 27.5 percent, those using in the past 12 months rose from 10.2 to 19.6 percent, and those using in the previous 30 days rose from 3.7 to 9.3 percent. These youths are either in college or out of school and are beyond the control of parents and other adults. Unless some specific measures aimed at reaching this group can be devised, or unless the supply of cocaine is cut substantially, this group can be expected to continue to abuse it. The prevention and education measures taken over the past decade that have shown their effectiveness in reducing marihuana use by high school seniors over the past three years cannot be used for these young adults. However, those same measures can be used to prevent those who will move into that age group in the next few years from being involved. This, together with the elimination of the present media and peer group pressures to abuse cocaine, can result in abuse reduction.

Cocaine has not yet been subjected to massive educational and prevention measures that have begun to reduce abuse of other drugs by school-age youth. The subheadlines in the Washington Post reporting a recent study by Yale University researchers read: "Recreational Use Found No Riskier than Alcohol or Tobacco: Heavy Use Enslaving." Letters to the editor by Dr. William Pollin, Director of the National Institute on Drug Abuse, and by the authors protesting this characterization were not given similar visibility. The study, of course, implied no such safe pattern of cocaine abuse. Once again, the media misled the reader.

This careless handling of the facts by the media has had a major impact on society's perception of cocaine. Too many believe, wrongly, that the drug is harmless when used recreationally. Recent deaths and injuries to well-known entertainers have also been reported in the press, and to its credit it has reported accurately the effects of cocaine. Yet it is only the sensational stories about the drug, or the spectacular seizures, which receive media attention. And its purpose in printing is not education but sensation. The Yale research pointed out that from 10 to 20 percent of "recreational" users of cocaine do "become enslaved" and that it is impossible to predict who will be affected.

Another unusual aspect of cocaine dealing and abuse is that because it is a drug of the "well-to-do," most of whom are not involved in other street crimes, police cannot easily infiltrate or recruit informers. Dealers keep the same clientele, many refuse new customers, and even keep prices stable despite illicit market fluctuations.

The dilemma is a serious one. It is difficult to deter cocaine abuse when there is widespread belief that it is harmless if used only occasionally; when its use is encouraged as "chic" by popular entertainers and the media; when researchers and clinicians disagree on the effects of occasional use; when the largest abusing group is comprised of young adults out of school with money to spend; when it is easily available, dealing is done in a semi-protected middle-class milieu, and victims of the drug can usually take care of their own dysfunctions or be cared for by others.

On the positive side, cocaine is expensive, and making it even more expensive by reducing the supply is a first, essential step. This means more effective enforcement. It also, equally important, means greater efforts to reduce coca cultivation in South America, interdiction of supplies before they reach the United States, and confiscation of the assets of drug financiers to eliminate their economic power and thus their ability to finance large-scale smuggling operations. This is a function of federal and international agencies. Without this enforcement and deterrence, prevention and education programs will be unlikely to succeed in the foreseeable future.

The major task of helping parents and educators do their jobs must be supported by a major effort to eliminate the "glamorization" of cocaine by media and entertainment figures. The importance of the President and Mrs. Reagan's personal leadership in the prevention effort cannot be overestimated. This has stimulated, and will continue to encourage, the efforts of parents and others throughout the country who have long sought such support. Turning around entertainers whose smirking references to drug abuse have enraged parents is an important step in reducing easy acceptance of drug abuse. Many young persons have been tempted to experiment, ignoring their parents and peers, whose views are too often neutralized by prevailing media-projected attitudes.

A second important step is to continue to increase drug education as part of school health and safety curricula at all levels. Drug education seems, at last, to be showing results. Because it is a long-term process, it must be continued without letup or the opportunity to reach youth is lost forever.

State regulations and local school district policies and procedures need to be updated to deal with today's drug problems. Without a strong, well communicated and enforced policy for dealing with drug abuse in the schools, they will remain vulnerable and potential sanctuaries for drug sellers and users.

Parents' groups throughout the country have at last won the attention of educators and are insisting that drug abuse and related disruptive behavior be dealt with, not ignored, by the schools. Their efforts have shown results in the reduction of marihuana and a leveling-off of other abuse. School administrators and teachers need no longer feel isolated in their concern and can join parents and community groups in a concerted effort.

The third, and no less critical, need in prevention and education is marshaling of those in the community who have responsibility for youth. Parents' groups are making themselves heard, and many schools are cooperating. But these alliances are fragile and need strong support from the police, schools, civic groups, religious organizations and local business communities. Professional counseling and treatment programs will continue to be needed to help drug abusers. However, the strongest deterrent to drug abuse is a united community determined to eliminate drug dealing and drug abuse. Over the years a permissive attitude has evolved that has permitted the involvement of youth in drug abuse and eroded the quality of life in many neighborhoods. The "head shops" for a decade defied community values until public outrage was expressed and a Model State Law drafted by DEA passed constitutional muster and began to force their elimination.

But all the head shops are not gone, their wares are being carried by other stores, youth still gather before and after school to use drugs, the petty dealer still exploits his friends with marihuana, look-alike drugs, PCP, and even cocaine. In the big cities, heroin dealing continues in and around the schools. New York has 177,000 heroin addicts, according to the most recent study. The fight against drug abuse is far from over. Indeed it can never be over as long as drugs are available and the unscrupulous can exploit the naive and adventurous among our youth.

Youth, however, cannot be considered merely helpless victims. They have responsibilities to themselves, to their friends and families, and to the community. Our overprotective society has misled many into believing that they have somehow been immune from personal responsibility for their own mistakes. Too many 18-year-olds, facing adult justice for the first time, have said, "Why didn't someone tell me?"

Parents' organizations, by implication and by specific action, have begun to address that task. Parents, they say, must require of their children responsible decisions, and behavior. In extreme cases organizations such as "Tough Love" have been formed to help parents learn to control their children when they have gone beyond tolerable limits. Young people are learning to accept responsibility for their own actions before the criminal justice system becomes involved. That, in the last analysis, is basic education for adulthood and citizenship.

The grassroots movement against drug abuse, spearheaded by over 3,000 organizations of parents, is the most promising and potentially effective drug abuse prevention effort mounted in the past decade. It has been supported by DEA, by NIDA, by two successive administrations in the White House, and it has grown into an important factor in the national prevention effort. These organizations have concentrated their efforts on marihuana, because that is the major drug of abuse among young children, and one of the "gateway" drugs that involves youth in drug abuse and the drug subculture. However, the increase in cocaine abuse has not escaped notice, and the appearance of another drug among the many already menacing our communities should be sufficient to stimulate action.

Mr. DORNAN of California. Mr. Speaker, this particular series of articles is called Counterattack on Cocaine. It includes, "The Strategy of Enforcement," by Ronald J. Caffrey; "International Initiatives," by Dominick L. DiCarlo, who served almost two decades in the New York State Legislature, a fine Assistant Secretary of State for Narcotics Matters. He is not just one of the finest, he is fantastic.

Another article is entitled "Health Hazards of Cocaine," by Sidney Cohen, M.D.

Another article, "Intellingence Trends, the Growth of Cocaine Abuse, Cocaine Trafficking Trends in Europe."

The jet setters of Europe are doing everything we do because now their gross national products, in aggregate, is more than the United States of America, so they have money to burn in spite of a recession. Unfortunately, it does not go to the poor people of our country. A lot of money is burned up, $80 billion worth.

As the President once said, if we could get income tax cheaters to stop, that is $100 billion; if we could stop the cocaine trafficking, that is a low figure, $80 billion, because who knows how many man hours are lost from death, from drunkenness, broken marriages, divorce, kids screwed up because their parents split up in their tender years when they need role models and guidance.

There is not a person with any econometric study ability that could ever put the ultimate price tag on the results of narcotics in this country. So let us just use the $80 billion. That $80 billion, and the income tax cheaters, that is the whole deficit of this country, and there are the problems of this country solved by just two issues, the cheaters on income tax and the cheaters in illegal narcotics.

□ 2210

Another article is on Colombia: South America's cocaine corruption. It does not mention the attempted murders of our two drug enforcement agents down there, Charlie Martinez and Kelly McCollum. I wish that agency had a Congressional Medal of Honor to give. I have never heard a more heroic story of survival, including some of my friends from Vietnam who crawled on their bellies for 30 days after being torn up, bailing out of airplanes. I do not know how any of them walked 12 miles with three 45-caliber slugs in them, a gun designed in the wars in 1911 to knock human beings down and kill then with one bullet.

"The Public Policy Response" is an article by Lee I. Dogoloff, who has appeared many times before Lester Wolf's committee when our former fine Member, great Member, was chairman of our Narcotics Committee, and has worked very closely with Chairman LEO ZEFERETTI.

The final article is, "Preventing Cocaine Abuse" by John H. Langer.

Mr. Speaker, I have one blind quote. As I said, I do not want to get into a contest with someone who has said some unfortunate things, but here is a quote from one of the more prominent actors on the evening news in politics. He said that in his opinion cocaine was not a life-threatening substance. He said he was against it; he saw that it hurt lives, but it was not like PCP. Well, there are people dying all across this country, not only speed balling like John Belushi, mixing it with heroin, but there are people literally dying from just cocaine use alone. They have become so addicted that the plastic surgeons in the Los Angeles area are having a heyday with people who are rotting out through the cocaine substance, snorting it through their nose, their septums and their nasal passages, and that is why some people are turning to the needle, injecting it directly into their veins.

So, I asked this prominent actor, "Let's he and I debate Nicaragua and poison gas in Afghanistan, and debate some other areas, but let's agree to agree on this issue, and let him be man enough and humble enough to say, 'I was wrong on cocaine and I learned it within the year when a comedic genius who had turned into a fine character actor, John Belushi, died because of cocaine.' "

We also have an Academy Award winning actor, while I was in South America, who was indicted for cocaine. This man was a role model to a lot of young people because he was the youngest man ever to win an Academy Award since Marlon Brando. He is in his twenties. I will not mention his name here in the hopes that, as a role model, he will see the light and begin to make, with his God-given acting talents, commercials, 30-second spots to convince other young people that all of this stuff kills. It kills a lot of innocent people on the highways, and "that's the name of that tune."

TRIBUTE TO KEN HOLLAND AND JOHN LIGHT NAPIER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from South Carolina (Mr. SPENCE) is recogized for 60 minutes.

GENERAL LEAVE

Mr. SPENCE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the subject of my special order tonight.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from South Carolina?

There was no objection.

Mr. SPENCE. Mr. Speaker, I welcome now the opportunity to pay tribute to my friend and colleague from South Carolina, the Honorable KEN HOLLAND, and to recognize him upon his retirement after nearly a decade of dedicated service to this House.

His intelligence, competence and insight are unmistakable to all who have known and worked with KEN. Indeed, his exceptional ability to comprehend and master complex issues has won him the enduring respect of his colleagues in the House, and on the Ways and Means Committee, and has earned him some of the toughest tax-writing assignments of this Congress.

KEN has brought to these tasks the same untiring energy, courage and determination with which he has addressed every major goal in life from the establishment of his journalistic and legal careers in South Carolina to his constant and dedicated service to the people of his district and State.

Immediately upon his first election in 1974, KEN began to distinguish himself as a powerful and capable proponent of the American textile industry which is so vital to the economic health and well-being of our State, and of the Nation as a whole.

Under his chairmanship, the fledgling Textile Caucus was molded into a strong cohesive force speaking for the real interests of our region and the industry, and fighting for fair and equitable trade practices in the world marketplace. He has, as many of you know, been the author of major legislation to make such trade practices a working reality.

The attributes of intelligence, energy and honesty are both extraordinary, and yet common, to many of the truly outstanding men and women who have served this body. Certainly, KEN is one of these individuals. But he is unique, beyond this, in the personal style that makes working with KEN HOLLAND a memorable experience and a pleasure.

They say that wit and wisdom are born with the man. And, over the years, I have served with very few who had a greater capacity to make true humor and wit the vehicle for wisdom and perspective.

As a poet and a pundit, KEN has a rare gift for communicating the great seriousness of conducting the people's business while, at the same time and with deep affection, revealing the vanities and visions which make the Members of the House just human and as noble as the citizens they serve.

As many of you may also know, KEN's heroes have always been country music singers and he is a pretty fair one himself, as the members of the Boll Weevil Jug Band can attest. In the words one Nashville great used to describe Jerry Jeff Walker, KEN's a poet and a prophet. He is also a picker—of the guitar, and a pusher—of the causes he believes in for his constituents and his country.

KEN has kept faith with his own principles and, in particular, his own determination that no request of his State, his constituents, or his colleagues be denied. He has been an honorable ally, a worthy opponent, and a most entertaining and talented colleague. He leaves behind a broad circle of friends in both parties and all

of us will be diminished by his departure.

I have no doubt, though, that the qualities which have marked his service here will bring him success and satisfaction in all his future endeavors. To him and to his lovely wife, Dianne, and their family, I wish Godspeed and good fortune in whatever the years may bring.

Mr. STOKES. Mr. Speaker, will the gentleman yield?

Mr. SPENCE. I yield to the gentleman from Ohio.

Mr. STOKES. Mr. Speaker, I thank my distinguished colleague, the gentleman from South Carolina and the ranking minority member of the House Committee on Standards of Official Conduct, Mr. SPENCE, for reserving this time to honor our friend and colleague—KEN HOLLAND. When KEN HOLLAND completes his career in the House at the end of the 97th Congress, this Congress and the Nation will be losing an exceptionally able and hardworking legislator.

Mr. Speaker, I have had the pleasure of working closely with KEN HOLLAND on the House Committee on Standards of Official Conduct, of which I am the chairman. As all of my colleagues know, this committee has been faced with some difficult questions and investigations over the last few years. The work of the committee has become an awesome and often unpleasant task for the members.

However, in Congressman KEN HOLLAND, I always found a man dedicated to the task of dealing efficiently and effectively with every issue brought to the attention of the House Committee on Standards of Official Conduct. He was always in attendance at every session of the committee. KEN always offered valuable insight into the committee's deliberations. In fact, he made our often difficult investigations easier because of his consistently good preparation, legal expertise, and ability to analyze complex situations. KEN's keen legal mind enables him to pierce the collateral issues and go right to the crux of an issue.

It is for this reason that I appointed KEN to chair a task force on revision of the House rules relating to the committee's rules. He has spent the greater part of this year on these rules and hopefully as a result of his painstaking efforts, our committee will be able to recommend some very important and much needed revisions in our rules to the 98th Congress.

Mr. Speaker, the same kind of attention to fine details and impeccable preparation applies to KEN HOLLAND's approach to his other committee assignment. He is a member of the powerful House Ways and Means Committee and serves on the Subcommittees on Select Revenue Measures and Health.

Through this committee assignment, Congressman HOLLAND has been a valuable asset to the people of not only South Carolina's Fifth Congressional District but also the entire State. Meticulously reviewing every legislative proposal submitted to the committee, KEN has worked vigorously to protect the textile industry in South Carolina from the threat of unfair foreign competition. On numerous occasions, KEN HOLLAND has come to the rescue of the textile industry in his home State.

In fact, Mr. Speaker, KEN is the outgoing chairman of the Congressional Textile Caucus. Members of that caucus can attest to the vigilance with which KEN HOLLAND negotiated special considerations for the domestic textile industry at the time the House considered the bill lowering trade barriers between the United States and other countries. The ability to deliver needed services to the people of his State has been the hallmark of Congressman HOLLAND's career in the House.

It is with those thoughts, Mr. Speaker, that I thank FLOYD SPENCE again for reserving this special order to honor one of the most dedicated men in this body—Congressman KEN HOLLAND. He has indeed distinguished himself in the House during his four terms and has amassed a list of achievements which will stand as a lasting tribute to him for many years to come.

Mr. SPENCE. Mr. Speaker, one of the most talented young Members of this body is JOHN NAPIER of the Sixth District of South Carolina. While I am saddened by this occasion, I count it a great privilege to join my colleagues in honoring this outstanding South Carolinian who will be leaving us at the end of this session.

Although JOHN is completing his first term as a Member of Congress, he has been an unusually skilled and capable freshman, far more knowledgeable than most in the institutions and purposes of Congress, having served on the staff of Senator STROM THURMOND and as minority counsel to the Senate's Special Committee on Official Conduct. In that capacity, he was instrumental in creating the U.S. Senate code of ethics.

JOHN also served as minority counsel to the Senate Veterans' Affairs Committee for nearly 3 years. On coming to the House, he put that experience and his own personal intelligence and diligence to work as a member of the House Veterans' Affairs Committee. He has also served admirably another critical interest of his district and State as a member of the Agriculture Committee.

In a spirit truly characteristic of the thoroughness and dedication with which he approaches every task, JOHN sought and found opportunities to serve his party as an assistant regional whip, and his region as the chairman on a special sunbelt caucus task force on preserving the maintenance and competitive ability of the South and the Nation's small- and medium-sized ports.

During the 97th Congress, JOHN has proved extraordinarily effective in guarding the interests and concerns of the people of the Sixth District of South Carolina. He has worked tirelessly to procure funding of Federal highway and beach erosion studies which will aid his district's important tourism industry. He has played a key role in forging a bipartisan coalition to retain the price support program for tobacco and in expediting funding for needed construction in Myrtle Beach Air Force Base.

While compiling one of the highest voting and attendance records in the delegation, JOHN has also offered thoughtful legislation to improve services for veterans and to aid the Nation's ailing housing industry and hard-pressed home buyers. He has fought, as well, to aid his district's steel industry in the battle against foreign competitiors.

This would be a remarkable list of accomplishments for the most senior Members of this body. It is then all the more to JOHN's credit that he has never swerved from his own natural modesty and unfailing willingness to do whatever is asked of him by his constituents and his colleagues.

His brand of patience, courage, and ability is rare and will be sorely missed by this House. I am gladdened by the certainty, though, that JOHN will continue to use these attributes for the good of our State and Nation wherever he goes and in whatever pursuits he undertakes. And I am confident that his friends and neighbors will recognize, and utilize them throughout his coming career, be it in public or in private service.

It is with genuine fondness and deepest appreciation that I bid him and his delightful wife Pam farewell for a time and pray for them God's greatest blessing for the future.

Mr. EMERSON. Mr. Speaker, will the gentleman yield?

Mr. SPENCE. I yield to Mr. EMERSON.

Mr. EMERSON. Mr. Speaker, I thank the gentleman for yielding. I want to take this opportunity to express my own gratitude for the service of JOHN NAPIER in this body.

We came to Congress as freshmen 2 years ago. We both fought very diligently to serve on the Agriculture Committee, where it has been my pleasure to be his seat mate. I can testify by working as closely with him as I have on many matters as to his effectiveness, his honest and thorough representation not only of his district, but

for all the people of South Carolina and the country.

It has been a real privilege for me to have been able to work with him as closely as we have on the Agriculture Committee. Moreover, my wife Jo Ann and I have gotten to be very good and close personal friends with JOHN and Pam. We, too, are saddened to see him leaving on this occasion. But, we do look forward to the future and to many close associations with him in the future.

We want to take this opportunity to wish both of them the very best of everything as they return to South Carolina and as JOHN resumes his career as a member of the bar.

Mr. SPENCE. I thank my colleague very much for his comments.

● Mr. FORD of Michigan. Mr. Speaker, I will miss KEN HOLLAND as both a friend and a colleague when he retires at the end of the 97th Congress. A respected Representative in Washington, KEN has ably served the people of both the Fifth District of South Carolina and the United States. Upon his arrival in the 94th Congress, KEN easily gained a grasp of the intricacies of the legislative process and the diversity of issues confront the Congress.

After his election, KEN gained a seat on the all-important Committee on Ways and Means. He is the senior Democrat on the committee from a textile district and has had a seat on the Trade Subcommittee. From this position, KEN became the leading spokesman for protecting the domestic textile market from being undercut by cheap foreign labor. Members on both sides of the aisle will miss the dedication and knowledge of KEN HOLLAND.●

● Mr. RUSSO. Mr. Speaker, you know, where I come from they warn you about country lawyers. It is a good warning because you learn, if you start off a little too smart alecky, big-city cool, you are going to find yourself real tickled over the good price you got on the icebox for your trip to the North Pole. You will be convinced you won.

Now Representative KEN HOLLAND came here with a reputation as a talented attorney and his work in the House proved it was a reputation well-deserved. He has been a most talented legislator as well as one of the people you knew you could count upon, whose word was good. And, as with some of my other Southern colleagues, I learn again that a soft-spoken manner may belie the inner toughness of Palmetto bark and the stick-tuitiveness of 3-day-old grits.

I admire KEN greatly. He is a delight to know as a human being,— charming and gracious and dependable. He has my respect because he is committed to what he underakes; he is a man of integrity and strong character. Certainly the folks of South Carolina can be very proud of him and the Congress can count itself fortunate to have had the use of his talents. He will be greatly missed here and I join with my colleagues in wishing him continued success.●

● Mr. GINN. Mr. Speaker, it is a pleasure to join with the many friends of KEN HOLLAND to wish him well on the occasion of his retirement.

KEN and I have developed a very close friendship during his 8 years in the Congress. Our States are neighbors, and he has been a good neighbor and colleague to me personally.

Our friendship has grown and I know that it will continue to grow in the years ahead. Beyond even that, my personal respect and admiration for KEN is very high.

As you know, Mr. Speaker, I am retiring from the Congress myself this year after 10 years' service. In that time, I have been privileged to make strong friendships among my colleagues.

KEN stands out among those friends. He does so because I have seen him tested under fire.

KEN is not a man who will dodge an issue. We all know that a few times each year, an issue or a vote will come before us for which there is no easy decision. We know that there are times when our abilities to lead are put to the test.

Some Members may take the easy way out. They may test the political winds of the moment and cover their actions in political rhetoric. But others, and KEN HOLLAND is prominently among them, never lose track of the fact that they were elected to make the hard decisions, not dodge them.

KEN stands out among us, Mr. Speaker, because he has the knowledge to find the right path, and the courage to stay on it. He does not run when the political shots are fired. He stands fast for what he believes in, and he is a respected and articulate spokesman for his cause.

KEN's greatest contributions to our membership have been in the complex issues of taxation, finance, and trade. He has applied himself to mastering the public policy issues involved in those areas. He has been generous with his time and talent in helping me and others take advantage of his expertise.

My good friend from South Carolina is a man who I have come to know as someone who I can rely on. I trust his judgment, and I trust his character.

There are Members among us who lead, and Members who follow. KEN HOLLAND is a leader today and he will always be a leader in whatever career and endeavor he may choose to follow in the future.

It is an honor to have served with him, and it will be an honor to continue to rely on his advice and wisdom for years to come.●

● Mr. FOUNTAIN. Mr. Speaker, I would like to take a moment and add a few words of praise in honor of our two distinguished colleagues, KEN HOLLAND and JOHN NAPIER from South Carolina.

Being a resident of South Carolina's neighboring and sister State of North Carolina, I can firmly attest to the fact that we have been fortunate indeed to have had such hard working and dedicated men as KEN and JOHN in this legislative body.

Although they are members of different political parties, KEN HOLLAND and JOHN NAPIER have both served South Carolina and the entire Nation in an exemplary manner.

KEN has been a leading member of the important House Committee on Ways and Means for a number of years, and he is the senior Democrat on the committee from a textile district. KEN has done an outstanding job on that committee's Trade Subcommittee, where his work has been of great vaule.

I come from an area where textile are vitally important, and KEN's help on textile issues has been invaluable. That expertise will be invaluable. KEN has played a vital role on a number of fronts, and I am proud to call him my friend. He is one of the ablest Members of the Congress. Even though I myself am leaving after 30 years here. I hate to see KEN leave. But my guess is that he may one day be back.

JOHN NAPIER has served a shorter time in the Congress, but I cannot recall a time when a freshman representative has had such a positive impact for his State.

JOHN played a difficult and extremely important role in the battle to preserve and strengthen the tobacco program—without his hard work together with a few others of us, we might very well have lost this crucial program.

Mr. Speaker, these two outstanding young men have served their State and Nation with devotion, unselfishness, and with great distinction. The 98th Congress will sorely miss their expertise and congressional abilities.

I hope both KEN and JOHN will continue to serve in other capacities. America needs the type of solid leadership which both men can provide.●

● Mr. HAMMERSCHMIDT. Mr. Speaker, I would like to add my own thanks and best wishes to the others being offered to my good friend and colleague, JOHN L. NAPIER.

I have had the pleasure of working on the Veterans' Affairs Committee with JOHN NAPIER during the 97th Congress. This association brought me the good fortune of having the opportunity to work closely with him.

As you know, Mr. Speaker, the Veterans' Affairs is for the most part a bi-

partisan committee, dedicated to the needs of those who have served our great Nation. Early in his tenure, JOHN won respect on both sides of the aisle. As one of the younger members of the committee, JOHN provided me, as well as the other committee members, with priceless and immeasurable knowledge on the many issues that come under the jurisdiction of the committee. He brought with him a voice of experience emanating in part from his tenure with Senator STROM THURMOND, and their work together on the Senate Veterans' Affairs Committee.

As colleagues on the Subcommittee on Compensation, Pension, and Insurance and the Subcommittee on Hospitals and Health Care, I have watched JOHN tirelessly tackle the issues that have meant so much to the well-being of our veterans.

JOHN also maintained a unique relationship of mutual respect with the committee staff members. He was extremely well-liked and known for his kindness. After serving together on two subcommittees, I can say his thoughtful insight and dedication will be sorely missed.

Mr. Speaker, JOHN NAPIER has made valuable contributions to our Congress and to the history of this country. I have great faith that he will proceed to serve his State and Nation with distinction.●

● Mr. ADDABBO. Mr. Speaker, I am pleased to join my colleagues today in honoring our friend and colleague, KEN HOLLAND, who will be leaving us at the end of this Congress.

KEN has served his constituents, the residents of the Fifth Congressional District of South Carolina, with distinction and dedication, and will be missed by them as well as this body. KEN was elected in November 1974, and will be remembered most for his tireless work on the Ways and Means Committee. As a member of this committee, KEN was given the enormous assignment of writing the revisions in the Democratic alternative to the 1981 tax bill, where his expertise in personal taxes proved a vital asset. In addition, KEN has served as chairman of the Textile Caucus, where he has pushed substantive legislation protecting the textile industry from import competition, and as a member of the Steel Caucus.

In a lighter vein, KEN will most certainly be missed for his sense of humor, and his talents as a poet and musician. As anyone who has heard the Boll Weevil Jug Band can attest, KEN's status as a country-musician has been firmly established. I join my colleagues in wishing KEN the best of luck in all his future endeavors.●

● Mr. GUARINI. Mr. Speaker, I rise to join our colleagues in praise of our friend from South Carolina, KEN HOLLAND, with whom I have worked on the Select Revenue Measures Subcommittee of the Ways and Means Committee. In addition to our committee work, I have had the pleasure of working with KEN on several bills which he and I cosponsored.

When I first joined the Ways and Means Committee as a freshman Congressman in 1979, I soon learned that KEN HOLLAND not only had a thorough understanding of the complex world of tax legislation and its ramifications, but that he was also willing to share his knowledge with new committee members. I very much appreciate the insights he gave me when I first came to the committee.

KEN HOLLAND has always been a leader in every sense of the word. The personal abilities which make up leadership were clearly in evidence last year when the Economic Recovery Tax Act of 1981 came to Ways and Means for its first House test. This was a period of diversity and discord, for we all remember the strong opinions registered on either side of this issue. KEN HOLLAND was a calm, reasoned voice during this time of contentious debate. Many members of Ways and Means sought his views. I shall always remember his grace, wisdom, and talent for leading, particularly during that period.

KEN's talent for leadership and knowledgeable discourse is well complemented by the keen sense of South Carolina humor he uses to color his commentary. That humor would cut the seriousness of the moment and was very much appreciated by his colleagues.

I offer KEN my warmest best wishes as he moves from the creation of law to the practice of law. I know we shall all miss him, for we are losing one of our most astute and accessible colleagues, he is a true American.●

● Mr. WHITLEY. Mr. Speaker, I want to join my colleagues in extending to my good friends, KEN HOLLAND and JOHN NAPIER, my very best wishes as they leave the House of Representatives to return to private life.

Both have served in an outstanding fashion and have been a credit to their districts, to their State and to themselves.

KEN brought wisdom, good sense, and a balanced approach to his duties and responsibilities as a member of the House Committee on Ways and Means and as chairman of the informal House Textile Caucus. He will be missed, and the House is a better place for his having served here.

JOHN NAPIER was a truly exceptional first-term Member and did yeoman duty in helping defend the tobacco price support and production control program when it came under extremely heavy attack during his tenure as a member of the Committee on Agriculture and its Subcommittee on Tobacco. It was my pleasure to work closely with him in these activities and also to be personally associated with him as we often flew on the same airplane in traveling back and forth between Washington and our congressional districts.

I wish to both KEN and JOHN Godspeed and fair winds as they change to new fields of endeavor. They will be respectfully and fondly remembered here.●

● Mr. MAZZOLI. Mr. Speaker, Representative HOLLAND from the Fifth District of South Carolina has been a conscientious and able Member of the House. KEN is a man of ability and skill and he has rendered a great service through his efforts. I wish him and his family much success in the future.●

● Mr. ANNUNZIO. I rise to join with my colleagues in paying tribute to the Honorable KEN HOLLAND, who has been a dedicated Member of the House of Representatives for the last 8 years. His tireless efforts on behalf of his constituents in the Fifth District of South Carolina, and on behalf of the citizens of the United States, are both respected and admired, and are most worthy of recognition.

Before coming to Congress, KEN served our country in the Army, and practiced law. He also was a member of the South Carolina Highway Commission from 1972 to 1974.

KEN HOLLAND has served in the Congress since 1975 with diligence and distinction as a member of the Subcommittee on Select Revenue Measures and the Subcommittee on Health of the House Ways and Means Committee, and as a member of the House Standards of Official Conduct Committee. He also has a record of outstanding achievement as the chairman of the Congressional Textile Caucus, and as a member of the Congressional Rural Caucus, a member of the steering committee of the Congressional Travel and Tourism Caucus, and as a member of the Congressional Steel Caucus.

KEN is a fine legislator, and a Congressman of compassion, courage, and patriotism, who has provided exemplary service to his constituents, and to the citizens of our Nation for the past 8 years. He will be missed by those of us in the House of Representatives who have had the pleasure of working with him.

I extend to KEN HOLLAND my best wishes for continued success in devotion to the highest principles.●

● Mr. SAM B. HALL, JR. Mr. Speaker, It has been said again and again that far too many Members of the body are retiring or seeking new horizons at an increasingly younger age. My good friend, KEN HOLLAND, is a case in point. After strong, effective representation for the past 8 years, he has decided to leave the House at an age in which traditionally Members of Con-

gress are being elected for the first time.

I am truly sorry that KEN HOLLAND is leaving. He has been a voice of moderation, a person always willing to listen to both sides of an argument. His service on the Ways and Means Committee has been exemplary, and I have come to rely on his expertise on the tremendously complex issues that come under the committee's jurisdiction.

His work as chairman of the Congressional Textile Caucus has been of great benefit to the millions of people whose livelihood in one way or the other is dependent on this industry. Cheap low-wage foreign imports have put an incredible number of our textile employees out of work, and a major force in stemming the tide of these imports is KEN HOLLAND. Textile employer and employee alike will be losing one of their best friends in Congress now that KEN HOLLAND is leaving.

As all of us know, KEN HOLLAND has a ready and quick wit. He is not a rancorous person. On the contrary, I have not run into anyone who did not have a genuine regard for him. He is a southern gentleman in the truest and finest sense of the word. I only wish that he would have decided to remain in Congress.

In the years ahead I predict we shall continue to hear and see good things from KEN HOLLAND. His personality, charm, good manners, keen perceptions are attributes that KEN HOLLAND will always bring to an association. I wish him well.●

● Mr. SENSENBRENNER. Mr. Speaker, at the end of this Congress, after four terms serving the Fifth Congressional District of South Carolina, Congressman HOLLAND has chosen to retire. I would like to join with my fellow colleagues in expressing my appreciation for having the opportunity to serve with KEN.

His dedication and concern for his district is reflected in his participation on the Congressional Textile Caucus, of which he is chairman. On this caucus, as well as on the Ways and Means Committee, KEN has worked hard to protect the textile industry, which is the bread and butter of the Fifth District. We can all learn how to better represent our constituents by taking note of KEN's activities in Congress.

The people of the Fifth Congressional District of South Carolina have lost an effective spokesman and representative. We honor KEN and wish him only the very best in the future.●

● Mr. RAHALL. Mr. Speaker, I am happy to join my colleague from South Carolina (Mr. SPENCE) in this special order for KEN HOLLAND. KEN, who has served his country, State, and district for 8 years with great dedication, I am sorry to say will be retiring from the Congress at the end of this session.

KEN HOLLAND is a man who speaks his mind, honestly, and frankly. As a member of the Ways and Means Committee, he has pulled no punches in his efforts in support of the industry which is so important to his Fifth District of South Carolina—the textile industry. He has fought unfair competition from foreign producers from his position on the Trade Subcommittee, and has further championed this cause as chairman of the Congressional Textile Caucus.

On an issue that takes even greater courage, KEN HOLLAND has made it a point to explain the financial hardships of being a Member of Congress.

KEN HOLLAND will certainly be missed by his colleagues in this House, and will be missed by the people he has represented since 1974. His career here has been unfortunately short, but it has certainly been one of accomplishment and I wish him the very best in his future endeavors. Our personal friendship shall remain no matter which avenue our careers may follow.●

● Mr. MURTHA. Mr. Speaker, with the retirement of KEN HOLLAND we will be losing one of the true leaders of Congress.

KEN has always been in the forefront of helping to solve the difficult problems facing Congress. During the 1981–82 tax-cut debate, KEN's leadership and skills were essential in finding a reasonable solution that maintained the overall fiscal integrity of the Nation.

KEN has been an eloquent spokesman for South Carolina and a dedicated member of the Ways and Means Committee. He has never avoided the tough issues; he has always been willing to work for what was best for the Nation.

His retirement takes away from Congress one of its outstanding Members. While he will be missed, I know I join with my colleagues in wishing him well, and thanking him for his outstanding service to the House of Representatives and the Nation.●

● Mr. BROYHILL. Mr. Speaker, when the 98th Congress convenes in January, two of our colleagues from South Carolina will not be with us. I am speaking of KEN HOLLAND and JOHN NAPIER.

It is with deep regret that I see these two outstanding Members of the House of Representatives returning to South Carolina.

KEN HOLLAND has been a tireless leader in his important role as the chairman of the Congressional Textile Caucus. It has been my privilege to serve with him as the vice chairman. KEN has always played it down the middle and has been a voice of moderation. He has been most effective and productive in his legislative activities, and his office has provided good constituent service for the people back home.

JOHN NAPIER is one of the brightest and most articulate freshman Congressmen I have known, and I regret very much that he was not reelected. He was running in a very tough district with an overwhelming registratin against him. However, he ran a strong race.

Louise and I will miss JOHN and Pam. They are fine people and we need more of their type in the Nation's Capital. JOHN has been an excellent Representative. Honest, fair, energetic, effective—these are just some of the attributes and adjectives I think of when I think of JOHN. I will miss him, and the Nation will be much poorer for his not being with us next year.●

● Mr. WOLF. Mr. Speaker, I join my colleagues today in paying special tribute to a fellow freshman classmate in the 97th Congress, JOHN L. NAPIER.

I deeply regret that JOHN will not be in the House when the 98th Congress convenes in a few weeks for over the past 2 years, he has distinguished himself as a hardworking, dedicated Member of this institution.

He is a man of intellect, ability, and unlimited potential whose leadership abilities won him a position in his first term as an assistant regional whip. JOHN NAPIER'S road to Congress included years of service with Senator STROM THURMOND and legislative counsel positions with several Senate committees.

He has dedicated most of his working life to serving the public. This Nation needs bright, young leaders such as JOHN NAPIER and I hope his future includes a role in public service.

It has been a privilege to serve with JOHN in the 97th Congress and I wish him success in the years ahead.●

● Mr. SENSENBRENNER. Mr. Speaker, at this time I would like to join with my colleagues in thanking Congressman JOHN NAPIER for his contributions to this institution.

While JOHN only served one term in the House of Representatives, he asserted himself in committee and on the floor to make his presence well known. JOHN was the consummate Congressman, being knowledgeable on all national issues but, at the same time, representing the parochial interests of his Sixth District. JOHN'S assignment to the Agriculture Committee enabled him to better serve the needs of his rural district. I am sure the tobacco and cotton farmers of the Sixth District and the entire State of South Carolina would not have faired so well on the 1981 farm bill had JOHN not fought on their behalf.

JOHN, my appreciation for your service to Congress and your constituents.●

● Mrs. HOLT. Mr. Speaker, our colleague JOHN NAPIER of South Carolina will not be returning for the 98th Congress. We will miss his wit and personable nature, but more importantly, we will miss his expertise and abilities. Serving as a member of the House Agriculture Committee, JOHN grasped the complex issues of regional agriculture and was most able in his efforts to balance the needs of his native South Carolina with the interests of other States. He is also well known for the work he performed in the other body, while on the staff of South Carolina's senior Senator. We will all miss JOHN and I wish him the very best in his future endeavors.●

● Mr. WEBER of Minnesota. Mr. Speaker, this body will lose a great representative of the people when JOHN NAPIER leaves at the end of the session.

JOHN has been a tremendous voice for rural America. I have worked closely with JOHN while he served on the House Agriculture Committee. He fought tirelessly to defend farm interests. And on the Subcommittee on Conservation, Credit, and Rural Development, JOHN was a champion for the rural cooperatives, working for a strong and vibrant REA program.

JOHN NAPIER not only worked for the people of this Nation, but he also took time from his busy schedule to meet constituents from other districts. I can remember that on two occasions JOHN came to meetings I sponsored for Minnesota Rural Electric Cooperative board members and general managers. At both meetings JOHN spoke about his work on the Agriculture Committee and our relationship as colleagues. His comments are still being talked about back in Minnesota. And I will never forget that he took the time to stop by.

JOHN has been more than just a Member of this body. He has given himself to the people of this Nation and has worked for principles and ideas which he believes in. He will be greatly missed.●

● Mr. HEFNER. Mr. Speaker, Congressman KEN HOLLAND of the Fifth District of South Carolina has become a special friend and colleague of mine in the Congress, and I want to take a moment to express my admiration for his efforts as he prepares to retire from the House.

Congressman HOLLAND and I were elected to the House in the so-called Watergate class of 1974, and we have worked together since then for the common goals of the two Carolinas. Both of us have served as members of the Congressional Travel and Tourism Caucus and the Congressional Textile Caucus. We have often worked together on projects for the Textile Caucus, of which he has served as chairman. I am extremely proud of the fact that both our districts have benefited from Congressman HOLLAND's leadership.

On occasions he has visited my district to say good things about me and my own work in the Congress. For those visits and his friendship and counsel, I will always be grateful.

Congressman HOLLAND has been successful at every endeavor he has ever undertaken. I know he will be immensely successful as he returns to his private law practice and private life. I wish him the very best.●

● Mr. BIAGGI. Mr. Speaker, I would like to take this opportunity to pay tribute to one of our colleagues who will be leaving this body next session—KEN HOLLAND. KEN has served the people of the Fifth District of South Carolina for the past four Congresses having been elected in 1974, and has been my neighbor in the Rayburn Building for the past 2 years.

KEN has been a most exemplary Member of the House, having served for 2 years on the House Public Works and Transportation Committee, then being named a member of the all powerful Committee on Ways and Means. KEN had made significant contributions to legislation which has shaped social policy in this Nation; social security, tax reform, medicare, and various other issues of great social and economic impact. KEN has also served well as the ranking South Carolina member of the Committee on Standards of Official Conduct.

KEN, as the representative for the 430,000 voters in his congressional district, has distinguished himself also as Chairman of the Congressional Textile Caucus. The Fifth District is a small, rural area in this country, yet strong and vocal in the textile industry. KEN's leadership in the Textile Caucus has been responsible for much positive legislation and reform in an industry that is vital to everyone of us in this Nation.

Although KEN has chosen to retire from this body, we shall still have the benefit of his Southern charm and hospitality as he begins work with a law firm here in Washington as well as forming one back in South Carolina. I hope KEN will now find more time to spend with his country band, the Boll Weevils, as well.

I know all join me in wishing KEN, his wife, Diane, and his entire family much luck in the future. I know it will be a bright one.●

● Mr. FUQUA. Mr. Speaker, two of our colleagues from South Carolina will be absent from this House at the start of the 98th Congress and I would like to take a moment to say goodbye and wish them well.

KEN HOLLAND and JOHN NAPIER have ably represented their constituents in this House and been strong advocates and defenders of the American way of life.

Each of these South Carolinians has contributed substantially to our deliberations, making our collective wisdom that much greater for their participation.

I wish each of these fine gentlemen great success in their future endeavors.●

● Mr. LEATH of Texas. Mr. Speaker, with the departure of KEN HOLLAND, we are losing a good friend and valued colleague. A few of us have an even greater sense of loss: We are losing a great singing partner. The harmony we have shared with KEN when we were gathered together to make music has been equaled only by the harmony we have known working with KEN as a trusted friend and dedicated American.

He is completely dependable and uncommonly generous with his time, his thoughts, and his efforts in behalf of the Congress and the people of the Fifth District of South Carolina. His contributions to this Nation are well documented and considerable.

KEN HOLLAND has chosen to leave public service. This is our loss and the private sector's gain. We will miss his abundant wit and energy and we wish him the best of all things in his new life. Our lives are richer because he is our friend and the Nation is better served because he came our way.●

□ 2220

TRIBUTES TO THE HONORABLE RON MOTTL AND THE HONORABLE BOB SHAMANSKY UPON THEIR DEPARTURE FROM CONGRESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio (Mr. STOKES) is recognized for 60 minutes, and without objection, and with the agreement of the two parties, the place of the gentleman from Ohio (Mr. ECKART) is exchanged for that of the gentleman from Ohio (Mr. STOKES).

There was no objection.

Mr. STOKES. Mr. Speaker, I take this special order this evening to provide the Members of the House an opportunity to salute two of our colleagues from Ohio upon their retirement from Congress—RON MOTTL and BOB SHAMANSKY. Both of these men have made invaluable contributions to this House during their time here. Both of them were hard working and dedicated Members of the Ohio delegation and were devoted to the representation of their congressional districts and the State of Ohio. And while we will miss both of them for different reasons, both RON and BOB will be missed. Each of them made many friends here and each leaves his own indelible imprint on this House.

First, I want to direct my remarks to my friend, RON.

RON, before coming to Congress, had served in the Ohio Legislature at the same time my brother, Carl, served in that body so I knew of him by reputation. Carl spoke highly of RON'S legislative skills and of the friendship they had enjoyed during their service together. In fact, RON has quite a distinguished career before ever coming to this body. As a lawyer, he had been an assistant law director for the city of Cleveland. He has been a member of the Parma City Council and had demonstrated his leadership by becoming president of that body. He then served one term in the Ohio Legislature as a State representative before being elected to the Ohio State Senate where he served 5 years. And so, RON had a very distinguished career before ever coming to Congress.

I will miss our early Monday morning flights out of Cleveland together which gave me the opportunity to really get to know RON. I appreciated that opportunity to know him because during his four terms in Congress, he and I have had strong differences on issues which were on the floor of the House. And those issues on occasions engendered heated debate on both sides of the issues. But while we have differed philosophically on issues we were never disagreeable nor did we let our philosophical differences interfere with our personal friendship. RON believed in the positions which he fought for and I respect him for that. I have never doubted his sincerity.

I also appreciate the cooperation and support he always gave me as dean of our delegation. RON believes strongly that regular meetings of our Democratic delegation and of our total delegation would enable us to do a better job of getting more Federal funds for our State. His dedication to delegation unity will in behalf of the State of Ohio will be remembered and appreciated.

Mr. Speaker, shortly after arriving in Washington, RON initiated what has become his hallmark back in the district—outstanding and constant service within the community. RON has been able to deliver the kind of one-on-one services to the people of Parma time and time again. He has maintained close ties with the folks back home and in fact can boast proudly that he never spent a weekend in Washington since he was elected.

Mr. Speaker, I said earlier that RON had made an indelible imprint on this body. As a member of the House Commerce Committee, RON teamed up with labor and consumer groups on many energy issues. He opposed President Carter's decision to remove price controls on crude oil and argued the consumer case against major oil companies before congressional committees.

Furthermore, he has gained a national reputation and national respect for his work on the House Veterans' Affairs Committee where he is the fifth ranking Democrat. On that committee, Mr. Speaker, RON serves as the chairman of the Hospitals and Health Care Subcommittee. When I think of veterans hospitals and legislation affecting them, the first name that comes to my mind is that of RON MOTTL. We need only to look at the list of his achievements on behalf of this Nation's veterans to justify that statement.

First, RON MOTTL was the force behind the investigation which led to the conviction of 33 persons on drug and other charges at the Wade Park and Brecksville Veterans Administration Hospitals in Cleveland. Second, it was RON MOTTL who won authorization for free medical care for veterans who may have been affected by agent orange. Third, VA doctors and nurses have this representative to thank for their upgraded pay scale. Fourth, RON MOTTL has been the guiding force in getting the Defense Department and the VA to agree to share medical facilities during national emergencies. And, the list of achievements, Mr. Speaker, in this area goes on and on.

In other initiatives during his four-term tenure, RON won passage of legislation requiring banks to pay interest on social security and income tax funds held by them. He has introduced H.R. 6427, the Motor Vehicle Title and Inspection Act of 1982 which I have informed RON that I will reintroduce and push in the 98th Congress.

Mr. Speaker, during the 8 years in the Congress, RON maintained a 92 percent voting participation record. When taking into consideration his active role with his constituents and the indelible mark he has made on key legislation, it is evident that RON MOTTL has literally given 110 percent of his energies and expertise to this body and this Nation.

I shall miss his talents, his expertise, and his friendship tremendously in the 98th Congress.

Mr. Speaker, we are also here this evening to salute the gentleman from Ohio's 12th Congressional District. Congressman BOB SHAMANSKY who will not be returning to the 98th Congress. BOB has been one of the most active Members of the 97th Congress. His aggressive action and sometimes witty statements on key legislation have earned him well deserved respect and a reputation as one of the brightest Members of the freshman class of the 97th Congress. As a freshman Congressman, BOB SHAMASKY rolled up his sleeves and went right to work.

He took the lead in opposition to the tobacco allocation and price support program and came close to defeating it. And because of his efforts, changes already have been made in the program.

Further, he took the lead in the House in introducing reforms to the manner in which social security trust fund investments are made. Even the most senior Members in the House have been leery of tackling this complicated and sensitive issue.

Furthermore, Mr. Speaker, BOB SHAMANSKY has been a champion in the area of housing legislation. He acted early upon arriving in the House offering legislation to stimulate the depressed housing industry. His major goal has been adequate and affordable housing for all Americans.

Additionally, BOB has been an activist in almost every piece of progressive legislation considered by the House. He consistently opposed funding for the Clinch River breeder reactor. He vigorously backed the extension of the Voting Rights Act and he is a cosponsor of the ERA amendment. Finally, BOB has stood for consumers in opposing special agricultural marketing orders and in supporting the FTC's disclosure rule on used car sales.

What has impressed me probably the most about BOB is his commitment to the disadvantaged in the Nation. When I looked in the CONGRESSIONAL RECORD to see how members of the Ohio delegation voted on legislation that affected minorities and the poor, every time, BOB SHAMANSKY went on record as voting for measures that would help the downtrodden in this Nation. These were not token efforts but a reflection of his sincere belief about the role of our Government. I thank BOB for that unceasing support.

Finally, as a member of the Foreign Affairs Committee, the Science and Technology Committee, and the House Select Committee on Aging, BOB SHAMANSKY has gained a reputation for his preparation and analytical skills. These skills and the willingness to serve the people of not only Ohio's 12th District but the entire State have earned my colleague, BOB SHAMANSKY, the respect of all of us in the delegation.

As dean of the Ohio Democratic delegation, I want to express to BOB my sincere and personal appreciation for his support in behalf of me and our delegation. Whenever I called a meeting, he was always there and always made a contribution in behalf of his constituency and his State. BOB is a very able and learned man who made a significant contribution to this Nation while serving in Congress. We will sorely miss him in the 98th Congress.

□ 2230

GENERAL LEAVE

Mr. STOKES. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the subject of this special order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. STOKES. Mr. Speaker, I now yield to my distinguished colleague from Ohio (Mr. ECKART).

Mr. ECKART. I thank my colleague from Cuyahoga County (Mr. STOKES) for yielding.

I thank the gentleman for his forbearance and I applaud him for his interest and for performing a public service in setting this time aside even at the end of a long day to take a few moments to acknowledge and chronicle for the public record the contributions of our friends and colleagues from Ohio.

I, too, join with my colleague, Mr. STOKES, in rising to pay tribute to the crewcutted, tall, best 14-foot jumpshot, and although his fast ball probably could not break a pane of glass in the last few years, the gentleman from Parma, Mr. MOTTL.

He was first elected to Congress in 1974, a year that was a time of political unrest and turmoil in our country.

With RON'S arrival to the Congress I think many of us acknowledged on the political scene in northeastern Ohio that truly the people of his district, his constituency was going to be heard, heard aggressively, heard vigorously and conscientiously.

Whether you agreed with the views of RON MOTTL or not, you knew precisely where he stood on the issues. There were no ifs, ands, or buts, for Congressman MOTTL was forthright and honest in dealing both with his constituents and his colleagues in the Congress. He represented his constituents to the very best of his ability and his office represented their needs to the best of their ability.

As a graduate of Notre Dame, RON was fond of constantly reminding us of the glories and victories of the Fighting Irish. In many respects RON'S commitment and contributions both on this floor, in his district, and in the extracurricular activities with which all of us as public servants must be involved, he represented those traits and attributes very well.

He was a legislative leader in the State assembly and he was a man whose opinions were respected and sought out by his colleagues in the Congress.

Many consumer groups have been well represented because of Congressman MOTTL'S aggressive advocacy as a member of the Energy and Commerce Committee. But not only must we reflect upon his individual contributions as a legislator but we must also take a moment or two to reflect on his personal commitments, for we are, after all, even as Members of Congress and public servants, still judged by how we commit ourselves to our family and to our friends. That perhaps, Mr. Speaker, best represents RON MOTTL'S commitment to people. His value of teamwork, his value of commitment to his family, was heard and seen every single day.

We will miss RON MOTTL. We will miss RON MOTTL from northeastern Ohio because, as I said to him every time I saw him, it looked like he just needed another haircut. But I am going to miss him as we get ready to face those tough Republicans in that annual baseball game that is coming up in just 6 short months.

As the newest Member of the northeastern Ohio congressional delegation I had a unique opportunity first to serve in the Congress with RON but also to serve as his catcher as we broke a Republican winning streak this past summer with a finely pitched game by my colleague from the city of Parma.

So just having been broken into the major leagues of congressional baseball, now I have to go and break in a new pitcher, RON. So I am going to miss you. But I can say one thing for sure, at least he will be able to see any signals when I am flashing the signs to him as we get ready for the next game.

I also want to take this opportunity, Mr. Speaker, to say a word or two about my friend from the city of Columbus, Ohio, BOB SHAMANSKY.

Teddy Roosevelt once coined an appropriate phrase after having visited the Buckeye State. He said, "There is only one thing I do not understand and that is Ohio politics."

BOB SHAMANSKY perhaps best represents that statement. It has been nearly 100 years since Teddy made that famous remark. But those of us familiar with Ohio politics still share his mystification on the inner workings of Ohio politics.

BOB is truly a case in point. BOB entered the political limelight at a difficult time. In 1980 it was difficult to run and more difficult to win as a Democrat. But we in Ohio remember that year well. We lost to the State senate to conservative Republicans. Ronald Reagan carried the State but BOB SHAMANSKY, armed with an enthusiasm, a wit, strong ideals, upset a long-standing Republican conservative institution in central Ohio.

Espousing progressive Democratic values, he conquered a veritable institution in one of Ohio's most conservative areas.

BOB'S record has been adequately and enthusiastically chronicled by my colleague from Cleveland, Congressman STOKES. BOB SHAMANSKY fought for what he thought was fair and knew what was right irrespective of the political consequences.

BOB SHAMANSKY fought so hard against the tobbaco subsidy that he became a household name in North Carolina.

One of BOB'S special interests was to provide incentives and rewards to help encourage American ingenuity and innovation. In 2 short years he worked hard and accomplished much.

Yet in 1982, as Teddy Roosevelt observed almost 100 years ago, the inexplicable twists and turns of Ohio politics were once again visited upon us and BOB SHAMANSKY was part of that twist and turn. Instead of winning my friend BOB SHAMANSKY lost. But, Mr. Speaker, he was not the only loser, for the people of central Ohio lost as well.

While we fail to understand, we will regret and never forget that BOB SHAMANSKY'S time in Congress, although short, was filled with rewards for him, for the people, and for his colleagues.

The Ohio delegation and all of Congress feel BOB SHAMANSKY'S loss deeply. He provided a fresh, aggressive voice for central Ohio and combined an innovative approach to policymaking with old-fashioned standards of public service.

We are sorry to see you leave this body, BOB, and we all join in wishing you the best.

With that, Mr. Speaker, I thank the gentleman from Cleveland again for yielding and applaud him for taking this time and yield back to the gentleman.

Mr. STOKES. I thank the gentleman from Ohio (Mr. ECKART) for his very eloquent comments on behalf of both of these distinguished legislators and I appreciate the contribution he has made.

Mr. Speaker, in closing I just want to say once again that the State of Ohio has been well served by these two gentlemen and this Nation has indeed been well served by them in this body.

I want to wish both of them the best in their new careers and say to them sincerely that we will miss you in this body and we appreciate the contributions you have made while you were here.

● Ms. OAKAR. Mr. Speaker, one of my colleagues from greater Cleveland will be leaving Congress this term and will be going back to private law practice. For 22 years, Congressman MOTTL has been a conscientious public servant.

Congressman MOTTL'S political career began as a Parma City Councilman, continued as president of the council and into the State legislature as a State representative and a State senator.

In my opinion Congressman MOTTL'S finest achievements have occurred in the very important support of our veterans, particularly the paralyzed and sick.

In addition, his colleagues have noted his great talents as the winning pitcher of the congressional ballgame.

Finally, I would be remiss if I did not mention RON'S devotion to his family. He regularly returned to his district

and was known to publicly show his love and devotion to his children.

All of us wish RON the very best of luck and good health for the future.●

● Mr. FUQUA. Mr. Speaker, two dedicated Congressmen from Ohio will be leaving our ranks when the 97th Congress adjourns and I appreciate the opportunity to honor Congressmen RON MOTTL and BOB SHAMANSKY on this occasion for their fine contributions during their terms in this House.

RON MOTTL joined our ranks from the 23d District of Ohio in 1974 and has distinguished himself in service on both the House Energy and Commerce Committee and the Committee on Veterans' Affairs where he has served as chairman of the Hospitals and Health Care Subcommittee.

BOB SHAMANSKY joined us just in 1980 from the 12th District of Ohio, and has served on the House Foreign Affairs Committee as well as the Committee on Science and Technology, which I have the honor to chair.

Both of these fine legislators have contributed significantly to the deliberations of this House and we will miss their enlightened comments in future Congresses.

I wish both RON MOTTL and BOB SHAMANSKY great success in all their future endeavors.●

● Mr. SAM B. HALL, JR. Mr. Speaker, my good friend, RON MOTTL, has been a dedicated servant of the people of the 23d District of Ohio. He is known far and wide as a constituent's Congressman who insists on taking the door-to-door approach to campaigning. He has enjoyed a very successful and active political career, and on the basis of his past political activity, I have the feeling we will hear more from him. I, for one, certainly hope so.

On the Veterans' Affairs Committee, where I have been privileged to sit with RON MOTTL for the past 6½ years, I can report that America's veterans have no finer friend than him. He has been in the forefront of every major piece of veterans legislation since coming to the committee, and our veterans will sorely miss his counsel and dedication to their well-being.

There have been times when we have disagreed on some of the legislative issues that have come out of the Commerce and Energy Committee, where again he has served with distinction. But, he has been an articulate and dedicated spokesman on this key committee. He tackles the tough issues and is not afraid to stand up and be counted. This is a trait that his constituents have come to expect, and while he did suffer a setback in this year's election, his has certainly enjoyed tremendous voter support in the past.

In addition to our mutual service on the Veterans' Affairs Committee, we have shared the concern of America's embattled steel industry. RON MOTTL has done yoeman service on the Steel Caucus. He understands the plight of our steelworkers. He has stood up for them and has fought to provide legislative solutions to the dual problems of foreign subsidization and foreign dumping of steel on our shores. We are going to miss his leadership and hard work on the Steel Caucus.

RON MOTTL will continue, I am certain, to be active in practical politics. He is a man of the people, and he likes helping people. You will never find RON MOTTL spending weekends in Washington. He spends every possible minute back in the Cleveland area talking to people and trying to help with their problems.

I know that our paths will continue to cross, and I count it a great honor to have served with RON MOTTL.●

● Mr. MICA. Mr. Speaker, I just want to take the opportunity to recognize the service in the 97th Congress of the Honorable BOB SHAMANSKY.

The gentleman from Ohio served with me on both the House Committee on Foreign Affairs and the House Committee on Aging. I always found his contributions to be helpful and sincere. His comments were always listened to with great care by the members of the committee, and his words gave us insight and understanding to some of the more difficult problems facing the Congress at this time in our Nation's history.

Mr. Speaker, the people of the 12th Congressional District of Ohio have been ably represented by BOB SHAMANSKY, and I want to salute his efforts during the 97th Congess.●

● Ms. OAKAR. Mr. Speaker, Congress is losing a brilliant attorney and truly industrious Member of Congress. Despite Columbus' Republican heritage, BOB SHAMANSKY won a striking victory in 1980 despite a Republican sweep across the Nation. I believe BOB has been a truly conscientious Member and has taken on very tough issues. I know he will continue to serve people and his country with great distinction. I wish him much success in the future and every best wish.●

● Mr. WAXMAN. Mr. Speaker, I take this opportunity to pay tribute to one of the hardest working and most dedicated Members of the House. I came to know RON MOTTL's abilities, and his friendship, through our work together on the Energy and Commerce Committee. That committee has more than its share of controversial issues, and the tendency is to ocassionally seek cover from the difficult fights. RON MOTTL never did this, and it was not long before I found he one of the most capable and reliable of allies.

This year I have spent much of my time on the reauthorization of the Clean Air Act. I cannot adequately describe RON'S invaluable contribution to the effort to maintain a strong Clean Air Act. As with all matters before the committee, RON studied and mastered the many issues, and then identified the public's interest. When he made clear his commitment to the act he received tremendous pressure to modify his views. Not only did RON stay firm in his commitment, but his friendship and abilities made my efforts much easier.

Some of RON'S outstanding achievements came in the health field. RON worked on health issues not only on the Energy and Commerce Committee, but through his chairmanship of the Hospitals and Health Care Subcommittee. RON'S tireless efforts on behalf of consumers benefited people around the Nation and will long be remembered.

Although I will miss RON'S friendship, I think it is even a greater loss to lose his legislative skill and dedication. RON came to Congress to represent and protect his constituents, and he has done this in the finest sense. While I will miss working with RON, I know he will meet with continued success in his law practice, and I hope he will be coming back to Washington often.●

● Mr. BROOKS. Mr. Speaker, I am delighted to have this opportunity to join with my colleagues today in underscoring the outstanding record of success that Congressman BOB SHAMANSKY established in the short 2 years he served with us.

I know Congressman SHAMANSKY has enormous ability and energy. He demonstrated the depth and seriousness of his commitment to the people of our country on many occasions. He is a man of action, a creative leader, and a hard worker.

Congressman SHAMANSKY is devoted and responsive to the people of Ohio. He has serve them well as a member of the House Foreign Affairs Committee, the House Science and Technology Committee, and the House Select Committee on Aging.

I appreciate his record of service and I know that I speak for my colleagues when I say that we are honored to have had him among us and we respect his many contributions to all of the people of our country.●

● Mr. MICA. Mr. Speaker, at the end of the 97th Congress, the Honorable RON MOTTL will leave the House of Representatives. The House is going to lose a truly distinguished Member, and a fine gentleman.

I have had the privilege of serving with RON MOTTL on the House Committee on Veterans' Affairs, and I know that we on that committee, as well as our Nation's veterans, will miss his leadership and dedication. Florida veterans, in particular, have had a fine friend in Congressman MOTTL, as he has been most helpful in my efforts to secure additional funds and services to

the veterans in Florida—many, no doubt, retired from his Cleveland, Ohio congressional district.

I know first hand of RON MOTTL's tireless efforts as chairman of the Veterans' Subcommittee on Hospitals and Health Care, and I want to wish him the very best in the full and active life he has yet in front of him.●

● Mr. LUKEN. Mr. Speaker, it gives me great pleasure to join with my colleague to pay tribute to an esteemed legislator, BOB SHAMANSKY. BOB has certainly rendered outstanding service to Ohio and this Nation and I am grateful for this opportunity to show my admiration and appreciation.

During the short time that BOB has served in the House, he has established a record of dedication, integrity, and hard work. As a member of the Science and Technology Committee, BOB played a major role in opposing the President's proposal to drastically reduce Federal funding for the National Science Foundation because of the impact the cuts would have on research institutions such as Ohio State. In addition, BOB was a champion of legislation to remedy the spiraling interest rate problems facing first-time homebuyers.

Time and time again, BOB has demonstrated his strong leadership abilities in the House, as an effective manager of an amendment against price supports for tobacco and as an influential member of the Foreign Affairs Committee.

BOB's achievements reflect his sincere interest in people and his strong concern for the welfare of our Nation. His service to the people of Ohio and the Nation as a whole are a tribute to his sense of duty.

BOB will be sorely missed by all of us who have had the privilege to work with him. I join with my colleagues in wishing him a fruitful and happy life in his future endeavors. If he decides to come back to this body we will be grateful and the Republic will be well served.●

● Mr. CARMAN. Mr. Speaker, I rise today on the occasion of the retirement from the House of Representatives of RON MOTTL and BOB SHAMANSKY.

RON MOTTL was first elected to the Congress in 1974 and has been a Member ever since. BOB SHAMANSKY, like me, was a Member of the class of 1980. I have enjoyed working with both of these gentlemen as fellow Members of the House of Representatives. I extend to RON and to BOB my best wishes for their future endeavors. I am certain they will both be successful in whatever they may do.●

● Mr. HALL of Ohio. Mr. Speaker, I rise to pay tribute to two of my colleagues from Ohio who will be retiring at the close of the 97th Congress, Congressman BOB SHAMANSKY and Congressman RON MOTTL. It has been my privilege to work with these distinguished men who have faithfully served the people of the State of Ohio. Their voices will be sorely missed by the Members of this body.

Congressman SHAMANSKY was an outspoken opponent of wasteful Government subsidies. As a member of the Science and Technology Committee, he has worked to promote energy savings through more fuel efficient automobiles. He was a tireless worker, quick, and witty. The Ohio delegation has lost a potential leader with BOB's departure.

Congressman RON MOTTL will always be known for his independent thinking and close ties to his roots in Parma. As a member of the Commerce Committee, he actively pursued the interest of workers and consumers. I have enjoyed my association with him, which goes back to our days when we served together in the Ohio General Assembly. The annual congressional baseball game will never be the same without RON on the mound.

Good luck to both of you in your future careers.●

● Mr. MAZZOLI. Mr. Speaker, my good friend and colleague RON MOTTL has served in the House with distinction. RON is noted for his work on the House Veterans' Committee, but he will long be remembered for his baseball heroics each summer as the Democrat retreads would take on the Republican retreads.

Another tie bonds RON and me—we are both alumni of the University of Notre Dame. I hate to see the ranks of Notre Dame people on the Hill diminish, but I know RON will come back to visit us often.

I extend to RON, his wife Debra, and his family best wishes for much success.●

● Mr. SENSENBRENNER. Mr. Speaker, I would like to join with my colleagues in recognizing the dedication with which RON MOTTL has served this Congress since first taking office in 1974.

During the course of his tenure in Congress RON MOTTL served with distinction as a member of the House Energy and Commerce Committee and the House Veterans' Affairs Committee, on which he chaired the Hospital and Health Care Subcommittee.

His persistant drive on such issues as antibusing and a national minimum education standard have shown his willingness to tackle issues head on. This straightforward approach, combined with his close constituent rapport, have made RON MOTTL an articulate spokesman for Ohio's 23d Congressional District.

In closing, I know many Members who will breath a sigh of relief in escaping the "unhittable breaking ball" that has tantalized the opposing hitters in the annual congressional hardball games. I join with my fellow colleagues in honoring the distinguished service of RON MOTTL.●

● Mr. RUSSO. Mr. Speaker, I am pleased to join my colleagues in paying tribute to Representative RON MOTTL, but I do not enjoy saying "goodbye" to him. After all, we are going to really miss a man who can play fair and square, pitch fast and hard, or slow and steady depending on what is required—on and off the baseball diamond.

He truly is a most valuable player—a man who has inspired the younger ballpayers. He is personable and independent-minded. I have always admired his tenacity in sticking with a cause and this quality has served his constituency well. His commitment to his work has served the Congress well.

Of course, I am sure RON has learned a great deal from me also—like consistency. As gently and persistently as he might ask that I try to learn to hit the first baseman's glove, I never wavered in my overthrow from third. RON is good at problem solving so there was talk of him serving as the link between first and third, but since I have not learned RON's steady and practical pace yet, I did not give up my consistent pattern. Given RON's patience and, as I said, tenacity, I think he could have eventually trained me. At any rate, I did learn some valuable lessons from him and my special tribute to RON will be to remember them next year.

We are going to miss RON here because he has been a good Congressman and a good friend. But today we are merely giving a big round of applause to a talented player leaving the field, not the arena.●

● Mr. LUKEN. Mr. Speaker, I would like to thank my good friend from Ohio, Mr. STOKES, for taking out this special order today so that we in this body can pay tribute to our distinguished colleague, RON MOTTL.

During his 8 years of service in Congress, RON has provided excellent representation for his constituents in the 23d District of Ohio. He has worked tirelessly on both national and local issues, which has contributed to his expertise in various legislative areas. His knowledge and hard work will be missed in this Chamber and on the Energy and Commerce Committee.

I know we all wish the best for RON in his future endeavors. Whatever he does, he will do with enthusiasm and will distinguish himself as he did here.

RON distinguished himself as a Representative of the individual American, the individual Ohioan. As a lawyer, RON never forgot the rights of the individual. His beacon in this legislative jungle was the rights of the people, the individuals who came into contact with the governmental processes. RON respected the person, the

individual, and that is the essence of constitutional government.

We will miss his energy and his initiative in defending civil liberties. We respect him as do the millions of people he fought for.●

● Mr. MAZZOLI. Mr. Speaker, BOB SHAMANSKY of the 12th District of Ohio has been a dedicated legislator during the 97th Congress. Throughout our brief association I have always recognized BOB to be conscientious, diligent, and one who has served his district well.●

● Mrs. HOLT. Mr. Speaker, at the close of the 97th Congress we will be losing RON MOTTL, a fine gentleman and able legislator who has served in this House with distinction since 1974. While representing Ohio's 23d Congressional District, RON has also served on the House Veterans' Affairs, as chairman of the Hospitals and Health Care Subcommittee, and in that position has been very instrumental in assuring quality facilities and service for the deliverance of health care to our veterans. We will all miss Representative MOTTL, and I am sure we all wish him the best of luck.●

● Mr. ROE. Mr. Speaker, I rise today to salute RON MOTTL and BOB SHAMANSKY, two fine lawmakers from the great State of Ohio who, unfortunately, will not be returning to Congress next year.

RON MOTTL has raised his strong voice on this floor many times in support of key issues vital not only to his congressional district, but to the entire Nation.

He has become known as a true champion of the consumer. RON was a leader in the battle to keep price controls on crude oil and spoke out vehemently at Energy and Commerce Committee meetings against the tax giveaways being granted to the major oil companies.

Though BOB SHAMANSKY has only been with us for one term, he has established a firm reputation as a hard-working Member of Congress, dedicated to the needs of his constituents and his country.

BOB and I serve together on the House Science and Technology Committee. Like myself, most Members of that panel have been highly impressed with BOB's quick grasp of the highly technical matters that body deals with. He has been a widely recognized leader in the fight to save Federal health funds from the administration's cutting board.

RON MOTTL and BOB SHAMANSKY have made their voices count and it would not surprise me if some time in the not very distant future they will once again be serving at our side.●

● Mr. ADDABBO. Mr. Speaker, I am pleased to join my colleagues today in paying tribute to our friend and colleague, RON MOTTL, as he prepares to leave this Congress.

RON has served the residents of the 23d Congressional District of Ohio for 8 years now, and has left a lengthy list of acomplishments of which his constituents can be proud. As chairman of the Subcommittee on Hospitals and Health Care of the Veterans' Affairs Committee, he authorized free medical care for veterans who may been affected by exposure to agent orange defoliant in Vietnam, upgraded the pay of VA doctors and nurses, and added a Regional Medical Education Center to local VA hospitals in Ohio, resulting in many new jobs. RON also prevented the Department of Energy from conducting tests in the salt mines under Lake Erie which would have led to the storage of nuclear wastes, and had the Environmental Protection Agency clean up a hazardous chemical waste dump near downtown Cleveland.

RON has served this Nation with patriotism and loyalty, this House with distinction and fervor, and his constituents with tireless hard work and dedication. He will be missed by all.●

● Mr. DWYER. Mr. Speaker, it is an honor for me to take part in today's tribute to BOB SHAMANSKY, one of my colleagues in the 97th congressional class for whom I hold a deep respect.

In his term as a Member of this body, BOB SHAMANSKY has proven to be a fine Congressman and a dedicated spokesman for the people of Ohio's 12th District.

As a member of the Committees on Foreign Affairs, Science and Technology and Aging, Congressman SHAMANSKY has made a solid contibution to our work in these key areas. His insights will be sorely missed.

It has been my privilege to serve with BOB over these 2 years. I want to thank Congressman ECKART for calling this special order so that we may extend our very best wishes to our esteemed colleague from Ohio.●

● Mr. REGULA. Mr. Speaker, I join my colleagues in honoring Congressman RON MOTTL who will be leaving us this month at the end of the 97th Congress.

I have been privileged to have worked with RON since 1974 as a member of the Ohio delegation to this body and, prior to that, for several years in the Ohio Senate.

RON has brought to his stewardship strong convictions which he sturdily advocated and defended. His independence made him very much his own man.

I can, with conviction and enthusiasm therefore, add my voice to the many paying tribute to this energetic fellow Buckeye who has served the people of his district and his State with distinction.

RON MOTTL has been a dedicated legislator and representative of the people of Ohio's 23d District. These words of recognition being heard today are fitting testimony to his service in the House.●

● Mr. MONTGOMERY. Mr. Speaker, I am honored to be able to take part today in this special order on the distinguished Congressman from Ohio, RON MOTTL.

He was elected to the House after a long and successful career in Ohio State politics. Since coming to Washington, RON has continued to serve his State and especially the people of the 23d District in Cuyahoga County.

I have become good friends with RON and I know he has earned the respect of his peers here in this Chamber. He will certainly be missed for the great contributions he made to the committees on which he served. RON was an active member of the Energy and Commerce Committee. I worked closely with him on the Veterans' Affairs Committee and I can say that his leadership on behalf of the veteran and on veterans issues has been most helpful to me as chairman and to the entire committee. RON was a most capable chairman of the Subcommittee on Hospitals and Health Care, and he served on the Housing and Memorial Affairs Subcommittee as well.

RON has wide-ranging knowledge of the political process after having served as city councilman, State representative, State senator and U.S. Congressman. This great experience will be missed when the 98th Congress convenes.

I know RON will continue to be a strong political voice in the Democratic Party in Ohio and on the national level. I want to wish the very best for RON and his family in the future. He will be missed on Capitol Hill.●

● Mr. RHODES. Mr. Speaker, I am pleased to join in the special order paying tribute to Congressman RON MOTTL.

RON has been a very hard-working Member of the House. He has courageously championed some very controversial causes, not shying away from them simply because they were contentious.

He has been a tireless worker on behalf of his constituents—but was always mindful of the part we all must play in resolving issues affecting the entire country.

Certainly the people of the 23d District of Ohio will miss Congressman MOTTL, as will his many friends who served with him in the House.

I wish RON well in his future endeavors.●

NATURAL GAS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Illinois (Mr. CORCORAN) is recognized for 15 minutes.

● Mr. CORCORAN. Mr. Speaker, I am very concerned that in order to do

something about natural gas prices, Congress may do something that will hurt consumers instead of helping them. I am talking about a natural gas wellhead price freeze.

The same Federal regulation that has caused the natural gas market to give us rising prices, even while demand is falling, will make any wellhead natural gas price freeze at best useless and at worst harmful to natural gas consumers.

First, due to the changing mix of pipeline supply, including the gradual depletion of older reservoirs, the average cost of supplies to pipelines will continue to increase significantly, even if individual category prices are frozen. In other words, the relative importance—price effect—of the higher cost gas categories will continue to increase while the lower price categories will continue to decrease; although the price ceiling for each category was unchanged, increasing volumes of gas from the higher priced categories would continue to push burner-tip prices up.

This point is illustrated by determining what the average price would have been had a freeze been imposed, say, 18 months ago. As detailed below, the average price of gas at the wellhead would have continued to increase in real terms by 10 to 12 percent.

Table I of the Department of Energy's "Analysis of Post-NGPA Interstate Pipeline Wellhead Purchases," DOE-EIA-0357, published in September 1982, shows gas purchase volumes and prices as reflected in pipline filings. Over the last 18 to 24 months, the average price of gas purchased by the pipelines rose from $2.01 per mcf in mid-1981 to $2.19 by late 1981 to early 1982, and to $2.35 by mid-1982—all prices in constant January 1982 dollars.

If wellhead prices for each category of gas had been frozen at the mid-1981 levels, the average price of gas would nonetheless have risen significantly. The increase would have been from $2.01 per mcf to $2.10 in the latter half of 1981, amounting to a 9 percent annual rate of increase in real terms, over and above inflation. Over the course of 1 year—from mid-1981 to mid-1982—the price would have increased from $2.01 per mcf to $2.22, resulting in a 10.5-percent increase over inflation. Finally, if wellhead prices had been frozen at early 1981 levels, average gas prices would have risen from $2.19 per mcf to $2.32 by midyear, an annual rate of increase slightly in excess of 12 percent, again in noninflated dollars. Not only do average gas prices go up despite the wellhead freeze, but the rate of increase would have accelerated, due to the changing supply mix.

Finally, a small amount of gas would be deregulated during the period of the freeze. The amount of deregulated gas would increase significantly on January 1, 1985, when currently deregulated gas from pre-December 2, 1982, wells, was again deregulated.

Imported gas would, of course, not be subject to a domestic wellhead price freeze. Indeed, the subsidy available for these imports would be increased, lessening the significant downward pressure which the current market is exerting on those prices.

Any effect the freeze might have, moreover, would be delayed by operation of the purchased gas adjustment (PGA) mechanism. In general, PGA's are filed on a semiannual basis and the bulk of the pipeline companies have already put their winter rates into effect. Consumers served through these companies would not see the impact of the freeze until late spring, when the next PGA becomes effective. At that time, to the extent that the pipeline has overcollected for gas costs during the presently effective PGA, the excess would be credited with interest.

For pipelines which file between January and April, the effects of the freeze will be reflected in the pipeline's rates to its distribution customers in the first bill following that effective date. Finally, there are a few companies who file PGA's on an annual basis: one files in December. The customers of this company will not see the impact of the freeze for at least 12 months.

SUPPLY/DEMAND BALANCE

Natural gas markets could tighten during the second year of the freeze and in the period 1985-86. On the supply side, some prospects that would have been exploited without the price freeze will not be exploited.

On the demand side, the current natural gas surplus is due to the recession as well as to conservation and switching. Demand can be expected to increase during the 1983-86 period. The average regulated price, therefore, might again be substantially below the market-clearing level. If so, the excess demand would be reflected in some combination of: First, curtailments of some kind or another; second, bidding the price of deregulated gas above the market-clearing level; and third, increased imports.

In case you think these three possibilities are "not so bad": First, is the shortage of 1977 that crippled the midwest during a bitterly cold winter; second, describes today's natural gas market in many areas; and third, would promise an increase in some of the highest cost gas we have—Canadian gas at $4.94, Mexican gas at $5.01 and regasified Algerian at $7.18.

Freezing natural gas wellhead prices will freeze our constituents, not their gas bills. Congress can do better, but not if we duck the hard work that lies ahead of us in straightening out an industry distorted beyond all economic sanity by well-intentioned but hopelessly malfunctioning Federal regulation.

TRIBUTE TO THE HONORABLE SHIRLEY CHISHOLM

The SPEAKER pro tempore. Under a previous order of the House, the gentlewomen from New York (Ms. FERRARO) is recognized for 60 minutes.

Ms. FERRARO. Mr. Speaker, the 98th Congress which convenes in January will make history.

This new Congress will contain more women Members and more minority Members than any previous Congress in American history.

SHIRLEY CHISHOLM made history when she arrived in this Chamber in 1969. We are proud to honor her today. But I am sad that she will not be a part of the 98th Congress.

I think it can be truly said that without SHIRLEY CHISHOLM, the next Congress would not be reaching a new pinnacle in the history of civil rights in America.

SHIRLEY CHISHOLM has been a pioneer in every sense of the word.

Starting her career as a schoolteacher, as I did, SHIRLEY CHISHOLM made her mark in the New York State Assembly before her election to Congress in 1968. As we shall hear so often here tonight, she was the first black woman ever elected to this body.

Being a first of anything is not easy. SHIRLEY was swamped with interviews and speaking engagements. She had to overcome the resentment of some of her colleagues over the publicity that just naturally flowed in her direction.

Like any woman, and every black person, she had to prove, over and over again that she was qualified to play her historic role. Every move, every legislative initiative, every speech was analyzed—not just by SHIRLEY's Brooklyn constituents—those people for whom she worked so hard—but by a national audience.

For some people, being a "first" once would be enough. But SHIRLEY CHISHOLM was not content to rest on her laurels.

In 1972, she achieved another important first. She became the first black woman to enter the Presidential primaries of the Democratic Party. She received 152 first ballot votes—finishing ahead of Hubert Humphrey and Edward Muskie.

SHIRLEY CHISHOLM entered the primaries because of her disgust with the war in Vietnam and her opposition to national priorities which, she felt, put weapon development ahead of human needs.

She has never wavered. In her maiden speech in this Congress—a speech which branded SHIRLEY CHISHOLM forever as a "pepperpot"—Congresswoman CHISHOLM said she would

vote for no defense appropriation until such a time "as our values and priorities have been turned right side up again."

True to her word, true to her ideals, SHIRLEY CHISHOLM yesterday cast one of the last votes of her congressional career against the 1983 Defense appropriations bill.

In announcing last summer that she would not seek an eighth term, SHIRLEY CHISHOLM told us that she was only retiring from Congress, not from the causes for which she has fought—causes like child care, legal services for the poor, education for the handicapped, women's rights.

Knowing SHIRLEY CHISHOLM, I know her voice will not be silenced. But I know I will miss, and the American people will miss, hearing that great voice come from here—the Congress of the United States.

● Mr. BOLLING. Mr. Speaker, I take this opportunity to express my deepest admiration for an excellent member of the Rules Committee, SHIRLEY CHISHOLM. I was instrumental in getting her assigned to serve on the committee. Her work on the committee has continued in the same style I had previously observed. SHIRLEY is a fighter who understands and can sustain the battle on all fronts. She is committed to those causes in which she believes and focuses all her energy on continuing when others begin to lag. I have had great personal satisfaction as chairman of the committee working with SHIRLEY. Her district, the many constituencies she represents, and the House will miss her dynamic presence.●

● Mrs. HOLT. Mr. Speaker, SHIRLEY CHISHOLM is retiring at the end of the 97th Congress. SHIRLEY has not only been outspoken in her support of womens' issues, she has been very successful in helping to achieve the progress women have enjoyed in recent years. We will miss her activism and, or course, her legislative abilities. She has served her district and our Nation with distinction. I wish her the best of luck and much happiness.●

● Mr. STOKES. Mr. Speaker, I thank my distinguished colleagues from the great State of New York, Ms. FERRARO and Mr. RANGEL, for reserving this time so Members can honor one of the most outspoken, hard working and courageous Members of this body—SHIRLEY CHISHOLM. As we all know, Mr. Speaker, my colleague and good friend, SHIRLEY CHISHOLM, will be retiring from the House of Representatives at the end of the 97th Congress. I, my colleagues in the Congressional Black Caucus and the politically voiceless will greatly miss "Mrs. C.", as many affectionately call her, for her tireless efforts on behalf of the poor and downtrodden around the world.

Mr. Speaker, my remarks would be incomplete if I did not say that I feel a special loss on the retirement of SHIRLEY CHISHOLM. SHIRLEY, BILL CLAY, and I entered the Congress together in 1969. All three of us came to Capitol Hill with great ambitions of what we wanted to accomplish not only on behalf of our respective constituencies, but also on behalf of minorities and the poor in this Nation. In my mind, Mr. Speaker, SHIRLEY CHISHOLM never lost sight of that ambition during her seven terms in the House of Representatives. Instead, this burning desire to help the helpless of this Nation sparked a flame within SHIRLEY which propelled her into becoming a hard-hitting, efficient, vocal, and effective Members of the House. On this occasion, I applaud SHIRLEY for her tireless efforts over the years.

When I say SHIRLEY CHISHOLM is a woman of many firsts, Members on both sides of the aisles know we need only look at her public service career to substantiate that.

SHIRLEY CHISHOLM is the senior Democratic woman in the House of Representatives. She is the first black woman and an original member of the Congressional Black Caucus. She is the only woman to serve on the House Rules Committee. She was the first black woman in 1972 to campaign actively for the Democratic Party nomination for the Presidency. In other words, Mr. Speaker, SHIRLEY CHISHOLM is politically powerful, a pioneer, and a leader in her own right.

Representing the 12th Congressional District of New York, SHIRLEY CHISHOLM has made an indelible mark on major legislation in the Congress especially in the area of education. From the vantagepoint of her training as an educator and 6 years of service on the House Education and Labor Committee, SHIRLEY CHISHOLM was the primary advocate for education programs on Capitol Hill. On issues from financial aid, to black colleges, to compensatory education programs, to Head Start, SHIRLEY has been at the forefront of the fight to save and strengthen these vital programs.

Mr. Speaker, Haitian refugees, American Indians, migrant farmworkers, minorities and the poor, have found in SHIRLEY CHISHOLM a valuable ally in the Congress. Mr. Speaker, she has been a master at working with Members to garner support for these groups. When that approach was not successful, SHIRLEY has taken case to the American people. In doing so, SHIRLEY's name has become a household word and she has gained the respect of people from every segment of the Nation.

Finally, as a member of the important House Rules Committee, SHIRLEY CHISHOLM has left her own unique mark on key measures on legislation acted on by the House of Representatives. She is the fourth ranking Democrat on the committee and one of the most respected members on this powerful committee.

Talented, intelligent, articulate, charismatic, courageous, and tireless are all words which describe my good friend, SHIRLEY CHISHOLM. As the title of her autobiography suggests, SHIRLEY, during her tenure in Congress, truly has been "unbrought and unbossed." Mr. Speaker, I feel fortunate to have had the opportunity to serve in this Congress with SHIRLEY and to work with her in the Congressional Black Caucus.

Although I will miss her greatly in the 98th Congress, I know that we all will be hearing from her as she takes her crusade on behalf of just causes to the people of this Nation and around the world.●

● Mr. RODINO. Mr. Speaker, it is with great respect and admiration that I join my colleagues in paying tribute to SHIRLEY CHISHOLM as she prepares to leave the House at the end of this term.

She has been a good friend and wise counselor to me ever since she entered Congress in 1969, and her work on the Education and Labor Committee and the Rules Committee have been marked by extraordinary dedication to fighting for the rights of those who have long been denied equal opportunity in employment, education, housing, and other areas of life.

As a congressional leader, a social activist, and outspoken soldier in the battle against racial injustice, SHIRLEY CHISHOLM has symbolized the struggle and achievements of all Americans who have suffered from deprivation and discrimination. She has championed legislation establishing the minimum wage, Federal subsidies for day care, targeted education aid to economically disavantaged youth, and compensatory education. She has been on the front lines of all our civil rights battles.

The American Indians, the Haitians, the poor, the elderly, the blacks, the Hispanics, and all other American minorities look to SHIRLEY CHISHOLM as their voice in Congress. And an eloquent and powerful voice she is. Congresswoman CHISHOLM's courage, determination, and compassion has become legend in these Halls, and I am proud to have served with the gentlelady from New York.

We are not saying goodby to SHIRLEY CHISHOLM, but are anticipating that she will be using her intelligence and vitality to continue her fight for social justice in America.●

● Mr. ERLENBORN. Mr. Speaker, I welcome the opportunity we have today to tell the gentlelady from New York (Mrs. CHISHOLM) how much we think of her.

Mrs. CHISHOLM has often been a worthy opponent, and she has also been an occasional and welcome ally.

She has always been her own person, an independent, free spirit, and for that she certainly has my admiration and respect.

It has been a privilege to know her and to work with her, and I wish her happiness and good health as she takes leave from us.●

● Mr. FUQUA. Mr. Speaker, the protocol of the U.S. House of Representatives has long called for the use of "gentlelady" when addressing a female Member of Congress.

That terminology could not be more appropriate than when used in conjunction with SHIRLEY CHISHOLM, who is indeed gentle and indeed a lady.

But SHIRLEY CHISHOLM has proven to be much, much more than just a gentle lady. She has, during her 14 years of service in the House, been a constant conscience to remind us that there are many Americans who look to their Government for fairness and justice.

The awards and honors SHIRLEY CHISHOLM has earned are too numerous to be listed here. Instead, I would like to share with you a more personal reflection on SHIRLEY CHISHOLM.

SHIRLEY was never one to duck an issue or to dodge a fight even though the odds seemed insurmountable.

I have little doubt that she realized her campaign for the Democratic nomination for the Presidency in 1972 had only a miniscule chance for success.

Undaunted, however, she entered the race, ran an honorable campaign, and use the pulpit of her candidacy to call attention to those issues which she had so long championed; assistance for the working mother through day care centers; equality of opportunity for all American regardless of color, creed, or sex; a society built on the concept of finding, developing, and using the best within us and among us.

SHIRLEY CHISHOLM did not win the nomination. But she did win greater acceptance for her ideas, a greater forum from which to bring attention to our needs, and a special place in the hearts of all who respect those willing to "fight the impossible fight."

SHIRLEY CHISHOLM did not lose the nomination. Rather, she helped shape the agenda for the national debate.

There are many fights that SHIRLEY CHISHOLM did not win.

But she never lost.

The House of Representatives and the Nation will have lost a great and gentle lady, when SHIRLEY CHISHOLM retires at the end of the 97th Congress.

I wish her continued success in all her future endeavors and bid her a very special farewell.●

● Mr. MURTHA. Mr. Speaker, it is a pleasure to join in honoring Congresswoman SHIRLEY CHISHOLM. There can be no doubt that the House of Representatives has been a better legislative body because of her presence, or that the people of the United States have benefited from her service.

Even though I was not yet a Member of Congress, I remember when SHIRLEY CHISHOLM was first elected to Congress and began almost immediately to fight for the people she represented. Throughout her career, she has been a spokesperson for minorities, women, the poor, the less fortunate, the cities, and many other important causes. All of those she has championed have benefited from her leadership and expertise.

SHIRLEY CHISHOLM's service in Congress has been in the highest tradition of the U.S. House of Representatives. I know I join with my colleagues in wishing SHIRLEY CHISHOLM well, and thanking her for the outstanding service she has given to her constituents and her country.●

● Mr. LAFALCE. Mr. Speaker, this Chamber will lose one of its most dynamic Members, and I will lose a trusted and admired colleague when SHIRLEY CHISHOLM retires at the end of the 97th Congress. Today, I would like to pay tribute to SHIRLEY and to the ideals she has personified.

For 14 years, SHIRLEY has served a very special role in this Chamber. Her combination of intellectual powers, oratorical gifts, and strong political and moral commitments have been used to consistently point out the needs of America's poor, its underprivileged, its minorities, its needy. I respect SHIRLEY because she has made certain that her constituency, which she viewed as much more than the residents of Brooklyn, was always heard from, always represented, never ignored. And, the manner in which she made certain her people were represented has always been one filled with dignity and reason.

As a fellow New Yorker, I will miss SHIRLEY's ability to work with the many diverse members of our State's delegation and understand issues of concern to those outside the New York City metropolitan area. Those of us from the Buffalo area have a special affinity for her, perhaps born out of her marital ties to western New York. At the very least, we hope to see her on the Niagara Frontier in the years ahead now that we will miss her in the Halls of Congress.

Because of her special gifts, I am certain that retirement will not mean the end of SHIRLEY's contributions to our Nation. Given her energy, her personal discipline, her breadth of interests, and her popularity, I suspect that her long and illustrious career in Congress may only represent a fraction of her total contributions to all of America's people.

I will keep a special place in my heart for SHIRLEY and wish her and her family my best wishes in the years ahead.●

● Mr. CORRADA. Mr. Speaker, I am pleased to join in paying tribute to a good friend and a leading public servant, Congresswoman SHIRLEY CHISHOLM, on her retirement from the House of Representatives after 14 years of dedicated service to her constituents and her country.

Her achievements have been many and diverse. Her ability to eloquently state her wishes and position have been invaluable in the debate of many of the key issues of our time. One of the accomplishments of which she is most proud is her fluency in Spanish, which has been of great assistance to her constituents, many of whom are originally from Puerto Rico. She was successful in obtaining the inclusion of domestic workers under the provision of the law on minimum wage, thus giving a measure of economic security and dignity to one of the most needed but less paid jobs.

Congresswoman CHISHOLM remains committed to the need to insure that the educational needs of our young people are met. The recognition of the role of education as the key to improved social and economic conditions and to a better future for our children motivated her to devote her considerable talents to be an advocate for education laws.

Her concern over the plights of the poor and unprotected in our society led her to take the cause of the Haitian refugees that have come to our shores in recent years in search of a better life. As an underdog for many years, SHIRLEY could emphathize and feel the suffering and needs of others. Her compassion is strong and deep and her good counsel sought by her colleagues.

It is a measure of the recognition of her efforts and good work that she has accepted the offer to the prestigious position of Purington professor at Mount Holyoke College in Massachusetts. I have a feeling that, through her teaching and lecturing, she will inspire a generation of young women to take on her place as a strong advocate and defender of those less privileged than us.

SHIRLEY, you will be missed by all the friends you leave behind. We wish you good luck and Godspeed.●

● Mr. BOLAND. Mr. Speaker, I want to join with my colleagues in paying tribute to SHIRLEY CHISHOLM.

While I can understand her reasons, I very much regret that SHIRLEY decided not to run for reelection. She has been a valuable Member of the House since she arrived in Washington in 1969. Her legislative skill, her intelligence, and her dedication to the causes in which she believed, are commodities that the Congress can ill afford to lose. Her energy and her unquestioned integrity have made her

one of the most respected Members of the House of Representatives.

SHIRLEY CHISHOLM has never been reticent about speaking out, either in the well of the House or around the country, for those who lack a decent job, a decent home, or the opportunity for a quality education. She has often served as an effective conscience for the House by saying things that needed to be said about the likely consequences of various pieces of legislation. She is a fighter in the best sense of the term, a person who is willing to expend large amounts of her personal time and energy to attempt to right a wrong or prevent a wrong from occurring.

Mr. Speaker, when the people of the 12th District of Brooklyn sent SHIRLEY CHISHOLM to Congress, they sent a person of the highest quality. She has served her district and her country with distinction. We will miss her in the next Congress, but I know that her voice, although absent from the House, will continue to be heard on behalf of justice and equality. I want to wish her continued success as she begins a new phase of her life, and I want her to know how pleased the people of western Massachusetts are that she has accepted a position at Mount Holyoke College. We are delighted to welcome her to our community.●

● Mr. MAZZOLI. Mr. Speaker. I, too, would like to pay tribute to my good friend and colleague, SHIRLEY CHISHOLM. I served with SHIRLEY for 4 years on the House Education and Labor Committee. I have always admired her determined, hard-driving spirit. She is respected by her peers as an articulate spokeswoman, a serious leader, and one who is willing to take a stand and defend her beliefs. SHIRLEY has been an asset not only to her constituents in New York, but to this Nation as well, and her deeds attest to this fact. She has served the House well and we will certainly miss her. Academia's gain is Government's loss.●

● Mr. ANNUNZIO. Mr. Speaker, I rise in tribute to the Honorable SHIRLEY CHISHOLM, who has dedicated her life to civic and community service, and the last 14 years to ably representing the people of the 12th District of New York in the U.S. House of Representatives. SHIRLEY's numerous contributions to our country are an inspiration to her friends and fellow citizens, and her record of excellence and creative accomplishments as a citizen, as a public servant, and as a Member of Congress are most commendable.

Before coming to the House of Representatives, SHIRLEY CHISHOLM worked in several community organizations, and was a skillful educator. She also served as an assemblywoman in the New York State Legislature for 4 years.

Elected to the House of Representatives in 1968, SHIRLEY is an eloquent and respected Member of Congress who has provided exemplary service as a member of the House Rules Committee. She will be missed by those of us in the Congress, who know of her compassion, her courage, and her integrity, and have known the pleasure of her company.

I extend to SHIRLEY CHISHOLM my best wishes for continued success in all of her future endeavors in devotion to highest principles.●

● Mr. CARMAN. Mr. Speaker, I rise on the occasion of SHIRLEY CHISHOLM's retirement from the House of Representatives.

It has been a pleasure for me to work with SHIRLEY not only as a colleague in the House of Representatives, but also as a fellow member of the New York congressional delegation. I want to extend to SHIRLEY my best wishes for her future endeavors which I am most certain will be successful indeed.●

● Mr. MITCHELL of Maryland. Mr. Speaker, I am honored and gratified to join with the Members of this House to honor one of our most dedicated Members. Congresswoman SHIRLEY CHISHOLM has announced her retirement, but only from her current elected office. My emotions are indeed mixed; I hate to envision this House without her continued compassionate plea and substantive work on behalf of our Nation's children, poor, and minorities. However, I am somewhat glad that SHIRLEY has chosen to devote more time to her family while also sharing her well-developed expertise as a legislator and educator with the world of academia.

During her illustrious career, Congresswoman CHISHOLM has symbolized dedication, tenacity, sincerity, integrity, and intellect. These qualities have been reflected in her many works and interwoven in her very being. She is the senior Democratic woman in this House. Additionally, she is the only woman, and the lone black, to serve on the House Rules Committee. Along with these duties, she continues to strive arduously with those of us who serve proudly with her in the Congressional Black Causus.

For black citizens, SHIRLEY CHISHOLM continues to symbolize hope and the true value of holding fast to the fight against racism, oppression throughout the world, and continued exclusion from the economic mainstream due to prejudices. Congresswoman CHISHOLM has stood in the forefront on behalf of civil and constitutional rights, equal employment opportunities, economic parity for blacks and minorities, black colleges, compensatory education, minimum wage for domestics, American Indians, the Haitian refugees, migrant farmworkers, and the poor. It appears that as long as there is injustice against any segment of our society, SHIRLEY just will not keep still.

For many young women, of all races, ages, and backgrounds, SHIRLEY CHISHOLM has represented the positive results of a continued fight against sexism. She has been a leader in insuring that women are represented equitably in such pursuits as education, business, sports, and employment opportunities. She has also stood firmly against initiatives which threaten the well-being of low-income women and their families.

Oftentimes, Mrs. CHISHOLM has been labeled a rebel and a maverick. She wears these labels proudly because they speak positively to her determination, tenacity, individuality, and her prevailing actions and demeanor which confirm that she is truly "unbought and unbossed." I do not know many others in this Nation who deserve the high respect, esteem, and confidence bestowed upon this fine legislator. I do know that for SHIRLEY, no child is to small, no grandparent too old, or no youth too intolerable. She continues to believe in the basic goodness of those groups which are often cast aside. It is often SHIRLEY who reaffirms that we must look to the potential for significant contributions in even those who appear not to merit our faith and blessings.

Needless to say, we will all miss SHIRLEY CHISHOLM. However, I hope we are not fooling ourselves—her work in the vineyards is merely taking added dimensions and she will continue to fight.●

● Mr. EDWARDS of California. Mr. Speaker, I am most grateful to my colleagues, GERALDINE FERRARO, SAMUEL STRATTON, and CHARLES RANGEL for arranging this special order.

SHIRLEY CHISHOLM has made a lasting and significant contribution to the work of this deliberative body. It has been my privilege to serve in Congress with her and I am grateful to have this opportunity to publicly express my appreciation to her. We are all in her debt.

Congresswoman CHISHOLM has consistently chosen a difficult and sometimes lonely road to walk—speaking out against racial injustice and sex discrimination in all its invidious forms. She invited us to walk with her and see, with her heart and mind, the unfortunate circumstances of so many of our citizens and she gave us numerous opportunities to change those circumstances. When this body worked to enact legislation to insure equal opportunity for all Americans, to eliminate discrimination in housing, to secure the right to vote for minority Americans, to provide equal rights for women, and to achieve countless other civil rights' goals, Congresswoman

CHISHOLM was always in the forefront, leading the way.

As chair of the Subcommittee on Civil and Constitutional Rights, I know from firsthand experience what a powerful, determined, and inspirational force she has been for civil rights and justice. I will miss her relentless energy and her keen intellect here in Congress, but I am sure we will continue to hear and benefit from her wisdom. In her book, "The Good Fight," SHIRLEY forcefully describes her hope and vision for our society—

> We Americans have a chance to become someday a nation in which all racial stocks and classes can exist in their own selfhoods, but meet on a basis of respect and equality and live together, socially, economically, and politically. We can become a dynamic equilibrium, a harmony of many different elements, in which the whole will be greater than all its parts and greater than any society the world has ever seen before. It can still happen.

I know Congresswoman CHISHOLM will keep on trying to make it happen. I only hope we in Congress will match her efforts.●

● Mr. BROOKS. Mr. Speaker, let me join my colleagues in wishing well to SHIRLEY CHISHOLM on her retirement from service in the House of Representatives. I have had the good fortune of working with SHIRLEY over the years and have observed the fine representation she has given to her district, her people, her sex, and her country. Believe me, they could not have had a stronger advocate and she has left an indelible mark in the House.

Of all her qualities, I will remember most her spirit. She never approached a problem with a lackadaisical air, but as if this solution must be found before any other. She had the unusual ability of making people listen and commanding their attention. Her arguments were always well reasoned, even though intense. It was a joy to see and hear her in action.

SHIRLEY was a pioneer with many firsts to her credit. She ran for President of the United States when many women would not have dared. Who would have expected a woman to breach the powerful Rules Committee: SHIRLEY, of course.

We will miss her greatly in the Congress. But I am sure that in her new career in education, she will be equally impressive. Can SHIRLEY teach them? You bet she can.●

● Mr. SCHUMER. Mr. Speaker, I wish to take this opportunity to commend one of my Brooklyn colleagues, Congresswoman SHIRLEY CHISHOLM. Congresswoman CHISHOLM has represented the interests of New York's 12th District for the past 14 years with unparalleled devotion, and it has been both an honor and a pleasure for me to work with her.

As the senior Democratic woman in the House of Representatives and the first black woman to seek the Democratic Party nomination for President, Congresswoman CHISHOLM has dedicated her exemplary political career to championing the rights of the poor and the powerless. She has fiercely defended the rights of American Indians, migrant farmworkers, Haitian refugees, and other poverty-striken Americans, and her tireless efforts have resulted in minimum wage laws for domestic workers and compensatory education funding for the disadvantaged. As a three-term member of the House Education and Labor Committee, Congresswoman CHISHOLM promoted educational and employment opportunities for minorities and the poor; she then moved on to the House Rules Committee, where she has consistently upheld the traditions of the Democratic Party.

A true individualist—who has also distinguished herself as a schoolteacher and author—Congresswoman CHISHOLM will be a difficult Member to replace in Congress. Although she will be missed in the House by all—and most by those of us who share her political ideals—she remains a national figure devoted to the principles of peace, justice, and equality for all Americans.●

● Mr. SAM B. HALL, JR. Mr. Speaker, the decision by our dear friend, SHIRLEY CHISHOLM, to retire from the House after seven terms of distinguished service is a severe loss to Congress and the Nation. I have tremendous admiration for her as a person and legislator.

While we have often disagreed on issues, there is no question that she is an effective adversary who does her homework. She is one of the most forthright, yet charming and gracious people it has been my privilege to know since election to this body.

Regardless of the issue being debated on the floor, when SHIRLEY CHISHOLM takes the podium, it is somewhat like the television commercial for one of the major investment firms, "people stop and listen."

She has championed the cause of the little people. She has been a wonderful inspiration to the poor, many of whom feel alienated from the system. She is a fighter, yet she does not allow dogmatism to direct her legislative actions. In short, SHIRLEY CHISHOLM is a champion of democracy in the finest sense of the word.

In an era of conformity, SHIRLEY CHISHOLM fits no mold, no pattern. She has an indominable spirit that has endeared her, not only to her colleagues, but to people all over America.

SHIRLEY CHISHOLM will continue to be active in behalf of humanitarian causes. Her leadership will continue to be felt, not only at home in Brooklyn, but throughout America. I look forward to our association in the future.●

● Mr. RANGEL. Mr. Speaker, I rise today to pay a special tribute to my dear friend and colleague Congresswoman SHIRLEY CHISHOLM. Her retirement at the end of this session will not only be a loss to this body professionally, it will be a loss to each one of us who have had the pleasue of working with her day in and day out for more than a decade. I requested this time today, along with Mr. STRATTON and Ms. FERRARO, to honor and thank the Congresswoman from Brooklyn for her years of service.

All of us will feel the absence of her eloquence and her dedication—her district, our city and State delegation, and the committees upon which she sat. But most of all, the entire body will suffer, for we will, in a very real sense, have lost the conscience of the House of Representatives.

We will have lost a voice that was never afraid to speak out, a legislator never afraid to be on the unpopular side of an issue, a person unafraid to tread where no man or woman had trod before.

She brought to the House a personal strength and a strong commitment to her constituents, a commitment forged in the schoolhouses of Brooklyn, that surprised many of our colleagues with its intensity.

It is that kind of personal commitment, that kind of intensity, which we lack most in this Congress.

In his last public appearance before succumbing to the slow death of cancer, the great Member of the other body Hubert Humphrey, defender of the Nation's weak, set forth a standard for judging our Government. He said:

> The moral test of government is how it treats those in the dawn of life—the children; those in the twilight of life—the old; those in the shadow of life—the sick and handicapped.

By these standards SHIRLEY CHISHOLM stands a head and shoulders above us all. She is a true champion of those least able to care for themselves. She is a strong voice, raised loud and clear, for those unable to speak for themselves.

SHIRLEY CHISHOLM, the first black woman to be elected to Congress, is a pioneer. A pioneer and a fighter. A fighter for women's rights, a fighter for minority rights.

We have not yet won the fights that she has been fighting for the last 12 years, the fights first joined by Susan B. Anthony and Dr. Martin Luther King, Jr. In losing SHIRLEY CHISHOLM, we are losing one of our most effective allies in the Congress in the fight. But though her voice will be gone from the Chamber, it will not be stilled. For knowing SHIRLEY CHISHOLM, what we can all be sure of is that she will never abandon the good fight.

Congresswoman CHISHOLM, thank you for your service to this Congress and to this Nation, and thank you for your friendship.●

● Mr. MONTGOMERY. Mr. Speaker, I am happy to take part in this special order on Representative SHIRLEY CHISHOLM of New York. Few women have had more impact on this Nation's legislative process as has the distinguished Congresswoman from the 12th District of New York. SHIRLEY will be remembered as the first black woman ever to win a seat in the House of Representatives and she has worked hard.

SHIRLEY CHISHOLM came to Congress in 1969 and since that time, she has been a strong and very articulate voice for the people of her district. SHIRLEY brought with her a strong academic background and this has been a great asset. She has authored two books and has been the recipient of countless honors during her years in public service.

Though we have not shared the same philosophical views on many of the issues, I can say that we have had a most cordial relationship over the years and I want to join with my colleagues in wishing for SHIRLEY the very best as she moves on to a teaching position.

She will be leaving a great many friends and admirers here on Capitol Hill and I know the people of the 12th District will especially miss her leadership.●

● Mr. FAUNTROY. Mr. Speaker, I am delighted to join my distinguished colleagues in honoring Congresswoman SHIRLEY CHISHOLM, an excellent legislator and a long-distance runner for social justice, as she retires from this body.

Congresswoman CHISHOLM will be leaving us a legacy of all that is best in the American political tradition. As a champion of the human rights of all people, Congresswoman CHISHOLM has made her mark by seeking due process and humane treatment for Haitian refugees, fair labor practices for migrant workers, fair and humane fiscal policies, improvements in child welfare, and equality for women.

Congresswoman CHISHOLM has often helped this great body by challenging all of us to adhere to the ideals we so often espouse but all too often fail to live up to.

I especially appreciate her support for me in my role in the 97th Congress as chairman of the Congressional Black Caucus.

I am honored to have served in the Congress with Congresswoman SHIRLEY CHISHOLM. We all have been made richer by her presence with us.●

● Mr. HUGHES, Mr. Speaker, I am pleased to have the opportunity to pay tribute to SHIRLEY CHISHOLM for her outstanding service in the House of Representatives.

For 14 years, SHIRLEY has faithfully served her constituency and her Nation, insisting that our Government must take sides on behalf of those who need help, opportunity, or protection. As a member of the Education and Labor Committee, she constantly fought to make higher education more accessible to the poor, and was instrumental in insuring Federal minimum wage coverage for domestic workers. In her present position on the Rules Committee, she has continued to be a strong and effective voice for social justice and human dignity, never wavering from her conviction that all Americans should be treated fairly and decently.

On the House floor, she has been one of our most eloquent and effective speakers, a fact which is clearly evidenced by the uncharacteristic silence that descends upon the floor when she takes the well.

Of all the colleagues we regret losing at the end of this Congress, I believe we will feel SHIRLEY's loss especially, for she has played a special role in the House that few could match. I am truly sorry to see her leave, and wish her much success and happiness in her future endeavors.●

● Mr. FORD of Tennessee. Mr. Speaker, today we have gathered to honor a colleague who has honored our institution for many years. Last year, when SHIRLEY CHISHOLM announced her intention to retire, many of her colleagues, constituents, and followers throughout America voiced the same reaction: What shall we do without her?

When SHIRLEY CHISHOLM came to the 91st Congress, 14 years ago, she quickly established herself as a force to be reckoned with. She was assigned to the House Agriculture Subcommittee on Forestry and Rural Villages, which she felt had no relation to the needs and problems of her district. Admonished by the Speaker of the House to "accept and be a good soldier," she made the unprecedented move of placing an amendment before the House to remove her name from the committee assignment. She prevailed and was then assigned to the Veterans' Affairs Committee, which had some relevancy to her constituency.

Her fierce individualism caused her to become known to her colleagues as a maverick. This was an apt description, for on January 25, 1972, she dared to run for the Presidency of the United States. The first black woman to seek the Nation's highest office.

She has now risen to be the senior Democratic woman in this body. As fifth ranking member of the powerful House Rules Committee, secretary of the Democratic Caucus—as such, the only black woman in the House leadership—SHIRLEY has utilized her seniority and political clout to champion the cause of this Nation's disadvantaged.

More important than being the senior Democratic woman in this body, she has become one of the outstanding legislators, and has earned the respect of all her colleagues, regardless of whether they were Democrat or Republican, male or female.

Her constituency in the 12th Congressional District in the Borough of Brooklyn will lose a dedicated representative and champion of their interests, and my colleagues here in the House will surely lose the benefit of her contributions, insights, and forsight into the issues that we must consider here.

During her 14 years of service to the Congress of the United States, SHIRLEY CHISHOLM has served with outstanding commitment and integrity, and she has earned her colleagues respect as an earnest, knowledgeable, and dedicated Member of Congress.

I have been privileged to work with SHIRLEY CHISHOLM on many occasions. As a fellow member of the Congressional Black Caucus, she has provided us with the type of leadership that we are all proud of. Along with being good-humored, and congenial, she has the power to generate that special energy hidden within us all. She has always provided candid, intelligent, and fair insights into the problems that we are so desperately trying to combat. By being the best person that she can be, she has gained the respect of every member of the caucus.

Along with obtaining the admiration of every man and woman who has had the pleasure of working with her, SHIRLEY CHISHOLM has carried a heavy load. I wish to extend my personal thanks to SHIRLEY CHISHOLM for the time and dedication that she has given me and this Congress. In closing let me say, SHIRLEY, I shall miss you, and I wish to extend to you as you leave, best wishes for long life, good health, and continued success in all your endeavors. I am sure that we and the rest of the country have not heard the last of you, and that we will continue to benefit from your wisdom.●

● Mrs. COLLINS of Illinois. Mr. Speaker, it is with a profound sense of loss that I rise today to pay tribute to a dear colleague of ours who will soon depart from our midst—SHIRLEY CHISHOLM—Congresswoman from the 12th District of New York.

On September 18, 1982, the Congressional Black Caucus (CBC) presented the William L. Dawson Award to Mrs. CHISHOLM for her unique and outstanding leadership in the development of legislation which addresses the needs of minorities in the United States. Upon receipt of her award, SHIRLEY made one of the most eloquent and moving speeches I have ever had the privilege of listening to. As I reflect back on her message to the people, the phrase, "fought the good

fight," remained in my mind. Yes; she has fought a good fight and will be remembered for her achievements in the Congress as one who came, observed, spoke up, and conquered.

For the benefit of those of my colleagues who might not be aware of SHIRLEY's legislative feats, I would like to submit a copy of the CBC 12th Annual Dinner Book detailing measures she has created and helped shape.

1982 WILLIAM L. DAWSON AWARD

SHIRLEY A. CHISHOLM, U.S. HOUSE OF REPRESENTATIVES, BROOKLYN, NEW YORK

For her outstanding legislative achievements, the Congressional Black Caucus Foundation is presenting the 1982 Dawson Award to Congresswoman Shirley A. Chisholm.

Mrs. Chisholm was first elected in 1968 to the 91st Congress of the United States. She brought with her an interest in and a commitment to the provision of a quality education for all Americans. In keeping with this commitment, she worked to amend the Elementary and Secondary Education Act of 1978 to establish the Bio-Medical Services Program. Today, this program supports 12 projects nationally which encourage junior high school students to pursue careers in the medical profession.

In 1980, Congresswoman Chisholm responded to the financial needs of Black Colleges and Universities by introducing her own Higher Education legislation. Unlike the Education and Labor Committee bill. Mrs. Chisholm's bill provided "Challenge Grants" to Black, higher educational institutions to allow the establishment of their own endowment funds. Although her entire bill was not passed by the Congress, the "Challenge Grant" component was adopted and provides an important mechanism for financial assistance to Black institutions.

Mrs. Chisholm has similarly been a major spokesperson and effective legislator in support of: Title IX of the 1982 Education Amendments, which guarantees sex equity in education; juvenile delinquents, by establishing both the Alternative Education and Serious Youth Offenders Special Emphasis Programs within the Office of Juvenile Justice and Delinquent Prevention; and domestic workers by helping to establish a national minimum wage.

Most recently, Congresswoman Chisholm's legislative efforts have also included initiatives in the foreign policy area. As Chair of the Congressional Black Caucus Task Force on Haitian Refugees, Mrs. Chisholm brought national attention to the plight of Haitians seeking political asylum in the United States. The Congresswoman speaking on behalf of the Caucus, testified before the House Judiciary Subcommittee on Immigration, Refugees and International Law on the blatant discriminatory treatment received by Haitian asylum applicants. The Administration, in response to charges of racist refugee policies, finally agreed to change their policy of quick expulsion for Haitians and allow them to remain in this Country as part of the Cuban-Haitian entrant program. Despite this significant change in policy, Mrs. Chisholm continues to press for full recognition of Haitians as political refugees and federal reimbursement to states and localities that have been impacted by the influx of Haitians and Cubans. She has authored legislation, H.R. 3602 which would grant refugee status to Cubans and Haitians and H.R. 6071 which would create an independent asylum review board.

Congresswoman Chisholm's legislative contributions as the Representative of the 12th Congressional District in the State of New York have been an asset to the Congress and the Nation during her years of service. It is in recognition of these and other legislative achievements that we honor her with this award.

In leaving, it is not enough for us to just wish her, good bye and good luck for Congresswoman CHISHOLM has left too great an impression. And, yes, after seven terms in the House one has every right to be angry, frustrated, and misunderstood. On the other hand, SHIRLEY has given voice to the aspirations of millions of people in a system which continues to blatently deny full expression and equal opportunity to those who have little power to make it on their own.

In closing, let it not be said that Congress takes, takes, and takes. In departing, let us extend to the Congresswoman from New York, the gift of friendship and love as she continues in her own way on the path of independence, which is still her political trademark. Let us insure her peace and happiness by striving to attain equality and compansion for all and wiping out all vestiges of racism. Let us continue to give the best we have to give. Congresswoman SHIRLEY CHISHOLM, just wait, there still may be some fireworks out there for you to ignite.●

● Mr. FORD of Michigan. Mr. Speaker, I will miss one of our most respected colleagues, SHIRLEY CHISHOLM, when she retires at the end of the 97th Congress. To a certain extent, the title of her autobiography, "Unbought and Unbossed," says volumes about SHIRLEY. Since her arrival in Congress in 1969, she has never been afraid to speak and vote her conscience, regardless of the pressure placed on her. As one of the more eloquent Members of Congress, her speeches from the well are always impassioned and persuasive.

I had the pleasure of serving with SHIRLEY when she was a member of the Committee on Education and Labor. SHIRLEY was in the forefront of the battle to insure that our Nation's educational system is open to all—regardless of race or income level. Her continued crusade against sexism has resulted in large gains for women in the workplace. SHIRLEY has fought to insure that all workers are included in the Federal minimum wage laws. As a member of the Rules Committee since 1977, SHIRLEY has continued her independent record and commitment to principles. SHIRLEY's strong voice in Congress for women, minorities, and the downtrodden will truly be missed.●

● Mr. COELHO. Mr. Speaker, I am honored by this opportunity to join my colleagues in duly recognizing a colleague who not only has given this Congress 14 years of distinguished service, but with her reputation for integrity, accomplishment and intelligence has transformed herself into a legend that this Congress and this Nation will not forget, SHIRLEY CHISHOLM.

SHIRLEY began establishing herself as a Member of stature and accomplishment when she was elected to Congress in 1968 as the first black woman to serve in this House. Throughout her career, she has been a strong advocate and spokesman for the poor, elderly, and less fortunate in our society. Her work on the Education and Labor Committee as well as the Rules Committee has demonstrated her deep concern for the needs of these people. Her persistent drive in addressing issues, combined with an astute analysis and foresight have made her an invaluable asset to this Congress.

SHIRLEY CHISHOLM's dedication to the elderly, the needy and people from all walks of life throughout America will be greatly missed in the Halls of Congress. I can only hope that we will be able to carry on the tradition SHIRLEY has left with us so that the good of the people will continue to remain a priority. We will miss her in what will surely be an active retirement, continuing as spokesman for the most decent and constructive interests of this country.●

● Mr. DERRICK. Mr. Speaker, I would like to join my colleagues in offering tribute to one of the most respected Members of this body, Congresswoman SHIRLEY CHISHOLM. Mrs. CHISHOLM will be retiring at the end of this year after a long and dedicated career in public service. She was first elected to the New York State Assembly in 1964 and was subsequently elected to the U.S. Congress in 1968. She holds the distinctions of being the first black woman to serve in the Congress and also of being the first black woman to seek the Democratic Party nomination for President of the United States in 1972. While in the Congress, she has served on the Education and Labor Committee, working to expand and improve many of our special education programs. For the past 4 years she has been a member of the Rules Committee, on which I also serve, where her viewpoint and counsel have been greatly respected by the committee and the Congress.

Mrs. CHISHOLM is an articulate, refreshingly candid individual, who has dedicated herself to improving the social and economic conditions of less fortunate Americans. She is indeed a hard worker and a courageous person who has had an unyielding determination to be an effective representative of her constituents and a national spokesperson for the underprivileged

and oppressed. Her ideals and commitment to them have been an inspiration and a challenge to the many of us who have served with her.

Mr. Speaker, as she continues to write and to speak around the country, I know that she will continue to inspire all Americans, and especially those whom she has given so much of her life to help. Her career in Congress has been one of great distinction. I know she will find new frontiers to conquer in her desire to aid her fellow citizens. Good luck, SHIRLEY. I offer you my thanks and best wishes for the future.●

● Mr. HOYER. Mr. Speaker, when the 97th Congress comes to a close, it will lose one of its most admired and able Members. SHIRLEY A. CHISHOLM, the distinguished Congresswoman from New York and ranking member of the Rules Committee, is retiring from this body and her presence as one of the finest proponents of equal rights in this country will be sorely missed.

Throughout her career, Congresswoman CHISHOLM has been at the forefront of the battle against racial injustice. She has fought hard for the rights of all our citizens—black and white, rich and poor, young and old—and has been a stalwart voice for those seeking equality in all aspects of life. To quote her from a news release announcing her retirement, she stated:

I am proud of my role as a leader and a symbol. I am proud of all my friends and supporters. And I am proud of my country, honored to have had the opportunity to serve, and still confident that the bright sun of full equality and justice will someday shine on everyone under our flag.

Last summer I had the honor of attending a luncheon held for Congresswoman CHISHOLM by the Congressional Black Associates. During that luncheon several of my colleagues recounted their own thoughts and impressions of Congresswoman CHISHOLM as a leader, fighter, legislator, and outstanding and effective humanitarian, just as they do here today. Her commitment has no bounds and her grace under pressure has marked the courage that underlies all she does.

Mr. Speaker, I ask my colleagues to join me in expressing the deep sense of appreciation and admiration that we feel for the contribution that SHIRLEY A. CHISHOLM has made to this institution and to this great Nation. She has indeed, "fought the good fight" and I am privileged to have worked with her in the Congress. I wish her and her husband, Arthur, much continued success in the future.●

● Mr. ADDABBO. Mr. Speaker, it is with great pleasure that I join my colleagues today in paying tribute to our good friend and most distinguished colleague, SHIRLEY CHISHOLM, who will be leaving us in just a short time. As a close friend, a fellow New Yorker and a tireless worker, she will be sorely missed.

All of us are familiar, as is America, with SHIRLEY's accomplishments and status as a symbol of progress and hope. But it is her achievements as the Representative of the 12th Congressional District of New York that will guarantee her place in the hearts of her constituents and colleagues. Those of us who have had the privilege of working with SHIRLEY during the past 14 years have admired her dedication, perseverance, and her interminable spirit. SHIRLEY was first elected to this body in 1968, and won assignment to the Education and Labor Committee in 1971. Here, her efforts in the areas of compensatory education, minimum wage laws, and the comprehensive causes of the poor and the minorities won her deserved acclaim and recognition. In addition, her efforts on behalf of the American Indians and the Haitian refugees have firmly established her commitment to those less fortunate.

In February of this year, SHIRLEY announced her intention to retire at the end of this Congress, citing as one of the major reasons the frustration of attempting to effectively serve her constituents while a conservative government is in office. While I can certainly understand and sympathize with those feelings, it is a hard blow. The Nation, the House of Representatives, and especially the residents of the 12th District will suffer a great loss. I join my colleagues in wishing SHIRLEY all the best in her future endeavors, and I look forward to following her future achievements.●

● Mr. WASHINGTON. Mr. Speaker, it is with pride and respect, yet a feeling of sadness that I speak on behalf of my colleague and dear friend, Representative SHIRLEY CHISHOLM, who will leave us at the end of this Congress. Many of my colleagues here in the House of Representatives will miss the dynamism, the wit and intelligence that she brought to the Halls of Congress.

For the many years Mrs. CHISHOLM spent in the legislative arena, she has been a beacon of hope and inspiration to millions of people—black, brown, yellow, white, young and old; ethnicity, sex and age were irrelevant—it was always her message that moved the hearts and spirits of those she encountered.

Mrs. CHISHOLM is a fighter. She has always articulated the needs and aspirations of the poor and disadvantaged in our society, who have been systematically excluded from meaningful participation in our Nation's political process and who have often been at a disadvantage in our economic process.

I can truly say that SHIRLEY CHISHOLM has served as the conscience of the Congress on both domestic and international issues. She has been courageous and passionately outspoken in her defense of the rights of the dispossessed in Vietnam, South Africa, Haiti and other troubled areas throughout the world.

Congresswoman SHIRLEY CHISHOLM as a leader, educator and author, will be missed in the Halls of Congress. Her integrity, her hard work and her concern for humanity will never be forgotten.

While I am saddened by her leaving, I am happy with the knowledge that she will continue to use her considerable energy, talent and fierce dedication to improve the lives of all people.

SHIRLEY CHISHOLM is a guided missile, a free spirit who hears her drum and moves. She inundates you, evaporates you, covers you up but always leaves you a better person for it. We are going to miss her. SHIRLEY, I wish you well in your new venture.●

● Mr. DIXON. Mr. Speaker, as the 97th Congress winds down, I cannot help but feel a deep sense of loss as we must say farewell to our dynamic, unbought and unbossed colleague from the 12th Congressional District of New York, Congresswoman SHIRLEY CHISHOLM.

Unlike many of my senior colleagues, I have only had the privilege of serving with SHIRLEY for 4 years. During this time, I have come to admire her not only for her legislative prowess; her wisdom and, her tenacity but, also for her real compassion and dedication in championing the cause of the disenfranchised and downtrodden.

Although known to some as fighting SHIRLEY CHISHOLM, many of this great woman's efforts on behalf of the less fortunate, have been accomplished quietly behind the scenes. Her tireless 3-year battle on behalf of domestic workers evolved into legislation, subsequently enacted into law, that not only guarantees them a minimum wage, social security and medical benefits, but restored dignity to their ranks.

SHIRLEY's work on behalf of these workers is but one example of the many contributions which she has made during her illustrious 14-year career in the U.S. Congress. Her distinguished service on the House Rules Committee; her effectiveness on the Education and Labor Committee where she fought for equal rights and education for the poor and disenfranchised, is but further testimony of the raw courage which has become SHIRLEY's hallmark throughout her career in public service.

I know that my colleagues will join me in missing her presence and leadership in the Congress. I know too, that they realize as I do that, it is time for SHIRLEY to move on. She leaves behind a legacy that shall continue to serve as an inspiration to all and, as she embarks on the second phase of a distinguished career, I extend to her my

very best wishes for every success that life has to offer.●

● Mr. ROE. Mr. Speaker, it is with much deep regret that I rise in this Chamber today to bid farewell to the first lady of the House of Representatives, SHIRLEY CHISHOLM.

For the past 14 years, SHIRLEY CHISHOLM has served as a steadying force in this body as we sought to find the correct path for our Nation to follow.

When SHIRLEY got up to speak on this floor, we all listened attentively. For her words always cut straight through to the truth. SHIRLEY's mode was "let's get to work and get it done for the people of America." She had no patience for oratorical showboating.

SHIRLEY CHISHOLM's career in Congress can best be summed up by the title of her autobiography, "Unbought and Unbossed." While everyone in this body did not always agree with what SHIRLEY had to say, we respected her bulldog determination in fighting to the end for the causes she believed in.

Members of the Agriculture Committee remember clearly the furor she raised after being named to that panel during her freshman year. The committee members thought they were doing her a favor by placing her on the Agriculture Committee because of its jurisdiction over the food stamp program.

Well, our SHIRLEY, in not very placid tones, let the committee members know that she was not only not pleased with her assignment, but that she was opposed to the food stamp program because poor people were forced to pay too much for them and that she wanted it replaced with a guaranteed minimum income for all Americans.

Needless to say, SHIRLEY's tenure on the Agriculture Committee was one of the shortest in House history.

All kidding aside, SHIRLEY CHISHOLM has served as the voice for the voiceless of this Nation; the poor, the elderly, and our youth. She has utilized her position on the Education and Labor Committee to press for such vital programs as Federal subsidies for day care centers, expanding the coverage available under the minimum wage laws and targeting higher education funds to students from poor families.

SHIRLEY CHISHOLM came to Congress in 1968 as its first black woman Member. The press had a field day playing up that angle. She leaves us as a national leader who unselfishly has utilized the pinnacles of power to benefit the less fortunate. Thank God that when Americans think of SHIRLEY CHISHOLM today, they no longer think of skin color. They think instead of a gracious woman who has made our lives better by knowing her. I am proud to call her my friend.●

● Mr. DELLUMS. Mr. Speaker, this is truly a sad day in the long history of the House of Representatives. How does one even begin to pay adequate tribute to a person who has contributed so much to this institution and to the Nation at large?

How does one try to express how much SHIRLEY CHISHOLM has meant to me as a House colleague—as a cofounder and driving force in the Congressional Black Caucus—as an outspoken champion of social and economic justice here in America and around the world—but, most of all, as a sister and deeply committed, caring, and concerned human being?

When I first ran for the Congress in 1970, SHIRLEY CHISHOLM was already an inspiration to me of what a Member of Congress ought to be—outspoken on the issues of social justice, racial harmony, human rights, and peace—and unyielding in her determination to educate her colleagues and the people of America about the need for immediate and constructive action in these areas.

During my first term in Congress it was SHIRLEY CHISHOLM who carried the crusade against injustice at home and inhumanity abroad into the Presidential election compaign of 1972. It was SHIRLEY CHISHOLM who, alone, was willing to challenge the champion of racism in his home base. It was SHIRLEY CHISHOLM who was in the forefront of the struggle during that presidential compaign to end the illegal, immoral and insane adventurism in Indochina, and to offer amnesty to war resisters as a first step in healing the wounds of a torn and divided nation. It was SHIRLEY CHISHOLM who led the way in pushing for a guaranteed annual income for all willing to work, and for equal rights for all, regardless of race, sex, age, or class.●

For 14 years SHIRLEY CHISHOLM has graced this Congress with her presence, her professionalism, her dedication—and her compassion for all, especially the least fortunate among us. We will not soon see her like again—although we desperately need hundreds more like her in this House. The causes to which she has dedicated so much of her life's effort still remain the uncompleted national agenda for this House—and the country at large.

Her journey is ended in this House, but I pray that she still has many miles to go and many causes to champion in the years ahead. As she moves on to the afternoon of her retirement from this House, let us recall the words of Naomi Long Madgett, whose poem "Midway" applies so well to my dear sister in the struggle:

I've come this far to freedom and I won't turn back.
I'm climbing to the highway from my old dirt track.
I'm coming and I'm going
And I'm stretching and I'm growing
And I'll reap what I've been sowing or my skin's not black.
I've seen the daylight breaking high above the bough.
I've found my destination and I've made my vow;
So whether you abhor me
Or deride me or ignore me,
Mighty mountains loom before me and I won't stop now.

Having said all of these things about SHIRLEY CHISHOLM I will reflect upon the moments and sometimes I will smile and sometimes I will cry and many times I will miss her but above all I will always love her for my sister is my friend.●

● Mr. LELAND. Mr. Speaker, I join my colleagues today in an observance of an occasion we hoped would never come. It is a joyous observance, but it is a sad one as well. For my part, I had hoped that the time would not come during my tenure in this body to confront the retirement from the House of my dear colleague, SHIRLEY CHISHOLM. That hope was born not only of my desire to have her counsel but of a wish that this House would continue to gather strength from her strength, courage from her courage, and profit from her determined example of service to the people of her district, and of America.

SHIRLEY CHISHOLM's entire career in public service, which I pray will not end with her well-deserved respite from the rigors of the Congress, has been focused on the needy, the underprivileged, the young—those of fragile circumstances. From day school teacher to Member of Congress, SHIRLEY CHISHOLM has spoken in a strong, clear voice for those who cannot make themselves, and their needs, heard.

In SHIRLEY CHISHOLM's path, barriers have been forced aside. She was the first black woman to be elected to the Congress. She was the first black woman to run for President. These precedents, on which she has never been tempted to rest, reflect her way of seeing the world. She has looked out on our country and its problems, and on this Chamber, from under, in the words of John Milton, "brows of dauntless courage." She has followed, to the letter, the counsel of Samuel Adams, who said:

The necessity of the times, more than ever, calls for our utmost circumspection, deliberation, fortitude, and perseverance.

The respect in which SHIRLEY CHISHOLM is held in this body represents our highest praise. She entitled her autobiography "Unbought and Unbossed". The gentlewoman from Brooklyn has the gift of understatement. Not only is she now, and ever, "unbought and unbossed", no one would have dared try.

We have seen her determination. It was SHIRLEY CHISHOLM who pushed through the legislation that extended the minimum wage to domestic workers and crusaded for Federal subsidies for day care centers, for the children

she has fought for so magnificently all her life.

We will miss her very much. As we have been enriched and strengthened by her presence in this House, we will be lessened by her departure. But as I am sure she would be the first to tell you, it is a departure that marks the beginning of another effort. Leaving the Congress will in no way lessen her example or impact or ability to speak for those who need her voice.

Her career in Congress is well expressed in the words of the poet Christopher Smart:

> And now the matchless deed's achieved . . . determined, dared, and done.

We thank her here today and wish her Godspeed. We will miss her.●

● Ms. OAKAR. Mr. Speaker, this morning I had the unique pleasure of attending a hearing at which Representative CHISHOLM testified. Seldom have I heard more eloquent testimony—a passionate appeal for peace and equality. Equality—that has become the hallmark of her life. A lifelong fight against the horrible inquities of racism and sexual discrimination . . . and all its mainfestations.

During my time in congress I have benefited from the vitality this woman has injected into our political system. As a black woman she certainly appreciates the struggles that the dispossessed and underpriviledged go through. And as her book states, she is "unbought and unbossed."

Coming to Congress in 1968, she quickly became one of our best figures. When she became the first black woman to run for President in 1972, she brought many important issues to the conscience of America: women as equal political figures, blacks as outstanding contributors to our Nation's history, human priorities over military needs, and other issues. Her service on the Rules Committee is an extension of that belief that democracy exists for all Americans—not in the abstract but in our day-to-day existence. With characteristic courage she pushed through a law which helped domestic workers be covered by Federal minimum wage laws.

I salute a brave woman and wish her well in her up-coming career. SHIRLEY CHISHOLM, you have been an inspiration to us all.●

● Mr. OBERSTAR. Mr. Speaker, It is with deep sadness that I contemplate a Congress without the Honorable SHIRLEY CHISHOLM. She has become a symbol of compassionate, progressive lawmaking. I consider it a great honor to call the gentlewoman my good friend.

During the past several years, I have, on a number of occasions, had the opportunity to appear before the House Rules Committee. In testifying before SHIRLEY CHISHOLM, no apology is needed for espousing progressive or compassionate political beliefs. In September, I appeared before the committee as a principal author of the emergency jobs appropriations bill (H.J. Res. 562). Although that testimony was only 2½ months ago, unemployment has risen 1 percent. In that hearing, the gentlewoman showed her keen understanding of the legislative process and her commitment to responsible economic programs which have characterized her service in the House.

The gentlewoman and I share a great interest in the subject of human rights violations in Haiti. She has been a true friend and a tireless worker on behalf of the unfortunate people of this poorest of nations. All of us in this House concerned about human rights violations will miss her leadership.

This RECORD today will be full of heartfelt tributes to this beloved colleague. Those tributes are well-deserved.

The gentlelady has my best wishes for the future and my deep appreciation of the 8 years in which I was honored to serve with her in the U.S. House of Representatives.●

● Mr. ROSENTHAL. Mr. Speaker, I join my colleagues in paying tribute to my fellow Representative from New York, SHIRLEY CHISHOLM.

Representative CHISHOLM has devoted 25 years of her life to the political arena, the last 14 in the U.S. House of Representatives. She has been widely recognized as a protector of the rights of the disenfranchised—from native Americans, to new immigrants, to women, the poor, and blacks. She has been a leader in politics, establishing herself as the first black woman to be elected to Congress, the first to run for President, the first to sit on the powerful House Rules Committee, and the senior Democratic woman in the House.

By her own account, SHIRLEY CHISHOLM is giving up her House seat, but not her causes or her contituents in Bedford-Stuyvesant—the neighborhood in which she grew up. She has never been one to "go along to get along" and as a result has caused a lot of waves. But she has also forged a lot of new paths and she will be missed.●

● Mr. GILMAN. Mr. Speaker, I rise today to pay tribute to one of our colleagues who will not be with us in the next Congress. I am, of course, referring to the Chairwoman from New York, SHIRLEY CHISHOLM, and I thank my distinguished colleagues, FERRARO, STRATTON, and RANGEL, for providing us this opportunity to say a few words about SHIRLEY.

SHIRLEY CHISHOLM came to Congress in 1968, and she has admirably served the people of the 12th District for these many years. Her involvement in her committee work on the crucial Rules Committee has made her a driving force in setting legislative priorities. Her hardworking, unyielding character has enabled her to be, not only a forger of policy, but also a true renaissance woman. Her versatility is evident in her accomplishments. We lose an accomplished author, a courageous Presidential candidate and a determined legislator.

SHIRLEY has never given up her fight for those who are struggling in our society. She worked diligently and successfully to include domestic workers in the Federal minimum wage law. She knows where true suffering exists and has always taken action to relieve it.

I have had the honor of working with SHIRLEY on New York State issues in the New York State Legislature before she came to the Congress and working with SHIRLEY as part of the New York State congressional delegation. We will miss SHIRLEY's presence in this body, as I am sure we all will miss her fighting spirit and her zeal to protect the rights and equality of all Americans. Onward, SHIRLEY. We wish you joy and good health in the days ahead in all your new endeavors. Your inspirational example will always be with us here, and I am certain your courage and intellect will continue to influence the people of New York and our Nation.●

□ 2040

GENERAL LEAVE

Ms. FERRARO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on the subject of my special order tonight.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman?

There was no objection.

UNEMPLOYMENT BENEFITS SHOULD BE EXTENDED

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Pennsylvania (Mr. WILLIAM J. COYNE) is recognized for 10 minutes.

● Mr. WILLIAM J. COYNE. Mr. Speaker, for thousands of western Pennsylvanians, unemployment stretches for weeks on end. Fewer places of employment combined with more people seeking work means that many are still jobless as they reach the end of their allotted unemployment compenstion.

Representative FORD, the chairman of the House Ways and Means Subcommittee on Public Assistance and Unemployment Compensation, recognizes the seriousness of this situation. He has introduced a measure, H.R. 7327, which would provide an additional 5 weeks of unemployment benefits to most Pennsylvanians who exhaust their current benefits.

I was pleased to be able to testify yesterday before Chairman FORD's subcommittee in favor of this much needed legislation. He is to be commended for an important initiative in the area of joblessness. While others in this city see unemployment compensation as a source of tax revenue, he correctly views it as necessary assistance to those who now bear the brunt of the recession.

At the Office of Management and Budget, those who have been forced off their jobs are perceived as a convenient source of revenue. The unemployed are seen as a politically weak segment of the population whose interests need not be considered, and whose unemployment benefits should therefore he taxed.

In western Pennsylvania, this segment of the population which some would totally disregard now comprises a large portion of the population. In the four-county Pittsburgh area, unemployment is 14.1 percent.

The overwhelming majority of people now on unemployment assistance are not there because they want to be there. They need no impetus such as increased taxes to leave the unemployment rolls. An available job at decent pay is all the incentive they need.

The economic policies of this administration, policies which are tied to a reliance on high interest rates, make this incentive a remote possibility. High interest rates and inaction at the national and international level have contributed to one of the most shocking statistics of a great industrial power—steelmaking plants operating at roughly a third of capacity. Many of the workers who operate these plants are operating at zero capacity, their ability to contribute to our economy hampered by the mistaken economic policies of this administration.

These workers should not be punished for economic decisions they did not make. But while unemployment is now higher than at any time since 1941, the jobless are receiving less in benefits than at any time in the past decade.

Consider the case in Pennsylvania. In September 1976, unemployment in my state stood at 7 percent, with an insured unemployment rate of 5.02 percent. The 358,000 unemployed Pennsylvanians were then entitled to 65 weeks of unemployment. These benefits were available, I hasten to add, under a Republican administration.

Six years later, with an unemployment rate of 10.9 percent and an insured unemployment rate of 6.48 percent, 601,000 Pennsylvanians were unemployed—nearly twice the number unemployed in 1976. Despite the severity of long-term unemployment in an industrial State, the maximum number of weeks of unemployment compensation is 49.

Pennsylvania is among the more fortunate States. It still qualifies for extended benefits under the crazy-quilt triggering mechanism enacted by Congress as part of the reconciliation tax bill of 1981. Thanks to the calculations of the number-crunchers at the Office of Management and Budget, less than half the States now qualify for the 13 weeks extended benefit. It is my understanding that the State of Louisiana, for example, is not entitled to the extended benefits. It has double the number of jobless it had a year ago.

H.R. 7327 does not address all of these problems. That is a task that should be high on the agenda of the new Congress when it convenes in January. This measure deals with a pressing, very human problem—carrying those nearing the end of their benefits through the holidays, and, in some cases, through the depths of winter.

I strongly support Chairman FORD's bill. It would extend the temporary Federal supplemental compensation (FSC) program enacted by Congress this year by 5 weeks for jobless workers who first received FSC benefits on or before December 1, 1982. In the State of Pennsylvania, this would mean a period of compensation of 54 weeks, a period more reflective of actual economic conditions. For those who first receive FSC benefits after December 1, total benefits could last up to 52 weeks. This bill would not extend the FSC program beyond its expiration date of March 31, 1983. It would increase the cost of the program by $650 million.

This Congress has a responsibility to insure that the victims of this recession are not forced to bear the total cost. The personal loss of a jobless worker—the destruction of self-esteem, the fear of the future, the possibility of economic catastrophe as the result of home mortgage foreclosure—already equals a crisis as serious as most of us will face in our lives. We should not add to that plight by failing to extend unemployment benefits as the winter months approach.

I urge prompt action on H.R. 7327. I look forward to a comprehensive review of our unemployment system. I am confident that review will result in a removal from the law of those provisions which seem at odds with actual economic conditions in severely depressed States.●

THE FOOD AND DRUG TAMPERING ACT OF 1982

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. PANETTA) is recognized for 5 minutes.

● Mr. PANETTA. Mr. Speaker, today I am introducing legislation to make tampering with food, drug, or cosmetic products which leads to death or personal injury a felony under Federal law. At present, product tampering is a Federal misdemeanor.

The recent rash of incidents involving the contamination of over-the-counter drugs was certainly a very disturbing revelation. In particular, the seven deaths in the Chicago area caused by the contamination of the drug Tylenol is a very sad event. In looking at the Tylenol case as well as the other deliberate acts of tampering which followed, we really have to ask ourselves what kind of person would carry out such an act.

Aside from the deaths which have been caused by such violent acts, the entire population of our Nation which use over-the-counter drugs is questioning the safety of all drugs and has become very reluctant to entertain their use. This is certainly understandable. However, the Federal Government and the drug industry must continue to work very hard to insure the safety of such products and restore and preserve the confidence of the many users.

I think we all are very pleased that the Food and Drug Administration acted promptly to develop regulations to require tamper-resistant protections on all over-the-counter drugs. Moreover, it is highly commendable that many drug companies acted voluntarily in the aftermath of the "Tylenol scare" to take necessary and precautionary actions. Congress and the Food and Drug Administration must continue to monitor very carefully the impact of the new safeguards which have been put in place. If necessary, the Federal Government must be ready to institute stronger measures to protect the safety of the over-the-counter drug market.

Finally, with the extensive involvement of interstate commerce in the distribution of drug products, I think it is necessary that we increase the penalties for violations of product tampering which leads to death or personal injury. The legislation I am introducing today would allow for a person convicted of tampering any food, drug, or cosmetic which leads to death to be sentenced up to life in prison. A conviction of tampering which caused serious injury would carry a sentence of up to 20 years. As we have witnessed with the drug tampering cases of late, these crimes have significant effects in drug markets all around the country. This impact, I believe, warrants the increased Federal penalty which I am proposing for the commission of such an act. I trust my colleagues will support this legislation.

The following is the text of the bill:

H.R. 7398

A bill to amend title 18, United States Code, to make unlawful the adulteration of any food, drug, or cosmetic carried out with knowledge that it is probable that the death or injury of a person will be caused by such adulteration

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That chapter 51 of title 18, United States Code, is amended by adding at the end thereof the following new section:

"§ 1118. Adulteration of food, drugs, and cosmetics

"(a) Whoever adulterates or causes to be adulterated a food, drug, or cosmetic in interstate commerce with knowledge that it is probable that such food, drug, or cosmetic will be inhaled, ingested, or used by any person and will cause the death of such person shall be imprisoned for a term of years or for life.

"(b) Whoever adulterates or causes to be adulterated any food, drug, or cosmetic with knowledge that it is probable that such food, drug, or cosmetic will be inhaled, ingested, or used by any person and will cause a severe and permanent, or life-threatening, physical or mental injury to such person shall be imprisoned for not to exceed 20 years.

"(c) For purposes of this section—

"(1) a food, drug, or cosmetic is adulterated if such food, drug, or cosmetic is deemed to be adulterated under section 402, 501, or 601, respectively, of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 342, 351, 361);

"(2) the term 'cosmetic' shall have the meaning given it in section 201(i) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(i));

"(3) the term 'drug' shall have the meaning given it in section 201(g)(1) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(g)(1));

"(4) the term 'food' shall have the meaning given it in section 201(f) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(f)); and

"(5) the term 'interstate commerce' shall have the meaning given it in section 201(b) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 321(b)).".

SEC. 2. The table of sections for chapter 51 of title 18, United States Code, is amended by adding at the end thereof the following new item:

"1118. Adulteration of food, drugs, and cosmetics.".●

TRIBUTE TO THE HONORABLE BO GINN

(Mr. PERKINS asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. PERKINS. Mr. Speaker, this is the second occasion in a week that I have taken to the floor to pay tribute to a departing colleague from the State of Georgia.

The service of Bo GINN, who will end his congressional term shortly, has been distinguished and beneficial to his State, as well as to the entire Nation.

His work as chairman of the Military Construction Subcommittee of the Appropriations Committee has been outstanding, and the Congress and the country will long be in his debt.

I have valued these 10 years of association with him in the House, and just regret that the years have gone by all too swiftly.

I am not much given to prophesy, but I think it is safe to say that the public career of Bo GINN is far from over. The people of Georgia recognize him as a man of great dedication and loyalty, and I have no doubt they will one day soon call upon him again for some position of high honor and trust. He is certainly deserving of it.

All of us wish our colleague well as he leaves us, and confidently look forward to seeing more of him in the future.●

TRIBUTE TO HON. JACK BRINKLEY

(Mr. PERKINS asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. PERKINS. Mr. Speaker, no one likes to say goodbye to old friends, and I am especially reluctant to see the departure of JACK BRINKLEY of Georgia from this House.

I have admired this fine legislator ever since he joined us in January 1967 and have been pleased to see his steady rise in the respect of the Members.

His fellow Georgians, I know, have been pleased by the quality of his service to them during these 16 years he has been with us.

JACK BRINKLEY follows in the tradition of distinguished service of Representatives from the State of Georgia. He is a hard working, reasonable, fair, and dedicated man.

His distinguished work on the Armed Services Committee and on behalf of our country's veterans on the Veterans' Affairs Committee will long be remembered.

I regret his decision to step down while still a young man and return to private pursuits, but I want him to know that he will be fondly remembered by his colleagues as he takes his leave.●

TRIBUTE TO HON. ROBERT H. MOLLOHAN

(Mr. PERKINS asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. PERKINS. Mr. Speaker, ROBERT H. MOLLOHAN has been my friend and neighbor for 30 years, and I am reluctant to see him leave this House and return to his native West Virginia.

Because we come from adjoining States in the Appalachian region of the Nation, BOB and I have shared an interest in many subjects that affect our people.

He has always been a cooperative and companionable man, and one who is keenly alert to the needs of his district and of his people.

BOB has had long experience in public service, going all the way back to his days as a deputy collector of internal revenue back in the early 1930's, and with the old Works Progress Administration during New Deal days.

He has had two stints of service here in the House, one from 1953 to 1957 and another from 1969 to the present day. He has certainly served his district and his State well, and has been a credit to this House.

I am delighted to know that he will be succeeded here by his son, who was elected to fill the seat on November 2, and I look forward to working with him just as I have with the father.●

TRIBUTE TO HON. SHIRLEY CHISHOLM

(Mr. PERKINS asked and was given permission to extend his remarks at this point in the RECORD and to include extraneous matter.)

● Mr. PERKINS. Mr. Speaker, I join with my colleagues in saluting the congressional service of our distinguished colleague from Brooklyn, SHIRLEY CHISHOLM, on the occasion of her retirement.

It has now been 14 years since SHIRLEY joined us. During the intervening years, she has been the eloquent spokesman not only for her district, but for the poor and disadvantaged all across this broad land.

For several years she was assigned to the Committee on Education and Labor, and I was able to see at close range the ability of this fine Member, and her capacity to unravel and get to the heart of the most complex issues before us.

Moreover, I have seen at firsthand her dedication to the goal of quality education in this country, not just for the privileged, but for all.

It was with genuine regret that I learned earlier this year that she had decided to retire and devote her time and tremendous energies to other matters.

I suspect that, in private life, her goals will not be much different than those she has had in Congress. I am very much comforted by that thought, for her goals and mine are very much the same, and I know that she will not sit idly by as long as there are hungry children, as long as there are poor schools, as long as there is injustice and the denial of opportunity, as long, in fact, as the great dream of America remains unfulfilled.

She is a born fighter for justice and I know she will have lance in hand, whether it be in public or private life.

Good luck to her as she departs hence.●

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. MAVROULES (at the request of Mr. WRIGHT), for today, on account of a death in the family.

Mr. HUNTER (at the request of Mr. MICHEL), after 3 p.m. today, on account of personal reasons.

Mr. ALEXANDER (at the request of Mr. WRIGHT), for today, on account of a death in the family.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. HOYER) to revise and extend their remarks and include extraneous material:)

Mr. STOKES, for 60 minutes, today.

Ms. FERRARO, for 60 minutes, today.

Mr. LAFALCE, for 5 minutes, today.

Mr. WILLIAM J. COYNE, for 10 minutes, today.

Mr. GONZALEZ, for 30 minutes, today.

Mr. PANETTA, for 5 minutes, today.

Mr. PHILLIP BURTON, for 60 minutes, December 10.

Mr. MILLER, of California, for 60 minutes, December 14.

(The following Members (at the request of Mr. MCGRATH) to revise and extend their remarks and include extraneous material:)

Mr. CORCORAN, for 15 minutes, today.

Mr. DANNEMEYER, for 60 minutes, December 10.

Mr. COURTER, for 60 minutes, December 13.

Mr. COURTER, for 60 minutes, December 14.

Mr. NELLIGAN, for 15 minutes, December 14.

Mr. GINGRICH, for 30 minutes, December 15.

Mrs. HOLT, for 60 minutes, December 15.

Mr. WINN, for 60 minutes, December 15.

Mr. NELLIGAN, for 15 minutes, December 15.

Mr. MCDADE, for 60 minutes, December 16.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. AUCOIN, prior to the vote on the Sensenbrenner amendment to H.R. 6957 in the Committee of the Whole today.

Mr. HARKIN, immediately after the remarks of Mr. MCDADE on the McDade amendment on the bill H.R. 6957, in the Committee of the Whole today.

(The following Members (at the request of Mr. HOYER) and to include extraneous matter:)

Mr. KILDEE.

Mr. TRAXLER.

Mr. MOFFETT.

Mr. MARKEY in 10 instances.

Mr. DINGELL in five instances.

Mr. PEPPER in two instances.

Mr. PANETTA.

Mr. MOTTL in three instances.

Mr. MURTHA.

Mr. STUDDS.

Mr. BARNES.

Mr. ROSTENKOWSKI.

Mr. HUBBARD.

Mr. SCHEUER.

Mrs. COLLINS of Illinois.

Mr. DELLUMS.

Mr. CONYERS.

Mr. LUNDINE.

Mr. DIXON.

Mr. OTTINGER in five instances.

Mr. LONG of Maryland in three instances.

Mr. GORE.

Mr. EDGAR.

Mr. BONKER in two instances.

Mr. HAMILTON.

Mr. WASHINGTON.

Mr. SOLARZ.

(The following Members (at the request of Mr. MCGRATH) and to include extraneous matter:)

Mr. GINGRICH.

Mr. CARMAN in three instances.

Mr. DANNEMEYER.

Mr. KEMP in two instances.

Mr. LUJAN.

Mr. COATS.

Mrs. SNOWE.

Mr. BROYHILL in five instances.

Mr. HANSEN of Idaho in nine instances.

Mr. LAGOMARSINO.

Mr. CORCORAN.

Mr. LENT in two instances.

Mr. CAMPBELL.

SENATE JOINT RESOLUTION REFERRED

A joint resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S.J. Res. 270. Joint resolution to designate 1983 as the "Bicentennial of Air and Space Flight"; to the Committee on Post Office and Civil Service.

ADJOURNMENT

Ms. FERRARO. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 10 o'clock and 43 minutes p.m.), the House adjourned until tomorrow, Friday, December 10, 1982, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

5263. A communication from the President of the United States, transmitting a request for an appropriation amendment for fiscal year 1983 for the Department of Agriculture (H. Doc. No. 97-266); to the Committee on Appropriations and ordered to be printed.

5264. A letter from the Assistant Secretary of the Navy (Shipbuilding and Logistics), transmitting notice of the Navy's decision to convert to contractor performance the Naval Regional Medical Center, Philadelphia, Pa., pursuant to section 502(b) of the Public Law 96-342; to the Committee on Armed Services.

5265. A letter from the Chairman, National Commission on Libraries and Information Science, transmitting legislative proposals to create jobs in the library and information service occupations; to the Committee on Education and Labor.

5266. A letter from the Secretary of Energy, transmitting the quarterly report on the strategic petroleum reserve, covering the last quarter of fiscal year 1982, pursuant to section 165(b) of the Energy Policy and Conservation Act, Public Law 94-163, added by the Strategic Petroleum Reserve Amendments Act contained in the Omnibus Budget Reconciliation Act of 1981, Public Law 97-35; to the Committee on Energy and Commerce.

5267. A letter from the Secretary of Education, transmitting notice of the Department's one-time computer match of its records of defaulted loans made under the guaranteed student loan and national direct student loan programs against records of currently employed and retired Federal personnel, and scheduled for publication in the Federal Register, pursuant to provisions of the Privacy Act of 1974; to the Committee on Government Operations.

5268. A letter from the U.S. Trade Representative, transmitting notice that on November 29, 1982, the President completely removed the moratorium for Canada which prohibits issuance of certificates or permits to motor carriers domiciled in, or owned or controlled by persons of, a contiguous foreign country, and scheduled for publication in the Federal Register, pursuant to section 6 of the Bus Regulatory Reform Act of 1982, Public Law 97-261; to the Committee on Public Works and Transportation.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. UDALL: Committee on Interior and Insular Affairs. S. 2710. An act to establish the Charles C. Dean Wilderness in the Hoosier National Forest, Ind. (Rept. No. 97-948, Pt. I). And ordered to be printed.

Mr. PERKINS: Committee on Education and Labor. H.R. 6820. A bill to provide for the operation of the Helen Keller National Center for Deaf-Blind Youths and Adults, to provide for the operation of the Vinland National Center for Healthsports and Phys-

ical Fitness for Handicapped Individuals and certain other centers which assist handicapped individuals in achieving greater independence, and to assure continued national support for other projects and services for the deaf and other handicapped individuals; with amendments (Rept. No. 97-950). Referred to the Committee of the Whole House on the State of the Union.

REPORTED BILLS SEQUENTIALLY REFERRED

Under clause 5 of rule X, bills and reports were delivered to the Clerk for printing, and bills referred as follows:

Mr. UDALL: Committee on Interior and Insular Affairs. S. 1965. An act to designate certain lands in the Mark Twain National Forest in Missouri, which comprise approximately 6,888 acres, and which are generally depicted on a map entitled "Paddy Creek Wilderness Area," as a component of the National Wilderness Preservation System; referred to the Committee on Agriculture for a period ending not later than December 10, 1982, for consideration of such portions of the bill as fall within that committee's jurisdiction pursuant to clause 1(a), rule X (Rept. No. 97-949, Pt. I). And ordered to be printed.

Mr. UDALL: Committee on Interior and Insular Affairs. H.R. 7340. A bill to designate certain National Forest System lands in the State of Oregon for inclusion in the National Wilderness Preservation System, and for other purposes; referred to the Committee on Agriculture for a period ending not later than December 10, 1982, for consideration of such portions of the bill as fall within that committee's jurisdiction pursuant to clause 1(a), rule X (Rept. No. 97-951, Pt. I). And ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. GIBBONS (for himself, Mr. ROSTENKOWSKI, Mr. CONABLE, Mr. VANDER JAGT, Mr. FRENZEL, Mr. WRIGHT, Mr. MICHEL, Mr. ZABLOCKI, and Mr. BROOMFIELD):

H.R. 7397. A bill to promote economic revitalization and facilitate expansion of economic opportunity in the Caribbean Basin region; to the Committee on Ways and Means.

By Mr. PANETTA:

H.R. 7398. A bill to amend title 18, United States Code, to make unlawful the adulteration of any food, drug, or cosmetic carried out with knowledge that it is probable that the death or injury of a person will be caused by such adulteration; to the Committee on the Judiciary.

By Mr. RINALDO:

H.R. 7399. A bill to amend title 18, United States Code, to combat, deter, and punish individuals who adulterate or otherwise tamper with food, drug, cosmetic, and other products with intent to cause personal injury, death, or harm; to the Committee on the Judiciary.

H.R. 7400. A bill to amend the Internal Revenue Code of 1954 to repeal the treatment of the deduction for circulation expenditures as an item of tax preference; to the Committee on Ways and Means.

By Mr. ROBINSON:

H.R. 7401. A bill to delay until January 1, 1984, the effect of any regulation issued by the Secretary of the Treasury concerning the establishment of a viticultural area if the name provided for such area contains the term "Shenandoah Valley"; to the Committee on Ways and Means.

By Mr. STENHOLM (for himself, Mr. MITCHELL of Maryland, Mr. HIGHTOWER, Mr. STANGELAND, Mr. HANCE, Mr. LEATH of Texas, Mr. ENGLISH, Mr. SKELTON, Mr. COLEMAN, Mr. MAVROULES, Mr. EVANS of Iowa, Mr. SAM B. HALL, JR., Mr. IRELAND, Mr. WAMPLER, Mr. SKEEN, Mr. LOEFFLER, and Mr. GLICKMAN):

H.R. 7402. A bill to clarify the eligibility of small agricultural cooperatives for assistance under section 7(b)(2) of the Small Business Act; to the Committee on Small Business.

By Mr. MINISH (for himself, Mr. ANNUNZIO, and Mr. RATCHFORD):

H. Res. 625. Resolution establishing one additional position on the Capitol Police for duty under the House of Representatives; considered and agreed to.

MEMORIALS

Under clause 4 of rule XXII, memorials were presented and referred as follows:

514. By the SPEAKER: Memorial of the General Assembly of the State of Arkansas, relative to the Public Employees Pension Plan Reporting and Accounting Act of 1982; jointly, to the Committees on Education and Labor and Ways and Means.

515. Also, memorial of the voters of the State of Michigan, relative to nuclear weapons freeze; jointly, to the Committees on Armed Services and Foreign Affairs.

PRIVATE BILLS AND RESOLUTIONS

Under clause 1 of rule XXII,

Mr. BOLLING introduced a bill (H.R. 7403) for the relief of certain Government physicians who were paid basic pay, performance awards, and physicians comparability allowances in aggregate amounts exceeding the limitation set forth in section 5383(b) of title 5, United States Code; which was referred to the Committee on the Judiciary.

ADDITIONAL SPONSORS

Under clause 4 of rule XXII, sponsors were added to public bills and resolutions as follows:

H.R. 1768: Mr. GINGRICH.

H.R. 4897: Mr. YATES.

H.R. 6255: Mr. DORGAN of North Dakota.

H.R. 6985: Mr. STOKES, Mr. GINGRICH, and Mr. LELAND.

H.R. 7218: Mr. PARRIS, Mr. MILLER of Ohio, Mr. WALKER, and Mr. JEFFRIES.

H.R. 7317: Mr. LAFALCE and Mr. RANGEL.

H.R. 7320: Mr. MCEWEN, Mr. BROWN of Colorado, Mrs. ROUKEMA, Mr. LAGOMARSINO, Mr. CRAIG, Mrs. MARTIN of Illinois, Mr. FIELDS, Mrs. BOUQUARD, Mr. PAUL, Mr. DANNEMEYER, Mr. FRANK, Mr. HUNTER, Mr. HENDON, Mr. ROTH, Mr. CLINGER, Mr. MCCOLLUM, Mr. MAVROULES, Mr. RINALDO, Mrs. FENWICK, Mr. GINGRICH, and Mr. BEDELL.

H.R. 7322: Mr. EDGAR, Mr. HOYER, and Mr. MINETA.

H.R. 7337: Mr. DIXON, Mr. WEISS, Mr. LOWRY of Washington, Mr. FRANK, Mr. OBERSTAR, Mrs. KENNELLY, Mr. DWYER, Mr. SABO, and Mr. LAFALCE.

H.J. Res. 459: Mr. FOGLIETTA, Mr. SYNAR, Mr. HOWARD, Mr. VENTO, Mr. BEVILL, Mr. CORRADA, Mr. HARTNETT, Mr. ALEXANDER, Mr. FINDLEY, Mr. HANSEN of Idaho, Mr. LATTA, Mr. BROWN of Ohio, Mr. RUDD, Mr. ANTHONY, Mr. DASCHLE, Mr. MOTTL, Mr. MURPHY, Mr. GOODLING, Mr. SCHEUER, Mr. MCEWEN, Mr. ARCHER, Mr. ADDABBO, Mr. ATKINSON, Mr. DICKINSON, Mr. KRAMER, Mr. BARNES, Mr. MARTINEZ, Mr. BLANCHARD, Mr. LEBOUTILLIER, and Mr. ANDERSON.

H.J. Res. 591: Mr. BADHAM, Mr. CHAPPIE, Mr. DERRICK, Mr. EVANS of Delaware, Mr. HUBBARD, Mr. OBERSTAR, and Mr. ROYBAL.

H.J. Res. 620: Mr. WEISS, Mrs. KENNELLY, Mr. LOWRY of Washington, Mr. FORD of Tennessee, Mr. SHAMANSKY, Mr. DELLUMS, Mr. MINISH, Mr. EDGAR, Mr. STUDDS, Mr. BONER of Tennessee, Mr. OTTINGER, Mr. MINETA, Mr. LEHMAN, Mr. PEPPER, Mr. MOFFETT, Mr. FROST, Mr. SIMON, Mr. FRENZEL, Mr. WAXMAN, Mr. VENTO, Mr. LEACH of Iowa, Mrs. ROUKEMA, Mr. WEAVER, and Mr. MAVROULES.

H. Con. Res. 413: Mr. DANIEL B. CRANE, Mrs. FENWICK, Mr. CLINGER, Mr. ROGERS, Mr. HORTON, Mrs. SNOWE, Mr. FORSYTHE, Mr. KRAMER, Mr. GINGRICH, and Mr. DYSON.

H. Res. 624: Mr. SABO, Mr. ERDAHL, Mr. RATCHFORD, Mr. BEREUTER, Mr. RODINO, Mr. WILLIAMS of Montana, Mr. ASPIN, Mr. ZABLOCKI, Mr. VOLKMER, and Mr. SIMON.

AMENDMENTS

Under clause 6 of rule XXIII, proposed amendments were submitted as follows:

H.R. 5133

By Mr. BEREUTER:

AMENDMENT (1)

—Section 1 of the act is amended to read as follows:

"SECTION 1. SHORT TITLE.—This Act may be cited as the 'Minimum Domestic Content in Motor Vehicles Act.'"

AMENDMENT (2)

—Section 4(a)(2) of the act is amended by deleting the words "Model Year 1984" and substituting therefor the words "Model Year 1986.".

AMENDMENT (3)

—Section 5(c) of the act is amended by the addition of the following sentence: "The Secretary shall invite public comment on such report, and shall take all comments received into consideration in prescribing rules and regulations for subsequent model years.".

By Mr. BETHUNE:

—Page 15, after line 2, insert the following new section:

SEC. 8. LIMITATION ON APPLICABILITY.—Notwithstanding any other provision of this Act, the provisions of this Act shall apply only to any vehicle manufacturer which has received funds pursuant to Public Law 96-185.

Renumber the succeeding sections accordingly.

By Mr. BROYHILL.

—Page 14, redesignate section 7 as section 8, and insert after line 11 the following new section:

SEC. 7. CONDITION TO ENFORCEMENT.

This Act shall not apply with respect to a vehicle manufacturer in a foreign country

unless the President determines that such country has in effect a law which imposes on vehicles sold in that country requirements at least as stringent as the requirements of section 4. The President shall have published in the Federal Register each determination made under this section.

Page 15, redesignate section 8 as section 9.

AMENDMENT (18)

—Page 14, insert after line 11 the following:

—SEC. 7. CONGRESSIONAL VETO.

(a) The Secretary shall transmit to the Secretary of the Senate and the Clerk of the House of Representatives a copy of any rule promulgated under this Act.

(b) Any rule specified in subsection (a) shall not take effect if—

(1) within the 90 calendar days of continuous session of the Congress which occur after the date of the promulgation of such rule, both Houses of the Congress adopt a concurrent resolution, the matter after the resolving clause of which is as follows (with the blank spaces appropriately filled): "That the Congress disapproves the rule promulgated by the Secretary of Transportation under the Fair Practices in Automotive Products Act with respect to ——, such rule having been transmitted to the Congress on ——."; or

(2) within the 60 calendar days of continuous session of the Congress which occur after the date of the promulgation of such rule, one House of the Congress adopts such concurrent resolution and tansmits such resolution to the other House and such resolution is not disapproved by such other House within the 30 calendar days of continuous session of the Congress which occur after the date of such transmittal.

(c)(1) The provisions of this subsection are enacted by the Congress—

(A) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of concurrent resolutions which are subject to this section, and such provisions supersede other rules only to the extent that they are inconsistent with such other rules; and

(B) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

(2)(A) Any concurrent resolution disapproving a rule of the Secretary shall, upon introduction or receipt from the other House of the Congress, be referred immediately by the presiding officer of such House to the Committee on Finance and the Committee on Commerce, Science, and Transportation of the Senate or to the Committee on Ways and Means and the Committee on Energy and Commerce of the House, as the case may be.

(B) If a committee to which a concurrent resolution is referred does not report such concurrent resolution before the end of the period of 30 calendar days of continuous session of the Congress after the referral of such resolution under subparagraph (A), it shall be in order to move to discharge any such committee from further consideration of such concurrent resolution.

(C)(i) A motion to discharge in the Senate may be made only by a Member favoring the concurrent resolution (except that it may not be made after the committee has reported a concurrent resolution with respect to the same rule of the Secretary), shall be privileged, and debate on such motion shall be limited to not more than 1 hour, to be divided equally between those favoring and those opposing the motion. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to. If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other concurrent resolution with respect to the same rule of the Secretary.

(ii) A motion to discharge in the House may be made by presentation in writing to the Clerk (except that it may not be made after the committee has reported a concurrent resolution of disapproval with respect to the same rule). The motion may be called up only if the motion has been signed by one-fifth of the Members of the House. The motion is highly privileged, and debate on such motion shall be limited to not more than 1 hour, the time to be divided equally between those favoring and those opposing the motion. An amendment to the motion is not in order, and it is not in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

(3)(A) When a committee has reported, or has been discharged from further consideration of, a concurrent resolution, it shall be at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the concurrent resolution. The motion shall be privileged in the Senate and highly privileged in the House of Representatives, and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(B) Debate on the concurrent resolution shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing such concurrent resolution. A motion further to limit debate shall not be debatable. An amendment to, or motion to recommit, the concurrent resolution shall not be in order, and it shall not be in order to move to reconsider the vote by which such concurrent resolution was agreed to or disagreed to.

(4) Appeals from the decision of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a concurrent resolution shall be decided without debate.

(5) Nowithstanding any other provision of this subsection, if a House has approved a concurrent resolution with respect to any rule of the Secretary, then it shall not be in order to consider in such House any other concurrent resolution with respect to the same rule.

(d) Congressional inaction on, or rejection of, a concurrent resolution of disapproval under this section shall not be construed as an expression of approval of the rule involved, and shall not be construed to create any presumption of validity with respect to such rule.

By Mr. COATS:

AMENDMENT (8)

—Page 16, after line 3, insert the following:

SEC. 8. SUNSET DATE.

This Act shall cease to have effect upon the expiration of sixty months after the month in which this Act is enacted.

AMENDMENT (10)

—Page 15, after line 2, insert the following new section:

SEC. 8. SECRETARY OF AGRICULTURE REPORTS.

Within one year after the date of enactment of this Act, the Secretary of Agriculture shall undertake an investigation, and submit to Congress a written report regarding the impacts of this Act upon the exportation of agricultural commodities from the United States.

Renumber the succeeding sections accordingly.

AMENDMENT (13)

—Page 3, line 20, strike "and".

Page 3, after line 20, insert the following:

"(B) the value of labor connected with the unloading, storing, transporting, and handling in the United States of automotive products imported by the vehicle manufacturer into the United States, including the cost of the transportation of such products to the United States if such transportation is carried out on United States flag vessels; and".

Page 3, line 21, strike out "(B)" and insert in lieu thereof "(C)".

By Mr. DANNEMEYER:

AMENDMENT (4)

—Page 3, strike out lines 3 through 5 and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Smoot-Hawley Trade Barriers Act of 1982".

AMENDMENT (5)

—Page 3, strike out lines 6 through 8 and insert in lieu thereof the following:

SEC. 2. PURPOSE.

The purpose of this Act is to reduce competition in the automobile industry, protect jobs in one industry to the detriment of jobs in other industries, irrespective of the effect on the price of automobiles to consumers.

AMENDMENT (7)

—Page 11, after the period on line 3 insert the following: "The Secretary shall invite public comments on each such report and shall take all comments received into consideration in prescribing rules and regulations for subsequent model years."

AMENDMENT (9)

—Page 13, strike out lines 10 through 13 and insert in lieu thereof the following:

(2)(A) An order assessing a civil penalty may only be issued after providing notice and opportunity for an agency hearing in accordance with section 554 of title 5, United States Code.

By Mrs. FENWICK:

AMENDMENT (1)

—Page 14,, after line 11, insert the following new section:

SEC. 7. RELATION TO TREATIES, CONVENTIONS, AND AGREEMENTS.

Notwithstanding any other provision of this Act, nothing in this Act shall be deemed to supersede the terms or conditions of any treaty, international convention, or agreement on tariffs and trade which is in existence on the date of enactment of this Act and to which the United States is a party.

Renumber the succeeding sections accordingly.

By Mr. FRENZEL:

AMENDMENT (2)

—On page 8, strike out lines 5 through 10 and insert in lieu thereof the following: "vehicle-manufacturer shall be the applicable

minimum content ratio specified in the following table".

AMENDMENT (3)

—On page 8, lines 3 and 4 strike "after January 1, 1983" where it appears and insert in lieu thereof "with the model year following a year in which increased imports result in a total market share for imports greater that 25 percent,".

AMENDMENT (4)

—On page 8 lines 3 and 4, strike "after January 1, 1983" where it appears and insert in lieu thereof: "With the model year following a year in which a quantitative restriction, orderly marketing agreement or voluntary restraint arrangement for automobiles ceases to be in effect".

AMENDMENT (5)

—On page 8, strike "100,000" each time it appears and insert in lieu thereof "300,000".

On page 9, line 16, strike "one-hundred thousand" and insert in lieu thereof "300,000".

AMENDMENT (6)

—Page 8, in the heading to the table after line 10 strike out "Number of motor vehicles produced by the manufacturer and sold in the United States during such year" and insert in lieu thereof: "Number of motor vehicles produced by the manufacturer during the model year and sold as new cars during such year in the United States".

AMENDMENT (9)

—Page 13, strike out lines 10 through 13 and insert in lieu thereof the following:

(2)(A) An order assessing a civil penalty may only be issued after providing notice and opportunity for an agency hearing in accordance with section 554 of title 5, United States Code.

AMENDMENT (12)

—Page 15, redesignate section 8 as section 9 and insert after line 2 the following new section:

SEC. 7. EMPLOYMENT WAIVER.

If during any model year the total of—

(1) the number of persons employed by a vehicle manufacturer in the United States, and

(2) the number of persons engaged in the sales in the United States of moter vehicles manufactured by the such manufacturer,

exceeds 1,000, sections 4 and 5 shall not apply to such manufacturer during such year.

AMENDMENT (14)

—Page 8, in the table following line 10, make the following changes:

Strike out "30 percent" and insert in lieu thereof "40 percent".

Strike out "60 percent" and insert in lieu thereof "70 percent".

Strike out "90 percent" and insert in lieu thereof "95 percent".

AMENDMENT (15)

—Page 8, in the table following line 10, make the following changes:

Strike out "900,000" each place it occurs and insert in lieu thereof "600,000".

Strike out "30,000" and insert in lieu thereof "20,000".

Strike out "15,000" and insert in lieu thereof "10,000".

Strike out "10,000" and insert in lieu thereof "6,750".

AMENDMENT (17)

—On page 13 line 8 strike "Each" and all that follows thereafter through line 9 and insert "for each violation.".

AMENDMENT (24)

—On page 8, line 3, redesignate subsection (a) as subsection (b) and insert after line 1 the following new subsection:

(a) Upon receipt of an affirmative finding from the International Trade Commission under section 201(a) of the Trade Act of 1974 that increased imports have been a substantial cause of serious injury to the automotive industry, the President shall provide, for the purpose of facilitating orderly adjustment to import competition,

(A) import relief under section 203(a) of the Trade Act of 1974;

(B) if such import relief taken under subsection (A) does not result in orderly adjustment to import competition, and if the President determines it is in the national economic interest, a minimum domestic content ratio for vehicle manufacturers under subsection (b).

AMENDMENT (1)

—Page 8, line 4, strike out "the minimum content ratio" and insert in lieu thereof "the President may by Executive order require that the minimum domestic content ratio".

(Amendment in the nature of a series of amendments.)

AMENDMENT (S)

—Section 1: Delete the word "Practices" and insert the word "Trade."

Section 2: Delete the word "production" and insert the words "fair trade."

Section 3: Delete subsection (a)(2); redesignate subsection (a)(5) as subsection (a)(2); redesignate subsection (a)(6) as subsection (a)(3); redesignate subsection (a)(7) as subsection (a)(4); redesignate subsection (a)(8) as subsection (a)(5); redesignate subsection (a)(9) as subsection (a)(6); and delete subsection (b).

Section 4: Delete.

Section 5: Redesignate as "Section 4." and delete the words "for purposes of carrying out section 4(a) and the enforcement provisions of section 6" from subsection (a) and insert the words "related to the U.S. content of vehicles which it sells in the United States.".

Section 6: Delete.

Section 7: Redesignate as "Section 5.".

Section 8: Redesignate as "Section 6." Following new "Section 6" insert the following new sections:

SEC. 7. ANALYSIS OF FOREIGN AUTOMOTIVE TRADE BARRIERS.

(a) IN GENERAL.—Title I (19 U.S.C. 2111 et seq.) is amended by adding at the end thereof the following new chapter:

"Chapter 8—BARRIERS TO AUTOMOTIVE MARKET ACCESS

"SEC. 181. ACTIONS CONCERNING BARRIERS TO AUTOMOTIVE MARKET ACCESS.

"(a) NATIONAL TRADE ESTIMATES.—

"(1) IN GENERAL.—Not later than the date on which the initial report is required under subsection (b)(1), the United States Trade Representative, through the interagency trade organization established pursuant to section 242(a) of the Trade Expansion Act of 1962, shall—

"(A) identify and analyze acts, policies, or practices which constitute significant barriers to, or distortions of—

"(i) United States exports of goods or automotive products services, and

"(ii) foreign direct investment by United States persons, especially if such investment has implications for trade in goods or services; and

"(B) make an estimate of the trade-distorting impact on United States commerce of any act, policy, or practice identified under subparagraph (A).

"(2) CERTAIN FACTORS TAKEN INTO ACCOUNT IN MAKING ANALYSIS AND ESTIMATES.—In making any analysis or estimate under paragraph (1), the Trade Representative shall take into account—

"(A) the relative impact of the act, policy, or practice on United States commerce;

"(B) the availability of information to document prices, market shares, and other matters necessary to demonstrate the effects of the act, policy, or practice;

"(C) the extent to which such act, policy, or practice is subject to international agreements to which the United States is a party; and

"(D) any advice given through appropriate committees established pursuant to section 135.

"(3) ANNUAL REVISIONS AND UPDATES.—The Trade Representative shall annually revise and update the analysis and estimate under paragraph (1).

"(b) REPORT TO CONGRESS.—

"(1) IN GENERAL.—On or before the date which is one year after the date of the enactment of the Reciprocal Trade and Investment Act of 1982, and each year thereafter, the Trade Representative shall submit the analysis and estimate under subsection (a) to the Committee on Finance of the Senate and to the Committee on Ways and Means of the House of Representatives.

"(2) REPORTS TO INCLUDE INFORMATION WITH RESPECT TO ACTION BEING TAKEN.—The Trade Representative shall include in each report submitted under paragraph (1) information with respect to any action taken to eliminate any act, policy, or practice identified under subsection (a), including, but not limited to—

"(A) any action under section 301, or

"(B) negotiations or consultations with foreign governments.

"(3) CONSULTATION WITH CONGRESS ON TRADE POLICY PRIORITIES.—The Trade Representative shall keep the committees described in paragraph (1) currently informed with respect to trade policy priorities for the purposes of expanding market opportunities.

"(c) ASSISTANCE OF OTHER AGENCIES.—

"(1) FURNISHING OF INFORMATION.—The head of each department or agency of the executive branch of the government, including any independent agency, is authorized and directed to furnish to the Trade Representative or to the appropriate agency, upon request, such data, reports, and other information as is necessary for the Trade Representative to carry out his functions under this section.

"(2) RESTRICTIONS ON RELEASE OR USE OF INFORMATION.—Nothing in this subsection shall authorize the release of information to, or the use of information by, the Trade Representative in a manner inconsistent with law or any procedure established pursuant thereto.

"(3) PERSONNEL AND SERVICES.—The head of any department, agency, or instrumentality of the United States may detail such personnel and may furnish such services, with or without reimbursement, as the Trade Representative may request to assist in carrying out his functions.".

(b) CONFORMING AMENDMENT.—The table of contents for title I is amended by adding at the end thereof the following:

"CHAPTER 8—BARRIERS TO MARKET ACCESS

"Sec. 181. Actions concerning barriers to market access.".

SEC. 8. AMENDMENTS TO TITLE III OF THE TRADE ACT OF 1974.

(a) PRESIDENTIAL ACTION IN THE CASE OF UNFAIR TRADE PRACTICES.—Section 301(a) (19 U.S.C. 2411(a)) is amended to read as follows:

"(a) DETERMINATIONS REQUIRING ACTION.—

"(1) IN GENERAL.—If the President determines that action by the United States is appropriate—

"(A) to enforce the rights of the United States under any trade agreement; or

"(B) to respond to any act, policy, or practice of a foreign country or instrumentality that—

"(i) is inconsistent with the provisions of, or otherwise denies benefits to the United States under, any trade agreement, or

"(ii) is unjustifiable, unreasonable, or discriminatory and burdens or restricts United States commerce;

the President shall take all appropriate and feasible action within his power to enforce such rights or to obtain the elimination of such act, policy, or practice.

"(2) SCOPE OF ACTION.—The President may exercise his authority under this section with respect to any goods or sector—

"(A) on a nondiscriminatory basis or solely against the foreign country or instrumentality involved, and

"(B) without regard to whether or not such goods or sector were involved in the act, policy, or practice identified under paragraph (1).".

(b) OTHER ACTION BY PRESIDENT.—Section 301(b) (19 U.S.C. 2411(b)) is amended—

(1) by striking out "and" at the end of paragraph (1);

(2) in paragraph (2)—

(A) by inserting "notwithstanding any other provision of law," before "impose";

(B) by striking out "products" and inserting in lieu thereof "goods"; and

(C) by striking out the period and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end thereof the following:

"(3) propose legislation where necessary and appropriate to carry out the objectives of subsection (a).

Any legislation proposed under paragraph (3) shall be treated as an implementing bill pursuant to the provisions of section 151, except that, for purposes of section 151(c)(1), no trade agreement shall be required and the day on which the implementing bill is submitted shall be treated as the day on which the trade agreement is submitted. The President shall notify Congress, and publish notice in the Federal Register, of his intention to propose legislation under paragraph (3) at least 90 days before the implementing bill is submitted.".

"(c) INITIATION OF INVESTIGATIONS BY OR ON MOTION OF TRADE REPRESENTATIVE.—

(1) IN GENERAL.—Section 302 (19 U.S.C. 2412) is amended to read as follows:

"SEC. 302. INITIATION OF INVESTIGATIONS BY UNITED STATES TRADE REPRESENTATIVE.

"(a) FILING OF PETITION.—

"(1) IN GENERAL.—Any interested person may file a petition with the United States Trade Representative (hereinafter in this chapter referred to as the 'Trade Representative') requesting the President to take action under section 301 and setting forth the allegations in support of the request.

"(2) REVIEW OF ALLEGATIONS.—The Trade Representative shall review the allegations in the petition and, not later than 45 days after the date on which he received the petition, shall determine whether to initiate an investigation.

"(b) DETERMINATIONS REGARDING PETITIONS.—

"(1) NEGATIVE DETERMINATION.—If the Trade Representative determines not to initiate an investigation with respect to a petition, he shall inform the petitioner of the reasons therefor and shall publish notice of the determination, together with a summary of such reasons, in the Federal Register.

"(2) AFFIRMATIVE DETERMINATION.—If the Trade Representative determines to initiate an investigation with respect to a petition, he shall initiate an investigation regarding the issues raised. The Trade Representative shall publish a summary of the petition in the Federal Register and shall, as soon as possible, provide opportunity for the presentation of views concerning the issues, including a public hearing—

"(A) within the 30-day period after the date of the determination (or on a date after such period if agreed to by the petitioner) if a public hearing within such period is requested in the petition; or

"(B) at such other time if a timely request therefor is made by the petitioner.

"(c) DETERMINATION TO INITIATE BY MOTION OF TRADE REPRESENTATIVE.—

"(1) DETERMINATION TO INITIATE.—If the Trade Representative determines with respect to any matter that an investigation should be initiated in order to advise the President concerning the exercise of the President's authority under section 301, the Trade Representative shall publish such determination in the Federal Register and such determination shall be treated as an affirmative determination under subsection (b)(2).

"(2) CONSULTATION BEFORE INITIATION.—The Trade Representative shall, before making any determination under paragraph (1), consult with appropriate committees established pursuant to section 135.".

(2) CONFORMING AMENDMENTS.—

(A) Section 141(d) is amended—

(i) by striking out "and" at the end of paragraph (6),

(ii) by striking out the period at the end of paragraph (7) and inserting in lieu thereof a semicolon and "and", and

(iii) by adding at the end thereof the following new paragraph:

"(8) provide, where authorized by law, copies of documents to persons at cost, except that any funds so received shall be credited to, and be available for use from, the account from which expenditures relating thereto were made.".

(B) Section 303 (19 U.S.C. 2413) is amended—

(i) by striking out "with respect to a petition";

(ii) by inserting "or the determination of the Trade Representative under section 302(c)(1)" after "in the petition"; and

(iii) by inserting "(if any)" after "petitioner".

(C) Section 304 (19 U.S.C. 2414) is amended by striking out "issues raised in the petition" and inserting in lieu thereof "matters under investigation" in paragraph (1) of subsection (a).

(D) The item relating to section 302 in the table of contents is amended to read as follows:

"Sec. 302. Initiation of investigations by United States Trade Representative.".

(d) EXTENSION OF TIME FOR REQUESTS FOR CONSULTATIONS.—Section 303 (19 U.S.C. 2413) is amended—

(1) by inserting "(a) IN GENERAL.—" before "On"; and

(2) by adding at the end thereof the following new subsection:

"(b) DELAY OF REQUEST FOR CONSULTATIONS FOR UP TO 90 DAYS.—

"(1) IN GENERAL.—Notwithstanding the provisions of subsection (a)—

"(A) the United States Trade Representative may delay for up to 90 days any request for consultations under subsection (a) for the purpose of verifying or improving the petition to ensure an adequate basis for consultation, and

"(B) if such consultations are delayed by reason of subparagraph (A), each time limitation under section 304 shall be extended for the period of such delay.

"(2) NOTICE AND REPORT.—The Trade Representative shall—

"(A) publish notice of any delay under paragraph (1) in the Federal Register, and

"(B) report to Congress on the reasons for such delay in the report required by section 306.".

(e) DEFINITIONS.—

(1) COMMERCE DEFINED.—Paragraph (1) of section 301(d) (19 U.S.C. 301(d)) is amended to read as follows:

"(1) DEFINITION OF COMMERCE.—The term 'commerce' includes, but is not limited to—

"(A) services associated with international trade, whether or not such services are related to specific goods, and

"(B) foreign direct investment by United States persons with implications for trade in goods or services.".

(2) UNREASONABLE, UNJUSTIFIABLE, AND DISCRIMINATORY DEFINED.—Section 301(d) (19 U.S.C. 2411(d)) is amended by adding at the end thereof the following new paragraphs:

"(3) DEFINITION OF UNREASONABLE.—The term 'unreasonable' means any act, policy, or practice which, while not necessarily in violation of or inconsistent with the international legal rights of the United States, is otherwise deemed to be unfair and inequitable. The term includes, but is not limited to, any act, policy, or practice which denies fair and equitable—

"(A) market opportunities;

"(B) opportunities for the establishment of an enterprise; or

"(C) provision of adequate protection of intellectual property rights.

"(4) DEFINITION OF UNJUSTIFIABLE.—

"(A) IN GENERAL.—The term 'unjustifiable' means any act, policy, or practice which is in violation of, or inconsistent with, the international legal rights of the United States.

"(B) CERTAIN ACTIONS INCLUDED.—The term 'unjustifiable' includes, but is not limited to, any act, policy, or practice described in subparagraph (A) which denies national or most-favored-nation treatment, the right of establishment, or protection of intellectual property rights.

"(5) DEFINITION OF DISCRIMINATORY.—The term 'discriminatory' includes where appropriate any act, policy, or practice which denies national or most-favored-nation treatment to United States goods, services, or investment.".

(3) CONFORMING AMENDMENT.—Section 301(d) (19 U.S.C. 2411(d)) is amended by striking out the heading and inserting in lieu thereof:

"(d) DEFINITIONS; SPECIAL RULE FOR VESSEL CONSTRUCTION SUBSIDIES.—For purposes of this section—".

(f) AMENDMENTS TO SECTION 305.—Section 305 of the Trade Act of 1974 (19 U.S.C.

2415) is amended by adding at the end thereof the following new subsection:

"(c) CERTAIN BUSINESS INFORMATION NOT MADE AVAILABLE.—

"(1) IN GENERAL.—Except as provided in paragraph (2), and notwithstanding any other provision of law (including section 552 of title 5, United States Code), no information requested and received by the Trade Representative in aid of any investigation under this chapter shall be made available to any person if—

"(A) the person providing such information certifies that—

"(i) such information is business confidential,

"(ii) the disclosure of such information would endanger trade secrets or profitability, and

"(iii) such information is not generally available;

"(B) the Trade Representative determines that such certification is well-founded; and

"(C) to the extent required in regulations prescribed by the Trade Representative, the person providing such information provides an adequate nonconfidential summary of such information.

"(2) USE OF INFORMATION.—The Trade Representative may—

"(A) use such information, or make such information available (in his own discretion) to any employee of the Federal Government for use, in any investigation under this chapter, or

"(B) may make such information available to any other person in a form which cannot be associated with, or otherwise identify, the person providing the information.".

AMENDMENT (3)

(Amendment in the nature of a substitute.)

—Strike all after the enacting clause and insert in lieu thereof:

SECTION 1. SHORT TITLE; AMENDMENT OF TRADE ACT OF 1974.

(a) SHORT TITLE.—This Act may be cited as the "Reciprocal Trade and Investment Act of 1982".

(b) AMENDMENT OF TRADE ACT OF 1974.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Trade Act of 1974.

SEC. 2. STATEMENT OF PURPOSES.

The purposes of this Act are—

(1) to foster the economic growth of, and full employment in, the United States by expanding competitive United States exports through the achievement of commercial opportunities in foreign markets substantially equivalent to those accorded by the United States;

(2) to improve the ability of the President—

(A) to identify and to analyze barriers to (and restrictions on) United States trade and investment, and

(B) to achieve the elimination of such barriers and restrictions;

(3) to encourage the expansion of international trade in services through the negotiation of agreements (both bilateral and multilateral) which reduce or eliminate barriers to international trade in services; and

(4) to enhance the free flow of foreign direct investment through the negotiation of agreements (both bilateral and multilateral) which reduce or eliminate the trade distortive effects of certain investment-related measures.

SEC. 3. ANALYSIS OF FOREIGN TRADE BARRIERS.

(a) IN GENERAL.—Title I (19 U.S.C. 2111 et seq.) is amended by adding at the end thereof the following new chapter:

"CHAPTER 8—BARRIERS TO MARKET ACCESS

"SEC. 181. ACTIONS CONCERNING BARRIERS TO MARKET ACCESS.

"(a) NATIONAL TRADE ESTIMATES.—

"(1) IN GENERAL.—Not later than the date on which the initial report is required under subsection (b)(1), the United States Trade Representative, through the interagency trade organization established pursuant to section 242(a) of the Trade Expansion Act of 1962, shall—(A) identify and analyze acts, policies, or practices which constitute significant barriers to, or distortions of—

"(i) United States exports of goods or services, and

"(ii) foreign direct investment by United States persons, especially if such investment has implications for trade in goods or services; and

"(B) make an estimate of the trade-distorting impact on United States commerce of any act, policy, or practice identified under subparagraph (A).

"(2) CERTAIN FACTORS TAKEN INTO ACCOUNT IN MAKING ANALYSIS AND ESTIMATE.—In making any analysis or estimate under paragraph (1), the Trade Representative shall take into account—

"(A) the relative impact of the act, policy, or practice on United States commerce;

"(B) the availability of information to document prices, market shares, and other matters necessary to demonstrate the effects of the act, policy, or practice;

"(C) the extent to which such act, policy, or practice is subject to international agreements to which the United States is a party; and

"(D) any advice given through appropriate committees established pursuant to section 135.

"(3) ANNUAL REVISIONS AND UPDATES.—The Trade Representative shall annually revise and update the analysis and estimate under paragraph (1).

"(b) REPORT TO CONGRESS.—

"(1) IN GENERAL.—On or before the date which is one year after the date of the enactment of the Reciprocal Trade and Investment Act of 1982, and each year thereafter, the Trade Representative shall submit the analysis and estimate under subsection (a) to the Committee on Finance of the Senate and to the Committee on Ways and Means of the House of Representatives.

"(2) REPORTS TO INCLUDE INFORMATION WITH RESPECT TO ACTION BEING TAKEN.—The Trade Representative shall include in each report submitted under paragraph (1) information with respect to any action taken to eliminate any act, policy, or practice identified under subsection (a), including, but not limited to—

"(A) any action under section 301, or

"(B) negotiations or consultations with foreign governments.

"(3) CONSULTATION WITH CONGRESS ON TRADE POLICY PRIORITIES.—The Trade Representative shall keep the committees described in paragraph (1) currently informed with respect to trade policy priorities for the purposes of expanding market opportunities.

"(c) ASSISTANCE OF OTHER AGENCIES.—

"(1) FURNISHING OF INFORMATION.—The head of each department or agency of the executive branch of the Government, including any independent agency, is authorized and directed to furnish to the Trade Representative or to the appropriate agency, upon request, such data, reports, and other information as is necessary for the Trade Representative to carry out his functions under this section.

"(2) RESTRICTIONS ON RELEASE OR USE OF INFORMATION.—Nothing in this subsection shall authorize the release of information to, or the use of information by, the Trade Representative in a manner inconsistent with law or any procedure established pursuant thereto.

"(3) PERSONNEL AND SERVICES.—The head of any department, agency, or instrumentality of the United States may detail such personnel and may furnish such services, with or without reimbursement, as the Trade Representative may request to assist in carrying out his functions.".

(b) CONFORMING AMENDMENT.—The table of contents for title I is amended by adding at the end thereof the following:

"CHAPTER 8—BARRIERS TO MARKET ACCESS

"Sec. 181. Actions concerning barriers to market access.".

SEC. 4. AMENDMENTS TO TITLE III OF THE TRADE ACT OF 1974.

(a) PRESIDENTIAL ACTION IN THE CASE OF UNFAIR TRADE PRACTICES.—Section 301(a) (19 U.S.C. 2411(a)) is amended to read as follows:

"(a) DETERMINATIONS REQUIRING ACTION.—

"(1) IN GENERAL.—If the President determines that action by the United States is appropriate—

"(A) to enforce the rights of the United States under any trade agreement; or

"(B) to respond to any act, policy, or practice of a foreign country or instrumentality that—

"(i) is inconsistent with the provisions of, or otherwise denies benefits to the United States under, any trade agreement, or

"(ii) is unjustifiable, unreasonable, or discriminatory and burdens or restricts United States commerce;

the President shall take all appropriate and feasible action within his power to enforce such rights or to obtain the elimination of such act, policy, or practice.

"(2) SCOPE OF ACTION.—The President may exercise his authority under this section with respect to any goods or sector—

"(A) on a nondiscriminatory basis or solely against the foreign country or instrumentality involved, and

"(B) without regard to whether or not such goods or sector were involved in the act, policy, or practice identified under paragraph (1).".

(b) OTHER ACTION BY PRESIDENT.—Section 301(b) (19 U.S.C. 2411(b)) is amended—

(1) by striking out "and" at the end of paragraph (1);

(2) in paragraph (2)—

(A) by inserting "notwithstanding any other provision of law," before "impose";

(B) by striking out "products" and inserting in lieu thereof "goods"; and

(C) by striking out the period and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end thereof the following:

"(3) propose legislation where necessary and appropriate to carry out the objectives of subsection (a).

Any legislation proposed under paragraph (3) shall be treated as an implementing bill pursuant to the provisions of section 151, except that, for purposes of section 151(c)(1), no trade agreement shall be re-

quired and the day on which the implementing bill is submitted shall be treated as the day on which the trade agreement is submitted. The President shall notify Congress, and publish notice in the Federal Register, of his intention to propose legislation under paragraph (3) at least 90 days before the implementing bill is submitted.".

(c) INITIATION OF INVESTIGATIONS BY OR ON MOTION OF TRADE REPRESENTATIVE.—

(1) IN GENERAL.—Section 302 (19 U.S.C. 2412) is amended to read as follows:

"SEC. 302. INITIATION OF INVESTIGATIONS BY UNITED STATES TRADE REPRESENTATIVE.

"(a) FILING OF PETITION.—

"(1) IN GENERAL.—Any interested person may file a petition with the United States Trade Representative (hereinafter in this chapter referred to as the 'Trade Representative') requesting the President to take action under section 301 and setting forth the allegations in support of the request.

"(2) REVIEW OF ALLEGATIONS.—The Trade Representative shall review the allegations in the petition and, not later than 45 days after the date on which he received the petition, shall determine whether to initiate an investigation.

"(b) DETERMINATIONS REGARDING PETITIONS.—

"(1) NEGATIVE DETERMINATION.—If the Trade Representative determines not to initiate an investigation with respect to a petition, he shall inform the petitioner of the reasons therefor and shall publish notice of the determination, together with a summary of such reasons, in the Federal Register.

"(2) AFFIRMATIVE DETERMINATION.—If the Trade Representative determines to initiate an investigation with respect to a petition, he shall initiate an investigation regarding the issues raised. The Trade Representative shall publish a summary of the petition in the Federal Register and shall, as soon as possible, provide opportunity for the presentation of views concerning the issues, including a public hearing—

"(A) within the 30-day period after the date of the determination (or on a date after such period if agreed to by the petitioner) if a public hearing within such period is requested in the petition; or

"(B) at such other time if a timely request therefor is made by the petitioner.

"(c) DETERMINATION TO INITIATE BY MOTION OF TRADE REPRESENTATIVE.—

"(1) DETERMINATION TO INITIATE.—If the Trade Representative determines with respect to any matter that an investigation should be initiated in order to advise the President concerning the exercise of the President's authority under section 301, the Trade Representative shall publish such determination in the Federal Register and such determination shall be treated as an affirmative determination under subsection (b)(2).

"(2) CONSULTATION BEFORE INITIATION.—The Trade Representative shall, before making any determination under paragraph (1), consult with appropriate committees established pursuant to section 135.".

(2) CONFORMING AMENDMENTS.—

(A) Section 141(d) is amended—

(i) by striking out "and" at the end of paragraph (6),

(ii) by striking out the period at the end of paragraph (7) and inserting in lieu thereof a semicolon and "and", and

(iii) by adding at the end thereof the following new paragraph:

"(8) provide, where authorized by law, copies of documents to persons at cost, except that any funds so received shall be credited to, and be available for use from, the account from which expenditures relating thereto were made.".

(B) Section 303 (19 U.S.C. 2413) is amended—

(i) by striking out "with respect to a petition";

(ii) by inserting "or the determination of the Trade Representative under section 302(c)(1)" after "in the petition"; and

(iii) by inserting "(if any)" after "petitioner".

(C) Section 304 (19 U.S.C. 2414) is amended by striking out "issues raised in the petition" and inserting in lieu thereof "matters under investigation" in paragraph (1) of subsection (a).

(D) The item relating to section 302 in the table of contents is amended to read as follows:

"Sec. 302. Initiation of investigations by United States Trade Representative.".

(d) EXTENSION OF TIME FOR REQUESTS FOR CONSULTATIONS.—Section 303 (19 U.S.C. 2413) is amended—

(1) by inserting "(a) IN GENERAL.—" before "On"; and

(2) by adding at the end thereof the following new subsection:

"(b) DELAY OF REQUEST FOR CONSULTATIONS FOR UP TO 90 DAYS.—

"(1) IN GENERAL.—Notwithstanding the provisions of subsection (a)—

"(A) the United States Trade Representative may delay for up to 90 days any request for consultations under subsection (a) for the purpose of verifying or improving the petition to ensure an adequate basis for consultation, and

"(B) if such consultations are delayed by reason of subparagraph (A), each time limitation under section 304 shall be extended for the period of such delay.

"(2) NOTICE AND REPORT.—The Trade Representative shall—

"(A) publish notice of any delay under paragraph (1) in the Federal Register, and

"(B) report to Congress on the reasons for such delay in the report required by section 306.".

(e) DEFINITIONS.—

(1) COMMERCE DEFINED.—Paragraph (1) of section 301(d) (19 U.S.C. 301(d)) is amended to read as follows:

"(1) DEFINITION OF COMMERCE.—The term 'commerce' includes, but is not limited to—

"(A) services associated with international trade, whether or not such services are related to specific goods, and

"(B) foreign direct investment by United States persons with implications for trade in goods or services.".

(2) UNREASONABLE, UNJUSTIFIABLE, AND DISCRIMINATORY DEFINED.—Section 301(d) (19 U.S.C. 2411(d)) is amended by adding at the end thereof the following new paragraphs:

"(3) DEFINITION OF UNREASONABLE.—The term 'unreasonable' means any act, policy, or practice which, while not necessarily in violation of or inconsistent with the international legal rights of the United States, is otherwise deemed to be unfair and inequitable. The term includes, but is not limited to, any act, policy, or practice which denies fair and equitable—

"(A) market opportunities;

"(B) opportunities for the establishment of an enterprise; or

"(C) provision of adequate protection of intellectual property rights.

"(4) DEFINITION OF UNJUSTIFIABLE.—

"(A) IN GENERAL.—The term 'unjustifiable' means any act, policy, or practice which is in violation of, or inconsistent with, the international legal rights of the United States.

"(B) CERTAIN ACTIONS INCLUDED.—The term 'unjustifiable' includes, but is not limited to, any act, policy, or practice described in subparagraph (A) which denies national or most-favored-nation treatment, the right of establishment, or protection of intellectual property rights.

"(5) DEFINITION OF DISCRIMINATORY.—The term 'discriminatory' includes where appropriate any act, policy, or practice which denies national or most-favored-nation treatment to United States goods, services, or investment.".

(3) CONFORMING AMENDMENT.—Section 301(d) (19 U.S.C. 2411(d)) is amended by striking out the heading and inserting in lieu thereof:

"(d) DEFINITIONS; SPECIAL RULE FOR VESSEL CONSTRUCTION SUBSIDIES.—For purposes of this section—".

(f) AMENDMENTS TO SECTION 305.—Section 305 of the Trade Act of 1974 (19 U.S.C. 2415) is amended by adding at the end thereof the following new subsection:

"(c) CERTAIN BUSINESS INFORMATION NOT MADE AVAILABLE.—

"(1) IN GENERAL.—Except as provided in paragraph (2), and notwithstanding any other provision of law (including section 552 of title 5, United States Code), no information requested and received by the Trade Representative in aid of any investigation under this chapter shall be made available to any person if—

"(A) the person providing such information certifies that—

"(i) such information is business confidential,

"(ii) the disclosure of such information would endanger trade secrets or profitability, and

"(iii) such information is not generally available;

"(B) the Trade Representative determines that such certification is well-founded; and

"(C) to the extent required in regulations prescribed by the Trade Representative, the person providing such information provides an adequate nonconfidential summary of such information.

"(2) USE OF INFORMATION.—The Trade Representative may—

"(A) use such information, or make such information available (in his own discretion) to any employee of the Federal Government for use, in any investigation under this chapter, or

"(B) may make such information available to any other person in a form which cannot be associated with, or otherwise identify, the person providing the information.".

SEC. 5. NEGOTIATING OBJECTIVES WITH RESPECT TO INTERNATIONAL TRADE IN SERVICES AND INVESTMENT AND HIGH TECHNOLOGY INDUSTRIES.

(a) NEGOTIATING OBJECTIVES.—

(1) IN GENERAL.—Chapter 1 of title I is amended by inserting immediately after section 104 the following new section:

"SEC. 104A. NEGOTIATING OBJECTIVES WITH RESPECT TO TRADE IN SERVICES, FOREIGN DIRECT INVESTMENT, AND HIGH TECHNOLOGY PRODUCTS.

"(a) TRADE IN SERVICES.—Principal United States negotiating objectives under section 102 shall be—

"(1) to reduce or to eliminate barriers to, or other distortions of, international trade in services (particularly United States service sector trade in foreign markets), including barriers that deny national treatment

and the rights of establishment and operation in such markets; and

"(2) to develop internationally agreed rules, including dispute settlement procedures, which—

"(A) are consistent with the commercial policies of the United States, and

"(B) will reduce or eliminate such barriers or distortions and help ensure open international trade in services.

"(b) FOREIGN DIRECT INVESTMENT.—Principal United States negotiating objectives under section 102 shall be—

"(1) to reduce or to eliminate artificial or trade-distorting barriers to foreign direct investment, to expand the principle of national treatment, and to reduce unreasonable barriers to establishment; and

"(2) to develop internationally agreed rules, including dispute settlement procedures, which—

"(A) will help ensure a free flow of foreign direct investment, and

"(B) will reduce or eliminate the trade distortive effects of certain investment related measures.

"(c) HIGH TECHNOLOGY PRODUCTS.—Principal United States negotiating objectives shall be—

"(1) to obtain and preserve the maximum openness with respect to international trade and investment in high technology products and related services;

"(2) to obtain the elimination or reduction of, or compensation for, the significantly distorting effects of, foreign government acts, policies, or practices identified in section 181, with particular consideration given to the nature and extent of foreign government intervention affecting United States exports of high technology products or investments in high technology industries, including—

"(A) foreign industrial policies which distort international trade or investment;

"(B) measures which deny national treatment or otherwise discriminate in favor of domestic high technology industries;

"(C) measures which impair access to domestic markets for key commodity products; and

"(D) measures which facilitate or encourage anticompetitive market practices or structures;

"(3) to obtain commitments that official policy of foreign countries or instrumentalities will not discourage government or private procurement of foreign high technology products and related services;

"(4) to obtain the reduction or elimination of all tariffs on, and other barriers to, United States exports of high technology products and related services;

"(5) to obtain commitments to foster national treatment;

"(6) to obtain commitments to—

"(A) foster the pursuit of joint scientific cooperation between companies, institutions or governmental entities of the United States and those of the trading partners of the United States in areas of mutual interest through such measures as financial participation and technical and personnel exchanges, and

"(B) ensure that access by all participants to the results of any such cooperative efforts should not be impaired; and

"(7) to provide effective minimum safeguards for the acquisition and enforcement of intellectual property rights and the property value of proprietary data.

"(d) DEFINITION OF BARRIERS AND OTHER DISTORTIONS.—For purposes of subsection (a), the term 'barriers to, or other distortions of, international trade in services' includes, but is not limited to—

"(1) barriers to the right of establishment in foreign markets, and

"(2) restrictions on the operation of enterprises in foreign markets, including—

"(A) direct or indirect restrictions on the transfer of information into, or out of, the country or instrumentality concerned, and

"(B) restrictions on the use of data processing facilities within or outside of such country or instrumentality.".

(2) CONFORMING AMENDMENT.—The table of contents for chapter 1 of title I is amended by inserting after the item relating to section 104 the following new item:

"Sec. 104A. Negotiating objectives with respect to trade in services, foreign direct investment, and high technology products.".

SEC. 6. PROVISIONS RELATING TO INTERNATIONAL TRADE IN SERVICES.

(a) COORDINATION OF UNITED STATES POLICIES.—

(1) IN GENERAL.—The United States Trade Representative, through the interagency trade organization established pursuant to section 242(a) of the Trade Expansion Act of 1962 or any subcommittee thereof, shall, in conformance with other provisions of law, develop (and coordinate the implementation of) United States policies concerning trade in services.

(2) FEDERAL AGENCIES.—In order to encourage effective development and coordination of United States policies on trade in services, each department or agency of the United States responsible for the regulation of any service sector industry shall, as appropriate, advise and work with the United States Trade Representative concerning matters that have come to the department's or agency's attention with respect to—

(A) the treatment afforded United States service sector interests in foreign markets, or

(B) allegations of unfair practices by foreign governments or companies in a service sector.

(3) NO ALTERATION OF EXISTING AUTHORITY.—Nothing in this section shall be construed to alter any existing authority or responsibility with respect to any specific service sector.

(b) SERVICE INDUSTRIES DEVELOPMENT PROGRAM.—

(1) IN GENERAL.—The Secretary of Commerce is authorized to establish a service industries development program. Such program shall be designed to—

(A) promote the competitiveness of United States service firms and American employees through appropriate economic policies;

(B) promote actively the use and sale of United States services abroad and develop trade opportunities for United States service firms;

(C) develop a data base for policymaking pertaining to services;

(D) collect and analyze, in consultation with appropriate agencies, information pertaining to the international operations and competitiveness of United States service industries, including information with respect to—

(i) United States regulation of service industries;

(ii) tax treatment of services, with particular emphasis on the effect of United States taxation on the international competitiveness of United States firms and exports;

(iii) antitrust policies as such policies affect the competitiveness of United States firms;

(iv) treatment of services in international agreements of the United States; and

(v) adequacy of current United States export promotion activities in the service sector;

(E) provide, together with other appropriate agencies, staff support for negotiations on service-related issues by the United States Trade Representative and the domestic implementation of service-related agreements;

(F) collect such statistical information on the domestic service sector as may be necessary for the development of governmental policies toward the service sector;

(G) conduct sectoral studies of domestic service industries;

(H) collect comparative international information on service industries and policies of foreign governments toward services;

(I) develop policies to strengthen the export competitiveness of domestic service industries;

(J) conduct a program of research and analysis of service-related issues and problems, including forecasts and industrial strategies; and

(K) provide statistical, analytical, and policy information to State and local governments and service industries.

(2) AVAILABILITY OF FUNDS.—The Secretary of Commerce shall carry out the program under this subsection from funds otherwise made available to him which may be used for such purposes.

(c) COORDINATION WITH STATES.—

(1) STATEMENT OF POLICY.—It is the policy of Congress that the President shall, as he deems appropriate—

(A) consult with State governments on issues of trade policy affecting the regulatory authority of non-federal governments, or their procurement of goods and services; and

(B) establish one or more intergovernmental policy advisory committees on trade which shall serve as a principal forum in which State and local governments may consult with the Federal Government with respect to the matters described in subparagraph (A).

(2) ESTABLISHMENT OF NON-FEDERAL GOVERNMENTAL TRADE ADVISORY COMMITTEES.—Section 135 (19 U.S.C. 2155) is amended—

(A) by inserting "and the non-Federal governmental sector" after "private sector" in subsection (a),

(B) by adding at the end of subsection (c) the following new paragraph:

"(3) The President—

"(A) may establish policy advisory committees representing non-Federal governmental interests to provide, where the President finds it necessary, policy advice—

"(i) on matters referred to in subsection (a), and

"(ii) with respect to implementation of trade agreements, and

"(B) shall include as members of committees established under paragraph (2) representatives of non-Federal governmental interests where he finds such inclusion appropriate after consultation by the Trade Representative with such representatives.";

(C) by inserting "or non-Federal government" after "private" each place it appears in subsections (g) and (j);

(D) by inserting "government," before "labor" in subsection (j); and

(E) by adding at the end thereof the following new subsection:

"(m) NON-FEDERAL GOVERNMENT DEFINED.—The term 'non-Federal government' means—

"(1) any State, territory or possession of the United States, or the District of Columbia, or any political subdivision thereof, or

"(2) any agency or instrumentality of any entity described in paragraph (1).''; and

(F) by inserting "or Public" after "Private" in the heading thereof.

(3) CONFORMING AMENDMENTS.—

(A) Section 104(c) (19 U.S.C. 2114(c)) is amended by inserting "or non-Federal governmental" after "private".

(B) Sections 303 (19 U.S.C. 2413) and 304(b)(2) (19 U.S.C. 2414(b)(2)) are each amended by striking out "private sector".

(C) The table of sections for chapter 3 of title I is amended by inserting "and public" after "private" in the item relating to section 135.

SEC. 7. NEGOTIATING AUTHORITY WITH RESPECT TO FOREIGN DIRECT INVESTMENT.

Paragraph (3) of section 102(g) (19 U.S.C. 2112(g)(3)) is amended to read as follows:

"(3) the term 'international trade' includes—

"(A) trade in both goods and services, and

"(B) foreign direct investment by United States persons, especially if such investment has implications for trade in goods and services.".

SEC. 8. NEGOTIATION OF AGREEMENTS CONCERNING HIGH TECHNOLOGY INDUSTRIES.

(a) AUTHORIZATION TO ENTER INTO AGREEMENTS.—The President may enter into such bilateral or multilateral agreements as may be necessary or appropriate to achieve the objectives of this section and the negotiating objectives under section 104A(c) of the Trade Act of 1974.

(b) ANALYSIS OF FACTORS WHICH INFLUENCE UNITED STATES COMPETITIVENESS IN HIGH TECHNOLOGY INDUSTRIES.—In order to maintain and enhance the competitiveness of United States high technology industries, the Department of Commerce shall submit a report to Congress within one year of the date of the enactment of this Act analyzing factors not addressed in this Act which significantly affect the competitiveness of United States high technology industries and which have a potential for high sales growth in world markets, including—

(1) United States and foreign economic policies, in particular macroeconomic, regulatory, and sector or factor specific policies; and

(2) the structure of markets which supply production factors to, and distribute the product of, such industries.

(Amendment in the nature of a substitute, or as a series of amendments.)

AMENDMENT (4)

—SECTION 1. SHORT TITLE.

This Act may be cited as the "Fair Trade in Automotive Products Act".

SEC. 2. PURPOSE.

The purpose of this Act is to encourage the fair trade of automotive products in the United States.

SEC. 3. DEFINITIONS.

(a) IN GENERAL.—As used in this Act—

(1) The term "automotive products" means motor vehicles and parts for use in the production of new motor vehicles.

(2) The term "model year" means a vehicle manufacturer's annual production period (as determined by the Secretary) which includes January 1 of a calendar year, or if a vehicle manufacturer does not have an annual production period, the calendar year. A model year shall be designated by the year in which January 1 occurs.

(3) The term "motor vehicle" means any 3-wheeled or 4-wheeled vehicle propelled by fuel which is manufactured primarily for use on the public streets, roads, and highways (except any vehicle operated exclusively on a rail or rails), and which is rated at 10,000 pounds gross vehicle weight or less. Such term does not include (A) any motorcycle, or (B) any vehicle determined by the Secretary to be an automobile capable of off-highway operation within the meaining of section 501(3) of the Motor Vehicle Information and Cost Savings Act.

(4) The term "production cost" means, with respect to an automotive product, the wholesale price to dealers in the United States for the product as set forth in the vehicle manufacturer's official dealer price list that is in effect at the time the product is sold as wholesale.

(5) The term "Secretary" means the Secretary of Transportation.

(6) The term "vehicle manufacturer" means any person engaged in the business of producing motor vehicles for ultimate retail sale in the United States and includes as one entity all persons who control, are controlled by, or are in common control with, such person. Such term also includes any predecessor or successor of such a vehicle manufacturer.

SEC. 4. INFORMATION AND REPORTS.

(a) VEHICLE MANUFACTURERS RECORDS AND INFORMATION.—Each vehicle manufacturer that produces more than 100,000 motor vehicles for sale in the United States during any model year after model year 1982 must establish and maintain such records, and provide such information, regarding the production and sale of automotive products by it as the Secretary by rule shall require related to the U.S. content of vehicles which it sells in the United States.

(b) AUTHORITY TO OBTAIN INFORMATION.—

(1) The authority granted to the Secretary under subsection (b)(1) of section 505 of the Motor Vehicle Information and Cost Saving Act (as in effect on the date of the enactment of this Act) to obtain information and data, and access thereto, that is deemed advisable by him for purposes of carrying out part V of that Act may be used by the Secretary for purposes of obtaining the information and data, and access thereto, that is necessary or appropriate to carry out this Act.

(2) The authority granted to the districts courts of the United States under subsection (b)(2) of such section 505 to enforce compliance with action taken by the Secretary under subsection (b)(1) of such section may be used by such courts to enforce actions taken by the Secretary pursuant to paragraph (1) for purposes of carrying out section 4(a) and section 6.

(3) The Secretary shall disclose any information and data obtained under this subsection to the public only in accordance with section 552 of title 5, United States Code; and any matter described in subsection (b)(4) and subsection (a) of such section shall not be disclosed to the public, except that where such matter may be relevant to any administrative or judicial proceeding to enforce this Act, such matter may be disclosed in such proceeding only in a matter which would not result in competitive damage or disadvantage, as determined by the Secretary or a court, because of such disclosure.

(c) ANNUAL REPORTS.—As soon as practicable after the close of each model year after January 1, 1983, the Secretary shall prepare and make available to the public a report setting forth the domestic content ratio achieved by each vehicle manufacturer during such model year.

SEC. 5. STUDY OF DISCRIMINATORY PRACTICES AFFECTING DOMESTIC PRODUCTION OF MOTOR VEHICLE PARTS.

Within one year after the date of the enactment of this Act, the Secretary and the Federal Trade Commission shall jointly undertake an investigation, and submit to Congress a written report, regarding those policies and practices of vehicle manufacturers that are used to persuade United States motor vehicle dealers, in choosing replacement parts for motor vehicles, to favor foreign-made parts rather than domestically produced parts. Such a report shall include, but not be limited to recommended administrative or legislative action that the Secretary and the Federal Trade Commission consider appropriate to assure that domestic producers of replacement parts are accorded fair access to the United States market for such parts.

SEC. 6. GAO REPORT.

Not later than one year after the date of the enactment of this Act and each year thereafter, the Comptroller General of the United States shall transmit to the Congress a report on the impact of this Act on the automotive and related industries in the United States. Each report shall contain an analysis of the impact of this Act during the period for which the report submitted—

(1) on the prices of new, domestic and foreign motor vehicles;

(2) on the employment within the United States in motor vehicle manufacturing and in related industries and on employment in the United States in export industries;

(3) on the productivity and profits of vehicle manufacturers who have sales of their motor vehicles in the United States;

(4) on the productivity and profits of foreign vehicle manufacturers who have production facilities in the United States; and

(5) on the development of motor vehicles suitable for use in more than one country.

Each report shall also contain recommendations for such legislation as the Comptroller General determines is appropriate.

SEC. 7. ANALYSIS OF FOREIGN AUTOMOTIVE TRADE BARRIERS.

(a) IN GENERAL.—Title I (19 U.S.C. 2111 et seq.) is amended by adding at the end thereof the following new chapter:

"CHAPTER 8—BARRIERS TO AUTOMOTIVE MARKET ACCESS

"SEC. 181. ACTIONS CONCERNING BARRIERS TO AUTOMOTIVE MARKET ACCESS.

"(a) NATIONAL TRADE ESTIMATES.—

"(1) IN GENERAL.—Not later than the date on which the initial report is required under subsection (b)(1), the United States Trade Representative, through the interagency trade organization established pursuant to section 242(a) of the Trade Expansion Act of 1962, shall—

"(A) identify and analyze acts, policies, or practices which constitute significant barriers to, or distortions of—

"(i) United States exports of automotive products

"(B) make an estimate of the trade-distorting impact on United States commerce of any act, policy, or practice identified under subparagraph (A).

"(2) CERTAIN FACTORS TAKEN INTO ACCOUNT IN MAKING ANALYSIS AND ESTIMATE.—In making any analysis or estimate under paragraph (1), the Trade Representative shall take into account—

"(A) the relative impact of the act, policy, or practice on United States commerce;

"(B) the availability of information to document prices, market shares, and other matters necessary to demonstrate the effects of the act, policy, or practice;

"(C) the extent to which such act, policy, or practice is subject to international agreements to which the United States is a party; and

"(D) any advice given through appropriate committees established pursuant to section 135.

"(3) ANNUAL REVISIONS AND UPDATES.—The Trade Representative shall annually revise and update the analysis and estimate under paragraph (1).

"(b) REPORT TO CONGRESS.—

"(1) IN GENERAL.—On or before the date which is one year after the date of the enactment of the Reciprocal Trade and Investment Act of 1982, and each year thereafter, the Trade Representative shall submit the analysis and estimate under subsection (a) to the Committee on Finance of the Senate and to the Committee on Ways and Means of the House of Representatives.

"(2) REPORTS TO INCLUDE INFORMATION WITH RESPECT TO ACTION BEING TAKEN.—The Trade Representative shall include in each report submitted under paragraph (1) information with respect to any action taken to eliminate any act, policy, or practice identified under subsection (a), including, but not limited to—

"(A) any action under section 301, or

"(B) negotiations or consultations with foreign governments.

"(3) CONSULTATION WITH CONGRESS ON TRADE POLICY PRIORITIES.—The Trade Representative shall keep the committees described in paragraph (1) currently informed with respect to trade policy priorities for the purposes of expanding market opportunities.

"(c) ASSISTANCE OF OTHER AGENCIES.—

"(1) FURNISHING OF INFORMATION.—The head of each department or agency of the executive branch of the Government, including any independent agency, is authorized and directed to furnish to the Trade Representative or to the appropriate agency, upon request, such data, reports, and other information as is necessary for the Trade Representative to carry out his functions under this section.

"(2) RESTRICTIONS ON RELEASE OR USE OF INFORMATION.—Nothing in this subsection shall authorize the release of information to, or the use of information by, the Trade Representative in a manner inconsistent with law or any procedure established pursuant thereto.

"(3) PERSONNEL AND SERVICES.—The head of any department, agency, or instrumentality of the United States may detail such personnel and may furnish such services, with or without reimbursement, as the Trade Representative may request to assist in carrying out his functions.".

(b) CONFORMING AMENDMENT.—The table of contents for title I is amended by adding at the end thereof the following:

"CHAPTER 8—BARRIERS TO MARKET ACCESS

"Sec. 181. Actions concerning barriers to market access.".

SEC. 8. AMENDMENTS TO TITLE III OF THE TRADE ACT OF 1974.

(a) PRESIDENTIAL ACTION IN THE CASE OF UNFAIR TRADE PRACTICES.—Section 301(a) (19 U.S.C. 2411(a)) is amended to read as follows:

"(a) DETERMINATIONS REQUIRING ACTION.—

"(1) IN GENERAL.—If the President determines that action by United States is appropriate—

"(A) to enforce the rights of the United States under any trade agreement; or

"(B) to respond to any act, policy, or practice of a foreign country or instrumentality that—

"(i) is inconsistent with the provisions of, or otherwise denies benefits to the United States under any trade agreement, or

"(ii) is unjustifiable, unreasonable, or discriminatory and burdens or restricts United States commerce;

the President shall take all appropriate and feasible action within his power to enforce such rights or to obtain the elimination of such act, policy, or practice.

"(2) SCOPE OF ACTION.—The President may exercise his authority under this section with respect to any goods or sector—

"(A) on a nondiscriminatory basis or solely against the foreign country or instrumentality involved, and

"(B) without regard to whether or not such goods or sector were involved in the act, policy, or practice identified under paragraph (1).".

(b) OTHER ACTION BY PRESIDENT.—Section 301(b) (19 U.S.C. 2411(b)) is amended—

(1) by striking out "and" at the end of paragraph (1);

(2) in paragraph (2)—

(A) by inserting "notwithstanding any other provision of law," before "impose";

(B) by striking out "products" and inserting in lieu thereof "goods"; and

(C) by striking out the period and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end thereof the following:

"(3) propose legislation where necessary and appropriate to carry out the objectives of subsection (a).

Any legislation proposed under paragraph (3) shall be treated as an implementing bill pursuant to the provisions of section 151, except that, for purposes of section 151(c)(1), no trade agreement shall be required and the day on which the implementing bill is submitted shall be treated as the day on which the trade agreement is submitted. The President shall notify Congress, and publish notice in the Federal Register, of his intention to propose legislation under paragraph (3) at least 90 days before the implementing bill is submitted.".

(c) INITIATION OF INVESTIGATIONS BY OR ON MOTION OF TRADE REPRESENTATIVE.—

(1) IN GENERAL.—Section 302 (19 U.S.C. 2412) is amended to read as follows:

"SEC. 302. INITIATION OF INVESTIGATIONS BY UNITED STATES TRADE REPRESENTATIVE.

"(a) FILING OF PETITION.—

"(1) IN GENERAL.—Any interested person may file a petition with the United States Trade Representative (hereinafter in this chapter referred to as the 'Trade Representative') requesting the President to take action under section 301 and setting forth the allegations in support of the request.

"(2) REVIEW OF ALLEGATIONS.—The Trade Representative shall review the allegations in the petition and, not later than 45 days after the date on which he received the petition, shall determine whether to initiate an investigation.

"(b) DETERMINATIONS REGARDING PETITIONS.—

"(1) NEGATIVE DETERMINATION.—If the Trade Representative determines not to initiate an investigation with respect to a petition, he shall inform the petitioner of the reasons therefor and shall publish notice of the determination, together with a summary of such reasons, in the Federal Register.

"(2) AFFIRMATIVE DETERMINATION.—If the Trade Representative determines to initiate an investigation with respect to a petition, he shall initiate an investigation regarding the issues raised. The Trade Representative shall publish a summary of the petition in the Federal Register and shall, as soon as possible, provide opportunity for the presentation of views concerning the issues, including a public hearing—

"(A) within the 30-day period after the date of the determination (or on a date after such period if agreed to by the petitioner) if a public hearing within such period is requested in the petition; or

"(B) at such other time if a timely request therefor is made by the petitioner.

"(c) DETERMINATION TO INITIATE BY MOTION OF TRADE REPRESENTATIVE.—

"(1) DETERMINATION TO INITIATE.—If the Trade Representative determines with respect to any matter that an investigation should be initiated in order to advise the President concerning the exercise of the President's authority under section 301, the Trade Representative shall publish such determination in the Federal Register and such determination shall be treated as an affirmative determination under subsection (b)(2).

"(2) CONSULTATION BEFORE INITIATION.—The Trade Representative shall, before making any determination under paragraph (1), consult with appropriate committees established pursuant to section 135.".

(2) CONFORMING AMENDMENTS.—

(A) Section 141(d) is amended—

(i) by striking out "and" at the end of paragraph (6),

(ii) by striking out the period at the end of paragraph (7) and inserting in lieu thereof a semicolon and "and", and

(iii) by adding at the end thereof the following new paragraph:

"(8) provide, where authorized by law, copies of documents to persons at cost, except that any funds so received shall be credited to, and be available for use from, the account from which expenditures relating thereto were made.".

(B) Section 303 (19 U.S.C. 2413) is amended—

(i) by striking out "with respect to a petition";

(ii) by inserting "or the determination of the Trade Representative under section 302(c)(1)" after "in the petition"; and

(iii) by inserting "(if any)" after "petitioner".

(C) Section 304 (19 U.S.C. 2414) is amended by striking out "issues raised in the petition" and inserting in lieu thereof "matters under investigation" in paragraph (1) of subsection (a).

(D) The item relating to section 302 in the table of contents is amended to read as follows:

"Sec. 302. Initiation of investigations by United States Trade Representative.".

(d) EXTENSION OF TIME FOR REQUESTS FOR CONSULTATIONS.—Section 303 (19 U.S.C. 2413) is amended—

(1) by inserting "(a) IN GENERAL.—" before "On"; and

(2) by adding at the end thereof the following new subsection:

"(b) DELAY OF REQUEST FOR CONSULTATIONS FOR UP TO 90 DAYS.—

"(1) IN GENERAL.—Notwithstanding the provisions of subsection (a)—

(A) the United States Trade Representative may delay for up to 90 days any request for consultations under subsection (a) for the purpose of veriifying or improving the petition to ensure an adequate basis for consultation, and

(B) if such consultations are delayed by reason of subparagraph (A), each time limitation under section 304 shall be extended for the period of such delay.

"(2) NOTICE AND REPORT.—The Trade Representative shall—

"(A) publish notice of any delay under paragraph (1) in the Federal Register, and

"(B) report to Congress on the reasons for such delay in the report required by section 306.".

(e) DEFINITIONS.—

(1) COMMERCE DEFINED.—Paragraph (1) of section 301(d) (19 U.S.C. 301(d)) is amended to read as follows:

"(1) DEFINITION OF COMMERCE.—The term 'commerce' includes, but is not limited to—

"(A) services associated with international trade, whether or not such services are related to specific goods, and

"(B) foreign direct investment by United States persons with implications for trade in goods or services.".

(2) UNREASONABLE, UNJUSTIFIABLE, AND DISCRIMINATORY DEFINED.—Section 301(d) (19 U.S.C. 2411(d)) is amended by adding at the end thereof the following new paragraphs:

"(3) DEFINITION OF UNREASONABLE.—The term 'unreasonable' means any act, policy, or practice which, while not necessarily in violation of or inconsistent with the international legal rights of the United States, is otherwise deemed to be unfair and inequitable. The term includes, but is not limited to, any act, policy, or practice which denies fair and equitable—

"(A) market opportunities;

"(B) opportunities for the establishment of an enterprise; or

"(C) provision of adequate protection of intellectual property rights.

"(4) DEFINITION OF UNJUSTIFIABLE.—

"(A) IN GENERAL.—The term 'unjustifiable' means any act, policy, or practice which is in violation of, or inconsistent with, the international legal rights of the United States.

"(B) CERTAIN ACTIONS INCLUDED.—The term 'unjustifiable' includes, but is not limited to, any act, policy, or practice described in subparagraph (A) which denies national or most-favored-nation treatment, the right of establishment, or protection of intellectual property rights.

"(5) DEFINITION OF DISCRIMINATORY.—The term 'discriminatory' includes where appropriate any act, policy, or practice which denies national or most-favored-nation treatment to United States goods, services, or investment.".

(3) CONFORMING AMENDMENT.—Section 301(d) (19 U.S.C. 2411(d)) is amended by striking out the heading and inserting in lieu thereof:

"(d) DEFINITIONS; SPECIAL RULE FOR VESSEL CONSTRUCTION SUBSIDIES.—For purposes of this section—".

(f) AMENDMENTS TO SECTION 305.—Section 305 of the Trade Act of 1974 (19 U.S.C. 2415) is amended by adding at the end thereof the following new subsection:

"(c) CERTAIN BUSINESS INFORMATION NOT MADE AVAILABLE.—

"(1) IN GENERAL.—Except as provided in paragraph (2), and notwithstanding any other provision of law (including section 552 of title 5, United States Code), no information requested and received by the Trade Representative in aid of any investigation under this chapter shall be made available to any person if—

"(A) the person providing such information certifies that—

"(i) such information is business confidential,

"(ii) the disclosure of such information would endanger trade secrets or profitability, and

"(iii) such information is not generally available;

"(B) the Trade Representative determines that such certification is well-founded; and

"(C) to the extent required in regulations prescribed by the Trade Representative, the person providing such information provides an adequate nonconfidential summary of such information.

"(2) USE OF INFORMATION.—The Trade Representative may—

"(A) use such information, or make such information available (in his own discretion) to any employee of the Federal Government for use, in any investigation under this chapter, or

"(B) may make such information available to any other person in a form which cannot be associated with, or otherwise identify, the person providing the information.".

By Mr. GLICKMAN:

—On page 15, before the comma on line 8 insert the following: "and on the overall balance of trade between the United States and nations with manufacturers subjected to content ratios under Section 4."; on line 22, delete the word, "and"; on line 24, delete the period and insert in lieu thereof "; and

(6) on exports of other manufactured and agricultural products from the United States to nations with manufacturers subjected to content ratios under this Act."

By Mr. MICHEL:

—On page 16, after line 3, add the following new section:

"SEC. 9. ACHIEVEMENT OF THE GOALS OF THE "HUMPHREY-HAWKINS" ACT.

The Secretary may waive any of the provisions of this Act if he determines, on the basis of analyses of the impact of this Act by the Congressional Budget Office and the General Accounting Office, that the Act would impede achievement of the objectives and goals of reducing the rate of unemployment, reducing the rate of inflation and increasing exports as set forth in the Full Employment and Balanced Growth Act of 1978 (P.L. 95-523).

By Mr. TAUKE:

AMENDMENT (3)

—Page 8, line 5, strike out "shall" and all that follows down through and including the colon on line 10 and insert in lieu thereof "shall not be less than the applicable minimum content ratio specified in the following table:".

By Mr. TAUKE:

AMENDMENT (11)

—Page 15, after line 2, insert the following new section:

SEC. 8. FUEL ECONOMY STANDARD WAIVER.

Sections 4 and 5 shall not apply to any vehicle manufacturer during any model year in which the average fuel economy for the passenger automobiles manufactured by the manufacturer meet the average fuel economy standard prescribed by section 502 of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 2002).

Renumber the succeeding sections accordingly.

By Mr. TAUKE:

AMENDMENT (6)

—Page 8, in the heading to the table after line 10 strike out "Number of motor vehicles produced by the manufacturer and sold in the United States during such year" and insert in lieu thereof: "Number of motor vehicles produced by the manufacturer during the model year and sold as new cars during such year in the United States".

By Mr. SCHUMER:

—Page 11, line 5, strike out "It" and insert "Except as provided in paragraph (5), it".

Page 13, between lines 2 and 3, insert the following:

(5) Paragraph (1) shall not apply with respect to any vehicle manufacturer of Japan with respect to any model year if the United States deficit in the balance on goods and services with Japan (as calculated on the basis of the Balance on Goods and Services published by the Department of Commerce) for the four consecutive calendar quarters most closely corresponding to such model year does not exceed an amount that bears to the United States deficit in such balance with Japan during calendar year 1982 the percentage specified in the following table:

Percentage of 1982 U.S. deficit with Japan

Model year:	
1984	87.5
1985	75.0
1986	62.5
1987 and each model year thereafter	50.0

H.R. 6296

By Mr. GONZALEZ:

(Amendment in the nature of a substitute to H.R. 6296, as reported.)

—Strike out all after the enacting clause and insert in lieu thereof the following:

SHORT TITLE AND TABLE OF CONTENTS

SECTION 1. This Act may be cited as the "Housing and Urban-Rural Recovery Act of 1982".

TABLE OF CONTENTS

Sec. 1. Short title and table of contents.
TITLE I—COMMUNITY AND NEIGHBORHOOD DEVELOPMENT AND CONSERVATION
Sec. 101. Rehabilitation loans.
TITLE II—ASSISTED HOUSING
Sec. 201. Low income housing authorization.
Sec. 202. Tenant contribution.
Sec. 203. Other amendments to the 1937 Act.
Sec. 204. Operating assistance for troubled multifamily housing projects.
Sec. 205. Housing for the elderly and handicapped.
Sec. 206. Government National Mortgage Association.
Sec. 207. Congregate services.
Sec. 208. Shared housing for the elderly.
Sec. 209. Amounts recovered by public housing agencies.
Sec. 210. Rent supplement amendment.
Sec. 211. Cost limitations.
Sec. 212. Extension of financing adjustment factor.
Sec. 213. Conversion of rent supplements.
Sec. 214. Demonstration project.
TITLE III—HOUSING PRODUCTION PROGRAMS
PART A—MULTIFAMILY HOUSING PRODUCTION PROGRAMS
Sec. 301. Short title.
Sec. 302. Statement of purpose and authority.

Sec. 303. Area eligibilty criteria.
Sec. 304. Project selection criteria.
Sec. 305. Allocation of assistance.
Sec. 306. Amount of assistance.
Sec. 307. Terms and conditions of assistance.
Sec. 308. Financing and other conditions.
Sec. 309. Labor standards.
Sec. 310. Authorization.

PART B—DEMONSTRATION PROGRAM FOR EMERGENCY HOUSING

Sec. 321. Demonstration program for emergency housing.

TITLE IV—RURAL HOUSING

Sec. 401. Authorizations.
Sec. 402. Rural housing fund amendments.
Sec. 403. Tenant contribution.
Sec. 404. Section 502 interest credits.
Sec. 405. Determination of need for housing under sections 514 and 516.
Sec. 406. Processing of applications.
Sec. 407. Shared housing for the elderly.
Sec. 408. Use of fee inspectors and appraisers.
Sec. 409. Definition of rural area.

TITLE V—PROGRAM AMENDMENTS AND EXTENSIONS

Sec. 501. Weatherization program.
Sec. 502. Counseling.
Sec. 503. Manufactured housing.
Sec. 504. Report.
Sec. 505. Mortgage insurance for public hospitals.
Sec. 506. Mortgage insurance for American Samoa.
Sec. 507. Indexed mortgages.
Sec. 508. Department of Housing and Urban Development reorganization procedures.
Sec. 509. Housing insurance mortgage limitations.

TITLE VI—EMERGENCY MORTGAGE RELIEF

Sec. 601. Emergency mortgage relief.

TITLE VII—GENERAL PROVISIONS

Sec. 701. Applicability.

TITLE I—COMMUNITY AND NEIGHBORHOOD DEVELOPMENT AND CONSERVATION

REHABILITATION LOANS

SEC. 101. Section 312(d) of the Housing Act of 1964 is amended by adding the following new sentence at the end thereof: "Of the amount available for loans under this section during any fiscal year beginning on or after October 1, 1982, the Secretary shall utilize at least 60 percent of such amount for rehabilitation loans for one- to four-family dwelling units.".

TITLE II—ASSISTED HOUSING

LOW INCOME HOUSING AUTHORIZATION

SEC. 201. (a) Section 5(c) of the United States Housing Act of 1937 is amended—

(1) by striking out "and" after "1980," in the first sentence of paragraph (1);

(2) by inserting the following before the period at the end of the first sentence of paragraph (1): ", and by $560,000,000 on October 1, 1982";

(3) by striking out "and" after "1980" in the third sentence of paragraph (1);

(4) by inserting the following before the period at the end of the third sentence of paragraph (1): ", and $10,400,000,000 with respect to the additional authority provided on October 1, 1982";

(5) by redesignating paragraphs (4), (5), and (6) as paragraphs (5), (6), and (7), respectively;

(6) by striking out subparagraph (C) of paragraph (3); and

(7) by adding the following new paragraph after paragraph (3):

"(4)(A) Of the additional authority approved in appropriation Acts and made available on October 1, 1982, the Secretary shall enter into contracts aggregating at least $75,000,000 for assistance to projects under section 14. Such amount shall not include authority utilized under section 14 as a result of paragraph (8).

"(B) Of the balance of the additional authority referred to in subparagraph (A) that remains after deducting the amount to be provided for assistance to projects under section 14—

"(i) at least $69,074,000 shall be made available for lower income housing projects under this Act (other than under section 8), of which amount at least $18,595,000 shall be made available to Indian public housing agencies;

"(ii) at least $21,094,000 shall be made available for substantially rehabilitated units assisted under section 8 in areas where concentrated housing and community development block grant-assisted physical development and public service activities are conducted under title I of the Housing and Community Development Act of 1974; and

"(iii) not more than $176,215,000 may be utilized to convert assistance under any other provision of law to assistance under section 8 of this Act.".

(b) Section 9(c) of such Act is amended—

(1) by striking out "and" after "1980,"; and

(2) by inserting before the period at the end thereof the following: ", and not to exceed $1,600,000,000 on or after October 1, 1982".

TENANT CONTRIBUTION

SEC. 202. (a) Section 3(a) of the United States Housing Act of 1937 is amended—

(1) by inserting the following new sentence after the first sentence thereof: "Except as otherwise provided in this Act, income limits for occupancy and rent in public housing shall be fixed by the public housing agency and approved by the Secretary."; and

(2) by striking out "30" in paragraph (1) and inserting in lieu thereof "25".

(b) Section 3(b)(4) of such Act is amended by inserting the following before the period at the end thereof: "; except that there shall be excluded from such income the value of any coupon, stamp, or type of certificate issued pursuant to the provisions of the Food Stamp Act of 1977".

(c) Section 3(b)(5) of such Act is amended—

(1) by inserting the following before the period at the end of the first sentence thereof: "; except that there shall be excluded at least the following amounts:

"(A) an amount equal to $400 for each member of the family residing in the household (other than the head of the household or his or her spouse) who is under eighteen years of age or who is eighteen years of age or older and is disabled or handicapped or a full-time student;

"(B) an amount equal to $400 for each member of the household who is elderly;

"(C) any medical expenses to the extent such expenses exceed 3 percent of the income of the family; and

"(D) any child care expenses that are necessary for the employment of other members of the household"; and

(2) by striking out the second sentence thereof.

(d)(1) Section 236(f) of the National Housing Act is amended—

(A) by striking out "30" each time it appears therein and inserting in lieu thereof "25"; and

(B) by striking out "25" in subsection (f)(1)(ii) and inserting in lieu thereof "20".

(2) Section 236(m) of such Act is amended to read as follows:

"(m) For the purpose of this section, the terms 'income' and 'adjusted income' shall have the same meanings given such terms in section 3(b) of the United States Housing Act of 1937.".

(e)(1) Section 101(c) of the Housing and Urban Development Act of 1965 is amended by striking out paragraph (2) and inserting in lieu thereof the following:

"(2) 'income' and 'adjusted income' shall have the same meanings given such terms in section 3(b) of the United States Housing Act of 1937.".

(2) Section 101(d) of such Act is amended by striking out "70" and "30" and inserting in lieu thereof "75" and "25", respectively.

(f) The amendments made by this section shall become effective on August 1, 1982.

OTHER AMENDMENTS TO THE 1937 ACT

SEC. 203. (a) Section 5(c) of the United States Housing Act of 1937 is amended by adding the following new paragraph at the end thereof:

"(8) In the case of any authority that is authorized by this section and has been allocated with respect to any fiscal year prior to fiscal year 1983 under section 213(d) of the Housing and Community Development Act of 1974 to a public housing agency for use with respect to units to be assisted other than under section 8 or section 14, the public housing agency may use part or all of such authority for comprehensive improvement assistance according to the requirements of section 14 if the agency, after consultation with the unit of general local government, determines that such authority or portion thereof will be used more effectively under section 14, except that the Secretary may prohibit the use of such authority under section 14 on the basis that the authority cannot be used more effectively under such section. For the purpose of making this authority available according to the requirements of section 14, this authority shall be considered to be assistance made available under subsection (b) of such section.".

(b) Section 6(b) of such Act is amended—

(1) by inserting "(1)" after the subsection designation;

(2) in the third sentence—

(A) by redesignating clauses (1) through (8) as clauses (A) through (H), respectively; and

(B) by striking out "(1) through (7)" and inserting in lieu thereof "(A) through (G)"; and

(3) by adding at the end thereof the following new paragraph:

"(2) The Secretary shall establish reasonable maximum limitations on total development costs under this Act that take into account local prototype costs and local variations in land, site improvement, and construction costs. The Secretary shall publish such limitations in the Federal Register, and shall revise such limitations not less than once annually. Any project for which a development cost budget has been approved by the Secretary prior to December 6, 1982, shall be subject to the limitations on total development costs established pursuant to regulations in effect on September 7, 1982.".

(c)(1) Section 8(c)(1) of such Act is amended—

(A) by inserting "(A)" after "(c)(1)"; and

(B) by adding the following new subparagraph at the end thereof:

"(B) In the case of existing units—

"(i) the fair market rental for an area shall, taking into consideration the various sizes and types of dwelling units described in the second sentence of subparagraph (A), be the median rent paid by tenants who moved into or within the area during the most recently completed period of not to exceed twenty-four months for which data is available at the time such fair market rental is determined; and

"(ii) the maximum monthly rent shall be reasonable in relation to rents currently being charged for comparable units in the private unassisted market (taking into account the location, size, type, quality, amenities, facilities, and management and maintenance service of such unit) and shall not be in excess of rents currently being charged by the owner for comparable unassisted units.".

(2) The amendment made by paragraph (1) shall apply only with respect to fair market rentals applicable during fiscal year 1983 and thereafter.

(d) Section (8)(c)(1)(A) of such Act, as so redesignated by this section, is amended by inserting after the third sentence the following new sentence: "The Secretary shall revise the fair market rentals established for each area under this section not less than once annually, taking into consideration any changes in the monthly rents charged for rental dwelling units in such area.".

(e)(1) Section 8(b)(1) of such Act is amended by inserting the following new sentence at the end thereof: "In the case of any annual contribution contract entered into by the Secretary with a public housing authority under this subsection for fewer than fifteen years, the Secretary shall offer to renew such contract for a period of five years each time it expires if the authority has carried out the terms of the contract prior to the renewal offer and if the renewal does not extend the period of assistance under the original contract and its renewals beyond fifteen years; in any case in which the total period of assistance that has been made available under the contract and its renewals is more than ten but less than fifteen years, the renewal offer required under this sentence shall be made for the period that would extend such total period of assistance to fifteen years.".

(2) The amendment made by paragraph (1) shall apply to contracts in effect on or after the date of the enactment of this Act.

(f) Section 9(d) of such Act is amended—

(1) by inserting "(1)" after "(d)"; and

(2) by adding the following new paragraph at the end thereof:

"(2) If, in any fiscal year, the funds that have been appropriated for the fiscal year for use under this section are less than the total amount that the Secretary has determined is necessary to make payments pursuant to the standards or formula established under subsection (a)(1) for such year, payments shall be reduced on a pro rata basis and distributed promptly. The Secretary may develop an alternative distribution method, but the development of such alternative shall be considered a rulemaking activity of the Secretary and thereby subject to subsections (b) through (e) of section 553 of title 5, United States Code, and to section 7(o) of the Department of Housing and Urban Development Act. The pro rata payments provided for herein shall not be delayed by the development or implementation of any alternative distribution formula.".

(g) Section 9 of such Act is amended by adding the following new subsections at the end thereof:

"(e) In carrying out this section, the Secretary shall require that each public housing agency submit a year-end adjustment establishing the difference between—

"(1) actual utility rates and utility consumption during the year; and

"(2) the utility rates and utility consumption previously estimated for the year.

If the agency has incurred increased utility expenses over those that were previously estimated for the year, the Secretary shall, out of funds appropriated for use under this section after the effective date of this subsection, pay—

"(A) 100 percent of such increased expenses to the extent that the increase was caused by increased utility rates; and

"(B) 50 percent of such increased expenses to the extent that the increase was caused by increased utility consumption beyond the control of the agency.

"(f) The Secretary may not apply procedures for the recapture of investment income earned by public housing agencies in excess of amounts projected in calculations for annual contributions for operation of lower income housing projects under this section, except with respect to public housing agency fiscal years ending after the date of the enactment of this Act. In applying any such procedures, the Secretary may not recapture more than 50 percent of such investment income.".

(h)(1) The United States Housing Act of 1937 is amended by striking out section 16.

(2) Section 8(c) of such Act is amended by adding the following new paragraph at the end thereof:

"(9) At least 30 percent of the families assisted under this section with annual allocations of contract authority shall be very low-income families at the time of the initial renting of dwelling units.".

(i) The United States Housing Act of 1937 is amended by adding the following new section at the end thereof:

"ADMINISTRATION OF PUBLIC HOUSING

"SEC. 16. In order to encourage improved management procedures with respect to public housing, the Secretary shall (1) establish standards for sound management of public housing authorities; (2) assure that any regulations promulgated with respect to the public housing program, including regulations promulgated prior to enactment of this section, are designed to promote sound management of all public housing authorities, taking into consideration distinctions arising from features such as, but not limited to, number of projects and tenants, size of operating budget and demonstrated management capability; (3) provide for a more concentrated departmental effort on behalf of agencies with serious management problems so that flexible and appropriate remedies can be designed and implemented to address particular local problems; (4) protect the Federal interest in public housing; and (5) provide an effective and efficient delivery of services to tenants.".

(j) The United States Housing Act of 1937 is amended by adding the following new section at the end thereof:

"CONDITIONS OF DEMOLISHING, SELLING, OR OTHERWISE DISPOSING OF A PUBLIC HOUSING PROJECT

"SEC. 17. (a) Except as provided in subsection (c), no public housing project may be demolished, sold, or otherwise disposed of (including any demolition or disposal conducted pursuant to section 6(f) or otherwise), in whole or in part, unless—

"(1) the public housing authority and the unit of general local government concerned have certified their approval;

"(2) such project is substantially unoccupied;

"(3) the cost of rehabilitating such project would be greater than replacing it;

"(4) the Secretary and the public housing agency have developed the plan for demolition, disposition, and replacement after notification to, and consultation with, the affected tenants and tenant councils;

"(5) the Secretary and such agency have entered into agreements assuring relocation assistance (comparable to the assistance provided under the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970) to any tenant who is displaced as a result of the demolition or disposition; and

"(6) the public housing agency has secured funding commitments from the Secretary or other sources and such funding has been committed to replacing the sold, demolished, or otherwise disposed of units with an equal number of newly constructed or substantially or moderately rehabilitated units in the same neighborhood; except that the Secretary may approve, after consultation with the tenants and tenant groups affected, replacement by fewer units in the same neighborhood or in one or more different neighborhoods if the Secretary determines that this action will result in a better living environment for lower income families and that replacement by an equal number of units is not necessary to meet lower income housing needs.

"(b) The requirements stated in paragraphs (2) and (3) of subsection (a) may be waived if—

"(1) there are sound social and economic reasons for the demolition, sale, or other disposition; and

"(2) a majority of the tenants affected consent to such action.

"(c) The provisions of this section shall not apply to demolitions to which section 14(f) apply.".

OPERATING ASSISTANCE FOR TROUBLED MULTIFAMILY HOUSING PROJECTS

SEC. 204. (a) Section 201(j) of the Housing and Community Development Amendments of 1978 is amended—

(1) by striking out "(B)" in the first sentence;

(2) by striking out "and" in such sentence after "1981,"; and

(3) by inserting the following before the period at the end of such sentence: ", and not to exceed $32,000,000 for the fiscal year 1983".

(b) Section 236(f)(3) of the National Housing Act is amended by striking out "September 30, 1982" in the third sentence and inserting in lieu thereof "September 30, 1983".

HOUSING FOR THE ELDERLY AND HANDICAPPED

SEC. 205. (a)(1) Section 202(a)(3) of the Housing Act of 1959 is amended by inserting the following before the period at the end thereof: ", except that such interest rate plus such allowance shall not exceed 9.25 percent per annum".

(2) The amendment made by paragraph (1) shall apply only with respect to loan agreements entered into after September 30, 1982.

(b) Section 202(a)(4)(B)(i) of such Act is amended—

(1) by striking out "and" after "1980," in the first sentence; and

(2) by inserting ", and to $6,423,900,000 on October 1, 1982," after "1981" in such sentence.

(c) Section 202(a)(4)(C) of such Act is amended by striking out "$850,848,000" and "1982" in the second sentence and inserting in lieu thereof "$843,100,000" and "1983", respectively.

(d) Section 202 of such Act is amended by adding at the end thereof the following new subsections:

"(i)(1) Unless otherwise requested by the sponsor, a maximum of 25 percent of the units in a project financed under this section may be efficiency units, subject to a determination by the Secretary that such units are appropriate for the elderly or handicapped population residing in the vicinity of such project or to be served by such project.

"(2) The Secretary may require a sponsor of a housing project financed with a loan under this section to deposit an amount not to exceed $10,000 in a special escrow account to assure the commitment and long-term management capabilities of such sponsor. Nothing in this section authorizes the Secretary—

"(A) to require an equity participation by a sponsor in any such project;

"(B) to prohibit any sponsor from voluntarily providing funds from other sources for amenities and other features of appropriate design and construction suitable for inclusion in such projects; or

"(C) to prohibit a required meals program as part of a sponsor's total contract offered to residents if such contract was in existence on the date of enactment of this subsection.

"(3) In establishing per unit cost limitations for purposes of this section, the Secretary shall take into account design features necessary to meet the needs of elderly and handicapped residents, and such limitations shall reflect the cost of providing such features. The Secretary shall adjust such limitations not less than once annually to reflect changes in the level of construction costs.

"(j) The Secretary may not approve the prepayment of any loan made under this section, or sell or transfer such loan, unless such prepayment, sale, or transfer is made as part of a transaction that will ensure that the project involved will continue to operate until the original maturity date of such loan in a manner that will provide rental housing for the elderly and handicapped on terms at least as advantageous as the terms required by the original loan agreement entered into under this section and any other loan agreements entered into under other provisions of law.".

GOVERNMENT NATIONAL MORTGAGE ASSOCIATION

SEC. 206. Section 305(k) of the Federal National Mortgage Association Charter Act is amended to read as follows:

"(k) Notwithstanding any other provision of law and subject only to the absence of qualified requests for purchases and to the authority provided in this section, the Association shall, to the extent approved in appropriation Acts, enter into commitments during fiscal year 1983 to purchase mortgages under this section with an aggregate principal amount of $700,000,000. Of such amount (1) one-half shall be used to enter into commitments to purchase mortgages of multifamily housing projects located in cities or urban counties eligible for assistance under section 119 of the Housing and Community Development Act of 1974; and (2) one-half shall be used to enter into commitments to purchase mortgages of multifamily projects in which not less than 20 percent of the units are assisted under section 8 of the United States Housing Act of 1937.".

CONGREGATE SERVICES

SEC. 207. Section 411(a) of the Congregate Housing Services Act of 1978 is amended—

(1) by striking out "and" at the end of paragraph (3);

(2) by striking out the period at the end of paragraph (4) and inserting in lieu thereof "; and"; and

(3) by adding the following new paragraph at the end thereof:

"(5) for fiscal year 1983, not to exceed $10,000,000.".

SHARED HOUSING FOR THE ELDERLY

SEC. 208. (a) Section 8 of the United States Housing Act of 1937 is amended by adding the following new subsection at the end thereof:

"(o) In order to assist elderly families who elect to live in a shared housing arrangement in which they benefit as a result of sharing the facilities of a dwelling with others in a manner that effectively and efficiently meets their housing needs and thereby reduces their cost of housing, the Secretary shall permit assistance provided under the existing housing and moderate rehabilitation programs to be used by such families in such arrangements. In carrying out this subsection, the Secretary shall issue minimum property standards (or modify existing standards) for the purpose of assuring decent, safe, and sanitary housing for such families while taking into account the special circumstances of shared housing.".

(b) Section 105(a)(15) of the Housing and Community Development Act of 1974 is amended by inserting the following before the semicolon at the end thereof: ", including grants to neighborhood-based nonprofit organizations for the purpose of assisting, as part of neighborhood revitalization or other community development, the development of shared housing opportunities in which elderly families (as defined in section 3(b) of the United States Housing Act of 1937) benefit as a result of living in a dwelling in which the facilities are shared with others in a manner that effectively and efficiently meets the housing needs of the residents and thereby reduces their cost of housing".

AMOUNTS RECOVERED BY PUBLIC HOUSING AGENCIES

SEC. 209. Section 326(d)(1) of the Housing and Community Development Amendments of 1981 is amended—

(1) by striking out "the housing assistance program under section 8 of" and inserting in lieu thereof "any program established under"; and

(2) by inserting the following new sentence at the end thereof: "In any case in which the public housing agency recovers such wrongfully paid amounts through actions other than those described in the preceding sentence, the Secretary shall permit such agency to retain an amount equal to 50 percent of the amount actually collected.".

RENT SUPPLEMENT AMENDMENT

SEC. 210. Section 101(l) of the Housing and Urban Development Act of 1965 is amended by adding the following new sentence at the end thereof: "Any amount of assistance for which contracts to make payments under this section were entered into and which is recaptured as a result of the conversion of assistance made available under this section to assistance made available under section 8 of the United States Housing Act of 1937 shall be made available, to the extent approved in appropriation Acts, for use under such section 5(c) in addition to any other funds authorized and approved for use under such section, except that such amount of assistance authorized to be made available under such section 5(c) is limited to the amount of assistance utilized under the preceding sentence.".

COST LIMITATIONS

SEC. 211. (a) Section 8(l) of the United States Housing Act of 1937 is amended—

(1) by inserting in the first sentence after "shall limit" the following: "contract authority reservation,"; and

(2) by inserting the following before the period at the end of the second sentence: ", and the Secretary shall not impose a percentage or other arbitrary limitation on such increases".

(b) The amendment made by this section shall apply to proposals receiving a preliminary reservation of contract authority in any fiscal year, including fiscal years ending before the date of the enactment of this Act.

EXTENSION OF FINANCING ADJUSTMENT FACTOR

SEC. 212. The Secretary may not require that any agreement to enter into a housing assistance payments contract under section 8 of the United States Housing Act of 1937 include a provision requiring construction of the project involved to be in progress before May 31, 1983.

CONVERSION OF RENT SUPPLEMENTS

SEC. 213. Section 101 of the Housing and Urban Development Act of 1965 is amended by adding the following new subsection at the end thereof:

"(m) To the extent authority is available as a result of converting contracts assisted under section 236(f)(2) of the National Housing Act to contracts assisted under section 8 of the United States Housing Act of 1937, the Secretary shall, after utilizing such funds as are necessary to amend existing contracts assisted under such section 236(f)(2) for the purpose of providing rent increases, offer to amend each contract entered into under this section with owners of projects that are also assisted under section 236 of the National Housing Act and that are financed under a State or local program providing assistance through loans, loan insurance, or tax abatements for the purpose of converting the contract under this section to an assistance payment contract under such section 236(f)(2).".

DEMONSTRATION PROJECT

SEC. 214. (a) The Congress finds that—

(1) the United States Department of Health and Human Services spends in excess of $5,000,000,000 annually for housing in the form of allowances for shelter for public assistance recipients;

(2) States administering the Department of Health and Human Services public assistance program often specify shelter allowances that have little relationship to the cost or the quality of the housing in which public assistance recipients live;

(3) at least 30 percent of public assistance recipients live in substandard housing;

(4) the older rental buildings in which many public assistance recipients live are in those neighborhoods that need the assistance of the Department of Housing and Urban Development's programs for preservation and rehabilitation; and

(5) there is the potential for improving housing for many lower income families by coordinating State and local government efforts in order to assure that families receiving public assistance payments from the Department of Health and Human Services are able to live in decent, safe, and sanitary housing.

(b) The purpose of this section, therefore, is to provide assistance to units of general local government and their designated agencies in order to develop a program that will—

(1) encourage the upgrading of housing occupied primarily by lower income families, including families receiving assistance under the aid for families with dependent children program established under title IV of the Social Security Act; and

(2) provide for better coordination at the local level of the efforts to assist families receiving public assistance from the Department of Health and Human Services so that these families will be able to occupy affordable housing that is decent, safe, and sanitary and that, if necessary, is rehabilitated with funds provided by the Department of Housing and Urban Development.

(c) The Secretary of Housing and Urban Development (hereafter referred to in this section as the "Secretary") shall, to the extent approved in appropriation Acts, establish and maintain a demonstration project to carry out the purpose described in subsection (b).

(d) In carrying out such project, the Secretary shall make grants to units of general local government, or designated agencies thereof, to carry out administrative plans approved by the Secretary in accordance with subsection (e), and the Secretary may make grants to States to provide technical assistance for the purpose of assisting such units of general local government to develop and carry out such plans.

(e)(1) Grants may be made to States and units of general local government and agencies thereof that apply for them in a manner and at a time determined by the Secretary and that, in the case of units of general local government and their agencies, are selected on the basis of an administrative plan described in such application.

(2) No such administrative plan shall be selected by the Secretary unless it sets forth a plan for local government activities that are designed to—

(A) require or encourage owners of rental housing occupied by lower income families to bring such housing into compliance with local housing codes;

(B) provide technical assistance, loans, or grants to assist owners described in subparagraph (A) to undertake cost-effective improvements of such housing;

(C) work with the State to establish and implement a schedule of local shelter allowances for recipients of assistance under title IV of the Social Security Act based on building quality that will be applicable to buildings involved in this program; and

(D) coordinate local housing inspection, housing rehabilitation loan or grant assistance, rental assistance, and social service programs for the purpose of improving the quality and affordability of housing for lower income families.

(3) Funds received from any grant made by the Secretary to a unit of general local government shall be made available for use according to the administrative plans and may be used for—

(A) technical assistance or financial assistance to property owners to upgrade housing projects described in paragraph (2)(A) of this subsection;

(B) temporary rental assistance to families who live in buildings assisted under this program and who are eligible for, but are not receiving, assistance under section 8 of the United States Housing Act of 1937; except that such families shall not include families receiving assistance under title IV of the Social Security Act, and the amount of such rental assistance may not exceed 20 percent of each grant received under this section;

(C) housing counseling and referral and other housing related services;

(D) expenses incurred in administering the program carried out with funds received under this section; except that such expenses may not exceed 10 percent of the grant received under this section; and

(E) other appropriate activities that are consistent with the purposes of this section and that are approved by the Secretary.

(f) Any recipient of a grant from the Secretary under this section shall agree to—

(1) contribute to the program an amount equal to 15 percent of the funds received from the Secretary under this section, and the Secretary shall permit the recipient to meet this requirement by the contribution of the value of services carried out specifically in connection with the program assisted under this section;

(2) permit the Secretary and the General Accounting Office to audit its books in order to assure that the funds received under this section are used in accordance with the section; and

(3) other terms and conditions prescribed by the Secretary for the purpose of carrying out this section in an effective and efficient manner.

(g) In making grants available under this section, the Secretary shall select as recipients at least twenty units of general local government (or their designated agencies). The selection of proposals for funding shall be based on criteria that result in a selection of projects that will enable the Secretary to carry out the purpose of this section in an effective and efficient manner and provide a sufficient amount of data necessary to make an evaluation of the demonstration project carried out under this section.

(h) The Secretary shall transmit, not later than March 1, 1984, to both Houses of the Congress a detailed report concerning the findings and conclusions that have been reached by the Secretary as a result of carrying out this section, along with any legislative recommendations that the Secretary determines are necessary.

(i) There is authorized to be appropriated for the purpose of carrying out this section an amount not in excess of $25,000,000 for fiscal year 1983.

TITLE III—HOUSING PRODUCTION PROGRAMS

PART A—MULTIFAMILY HOUSING PRODUCTION PROGRAM

SHORT TITLE

SEC. 301. This part may be cited as the "Rental Housing Production and Rehabilitation Act of 1982".

STATEMENT OF PURPOSE AND AUTHORITY

SEC. 302. (a) The purpose of this part is to increase the Nation's stock of rental and cooperative housing and to reduce the housing costs of the residents of such housing by encouraging the construction and rehabilitation of multifamily rental housing projects and cooperative housing projects for families and individuals without other reasonable and affordable housing alternatives in the private market.

(b) The Secretary of Housing and Urban Development (hereafter referred to in this part as the "Secretary") shall, to the extent approved in appropriation Acts, provide financial assistance to carry out the purpose of this part with respect to multifamily rental housing and multifamily cooperative housing if such cooperative housing has a membership resale structure that enables the cooperative to maintain affordability for lower income families as required under section 307(a)(2).

(c) Such assistance shall be made available by the Secretary to States, units of general local government (including Indian tribes), or designated agencies of States or units of general local government (including an areawide planning organization designated by two or more units of general local government to apply for assistance under this part and established under State law, interstate compacts, or interlocal agreement for the purpose of formulating policies and plans for the orderly development of a substate or interstate region) that apply for such assistance in a form and manner prescribed by the Secretary and that are selected for such assistance on the basis of the eligibility and selection criteria and other conditions set forth in this part.

(d) States, units of general local government, or agencies thereof that receive such assistance shall utilize it to stimulate the construction or rehabilitation of rental or cooperative housing projects described in subsection (b) by providing—

(1) capital grants;

(2) loans;

(3) interest reduction payments;

(4) grants to finance the purchase of land; or

(5) other comparable assistance, which the Secretary deems appropriate to carry out the purpose of this part, designed to reduce project development and operating costs.

(e) The Secretary is authorized to enter into contracts with any State or agency thereof in which contract such State or agency agrees to administer assistance available under this section, subject to all the terms and conditions specified in this part and in rules, regulations, and procedures adopted by the Secretary under this part. In administering assistance under this section, such State or agency thereof will not provide assistance unless the unit of general local government in the area where the project is to be located approves the application for assistance that is submitted for such project. In any case where the State is administering assistance under this subsection, units of general local government or their designated agencies shall not be precluded from applying directly to the Secretary for assistance under subsection (c) with respect to a project where the State or the designated agency of a State is participating by providing assistance for such project other than the assistance specified in this subsection, except that units of general local government (and their designated agencies) may not receive assistance with respect to any project under this part both from the Secretary and from the State housing agency if the assistance from such agency is made available from the assistance described in the first sentence of this subsection.

AREA ELIGIBILITY CRITERIA

SEC. 303. To be eligible for assistance under this part, a project must be located in an area that is experiencing a severe shortage of decent rental housing opportunities for families and individuals without other reasonable and affordable housing alternatives in the private market. The Secretary shall issue regulations, consistent with the preceding sentence, that set forth minimum standards for determining areas eligible for assistance. Such standards shall take into account the extent and change in the level of poverty, housing overcrowding, the amount and duration of rental housing vacancies, the amount of substandard rental housing, the extent of rental housing production lag, and such other objectively measurable conditions specified by the Secretary that are consistent with the first sentence of this section.

PROJECT SELECTION CRITERIA

SEC. 304. In selecting projects for assistance under this part from among the eligible projects, the Secretary shall make such selection on the basis of the extent—

(1) of the severity of the shortage of decent rental housing opportunities in the area, in which the project or projects are to be located, for families and individuals without other reasonable and affordable housing alternatives in the private market;

(2) of non-Federal public and private financial or other contributions that reduce the amount of assistance necessary under this part;

(3) to which the project or projects contribute to neighborhood development and mitigate displacement;

(4) to which the applicant has established a satisfactory performance in meeting assisted housing needs; and

(5) to which the assistance requested from the Secretary under this part will provide the maximum number of units for the least cost, taking into consideration cost differences among different areas, among financing alternatives, and among the types of projects and tenants being served.

ALLOCATION OF ASSISTANCE

SEC. 305. In providing assistance under this part, the Secretary shall seek to assure a reasonable distribution among eligible areas in different geographic regions, between metropolitan and nonmetropolitan areas, and among States and units of general local government or their designated agencies. In addition, the Secretary shall make a reasonable distribution of assistance among newly constructed, substantially rehabilitated, and moderately rehabilitated projects on the basis of local housing needs and prevailing local housing market conditions identified in the application for assistance.

AMOUNT OF ASSISTANCE

SEC. 306. The amount of assistance provided under this part with respect to a project shall be the least amount that the Secretary determines is necessary to provide, through the construction or rehabilitation of such project, decent rental or cooperative housing of modest design that is affordable for families and individuals without other reasonable and affordable housing alternatives in the private market, including an amount necessary to make rents for at least 20 percent of the units, as described in section 307(a)(2), affordable for persons and families whose incomes do not exceed 80 percent of the area median income.

TERMS AND CONDITIONS OF ASSISTANCE

SEC. 307. (a) Assistance under this part may be provided with respect to a project only if—

(1) the owner has entered into such agreements with the Secretary as may be necessary to assure compliance with the requirements of this section, to assure financial feasibility of the project, and to carry out the other provisions of this part;

(2) the owner agrees that, during the twenty-year period beginning on the date on which 50 percent of the units in the project are occupied (or in the case of a moderately rehabilitated project, are completed), at least 20 percent of the units the construction or rehabilitation of which is provided for under the application shall be occupied, or available for occupancy by, persons and families whose incomes do not exceed 80 percent of the area median income;

(3) the owner agrees—

(A) to pass on to the tenants any reduction in the debt service payments resulting from the assistance provided under this part;

(B) not to discriminate against prospective tenants on the basis of their receipt of or eligibility for housing assistance under any Federal, State, or local housing assistance program; and

(C) not to convert the units to condominium ownership (or in the case of a cooperative, to condominium ownership or any form of cooperative ownership not eligible for assistance under this part);

during the twenty-year period beginning on the date on which the units in the project are available for occupancy (or in the case of a moderately rehabilitated project, are completed);

(4) the mortgage secured by the project—

(A) has a principal amount that is not more than the amount that could be insured for the project under section 207 of the National Housing Act; and

(B) bears a rate of interest and contains such other terms and conditions as the Secretary determines are reasonable;

(5) the project is newly constructed or substantially or moderately rehabilitated, contains five or more dwelling units, and is used predominantly for residential purposes; and

(6) the State or unit of general local government that receives the assistance certifies to the satisfaction of the Secretary that the assistance will be made available in conformity with Public Law 88-352 and Public Law 90-284.

(b)(1) The Secretary shall provide that if the owner or his or her successors in interest fail to carry out the agreements described in paragraphs (1), (2), and (3) of subsection (a) during the applicable period, the owner or his or her successors in interest shall make a payment to the Secretary of an amount that equals the total amount of assistance provided under this part with respect to such project, plus interest thereon (without compounding), for each year and any fraction thereof that the assistance was outstanding, at a rate determined by the Secretary taking into account the average yield on outstanding marketable long-term obligations of the United States during the month preceding the date on which the assistance was made available.

(2) Notwithstanding any other provision of law, any assistance provided under this part shall constitute a debt, which is payable in the case of any failure to carry out the agreements described in paragraphs (1), (2), and (3) of subsection (a), and shall be secured by the security instruments provided by the owner to the Secretary.

(c)(1) Rents charged for units occupied or available for occupancy by persons and families whose incomes do not exceed 80 percent of the area median income, as required by subsection (a)(2), in any such project shall be approved by the Secretary. In approving such rents, the Secretary shall provide that tenants of such units are charged not more than 25 percent of their adjusted income for rent, including utilities, and shall require that not less than thirty days prior written notice of any increase in rents be provided to such tenants.

(2) Any schedule of rents submitted by an owner to the Secretary for approval shall be deemed to be approved unless the Secretary informs the owner, within sixty days after receiving such schedule, that such schedule is disapproved.

FINANCING AND OTHER PROVISIONS

SEC. 308. (a) Subject to terms and conditions that are prescribed by the Secretary and are consistent with the purpose and other provisions of this part, any obligation issued by a State or local housing agency for the purpose of financing the development of a project assisted under this part is hereby deemed an obligation that meets the requirements of, and has the benefits (including the benefit of interest earned with respect to the obligation being exempt from Federal taxation) associated with, an obligation described in section 11(b) of the United States Housing Act of 1937.

(b) A mortgage on a project assisted under this part may be insured under title II of the National Housing Act if it meets the standards required for insurance under such title.

(c) Section 817 of the Housing and Community Development Act of 1974 is amended—

(1) by striking out "and" after "1966,"; and

(2) by inserting after "and 1970" the following: ", and the Rental Housing Production and Rehabilitation Act of 1982".

LABOR STANDARDS

SEC. 309. Any contract for assistance pursuant to this part shall contain (1) a provision requiring that not less than the wages prevailing in the locality, as determined or adopted (subsequent to a determination under applicable State or local law) by the Secretary, shall be paid to all architects, technical engineers, draftsmen, and technicians employed in the development, and all maintenance laborers and mechanics employed in the operation, of the housing project involved; and (2) a provision that not less than the wages prevailing in the locality, as predetermined by the Secretary of Labor pursuant to the Davis-Bacon Act (40 U.S.C. 276a et seq.), shall be paid to all laborers and mechanics employed in the development of the project involved, and the Secretary shall require certification as to compliance with the provisions of this section prior to making any payment under such contract.

AUTHORIZATION

SEC. 310. There is authorized to be appropriated for assistance under this part not to exceed the sum of $650,000,000 for fiscal year 1983.

PART B—DEMONSTRATION PROGRAM FOR EMERGENCY HOUSING

DEMONSTRATION PROGRAM FOR EMERGENCY HOUSING

SEC. 321. (a) The Secretary of Housing and Urban Development (hereafter referred to in this part as the "Secretary") shall, to the extent provided in subsection (d), carry out a demonstration program for the purpose of assisting communities or nonprofit organizations to provide shelter for people subject to life-threatening situations because of their lack of housing.

(b) Such program shall provide that—

(1) the Secretary shall make grants to communities or nonprofit organizations for the purpose described in subsection (a);

(2) nonprofit organizations may apply for such assistance only on the basis of an application approved by the community in which the project is or is to be located;

(3) the grants are made on a competitive basis, taking into consideration—

(A) the extent of need for emergency housing in the area where the project is or is to be located;

(B) in the case of nonprofit organizations, the extent of need for the funding by the organization;

(C) the extent of non-Federal assistance to be provided with respect to the project, including in-kind contributions by volunteers;

(D) in the case of nonprofit organizations, the demonstrated capacity of the organization to establish and maintain the project; and

(E) other terms and conditions prescribed by the Secretary as necessary to carry out the project in an effective, expeditious, and efficient manner;

(4) the grants may be used for the purpose of rehabilitating existing structures in order to provide basic shelter, maintaining structures providing such shelter, and paying for utilities of such structures, and for other purposes (other than salaries and administrative expenses) prescribed by the Secretary consistent with the purpose of this section; and

(5) in the case of a structure that is rehabilitated with assistance under this section, the assisted structure will be used for emergency housing for at least three years or at least ten years in any case in which the rehabilitation is substantial.

(c) The Secretary shall issue regulations with respect to this program within ninety days from the date of the enactment of this Act, and shall transmit to the Congress an interim report concerning such demonstration project not later than April 1, 1983, and a final report not later than December 1, 1983.

(d) Of the amount appropriated for fiscal year 1983 to carry out part A of this title, the Secretary shall utilize at least $50,000,000 to carry out this section.

TITLE IV—RURAL HOUSING

AUTHORIZATIONS

SEC. 401. (a) Section 513 of the Housing Act of 1949 is amended—

(1) by striking out "$3,700,600,000 with respect to the fiscal year ending September 30, 1982;" in subsection (a) and inserting in lieu thereof "$4,200,600,000 with respect to the fiscal year ending September 30, 1983;";

(2) by striking out "$3,170,000,000" in subsection (a)(1) and inserting in lieu thereof "$3,670,000,000";

(3) by striking out "none" in subsection (a)(4) and inserting in lieu thereof: "at least $500,000,000";

(4) by striking out "and" at the end of subsection (a)(3), by striking out the period at the end of subsection (a)(4) and inserting in lieu thereof "; and", and by adding at the end of subsection (a) the following new paragraph:

"(5) not less than $940,000,000 of any amount so approved in an appropriation Act for such year shall be made available for loans under section 515.";

(5) by striking out "September 30, 1982" each place it appears in subsection (b) and inserting in lieu thereof "September 30, 1983";

(6) by striking out subsection (b)(4) and inserting in lieu thereof the following:

"(4) not to exceed $2,000,000 for the fiscal year ending September 30, 1983, for the purposes of section 525(a), and of the amount appropriated for such purposes the Secretary shall make available 50 percent for counseling purchasers and delinquent borrowers and 50 percent to carry out outreach activities for the development of domestic and migrant farm labor projects;"; and

(7) by adding the following new subsections at the end thereof:

"(c) Notwithstanding any other provision of law and subject only to the absence of qualified applicants, to the authority provided in this title, and to any funding limitation approved in appropriation Acts, the Secretary shall, during fiscal year 1983, guarantee loans under this title with an aggregate principal amount of $500,000,000.

"(d) In making available the assistance authorized by this section and section 521(a) with respect to insured and guaranteed loans and interest credits and rental assistance payments, the Secretary shall process and approve requests for such assistance in a manner that provides for a preliminary reservation of assistance at the time of initial approval of the project.".

(b) Section 515(b)(5) of such Act is amended by striking out "September 30, 1982" and inserting in lieu thereof "September 30, 1983".

(c) Section 517(a)(1) of such Act is amended by striking out "September 30, 1982" and inserting in lieu thereof "September 30, 1983".

(d) Section 521(a)(2)(D) of such Act is amended—

(1) by striking out "September 30, 1982" and inserting in lieu thereof "September 30, 1983"; and

(2) by adding the following new sentence at the end thereof: "Of such rental assistance authority that is approved in appropriation Acts, the Secretary shall utilize at least $173,000,000 to provide assistance on behalf of tenants of newly constructed and substantially rehabilitated housing and related facilities for which assistance is provided with respect to such fiscal year under sections 514 and 515.".

(e) Section 523 of such Act is amended—

(1) by striking out "$5,000,000" and "September 30, 1982" each place such terms appear in subsection (f) and inserting in lieu thereof "$15,000,000" and "September 30, 1983", respectively; and

(2) by striking out "fiscal year 1982" each place it appears in subsection (g) and inserting in lieu thereof "fiscal year 1983".

RURAL HOUSING FUND AMENDMENTS

SEC. 402. Section 517(j) of the Housing Act of 1949 is amended—

(1) by striking out paragraph (4) and inserting in lieu thereof the following:

"(4) to provide assistance authorized by section 521(a)(1);"

(2) by striking out "; and" at the end of paragraph (5) and inserting in lieu thereof a period; and

(3) by striking out paragraph (6).

TENANT CONTRIBUTION

SEC. 403. (a) Section 521(a)(2)(A) of the Housing Act of 1949 is amended by striking out "not exceeding 25 per centum of income" in the first sentence and inserting in lieu thereof "not exceeding the highest of the following amounts, rounded to the nearest dollar: (I) 25 percent of the family's monthly adjusted income; (II) 10 percent of the family's monthly income; or (III) if the family is receiving payments for welfare assistance from a public agency and a part of such payments, adjusted in accordance with the family's actual housing costs, is specifically designated by such agency to meet the family's housing costs, the portion of such payments that is so designated".

(b) Section 501(b)(5) of such Act is amended to read as follows:

"(5) For purposes of this title, the terms 'income' and 'adjusted income' shall have the same meanings given such terms in section 3(b) of the United States Housing Act of 1937.".

SECTION 502 INTEREST CREDITS

SEC. 404. Section 521(a)(1)(B) of the Housing Act of 1949 is amended by inserting the following before the period at the end thereof: "; except that for persons of low or moderate income who receive assistance under section 502 or 517(a), the amount of assistance in the form of credits may not exceed the lesser of—

"(i) the balance of the monthly payment for principal, interest, taxes, and insurance due under the mortgage remaining unpaid after applying 20 percent of the mortgagor's adjusted income; or

"(ii) the difference between the amount of the monthly payment for principal and interest that the mortgagor is obligated to pay under the mortgage and the monthly payment for principal and interest that the mortgagor would be obligated to pay if the mortgage were to bear interest at a rate of 1 percent per annum".

DETERMINATION OF NEED FOR HOUSING UNDER SECTIONS 514 AND 516

SEC. 405. Section 514 of the Housing Act of 1949 is amended by adding the following new subsection at the end thereof:

"(h) In making available assistance in any area under this section or section 516, the Secretary shall—

"(1) in determining the need for the assistance, take into consideration the housing needs only of domestic farm labor, including migrant farmworkers, in the area; and

"(2) in determining whether to provide such assistance, make such determination without regard to the extent or nature of other housing needs in the area.".

PROCESSING OF APPLICATIONS

SEC. 406. Title V of the Housing Act of 1949 is amended by adding at the end thereof the following new section:

"PROCESSING OF APPLICATIONS

"SEC. 531. The Secretary shall, in making assistance available under this title, give a priority to applications submitted by—

"(1) persons and families who have the greatest housing assistance needs because of their low income and their residing in inadequate dwellings; and

"(2) applicants applying for assistance for projects that will serve such persons and families.".

SHARED HOUSING FOR THE ELDERLY

SEC. 407. Section 521(a)(2) of the Housing Act of 1949 is amended by adding the following new subparagraph at the end thereof:

"(E) In order to assist elderly persons or families who elect to live in a shared housing arrangement in which they benefit as a result of sharing the facilities of a dwelling with others in a manner that effectively and efficiently meets their housing needs and thereby reduces their cost of housing, the Secretary shall permit rental assistance to be used by such persons or families if the shared housing arrangement is in a single-family dwelling. In carrying out this subparagraph, the Secretary shall issue minimum property standards (or modify existing standards) for the purpose of assuring decent, safe, and sanitary housing for such families while taking into account the special circumstances of shared housing.".

USE OF FEE INSPECTORS AND APPRAISERS

SEC. 408. Section 510 of the Housing Act of 1949 is amended by redesignating subsection (j) as subsection (k) and inserting after subsection (i) the following new subsection:

"(j) utilize the services of fee inspectors and fee appraisers to expedite the processing of applications for loans and grants under this title, which services shall be utilized in any case in which a county or district office is unable to expeditiously process such loans and grants, and to include the cost of such services in the amount of such loans and grants; and".

DEFINITION OF RURAL AREA

SEC. 409. Section 520 of the Housing Act of 1949 is amended by adding at the the end thereof the following new sentence: "For purposes of this title, any area classified as "rural" or a "rural area" under paragraph (2) prior to the receipt of data from or after the 1980 decennial census and determined not to be "rural" or a "rural area" as a result of such data shall continue to be so classified through the end of fiscal year 1983, if such area has a population in excess of 10,000 but not in excess of 20,000 and complies with the requirements of paragraph (3)(B).".

TITLE V—PROGRAM AMENDMENTS AND EXTENSIONS

WEATHERIZATION PROGRAM

SEC. 501. Section 422 of the Energy Conservation in Existing Buildings Act of 1976 is amended by adding the following new sentence at the end thereof: "Of the funds authorized by section 1005(1) of the Omnibus Budget Reconciliation Act of 1981 for energy conservation for the fiscal year ending September 30, 1983, not less than $144,000,000 is authorized to be appropriated to carry out the weatherization program under this part.".

COUNSELING

SEC. 502. Section 106(a)(3) of the Housing and Urban Development Act of 1968 is amended—

(1) by striking out "1982" and inserting in lieu thereof "1983"; and

(2) by striking out "$4,000,000" and inserting in lieu thereof "$8,000,000".

MANUFACTURED HOUSING

SEC. 503. (a) Section 2(a) of the National Housing Act is amended by inserting the following before the last undesignated paragraph thereof:

"The insurance authority provided under this section may be made available with respect to any existing manufactured home that has not been insured under this section if such home was constructed in accordance with the standards issued under the National Manufactured Housing Construction and Safety Standards Act of 1974 and it meets standards similar to the minimum property standards applicable to existing homes insured under title II.".

(b) Section 203 of such Act is amended by adding the following new subsection at the end thereof:

"(q) With respect to newly constructed manufactured homes and the suitably developed lots on which they are placed, the Secretary may make available insurance in accordance with subsection (b)—

"(1) in the case of such a home that meets the standards applicable to newly constructed houses insured under this section, in the full amount permitted in the area under subsection (b)(2); and

"(2) in the case of other such newly constructed manufactured homes and lots, in an amount equal to 80 percent (or 100 percent in areas where needed to meet higher costs of developed land acquisition) of the principal obligation that may be insured under subsection (b) in the area if the home was constructed in accordance with the standards issued under the National Manufactured Housing Construction and Safety Standards Act of 1974 and if it meets energy conservation standards that are comparable to the standards prescribed by the Secretary for one- to four-family houses and standards prescribed by the Secretary for set-up and attachment to a permanent foundation.".

(c) Section 302(h) of the Federal Home Loan Mortgage Corporation Act is amended by adding the following new sentence at the end thereof: "The term 'residential mortgage' is also deemed to include loans or advances of credit secured by mortgages or other liens against manufactured homes.".

REPORT

SEC. 504. The Secretary of Housing and Urban Development shall, not later than June 30, 1983, transmit a report to both Houses of the Congress that describes—

(1) the standards utilized by the Department of Housing and Urban Development to make determinations concerning whether program requirements and changes to those requirements are implemented through the use of regulations, handbooks, memoranda, telegrams, or other forms of formal or informal notices; and

(2) the system currently utilized by the Department to assure that changes in the operation of departmental programs that substantially affect the eligibility, rights, or benefits of persons applying for or receiving assistance under any such programs are subject to requirements of notice and publication, especially those requirements specified in subsections (b) through (e) of section 553 of title V, United States Code.

MORTGAGE INSURANCE FOR PUBLIC HOSPITALS

SEC. 505. Section 242 of the National Housing Act is amended—

(1) by inserting "public facility," in subsection (b)(1)(C) after "which is a"; and

(2) by inserting the following before the period at the end of subsection (f): ", and, in the case of public hospitals, to encourage programs that are undertaken to provide essential health care services to all residents of a community regardless of ability to pay".

MORTGAGE INSURANCE FOR AMERICAN SAMOA

SEC. 506. (a) Section 9 of the National Housing Act is amended by inserting "American Samoa," after "the Trust Territory of the Pacific Islands,".

(b) Section 201(d) of such Act is amended by inserting "American Samoa," after "the Trust Territory of the Pacific Islands,".

(c) Section 207(a)(7) of such Act is amended by inserting "American Samoa," after "the Trust Territory of the Pacific Islands,".

INDEXED MORTGAGES

SEC. 507. (a) Section 245 of the National Housing Act is amended by striking out the section heading and inserting in lieu thereof "graduated payment and indexed mortgages".

(b) Section 245(a) of such Act is amended—

(1) by striking out "of varying rates of amortization corresponding to anticipated variations in family income" in the first sentence and inserting in lieu thereof "of varying rates of amortization corresponding to anticipated variations in family income or with monthly payments and outstanding balances adjusted by a percentage change in a selected price index"; and

(2) by striking out "subsection (b)" in the second sentence and inserting in lieu thereof "subsections (b) and (c)".

(c) Section 245 of such Act is amended by redesignating subsection (c) as subsection (d) and by inserting the following new subsection after subsection (b):

"(c) Notwithstanding the provisions of subsection (a), the Secretary may insure under any provision of this title a mortgage or loan that meets the requirements of the first sentence of subsection (a) and that has provisions permitting adjustment of monthly payments and outstanding principal according to changes or percentages of changes in a selected price index if the Secretary determines—

"(1) the principal obligation of the mortgage or loan initially does not exceed the percentage of the initial appraised value of the property specified in section 203(b) of this title as of the date the mortgage or loan is accepted for insurance; and

"(2) the monthly payments and principal obligation of the mortgage or loan thereafter will not at any time be increased at a rate greater than the percentage change in the price index stipulated in the initial mortgage or loan contract.

In carrying out this subsection, the Secretary shall give a priority to mortgages executed by mortgagors who, as determined by the Secretary, have not owned dwelling units within the preceding three years. The Secretary shall, not later than March 31, 1983, prescribe regulations establishing guidelines governing mortgages and loans described in this subsection and shall, to the extent practicable, conduct a demonstration program to insure mortgages and loans in accordance with this subsection during the fiscal year ending September 30, 1983.".

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

REORGANIZATION PROCEDURES

SEC. 508. Section 7(p) of the Department of Housing and Urban Development Act is amended—

(1) in the first sentence, by inserting "the central office or" after "reorganization of"; and

(2) in paragraph (3), by inserting the following before the semicolon at the end

thereof: ", including the direct and indirect impact on unemployment in both the public and private sectors".

HOUSING INSURANCE MORTGAGE LIMITATIONS

SEC. 509. (a) Section 207(c) of the National Housing Act is amended—

(1) by redesignating paragraphs (2) and (3) as paragraphs (1) and (2), respectively; and

(2) in paragraph (2), as so redesignated in this subsection, by striking out "90 per centum" and inserting in lieu thereof "140 percent".

(b) Section 220(d)(3)(B) of such Act is amended—

(1) by redesignating clauses (ii), (iii), and (iv) as clauses (i), (ii), and (iii), respectively; and

(2) in clause (ii), as so redesignated in this subsection, by striking out "90 per centum" and inserting in lieu thereof "140 percent".

(c) Section 221(d)(3) of such Act is amended—

(1) by redesignating clauses (ii) and (iii) as subparagraphs (A) and (B), respectively; and

(2) in subparagraph (A), as so redesignated in this subsection, by striking out "90 per centum" and inserting in lieu thereof "140 percent".

(d) Section 221(d)(4) of such Act is amended—

(1) by redesignating clauses (ii), (iii), and (iv) as subparagraphs (A), (B), and (C), respectively; and

(2) in subparagraph (A), as so redesignated in this subsection, by striking out "90 per centum" and inserting in lieu thereof "140 percent".

TITLE VI—EMERGENCY MORTGAGE RELIEF

EMERGENCY MORTGAGE RELIEF

SEC. 601. (a) This title may be cited as the "Homeowners Emergency Relief Act of 1982".

(b) Title I of the Emergency Housing Act of 1975 is amended to read as follows:

"TITLE I—EMERGENCY MORTGAGE RELIEF

"SHORT TITLE

"SEC. 101. This title may be cited as the 'Homeowners Emergency Relief Act'.

"FINDINGS AND PURPOSE

"SEC. 102. (a) The Congress finds that—

"(1) the Nation is in a severe recession and that the sharp downturn in economic activity has driven large numbers of workers into unemployment and has reduced the incomes of many others;

"(2) as a result of these adverse economic conditions the capacity of many homeowners to continue to make mortgage payments has deteriorated and may further deteriorate in the months ahead, leading to the possibility of widespread mortgage foreclosures and distress sales of homes; and

"(3) many of these homeowners could retain their homes if they received temporary financial assistance until economic conditions improve.

"(b) It is the purpose of this title to establish a program that will, through emergency mortgage relief payments, prevent widespread mortgage foreclosures and distress sales of homes resulting from the temporary loss of employment and income.

"EFFECTIVE MORTGAGE DELINQUENCY RATE

"SEC. 103. (a)(1) The Secretary of Housing and Urban Development (hereafter referred to in this title as the 'Secretary') shall, to the extent approved in appropriation Acts for fiscal year 1983, carry out the program established by this title.

"(2) For the purpose of carrying out such program, the Secretary shall contract to make, and make, assistance available under this Act when, on an average monthly basis for a period of three consecutive months—

"(A) the amount of funds represented by mortgage loans and contracts that are accounted for in a mortgage delinquency series maintained by the Federal Home Loan Bank Board and for which payments have been delinquent for sixty days or more, exceeds

"(B) 1.3 percent of all funds represented by mortgage loans and contracts accounted for in such series.

"(3) For the purpose of determining when such assistance is to be made available pursuant to paragraph (2), the Secretary shall take into account all months beginning with or after the third month before the month in which the Homeowners Emergency Relief Act of 1982 is enacted.

"(4) With respect to the initial occurrence, after the date of enactment of such Act, of the delinquency rate condition described in paragraph (2), the Secretary shall begin to contract to make, and make, assistance available at the beginning of the first month after the month in which the series indicates that such condition has occurred.

"(5) The mortgage delinquency series referred to in paragraph (2) shall be made available by the Federal Home Loan Bank Board to the Secretary and the Congress on a monthly basis and shall contain data on the previous month's mortgage delinquency rate.

"(b)(1) Once assistance is made available, the Secretary shall continue to contract to make, and make, the assistance available until the date on which the mortgage delinquency series referred to in subsection (a)(2) indicates that the amount of funds represented by sixty-day delinquent mortgage loans and contracts accounted for in such series has declined, on an average monthly basis for a period of three consecutive months, to below 1.2 percent of all funds represented by mortgage loans and contracts accounted for in such series, except that—

"(A) assistance shall continue to be made available pursuant to contracts entered into before such date; and

"(B) the Secretary shall reinstitute the program established by this title whenever the delinquency rate condition described in subsection (a)(2) reoccurs.

"(2) In any case in which the program is reinstituted, the Secretary shall begin to contract to make, and make, such assistance available beginning with the day after the date on which the mortgage delinquency series indicates that the delinquency rate condition described in such subsection has reoccurred.

"ELIGIBILITY FOR ASSISTANCE

"SEC. 104. (a) No assistance may be made with respect to a mortgage under this title unless—

"(1) the property securing the mortgage (or other security interest in the case of units in cooperative or condominium projects) is a one- to four-family residence (including one-family units in a condominium project or a membership interest and occupancy agreement in a cooperative housing project) and is the principal residence of the mortgagor;

"(2)(A) the mortgagee has indicated to the mortgagor its intention to foreclose; or

"(B) payments under the mortgage have been delinquent for at least ninety days;

"(3) the mortgage is not insured under title II of the National Housing Act;

"(4) the mortgagor has incurred a substantial reduction in income as a result of circumstances that are beyond the mortgagor's control and render the mortgagor temporarily unable to correct a mortgage delinquency and to resume full mortgage payments;

"(5) the Secretary has determined that payments under this title are necessary to avoid foreclosure and that there is a reasonable prospect that the mortgagor will be able to—

"(A) resume full mortgage payments within thirty-six months after the beginning of the period for which such payments are provided or upon termination of assistance under this title;

"(B) commence repayment to the Secretary of the payments made under this title at a time designated by the Secretary; and

"(C) pay the mortgage in full by its maturity date or by a later date established by the Secretary and agreed to by the mortgagee for completing the mortgage payments; and

"(6) an amount equal to the original principal obligation of the mortgage does not exceed, at the time the mortgagor applies for assistance under this title, the principal amount that could be insured at such time with respect to the mortgagor's property under section 203(b) of the National Housing Act.

"(b) Upon a determination that the conditions of eligibility described in subsection (a) have been met by a mortgagor, the mortgagor shall become eligible for the assistance described in section 105.

"ASSISTANCE PAYMENTS

"SEC. 105. (a) Assistance under this title shall be provided, to the extent approved in appropriation Acts, in the form of emergency mortgage relief payments made by the Secretary to mortgagees on behalf of mortgagors.

"(b) Payments under this title may be in an amount determined by the Secretary up to the amount of the principal, interest, taxes, assessments, ground rents, hazard insurance, mortgagee's expenses in connection with payments or repayments under this title, and mortgage insurance premiums due under the mortgage, and the initial payment may include an amount necessary to make the payments on the mortgage current. Payments may not exceed amounts that the Secretary determines to be necessary to supplement the amounts, if any, that the mortgagor is capable of contributing toward the mortgage payments.

"(c) Payments under this title may be provided for a period of not to exceed eighteen months plus any period of default. Such period may be extended, in the Secretary's discretion, for not to exceed eighteen months where the Secretary has determined that such extension is necessary to avoid foreclosure and that there is a reasonable prospect that the mortgagor will be able to make the payments and repayments specified in section 104(a)(5). The Secretary shall establish procedures for periodic review of the mortgagor's financial circumstances for the purpose of determining the necessity for continuation, termination, or adjustment in

the amount of the payments. Payments shall be discontinued at any time when the Secretary determines that, because of changes in the mortgagor's financial circumstances, the payments are no longer necessary to avoid foreclosure or that there is no longer a reasonable prospect that the mortgagor will be able to make the payments and repayments specified in section 104(a)(5).

"(d) All payments shall be secured by a lien on the property and by such other obligation as the Secretary may require. Payments shall be repayable upon terms and conditions prescribed by the Secretary, and such terms and conditions may include requirements for repayment of any amount paid by the Secretary toward a mortgagee's expenses in connection with the payment or repayments made under this title. The Secretary may establish interest charges on payments made under this title; except that such charges shall not exceed a rate that is more than the maximum interest rate applicable with respect to level payment mortgages insured pursuant to section 203(b), other than mortgages subject to section 3(a)(2) of Public Law 90-301, of the National Housing Act at the time assistance under this title is approved by the Secretary for the mortgagor. Such charges shall be payable notwithstanding any provision of any State constitution or law or local law that limits the rate of interest on loans or advances of credit. All receipts from repayments made to the Secretary shall be deposited in the miscellaneous receipts of the Treasury of the United States.

"(e) Payments by the Secretary under this title may be made without regard to whether the Secretary has previously taken action under this title on behalf of the mortgagor, except that payments may be provided on behalf of a mortgagor previously assisted under this title only in cases in which full mortgage payments (and any repayments to the Secretary that may have been requested) have been made by such mortgagor for at least twelve months from the time the previous assistance under this title was terminated.

"(f) The Secretary shall, out of funds approved in appropriation Acts, provide homeownership counseling to persons assisted under this title.

"(g) The Secretary shall process applications for assistance under this title in as expeditious a manner as is practicable. In carrying out this title, the Secretary shall provide that, within not more than forty-five calendar days from the receipt of an application for assistance under this title, the mortgagor and mortgagee will be notified by the Secretary of his determination to approve or disapprove such application for assistance.

"AUTHORITY OF THE SECRETARY

"SEC. 106. (a) The Secretary may make rules and regulations that are consistent with the provisions of this title and are necessary to carry out the provisions of this title.

"(b) In the performance of, and with respect to, the functions, powers, and duties vested in the Secretary by this title, the Secretary shall—

"(1) have the power, notwithstanding any other provision of law, whether before or after default, to provide by contract or otherwise for the extinguishment upon default of any redemption, equitable, legal, or other right, title in any mortgage, deed, trust, or other instrument held by or held on behalf of the Secretary under the provisions of this title; and

"(2) have the power to foreclose on any property or commence any action to protect or enforce any right conferred upon the Secretary by law, contract, or other agreement, and bid for and purchase at any foreclosure or other sale any property in connection with which assistance has been provided pursuant to this title.

In the event of any such acquisition, the Secretary may (to the extent approved in appropriations Acts and notwithstanding any other provision of law relating to the acquisition, handling, or disposal of real property by the United States) complete, remodel and convert, dispose of, lease, and otherwise deal with, such property.

"(c) Notwithstanding any other provision of law, the Secretary shall also have power to pursue to final collection by way of compromise or otherwise all claims acquired by him in connection with any security, subrogation, or other rights obtained by him in administering this title. Any funds collected by the Secretary under subsections (b) and (c) shall be deposited in the miscellaneous receipts of the Treasury.

"AUTHORIZATION AND EXPIRATION DATE

"SEC. 107. (a) The aggregate amount of assistance made available over the duration of the contracts entered into under this title may not exceed $760,000,000. Subject to subsection (b) and other provisions of this title, any amount approved in appropriation Acts for such purpose shall remain available until expended.

"(b) The Secretary may not enter into contracts to make assistance under this Act after September 30, 1983.

"NOTIFICATION

"SEC. 108. Each Federal supervisory agency, with respect to financial institutions subject to its jurisdiction, and the Secretary, with respect to other approved mortgagees, shall prior to March 1, 1983, take appropriate action, not inconsistent with laws relating to the safety or soundness of such institutions or mortgagees, to waive or relax limitations pertaining to the operations of such institutions or mortgagees with respect to mortgage delinquencies in order to cause or encourage forbearance in residential mortgage loan foreclosures. For purposes of this section, the term 'Federal supervisory agency' means the Board of Governors of the Federal Reserve System, the Board of Directors of the Federal Deposit Insurance Corporation, the Comptroller of the Currency, the Federal Home Loan Bank Board, the Federal Savings and Loan Insurance Corporation, and the National Credit Union Administration.

"REPORTS

"SEC. 109. (a) Within sixty days after the date of the enactment of the Homeowners Emergency Relief Act of 1982 and within each sixty-day period thereafter prior to October 1, 1983, the Secretary shall make a report to the Congress on—

"(1) the current rate of delinquencies and foreclosures in the housing market areas of the country that should be of immediate concern if the purposes of this title are to be achieved;

"(2) the extent of, and prospect for continuance of, voluntary forbearance by mortgagees in such housing market areas;

"(3) actions being taken by governmental agencies to encourage forbearance by mortgagees in such housing market areas;

"(4) actions taken and actions likely to be taken with respect to making assistance under this title available to alleviate hardships resulting from any serious rates of delinquencies and foreclosures; and

"(5) the current default status and projected default trends with respect to mortgages covering multifamily properties with special attention to mortgages insured under the various provisions of the National Housing Act and with recommendations on how such defaults and prospective defaults may be cured or avoided in a manner that, while giving weight to the financial interests of the United States, takes into full consideration the urgent needs of the many low- and moderate-income families that currently occupy such multifamily properties.

"(b)(1) The Secretary of Housing and Urban Development shall, after consulting with the Federal Home Loan Bank Board, conduct a study to determine if a mortgage delinquency series other than the one described in section 103(a)(2) would be a more effective and efficient series to utilize in carrying out this Act.

"(2) The Secretary shall, by April 1, 1983, transmit to the Congress the findings and conclusions of such study along with any legislative recommendations concerning the program established by this title.".

TITLE VII—GENERAL PROVISIONS

APPLICABILITY

SEC. 701. No provision of this Act, or any amendment made by this Act, may be construed as providing for the expenditure of any amount, except to the extent approved in appropriation Acts.

H.R. 6514

By Mr. ENGLISH:

—Page 42, beginning on line 11, strike out all of subsection (c) through page 43, line 5.

H.R. 7145

By Mr. EDGAR:

—Page 14, line 5, strike out "$1,244,857,000" and insert in lieu thereof "$1,144,857,000".

Page 14, line 6, insert before the semicolon ", of which not to exceed $86,000,000 shall be available for the Tennessee-Tombigbee Waterway project".

By Mr. FRANK:

—Page 14, line 5, strike out "$1,244,857,000" and insert in lieu thereof "$1,228,657,000".

Page 14, line 8, insert ": *Provided*, That none of the funds appropriated by this paragraph shall be available for the Stonewall Jackson Lake Project, located in the State of West Virginia, including the acquisition of land for or the commencement of construction on such project" before the period.

H.R. 7357

By Mr. BINGHAM:

AMENDMENT (1)

—Page 21, line 20, insert " and of his right to representation as set forth in section 292" after "clause (i)".

AMENDMENT (2)

—Page 30, line 18, insert "and" after the semicolon.

Page 30, line 24, insert "and" after the comma.

Page 31, line 3, strike out ", and" and insert in lieu thereof a period.

Page 31, strike out lines 4 through 6.

Page 31, line 16, strike out "(2)" and insert in lieu thereof "(2)(A)".

Page 31, after line 18, insert the following new subparagraph:

"(B) The district courts of the United States shall have original jurisdiction over all causes concerning violations of this title to the extent that the exhaustion of the administrative remedies set forth in this section would not be appropriate in the interest of justice. An action brought under this subparagraph may be brought individually or on a multiple party basis as the interests of justice require.

AMENDMENT (3)

—Page 31, line 18, insert after the period closing quotation marks and another period.

Page 31, strike out line 19 and all that follows through page 32, line 4.

By Mr. BROWN of Colorado:

—Page 3, line 10, strike out "or" the first place it appears and insert in lieu thereof ", for a governmental entity to recruit or refer, or for another person or entity".

By Mrs. CHISHOLM:

—Amend section 121 of H.R. 7357 on page 21, line 12, relating to inspection and exclusion by inserting before the comma at the end of proposed "(b)(1)(B)(II)": "and does not claim to be a citizen of the United States or an alien lawfully admitted for permanent residence who is returning from a temporary visit abroad."

—Amend section 124(c) of H.R. 7357 on page 38, line 12, concerning confidentiality of records relating to asylum, refugee status, and withholding of deportation on persecution grounds, by inserting before the quotation marks at the end of the added new paragraph (2) the following: "The provisions of paragraphs (1) and (2) of this section shall not be applicable to the person who is the subject of such application for asylum, refugee status or withholding of deportation."

By Mr. COELHO:

AMENDMENT (1)

—Page 3, line 10, and page 8, line 20, strike out "for a fee."

AMENDMENT (2)

—Page 3, strike out lines 17 and 18.

AMENDMENT (3)

—Page 7, line 4, strike out "three" and insert in lieu thereof "two".

Page 7, beginning on line 5, strike out "implement such changes in or additions to" and insert in lieu thereof "develop and implement a secure system of identification to determine employment eligibility to be used with respect to all applicants for employment in the United States in lieu of".

Page 7, line 8, strike out "and" and all that follows through "United States" on line 9.

Page 7, line 15, strike out "changes or additions" and insert in lieu thereof "system".

Page 7, line 22, strike out "changes or additions provide" and insert in lieu thereof "system provides".

AMENDMENT (4)

—Page 79, line 14, and page 80, line 25, strike out "1983" and insert in lieu of "the 12-month period described in subsection (g)(2)".

Page 89, after line 7, insert the following new subsection:

"(g)(1) When the President has determined that the enforcement provisions added by the Immigration Reform and Control Act of 1982 have been effective in controlling illegal immigration into the United States, the President shall certify such fact in writing to the Congress.

"(2) the 12-month period referred to in subsections (a)(1) and (b)(1)(A) is the first 12-month period beginning at least 90 days after Congress receives the certification under paragraph (1)."

Page 86, line 4, strike out "January 1, 1983" and insert in lieu thereof "the beginning of the 12-month period described in subsection (g)(2)".

Page 86, line 14, strike out, "before January 1, 1983" and insert in lieu thereof "after the President has made the certification described in subsection (g)(1) and before the end of the period described in subsection (g)(2)".

Page 86, line 17, strike out "may not apply for such adjustment until January 1, 1983" and insert in lieu thereof "has not applied for such adjustment".

AMENDMENT (5)

—Page 62, line 5, strike out "two-year" and insert in lieu thereof, "one-year".

AMENDMENT (6)

—Page 65, line 1, strike out "Secretary of Labor" and insert in lieu thereof "Attorney General".

Page 65, line 2, strike out "Attorney General" and insert in lieu thereof "Secretary of Labor".

AMENDMENT (7)

—Page 59, after line 7, insert the following new section (and corresponding item in the Table of Contents):

INTENT OF CONGRESS

SEC. 210. The intent of the provisions of Section 211 of this part is to grant the Attorney General sufficient authority to admit temporarily certain alien workers for the purpose of alleviating labor shortages as they exist or may develop in certain branches of American productive enterprises.

AMENDMENT (8)

—Page 66, line 2, strike out the closing quotation marks and the period that follows them.

—Page 66, after line 2, insert the following new paragraph:

"(7) The provisions of this section preempt any state or local law on the same subject.".

AMENDMENT (9)

—Page 60, beginning on line 2, strike out "longer than" and all that follows through "Labor" on line 3, and insert in lieu thereof: "of more than eleven months in any calendar year, except in the case of agriculture labor or services which the Secretary of Labor, before the date of the enactment of the Immigration Reform and Control Act of 1982, has recognized require a longer period, which may exceed one year"

AMENDMENT (10)

—Page 60, line 6 strike out "five-year" and insert in lieu thereof "one-year".

AMENDMENT (11)

—Page 61, line 2, strike out "and qualified and who will be available" and insert in lieu thereof "qualified and available".

AMENDMENT (12)

—Page 61, beginning on line 7, strike out "in the United States similarly employed" and insert in lieu thereof "who are similarly employed in the area of intended employment"

AMENDMENT (13)

—Page 61, line 22, insert "reasonable" before "fee".

AMENDMENT (14)

—Page 61, line 24, insert ", after notice and opportunity for a hearing," after "Labor".

AMENDMENT (15)

—Page 64, line 4, before the period, insert the following: ", unless the association is the sole employer of all alien agricultural labor services, in which case only the association shall be liable for representation in such petition or application".

AMENDMENT (16)

—Page 66, line 2, strike at the closing quotation marks and the period that follows them.

Page 66, after line 2, insert the following new paragraph:

"(7) the term 'wages' for purposes of this section, has the meaning given such term in section 3(m) of the Fair Labor Standards Act of 1938 [29 U.S.C. 203(m)].".

AMENDMENT (17)

—Page 63, line 4, strike out "and".

Page 63, line 21, strike out the period and insert in lieu thereof "; and ".

Page 63, after line 21, insert the following new clause:

"(iv) if it becomes a requirement of intended employment of such a nonimmigrant to furnish housing, the employer shall be permitted the alternative of paying a reasonable housing allowance."

AMENDMENT (18)

—Page 64, line 7, insert before the period the following: "or, at the applicant's request, a de novo administrative hearing".

AMENDMENT (19)

—Page 66, strike out line 13 and all that follows through page 67, line five and insert in lieu thereof the following:

"(e) The Attorney General, with the concurrence of the Secretary of Labor and Secretary of Agriculture, shall issue all regulations implementing the provisions of this section within six months of the date of enactment of this Act, and shall report to the Congress, not later than eighteen months after the date of the enactment of this Act and annually thereafter, on recommendations for improvement of such program.".

AMENDMENT (20)

—Page 61, line 24 , insert ", after notice and opportunity for a hearing," after "Labor".

Page 62, amend lines 1 through 3 to read as follows:

(i) if the job opportunity for which the certification is requested is vacant because of a strike or lock-out in the course of a labor dispute, or

AMENDMENT (21)

—Page 61, line 24 , insert ", after notice and opportunity for a hearing," after "Labor".

Page 62, amend lines 1 through 3 to read as follows:

"(i) if the Secretary of Labor certifies that lawful strike by a majority of all employees or lockout involving a work stoppage of workers is in progress in the occupation and at the place the employee is to be employed, or

By Mr. CONYERS:

AMENDMENT (110A)

—Page 7, amend lines 4 through 11 to read as follows:

"(c)(1)(A) Within three years after the date of the enactment of this section, the President shall report to Congress on whether or not the employment eligibility verification system provided under subsec-

tion (b) provides a secure system to determine employment eligibility in the United States. If the President so reports that it does not, the President may, in consultation with the appropriate committees of Congress, implement such changes to the requirements of subsection (b) as are necessary to establish a secure system to determine employment eligibility in the United States, except that any such changes must conform to the requirements of paragraph (2) of this subsection and such changes may not become effective until a period of at least 60 days has elapsed after the date a complete description of such changes has been transmitted to each House of Congress. If such changes are required, the President shall consider a change to use of a telephone verification system.

AMENDMENT (110B)

—Page 7, amend lines 4 through 11 to read as follows:

"(c)(1)(A) Within three years after the date of the enactment of this section, the President shall report to Congress on whether or not the employment eligibility verification system provided under subsection (b) provides a secure system to determine employment eligibility in the United States. If the President so reports that it does not, the President may, in consultation with the appropriate committees of Congress, implement such changes to the requirements of subsection (b) as are necessary to establish a secure system to determine employment eligibility in the United States, except that—

"(i) any such changes must conform to the requirements of paragraph (2) of this subsection,

"(ii) such changes may not become effective until a period of at least 60 days has elapsed after the date a complete description of such changes has been transmitted to each House of Congress, and

"(iii) such changes may not become effective if, within such period, either House of Congress adopts a resolution the substance of which disapproves of the changes proposed by the President.

If such changes are required, the President shall consider a change to use of a telephone verification system.

AMENDEMENT (124)

—At the end of page 20 insert the following new section (and insert a corresponding item in the table of contents):

JUDICIOUS AND NONDISCRIMINATORY ENFORCEMENT OF THE IMMIGRATION LAWS

SEC. 114. It is the sense of Congress that—

(1) the immigration laws not be enforced within the United States on the basis of race, religion, sex, or national origin, and

(2) in the enforcement of immigration laws, the Attorney General should take due and deliberate actions, including the training of Immigration and Naturalization Service officers to familiarize them with the rights and varied cultural backgrounds of aliens and United States citizens, necessary to safeguard the constitutional rights, personal safety, and human dignity of persons within the jurisdiction of the United States.

AMENDMENT (127)

—Page 13, line 10, strike out "The President" and all that follows through "concerning," on line 11 and insert in lieu thereof the following: "The Comptroller General shall prepare and transmit to the Congress, biannually during the first three years following the date of the enactment of this section, a report concerning".

By Mr. CORRADA:

AMENDMENT (1)

—Page 63, line 4, strike out "and".

Page 63, line 21, strike out the period and insert in lieu thereof "; and".

Page 63, after line 21 insert the following new clauses:

"(iv) the Secretary of Labor shall ensure that if the nonimmigrant worker will be paid on a piece rate basis, the piece rate—

"(I) will be designed to produce average hourly earnings at least equal to a wage rate which will not adversely affect the wages and working conditions of similarly employed eligible individuals and

"(II) will be based on a schedule, established and periodically published by the Secretary of Labor, containing the normal hourly piece rate of production of an average United States worker employed in the field of agricultural labor or services concerned.

AMENDEMENT (2)

—Page 64, at the end of line 21, insert the following new sentence: "In determining whether or not an individual referred is qualified, the individual's initial level of proficiency or productivity shall not be a basis for establishing that the individual is not qualified."

By Mr. DAUB:

—On page 49, after line 12, insert the following:

NUMERICAL LIMITATION

SEC. 201. (a) Subsection (a) of section 201 (8 U.S.C. 1151) is amended to read as follows:

"(a) Exclusive of special immigrants defined in section 101 (a)(27), immediate relatives specified in subsection (b) of this section, aliens who are admitted or granted aslyum under section 207 or 208, aliens provided records of permanent residence under section 214(d), and aliens whose status is adjusted to permanent resident status under section 245A, aliens born in a foreign state or dependent area who may be issued immigrant visas or who may otherwise acquire the status of an alien lawfully admitted to the United States for permanent residence shall not exceed in any fiscal year the number equal to (A) 425,000, minus (B) the number of immediate family relatives specified in subsection (b) of this section who in the previous fiscal year were issued immigrant visas or otherwise acquired the status of aliens lawfully admitted to the United States for permanent residence and the number of aliens who in the previous fiscal year were provided records of permanent residence under section 214(d)."

(b) Such section is further amended by adding at the end the following new subsections:

"(c) The President shall transmit to the Congress, not later than January 1, 1985 and not later than January 1st of every other year thereafter, a report on the impact on the economy, labor market, housing market, educational system, social services, population, and foreign policy of the United States of admissions and other entries of immigrants, refugees, asylees, and parolees into the United States during the preceding two-year period. The President shall include in such report any appropriate recommendations on changes in the numerical limitation on admissions, including a level of total admissions for the next two-year period, and other policies of this title bearing on the admission and entry of such aliens to the United States.

"(d) A hearing to review the report and recommendations of the President shall be held by the Committees on the Judiciary of the House of Representatives and the Senate within 90 days after receipt of such report.".

Sections 201, 202, 203 and 204 of this Act are renumbered Sections 202, 203, 204 and 205, respectfully, and the Table of Contents is amended to include "Sec. 201. Numerical Limitation.".

By Mr. DE LA GARZA:

—Page 19, line 3, strike out "Section 274" and insert in lieu thereof "(a) Section 274".

Page 20, after line 8, insert the following new subsection:

(b) The first sentence of subsection (a) of section 271 (8 U.S.C. 1321) is amended by striking out "or international bridges".

—Amend Section 204(c) of H.R. 7357 as follows:

On page 58, lines 7-17, by striking out paragraphs "(1)", "(2)", and "(3)" and inserting in lieu thereof the following:

"(1) who intends to enter or remain in the United States on or before October 1, 1988,

"(2) who, as of such date, has been issued a labor certification under section 212(a)(14) of such Act with respect to employment for an employer,

"(3) who intends to enter or remain in the United States solely for the purpose of performing such employment, and".

On page 58, line 20, by striking out "1984" and inserting in lieu thereof "1989".

On page 58, line 25, by striking out "1984" and inserting in lieu thereof "1989".

By Mr. DE LUGO:

—Page 86, after line 20, insert the following new paragraph:

"(7) The provisions of this section shall not apply to an alien described in section 2(b) of the Public Law 97-271.

By Mr. DIXON:

AMENDMENT (2)

—Page 59, after line 6, interest the following new subsection:

(d) Section 212(a)(4) (8 U.S.C. 1182(a)(4)) is amended by striking ", or sexual deviation,"

By Mr. ERLENBORN:

(Substitute for amendment No. 6 of the Committee on Education and Labor.)

—Page 59, strike out line 8 and all that follows through page 67, line 11, and insert in lieu thereof the following:

H-2 WORKERS

SEC. 211. (a) Paragraph (15)(H) of section 101(a) (8 U.S.C. 1101(a)) is amended by inserting "(a) in agricultural labor or services included within the provisions of section 3(f) of the Fair Labor Standards Act of 1938 (29 U.S.C. 203(f)) or section 3121(g) of the Internal Revenue Code of 1954, or (b) in any other labor or services" after "temporary services or labor".

(b) Section 214 (8 U.S.C. 1184) is amended—

(1) by adding at the end of subsection (a) the following new sentences:

"An alien may not be admitted to the United States as a nonimmigrant—

"(1) under section 101(a)(15)(H)(ii)(a) for an aggregate period longer than nine months in any calendar year, except (A) in the case of agricultural labor or services which the Secretary of Labor, before the date of the enactment of the Immigration

Reform and Control Act of 1982, has recognized require a longer period, and (B) that the Secretary of Labor may grant an extension of certification if he determines that extenuating circumstances indicate that such an extension is in the public interest; or

"(2) under section 101 (a)(15)(H)(ii) if the alien was admitted to the United States as such a nonimmigrant within the previous five-year period and the alien during that period violated a term or condition of such previous admission.

The Attorney General shall provide for such endorsement of entry and exit documents of nonimmigrants described in section 101(a)(15)(H)(ii) as may be necessary to carry out this section and to provide notice for purposes of section 274A.",

(2) by inserting "(1)" after "(C)" in subsection (C), and

(3) by adding at the end of subsection (c)(1), as so redesignated, the following:

"For purposes of this paragraph the term 'appropriate agencies of Government' means the Department of Labor.

"(2)(A) A petition to import an alien as a nonimmigrant under section 101(a)(15)(H)(ii) may not be approved by the Attorney General unless the petitioner has applied to the Secretary of Labor for a certification that—

"(i) there are not sufficient workers who are able, willing, and qualified and who will be available at the time and place needed to perform the labor or services involved in the petition, and

"(ii) the employment of the alien in such labor or services will not adversely affect the wages and working conditions of workers in the United States similarly employed.

The Secretary of Labor may require by regulation, as a condition of issuing the certification, the payment of a fee to recover the reasonable costs of processing applications for certification.

"(B) The Secretary of Labor may not issue a certification under subparagraph (A)—

"(i) if there is a strike or lockout in the course of a labor dispute (as defined by regulations prescribed by the Secretary), or

"(ii) with respect to an employer if the employer during the previous two-year period employed nonimmigrant aliens admitted to the United States under section 101(a)(15)(H)(ii) and the Secretary of Labor has determined, after notice and opportunity for a hearing, that the employer (I) at any time during that period substantially violated a material term or condition of the labor certification with respect to the employment of domestic or nonimmigrant workers or (II) if the Secretary has assessed a civil penalty against the employer for failure to comply with such a term or condition, has failed to pay the penalty.

No employer may be denied certification under clause (ii) for more than three years for any violation described in such clause.

"(3)(A) In the case of an application for a labor certification for a nonimmigrant described in section 101(a)(15)(H)(ii)(a)—

"(i) the Secretary of Labor may not require that the application be filed more than 65 days before the first date the employer requires the labor or services of the alien;

"(ii) the Secretary of Labor shall require a 45-day recruitment period as a test of availability of domestic workers;

"(iii) the employer shall be notified in writing within seven days of the date of filing if the application does not meet the standards (other than that described in paragraph (2)(A)(i)) for approval and if it does not, such notice shall include the reasons therefor and (if a sufficient period remains for a 45-day recruitment period) shall permit the employer an opportunity to resubmit promptly a modified application for approval; and

"(iv) the Secretary of Labor shall make, not later than 20 days before the date such labor or services are first required to be performed, the certification described in paragraph (2)(A) if the employer has complied with the criteria for certification, including criteria for the recruitment of eligible individuals as prescribed by the Secretary, and if the employer does not actually have, or has not been provided with referrals of, qualified eligible individuals who have agreed to perform such labor or services on the terms and conditions of a job offer which meets the requirements of the Secretary, except that the terms of such a labor certification remain effective only if the employer continues to accept for employment, until the date the aliens depart for work with the employer, qualified eligible individuals who apply or are referred to the employer.

"(B) A petition to import an alien as a nonimmigrant described in section 101(a)(15)(H)(ii)(a), and an application for a labor certification with respect to such an alien, may be filed by an association representing agricultural producers which use agricultural labor or services. The filing of such a petition or application on a member's or user's behalf does not relieve the member or user of any liability under this section unless the association—

"(i) is the sole employer of all such aliens and all similarly employed United States agricultural labor of all members or users it represents, and

"(ii) the association has demonstrated (through a sufficient liability bond or otherwise) to the Secretary of Labor sufficient financial resources to absorb any liability that might reasonably occur for violation of any conditions required by the certification.

"(C)(i) The Secretary of Labor shall provide for an expedited procedure for the review of a denial of certification under paragraph (2)(A).

"(ii) The Secretary of Labor shall expeditiously, but in no case later than 72 hours after the time a new determination is requested, make a new determination on the request for certification in the case of importing a nonimmigrant described in section 101(a)(15)(H)(ii)(a) if able, willing, and qualified eligible individuals are not actually available at the time such labor or services are required and a certification was denied in whole or in part because of the availability of qualified eligible individuals. If the employer asserts that any eligible individuals who have been referred are not able, willing, available, or qualified, the burden of proof is on the employer to establish that the individuals referred are not actually able, willing, or available or are not qualified because of employment-related reasons as shown by their job performance.

"(D) For purposes of this paragraph, the term 'eligible individual' means, with respect to employment, an individual who is not an unauthorized alien (as defined in section 274A(a)(4)) with respect to that employment.

"(4) The Secretary of Labor, in consultation with the Attorney General and the Secretary of Agriculture, shall annually report to the Congress on the certifications provided under this subsection, the impact of aliens admitted pursuant to such certifications on labor conditions in the United States, and on compliance of employers and nonimmigrants with the terms and conditions of such nonimmigrants' admission to the United States.

"(5) There are authorized to be appropriated for each fiscal year, beginning with fiscal year 1983, $10,000,000 for the purposes (A) of recruiting domestic workers for temporary labor and services which might otherwise be performed by nonimmigrants described in section 101(a)(15)(H)(ii), and (B) of monitioring terms and conditions under which such nonimmigrants (and domestic workers employed by the same employers) are employed in the United States. The Secretary of Labor is authorized to take such actions, including imposing appropriate penalties and seeking appropriate injunctive relief and specific performance of contractual obligations, as may be necessary to assure employer compliance with terms and conditions of employment under this subsection.

"(6) There are authorized to be appropriated for each fiscal year, beginning with fiscal year 1983, such sums as may be necessary for the purpose of enabling the Secretary of Labor to make determinations and certifications under this subsection and under section 212(a)(14).".

(c) The amendments made by this section apply to petitions and applications filed under section 214(c) of the Immigration and Nationality Act on or after the first day of the seventh month beginning after the date of the enactment of this Act (hereinafter in this section referred to as the "effective date").

(d) The Secretary of Labor, in consultation with the Attorney General and the Secretary of Agriculture, shall issue regulations implementing the amendments made by this section. In developing those regulations, the Secretary of Labor shall establish standards for all persons employed under temporary agricultural labor certifications provided by these amendments which assure that wages and working conditions of aliens will not adversely affect similarly employed United States workers. In carrying out this responsibility, the Secretary of Labor shall establish employment standards which are at least comparable to those under the current regulations and which, among others, guarantee the provision of housing, transportation, meals, workers' compensation, and accurate payroll records and written pay-stubs, by employers who are provided certifications to import temporary alien workers for temporary agricultural jobs. Notwithstanding any other provision of law, final regulations implementing the amendments made by this section shall first be issued, on an interim or other basis, not later than the effective date.

(e) The Secretary of Labor, in consultation with the Attorney General and the Secretary of Agriculture, shall report to the Congress not later than 18 months after the effective date on recommendations for improvements in the temporary alien worker program amended by this section, including recommendations—

(1) improving the timeliness of decisions regarding admission of temporary foreign workers under the program,

(2) removing any current economic disincentives to hiring United States citizens or permanent resident aliens where temporary foreign workers have been requested, and

(3) improving the cooperation among government agencies, employers, employer associations, workers, unions, and other worker associations to end the dependence of any industry on a constant supply of temporary foreign workers.

(f) It is the sense of Congress that the President should establish an advisory commission which shall consult with the Government of Mexico and advise the Attorney General regarding the operation of the alien temporary worker program established under section 214(c) of the Immigration and Nationality Act.

(Amendment to the amendment No. 4 of the Committee on Education and Labor.)

—In subsection (e)(1), after the words "person or entity" the first time they appear insert the words "employing 15 or more employees".

—In subsection (e)(2), after the words "and the employment of the individual" insert before the comma the words "if the individual is qualified for employment".

(Amendment to the amendments No. 1, No. 2, and No. 3 of the Committee on Education and Labor) to H.R. 7357.

—In Education and Labor Committee amendments numbered 1, 2, and 3, after the words "person or entity" in each amendment insert the words "employing 15 or more employees".

By Mr. EVANS of Georgia:

—Page 84, after line 15, insert the following new section (and insert a corresponding item in the table of contents):

TREATMENT OF CERTAIN H-1 WORKERS

SEC. 214. In the case of aliens who—

(1) are employed by an employer which is located in a foreign country and which is engaged in the business of broadcasting to that country sports or similar events occurring in the United States and in which teams located in that foreign country are participating,

(2) are engaged in the production of such broadcasts,

(3) may otherwise be classified as nonimmigrants under section 101(a)(15)(H)(i) of the Immigration and Nationality Act, and

(4) are present intermittently in the United States, for periods not exceeding 5 days at any time, for such purpose,

the Attorney General may, under procedures established by him, permit such aliens to enter the United States for such purpose under terms which permit a single application to be filed on behalf of a group of such employees of an individual employer, except that this section shall not apply to more than (20) aliens employed by a single employer at any time.

By Mr. FISH:

AMENDMENT (1)

—Page 57, after line 18, insert the following new section (and redesignate the succeeding section, and conform the table of contents, accordingly):

TEMPORARY INCREASE IN VISA NUMBERS TO ELIMINATE CERTAIN BACKLOGS IN FOURTH AND FIFTH PREFERENCE PETITIONS

SEC. 204. (a)(1) In the case of aliens subject to the numerical limitations under section 201(a) of the Immigration and Nationality Act, there shall be available for each of fiscal years 1984, 1985, 1986, 1987, and 1988, for certain backlogged family reunification immigrants described in subsection (b), immigrant visas in a number not to exceed 50,000 in any such fiscal year, and not to exceed 13,500 in any of the first three quarters of any such fiscal year.

(2) The numerical limitations in section 202 of such Act shall not apply to aliens otherwise eligible for a visa number under paragraph (1).

(b) Aliens who are not otherwise allotted an immigrant visa under section 203(a) of the Immigration and Nationality Act shall be allotted visas made available under subsection (a)(1) as follows:

(1) Visas shall first be made available to qualified immigrants, in a number not to exceed 10,000, who are the married sons and daughters of citizens of the United States and who, as of the date of the enactment of this section, had a petition filed on their behalf for preference status by reason of the relationship described in section 203(a)(4) of such Act (as such section is in effect on such date).

(2) Visas shall next be made available to qualified immigrants who are the brothers or sisters of United States citizens at least 21 years of age and who, as of the date of the enactment of this section, had a petition filed on their behalf for preference status by reason of the relationship described in section 203(a)(5) of such Act (as such section is in effect on such date).

(c) Sections 203(a)(8), 203(b), 203(c), 203(d), 203(e), and 204(a) of the Immigration and Nationality Act (as in effect on the date of the enactment of this section) shall apply to visas issued under this section in the same manner as they apply to visas issued to sections 203 and 204 of such Act.

—Page 74, line 15, strike out "five" and insert in lieu thereof "eight".

Page 74, line 20, strike out "unless" and all that follows through page 75, line 7, and insert in lieu thereof the following: "unless—

"(i) the average number of refusals of nonimmigrant visitor visas for nationals of that country during the two previous full fiscal years was less than 2.0 percent of the total number of nonimmigrant visitor visas for nationals of that country which were granted or refused during those years, and

"(ii) the average number of refusals of nonimmigrant visitor visas for nationals of that country during either of such two previous full fiscal years was less than 2.5 percent of the total number of nonimmigrant visitor visas for nationals of that country which were granted or refused during that year.

Page 76, beginning on line 2, strike out "unless" and all that follows through line 15, and insert in lieu thereof the following: "unless—

"(I) the average number of refusals of nonimmigrant visitor visas for nationals of that country during the two previous full fiscal years was less than 2.0 percent of the total number of nonimmigrant visitor visas for nationals of that country which were granted or refused during those years, and

"(ii) the average number of refusals of nonimmigrant visitor visas for nationals of that country during either of such two previous full fiscal years was less than 2.5 percent of the total number of nonimmigrant visitor visas for nationals of that country which were granted or refused during that year.

AMENDMENT (3)

—Page 37, line 2, strike out the closing quotation marks and the period that follows them.

Page 37, strike out lines 18 through 20.

Page 37, line 21, strike out "(2)" and insert in lieu thereof "(7)".

Page 37, beginning on line 25, strike out "sections 207, 208, and 243(h) of this Act" and insert in lieu thereof "this section or sections 207 or 243(h)".

Page 38, line 9, insert "to the applicant or" after "available".

Transfer the provision beginning on page 37, line 21, through page 38, line 12, (as amended above) and insert it on page 37, after line 2.

AMENDMENT (4)

—Strike out section 202 and redesignate the succeeding sections (and conform the table of contents) accordingly.

By Mr. FRANK:

AMENDMENT (1)

—Page 12, after line 23, insert the following new paragraph:

"(6) The system will protect the privacy and security of personal information and identifiers utilized in the system. Unauthorized use or disclosure of this information for purpose other than those specified in this act shall be subject to a fine of not less than $3,000, imprisonment for not more than one year, or both, for each violation committed.

AMENDMENT (2)

—Page 4, line 14, strike out "Except as provided in subsection (c), the" and insert in lieu thereof "The".

Page 7, strike out line 4 and all that follows through page 8, line 14, and redesignate succeeding subsections (and cross references thereto).

Page 13, lines 14 and 15, strike out "and the status of the changes and additions described in subsection (c)".

Page 18, before line 6, insert the following new section (and insert a corresponding item in the table of contents):

SELECT COMMISSION ON EMPLOYMENT ELIGIBILITY IDENTIFICATION SYSTEMS

SEC. 103. (a) There is established a Select Commission on Employment Eligibility Identification Systems (hereinafter in this section referred to as the "Commission") which shall be composed of the following members, who shall, if applicable, be appointed within 90 days after the date of enactment of this Act:

(1) Two members appointed by the Speaker of the House of Representatives from the membership of the House Committee on the Judiciary.

(2) Two members appointed by the President pro tempore of the Senate from the membership of the Senate Committee on the Judiciary.

(3) The Attorney General, the Secretary of Health and Human Services, the Secretary of Labor, and the Secretary of Agriculture.

(4) The chairman of the Civil Rights Commission and the chairman of the Equal Employment Opportunity Commissions.

(5) Six members, two each appointed by the President, the Speaker of the House of Representatives, and the President pro tempore of the Senate, selected in a manner that provides for representation on the Commission of the business, civil rights, civil liberties, and labor communities.

(6) Representatives of immigrant communities affected by this legislation.

(b)(1) The Commission shall elect a Chairman and Vice Chairman from among its members.

(2) A majority of Commission members shall constitute a quorum, but a lesser number may hold hearings.

(3) A vacancy in the Commission shall not affect its powers, and shall be filled in the same manner in which the original appointment was made.

(4) Each member of the Commission who is not otherwise employed by the United States Government shall receive compensation at a rate not to exceed the daily rate prescribed for GS-18 in the General Schedule under section 5332 of title 5, United States Code, for each day, including traveltime, the member is engaged in the actual performance of duties as a member of the Commission. A member of the Commission who is an officer or employee of the United States Government shall serve without additional compensation. All members of the Commission shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

(c) It shall be the duty of the Commission to study, evaluate, and recommend to Congress whether any changes in or additions to the requirements of section 274A(b) of the Immigration and Nationality Act are necessary to establish a secure system to determine employment eligibility in the United States. Nothing in this decision to establish this Commission shall be construed to authorize, suggest, or recommend, directly or indirectly, the issuance or use of national identification cards.

(d) The Commission shall—

(1) study means by which it can be assured—

(A) that personal information utilized by any employment eligiblity identification system will be available only to employers, recruiters, and referrers for employment and to Government agencies and only to the extent necessary for the purpose of verifying that an individual is not an unauthorized alien;

(B) that verification of an individual's employment eligibility will not be withheld for any reason other than that the individual is an unauthorized alien;

(C) that any employment eligibility identification system to be recommended or used will not be used for law enforcement purposes other than the enforcement of section 274A of the Immigration and Nationality Act and section 1546 of title 18, United States Code, and mechanisms to ensure individual redress in the event of such violation; and

(D) that any document to be presented by an individual as proof of employment and eligibility under section 274A of the Immigration and Nationality Act will not be required to be carried on one's person or presented for any purpose other than to prove employment eligibility under said section of the Immigration and Nationality Act or in the enforcement of section 1546 of title 18, United States Code; and

(2) consult with the President, the Civil Rights Commission, the Equal Employment Opportunity Commission, the Justice Department, the Labor Department, the Agriculture Department, and the General Accounting Office with respect to the findings of these agencies and Departments concerning the enforcement of section 274A of the Immigration and Nationality Act.

(e)(1) The Commission shall make semiannual reports to each House of Congress during the period before publication of its final report (described in paragraph (2)).

(2) The Commission shall make a final report of its findings and recommendations to the President and to each House of Congress, which report shall be published not later than March 1, 1986.

(f)(1) The Commission is authorized to appoint and fix the compensation of a staff director and such other additional personnel as may be necessary to enable the Commission to carry out its functions without regard to the civil service laws, rules, and regulations. Any Federal employee subject to those laws, rules, and regulations may be detailed to the Commission without reimbursement, and such detail shall be without interruption or loss of civil service status or privilege.

(2) Staff members of the Committee on the Judiciary of the Senate or of the Committee on the Judiciary of the House of Representatives may be detailed to serve on the staff of the Commission by the chairman of the respective committee. Staff members so detailed shall serve on the staff of the Commission without additional compensation except that they may receive such reimbursement of expenses incurred by them as the Commission may authorize.

(3) The Commission may call upon the head of any Federal department or agency to furnish information and assistance which the Commission deems necessary for the performance of its functions, and the heads of such departments and agencies shall furnish such assistance and information, unless prohibited under law, without reimbursement.

(4) The Commission is authorized to make grants and enter into contracts for the conduct of research and studies which will assist it in performing its duties under this section.

(5) The Commission shall cease to exist upon the filing of its final report, except that the Commission may continue to function for up to sixty days thereafter for the purpose of winding up its affairs.

(6) The Commission is authorized to procure temporary and intermittent services of experts and consultants as are necessary to the extent authorized by section 3109 of title 5, United States Code, but at rates not to exceed the daily equivalent of the rate then payable for grade GS-18 in the General Schedule under section 5332 of such title.

(g) There is authorized to be appropriated the sum of $10,000,000, to remain available until expended, to carry out the provisions of this section.

(h) Notwithstanding any other provision of this section, no payment, or authorization to make payments to, to enter into contracts under this section, shall be effective except to such extent, or in such amounts, as are provided in advance in appropriations Acts.

AMENDMENT (3)

—Amend Section 212(a)(6) of H.R. 7357 on page 68, line 20,: by adding before the comma at the end of paragraph "(2)(A)(ii)" the following: "or a visa as a nonimmigrant described in section 101(a)(15)(h)(i)" and on page 69, line 5, by inserting before the comma in paragraph "(2)(A)(iv)" the following: ", if required thereby".

AMENDMENT (4)

—Page 6, strike out line 4 and insert in lieu thereof the following new paragraph:

"(3) the person or entity, in the case of the hiring of an individual, must attest, under penalty of perjury and on or appended to such form, to the name and address of each other individual who (A) applied in writing (within 90 days before the hiring of the individual) for the position in which the individual was hired; and (B) was not hired for the position; and

Page 6, line 5, strike out "(3)" and insert in lieu thereof "(4)".

Page 6, line 6, strike out "(1) and (2)" and insert in lieu thereof "(1), (2), and (3)".

By Mr. GARCIA:

AMENDMENT (1)

—Page 21, line 3, insert "(a)" after "121.".

Page 22, after line 25, insert the following new subsection:

(b) Section 287 (8 U.S.C. 1357) is amended by adding at the end the following new subsection:

"(d) An officer or employee of the Service shall inform promptly an alien detained under the provisions of this Act of the alien's liabilities and entitlements under this Act and shall allow the alien to consult with counsel of the aliens choice at no expense to the government.".

Page 38, line 19, strike out "121" and insert in lieu thereof "121(a)".

AMENDMENT (2)

—Page 14, line 18, strike out "(3)" and insert in lieu thereof "(3)(A)".

Page 14, line 23, strike out all that follows the first period.

Page 14, after line 23, insert the following new subparagraph:

"(B) There are authorized to be appropriated, in addition to such sums as may otherwise be available for such purpose, $5,000,000 for fiscal year 1983 to the Department of Labor and the Equal Employment Opportunity Commission for coordinating task force activities and conducting investigations of employment discrimination attributable to operation of this section.".

AMENDMENT (3)

—Page 21, line 3, insrt "(a)" after "121.".

Page 22, after line 25, insert the following new subsection:

(b) Section 287(a) (8 U.S.C. 1357(a)) is amended by adding at the end the following new sentence: "Search warrants issued for an officer or employee of the Service to enter a home or place of business seeking an individual or individuals shall describe with particularity the number and identities of the individuals.".

Page 38, line 19, strike out "121" and insert in lieu thereof "121(a)".

AMENDMENT (5)

—Page 21, line 12, insert "and does not claim to be a citizen of the United States or an alien lawfully admitted for permanent residence who is returning from a temporary visit abroad" before the comma.

AMENDMENT (6)

—Page 68, line 20, insert "or a visa as a nonimmigrant described in section 101(a)(15)(H)(i)" after "203(a)".

Page 69, line 5, insert "if such certification is required" after "position".

AMENDMENT (7)

—Strike out part D of title I and the corresponding items in the table of contents.

AMENDMENT (8)

—Page 37, line 20, strike out "paragraph" and insert in lieu thereof "paragraphs".

Page 38, line 12, strike out the closing quotation marks and the period that follows them.

Page 38, after line 12, insert the following new paragraph:

"(3) Paragraphs (1) and (2) shall not apply to a person who is the subject of the application for asylum, refugee status, or withholding of deportation.

AMENDMENT (9)

—Page 33, line 9, insert "which notice shall inform the alien of the right to apply for asylum and the time limits placed thereon by this subparagraph," after "proceedings,".

AMENDMENT (10)

—Page 31, line 18, insert closing quotation marks and a period after the period.

Page 31, strike out line 19 and all that follows through page 32, line 4.

AMENDENT (11)

—Page 29, line 15 and page 32, line 18, strike out "30 days" and insert in lieu thereof "90 days".

AMENDMENT (12)

—Page 26, line 1, strike out "Appeals" and insert in lieu thereof "Notices of appeals".

AMENDMENT (13)

—Page 24, at the end of line 15 insert the following new sentence: "The Board shall exercise supervisory powers over immigration hearings and proceedings under this Act.".

Mr. GLICKMAN:

—Page 7, line 5, insert "and subject to subsection (h)" after "section".

Page 14, line 23, strike out the closing quotation marks and the period that follows them.

Page 14, after line 23, insert the following new subsection:

"(h)(1)(A) The President, before implementing under subsection (c)(1) a change in or addition to the requirments of subsection (b), shall submit such proposed change to the Congress for review in accordance with this subsection. Such proposed change shall be delivered to each House of the Congress on the same date and to each House of the Congress while it is in session.

"(B) Any such proposed change may not be implemented in accordance with its terms, before the end of the period of 60 calendar days of continuous session after the date such proposed change is submitted to the Congress, both Houses of the Congress adopt a concurrent resolution disapproving such proposed change.

"(2) If a proposed change of the President is disapproved by the Congress under paragraph (1)(B), then the President may propose another change or addition. The President, after proposing a change or addition under this paragraph, shall submit the proposed change to the Congress in accordance with paragraph (1)(A).

"(3) Congressional inaction on, or rejection of, a concurrent resolution of disapproval under this subsection shall not be construed as an expression of approval of the proposed change involved, and shall not be construed to create any presumption of validity with respect to such proposed change.

"(4)(A) For purposes of this subsection—

"(i) continuity of session is broken only by an adjournment sine die; and

"(ii) days on which either House is not in session because of an adjournment of more than 5 days to a day certain are excluded in the computation of the periods specified in paragraph (1)(B) and paragraph (2).

"(B) If an adjournment sine die of the Congress occurs after the President has submitted a proposed change under paragraph (1)(A), but such adjournment occurs—

"(i) before the end of the period specified in paragraph (1)(B); and

"(ii) before any action necessary to disapprove the proposed change is completed under paragraph (1)(B);

then the President shall be required to resubmit the proposed change involved at the beginning of the next regular session of Congress. The period specified in paragraph (1)(B) shall begin on the date of such resubmission.

"(5) For purposes of this subsection:

"(A) The term 'concurrent resolution' means a concurrent resolution the matter after the resolving clause of which is as follows: 'That the Congress disapproves the proposed change of the President under section 274A(c)(1) of the Immigration and Nationality Act, which proposal was submitted to the Congress on .'. (The blank space shall be filled appropriately.)

"(B) The term 'proposed change' means any change in or addition to the requirements of section 274A(b) of the Immigration and Nationality Act proposed by the President under section 274A(c)(1) of such Act.".

By Mr. SAM B. HALL, JR.:

AMENDMENT (1)

—Page 3, line 17, strike out "Subparagraph (B)" and insert in lieu thereof "The previous sentence".

Page 3, line 17, insert "(other than a farm labor contractor, as defined in section 3(b) of the Farm Labor Contractor Registration Act of 1963)" after "person or entity".

AMENDMENT (2)

—Page 4, strike out line 19 and all that follows through page 5, line 21.

Page 5, line 22, and page 6, line 5, strike out "(2)" and "(3)" and insert in lieu thereof "(1)" and "(2)", respectively.

Page 5, line 24, strike out "for purposes of paragraph (1)" and insert in lieu thereof "for this purpose".

Page 6, line 6, strike out "paragraphs (1) and (2)" and insert in lieu thereof "paragraph (1)".

Page 6, strike out line 21 and all that follows through page 8, line 14, and insert in lieu thereof the following:

"(c)(1)(A) The Attorney General, in cooperation with the Secretaries of Labor and Health and Human Services, shall establish a system (hereinafter in this subsection referred to as the 'verification system') to verify the validity of the social security account numbers of individuals applying to be hired, recruited, or referred for employment in the United States.

"(B) The Attorney General shall provide for publication in the Federal Register of notice of the establishment of the verification system, and procedures for its use, not earlier than six months, and not later than two years, after the date of enactment of this section.

"(2) Beginning on an effective date, not earlier than 90 days after the date final regulations are published under paragraph (1)(B), set forth by the Attorney General, in lieu of the requirements specified in subsection (b) and in the case of a person or other entity hiring, or recruiting or referring for a fee, an individual for employment in the United States, the person or other entity must, pursuant to the verification system—

"(A) submit the social security account number of the individual, and

"(B) record a verification code indicating whether the number submitted is valid or invalid.

"(3)(A) A person or entity which submits a social security account number of an individual for verification under the verification system has established a rebuttable presumption that the person or entity has not violated paragraph (1)(A) or (2) of subsection (a) with respect to that individual. Evidence of such submission shall be admissible in any proceeding under subsection (d).

"(B) A person or entity which submits a social security account number of an individual for verification under the verification system and which has recorded a verification code indicating that the number is valid has established a complete defense as to a violation by that person or entity of paragraph (1)(A) or (2) of subsection (a) with respect to that individual. Evidence of such submission and recordation shall be admissible in any proceeding under subsection (d).

AMENDMENT (4)

—Page 18, after line 23, insert the following new subsection:

(c)(1) It is the sense of Congress that the Attorney General should actively seek the assistance of State and local law enforcement agencies—

(A) whenever the Attorney General finds that such agencies can assist the Attorney General in the enforcement of the Immigration and Nationality Act in a prompt, uniform, and consistent manner in accordance with this subsection, or

(B) in the case of a national emergency occasioned by an unauthorized mass movement of aliens toward or into the United States.

(2) Such assistance shall be provided only under the supervision of officers of the Immigration and Naturalization Service, and State and local law enforcement officers would not be authorized to detain or arrest a person merely on the suspicion that the person is an alien not lawfully in the United States unless the person is actually detected entering the United States unlawfully.

(3) It is further the sense of Congress that the Attorney General should (without the expenditure of additional funds) encourage personnel of the Immigration and Naturalization Service, in a manner that does not detract from their other regular operations, to instruct personnel of State and local law enforcement agencies in immigration control operations, the nature and enforcement of immigration laws, classification of aliens and identification of immigration documents, and such other matters (including coordination of enforcement activities) as may promote their providing assistance pursuant to this subsection.

AMENDMENT (5)

—Strike out title III (that is, page 79, line 1, through page 93, line 3), and amend the table of contents accordingly.

AMENDMENT (5A)

—Page 79, strike out line 1 and all that follows through page 89, line 22, and insert in lieu thereof the following:

TITLE III—UPDATING REGISTRY DATE

Page 89, line 24, strike out "302" and insert in lieu thereof "301".

Page 90, strike out line 9 and all that follows through page 93, line 3.

Conform the table of contents accordingly.

By Mr. HANSEN of Idaho:

—Section 274A(g)(2)(A) is amended to read: "No act by any employer done in compliance with the provisions of this section shall be the basis of any proceeding, or civil or criminal charge either by federal or state authorities based upon the rights to employment of any person denied employment by such employer."

—Section 274A(b)(3)(B) is amended by adding the following sentence after the word "subsection": "Such document, or copy thereof may not be used in any proceeding other than an Immigration proceeding for the purpose of establishing any fact or the criminal liability of any person."

—Section 245A(d)(1)(a) is amended to insert after the word "federal" and before the word "law": "state, county or municipal".

—Section 274A(b) is deleted.

By Mr. HIGHTOWER:

AMENDMENT (1)

—Page 3, amend lines 17 and 18 to read as follows: Subparagraph (B) shall not apply in a calendar quarter to a person or entity if the person or entity either employs three or fewer employees in that calendar quarter or has employed individuals for an aggregate of less than 4,000 hours in that calendar quarter.

AMENDMENT (2)

—Page 9, line 9, insert "and" after the semicolon.

Page 9, line 13, strike out the semicolon and insert in lieu thereof a period.

Page 9, strike out lines 14 through 20.

AMENDMENT (3)

—Page 18, after line 23, insert the following new subsection:

(c)(1) It is the sense of Congress that the Attorney General should actively seek the assistance of State and local law enforcement agencies—

(A) whenever the Attorney General finds that such agencies can assist the Attorney General in the enforcement of the Immigration and Nationality Act in a prompt, uniform, and consistent manner in accordance with this subsection, or

(B) in the case of a national emergency occasioned by an unauthorized mass movement of aliens toward or into the United States.

(2) Such assistance shall be provided only under the supervision of officers of the Immigration and Naturalization Service.

(3) It is further the sense of Congress that the Attorney General should (without the expenditure of additional funds) encourage personnel of the Immigration and Naturalization Service, in a manner that does not detract from their other regular operations, to instruct personnel of State and local law enforcement agencies in immigration control operations, the nature and enforcement of immigration laws, classification of aliens and identification of immigration documents, and such other matters (including coordination of enforcement activities) as may promote their providing assistance pursuant to this subsection.

By Mr. HUGHES:

AMENDMENT (1)

—Amend section 301 to read as follows (and conform the table of contents accordingly):

EXTENSION OF REGISTRY AND EMPLOYER SANCTIONS

SEC. 301. (a) Unless there have been appropriated, in addition to the amounts provided for such purposes in the budget base for fiscal year 1983 (as adusted by inflation for subsequent fiscal years)—

(1) for fiscal year 1983, for the Immigration and Naturalization Service, for the border patrol, investigations, inspections, anti-smuggling, and technical support, an amount not less than $35,000,000;

(2) for fiscal year 1984, for the Immigration and Naturalization Service, for the border patrol, investigations, inspections, anti-smuggling, and technical support, an amount not less than $120,000,000; and

(3) for fiscal year 1985, for the Immigration and Naturalization Service, for the border patrol, investigations, inspections, anti-smuggling, and technical support, an amount not less than $205,000,000,

no citation, civil or criminal penalty, or injunction may be issued under section 274A of the Immigration and Nationality Act for the hiring, or recruiting or referring for a fee, for employment of individuals occurring after September 30, 1985.

(b) If the conditions described in paragraphs (1), (2) and (3) of subsection (a) have been met, then, effective October 1, 1985—

(1) section 249 (8 U.S.C. 1259), as amended by section 302(a) of this Act, is amended—

(A) by striking out "January 1, 1973" in the heading and inserting in lieu thereof "January 1, 1980", and

(B) by striking out "January 1, 1973" in paragraph (a) and inserting in lieu thereof "January 1, 1980"; and

(2) the item in the table of contents relating to such section is amended by striking out—

"January 1, 1973",

and inserting in lieu thereof—

"January 1, 1980".

(c) Section 243 (8 U.S.C. 1253) is amended by adding at the end the following new subsection:

"(i) The Attorney General may, in his discretion and during the period ending on October 1, 1985, withhold deportation of an alien who would be eligible for registry under section 249 but for the fact that the alien entered the United States on or after January 1, 1973, but before January 1, 1980, if the Attorney General determines that, considering the equities involved in the alien's individual case, such withholding is in the public interest.".

By Mr. JEFFORDS:

AMENDMENT (1)

—Page 59, after line 6, insert the following new subsection:

(d) Section 101(a)(15)(E) (8 U.S.C. 1101(a)(15)(E)) is amended by inserting "(and the son or daughter of any such alien for so long as the son or daughter is actively working in the enterprise of the alien)" after "following to join him".

AMENDMENT (2)

—Page 59, after line 6, insert the following new subsection:

(d) Section 101(a)(27) (8 U.S.C. 1101(a)(27)), as amended by section 203(a) of this Act, is further amended by striking out "or" at the end of subparagraph (I), by striking out the period at the end of subparagraph (J) and inserting in lieu thereof "; or" and by adding at the end the following new subparagraph:

"(K) an immigrant who—

"(i) is at least 21 years of age,

"(ii) has been classified, for at least 5 years before applying for special immigrant status under this subparagraph, as a nonimmigrant under paragraph (15)(E)(ii) as a child of an alien (described in that paragraph) who has an enterprise in the United States at least three-quarters of the income of which is from agricultural activities.

AMENDMENT (3)

—Page 59, after line G, insert the following new subsection: (d) Section 101(a)(27) (8 U.S.C. 1101(a)(27)), as amended by section 203(a) of this Act, is further amended by striking out "or" at the end of subparagraph (I), by striking out the period at the end of subparagraph (J) and inserting in lieu thereof"; or" and by adding at the end the following new subparagraph:

"(K) an immigrant who—

"(i) is at least 21 years of age,

"(ii) has been classified, for at least 5 years before applying for special immigrant status under this subparagraph, as a nonimmigrant under paragraph (15)(E)(ii) as a child of an alien (described in that paragraph) who has an enterprise in the United States.

By Mr. LANTOS:

—Page 59, after line 6, insert the following new subsection:

(d) The numerical limitations in sections 201(a) and 202 of the Immigration and Nationality Act shall not apply to any alien—

(1) who—

(A) is a native of the Philippine Islands, and

(B) has served honorably in an active-duty status in the military, air, or naval forces of the United States during a period beginning September 1, 1939, and ending December 31, 1946, or

(2) who is the spouse or minor child of an alien described in paragraph (1),

and who applies for the benefit of the provisions of this subsection not later than 6 months after the date of the enactment of this Act.

By Mr. KINDNESS:

—On page 49 after line 10, insert a new section:

UPDATING REGISTRY DATE TO JANUARY 1, 1973

SEC. 132. (a) Section 249 (8 U.S.C. 1259) is amended—

(1) by striking out "JUNE 30, 1948" in the heading and inserting in lieu thereof "JANUARY 1, 1973", and

(2) by striking out "June 30, 1948" in paragraph (a) and inserting in lieu thereof "January 1, 1973".

(b) The item in the table of contents relating to section 249 is amended by striking out—

"June 30, 1948",

and inserting in lieu thereof—

"January 1, 1973".

On page 89, strike line 23 and all that follows through page 90, line 8.

—On page 79, line 1, strike out "Legalization" and insert "Registry Date Advance", strike out line 2 and all that follows through page 89, line 22.

On page 90, strike out line 9 and all that follows through page 93, line 3.

Renumber sections and conform the table of contents accordingly.

—On page 85, line 23, insert "(15)," after (10).

—On page 20, line 18, insert after "aliens", "(other than non-immigrants described in section 101(a)(15)(B))".

By Mr. LELAND:

AMENDMENT (1)

—Page 35, after line 23, insert the following new clause:

"(iv) After an alien has filed a nonfrivilous application for asylum and pending a determination on the application, the Attorney General shall grant the alien authorization to engage in employment in the United States and provide to that alien an 'employment authorized' endorsement or other appropriate work permit.

AMENDMENT (2)

—Page 28, before line 16, insert the following new subsection:

(c)(1) Section 236 (8 U.S.C. 1226) is amended by adding at the end the following new subsection:

"(e) The Attorney General shall direct that an alien awaiting exclusion proceedings shall be released on personal recognizance unless the alien is shown to be a security risk or likely to abscond, in which case bond shall be set within 24 hours from time of arrest.".

(2) The second sentence of section 242(a) (8 U.S.C. 1252(a)) is amended to read as follows: "The Attorney General shall direct that an alien awaiting deportation proceedings shall be released on personal recognizance unless the alien is shown to be a security risk or likely to abscond, in which case bond shall be set within 24 hours from time of arrest.".

AMENDMENT (3)

—Page 28, before line 16, insert the following new subsection:

(c)(1) Section 212 (8 U.S.C. 1182), as amended by section 213(a) of this Act, is amended by adding after subsection (m) the following new subsection:

"(n) Before denying a benefit or visa under this Act on the basis of an individual being an alien described in paragraph (27), (28), or (29) of subsection (a), the individual shall be notified of the factual basis for the alien being one described in such paragraph and shall be entitled to a full evidentiary hearing before an immigration judge, subject to direct review by a Court of Appeals.".

(2) Section 241 (8 U.S.C. 1251) is amended by adding at the end the following new subsection:

"(g) Before denying a benefit under this Act on the basis of an individual being an alien described in paragraph (1) (on the basis of being an alien described in paragraph (26), (28), or (29) of section 212(a)) or paragraph (6) or (7) of subsection (a), the individual shall be notified of the factual basis for the alien being one described in such paragraph and shall be entitled to a full evidentiary hearing before an immigration judge, subject to direct review by a Court of Appeals.".

AMENDMENT (4)

—Page 3, strike lines 17 and 18.

AMENDMENT (5)

—Page 3, on line 24, strike ".", and insert in lieu thereof the following new clause: ", except that union hiring halls shall not be deemed to be persons or other entities for the purposes of this Act."

AMENDMENT (6)

—Page 7, strike lines 4 to 11.

AMENDMENT (7)

—On page 10, line 25, strike the word "less", and insert in lieu thereof "more".

AMENDMENT (8)

—On page 12 delete lines 24 and 25, and on page 13, delete lines 1 through 5.

AMENDMENT (9)

—On page 17, line 10, strike "$5,000" and insert in lieu thereof, "$500.00". Delete line 20, and insert in lieu thereof, "than $500.00."

AMENDMENT (10)

—On page 17, delete lines 21 through 25 and enacting clauses, and insert in lieu thereof, the following new subsection:

(c) "No sanctions shall be issued for a period of one year following the enactment of this Act. During the first six months, any person believed to be in violation will be educated as to the meaning and implications of this section. During the second six months, the Attorney General shall cause to be issued a written warning for any said violations.

On page 17, line 21, rename subsection "(c)" to subsection "(d)".

AMENDMENT (11)

—Page 18, after line 23, insert the following new subsection:

(b) Section 111, as amended by section 111(a) of this Act, is amended by adding after section (a) the following new subsection:

"(c) It is the sense of Congress that the Attorney General, in consultation with nonprofit agencies, certified by the Board of Immigration Appeals, to represent clients before the Immigration and Natualization Service and the Board of Immigration Appeals, shall appoint in each district office of the Immigration and Naturalization Service a review board to consider complaints of misconduct by Immigration and Natualization Service and Border Patrol Officers in the enforcement of immigration laws. Said Board shall be composed of six members, non-affiliated with any office or agency of the U.S. Department of Justice, and at least three of these to be nominated by the nonprofit agencies."

AMENDMENT (12)

—On page 28, line 22, delete Section 123(a)(2) and 123(a)(3).

AMENDMENT (13)

—On page 30, line 7, delete Section 123(a)(9).

AMENDMENT (14)

—On page 31, line 16, delete Section 123(b)(2) and (b)(3).

AMENDMENT (15)

—On page 33, delete lines 8 through 13.

AMENDMENT (16)

—On page 34, line 17, delete "and the applicant," and insert in lieu thereof: ", the applicant, and the attorney for the applicant,"

AMENDMENT (17)

—On page 34, line 23, strike out all that follows the first period, and strike out line 24.

AMENDMENT (18)

—On page 35, strike line 15, and insert in lieu thereof:

"(ii) At the time of detention,"

On line 16, strike: "for asylum,"

By Mr. LUJAN:

AMENDMENT (1)

—Amend section 301 to read as follows:

LEGALIZATION

SEC. 301. (a) Chapter 5 of title II is amended by inserting after section 245 (8 U.S.C. 1255) the following new section:

"ADJUSTMENT OF STATUS OF CERTAIN ALIENS

"SEC. 245A. (a) The Attorney General, after consultation with the Committees of the Judiciary of the House of Representatives and of the Senate, shall, pursuant to prescribed regulations, adjust the status of an undocumented person to that of an alien lawfully admitted for permanent residence if—

"(1) the person files for adjustment of status during the 18-month period beginning on the date of the enactment of this section, and

"(2) the person (other than an alien who entered the United States as a nonimmigrant) establishes that he or she has resided continuously in the United States since prior to the date of the enactment of this section, including a person who (A) is a national of Cuba who arrived in the United States and presented himself or herself for inspection after April 20, 1980, and before January 1, 1981, or (B) a national of Haiti who arrived in the United States and presented himself or herself for inspection after December 1, 1980, and before January 1, 1983, and who is physically present in the United States.

"(b) In the case of an undocumented person during the period that is required to process and verify documents presented by the person under subsection (a), the Attorney General shall, pursuant to prescribed regulations—

"(1) permit the person to return to the United States after such brief and casual trips abroad as reflect an intention on the part of the person to adjust his or her status under this section, and

"(2) grant the person authorization to engage in gainful employment in the United States and provide to that person an 'employment authorized' endorsement or other appropriate work permit.

"(c) The Attorney General, after consultation with the Committees on the Judiciary of the House of Representatives and the Senate, shall proceed, pursuant to precribed regulations, to rescind the resident status granted an undocumented person under this section if—

"(1) a legal determination is made that the person was in fact not eligible for such change of status, or

"(2) the person commits an act that makes the person inadmissible to the United States as an immigrant or is convicted of any felony committed in the United States.

"(d) The Attorney General, after consultation with the Committees on the Judiciary of the House of Representatives and the Senate, shall provide, pursuant to prescribed regulations, that applications for adjustment under this section may be made to, and received on behalf of the Attorney General by, voluntary and community agencies designated for such purpose by the Attorney General.

"(e) The Attorney General, after consultation with the Committees on the Judiciary of the House of Representatives and the Senate, shall provide, pursuant to prescribed regulations, that undocumented persons who can establish a prima facie case of eligibility for adjustment of status under this section shall not be deported or excluded from the United States until the person has had a reasonable opportunity to file an application for such adjustment of status.".

(b) The table of contents for chapter 5 of title II is amended by inserting after the item relating to section 245 the following new item:

"Sec. 245A. Adjustment of status of certain aliens.".

AMENDMENT (2)

—Page 79, line 14, and page 80, line 25, strike out "1983" and insert in lieu thereof "the 12-month period described in subsection (g)(2)".

Page 89, after line 7, strike out the closing quotation marks and the period that follows them.

Page 89, after line 7, insert the following new subsection:

"(g) The Attorney General, after consultation with the Committees on the Judiciary of the House of Representatives and the Senate, shall, pursuant to prescribed regulations, provide for—

"(1) a six-month education period for the public, Service personnel, voluntary agency staff, and community-based organization staff, and

"(2) a 12-month period (after such six month period) during which those eligible for an adjustment of status may apply for adjustment of status under this section.".

By Mr. LUNGREN:

AMENDMENT (1)

—Page 67, after line 11, insert the following new section (and redesignate succeeding sections, and cross-references thereto, and conform the table of contents accordingly):

MEXICAN NONIMMIGRANT WORKERS

SEC. 212. (a) Section 101(a)(15) (89 U.S.C. 1101(a)(15)), as amended by section 203(b) of this Act, is further amended by striking out "or" at the end of subparagraph (M), by striking out the period at the end of subparagaph (N) and inserting in lieu thereof "; or", and by adding at the end the following new subparagraph:

"(O) an alien having a residence in Mexico which he has no intention of abandoning who is a national of Mexico and is coming to the United States for a period not to exceed 180 days in any calendar year to perform temporary services or labor.".

(b) Section 214 (8 U.S.C. 1184) is amended by adding at the end the following new subsection:

"(e)(1)(A) The Attorney General, in consultation with the Secretary of State, shall by regulation establish a program (hereinafter in this subsection referred to as 'the program') for the admission into the United States of nonimmigrants described in section 101(a)(15)(O). The program shall include the imposition of monthly and annual numerical limitations, established under paragraph (2), on the issuance of nonimmigrant visas for such nonimmigrants. These visas shall be made available subject to such limitations to aliens described in section 101(a)(15)(O) in the chronological order in which the aliens submit applications for such visas.

"(B) Except as provided pursuant to paragraph (3)—

"(i) aliens shall not be required to obtain any petition from any prospective employer within the United States in order to obtain a nonimmigrant visa under the program, and

"(ii) such a nonimmigrant visa shall not limit the geographical area within which an alien may be employed or limit the type of employment the alien may perform.

"(2) The Attorney General shall establish monthly and annually numerical limitations on the issuance of nonimmigrant visas to aliens described in section 101(a)(15)(O), based on the number of seasonal or cyclical workers sought by employers in the United States. In establishing such numerical limitations, the Attorney General also shall consider historical employment needs in the United States, the availability of domestic workers, and the projected labor needs of prospective employers. The Attorney General may seek the assistance of the Secretary of Agriculture, the Secretary of Commerce, and the Secretary of Labor in promulgating regulations under paragraph (1) and in establishing numerical limitations under this paragraph.

"(3) The Attorney General, on the request of the Secretary of Labor, shall impose a restriction on the employment of aliens described in section 101(a)(15)(O) who are issued nonimmigrant visas under the program which prohibits the aliens from accepting employment provided by a specific employer or at a specific site if such employer, or employees of such employer or at such site, demonstrate to the Secretary of Labor that the aliens will displace available, qualified, and willing domestic workers. The Secretary of Labor shall establish a procedure for such employer and such employees to request, and the criteria for the imposition of, any restriction under this paragraph.

"(4) Any alien described in section 101(a)(15)(O) who obtains a nonimmigrant visa under the program and who violates—

"(A) any restriction with respect to the period of time for which the alien is allowed to remain in the United States, or

"(B) any restriction imposed under paragraph (3), shall be ineligible to obtain any nonimmigrant visa under the program during the 5-year period beginning on the date such violation occurs. Any alien who enters the United States unlawfully after the date the program becomes effective, is ineligible to obtain a nonimmigrant visa under the program during the 10-year period beginning on the date such entry occurred.

"(5)(A) The Secretary of State is authorized to take such steps as may be necessary in order to expand and establish consulates of the United States in Mexico in order to implement the program.

"(B) The Secretary of State shall cooperate with representatives of the Government of Mexico in order to insure that residents of Mexico are made aware of the nature and operation of the program.

"(C) The Secretary of Labor shall insure, to the extent practicable, that aliens who are nationals of Mexico and who reside in the United States are informed of the nature and operation of the program.

"(6) The Attorney General shall report to Congress semiannually regarding the program. Each such report shall include a statement of the number of nonimmigrant visas issued under the program, an evaluation of the effectiveness of the program, a description of any problems related to the enforcement of the program, and any recommendation for legislation relating to the program.".

(c) Section 245(c) (8 U.S.C. 1255(c)) is amended—

(1) by striking out "or" before "(3)", and

(2) by inserting "; or (4) any alien admitted as a nonimmigrant under section 101(a)(15)(O)" before the period at the end.

(d)(1) Section 202 of the Social Security Act (42 U.S.C. 402) is amended by adding at the end thereof the following new subsection:

"Lump-Sum Benefits for Certain Nonimmigrant Mexican Workers

"(x)(1) Upon the return to Mexico of an alien described in section 101(a)(15)(O) of the Immigration and Nationality Act after the performance of temporary services or labor in the United States under the program established under section 214(e) of such Act, an amount equal to the sum of—

"(A) the taxes imposed under section 3101 of the Internal Revenue Code of 1954 on the income of such alien consisting of remuneration for the performance of such services or labor, and

"(B) the excise taxes imposed under section 3111 of such Code on the employer or employers of such alien with respect to having such alien in their employ pursuant to such program,

shall be paid in a lump sum to such alien if it is demonstrated to the satisfaction of the Secretary, either in an application for such benefit filed after his return or by certification under paragraph (3), that he has not violated any restriction referred to in section 214(e)(4) of the Immigration and Nationality Act and has no intention of abandoning his residence in Mexico.

"(2) An application by an alien for a benefit under this subsection may be made only at the consulate of the United States in Mexico which is nearest the residence in Mexico of such alien, and payment of such benefit may be made to such alien only at such consulate.

"(3) The Secretary of State and the Secretary of the Treasury shall each, upon written request of the Secretary, make certification to the Secretary with respect to any matter, determinable for the Secretary by the Secretary of State or the Secretary of the Treasury, as the case may be, under this subsection, which the Secretary finds necessary in administering this subsection.".

(2) Section 210(b) of such Act (42 U.S.C. 410(b)) is amended—

(A) in paragraph (19), by striking out "or,";

(B) in paragraph (20), by striking out "individuals." and inserting in lieu thereof "individuals; or"; and

(C) by adding at the end thereof the following new paragraph:

"(21) Temporary service or labor performed by an alien described in section 101(a)(15)(O) of the Immigration and Nationality Act in the United States under the program established under section 214(e) of such Act.".

Page 70, line 5, strike out "is amended" and insert in lieu thereof ", as amended by section 212(c) of this Act, is further amended".

Page 70, line 6, strike out "(3)" and insert in lieu thereof "(4)".

Page 70, line 7, strike out "(4)" and insert in lieu thereof "(5)".

AMENDMENT (1A)

—Page 67, after line 11, insert the following new section (and redesignate succeeding sections, and cross-references thereto, and conform the table of contents accordingly):

MEXICAN NONIMMIGRANT WORKERS

SEC. 212. (a) Section 101(a)(15) (8 U.S.C. 1101(a)(15)), as amended by section 203(b) of this Act, is further amended by striking out "or" at the end of subparagraph (M), by striking out the period at the end of subparagraph (N) and inserting in lieu thereof "; or", and by adding at the end the following new subparagraph:

"(O) an alien having a residence in Mexico which he has no intention of abandoning who is a national of Mexico and is coming to the United States for a period not to exceed 180 days in any calendar year to perform temporary services or labor.".

(b) Section 214 (8 U.S.C. 1184) is amended by adding at the end the following new subsection:

"(e)(1)(A) The Attorney General, in consultation with the Secretary of State, shall by regulation establish a program (hereinafter in this subsection referred to as 'the program') for the admission into the United States of nonimmigrants described in section 101(a)(15)(O). The program shall include the imposition of monthly and annual numerical limitations, established under paragraph (2), on the issuance of nonimmigrant visas for such nonimmigrants. These visas shall be made available subject to such limitations to aliens described in section 101(a)(15)(O) in the chronological order in which the aliens submit applications for such visas.

"(B) Except as provided pursuant to paragraph (3)—

"(i) aliens shall not be required to obtain any petition from any prospective employer within the United States in order to obtain a nonimmigrant visa under the program, and

"(ii) such a nonimmigrant visa shall not limit the geographical area within which an alien may be employed or limit the type of employment the alien may perform.

"(2) The Attorney General shall establish monthly and annually numerical limitations on the issuance of nonimmigrant visas to aliens described in section 101(a)(15)(O), based on the number of seasonal or cyclical workers sought by employers in the United States. In establishing such numerical limitations, the Attorney General also shall consider historical employment needs in the United States, the availability of domestic workers, and the projected labor needs of prospective employers. The Attorney General may seek the assistance of the Secretary of Agriculture, the Secretary of Commerce, and the Secretary of Labor in promulgating regulations under paragraph (1) and in establishing numerical limitations under this paragraph.

"(3) The Attorney General, on the request of the Secretary of Labor, shall impose a restriction on the employment of aliens described in section 101(a)(15)(O) who are issued nonimmigrant visas under the program which prohibits the aliens from accepting employment provided by a specific employer or at specific site if such employer, or employees of such employer or at such site, demonstrate to the Secretary of Labor that the aliens will displace available, qualified, and willing domestic workers. The Secretary of Labor shall establish a procedure for such employer and such employees to request, and the criteria for the imposition of, any restriction under this paragraph.

"(4) Any alien described in section 101(a)(15)(O) who obtains a nonimmigrant visa under the program and who violates—

"(A) any restriction with respect to the period of time for which the alien is allowed to remain in the United States, or

"(B) any restriction imposed under paragraph (3), shall be ineligible to obtain any nonimmigrant visa under the program during the 5-year period beginning on the date such violation occurs. Any alien who enters the United States unlawfully after the date the program becomes effective, is ineligible to obtain a nonimmigrant visa under the program during the 10-year period beginning on the date such entry occurred.

"(5)(A) The Secretary of State is authorized to take such steps as may be necessary in order to expand and establish consultates of the United States in Mexico in order to implement the program.

"(B) The Secretary of State shall cooperate with representatives of the Government of Mexico in order to insure that residents of Mexico are made aware of the nature and operation of the program.

"(C) The Secretary of Labor shall insure, to the extent practicable, that aliens who are nationals of Mexico and who reside in the United States are informed of the nature and operation of the program.

"(6) The Attorney General shall report to Congress semiannually regarding the program. Each such report shall include a statement of the number of nonimmigrant visas issued under the program, an evaluation of the effectiveness of the program, a description of any problems related to the enforcement of the program, and any recommendations for legislation relating to the program."

"(c) Section 245(c) (8 U.S.C. 1255(c)) is amended—

(1) by striking out "or" before "(3)", and

(2) by inserting "; or (4) any alien admitted as a nonimmigrant under section 101(a)(15)(O)" before the period at the end.

Page 70, line 5, strike out "is amended" and insert in lieu thereof "as amended by section 212(c) of this Act, is further amended".

Page 70, line 6, strike out "(3)" and insert in lieu thereof "(4)".

Page 70, line 7, strike out "(4)" and insert in lieu thereof "(5)".

AMENDMENT (1B)

—Page 67, amend lines 6 through 11 to read as follows:

(f) It is the sense of Congress that the President should negotiate with representatives of the Government of Mexico to establish an advisory commission to consult with and advise the Attorney General regarding the regulations to be promulgated, and the monthly and annual numerical limitations to be established, under the program established under section 214(c) of the Immigration and Nationality Act.

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2)

—In lieu of the matter proposed to be inserted by the amendment, after subsection (a) of section 211, insert the following:

(b) Section 214 (8 U.S.C. 1184) is amended—

(1) by adding at the end of subsection (a) the following new sentences:

"An alien may not be admitted to the United States as a nonimmigrant—

"(1) under section 101(a)(15)(H)(ii)(a) for an aggregate period longer than the period (or periods) determined by regulations of the Secretary of Labor, or

"(2) under section 101(a)(15)(H)(ii) if the alien was admitted to the United States as such a nonimmigrant within the previous five-year period and the alien during that period violated a term or condition of such previous admission.

The Attorney General shall provide for such endorsement of entry and exit documents of nonimmigrants described in section 101(a)(15)(H)(ii) as may be necessary to carry out this section and to provide notice for purposes of section 274A.",

(2) by inserting "(1)" after "(c)" in subsection (c), and

(3) by adding at the end of subsection (c)(1), as so redesignated, the following:

"For purposes of this paragraph the term 'appropriate agencies of Government' means the Department of Labor and includes, with respect to nonimmigrants described in section 101(a)(15)(H)(ii)(a), the Department of Agriculture.

"(2)(A)(i) A petition to import an alien as a nonimmigrant under section 101(a)(15)(H)(ii)(a) may not be approved by the Attorney General unless the petitioner has applied to the Secretary of Labor for a certification that—

"(I) there are not sufficient workers who are able, willing, and qualified and who will be available at the time and place needed to perform the labor or services involved in the petition, and

"(II) the employment of the alien in such labor or services will not adversely affect the wages and working conditions of workers in the United States similarly employed.

"(ii) A petition to import an alien as a nonimmigrant under section 101(a)(15)(H)(ii)(b) may not be approved by the Attorney General unless the petitioner has applied to the Secretary of Labor for a certification that—

"(I) there are not sufficient qualified workers available in the United States to perform the labor or services involved in the petition, and

"(II) the employment of the alien in such labor or services will not adversely affect the wages and working conditions of workers in the United States similarly employed.

"(iii) The Secretary of Labor may require by regulation, as a condition of issuing the certification, the payment of a fee to recover the reasonable costs of processing applications for certification.

"(B) The Secretary of Labor may not issue a certification under subparagraph (A)—

"(i) if there is a strike or lockout in the course of a labor dispute which, under the regulations, precludes such certification, or

"(ii) with respect to an employer if the employer during the previous two-year period employed nonimmigrant aliens admitted to the United States under section 101(a)(15)(H)(ii) and the Secretary of Labor has determined, after notice and opportunity for a hearing, that the employer at any time during that period substantially violated a material term or condition of the labor certification with respect to the employment of domestic or nonimmigrant workers.

No employer may be denied certification under clause (ii) for more than three years for any violation described in such clause.

"(3)(A) In the case of an application for a labor certification for a nonimmigrant described in section 101(a)(15)(H)(ii)(a)—

"(i) the Secretary of Labor may not require that the application be filed more than 50 days before the first date the employer requires the labor or services of the alien;

"(ii) the employer shall be notified in writing within seven days of the date of filing if the application does not meet the standards (other than that described in paragraph (2)(A)(i)(I)) for approval and if it does not, such notice shall include the reasons there-

fore and permit the employer an opportunity to resubmit promptly a modified application for approval; and

"(iii) the Secretary of Labor shall make, not later than 20 days before the date such labor or services are first required to be performed, the certification described in paragraph 2(A)(i) if the employer has complied with the criteria for certification, including criteria for the recruitment of eligible individuals as prescribed by the Secretary, and if the employer does not actually have, or has not been provided with referrals of, qualified eligible individuals who have indicated their availability to perform such labor or services on the terms and conditions of a job offer which meets the requiremens of the Secretary, except that the terms of such a labor certification remain effective only if the employer continues to accept for employment, until the date the aliens depart for work with the employer, qualified eligible individuals who apply or are referred to the employer.

"(B) A petition to import an alien as an nonimmigrant described in section 101(a)(15)(H)(ii)(a), and an application for a labor certification with respect to such an alien, may be filed by an association representing agricultural producers which use agricultural labor or services. The filing of such a petition or application on a member's behalf does not relieve the member of any liability for representations made in such petition or application.

"(C)(i) The Secretary of Labor shall provide for an expedited procedure for the review of a denial of certification under paragraph (a)(A)(i).

"(ii) The Secretay of Labor shall expeditiously, but in no case later than 72 hours after the time a new determination is requested, make a new determination on the request for certification in the case of importing a nonimmigrant described in section 101(a)(15)(H)(ii)(a) if able, willing, and qualified eligible individuals are not actually available at the time such labor or services are required and a certification was denied in whole or in part because of the availability of qualified eligible individuals. If the employer asserts that any eligible individuals who have been referred are not able, willing or qualified, the burden of proof is on the employer to establish that the individuals referred are not able, willing, or qualified because of employment-related reasons as shown by their job performance.

"(D) For purposes of this paragraph, the term 'eligible individual' means, with respect to employment, an individual who is not an unauthorized alien (as defined in section 274A(a)(4)) with respect to that employment.

"(4) The Secretary of Labor, in consultation with the Attorney General and the Secretary of Agriculture, shall annually report to the Congress on the certifications provided under this subsection, the impact of aliens admitted pursuant to such certifications on labor conditions in the United States, and on compliance of employers and nonimmigrants with the terms and conditions of such nonimmigrants' admission to the United States.

"(5) There are authorized to be appropriated for each fiscal year, beginning with fiscal year 1983, $10,000,000 for the purposes (A) of recruiting domestic workers for temporary labor and services which might otherwise be performed by nonimmigrants described in section 101(a)(15)(H)(ii), and (B) of monitoring terms and conditions under which such nonimmigrants (and domestic workers employed by the same employers) are employed in the United States. The Secretary of Labor is authorized to take such actions, including imposing appropriate penalties and seeking appropriate injunctive relief and specific performance of contractual obligations, as may be necessary to assure employer compliance with terms and conditions of employment under this subsection.

"(6) There are authorized to be appropriated for each fiscal year, beginning with fiscal year 1983, such sums as may be necessary for the purpose of enabling the Secretary of Labor to make determinations and certifications under this subsection and under section 212(a)(14).".

(c) The amendments made by this section apply to petitions and applications filed under section 214(c) of the Immigration and Nationality Act on or after the first day of the seventh month beginning after the date of the enactment of this Act (hereinafter in this section referred to as the "effective date").

(d) Notwithstanding any other provision of law, final regulations implementing the amendments made by this section shall first be issued, on an interim or other basis, not later than the effective date.

(e) The Secretary of Labor, in consultation with the Attorney General and the Secretary of Agriculture, shall report to the Congress not later than 18 months after the effective date on recommendations for improvements in the temporary alien worker program amended by this section, including recommendations—

(1) improving the timeliness of decisions regarding admission of temporary foreign workers under the program,

(2) removing any current economic disincentives to hiring United States citizens or permanent resident aliens where temporary foreign workers have been requested, and

(3) improving the cooperation among government agencies, employers, employer associations, workers, unions, and other worker associations to end the dependence of any industry on a constant supply of temporary foreign workers.

(f) It is the sense of Congress that the President should establish an advisory commission which shall consult with the Government of Mexico and advise the Attorney General regarding the operation of the alien temporary worker program established under section 214(c) of the Immigration and Nationality Act.

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2B)

—In the matter proposed to be added by subsection (b)(1) (of the section 211 inserted by the amendment), strike out "under section 101(a)(15)(H)(ii)" in paragraph (1) and all that follows through "require a longer period" and insert in lieu thereof "under section 101(a)(15)(H)(ii)(a) for an aggregate period longer than the period (or periods) determined by regulations of the Secretary of Labor".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2C)

—(1) In the matter proposed to be added by subsection (b)(1) (of the section 211 inserted by the amendment)—

(A) insert "or" at the end of paragraph (1),

(B) strike out paragraph (2), and

(C) redesignate paragraph (3) as paragraph (2).

(2) In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), strike out subparagraph (B) of paragraph (2) and redesignate subparagraph (C) of such paragraph as subparagraph (B).

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2D)

—(1) In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment)—

(A) insert "and includes, with respect to nonimmigrants described in section 101(a)(15)(H)(ii)(a), the Department of Agriculture" after "Department of Labor" in the matter before paragraph (2)(A)(i), and

(B) insert "and the Secretary of Agriculture" after "the Attorney General" in paragraph (4).

(2) In subsection (e) of the section 211 inserted by the amendment, insert "and the Secretary of Agriculture" after "Attorney General".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2E)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment)—

(1) in paragraph (2)(A)(i)(I), insert after "petition," the following: "or, in the case of nonimmigrants under section 101(a)(15)(H)(ii)(a), that there are not sufficient workers who are able, willing, and qualified and who will be available at the time and place needed to perform the labor or services involved in the petition", and

(2) in paragraph (3)(C)(ii)—

(A) insert "able, willing, and" before "qualified" the first place it appears,

(B) strike out "qualified or available" and insert in lieu thereof "able, willing, or qualified", and

(C) strike out "actually available or are not" and insert in lieu thereof "able, willing, or".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2F)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in paragraph (2)(A)(i)—

(1) strike out the comma after "employed" in clause (II) and insert in lieu thereof a period, and

(2) strike out "and such certification has been issued.".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2G)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), strike out clause (ii) of paragraph (2)(A) and redesignate clause (iii) of such paragraph as clause (ii).

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2H)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in paragraph (2)(A)(iii)—

(1) strike out "shall" in the first sentence and insert in lieu thereof "may", and

(2) strike out the second sentence.

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2I)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in paragraph (2)(C)(i) strike out "if a strike" and all that follows through "dispute is in progress" and insert in lieu thereof "if there is a strike or lockout in the course of a labor dispute which, under the regulations, precludes such certification".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2J)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in paragraph (2)(C)(ii)—

(1) insert "the employer during the previous two-year period employed nonimmigrant aliens admitted to the United States under section 101(a)(15)(H)(ii) and" after "if" the first place it appears, and

(2) strike out "has not complied" and all that follows through "the penalty." and insert in lieu thereof "at any time during that period substantially violated a material term or condition of the labor certification with respect to the employment of domestic or nonimmigrant workers.".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2K)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in paragraph (3)(A)—

(1) strike out "shall require that the application be filed at least 80 days" in clause (i) and insert in lieu thereof "may not require that the application be filed more than 50 days", and

(2) strike out "criteria for certification, including criteria for a recruitment period of at least 60 days for" in clause (iii) and insert in lieu thereof "the criteria for certification, including criteria for the recruitment of".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2L)

—In the proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in paragraph (3)(A)—

(1) strike out "promptly after" in clause (ii) and insert in lieu thereof "within seven days of", and

(2) strike out the second sentence.

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2M)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in paragraph (3)(A)(iii), strike out "50 percent of the period of the work contract for which the certification was issued has elapsed" and insert in lieu thereof "the date the aliens depart for work with the employer".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2N)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in paragraph (3)(C)(ii), strike out the last sentence.

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2P)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), strike out paragraph (7).

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (2Q)

—Strike out the first sentence of subsection (d) of the section 211 inserted by the amendment.

AMENDMENT (3A)

—Page 60, beginning on line 2, strike out "longer than the period (or periods) determined by regulations of the Secretary of Labor" and insert in lieu thereof "of more than 11 months in any calendar year, except in the case of agricultural labor or services which the Secretary of Labor, before the date of the enactment of the Immigration Reform and Control Act of 1982, has recognized require a longer period, which may exceed one year".

AMENDMENT (3B)

—Page 61, beginning on line 7, strike out "in the United States similarly employed" and insert in lieu thereof "who are similarly employed in the area of intended employment".

AMENDMENT (3C)

—Page 62, beginning on line 9, strike out "substantially" and insert in lieu thereof "knowingly".

AMENDMENT (3D)

—Page 66, line 9, insert after "(d)" the following new sentence: "The Attorney General, in consultation with the Secretary of Labor and, in connection with agricultural labor or services, in consultation with the Secretary of Agriculture, shall approve all regulations to be issued implementing the amendments made by this section.".

AMENDMENT (4)

—Page 90, strike out line 9 and all that follows through page 93, line 3, and insert in lieu thereof the following (and conform the table of contents accordingly):

STATE LEGALIZATION IMPACT-ASSISTANCE BLOCK GRANTS

SEC. 303. (a) There are authorized to be appropriated for grants (and related Federal administrative costs) to carry out this section such sums as may be necessary for fiscal year 1983 and for each of the five succeeding fiscal years.

(b)(1) From the sums appropriated under subsection (a) for a fiscal year (less the amount reserved for Federal administrative costs), the Secretary of Health and Human Services (hereinafter in this section referred to as the "Secretary") shall allot to each State (as defined in subsection (g)(1)) meeting the requirements of subsection (d) an amount determined in accordance with a formula, established by the Secretary, which takes into account—

(A)(i) the number of eligible legalized aliens (as defined in subsection (g)(2)) residing in the State in that fiscal year,

(ii) the ratio of the number of eligible legalized aliens in the State to the total number of residents of that State and to the total number of residents of that State and to the total number of such aliens in all the States in that fiscal year, and

(iii) the amount of expenditures the State is likely to incur in providing assistance for eligible legalized aliens under programs of public assistance (as defined in subsection (g)(3)), and

(B) such other factors as the Secretary deems appropriate to provide for an equitable distribution of such sums.

(2) For each fiscal year the Secretary shall make payments, as provided by section 203 of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), to each State from its allotment under paragraph (1). Any amount paid to a State for a fiscal year and remaining unobligated at the end of such year shall remain available for the next fiscal year to such State for the purposes for which it was made.

(c) A State may use amounts paid to it under subsection (b)(2) for the purpose of providing assistance with respect to elgibile legalized aliens under programs of public assistance, but only to the extent such assistant is otherwise available under such programs to citizens residing in the State.

(d) In order to receive an allotment for a fiscal year under subsection (b), a State must prepare and transmit to the Secretary—

(1) a report describing the intended use of payments the State is to receive under this section for the fiscal year, including (A) a description of those programs of public assistance and localities of the State identified by the State as needing assistance from grants under this section, and (B) criteria for and administrative methods of disbursing funds received under this section, and

(2) a statement of assurances that certifies that (A) funds allotted to the State under this section will only be used to carry out the purposes described in subsection (c), (B) the State will provide a fair method (as determined by the State) for allocating funds allotted to the State under this section among the programs and localities identified under paragraph (1)(A), and (C) fiscal control and fund accounting procedures will be established that are adequate to meet the requirements incorporated by subsection (e).

The State shall promptly revise the report referred to in paragraph (1) to reflect substantial changes in its intended use of the funds allotted the State under this section. Such report (for fiscal years after fiscal year 1983), and any revisions proposed thereto, shall be made public within the State in such manner as to facilitate review of and comments from interested persons and local governments on the intended use and distribution of funds for the fiscal year.

(e) The provisions of sections 506, 507 (other than subsection (b) thereof), 508 of the Social Security Act (relating to reports and audits, criminal penalties, and nondiscrimination, respectively, under the maternal and child health service block grant) shall apply to activities, funds made available, and allotments under this section in the same manner as those provisions apply to activities, funds made available, and allotments under title V of such Act; and for this purpose—

(1) any reference to that title in any of those sections shall be deemed a reference to this section, and

(2) a reference to section 502(a) or 502(b) or to section 505 in any of those sections shall be deemed to be a reference to subsection (b) or to subsection (d), respectively, of this section.

(f) In establishing regulations and guidelines to carry out this section, the Secretary shall consult with representatives of State and local governments.

(g) For purposes of this section:

(1) The term "State" has the meaning given such term in section 101(a)(36) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(36)).

(2) The term "eligible legalized alien" means—

(A) an alien who has been granted permanent resident status under section 245A(a) of the Immigration and Nationality Act, but only until the end of the 36-month period beginning with the first month in which the alien has such status; and

(B) an alien who has been granted temporary resident status under section 245A(b)(1) of such Act, but only until—

(i) such temporary resident status is terminated, or

(ii) if the alien has been subsequently granted permanent resident status under section 245A(b)(3) of such Act, until the end of the 36-month period beginning with the first month in which the alien has such permanent status,

whichever is later.

(3) The term "program of public assistance" means a State or local program which provides for cash, medical, or other assistance (as defined by the Secretary) designed to meet the basic subsistence or health needs of individuals or required in the interest of public health.

(Section 301—Legalization)

—Page 79, lines 13 and 14, strike "during 1983" and insert in lieu thereof "between April 1, 1983 and March 31, 1984".

—Page 80, lines 24 and 25, strike "during 1983" and insert in lieu thereof "between April 1, 1983 and March 31, 1984".

—Page 86, lines 11, 14, and 17, strike out "January" and insert in lieu thereof "April".

By Mr. McCLORY:

—Page 79, line 14, and page 80, line 25, strike out "1983" and insert in lieu thereof "the 12-month period beginning April 1, 1983."

—Page 86, lines 11, 14, and 17, strike out "January" and insert in lieu thereof "April".

By Mr. McCOLLUM:

AMENDMENT (1)

—Strike out section 301 and redesignate the succeeding sections (and conform the table of contents) accordingly.

AMENDMENT (2)

—Page 28, line 25, strike out "section 1331" and insert in lieu thereof "sections 1331, 1361, and 2241".

Page 29, line 1, insert "chapter 7 of title 5, United States Code," after "Code,".

Page 29, amend lines 17 through 19 to read as follows:

(4) by striking out "in the judicial circuit" and all that follows through the end of paragraph (2) and inserting in lieu thereof "in the Court of Appeals for the Federal Circuit;".

Page 29, line 20, strike out "(5)" and insert in lieu thereof "(5)(A)".

Page 29, line 21 insert the following new subparagraphs:

(B) by striking out "and upon the official" and all that follows through "court is located" in paragraph (3); and

(C) by striking out "such official of the Service" in paragraph (3) and inserting in lieu thereof "the Attorney General".

Page 31, line 16, strike out "(2)" and insert in lieu thereof "(2)(A)".

Page 31, line 18, insert "the United States Court of Appeals for the Federal Circuit" after "except".

Page 31, after line 18, insert the following new subparagraphs:

"(B) No application for a writ of habeas corpus shall be entertained and no extraordinary writ shall be directed to any government official or employee and no injunctive or declaratory relief shall be granted with respect to an immigration matter (as defined in subparagraph (E)), other than by the United States Court of Appeals for the Federal Circuit in accordance with this section.

"(C) The Court of Appeals for the Federal Circuit shall have exclusive jurisdiction to review all Constitutional issues (including habeas corpus and writs for other extraordinary relief) with respect to immigration matters by petition filed no later than 30 days from the date of the final order of the United States Immigration Board.

"(D) In the case of a petition filed under this section in which the Court finds that a question of fact is presented—

"(i) if a determination with respect to that fact was previously made by the Attorney General or an administrative law judge, such determination shall be conclusive if supported in the administrative record by reasonable, substantial, and probative evidence on the record considered as a whole, and

"(ii) if no such determination was made, the Court may provide, in accordance with rules established by the Court in cooperation with the United States Immigration Board, for a hearing before an administrative law judge to make the appropriate findings of fact.

"(E) As used in this paragraph, the term 'immigration matter' means a determination under this Act respecting deportation, exclusion, or asylum (or the custody or detention of an alien associated therewith) or any matter reviewable by the United States Immigration Board.".

Page 32, after line 21, insert the following new subsection:

(g)(1) Section 1295(a) of title 28, United States Code, is amended—

(A) by striking out "and" at the end of paragraph (9),

(B) by striking out the period at the end of paragraph (10) and inserting in lieu thereof "; and", and

(C) by adding at the end the following new paragraph:

"(11) of an appeal under section 106 of the Immigration and Nationality Act and to entertain and grant applications for writs of habeas corpus and petitions for relief respecting immigration matters pursuant to section 106 of such Act.".

(2) Section 2241(a) of such title is amended by striking out "Writs" and inserting in lieu thereof "Except as provided in section 1295(a)(11) of this title, writs".

Page 45, beginning on line 6, strike out "sections 106(a)(2) and 236 (8 U.S.C. 1105a(a)(2), 1226) are each amended" and insert in lieu thereof "Section 236 (8 U.S.C. 1126) is amended".

AMENDMENT (3)

—Page 87, after line 20, insert the following new paragraph:

"(7) Determinations of the Attorney General under this section are committed to agency discretion and shall be subject to judicial review only in the judicial review of deportation proceedings in accordance with section 106.".

By Mr. MORRISON:

AMENDMENT (1)

—Page 4, after line 13, insert the following:

"(5) For purposes of paragraph (1)(B), a person or entity shall be deemed to have complied with the requirements of subsection (b) with respect to the hiring of an individual if—

"(A) the individual was referred for employment to the person or entity by a State employment agency (as defined by the Attorney General) which has complied with subsection (b) with respect to the referral of the individual for employment, and

"(B) the person or entity has and retains (for the period and in the manner described in subsection (b)(3)) appropriate documentation of such referral by that agency.".

AMENDMENT (2)

—Page 4, after line 13, insert the following:

"(5)(A) In the case of a person or entity that has complied with the requirements of subsection (b) with respect to the hiring, recruiting, or referring of an individual, that person or entity shall be considered to have complied with such requirements with respect to any subsequent hiring, recruiting, or referring of that individual occurring during the applicable period (as defined in subparagraph (B)) beginning on the date such requirements were most recently previously complied with.

"(B) For purposes of subparagraph (A), the term 'applicable period' means, with respect to the hiring, recruiting, or referring of an individual who at the time of previous compliance with the requirements of subsection (b) was—

"(i) a citizen or national of the United States, a five-year period;

"(ii) an alien lawfully admitted for permanent residence, a three-year period;

"(iii) a nonimmigrant, a period (not to exceed one year) as the Attorney General may establish; or

"(iv) an alien otherwise classified, a period (not to exceed three years) as the Attorney General may establish.".

AMENDMENT (3)

—Page 12, after line 23, insert the following new paragraph:

"(6) The Attorney General shall provide for enforcement of the provisions of this section in a manner that does not unfairly or unreasonably concentrate on any single industry, occupational classification, or geographic area.".

AMENDMENT (4)

—Page 63, line 4, strike out "and".

Page 63, line 21, strike out the period and insert in lieu thereof "; and".

Page 63, after line 21, insert the following new clause:

"(iv) in the employer's complying with terms and conditions of employment respecting the furnishing of housing and meals where the employment of the worker does not exceed 20 days, the employer shall be permitted to substitute payment of a reasonable allowance in lieu of the actual furnishing of housing accommodations and meal preparation facilities.".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (4A)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in clause (i) of paragraph (2)(B) inserting before the period at the end the following: "or, in the case of

employing a worker for 20 days or less, will make payment of a reasonable housing allowance in lieu of the actual furnishing of such housing accommodations".

(Offered as an amendment to amendment No. 6 of the Committee on Education and Labor.)

AMENDMENT (4B)

—In the matter proposed to be added by subsection (b)(3) (of the section 211 inserted by the amendment), in clause (iv) of paragraph (2)(B) inserting after the period at the end the following: "Or will make payments for meals in lieu thereof in the case of an employer hiring a worker for 20 days or less".

By Mr. PASHAYAN:

—Page 48, at line 20, insert the following new section and insert a corresponding item in the table of contents:

PREEMPTION OF STATE AND LOCAL LAW

"SEC. 127. The provisions of this act shall preempt any state or local law on the same subject."

—Page 59, line 6, insert the following new section (and insert a corresponding item in the table of contents):

"EMERGENCY ASSISTANCE

"SEC. 205. When the Secretary of Agriculture has determined, in consultation with the Attorney General, that there are not sufficient United States workers who are able, willing, qualified and available at the time and place of need and that the wages and working conditions of United States workers similarly employed will not be adversely affected by the temporary employment of aliens, an alien may apply for certification for the purpose of agricultural work only under regulations promulgated by the Attorney General, in consultation with the Secretary of Agriculture."

—Page 59, line 8, insert the following new section (and insert a corresponding item in the table of contents):

"SEC. 210. The intent of the provisions of this section is to grant the Attorney General sufficient authority to admit temporarily certain alien workers, industrial, commercial, agricultural, or otherwise, for the purpose of alleviating labor shortages as they exist or may develop in certain branches of American productive enterprises."

—Page 59, lines 14 and 15, strike out "by the Secretary of Labor".

Page 60, strike lines 1 through 3 and insert in lieu thereof the following:

"(1) under section 101(a)(15)(H)(ii)(a) for an aggregate period of more than eleven months in any calendar year, except in the case of agricultural labor or services which the Secretary of Labor, before the date of the enactment of the Immigration Reform and Control Act of 1982, has recognized require a longer period, which may exceed one year."

Page 61, lines 7 and 8, strike out "in the United States similarly employed." and insert in lieu thereof "who are similarly employed in the area of intended employment."

Page 61, strike out lines 13 through 15, and insert in lieu thereof the following:

"(I) there are not sufficient workers who are able, willing, qualified, and available at the time and at the place needed to perform such labor or services."

Page 62, strike out lines 1 through 3, and insert in lieu thereof the following:

"(i) if he certifies that a lawful strike by a majority of all employees or lockout involving a work stoppage of workers is in progress in the occupation and at the place the employee is to be employed, or"

Page 64, strike line 4 and insert in lieu thereof the following:

"Petition or application unless the association is the sole employer of all alien agricultural labor or services, in which case only the association shall be liable for representations in such petition or application."

—Page 64, line 5, strike out "Secretary of Labor" and insert in lieu thereof "Attorney General".

Page 65, line 1, strike out "Secretary of Labor" and insert in lieu thereof "Attorney General".

Page 65, line 2, strike out "Attorney General" and insert in lieu thereof "Secretary of Labor".

Page 65, lines 16 and 17, strike out "Secretary of Labor" and insert in lieu thereof the following:

"Attorney General, upon the advice of the Secretary of Labor," page 66, strike lines 13 and 14 and insert in lieu thereof the following.

"(e) The Attorney General, in consultation with the Secretary of Labor and the Secretary of Agriculture,"

—Page 85, after line 7, insert the following new paragraph (and redesignate the succeeding paragraph accordingly):

"(4) Notwithstanding any other provision of law, any alien in the United States may, in the discretion of the Attorney General and under such regulations as he may prescribe, be permitted to apply for adjustment of status described in section 101(a)(27)(A) of the Immigration and Nationality Act, if the alien applies for such an adjustment within six months of the effective date of this Act and if such person is not otherwise inadmissable.

By Mr. PATTERSON:

—Page 79, lines 17, 19, 21, 23, and 25, and page 80, line 2, strike out "1977" and insert in lieu thereof "1978".

Page 81, lines 3, 5, 7, 9, 11, and 13, strike out "1980" and insert in lieu thereof "1982".

AMENDMENT (19)

—Page 15, line 5, strike out "During" and insert in lieu thereof "Beginning as soon as possible after the date of the enactment of this Act and during".

AMENDMENT (25)

—Page 15, line 20, insert before the period the following: "as of the first day of the seventh month beginning after the date of the enactment of this Act".

AMENDMENT (50)

—Page 79, lines 19, 23, and 25, and page 80, line 2, strike out "1977" and insert in lieu thereof "1982".

Page 81, lines 5, 9, 11, and 13, strike out "1980" and insert in lieu thereof "1982".

AMENDMENT (51)

—Page 79, beginning on line 9, strike out "may, in his discretion and under such regulations as he shall prescribe" and insert in lieu thereof "shall, pursuant to regulations prescribed by him".

Page 80, beginning on line 20, and page 83, beginning on line 19, strike out ", in his discretion and under such regulations as he shall prescribe, may" and insert in lieu thereof "shall, pursuant to regulations prescribed by him,".

AMENDMENT (53)

—Page 84, line 3, strike out "continuously resided" and insert in lieu thereof "resided continuously".

By Mr. PAUL:

—Page 87, strike out lines 1 through 14 and insert in lieu thereof the following:

"(A) the alien is not eligible for any benefits (as defined in paragraph (4)) wholly funded by the Federal Government, and".

Page 87, beginning on line 17, strike out "the programs of financial or medical assistance" and insert in lieu thereof "benefits".

Page 87, strike out line 20 and all that follows through page 88, line 11, and insert in lieu thereof the following:

"(2) Notwithstanding any provision of law, any program or entity of a public or private nature which receives Federal assistance (including the provision of funds, materials, and services) and uses such assistance to provide benefits (as defined in paragraph (4)) to an alien during the period the alien is in lawful temporary resident status granted under subsection (b)(1) or during the three-year period beginning on the date an alien is granted lawful permanent resident status under subsection (a) or (b)(3), shall thereafter be ineligible for such assistance."

—Page 88, after line 16, insert the following new paragraph:

"(4) For purposes of paragraphs (1) and (2) of this subsection, the term 'benefits' means the provision of services or financial assistance (including health care, employment training, public assistance, food assistance, and loan programs) in the United States for which individuals must meet eligibility requirements to qualify for such services or assistance, but does not include (A) disability, retirement, and survivors' insurance, (B) disability and workers' compensation, and (C) veterans' benefits.

By Mr. ROYBAL:

AMENDMENT (1)

—Stike out part A of title I (viz., page 3, line 3 and all that follows up to page 18, line 18) and redesignate succeedings parts B, C, and D, as parts A, B, and C, respectively, and sections 111, 112, 113, 121, 122, 123, 124, 125, 126, and 131, as sections 101, 102, 103, 111, 112, 113, 114, 115, 116, and 121, respectively, and conform the table of contents and cross-references accordingly.

Page 27, line 21, insert "and" after the comma.

Page 27, strike out lines 22 and 23.

Page 27, line 24, strike out "(F)" and insert in lieu thereof "(E)".

Page 60, line 12, strike out "and to provide notice for purposes of section 274A".

Page 64, amend lines 24 and 25 to read as follows: "who is a national of the United States, an alien lawfully admitted for permanent residence, or an alien authorized to be so employed by this Act or by the Attorney General.".

Strike out section 101 and redesignate section 102 as section 101, and conform the table of contents accordingly.

Page 17, line 14, strike out "sections" and insert in lieu thereof "section".

Page 17, strike out lines 15 through 20.

Page 17, line 21, strike out "(c)" and insert in lieu thereof "(b)".

AMENDMENT (2)

Page 3, amend lines 11 through 14 to read as follows: States an alien knowing the alien is an unauthorized alien (as defined in paragraph (3)) with respect to such employment.

Page 3, strike out lines 15 through 18.

Page 4, strike out lines 1 through 7.

Page 4, line 8, strike out "(4)" and insert in lieu thereof "(3)".

Page 4, strike out line 14 and all that follows through page 8, line 14, and redesignate succeeding subsections (and cross-references thereto) accordingly.

Page 8, line 19, page 9, lines 3 and 24, and page 12, line 12, strike out "(1)(A)" and insert in lieu thereof "(1)".

Page 10, strike out lines 6 though 20 and redesignate the succeeding paragraphs (and cross-references thereto) accordingly.

Page 12, beginning on line 13, strike "and that is applicable under paragraph (3) for violations of subsection (a)(1)(B)".

Page 13, strike out the parenthetical clause beginning on line 12.

Page 13, beginning on line 21, strike out "and beginning development of the changes and additions described in subsection (c)".

Page 15, line 10, strike out "forms and".

Page 17, line 14, strike out "tions" and insert in lieu thereof "tion".

Page 17, strike out lines 15 through 20.

Page 17, line 21, strike out "(c)" and insert in lieu thereof "(b)".

Page 64, line 25, strike out "274A(a)(4)" and insert in lieu thereof "274A(a)(3)".

AMENDMENT (3)

Page 3, beginning on line 9, strike out ", or to recruit or refer for a fee,".

Page 4, line 3, strike out ", recruiting, or referral for employment".

Page 4, beginning on line 6, strike out ", recruiting, or referral".

Page 4, beginning on line 16, strike out ", recruiting, or referring".

Page 4, line 23, strike out "(or recruited or referred for employment)".

Page 6, line 3, strike out ", recruited, or referred".

Page 6, beginning on line 9, strike out ", recruiting" and all that follows through line 20 and insert in lieu thereof "of the individual and ending (A) three years after such date, or (B) one year after the date the individual's employment is terminated, whichever is later.".

Page 7, line 18, strike out ", recruiters, and referrers for employment".

Page 8, beginning on line 10, strike out ", recruitment, or referral".

Page 8, line 20, strike out ", or recruiting or referring for a fee,".

Page 9, line 23, strike out ", recruitment, or referral".

Page 12, beginning on line 19, strike out ", recruiting, or referral".

Page 13, line 8, strike out "for a fee".

Page 15, beginning on line 1, strike out ", or recruiting or referring for a fee,".

AMENDMENT (6)

Page 5, line 2, strike out the first "or" and insert in lieu thereof a comma.

Page 5, line 3, insert after the comma the following: "certificate or other document approved by the Attorney General proving naturalized United States citizenship,".

AMENDMENT (9)

Page 7, line 13, insert "suggest, or recommend," after "authorize,".

AMENDMENT (10A)

Page 7, amend lines 4 through 11 to read as follows:

"(c)(1)(A) Within three years after the date of the enactment of this section, the President shall report to Congress on whether or not the employment eligibility verification system provided under subsection (b) provides a secure system to determine employment eligibility in the United States. If the President so reports that it does not, the President may, in consultation with the approprite committees of Congress, implement such changes to the requirements of subsection (b) as are necessary to establish a secure system to determine employment eligibility in the United States, except that any such changes must conform to the requirements of paragraph (2) of this subsection and such changes may not become effective until a period of at least 60 days has elapsed after the date a complete description of such changes has been transmittted to each House of Congress. If such changes are required, the President shall consider a change to use of a telephone verification system.".

AMENDMENT (10B)

Page 7, amend lines 4 through 11 to read as follows:

"(c)(1)(A) Within three years after the date of the enactment of this section, the President shall report to Congress on whether or not the employment eligibility verification system provided under subsection (b) provides a secure system to determine employment eligibility in the United States. If the President so reports that it does not, the President may, in consultation with the appropriate committees of Congress, implement such changes to the requirements of subsection (b) as are necessary to establish a secure system to determine employment eligibility in the United States, except that—

"(i) any such changes must conform to the requirements of paragraph (2) of this subsection,

"(ii) such changes may not become effective until a period of at least 60 days has elapsed after the date a complete description of such changes has been transmitted to each House of Congress, and

"(iii) such changes may not become effective if, within such period, either House of Congress adopts a resolution the substance of which disapproves of the changes proposed by the President.

If such changes are required, the President shall consider a change to use of a telephone verification system.".

AMENDMENT (14)

Page 12, strike out lines 11 through 16.

Page 12, line 17, strike out "(B)" and insert in lieu thereof "(5)".

AMENDMENT (15)

Page 14, line 8, strike out "18" and insert in lieu thereof "12".

Page 14, line 16, strike out "36 and 54" and insert in lieu thereof "24 and 36".

AMENDMENT (16)

Page 14, line 9, insert "and after consultation with the task force established pursuant to paragraph (3) of this subsection," after "enacted".

AMENDMENT (19)

Page 15, line 5, strike out "During" and insert in lieu thereof "Beginning as soon as possible after the date of the enactment of this Act and during".

AMENDMENT (20A)

Page 16, after line 14, add the following new subsection:

(c)(1) The President, not later than the 90th day before the end of the three-year period beginning on the date of enactment of this Act, shall prepare and transmit to Congress a comprehensive report concerning implementation of the amendments made by this section. In preparing the report the President shall give due consideration to previous reports, required under such amendments, submitted concerning implementation of such amendments. Unless the President's report certifies that the amendments made by this section—

(1) have been carried out satisfactorily and

(2) have not resulted in discrimination in employment other than on the basis of an individual is an alien not authorized to be employed in the United States.

such amendments shall not apply to the hiring, recruiting, or referring of individuals for employment occurring on or after the end of the three-year period beginning on the date of the enactment of this Act.

AMENDMENT (20B)

Page 14, strike out the sentence beginning on line 15.

Page 15, line 4 and page 16, line 14, insert before the period in each instance the following: "or occurring after the end to the three-year period beginning on the date of the enactment of this Act".

AMENDMENT (21)

Page 18, line 8, strike out "(a)" and insert in lieu thereof "(a)(1)".

Page 18, line 15, strike out "(b)" and insert in lieu thereof "(2)".

Page 18, after line 23, insert the following new subsection:

(b)(1) It is also the sense of Congress that a step essential to the program of immigration control and reform established by this act is an increase in activities of the Department of Labor in order to discourage the employment of aliens who are not authorized to be employed in the United States.

(2) In order to do this in the most effective and efficient manner, it is the intent of Congress to provide, through the annual authorization of appropriations process for the Department of Labor, for a controlled and closely monitored increase in the level of activities of the Wage and Hour Division of that Department.

AMENDMENT (22)

Page 20, strike out line 9 and all that follows through the end of the page, and strike out the corresponding item in the table of contents relating to section 113.

AMENDMENT (23A)

Page 20, line 18, insert "and by regulation" after "Secretary of State".

AMENDMENT (23B)

Page 20, lines 19 and 22, insert "voluntary" before "use" each place it appears.

AMENDMENT (23C)

Page 20, line 19, strike out "border".

Page 20, line 19, insert "at the border or other port of their entry into the United States" after "Service".

AMENDMENT (24)

At the end of page 20 insert the following new section (and insert a corresponding item in the table of contents):

JUDICIOUS AND NONDISCRIMINATORY ENFORCEMENT OF THE IMMIGRATION LAWS

SEC. 114. It is the sense of Congress that—

(1) the immigration laws not be enforced within the United States on the basis of race, religion, sex, or national origin, and

(2) in the enforcement of immigration laws, the Attorney General should take due and deliberate actions, including the training of Immigration and Naturalization Service officers to familiarize them with the rights and varied cultural backgrounds of aliens and United States citizens, necessary to safeguard the constitutional rights, personal safety, and human dignity of persons within the jurisdiction of the United States.

AMENDMENT (25)

Page 15, line 20, insert before the period the following: "as of the first day of the seventh month beginning after the date of the enactment of this Act".

AMENDMENT (27)

Page 13, line 10, strike out "The President" and all that follows through "concerning," on line 11 and insert in lieu thereof the following: "The Comptroller General shall prepare and transmit to the Congress, biannually during the first three years following the date of the enactment of this section, a report concerning".

AMENDMENT (28)

Page 12, line 11, strike out "(5)(A)" and insert in lieu thereof "(5)".

Page 12, strike out lines 17 through 23.

AMENDMENT (29)

Page 20, line 13, strike out "alien".

Page 20, lines 18 and 22, strike out "aliens" and "aliens'" and insert in lieu thereof "persons" and "their", respectively.

Page 20, after line 25, strike out "alien".

AMENDMENT (30)

Page 4, line 14, strike out "Except as provided in subsection (c), the" and insert in lieu thereof "The".

Page 7, strike out line 4 and all that follows through page 8, line 14, and insert in lieu thereof the following new subsection:

"(c)(1) There is established a Select Commission on Employment Eligibility Identification Systems (hereinafter in this subsection referred to as the "Commission") which shall be composed of the following members, who shall, if applicable, be appointed within 90 days after the date of enactment of this section:

"(A) Two members appointed by the Speaker of the House of Representatives from the membership of the House Committee on the Judiciary.

"(B) Two members appointed by the President pro tempore of the Senate from the membership of the Senate Committee on the Judiciary.

"(C) The Attorney General, the Secretary of Health and Human Services, the Secretary of Labor, and the Secretary of Agriculture.

"(D) The Chairmen of the Civil Rights Commission and of the Equal Employment Opportunity Commissions.

"(E) Two members appointed by the President, two members appointed by the Speaker of the House of Representatives, and two members appointed by the President pro tempore of the Senate. Appointments made under this subparagraph shall be coordinated in a manner so as to assure representation on the Commission of the business, civil rights, civil liberties, and labor communities.

"(2)(A) The Commission shall elect a Chairman and Vice Chairman from among its members.

"(B) A majority of Commission members shall constitute a quorum, but a lesser number may hold hearings.

"(C) A vacancy in the Commission shall not affect its powers, and shall be filled in the same manner in which the original appointment was made.

"(D) Each member of the Commission who is not otherwise employed by the United States Government shall receive compensation at a rate not to exceed the daily rate prescribed for GS-18 of the General Schedule under section 5332 of title 5, United States Code, for each day, including traveltime, the member is engaged in the actual performance of duties as a member of the Commission. A member of the Commission who is an officer or employee of the United States Government shall serve without additional compensation. All members of the Commission shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of their duties.

"(3) It shall be the duty of the Commission to study, evaluate, and recommend to Congress whether any changes in or additions to the requirements of subsection (b) are necessary to establish a secure system to determine employment eligibility in the United States.

"(4) The Commission shall—

"(A) consider the use of a telephone verification system;

"(B) study means by which it can be assured—

"(i) that personal information utilized by an employment eligibility identification system will be available only to employers, recruiters and referrers for employment and to Government agencies and only to the extent necessary for the purpose of verifying that an individual is not an unauthorized alien;

"(ii) that verification of an individual's employment eligibility will not be withheld for any reason other than that the individual is an unauthorized alien;

"(iii) that any employment eligibility identification system to be recommended or used will not be used for law enforcement purposes other than the enforcement of this section and section 1546 of title 18, United States Code; and

"(iv) that any document to be presented by an individual as proof of employment and eligibility under this section will not be required to be carried on one's person or presented for any purpose other than to prove employment eligibility under this or in the enforcement of section 1546 of title 18, United States Code; and

"(C) consult with the President, the Civil Rights Commission, the Equal Employment Opportunity Commission, the Departments of Justice, Labor, and Agriculture, and the General Accounting Office with respect to the findings of these agencies and Departments concerning the enforcement of this section.

"(5)(A) The Commission shall make semiannual reports to each House of Congress during the period before publication of its final report (described in subparagraph (B)).

"(B) The Commission shall make a final report of its findings and recommendations to the President and to each House of Congress, which report shall be published not later than March 1, 1986.

"(6)(A) The Commission is authorized to appoint and fix the compensation of a staff director and such other additional personnel as may be necessary to enable the Commission to carry out its functions without regard to the civil service laws, rules, and regulations. Any Federal employee subject to those laws, rules, and regulations may be detailed to the Commission without reimbursement, and such detail shall be without interruption or loss of civil service status or privilege.

"(B) Staff members of the Committee on the Judiciary of the Senate or of the Committee on the Judiciary of the House of Representatives may be detailed to serve on the staff of the Commission by the chairman of the respective committee. Staff members so detailed shall serve on the staff of the Commission without additional compensation except that they may receive such reimbursement of expenses incurred by them as the Commission may authorize.

"(C) The Commission may call upon the head of any Federal department or agency to furnish information and assistance which the Commission deems necessary for the performance of its functions, and the heads of such departments and agencies shall furnish such assistance and information, unless prohibited under law, without reimbursement.

"(D) The Commission is authorized to make grants and enter into contracts for the conduct of research and studies which will assist it in performing its duties under this subsection.

"(E) The Commission shall cease to exist upon the filing of its final report, except that the Commission may continue to function for up to sixty days thereafter for the purpose of winding up its affairs.

"(F) The Commission is authorized to procure temporary and intermittent services of experts and consultants as are necessary to the extent authorized by section 3109 of title 5, United States Code, but at rates not to exceed the daily equivalent of the rate then payable for grade GS-18 in the General Schedule under section 5332 of such title.

"(7) There is authorized to be appropriated the sum of $10,000,000, to remain available until expended, to carry out the provisions of this section.

"(8) Notwithstanding any other provision of this subsection, no payment, or authorization to make payments to enter into contracts under this subsection, shall be effective except to such extent, or in such amounts, as are provided in advance in appropriations Acts.".

Page 13, lines 14 and 15, strike out "and the status of the changes and additions described in subsection (c)".

Page 13, strike out the sentence beginning on line 20.

AMENDMENT (34A)

Page 49, after line 12, insert the following new sections (and redesignate the succeeding sections of part A of title II, and the table of contents and cross-references thereto, accordingly):

NUMERICAL LIMITATIONS

SEC. 201. (a)(1) Subsection (a) of section 201 (8 U.S.C. 1151) is amended to read as follows:

"(a)(1) Exclusive of aliens described in paragraph (3), aliens born in a foreign state (other than a contiguous foreign state) or dependent area who may be issued immigrant visas or who may otherwise acquire the status of an alien lawfully admitted to the United States for permanent residence are limited to—

"(A) family reunification immigrants described in section 203(a), in a number not to exceed in any fiscal year the number equal to (i) 320,000, plus (ii) the difference (if any) between the maximum number of visas which might have been issued under subparagraph (B) during the prior fiscal year and the number of visas issued under that subparagraph during that year, plus (iii) for fiscal years before fiscal year 1989, 66,500, but only available to aliens with a petition filed on their behalf (before the date of the enactment of the immigration Reform and Control Act of 1982) for preference status by reason of a relationship described in paragraph (1), (2), (4), or (5) of section 203(a) (as such section was in effect on such date), and not to exceed in any of the first

three quarters of any fiscal year 27 percent of the numerical limitation for all of such fiscal year, and

"(B) independent immigrants described in section 203(b), in a number not to exceed in any fiscal year the number equal to (i) 65,000, minus (ii) the number of special immigrants (other than those described in section 101(a)(27)(A)) who in the previous fiscal year were issued immigrant visas or otherwise acquired the status of aliens lawfully admitted to the United States for permanent residence, plus (iii) for fiscal years before fiscal year 1989, 13,500, but only available to aliens with a petition filed on their behalf (before the date of the enactment of the Immigration Reform and Control Act of 1982) for preference status by reason of a paragraph (3) or (6) section 203(a) (as such section was in effect on such date), and not to exceed in any of the first three quarters of any fiscal year 27 percent of the numerical limitation for all of such fiscal year.

"(2) Exclusive of aliens described in paragraph (3), aliens born in a contiguous foreign state who may be issued immigrant visas or who may otherwise acquire the status of an alien lawfully admitted to the United States for permanent residence are limited to—

"(A) family reunification immigrants described in section 203(a), in a number not to exceed in any fiscal year the number equal to (i) 83 percent of the overall numerical limitation for that contiguous foreign state for that fiscal year (described in the next sentence), plus (ii) the difference (if any) between the maximum number of visas which might have been issued under subparagraph (B) during the prior fiscal year for that foreign state and the number of visas issued under that subparagraph during that year, plus (iii) for fiscal year before fiscal year 1989, 8,300, but only available to aliens born in that contiguous state with a petition filed on their behalf (before the date of the enactment of the Immigration Reform and Control Act of 1982) for preference status by reason of a relationship described in paragraph (1), (2), (4), or (5) of section 203(a) (as such section was in effect on such date), and not to exceed in any of the first three quarters of any fiscal year 27 percent of the numerical limitation for all of such fiscal year, and

"(B) independent immigrants described in section 203(b), in a number not to exceed in any fiscal year the number equal to (i) 17 percent of the overall numerical limitation for that contiguous foreign state for that fiscal year (described in the next sentence), minus (ii) the number of special immigrants (other than those described in section 101(a)(27)(A)) who were born in that contiguous foreign state and who in the previous fiscal year were issued immigrant visas or otherwise acquired the status of aliens lawfully admitted to the United States for permanent residence, plus (iii) for fiscal years before fiscal year 1989, 1,700, but only available to aliens with a petition filed on their behalf (before the date of the enactment of the Immigration Reform and Control Act of 1982) for preference status by reason of paragraph (3) or (6) of section 203(a) (as such section was in effect on such date), and not to exceed in any of the first three quarters of any fiscal year 27 percent of the numerical limitation for all of such fiscal year.

"For purposes of this paragraph, the overall numerical limitation for a contiguous foreign state for a fiscal year is 40,000, plus the number by which 40,000 (or, for fiscal years before fiscal year 1989, 50,000) exceeds the number of aliens, who are not described in paragraph (3) and were born in the other contiguous foreign state, who were issued immigrant visas or otherwise acquired the status of an alien lawfully admitted for permanent residence in the previous fiscal year.

"(3) The aliens described in this paragraph, who are not subject to the numerical limitations described in paragraphs (1) and (2), are—

"(A) special immigrants defined in section 101(a)(27),

"(B) immigrants born to permanent resident aliens during a temporary visit abroad,

"(C) immediate relatives specified in subsection (b) of this section,

"(D) immigrants admitted under section 211(a) on the basis of a prior issuance of a visa to their accompanying parent who is such an immediate relative,

"(E) aliens who are admitted or granted asylum under section 207 or 208,

"(F) aliens provided records of permanent residence under section 214(d), and

"(G) aliens whose status is adjusted to permanent resident status under section 245A.".

(2) The first sentence of subsection (b) of such section is amended by striking out "children, spouses, and parents" inserting in lieu thereof "children, unmarried sons, unmarried daughters, spouses, and parents".

(b) Section 202(a) (8 U.S.C. 1152(a)) is amended—

(1) by striking out "(a) No person" and inserting in lieu thereof "(a)(1) Except as specifically provided in paragraph (2) of this subsection and in section 101(a)(27), 201(b), 203, and 214(d), no person",

(2) by striking out, "except as specifically" and all the follows up to the period at the end, and

(3) by adding at the end the following new paragraph:

"(2) The total number of immigrant visas made available to natives of any single foreign state under subsections (a) (other than paragraph (1) thereof) and (b) of section 203 shall not exceed in any fiscal year—

"(A) 20,000, in the case of any foreign state other than either of the two foreign states contiguous to the United States, or

"(B) in the case of either of the foreign states contiguous to the United States, the numerical limitation for the foreign state for that fiscal year described in section 201(a)(2).".

PREFERENCE AND NONPREFERENCE ALLOCATION SYSTEMS

SEC. 202. (a)(1) Section 203 (8 U.S.C. 1153) is amended—

(A) by redesignating subsections (b) through (e) as subsections (e) through (h), respectively, and

(B) by striking out subsection (a) and inserting in lieu thereof the following:

"(a) PREFERENCE ALLOCATION FOR FAMILY REUNIFICATION IMMIGRANTS.—Aliens subject to the numerical limitation specified in section 201(a)(1)(A) for family reunification immigrants and, separately for aliens born in each of the two contiguous foreign states, aliens subject to the numerical limitation specified in section 201(a)(2)(A) for family reunification immigrants shall be allotted visas as follows:

"(1) SPOUSES AND CHILDREN OF PERMANENT RESIDENT ALIENS.—Visas shall first be made available to qualifed immigrants, in a number not to exceed 36 percent of such respective numerical limitation plus any visas not required for the class specified in paragraph (4), who are the spouses or children of aliens lawfully admitted for permanent residence.

"(2) UNMARRIED SONS AND DAUGHTERS OF PERMANENT RESIDENT ALIENS.—Visas shall next be made available to qualified immigrants, in a number not to exceed 10 percent of such respective numerical limitation plus any visas not required for the class specified in paragraph (1), who are the spouses or the unmarried sons or unmarried daughters of aliens lawfully admitted for permanent residence.

"(3) MARRIED SONS AND DAUGHTERS OF CITIZENS.—Visas shall next be made available to qualified immigrants, in a number not to exceed 10 percent of such respective numerical limitation plus any visas not required for the classes specified in paragraphs (1) and (2), who are the married sons or married daughters of citizens of the United States.

"(4) BROTHERS AND SISTERS OF ADULT CITIZENS.—Visas shall next be made available to qualifed immigrants, in a number not to exceed 34 percent of such respective numerical limitation plus any visas not required for the classes specified in paragraphs (1) through (3), who are the brothers or unmarried sisters of United States citizens who are at least 21 years of age.

"(5) PARENTS OF PERMANENT RESIDENT ALIENS.—Visas shall next be made available to qualified immigrants, in a number not to exceed 10 percent of such respective numerical limitation plus any visas not required for the classes specified in paragraphs (1) through (4), who are at least 60 years of age and who are the parents of aliens lawfully admitted for permanent residence.

In allocating visa numbers to aliens under this section, aliens born in noncontiguous foreign states and dependent areas shall be treated as one group and aliens born in each of the contiguous foreign states shall be treated as separate groups.

"(b) ALLOCATION FOR INDEPENDENT IMMIGRANTS.—Aliens subject to the numerical limitation specified in section 201(a)(1)(B) for independents immigrants and, separately for aliens born in each of the two contiguous foreign states, aliens subject to the numerical limitation specified in or section 201(a)(2)(B) for independent immigrants shall be allocated visas as follows:

"(1) ALIENS OF EXCEPTIONAL ABILITY.—Visas shall first be made available in a number not to exceed such respective numerical limitation, to qualified immigrants who because of their exceptional ability in the sciences, arts, professions, or business will substantially benefit prospectively the national economy, cultural interests, or welfare of the United States and whose services in the sciences, arts, professions, or business are sought by an employer in the United States. In determining under this paragraph whether an immigrant has exceptional ability, the possession of a degree, diploma, certificate or similar award from a college, university, school, or other institution of learning, or of a license to practice or certification for a particular profession or occupation shall not by itself be considered sufficient evidence of such exceptional ability.

"(2) SKILLED WORKERS.—Visas not required for classes specified in paragraph (1) shall next be made available to qualified immigrants who are capable of performing skilled labor, not of a temporary or seasonal nature, for which qualified workers are not available in the United States.

"(3) INVESTORS.—Visas not required for classes specified in paragraphs (1) and (2), but in a number not to exceed 10 percent of such respective numerical limitation, shall be made available—

"(A) first, to qualified immigrants who have invested, or are actively in the process of investing, substantial capital (in an amount, not less than $250,000, set by the Attorney General) in an enterprise in the United States of which the alien will be a principal manager and which will benefit the United States economy and create full-time employment in a high unemployment area (as defined by the Attorney General, after consultation with the Secretary of Labor, and as determined at the time of the filing of a petition for classification under this paragraph) for not fewer than four eligible individuals (as defined in section 214(c)(3)(D)), other than the spouse or children of such immigrant, and

"(B) then, to qualified immigrants who have invested, or are actively in the process of investing, substantial capital (in an amount, not less than $250,000, set by the Attorney General) in an enterprise in the United States of which the alien will be a principal manager and which will benefit the United States economy and create full-time employment for not fewer than four eligible individuals (as defined in section 214(c)(3)(D)), other than the spouse or children of such immigrant.

"(4) UNSKILLED WORKERS.—Visas not required for classes specified in paragraphs (1) through (3) shall next be made available to qualified immigrants who are capable of performing unskilled labor, not of a temporary or seasonal nature, for which qualified workers are not available in the United States.
